To date the program has awarded the Doctor of Environmental Science and Engineering (D.Env.) degree to over 200 students, and UCLA remains unique in the country in awarding such a degree. Many graduates have gone on to occupy critical positions in environmental research, remediation, and policy throughout the major environmental agencies in California and the nation. Other graduates have risen to senior positions in private sector companies
conducted environmental research and remediation. Still other graduates are applying scientific solutions to environmental problems at national laboratories such as Oak Ridge and Lawrence Livermore Laboratories and at research institutes such as the RAND Corporation. Although many participating interdepartmental faculty members are from the College of Letters and Science and the Henry Samueli School of Engineering and Applied Science, the program is administered through the School of Public Health where a core faculty is based in the Department of Environmental Health Sciences. No undergraduate major or master's degree is offered.

The program is designed to train multidisciplinary professionals with an appropriate balance of breadth and specific skills, based on a strong master's-level foundation in a science or engineering discipline. The curriculum consists of formal coursework across a full spectrum of relevant physical, biological, social, and engineering disciplines, as well as interdisciplinary research training through nine-month problems courses. Because the D.Env. degree is not a specialized research degree in the manner of a Ph.D., the usual extended research training period in residence at UCLA associated with a Ph.D. is replaced by an 18- to 36-month internship in an appropriate government agency, national laboratory, or private industry, during which in-depth study of an environmental problem leads to a dissertation.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree

The Environmental Science and Engineering Program offers the Doctor of Environmental Science and Engineering (D.Env.) degree.

Environmental Science and Engineering

Graduate Courses

M266. Nonpoint Pollutant Sources and Transport Phenomena. (2) Same as Environmental Health Sciences M266.) Seminar, two hours. Critical analysis course with focus on advanced topics in origins, transport, and fate of nonpoint source pollutants, especially in runoff from urban watersheds. Basics of transport of hemic substances, methods to identify sources of pollutants in urban runoff, analysis of urban activities as potential sources, and methods to estimate loadings from particular urban watersheds. S/U grading.

400A. Environmental Science and Engineering Problems Course. (8) Discussion, eight hours. Primarily designed for environmental science and engineering doctoral students. Multidisciplinary technical and socioeconomic analysis and prognosis of significant current environmental problems. In Progress grading (credit to be given only on completion of courses 400B and 400C).

400B. Environmental Science and Engineering Problems Course. (8) Discussion, eight hours. Required: course 400A. Multidisciplinary technical and socioeconomic analysis and prognosis of significant current environmental problems. In Progress grading (credit to be given only on completion of course 400B).

400C. Environmental Science and Engineering Problems Course. (8) Discussion, eight hours. Required: course 400B. Multidisciplinary technical and socioeconomic analysis and prognosis of significant current environmental problems. Letter grading.

400D. Environmental Science and Engineering Problems Course. (8) Discussion, eight hours. Preparation: successful completion of internship approved by doctoral committee and program director. Required: courses 400A through 400D. Development of presentation skills. S/U grading.

410A-410B-410C. Environmental Science and Engineering Workshops. (2-2-2) Discussion, two hours. Primarily designed for environmental science and engineering doctoral students who are conducting research problems courses. Development of multidisciplinary skills essential to solution of environmental problems studied within courses 400A through 400D. Development of presentation skills. S/U grading.

M411. Environmental Health Sciences Seminar. (2) Same as Environmental Health Sciences M411.) Seminar, two hours. Required of graduate environmental health sciences students for one term each year. Current topics in environmental health sciences and environmental science and engineering. May be repeated for credit. S/U grading.

M412. Effective Technical Writing. (2) Same as Environmental Health Sciences M412.) Lecture, one hour. Essentials of grammar, punctuation, syntax, organization, and format needed to produce well-written journal articles, research reports, memoranda, letters, and résumés. Emphasis on accuracy, clarity, conciseness, and avoidance of common errors in advanced technical writing, using critique, exercises, and examples. S/U grading.

501. Cooperative Program. (2 to 8) Tutorial, to be arranged. Preparation: consent of UCLA graduate advisor and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.

Scope and Objectives

Epidemiology has been defined as the study of the distribution and determinants of disease and injury in human populations. Epidemiologists study variations of disease in relation to such factors as age, sex, race, occupational and social characteristics, place of residence, susceptibility, exposure to specific agents, or...
other pertinent characteristics. Also of concern are the temporal distribution of disease, examination of trends, cyclical patterns, and intervals between exposure to causative factors and onset of disease. The scope of the field extends from study of the patterns of disease to the causes of disease and to the control or prevention of disease. What distinguishes epidemiology from other clinical sciences is the focus on health problems in population groups rather than in individuals.

Epidemiology is a young field with constantly expanding boundaries. The range of activities that may be at least partly epidemiologic includes determination of the health needs of populations, investigation and control of disease outbreaks, study of environmental and industrial hazards, evaluation of preventive or curative programs or treatments, and evaluation of the effectiveness and efficiency of intervention or control strategies. Many tools of epidemiology are borrowed from other fields such as microbiology, immunology, medicine, statistics, demography, and medical geography.

There is a growing core of purely epidemiologic methodology that includes not only statistical methodology and principles of study design, but a unique way of thinking that is beyond the rote memorization of rules. The contribution of epidemiology to any study involving groups of people is being increasingly recognized and demanded.

Epidemiologists may work in many settings, including international health agencies, state and local health departments, federal government agencies and health programs, health maintenance organizations, colleges and universities, and numerous research projects privately and publicly sponsored.

The objectives of the Department of Epidemiology fall into three broad categories — research, teaching, and community service. Degrees offered include the M.S. and Ph.D. in Epidemiology and, through the School of Public Health, the M.P.H. and Dr.P.H. with a specialization in epidemiology (see Public Health Schoolwide Programs).

Graduate Study Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees The Department of Epidemiology offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Epidemiology.

Epidemiology

Upper Division Courses

100. Principles of Epidemiology. (4) Lecture, two hours; discussion, four hours. Preparation: one full biological sciences course. Not open for credit to students with credit for course 200A, 200B, or 200C. Introduction to epidemiology, including factors governing health and disease in populations. Letter grading.

197. Individual Studies in Epidemiology. (2 to 4) (Formerly numbered 199.) Tutorial, four hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

200A. Methods I: Basic Concepts and Study Designs. (6) Lecture, six hours; discussion, four hours. Enforced requisite or corequisite: Biostatistics 100A. Introduction to basic concepts, principles, and methods of chronic and infectious disease epidemiology. Letter grading.

200B. Methods II: Prediction and Validity. (6) Lecture, six hours; discussion, four hours. Enforced requisites: course 200A, Biostatistics 100A, 100B. Introduction to basic concepts, principles, and methods of chronic and infectious disease epidemiology. Letter grading.

202A. Epidemiology: Theory and Methodology. (4) Lecture, four hours. Requisite: course 200C. Advanced principles and methods of epidemiologic analysis. Topics include relating prevalence and incidence, analysis of clustering and seasonality; measures of effect, sources of bias, regression to mean, estimation and hypothesis testing in epidemiology; models for risk and rates; cohort analysis. S/U or letter grading.

203. Topics in Theoretical Epidemiology. (2) Lecture, two hours. Selected topics from current research areas in epidemiologic theory and quantitative methods. Topics selected from biologic models, epidemiologic models, problems in inference, model specification problems, design issues, analysis issues, and confounding. May be repeated for credit with consent of instructor. S/U grading.

221. Prevalent and Emerging Infectious Diseases in Workers. (4) Lecture, four hours. Requisite: courses 200A, 200B, and 200C (or 100). Biostatistics 100A, 100B. Designed for graduate students and medical doctors seeking broad knowledge and detail on prevalent and emerging infectious diseases, including influenza/acute respiratory infections, cholera/diarrheal disease, tuberculosis, hepatitis B, malaria, measles, neonatal tetanus, HIV/AIDS, pertussis (whooping cough). S/U or letter grading.

222. Arthropods as Vectors of Human Diseases. (4) Lecture, four hours. Requisites: courses 200A, 200B, and 200C (or 100). Comprehensive overview of morphology, systematics, natural history, host/vector/pathogen relationships, and spectrum of diseases carried by arthropods for graduate students, public health professionals, and medical doctors seeking information on global prevalence of arthropod-borne diseases. Letter grading.

233. Biology and Ecology of Human Parasitic Diseases. (4) Lecture, four hours. Information on all aspects of parasitic organisms causing human disease, including their morphology, biology, means of diagnosis, and diseases they cause. From epidemiological perspective, special emphasis on way in which parasites maintain themselves in nature and manner in which organisms are transmitted to people. Letter grading.

224. Zoonotic Diseases and Public Health. (4) Lecture, four hours. Examination of wide variety of infectious disease agents (viruses, bacteria, and protozoan and helminth parasites) causing diseases in individuals and populations. Emphasis on how these diseases exist in natural environment, how they are transmitted from animals to humans, and methods for their prevention and control. Letter grading.

225. Public Health Microbiology. (4) Lecture, four hours. Preparation: introductory microbiology. Requisites: courses 200A, 200B, and 200C (or 100). Corequisite: course 225L. Role of public health laboratory is to support testing needs of programs. To successfully fulfill this role, laboratory must provide information based on most sensitive and specific technologies available. Coverage of common infectious disease agents of public health importance and definition of impact of molecular biology on disease detection and epidemiology in modern public health laboratory. S/U or letter grading.

M226. Global Health Measures for Biological Emergencies. (4) (Formerly numbered 226.) (Same as Ecology and Evolutionary Biology M226.) Lecture, four hours; preparation, two hours. Presentation of epidemiologic, biologic, psychological, and clinical characteristics of AIDS and HIV-1 infection. Discussion of policy implications and intervention strategies. S/U or letter grading.

229. Epidemiology of Foodborne Illnesses. (2) Lecture, two hours. Requisites: courses 200A, 200B, and 200C (or 100), Biostatistics 100A. Food poisoning is significant cause of morbidity and mortality in both developing and developed world. Examination of etiologic agents of food poisoning and factors specific to foods that allow them to become agents of disease transmission. Description, analysis and interpretation of current and past studies on the etiologic agents of foodborne illness. Descriptions of strategies and programs to prevent foodborne disease. Letter grading.

230. Epidemiology of Sexually Transmitted Diseases. (4) Lecture, four hours. Requisites: courses 200A, 200B, and 200C (or 100). Sexually transmitted diseases; medical, biological, and behavioral aspects, epidemiology and control in developed and developing countries. S/U or letter grading.

231. Principles of Control of Infectious Diseases. (2) Lecture, two hours. Requisites: courses 200A, 200B, 200C, 220. Comprehensive study of tools for control of infectious diseases and application of these tools in public health programs to achieve epidemiologic impact on disease reduction, elimination, or eradication. Letter grading.

232. Methods in HIV/AIDS Epidemiology. (2) Lecture, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Introduction to range of different methodologies used to collect data and conduct analysis on reproductive epidemiology topics, including methods that produce qualitative and quantitative data and methods that produce qualitative data, with emphasis on use of methods appropriate for challenging and sensitive research topics such as behavior, abortion use, and sexual abuse. Letter grading.

240. Cardiovascular Epidemiology. (2) Lecture, two hours. Topics include definition, pathogenesis, descriptive epidemiology, magnitude of risk factors, strategies for prevention, lipoprotein metabolism, and epidemiology of diabetes, hypertension, and chronic lung disease. Letter grading.

241. Issues in Cancer Prevention Research and Policy. (2) Lecture, two hours. Development of more informed understanding of promise of preventive strategies for cancer and of philosophical, scientific, and practical challenges that these strategies entail. Designed to build on ideas that move from general to more specific to more directed learning.

243. Molecular Epidemiology of Cancer. (4) Lecture, four hours. Requisites: course 100, Biostatistics 100A. Presentation of epidemiologic, biologic, psychological, and clinical characteristics of AIDS and HIV-1 infection. Discussion of policy implications and intervention strategies. S/U or letter grading.

244. Research Methods in Cancer Epidemiology. (2) Lecture, two hours. Requisites: courses 200A, 200B, 200C (or 100), Biostatistics 100A. Presentation of epidemiologic, biologic, psychological, and clinical characteristics of AIDS and HIV-1 infection. Discussion of policy implications and intervention strategies. S/U or letter grading.

245. Epidemiological and Clinical Issues in Research on Aging. (2) Lecture, two hours. Overview of concepts and current epidemiological and clinical issues in research on aging. Presentations by current epidemiological and clinical researchers at UCLA and coverage of range of current research topics on aging, with focus on conceptual and methodological issues related to each topic area. S/U or letter grading.

248. Psychiatric Epidemiology. (2) Lecture, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Introduction to basic concepts and research methods in psychiatric epidemiology. Topics include case definition, study design, instrumentation, and epidemiology of selected psychiatric disorders. Letter grading.

249. Genetic Epidemiology I. (2) Lecture, two hours. Preparation: at least one course in epidemiology, biostatistics, and genetics. Basic concepts in emerging field of genetic epidemiology, with principal focus on genetic study of complex diseases, determining genetic contributions to disease, identifying genes, and characterizing their main effects and interactions with environmental factors. Letter grading.

250. Terrorism and Mass Destruction. (2) Lecture, two hours. In wake of terrorist attacks in several American cities, public health students and practicing professionals need understanding to deal with issues such as terrorism, behavior, addiction, use of drugs, and sexual abuse. Letter grading.

254. Nutritional Epidemiology. (2) Lecture, one hour; discussion, one hour. Preparation: at least one introductory epidemiology course. Introduction to study of foods and nutrients in causation or prevention of diseases. Discussion of methods for collecting data on diet, study design, data analysis, and specific research studies about nutritional influences on disease. S/U or letter grading.

255. Keeping Children Safe: Causes and Prevention of Pediatric Injuries. (2) (Same as Community Health M255.) Lecture, two hours. Injuries have been leading killer of children in U.S. for decades. Children have specific risk factors for injuries, many of which are preventable. Prevention of approaches to research and prevention of pediatric injuries. Letter grading.

256. Epidemiology of Obesity, Diabetes, and Related Disorders. (4) Lecture, two hours; laboratory, two hours. Preparation: basic biochemistry, epidemiology, molecular biology, physiology, and statistics courses. Survey of entire landscape of nutritional, biochemical, and genetic aspects of obesity and diabetes and their microvascular and macrovascular complications. Review of descriptive and analytical epidemiology of these seemingly distinct yet clearly clustered disorders, including so-called metabolic syndrome. Study of distributions and determinants of these disorders in Western society, an approach to appreciate how and why these epidemics occurred. Through case studies students learn process of generating etiologic hypotheses that can be tested using modern molecular epidemiologic methods. Techniques and principals of molecular genetics relevant to epidemiologic studies. Analysis of real data sets that include both genotype and phenotype information, with emphasis on examination of various gene-environment interactions. S/U or letter grading.

257. Disaster Epidemiology. (2) Lecture, two hours. Requisites: courses 200A, 200B, and 200C (or 100), Community Health Sciences 295. Introduction to epidemiologic methodology to study disasters and their health outcomes, including surveillance, loss estimation, risk factor assessment, intervention, and evaluation. Letter grading.

258. Environmental Epidemiology. (2 or 4) Lecture, three hours. Requisites: courses 200A, 200B, and 200C (or 100). Epidemiologic methods applied to evaluation of human health consequences of environmental hazards. Topics include air pollution, pestides, drinking water contaminants, use of GIS. Review of recently completed environmental studies published in peer-reviewed literature. S/U or letter grading.

259. Occupational Epidemiology. (4) Lecture, two hours; discussion, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Methodological considerations, approaches, and limitations in epidemiologic studies of occupational groups and environments. S/U or letter grading.
262. Seminar: Environmental and Occupational Cancer Epidemiology. (2) Seminar, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Discussion of examples of recent epidemiologic studies, with focus on environmental and occupational exposures, especially in areas where controversies have arisen such as for electromagnetic fields and childhood leukemia, and biocatalysts and perfluorinated methanes levels of drinking water. S/U or letter grading.

263. Exposure Assessment in Occupational and Environmental Epidemiology. (2) Lecture, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Exposure assessment is often most challenging aspect of epidemiologic studies of occupational and environmental hazards. Focus on integration of industrial hygiene, pharmacology, and epidemiology to improve exposure assessment protocols and exposure analyses for occupational/environmental health studies. S/U or letter grading.

265. Epidemiology Methods in Occupational and Environmental Health. (2) Lecture, two hours. Introduction to epidemiology methods applied to evaluation of human health consequences of occupational and environmental hazards, including study design, exposure assessment, and statistical techniques commonly encountered in research focused on assessing adverse health effects resulting from occupational and environmental exposures. Topics include clusters, meta-analysis, risk assessment, and policy development. Illustrated by case studies, with focus on techniques to critically evaluate and interpret current literature. Letter grading.

266. Global Health and Tropical Medicine. (2) Lecture, two hours. Introduction to tropical diseases and global health. How humanitarian health issues, maternal-child health, research in tropics, World Health Organizations, and political/medical constraints all are related with respect to health on worldwide scale. Letter grading.

267. Methodologic Issues in Reproductive Epidemiology. (2) Seminar, two hours. General discussion of methodologic issues important to epidemiologic studies of reproductive outcomes, including fertility, low birth weight, prematurity, birth defects, pregnancy loss, and perinatal mortality. Approaches to study design and exposure assessment and identification of potential sources of bias illustrated through review of recent studies published in literature and with particular focus on occupational and environmental exposures and birth outcome data. Letter grading.

268. Introduction to Pharmacoepidemiology. (2) Lecture, two hours. Requisites: courses 200A, 200B, and 200C. Pharmacoepidemiology is application of epidemiologic knowledge, reasoning, and methods to study of effects and risks using population-based surveys of contemporary roles of pharmacoepidemiology in drug development and public health, with historical background of its evolution and projections of future prospects. S/U or letter grading.

271. Assessing Validity of Complementary and Alternative Healthcare Procedures. (2) Lecture, two hours. Exploration of validity of alternative and complementary healthcare procedures, with special emphasis on disorders in field of neurology. Focus on methods of analyzing clinical and experimental research published in journals which provide support or refute claims associated with alternative and complementary procedures. Primary procedures include acupuncture, chiropractic, manipulation, massage, and herbal remedies. Letter grading.

273. Responsible Conduct of Research in Global Health. (2) Lecture, one hour; discussion, one hour. Requisite: Community Health Sciences 200. Introduction to fundamental principles of public health ethics, current ethical procedures, guidelines, and requirements, and ethical issues facing public health professionals working in developing countries. History of public health issues, unique ethical issues of research in developing countries, analysis of ethical implications of informed consent, role in community, mechanisms of study approval, role of funders, and role and responsibilities of review boards. S/U or letter grading.

280. Connecting Epidemiological, Medical, and Mathematical Aspects of Infectious Diseases. (4) Lecture, four hours. Requisites: courses 200A, 200B, 200C, 200D, 200E, 200F. To deepen and further integrate knowledge on infectious diseases, focus on small number of them to enable in-depth study. Each to be presented and discussed from three viewpoints that facilitate understanding: epidemiology, immunology and molecular basis, and epidemiologic and mathematical analysis. Letter grading.

290. Seminar: Epidemiology — Infectious and Tropical Disease. (2) Seminar, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Review of research on specific diseases of public health importance. May be repeated for credit. S/U or letter grading.

291. Seminar: Epidemiology — Methodology. (2) Seminar, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Review of current epidemiologic research contained in recent medical literature. May be repeated for credit. S/U or letter grading.

293. International HIV/AIDS Seminar. (2) Seminar, two hours. Ongoing discussion of worldwide pandem-

294. Epidemiology and Policy of Occupational and Environmental (2) Seminar, two hours. Requisites: courses 200A, 200B, and 200C (or 100) and/or 260. Discussion of recent literature. Presentations by fellows from other countries. S/U or letter grading.

296. Epidemiology and Policy of Occupational and Environmental (2) Seminar, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Introduction to demands that go beyond pure science, with focus on issues such as risk communication, potential influence (and ethics) of oversight panels and external review groups on presenting results and conclusions, and interest of government agencies. S/U or letter grading.

297. Seminar: Epidemiology — Cancer. (2) Seminar, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Discussion of basic concepts of cancer epidemiology and review of current epidemiological research in cancer in recent medical and epidemiological literature. May be repeated for credit. S/U or letter grading.

298. Seminar: Population Genetics and Nutrition. (2) Seminar, three hours. Preparation: basic courses in biochemistry, epidemiology, molecular biology, physiology, and statistics. Designed for second-year master’s and doctoral students. Lectures, student presentations, and discussion of key topics of current interest in two- and gene-nutrient interaction. Assessment of significant area of study in nutrition and genomics in seed group projects. Applications cover cancer, cardiovascular disease, diabetes, and obesity. Student projects focus on estimating morbidity and mortality, developing intervention or prevention strategies, and setting program priorities in Third World settings. Letter grading.

299. Seminar: Epidemiology — Cancer. (2) Seminar, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Introduction to basic concepts of cancer epidemiology and review of current epidemiological research in cancer in recent medical and epidemiological literature. May be repeated for credit. S/U or letter grading.

357. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

400. Field Studies in Epidemiology. (2 or 4) Fieldwork, to be arranged. Field study and observation in selected areas of public health practice, including field investigation or medical care. Students must file field placement and program training documentation on form available from Student Affairs Office. May not be applied toward M.S. minimum course requirement; 4 units may be applied toward 44-unit minimum total required for M.P.H. degree. Letter grading.

402. Advanced Data Analysis in Occupational and Environmental Epidemiology. (2) Lecture, four hours. Preparation: one data management course. Requisites: courses 200B and 200C, or 200B and 200D. Development of strategies for analyzing data in occupational and environmental settings. Use of multivariate data analysis techniques typically used in occupational cohort studies, nested case-control studies, and ecologic studies in environmental epidemiology. S/U or letter grading.

M406. Preparing for Smallpox or Other Bioterrorist Events. (2) Same as Community Health Sciences M406. Lecture, two hours. Major current public health issue is massive effort to prepare for possible bioterrorist events. Practical application of principles of epidemiology and public health in preparing for smallpox or other bioterrorist events. Letter grading.

410. Management of Epidemiologic Data. (2) Lecture, two hours. Data management for various epidemiologic study designs, confidentiality concerns; data management systems; introduction to mainframe computer. S/U or letter grading.

411. Research Resources in Epidemiology. (2) Lecture, one hour; discussion, one hour. Instruction and practical experience in use of varied bibliographic aids and sources of information, building of reference files, and presentation of research findings for publication in other venues.

412. Public Health Surveillance. (2) Lecture, two hours. Requisites: courses 200A, 200B, and 200C (or 100). Biostatistics 100A. Overview of public health surveillance methodology, including (1) design, implementation, and evaluation of surveillance systems, (2) analysis and interpretation of surveillance data, and (3) application of surveillance methods to specific health-related outcomes. Letter grading.

413. Methods of Scientific Communication. (2) Lecture, two hours. Requisites: course 100 or 200. Principles of scientific writing and communication. Approaches to developing effective written, oral, and visual presentations of epidemiologic research findings. Communication issues arising in conduct of research, including informed consent process. S/U or letter grading.

414. Practical Epidemiologic Investigations. (2 or 4) Lecture, one or two hours; laboratory, one or two hours. Requisite: course 100 or 200. Practical approaches to epidemiologic investigations presented through problem sets based on actual outbreaks. Data collection, analysis, and written presentation of findings. Letter grading.

415. Epidemiology for Developing Countries. (4) Lecture, four hours. Requisites: courses 100 and/or 200, Biostatistics 100A. Practical use of epidemiologic, mathematical, and computational methods for estimating morbidity and mortality, developing intervention or prevention strategies, and setting program priorities in Third World settings. Letter grading.

418. Rapid Epidemiologic Surveys in Developing Countries. (4) Same as Community Health Sciences M418. Lecture, four hours. Requisites: courses 100 and/or 200, Biostatistics 100A. Presentation of how to do health surveys in Third World countries. Practical assistance for planning and organizing surveys, including use of microcomputers to develop and test questionnaire, select sample, process and analyze data, and prepare final report. Letter grading.
419. Applications in Musculoskeletal Epidemiology. (4) Lecture, two hours; laboratory, two hours. Requisites: course 100 or 200 (may be taken concurrently). Biostatistics 100A. Introduction to principles and practical issues of epidemiologic data analysis for addressing musculoskeletal-related hypotheses. Use of data sets from relevant components of National Health Interview Survey and from musculoskeletal-related epidemiologic studies. Use of SAS programming language, with applications in both UNIX and Windows. Letter grading.

420. Field Epidemiology in Developing Countries. (2) Seminar, two hours. Requisite: course 100 or 200A or 200B. Introduction to practical concepts and issues in conducting epidemiologic field research in developing countries, including formulating research questions, study site selection, ethical considerations, and logistics of data and specimen collection. S/U or letter grading.

495. Teacher Preparation in Epidemiology. (2) Seminar, two hours. Preparation: 18 units of cognate courses in area of specialization. May not be applied toward master's degree minimum total course requirement. May be repeated for credit. S/U grading.

501. Cooperative Program. (2 to 8) Tutorial, to be arranged. Preparation: consent of UCLA graduate advisor and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. No more than 8 units may be applied toward master's degree minimum total course requirement; may not be applied toward minimum graduate course requirement. S/U grading.

596. Directed Individual Study or Research. (2 to 8) Tutorial, to be arranged. Limited to graduate students. Individual guided studies under direct faculty supervision. Only 4 units may be applied toward M.P.H. and M.S. minimum total course requirement. May be repeated for credit. S/U or letter grading.

597. Preparation for Master's Comprehensive or Doctoral Qualifying Examinations. (2 to 12) Tutorial, to be arranged. Limited to graduate students. May not be applied toward any degree course requirements. May be repeated for credit. S/U grading.

598. Master's Thesis Research. (2 to 8) Tutorial, to be arranged. Only 4 units may be applied toward M.P.H. and M.S. minimum total course requirement; may not be applied toward minimum graduate course requirement. May be repeated for credit. S/U grading.

599. Doctoral Dissertation Research. (2 to 12) Tutorial, to be arranged. May not be applied toward any degree course requirements. May be repeated for credit. S/U grading.

**Scope and Objectives**

Ethnomusicology involves the study of all kinds of music from all over the world, using a variety of disciplinary perspectives. The Department of Ethnomusicology, the largest and first of its kind in a U.S. university, offers courses that cover the music of virtually every region of the world and of many ethnic groups in the U.S., as well as courses on jazz, popular music, and film music. Most courses combine an interest in music as an art form with questions about how musical art and practice relate to other aspects of culture, society, politics, and economics. Courses are also given on the philosophy and aesthetics of music and the study of music perception and cognition using experimental methods. In addition to academic courses, the department offers performance ensemble courses in jazz and several world and American music traditions. At the undergraduate level most of the performance courses are open to nonmajors, and many academic courses target nonmajors; prior knowledge of music is not expected or required.

The undergraduate major in Ethnomusicology is offered with two concentrations: one in jazz studies and one in world music with emphases in general world music, performance/composition, public ethnomusicology, and scholarly research. Admission requires an audition/interview. The major provides students with a wide-ranging liberal arts education in music. At its core, this includes (1) comprehensive knowledge of music cultures of the world, (2) understanding of the interrelationship of music, society, and culture, (3) grounding in the basics of Western music theory and musicianship, and (4) the experience of playing in one or several musical ensembles from various traditions around the world.

The concentration in jazz studies seeks to produce students who emerge as outstanding and well-rounded jazz musicians with a strong academic foundation, and to prepare students to enter professional careers in the music world, as well as graduate study in various aspects of music such as composition, arranging, film scoring, jazz performance, research, and teaching.

Beyond the core and emphasis requirements, students in the world music concentration may, through elective courses, prepare for a variety of career goals, including the study of ethnomusicology in graduate school, composing and performing music, working in the music industry, serving society in the nonprofit sector, or becoming a K-12 music teacher.

At the graduate level, the department offers M.A. and Ph.D. degrees in Ethnomusicology, with a specialization in systematic musicology. Both degree programs train students for future university teaching careers, as well as careers in library science and archiving, the music industry, public service, and music technology. The department provides fellowships, teaching assistantships, and research assistantships for qualified students.

**Undergraduate Study**

**Ethnomusicology B.A.**

**Admission**

Applicants are reviewed individually, based on a questionnaire, grade-point average, two letters of recommendation, test scores, a personal statement of purpose, and an interview/audition. Applicants who are unable to travel to UCLA have the option of submitting a videotape of musical performance, following departmental guidelines.

**Preparation for the Major**

**Required:** Ethnomusicology 10A, 10B, 10C, 11A, 11B, 11C, 20A, 20B, 20C, and 12 units of performing music or performance-oriented instruction in music (courses 91A through 91Z or 92).

**The Major**

**Jazz Studies Concentration**

**Required:** Ethnomusicology CM110A, CM110B, M111, 120A, 120B, 127A, 129A, 129B, 129C, 183, 186, 12 units of course 171, 12 units of course 177, and one elective course selected from the general world music emphasis (see departmental counselor for course list).
World Music Concentration

Required: Ethnomusicology 175 or 181, 183; 12 units from courses 161A through 161Z or 162; and eight courses (32 units) from one of the four ethnomusicology emphases: (1) general world music, (2) performance/composition, (3) public ethnomusicology, or (4) scholarly research. See the department counselor for the list of courses for each emphasis.

Emphases (32 units minimum): To select an emphasis, students who entered the program as freshmen must submit an application to the department in the Fall Quarter of their third year in the program. Students who entered as transfers must select their emphasis during the first year of training at UCLA. The application must include (1) an up-to-date transcript, (2) a concise statement by the students explaining why the emphasis has been selected and how it will prepare them for their career goals, and (3) the approval of a faculty member who is a specialist in the emphasis. Students who decide on the general world music emphasis do not need to submit an application.

General World Music (for students interested in general training in world music): In addition to the lower and upper division core requirements, a minimum of eight 4-unit courses is required. Four 4-unit courses must be selected from one of the following groupings — (1) Americas, (2) Africa and Asia, (3) popular music and jazz, and (4) aesthetics, politics, and psychology of music. Students may complete the remaining four courses with other upper division ethnomusicology courses listed under this emphasis, with courses from other emphases, or with Ethnomusicology 188, 197E, or 197S courses.

Performance/Composition (for students interested in a career in performance and/or composition): Students who select this emphasis must have a 3.5 grade-point average in departmental lower division core courses and a cumulative 3.0 GPA at the time of application. In addition to the lower and upper division core requirements, a minimum of eight 4-unit courses is required. Students must take four 4-unit courses in this emphasis and an additional two 4-unit courses in the general world music emphasis. Students must fulfill the internship requirement, which consists of three terms (8 units minimum) of Ethnomusicology 195, in an institution approved by the faculty sponsor. Students must write a final research paper (at least 10 pages) at the completion of each internship.

Scholarly Research (for students interested in pursuing graduate study): Students who select this emphasis must have a 3.5 grade-point average in departmental lower division core courses and a cumulative 3.25 GPA at the time of application. In addition to the lower and upper division core requirements, a minimum of eight 4-unit courses is required. Students must take four 4-unit courses in this emphasis and may complete the remaining four courses with other upper division ethnomusicology courses listed under this emphasis, with courses from other emphases, or with Ethnomusicology 188, 197E, or 197S courses. Students must also write a thesis (25 to 30 pages) and enroll in Ethnomusicology 199 for at least one term while writing the thesis.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Ethnomusicology offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Ethnomusicology.

Ethnomusicology

Lower Division Courses

5. Music Around World, (5) Lecture, four hours; discussion, one hour; outside study, 10 hours. Overview of world’s musical traditions by selecting one or two case studies from each of nine musical world regions: Pacific; East Asia; Southeast Asia; South Asia; Middle East; Africa; Europe; Latin America; and the U.S. and Canada. P/NP or letter grading.

10A-10B-10C. World Music Theory and Musician- ship, (5-5-5) Lecture, two hours; discussion, four hours; laboratory, two hours; outside study, seven hours. Course 10A is requisite to 10B, which is requisite to 10C. Limited to Ethnomusicology and World Arts and Cultures majors. Introduction to and participation in musical systems of selected world cultures throughaural and written notations, vocal and instrumental skills, melodic and rhythmic dictation, improvisation, and composition. Letter grading.

11A-11B-11C. World Music Systems and Structures, (5-5-5) Lecture, four hours; discussion, four hours; outside study, seven hours. Requisite: course 10C. Course 11A is requisite to 11B, which is requisite to 11C. Limited to Ethnomusicology majors. Students must receive grade of C or better to proceed to next course. Advanced study and analysis of musical systems and aesthetic concepts from selected world cultures throughaural and written notations, vocal and instrumental skills, melodic and rhythmic dictation, improvisation, and composition. Letter grading.

15. American Life in Music, (4) Lecture, three hours. Impact of ethnicity, race, gender, and other social processes on American music in the late 20th century; development of African American music and its influence on development of many different countries, with introduction to basic ethnomusicological concepts and development of listening and analytical skills. P/NP or letter grading.

20A-20B-20C. Musical Cultures of the World, (5-5-5) Lecture, four hours; discussion, one hour; outside study, 10 hours. Traditional and popular musics from many different countries, with introduction to basic ethnomusicological concepts and development of listening and analytical skills. P/NP or letter grading.

20A. Europe and Americas, 20B. Africa and Near East; 20C. Asia.

25. Global Pop, (5) Lecture, four hours; discussion, one hour. Exploration of ways music is mediated and its meaning and importance to contemporary culture as well as its history and impact. P/NP or letter grading.

30. Music and Media, (5) Lecture, four hours; discussion, one hour. Survey of development of world music or world beat, including its meaning and importance to contemporary culture as well as its history and impact. P/NP or letter grading.

35. Blues, Society, and American Culture, (5) Lecture, four hours; discussion, one hour. Sociocultural history and survey of blues music tradition from its roots in West Africa to its emergence in African American oral culture, with emphasis on philosophical underpinnings and social and political impact of blues and its influence on development of country, jazz, gospel, rhythm and blues, rock, hip-hop music, and other mediums. P/NP or letter grading.

40. Music and Religion, (5) Lecture, four hours; discussion, one hour. Survey of nature, role, and power of music in religious rituals around world, covering music and ritual of Hinduism, Buddhism, Judaism, Christianity, and Islam, as well as religious traditions of Native Americans and syncretic religious practices in Americas such as African American gospel music, Brazilian Candomble, Cuban Santeria, and Haitian Vodoun. Letter grading.

45. Music of Bollywood and Beyond, (5) Lecture, four hours: discussion, one hour; outside study, 10 hours. History and development of South Asian film scores in their fimmic context, especially omnipresent songs that most distinctively characterize this genre. P/NP or letter grading.

50A-50B. Jazz in American Culture, (5-5) Lecture, four hours; discussion, one hour. Course 50A is not requisite to 50B. Survey of development of jazz in American culture. Discussion of different composition-performance techniques and approaches that distinguish different sub-styles of jazz from one another, as well as key historical figures that shaped development of jazz from its early years through modern jazz. Important historical social issues (segregation, Depression, World War II, Civil Rights Movement) that intersect with history of U.S. and jazz music. P/NP or letter grading. 50A, Late 19th Century through 1940s; 50B, 1940s to Present.
**C100. Audiovisual Archiving in 21st Century.** (4) Seminar, three hours. Designed for Ethnomusicology majors. Examination of history, present state, and future of audiovisual archives, with specific focus on ethics, copyright, contracts, fieldwork, preservation, and access. May be repeated for credit without limitation. P/NP or letter grading.

**105. Music Business.** (4) Lecture, four hours; outside study, eight hours. Designed for junior/senior Ethnomusicology majors in public ethnomusicology emphasis. How music industry functions and how products are created, marketed, and consumed. Basic information on production of recordings and legal issues faced by the industry, as well as by students and scholars who use music in their work. P/NP or letter grading.

**106B. Contemporary North American Indian Music.** (4) Lecture, three hours; discussion, one hour. Contemporary Native North American musical expression, including popular styles (folk, country, rock), intertribal Indian musical genres (powwow), syncretic religious music, and traditional/historic Pan-Indian music. P/NP or letter grading.

**107. South American Indian Music.** (4) Lecture, four hours; outside study, eight hours. Native South American traditional music and its role in indigenous societies. Topics include relationship between speech and song, use of music by shamans, musical structures, and use of indigenous music in creating nationalist and popular music styles. Letter grading.

**C108A-C108B. Music of Latin America.** (4-5) Lecture, four hours; discussion, one hour. Course C108A is not requisite to C108B. Survey of traditional and contemporary musical culture. P/NP or letter grading.

**M108A.** Mexico, Central America, and Caribbean Isles. (Same as Chicana and Chicano Studies M108A.) 108B. Latin South America.

**M109. Women in Jazz.** (4) (Same as Afro-American Studies M109 and Women's Studies M109.) Lecture, four hours; discussion, one hour. Sociocultural history of women in jazz and allied musical traditions from 1880s to present. Survey of women vocalists, instrumentalists, composers/arrangers, and producers and their impact on development of jazz. P/NP or letter grading.

**CM110A-CM110B. African American Musical Heritage.** (5-5) Same as Afro-American Studies CM110A. Lecture, three hours; discussion, one hour. Concurrently scheduled with courses CM210A-CM210B. P/NP or letter grading. CM110A. Sociocultural history and survey of African American music. Focus on Africa and its impact on America; music of 17th through 19th century; minstrelsy and its impact on representation of blacks in film, television, and theater; religious music, including hymns, spirituals, and gospel; and music of Caribbean and Central and South America; and music of black Los Angeles. CM110B. Sociocultural history and survey of African American music covering blues, pre-1947 jazz styles, rhythm 'n' blues, soul, funk, disco, hip-hop, and their role in recording industry and effects of cultural politics on black popular music productions.

**M111. Ellingtonia.** (4) Same as Afro-American Studies M114.) Lecture, three hours. Music of Duke Ellington, his life, and far-reaching influence of his efforts. Ellington’s music, known as “Ellingtonia,” is one of largest and perhaps most important bodies of music ever produced in U.S. Covers many contributions of other artists who worked with Ellington, such as composers Billy Strayhorn and musicians Johnny Hodges,ooties Williams, and Mercer Ellington. P/NP or letter grading.

**CM112. African American Music in California.** (4) Same as Afro-American Studies CM112A.) Lecture, four hours. Historical and analytical examination of African American music in California, including history, musical patterns, and social and political factors that determined its development in local music industry. P/NP or letter grading. CM113. Music of Brazil. (4) Lecture, three hours. History of music and art in Brazil, with some reference to Portuguese antecedents.

**M115. Musical Aesthetics in Los Angeles.** (4) Same as Chicana and Chicano Studies M115.) Lecture, three hours. Controverting aesthetics from classical perspective of art as intuition, examination on cross-cultural basis of diverse musical contexts within vast multicultural metropolis of Los Angeles, with focus on various musical networks and specific experiences of Chicano/Latino, African American, Asian, rock culture, Western art music tradition, and commercial music industry. P/NP or letter grading.

**M116. Chicano/Latino Music in U.S.** (4) Same as Chicana and Chicano Studies M116.) Lecture, four hours; discussion, one hour. Historical and analytical examination of musical expression of Latino peoples who have inhabited present geographical boundaries of U.S. P/NP or letter grading.

**117. American Popular Music.** (4) Lecture, four hours; discussion, one hour. Survey of history and characteristics of American popular music and its relationship to American culture, with emphasis on 20th-century popular music and its major composers, including comparison between traditional pre-1950 popular music and trends in post-1950 popular music. P/NP or letter grading.

**118. Development of Rock.** (5) Lecture, four hours. Examination of historical and stylistic development of rock from the 1950s to the present, with attention to its sociocultural and political impact on American society and beyond. P/NP or letter grading.

**M119. Cultural History of Rap.** (5) Same as Afro-American Studies M1107.) Lecture, four hours; discussion, one hour. Introduction to development of rap music and hip-hop culture, with emphasis on musical and verbal qualities, philosophical and political ideologies, gender representation, and influences on cinema and popular culture. P/NP or letter grading.

**120A-120B. Development of Jazz.** (4-4) Lecture, four hours; discussion, one hour. Introduction to jazz; its historical background in the U.S.

**121. Cross-Cultural Perspectives in Jazz.** (4) Exploration of assimilation and retention of jazz from the U.S. in various countries, with particular emphasis on cultural and social features which form the basis for new jazz-ethnic music blends.

**C122A-C122B-C122C. Jazz Styles and Analysis.** (4-4-4) Lecture, four hours; outside study, eight hours. Designed for Ethnomusicology, Music, and Music History majors. In-depth analysis of jazz styles and repertoire intended for students with music backgrounds. Concurrently scheduled with courses C222A-C222B-C222C. Letter grading. C122A. Early Jazz to Swing Era; C122B. Bebop to Avant-garde; C122C. Jazz since the Sixties.

**123. Music of Bebop.** (4) Lecture, three hours. Study of jazz bebop tradition, including analysis of compositions and song forms, styles of improvisation, and developments from 1940 to the present.

**125A-125B-125C. Jazz Composition and Arrangement.** (2-2-2) Lecture, two hours; outside study, four hours. Examination of various aspects of jazz composition. Differentiation between improvisation and notated composition, as well as between composition and arranging, and introduction to basic arranging concepts. Letter grading. 125A. Early Jazz to Swing Era; 125B. Bebop to Avant-garde; 125C. Jazz since the Sixties.

**126A. Introduction to Jazz Arranging and Orchestration.** (2) Seminar, two hours. Requisite: course 125C. Study and practice of skills used in arranging and orchestrating music. Students create and orchestrate their own arrangements. Study of specific instruments and their unique use and application in jazz; jazz notation and terminology, transposition, doubling, and-arranging techniques. Writing for smaller ensembles, culminating with arrangements to be read by one UCLA Jazz Combo. Letter grading.

**126B. Jazz Arranging and Orchestration.** (2) Seminar, two hours. Enforced requisites: courses 125A, 125C. Continuation of concepts from course 125A, with focus on full sectional writing and in-depth score analysis. Culminates with arrangements to be read by UCLA Jazz Orchestra I. Letter grading.

**126C. Advanced Jazz Arranging and Orchestration.** (2) Seminar, two hours. Enforced requisites: courses 125A, 125B, 125C. Continuation of concepts from course 125B, with focus on contributions of noteworthy arrangers/orchestralists. Culminates with arrangements to be read by UCLA Jazz Orchestra I. Letter grading.

**127A-127B-127C. Jazz Keyboard Harmony I, II, III.** (2-2-2) Formerly numbered 127.) Laboratory, two hours; outside study, four hours. Requisites: courses 111A, 111B, 111C. Course 127A is enforced requisite to 127B, which is enforced requisite to 127C. Not open for enrollment to undergraduates with credit for former course 127. Study of jazz harmony through use of piano keyboard. Letter grading.

**129A-129B-129C. Jazz Theory and Improvisation.** (2-2-2) Lecture, four hours; outside study, eight hours. Elements of jazz theory and improvisation. Letter grading. 129A. Basic jazz harmonic constructions, as well as melodic, rhythmic, and harmonic concepts, and how to apply those elements to personal efforts in improvisations. 129B. Requisite: course 129A with a grade of C or better. Medium-level jazz harmonic constructions. 129C. Requisite: course 129B with a grade of C or better. Advanced-level jazz harmonic constructions.

**M130. Culture of Jazz Aesthetics.** (4) (Same as Anthropology M142R and World Arts and Cultures M136.) Lecture, three hours. Requisite: course 20A or 26B or 26C or Anthropology 9 or 33 or World Arts and Cultures 20. Aesthetics of jazz from point of view of musicians who shaped jazz as art form in 20th century. Listening to and interacting with professional jazz musicians who answer questions and give musical demonstrations. Examines knowledge of musicians and ethnomusicologists combined with those interested in jazz as cultural tradition. P/NP or letter grading.

**M131. Development of Jazz.** (4) (Same as Music M131.) Lecture, four hours; discussion, one hour. Survey of historical and stylistic development of musical style referred to today as “Latin jazz.” P/NP or letter grading.
133. European Musics: Politics, Identities, Nationalisms. (5) Lecture, four hours; outside study, 12 hours. Limited to Ethnomusicology, Music, Musicology, Russian & Slavic Studies majors. European folk, popular, and classical music as practice that shapes ideas about national, ethnic, class, and religious identity and as tool of political domination and resistance. Letter grading.

C136A. Music of Africa. (5) Lecture, four hours; discussion, one hour; outside study, 10 hours. Introduction to music of Africa through general discussion of select topics and its peoples, functions, instrument, instruments, music culture and related arts, and contemporary music. Concurrently scheduled with course C236A. P/NP or letter grading.

C136B. Music of Africa. (4) Lecture, four hours; outside study, eight hours. Introduction to music of various African cultures and regions. Through readings, lectures, viewing of films, and analysis of music, students gain greater understanding of diverse musical traditions found on African continent and become more cognizant of contributions that people of Africa have made to world music. Concurrently scheduled with course C236B. Letter grading.

146. Folk Music of South Asia. (5) Lecture, three hours; laboratory, one hour. Introductory survey of some regional genres, styles, and musical instruments found in India and Pakistan, with special reference to religious, social, economic, and cultural context of their occurrence.

147. Survey of Classical Music in India. (4) Examination of melodic, metric, and formal structures of Indian classical music in context of religious, sociocultural, and historical background of the country.

C150. Music and Politics in East Asia. (4) Lecture, four hours. Limited to Ethnomusicology, Music, Music History, World Arts and Cultures, Chinese, Japanese, Korean, and East Asian Studies majors. Political imperatives have long had a direct and often explicit impact on music sound and context in East Asia. Examination of interaction of ideology and musical practice in medieval Korea and in contemporary Korea, Japan, Taiwan, and China. Concurrently scheduled with course C250. Letter grading.

C156A. Lecture, four hours. Requisite: course 20C. Limited to Ethnomusicology majors. Survey of traditional, popular, and Western-influenced music currently widespread in China, including musical analysis of different genres; examination of contexts in which they exist; their sound and effectiveness; Confucian and Communist ideologies on music. Concurrently scheduled with course C256A. 156B. Lecture, three hours; laboratory, two hours. Requisite: course C156A. Introduction to various notational systems. Analysis of representative works.

158A-158B-158C. Studies in Chinese Instrumental Music. (4-4-4) Lecture, three hours; laboratory, one hour. 158A. Study of literature, major sources, paleography, theory, and philosophy of the P’i Pa, including transcription and analysis. 158B. Study of literature, major sources, paleography, theory, and philosophy of the P’i Pa, including transcription and analysis. 158C. Comprehensive study of Chinese musical instruments, classification system, specific musical notation, and use in context of Chinese society.

C159. Music on China’s Periphery. (4) Lecture, four hours; outside study, eight hours. Designed for undergraduate Basic, Music History, and World Arts and Cultures majors. Study of music from China’s border regions and neighboring countries: technical musical characteristics and important historical contexts related to traditional and modern styles from Mongolia, Uighurs of Xinjiang, Tibet, Tibe-to-Burman peoples, Hmong, and indigenous peoples of Taiwan. Concurrently scheduled with course C259. P/NP or letter grading.

161A-161Z. Advanced World Music Performance Organizations. (2 each) Activity, three hours; outside practice, three hours. Limited to Ethnomusicology majors. Advanced study of traditional vocal and instrumental world music. May be repeated for credit without limitation. Letter grading.

162. Advanced Private Instruction in Music. (2) Study, one hour; outside study, five hours. Preparation: two years of courses 91A through 912 or 92. Limited to Ethnomusicology majors. Advanced private or semiprivate music instruction with distinguished community-based faculty members, to be arranged by students and approved by course instructor. May be repeated for credit without limitation. Letter grading.

164. World Music Composition. (4) Lecture, three hours; laboratory, three hours; outside study, six hours. Requisites: courses 11A, 11B, 11C. Limited to Ethnomusicology majors. Examination in composition using variety of Western and non-Western musical systems. Final project required. Letter grading.

C169. Music, Science, and Technology. (4) Lecture, four hours; laboratory, four hours; outside study, four hours. Designed for Ethnomusicology, Music, and Music History majors. Application of science and technology for both creation and dissemination of music. Introduction to tools and techniques such as CD mastering, digital sampling, recording, and music synthesis, as well as scientific principles underlying such technologies. Concurrently scheduled with course C269. Letter grading.

170. Acoustics. (4) Lecture, four hours; discussion, one hour. Interrelation of acoustical and musical phenomena. Tuning systems, consonance and dissonance, sound quality, timbre, and perceivers of music. Discussion of musical instruments and acoustical research facilities.

171. Instruction in Advanced Jazz Performance. (2) Laboratory, one hour. Preparation: advanced performance experience as jazz musician. Study of jazz repertoire and techniques for specific instruments and voice. May be repeated for a maximum of 12 units.

172A. Cognitive Psychology of Music. (4) Lecture, four hours; discussion, one hour. Designed for nonmajors. Introduction to psychology of music; historical background and the broad field of study, including use of music as a stimulus, tests and measurements, and related modes of musical behavior. P/NP or letter grading.

175. Psychology of Film Music. (4) Lecture, four hours; outside study, eight hours. Exploration of music as a stimulus, tests and measurements, and related modes of musical behavior. P/NP or letter grading.

C176. Psychology of Film Music. (4) Lecture, four hours; outside study, eight hours. Exploration of music as a stimulus, tests and measurements, and related modes of musical behavior. P/NP or letter grading.

177. Jazz Combo. (2) Activity, two hours; laboratory, four hours. Small group performance of four hours per week in ensembles of three to 10 musicians. Minimum of 12 units required for jazz studies concentration students. May be repeated for maximum of 18 units. Letter grading.

181. Anthropology of Music. (4) Designed for Ethnomusicology, Music History, and Anthropology majors. Cross-cultural examination of music in context of social behavior and how musical patterns reflect patterns exhibited in other cultural systems, including economic, political, religious, and social structure.

C182. Music Industry. (4) (Formerly numbered C182.) (Same as Music CM182 and Music History CM186.) Lecture, four hours; outside study, eight hours. Limited to Ethnomusicology, Music, and Music History majors. Examination of influence of music industry on way music is created, performed, listened to, evaluated, and used today. Historical approach taken, beginning with music published in 18th century and continuing through developments in recording technology, and music distribution to MTV and popular music today. Concurrently scheduled with course CM288. Letter grading.

183. Study of Ethnomusicology. (4) Lecture, three hours; outside study, nine hours. Requisites: courses 10A, 10B, 10C, 20A, 20B, 20C. Designed for Ethnomusicology majors. Introduction to history of field, basic fieldwork and analysis methods, and current issues in research. Letter grading.

C184. Public Ethnomusicology. (4) Lecture, four hours; outside study, eight hours. Designed for Ethnomusicology majors. How music industry functions and how products are created, marketed, and consumed. Techniques of pure research in the social sciences and the philosophy of science and empiricism, experimental semantics and aesthetics, acoustics, musical learning theory, psychology of music, psycholinguistics, and related disciplines as applied to musical scholarship based on theory and model building. Concurrently scheduled with course C286. Letter grading.

CM182. Music Industry. (4) (Formerly numbered C182.) (Same as Music CM182 and Music History CM186.) Lecture, four hours; outside study, eight hours. Limited to Ethnomusicology, Music, and Music History majors. Examination of influence of music industry on way music is created, performed, listened to, evaluated, and used today. Historical approach taken, beginning with music published in 18th century and continuing through developments in recording technology, and music distribution to MTV and popular music today. Concurrently scheduled with course CM288. Letter grading.

193. Journal Club Seminars: Ethnomusicology. (2) Seminar, two hours; outside study, four hours. Limited to undergraduate students. Reading and discussion of written material in the field of ethnomusicology. May be repeated for credit. P/NP grading.

195. Community or Corporate Internships in Ethnomusicology. (2 to 4) Tutorial, six to 12 hours. Limited to juniors/seniors with minimum cumulative 3.0 grade-point average. Internship in supervised setting in community agency or private business. Students meet on regular basis with instructor and provide periodic reports of their experience. May be repeated for maximum of 8 units. Individual contract with supervising faculty member required. P/NP or letter grading.

196. World Music Teaching Practicum. (4) Seminar, two hours; fieldwork, three hours; outside study, seven hours. Limited to junior/senior Ethnomusicology majors. Integration of academic work and hands-on training. Participation in theoretical discussions of world music education and application of these theories in elementary and secondary music and social studies classrooms. P/NP or letter grading.

197. Ethnomusicology. (2 to 4) Tutorial, one hour; outside study, five to 11 hours. Preparation: 3.0 grade-point average. Limited to seniors. Individual intensive study in ethnomusicology, with scheduled meetings to be arranged between faculty member and student. Tangible evidence of mastery of subject matter resulting in final research project required. May be repeated for maximum of 8 units. Individual contract required. P/NP or letter grading.

199. Directed Research or Senior Project in Ethnomusicology. (2 to 4) Tutorial, one hour; outside study, five to 11 hours. Preparation: 3.0 grade-point average. Limited to seniors. Individual intensive study in systematic ethnomusicology, with scheduled meetings to be arranged between faculty member and student. Tangible evidence of mastery of subject matter resulting in final research project required. May be repeated for maximum of 8 units. Individual contract required. P/NP or letter grading.

Graduate Courses

C200. Audiovisial Archiving in 21st Century. (4) Seminar, three hours. Designed for Ethnomusicology majors. Film history, present state, and future of audiovisual archives, with specific focus on ethics, copyright, contracts, fieldwork, preservation, and access and issues related to technology, space, budgets, and staffing. Concurrently scheduled with course C100. S/U or letter grading.

201. History of Ethnomusicology. (4) Seminar, three hours; outside study, nine hours. Limited to graduate ethnomusicology students. Basic literature and schools of thought in field of ethnomusicology from the late 19th century to the 1980s. Letter grading.

202. Current Issues in Ethnomusicology. (4) Seminar, three hours; outside study, nine hours. Limited to graduate ethnomusicology students. Current issues, basic literature, and schools of thought in field of ethnomusicology from the 1980s to the present. Letter grading.

205. Seminar: Information Technology and Research Skills. (4) Seminar, three hours. Limited to graduate students. Preparation: 3.0 grade-point average in information technology, with special attention to modern issues and problems of transcription, methods of analysis, symbolic implications of song texts. Emphasis on interdisciplinary approaches to research of text and music in acculturative contexts. Basic understanding of acoustics, ability to represent sounds in various graphical forms appropriate to them, and ability to locate and organize information sources related to field of ethnomusicology. Letter grading.

206. Integrating Theory with Ethnography. (4) Seminar, three hours. Designed to show how theory and primary research cannot exist without each other, and how various authors have integrated theoretical writings and ideas with their ethnohistorical or historical data. Reading of several recent ethnographies, mostly about music and possibly historical studies, in tandem with theoretical works that inform arguments of these books. Letter grading.

208. Seminar: Latin American Music. (4) Seminar, three hours. Review of bibliographic, methodological, and philosophical bases of musical research in Latin America, working from both general and specific perspectives. Exploration of research problems and investigations on specific musical cultures and distinct genres of musical expression. Letter grading.

C210A-C210B. African American Musical Heritage. (3-6) (Same as Afro-American Studies C210A-C210B.) Lecture, four hours; discussion, one hour. Concurrently scheduled with courses C210A-C210B. S/U or letter grading. CM210A. Sociocultural history of West African music covering Africa and its impact on Americas; music of 17th through 19th centuries; minstrelsy and its impact on representation of blacks in film, television, and theater; religious music, including hymns, spirituals, and gospel; black music of Caribbean and Central and South America; and music of black Los Angeles. CM210B. Sociocultural history and survey of African American music covering blues, pre-1947 jazz styles, rhythm ‘n’ blues, soul, funk, disco, hip-hop, and symbolic relationship between recording industry and effects of political changes on black popular music. Letter grading.

CM212. African American Music in California. (4) (Same as Afro-American Studies CM212A.) Lecture, four hours. Historical and analytical examination of African American music in California, including history and migration patterns, and urbanism to determine their impact on development of African American music in California. Concurrently scheduled with course CM112. S/U or letter grading.

C222-C222B-C222C. Jazz Styles and Analysis. (4-4-4) Lecture, four hours; outside study, eight hours. Designed for Ethnomusicology, Music, and Musicology majors. In-depth analysis of jazz ensembles and repertoire intended for students with music backgrounds. Concurrently scheduled with courses C122A-C122B-C122C. Letter grading. C222A. Early Jazz to Swing Era. C222B. Bebop to Avant-garde. C222C. Jazz since the Sixties.

230. European Musics: Politics, Identities, Nationalisms. (4) Seminar, three hours; outside study, nine hours. Designed for graduate students. European classical, popular, and traditional musics, with particular attention to way in which music mirrors, negotiates, and contests ideas about and practices of national and other forms of identity, ideas developed in other domains of discourse and practice such as philosophy, history, literature, art, and folklore. Examination of ways musicians, ordinary people, and politicians have used music to affect political processes involved in contesting and resolving tensions created between and among these identity formations. Historical period coverage primarily from the 19th and 20th centuries and examples from all over European continent. Letter grading.

233A-233B-233C. European Traditional and Popular Music. (0-0-4) Discussion, one hour. Review of literature on European traditional and popular music, with special attention to modern issues and problems of transcription, methods of analysis, symbolic implications of song texts. Emphasis on interdisciplinary approaches to research of text and music in acculturative contexts. May be repeated for credit. In Progress (233A, 233B) and letter (233C) grading.

C236A. Music of Africa. (5) Lecture, four hours; discussion, one hour; outside study, 10 hours. Designed for graduate students. Introduction to music of Africa through general discussion of select topics such as continent and its peoples, function, musician, instruments, musical structures and related arts, and contemporary music. Concurrently scheduled with course C136A. Letter grading.

C236B. Music of Africa. (4) Lecture, four hours; outside study, eight hours. Introduction to music of various African cultures and regions. Through readings, lectures, viewing of films, and analysis of music, students gain greater understanding of diverse musical traditions found on African continent and beyond. Musical and historical background of music of Africa and its impact on music of Americas. Concurrently scheduled with course C136B. Letter grading.

241. Music of Iran and Other Non-Arabic-Speaking Communities. (4) Lecture, three hours. Requisite: course 282 or course in ear training, analysis, and theory. Comparative study of music of Iran and other related areas, including Turkey, with particular reference to their historical and cultural background, sociocultural context of music theory, instruments and styles, technique of improvisation, and contemporary practice. Concurrent participation in Near East performance ensemble (course 91N) required.
248. Classical Music of India. (4) Lecture, three hours; outside study, nine hours. Requisite: course 146 or 147. Study of history, theory, and practice of north and south Indian classical music. Focus on development of music, role of music in society, and impact of music on Indian culture. Letter grading.

266. Charles Seeger's Life and Thought. (4) Seminar, three hours; outside study, nine hours. Major writings and influence of Charles Seeger (1886-1979) on music education, popular music, and applied musicology. Letter grading.

282. Seminar: Analysis. (4) Seminar, three hours. Requisite: course 180 or graduate ethnomusicology students. Intensive discussion of articles based on ethnomusicological analysis, including transcription and notation, with emphasis on analysis of musical performance and music events.

283. Seminar: Study of Musical Instruments (Or ganology). (6) Seminar, three hours. Requisites: courses 201A-201B. Musical instruments studied in terms of their structures, performance contexts, cultural significance, and patterns of change.

284. Anthropology of Music. (4) Requisites: courses 214A-214B. Application of anthropological paradigms and issues that have major impact on ethnomusicology.

285. Seminar: Comparative Music Theory. (6) Seminar, three hours. Comparative study of codified music theories of select cultures — Western and non-Western — considered in themselves and as expressions of their societies. Theory considered as a science of music; its place between cultural values and artistic practice in different civilizations.

C286. Public Ethnomusicology. (4) Lecture, four hours; outside study, eight hours. Designed for Ethnomusicology majors. How music industry functions and how its products are created, produced, and consumed. Techniques of pure research, basic and theoretical in nature, contrasted with those of applied research, practical and policy-oriented in approach. Concurrently scheduled with course C115A. Letter grading.

CM288. Music Industry. (4) (Formerly numbered C282B.) (Same as Music CM282 and Musicology CM288.) Lecture, four hours; outside study, eight hours. Limited to Ethnomusicology, Music, and Musicology majors. Examination of influence of music industry on the way music is created, performed, evaluated, and used today. Historical approach, beginning with music published in 18th century and continuing through development of audio recordings to MTV and popular music today. Concurrently scheduled with course CM182. Letter grading.

289. Research Design and Grant Writing in Ethnomusicology. (4) Seminar, three hours; outside study, nine hours. Design of dissertation research proposal, locating and applying for dissertation fieldwork grants, organizing and presenting academic proposals with sophisticated methods and professional writing skills. S/U or letter grading.

291. Ethnomusicology Colloquium Series. (1) Research group meeting, one hour. Limited to graduate ethnomusicology students. Introduction to new trends and issues in discipline of ethnomusicology in effort to strengthen and stimulate intellectual community within department. Topics vary from term to term and consist of presentations by guest lecturers, faculty members, and students. May be repeated for credit. S/U grading.

292A-292Z. Seminars: Special Topics in Ethnomu sicology. (4) Requisites: designed for graduate students. Utilization of special interests and expertise of regular and visiting faculty; topics of current interest presently offered in ethnomusicology.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495A. Teaching Apprentice Practicum. (2) Eight-weekly two-hour seminar sessions, plus intensive training session during Fall Quarter registration week. Preparation: appointment as teaching apprentice in Ethnomusicology Department. Required of all new teaching apprentices. Special course dealing with problems and practices in teaching ethnomusicology and systematic musicology at college level. May not be applied toward degree requirements. S/U grading.

Muriel C. McClendon, Ph.D. (History)
Stuart O. Schweitzer, Ph.D. (Health Services)
Dominic R. Thomas, Ph.D. (Comparative Literature, French and Francophone Studies)

Scope and Objectives

The European Studies major equips students to appreciate the richness of European cultures, societies, and languages that are fundamental to the understanding of modern Europe. The program provides the opportunity to study this region from the vantage points of several disciplines in the humanities and social sciences.

The major aims to break down the traditional distinctions between the eastern and western blocs in light of important internal and global transformations pertaining to cultural, economic, political, and social structures that are happening in Europe today.

Undergraduate Study

European Studies B.A.

The B.A. degree in European Studies is based on four principles: (1) students acquire proficiency in a modern European language other than English, (2) students examine European societies and civilization in depth from a pan-European and regional perspective, in addition to the traditional national focus that language instruction typically provides, (3) they do so from an interdisciplinary point of view, taking courses in at least five different academic departments/programs, and (4) they take lower division courses to acquire a broad introduction to European heritage and upper division courses to study modern Europe in greater detail from the 19th century on.

Admission

Interested students should meet with the academic counselor to discuss the program requirements. To enter the major, students (1) must be in good academic standing (minimum 2.5 grade-point average), (2) have completed the foreign language requirements and six preparation for the major courses, (3) are expected to declare the major no later than the end of their sophomore year, and (4) should apply for the major in the academic counselor's office.

Preparation for the Major

The preparation for the major consists of 24 to 30 units of foreign language, 8 units of humanities and arts courses, and 16 units of social sciences courses as follows:

**Foreign Language (24 to 30 units):** Students prepare for the major by studying one modern European language other than English — the declared foreign language — through the intermediate level. Students must fulfill the specific requirements of their selected language department. The relevant language departments are French and Francophone Studies (French), Germanic Languages (Dutch, German, and Yiddish), Italian, Scandinavian Section (Danish, Finnish, Norwegian, and Swedish), Slavic Languages and Literatures (Czech, Hungarian, Lithuanian, Polish, Romanian, Russian, Serbian/Croatian, and Ukrainian), and Spanish and Portuguese.

In most cases, courses 1, 2, 3, 4, 5, 6, or the equivalent fulfill the requirement. The total number of units may vary according to the selected language. Students should complete the lower division foreign language requirement by the end of their sophomore year. If students wish to study a modern European language not taught in full by any UCLA department, they should consult with the academic counselor about how to fulfill the language requirement.

**Humanities and Arts (8 units):** (1) One course in literature or civilization taught in a language department to be selected from Dutch 100, English 90, French 12, 14, 14W, 41, 60, German 50A, 50B, 56, 58, 59, 60W, 61A through 61D, 62W, Italian 42A, 42B, 46, 50A, 50B, Old Norse Studies 40, Portuguese M35, M42, Romanian 90, Russian 25, 25W, 30, 90A, 90B, Scandinavian 50, 50W, Slavic 88, 90, Spanish M35, M42, 60A, 60C, 61A, 62A, or Yiddish 121A; (2) one course from Art History 54, Classics 10, 20, 30, 42, 51A, 51B, Comparative Literature 1A, 1B, 1C, Music History 3, 4, 46, Philosophy 1, 5, 6, or 8.

**Social Sciences (16 units):** (1) Two courses from two different departments selected from Economics 1, 2, 5, Geography 4, Information Studies 10, 20, Political Science 10, 20, 50, Sociology 1, 10, Statistics 10, 12; (2) two courses from one of the following series: History 1A, 1B, and 1C, or 2B, 2C, and 2D, or 3A, 3B, and 3C. Variable topics courses such as History 97C may also be applied toward the history requirement after consultation with the academic counselor.

**Transfer Students**

Transfer applicants to the European Studies major with 90 or more units should complete as many of the following introductory courses as possible prior to admission to UCLA: two years of a modern European foreign language other than English, one language department course in European literature or civilization or one course in a European country's literature or civilization, one course in a humanities and arts department with focus on Europe, two courses from two different social sciences departments that must have a distinct methodological or European content, and two European history courses.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

The major consists of European Studies 101 and 11 additional upper division courses with substantial modern European content in at least five different departments/programs, with no more than four courses in any one department/program, as follows:

**Humanities and Arts (16 units):** (1) One course taught in a modern European language other than English, with instruction and reading assignments in that language, to be selected from Dutch 131, French 109, 114A through 120, German 132, 140A through 146, 152 through 162, Italian 103A, 103B, 103C, 113 through 120, Portuguese 120A, 120B, 124, C126 through C129, Russian 108, 130A, 130B, 130C, 140A through 140D, 150, Spanish 119A through 120A, 122 through 133, Yiddish 131A, or 131B; (2) two courses with a pan-European or regional focus from Art History 110C, M110D, Philosophy 118, Scandinavian 142, 143, C144 through C147, C180, C182, 184, CM186, 187 (one course from the list of courses in item 1 may be applied); (3) one course with either a pan-European or regional focus from item 2 or a national focus selected from Art History 110A, 110B, Dutch 113, English 115B, French 137, German 100C, 102A, 102B, Italian 110, M158, Polish 152B, Russian 120 through 128, Scandinavian 181, or Spanish 151A.

**Social Sciences (16 units):** (1) One modern European history course from History 120A through 120D, 121D, 121E, 121F, 122F, 123B, 123C, 131A, 134B, 134C, or 135C; (2) two courses with a pan-European or regional focus from Economics 181B, Geography 152, 183, Political Science 111C, 127A, 153A, 153B, 156B, Sociology M166 (one course from the list of courses in item 1 may be applied); (3)
one course with either a pan-European or regional focus from item 1 or 2 or a national focus selected from History 124C, 125C, 125D, 127C, 127D, 128B, Political Science 128B, 152A, 152B, 152C, 156A.

Electives (12 units): One course from any approved humanities course list, one course from any approved social sciences course list, and European Studies 191 or 199 under the supervision of a faculty member, or a 195 internship course related to Europe.

Variable topics courses such as History 191C may be applied toward any of the above course requirements when they are relevant for the course category under which they are petitioned.

Study in Europe
The program strongly recommends that students spend at least one term studying in the European country most relevant to their work. Participation in the University of California Education Abroad Program or other study abroad programs is strongly encouraged. Students should consult with their academic advisor about how to optimize the choices of courses offered by the host university.

Double Majors
Through judicious use of electives, students may find it possible to obtain the B.A. degree with two majors (e.g., European Studies and History, European Studies and Spanish). Interested students should consult the undergraduate academic advisors of both departments involved as early as possible in their B.A. program.

European Studies

Upper Division Courses

101. Introduction to European Studies. (4) Seminar, three hours. Designed for European Studies majors. Interdisciplinary seminar that introduces students to central topics, themes, and concepts of European studies, including the individual and the state, cultural life, economic relations, nationalism, and international relations. Letter grading.

199. Directed Research in European Studies. (4) Tutorial, to be arranged. Limited to senior European Studies majors. Supervised individual research under guidance of faculty mentor. Culminating paper required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Scope and Objectives
The Department of Family Medicine seeks to provide all students with a basic introduction to family-centered care in both the inpatient and ambulatory settings. During the basic clerkship, students develop (1) an appreciation of the breadth and scope of family medicine, (2) a basic knowledge in the broad content areas of family medicine, and (3) fundamental clinical skills appropriate to family medicine. The overall goal is to provide students with the opportunity to gain an understanding and appreciation of the central role of the primary care physician in the healthcare system, and to offer advanced clinical training for those students interested in pursuing careers in family medicine. Further, the basic curriculum includes an overview of healthcare issues facing underserved and immigrant populations in urban America, as well as an introduction to health services research in family medicine.

Family medicine faculty members are active both in leadership roles in the doctoring curriculum and in the Primary Care College. All first-year students are assigned to work with a family medicine preceptor once a month on a longitudinal basis for the entire year as part of the doctoring program. In the third and fourth (clinical) years, required and elective opportunities exist. All students take a required four-week clerkship in the third year, which is offered at over 10 teaching sites.

For further details on the Department of Family Medicine, see http://fm.mednet.ucla.edu.

Family Medicine

Upper Division Course

199. Directed Research in Family Medicine. (2 to 8) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper required. May be repeated for credit. Individual contract required. P/NP or letter grading.

The undergraduate Film and Television major encourages development of a personal vision that incorporates creative, practical, intellectual, and aesthetic values. Within the context of a liberal arts education, the program provides a broad background in the field and in the diversity of film and television practice, including courses in history and theory, critical thinking, animation, screenwriting, and the fundamentals of film, video, and television production. Students are admitted for Fall Quarter only. Admission is highly competitive, and only a limited number of students can be accepted each year. Prior to entry, students are expected to complete at least 90 quarter units (60 semester units) with a 3.0 grade-point average or better and the general education requirements of the School of Theater, Film, and Television. Applicants are also required to submit two letters of recommendation and a portfolio of original written work consisting of (1) a personal essay, (2) a critical essay on a film or major television program, and (3) a creative writing sample. For more specific information on admission requirements, see http://www.tft.ucla.edu/dof.cfm.

Due to curriculum changes, students in the Theater major are no longer allowed to change their major to Film and Television at the end of their sophomore year.

**Preparation for the Major**

*Required: Film and Television 106A, 106B or 106C, 110A, and one theater course (history, literature, or production).*

**The Major**

*Required: Film and Television 100, 115, 130B, 150, 154, 155, 163, 185, 195; one cinema and media studies elective (not previously taken as preparation for the major) from 106B, 106C, 107, 108, 112, 113, 114, M117; one course from 130A or 130C; and a senior concentration (at least 20 units) from one of the following areas: (1) film production — courses 175A, 175B, 178, (2) television and video production/narrative — courses 165, 176A, 176B, 199, (3) television and video production/documentary — courses 176A, 176B, 186, 199, (4) screenwriting — courses 135A, 135B, 135C, 199, (4) animation — courses 181A, 181B, 181C, (5) cinema and media studies — courses 106A, 106B, 106C, 107, 108, 110C, 112, 113, 114, M117, 199.*

Students should be mindful of the exigencies inherent in filmmaking and be prepared to meet the additional demands of time and costs.

Students are required to perform assignments on each other’s projects. In addition, the department reserves the right to hold for its own purposes examples of any work done in classes and to retain for distribution such examples as may be selected.

Consult the Schedule of Classes for courses limited to majors only.

**Film, Television, and Digital Media Minor**

The Film, Television, and Digital Media minor is designed for students who wish to augment their major program of study with a series of courses that promote the study of film, television, and digital media as art forms with social, political, cultural, and economic significance. The minor consists of a selection of upper division courses that introduce students to the practice and critical study of film, television, and digital media.

To enter the minor students must have declared a major in a department other than the Film, Television, and Digital Media Department, be in good academic standing (minimum 2.0 grade-point average), have completed at least two film and television courses with grades of C or better, and file a petition at the Student Services Office, 103 East Melnitz Building, (310) 206-8441. All degree requirements, including the specific requirements for this minor, must be fulfilled within the unit maximum set forth by each student’s school or College.

**Required Upper Division Courses (28 to 32 units):**

A minimum of 20 units applied toward the minor requirements must be in addition to units applied toward major or minor requirements in another department or program. All units applied toward the minor must be taken in residence at UCLA. Film and television courses taken at other institutions cannot be applied toward the minor.

All minor courses must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

**Graduate Study**

Official, specific degree requirements are detailed in *Program Requirements for UCLA Graduate Degrees*, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

**Graduate Degrees**

The Department of Film, Television, and Digital Media offers Master of Arts (M.A.), Master of Fine Arts (M.F.A.), and Doctor of Philosophy (Ph.D.) degrees in Film and Television.
Film and Television

Lower Division Courses

M50. Introduction to Visual Culture. (5) Same as English M50. Lecture, two hours; discussion, one hour; laboratory, two hours. Enforced requisite: satisfaction of Entry-Level Writing requirement. Study of how visual media, including advertising, still and moving images, and narrative forms tell stories on screen. Viewings of selected films as case studies to understand relationship of theory to practice and to develop skills in critical thinking, analytical writing, and strategies for creating original film and video productions. P/NP or letter grading.

100. Undergraduate Symposium. (1 or 2) Laboratory, three hours. Limited to Film and Television majors. Structured forum in which undergraduate majors meet on a regular basis to discuss curricular issues, meet with faculty, and have exposure to an array of guest speakers from within the film industry. May be repeated for credit. Letter grading.

105A. History of American Motion Picture. (6) Lecture/screenings, eight hours; discussion, one hour. Historical and critical survey, with examples, of American motion picture both as developing art form and as medium of mass communication. May be repeated once for credit with consent of department and topic change. Letter grading.

105B. History of European Motion Picture. (6) Lecture/screenings, eight hours; discussion, one hour. Historical and critical survey, with examples, of European motion picture both as developing art form and as medium of mass communication. May be repeated once for credit with consent of department and topic change. Letter grading.

107. Experimental Film. (6) Lecture/screenings, eight hours; discussion, one hour. Study and analysis of unconventional developments in the motion picture.

108. History of Documentary Film. (6) Lecture/screenings, eight hours; discussion, one hour. Philosophy of documentary approach in the motion picture. Development of critical standards and examination of techniques of teaching and persuasion used in selected documentary, educational, and propaganda films. Letter grading.

110A. American Television History. (5) Lecture/screenings, five hours; discussion, one hour. Critical survey of American television from its inception to present. Examination of interrelationships between program forms, institutional paradigms, social trends, and culture. Starting with television's hybrid origins in radio, theater, and film, contextualization, viewing, and discussion of key television shows, as well as Hollywood films that comment on radio and television. Consideration of television programs and series in terms of sociocultural issues (consumerism, lifestyle, gender, race, national identity) and industrial practice (programming, policy, regulation, business). Letter grading.

110C. World Media Systems. (4) Lecture/viewing, four hours; discussion, one hour. Requirements: course 110A. Designed for seniors/juniors. Global analysis of internal and external broadcasting services, with emphasis on their motives, origins, technologies, and programming. Special attention to political, economic, and regulatory constraints and common world media issues. Letter grading.

111. Women and Film. (6) Same as Women's Studies M111. Lecture, eight hours; discussion, one hour. Historical and critical approaches to women and cinema that may include authorship, stardom, female genres, and images of women in Hollywood cinema, alternative cinema, and independent cinema from silent era to the present. Letter grading.

112. Film and Social Change. (6) Lecture/screenings, eight hours; discussion, one hour. Development of documentary and dramatic films in relation to and as a force in social development. Letter grading.

113. Film Authors. (6) Lecture/screenings, eight hours; discussion, one hour. In-depth study of a specific film director (actor or writer). May be repeated once for credit with consent of department and topic change.

113A. Film Directors: Hitchcock and His Influence. (5) Lecture/screenings, five hours; discussion, one hour. Study of films of Alfred Hitchcock and influence he has had on other filmmakers. Lectures and screenings of Hitchcock films in first seven weeks, with coverage of films that are closely patterned after Hitchcock's in last three weeks. P/NP or letter grading.

113B. Film Authors: Women Filmmakers. (5) Lecture, five hours; discussion, one hour. Consideration of contributions to world cinema made by women directors, with focus on women directors working in various eras and modes of production (e.g., silent cinema, independent cinema, female genres, and images of women in Hollywood cinema, alternative cinema, and independent cinema from silent era to the present). Letter grading.

114. Film Genres. (5) Lecture/screenings, five hours; discussion, one hour. Study of specific film genre (e.g., Western, gangster cycle, musical, silent epic, comedy, social drama). May be repeated once for credit with consent of department and topic change. P/NP or letter grading.

115. Stylistic Studies for Moving Image: Theory and Practice. (6) Lecture, four hours; discussion, one hour. Drawing heavily on wide array of historical examples, examination of many expressive strategies potentially historical issues and critical approaches. Study of film genre (e.g., Western, gangster cycle, musical, silent epic, comedy, social drama). May be repeated once for credit with consent of department and topic change. P/NP or letter grading.

116. Film Criticism. (4) Lecture, four hours; laboratory, to be arranged. Study of and practice in film criticism.

117. Chicanos in Film/Video. (5) Same as Chicana and Chicano Studies M117. Lecture/screenings, five hours; discussion, one hour. Goal is to gain nuanced understanding of Chicano cinema as political, socioeconomic, cultural, and aesthetic practice. Examination of representation of Mexican Americans and Chicano/a in Hollywood genres silent "greaser" films, social protest drama, Westerns, and gang films — that are major genres that account for films about or with Mexican Americans produced between 1908 and 1980. Examination of Chicano/Chicana-produced films that subvert or signify on these Hollywood genres, including Zoot Suit, Ballad of Gregorio Cortez, and Born in East L.A. Consideration of shorter, more experimental work that critiques Hollywood image of Chicanos. Guest speakers include both pioneer and up-and-coming filmmakers. P/NP or letter grading.

126. Acting for Film and Television. (4) Laboratory, six hours. Projects in acting for television, video, and film. May be repeated twice for credit.

128. Media and Ethnicity. (4) Utilizing the Asian American experience, exploration of impact and uses of media on contemporary American ethnic communities. Role and techniques of media influence besides community utilization and production.

CM125. Contemporary Topics in Theater, Film, and Television. (2) Lecture, two hours; screenings, two hours. Limited to junior/senior and graduate theater/film and television students. Examination of creative process in theater, film, and television, with consideration of writing, direction, production, and performance. Overview of individual contributions in the collaborative effort; examination of distinctiveness and interrelations among these arts. Individual units include participation of leading members of theater, film, and television professions. May be repeated twice for credit. Concurrently scheduled with course CM225.

130A. Screenwriting Fundamentals. (2) Lecture, one hour. Corequisite for graduate students enrolled in course 431. Not open for credit to students with credit for course 130C. Examination of screenwriting fundamentals: structure, character and scene development, conflict, theme, and dramatic conflict. View of authors such as Aristotle, Eri. P/NP or letter grading.

130B. Screenwriting Fundamentals Workshop. (4) Discussion, three hours. Problems in film and television writing. P/NP or letter grading.

130C. In-Depth Introduction to Fundamentals of Screenwriting. (4) Lecture, three hours; discussion, one hour. Not open for credit to students with credit for course 130A. Structural analysis of feature films and development of professional writers' vocabulary for constructing, deconstructing, and reconstructing their own work. Screenings of films and selected film sequences in class and by assignment. P/NP or letter grading.

131. Nonthetrical Screenwriting for Film and Television. (4 or 8) Discussion, three hours. Research and writing of documentary, technical, educational, industrial, and propaganda scripts. May be repeated a maximum of 12 units. 

135A-135B-135C. Advanced Screenwriting Workshops. (8-8-8) Laboratory, three hours. Requisite: course 130B. Course 135A and course 135B are required as a unit, and may be repeated up to a maximum of 9 units. Only one of courses 135A-135B-135C may count toward a major in drama. Letter grading.
140. Interactive Expression. (4) Lecture, six hours. Introduction to theory and practice of interactive media, with emphasis on uniqueness of computer-mediated expression. Letter grading.

142D. Digital Imagery and Visualization. (4) Lecture, three hours; laboratory, three hours. Introductory hands-on investigation of techniques of digital still imaging and animation, in context of examining dynamics of cultural constructions and visual codes. Students conceive and produce several digital image visualizations. Concurrently scheduled with course C242. Letter grading.

143C. Moving Digital Image. (4) Lecture, three hours; laboratory, three hours. Investigation of different ways of creating and manipulating live moving images (digital video) on desktop computers, exploring both real-time and postproduction aspects of this production environment. Students conceive and produce a number of short projects. Concurrently scheduled with course C243. Letter grading.

144C. Interactive Multimedia Authoring. (4) Lecture, three hours; laboratory, three hours. Introduction to expressive and aesthetic potential of interactive digital media and its theoretical issues. Exploration of methodologies and tools for media integration, interface for personal/collective expression. Students produce Web works and serve them online. Contextualization of medium by looking at its history, embedded ideology, and sociopolitical consequences. May be repeated once for credit. Concurrently scheduled with course C244. Letter grading.

145C. Creative Authoring for World Wide Web. (4) Lecture, three hours; laboratory, three hours. Exploration of creative aspects of World Wide Web as medium for personal/collective expression. Students produce Web works and serve them online. Contextualization of medium by looking at its history, embedded ideology, and sociopolitical consequences. May be repeated once for credit. Concurrently scheduled with course C245. Letter grading.

148C. Advanced Digital Media Workshop. (4) Discussion, four hours; laboratory, two hours. Designed for students with previous laboratory course experience, course provides opportunity to create larger-scale digital work with advanced software tools and techniques in small process-oriented, creative workshop environment. May be repeated once for credit. Concurrently scheduled with course C248. Letter grading.

149A-C149B. Music in Film: Another Way to Tell Stories. (4-4) Lecture, three hours. Course C149A is requisite to C149B. Exploration of concepts and issues that drive creation and use of music in film. Through lecture/discussion and practical assignments, examination of deep collaboration between filmmaker and composer. Viewing of noteworthy examples and following of collaboration of filmmakers with composers, with weekly sessions dedicated to tempering, creation and development of new scores, studio visits, and creative/conceptual dialogue between musician and filmmaker. Preparation of film ready for tempering by end of fall quarter for scoring at beginning of second quarter. Concurrently scheduled with courses C455A-C455B. Letter grading.

150. Cinematography. (4) Lecture, three hours; laboratory, three hours. Limited to Film and Television majors. Introduction to image control in motion picture photography through exposure, lighting, and selection of film, camera, and lens. Supervised projects in photography to complement material covered in lecture.

151. Introduction to Experimental Filmmaking. (4) Lecture, three hours; laboratory, to be arranged. Limited to Film and Television majors. Techniques of image manipulation, design, and art direction. Production and completion of an exercise (no longer than three minutes), using film stock and source of film. May be repeated twice for credit. Letter grading.

152. Film and Television Sound Recording. (4) Lecture, three hours; laboratory, to be arranged. Limited to Film and Television majors. Introduction to principles and practices of film and television sound recording, including supervised exercises. Letter grading.

152C. Digital Audio Postproduction. (4) Lecture, three hours; laboratory, three hours. Limited to dependent study of film production, development, and supervised assignments. Supervised lab work and postproduction. Coverage of many technical, equipment, and software step-by-step, with emphasis on creative process. Concurrently scheduled with course C452C. Letter grading.

153. Motion Picture Lighting. (4) Lecture, three hours; laboratory, three hours. Requisite: course 150. Limited to Film and Television majors. Introduction to principles and tools of lighting used in visual storytelling through lectures, discussions, and screenings. Creative lighting techniques covering topics such as people, environment, spatial relationships, movement, color, special effects, and continuity. Letter grading.

154. Film Editing. (4) Lecture, three hours; laboratory, to be arranged. Limited to Film and Television majors. Introduction to artistic and technical problems of film editing and its role in film experience in editing of image and synchronous sound. Letter grading.

154B. Advanced Film Editing. (4) Lecture, three hours; laboratory, one hour. Preparation: submission of rough cut of student’s project or proposal to edit work of another director. Requisite: course 154. Limited to film and television majors in postproduction phase with advanced knowledge of organization and operation of postproduction process. Students may also propose to edit significant scene given to them by instructor. Concurrently scheduled with course C454B. Letter grading.

155. Introduction to Digital Media and Tools. (4) Lecture, six hours; laboratory, to be arranged. Limited to Film and Television majors. Instruction and exercises in basic concepts and software of virtual production environments and digital postproduction tools. Letter grading.

163. Directing the Camera. (4) Workshop, eight hours. Limited to Film and Television majors. Investigation of expressive potential of the image within and beyond the narrative from a directorial perspective. Experiments with working methodologies which stimulate visual creativity and positioning the image as the fundamental element of cinematic expression. Letter grading.

165. Advanced Narrative Television Directing. (4) Laboratory, six hours. Requisites: courses 130B, 185. Limited to Film and Television majors. Supervised exercises in television multicamera direction, with emphasis on creative use of cameras, sound, composition, and communication with those in front of and behind the camera. May be repeated twice for credit. Letter grading.

166. Creative Location Film Production. (8) Lecture, four hours; discussion, four hours; laboratory, to be arranged. Limited to directing or producer’s program students. Problems of location, production, direction, and cinematography in various “real-world” practical locations. Practical application of solving problems and communication within limitations of production experience. Concurrently scheduled with course C456. Letter grading.

170A. Introduction to Digital Effects. (4) Lecture, three hours; laboratory, to be arranged. Introductory study of digital effects production, with specific focus on motion graphics and compositing, effects processing, and title sequences. Concurrently scheduled with course C470A. Letter grading.

175A-175B. Undergraduate Film Production. (8-4 to 8) Limited to Film and Television majors. 175A. Lecture, four hours; laboratory, eight hours. Writing, preproduction, and production (6-4 to 8). Limitation on motion graphics, compositing, effects processing, and streaming digital video. 175B. Lecture, three hours; laboratory, eight hours. Completion of postproduction (editing, creation of non sync film). Letter grading.

176A-176B. Advanced Undergraduate Video Production (8-4 to 8). Discussion, three hours; laboratory, to be arranged. Requisite: course 185. Limited to Film and Television majors. Completion of a video short (no more than 20 minutes), including its writing, production, and editing. Letter grading.

M177. Film and Television Acting Workshop. (2) Same as Theater M178. Laboratory, four hours. Workshop providing opportunities for students to rehearse, perform, and evaluate scenes. Three different production styles to which performers may need to adjust are (1) preproduction rehearsals with director, (2) single-camera experience, and (3) multiple-camera experience. May be repeated twice for credit. Letter grading.

178. Film and Television Production Laboratory. (2 or 4) Laboratory, to be arranged. Supervised lab work in preproduction and postproduction of film and television production. May be repeated for a maximum of 12 units, but only 8 units may be applied toward Film and Television major.

181A. Introduction to Animation. (5) Lecture, three hours; laboratory, three hours. Drawing experience not required. Fundamentals of animation through preproduction of short animated film. P/NP or letter grading.

181B. Writing for Animation. (4 to 8) Lecture, six hours; laboratory, to be arranged. Prequisite: course 181A. Research and practice in creative writing and planning for animated film. May be repeated for a maximum of 16 units.

181C. Animation Workshop. (4 or 8) Lecture, six hours; laboratory, to be arranged. Preparation: storyboard at first class meeting. Requisite: course 181A. Organization and integration of various creative arts used in animation to form a complete study of a selected topic. May be repeated for a maximum of 16 units.

184. Overview of Contemporary Film and Television Industries. (4) Lecture, three hours. Examination of evolving economic structures and business practices in contemporary Hollywood film and television industries, with emphasis on operations of studios and networks, their marketing and distribution systems, and their relationship to independent production. Letter grading.

185. Undergraduate Television and Video Production. (6) Laboratory, six hours. Limited to Film and Television majors. Instruction and exercises in basic techniques of television and video production. Letter grading.

186. Introduction to Documentary Video Production. (4) Lecture, three hours; laboratory, three hours; fieldwork, 12 hours. Limited to Film and Television majors. Viewing and discussion of selected documentaries and instruction in various production skills necessary to create video documentaries. Completion of a series of exercises from conceptualization through postproduction, culminating in production of short documentary in various aspects of television and video production.

187A-187B-187C. Producing and Directing Remote Multicamera Production. (4-6) Lecture/laboratory, three hours (additional hours to be arranged). Laboratory grading. 187A. Lecture/ laboratory/field workshop course designed to provide discipline planning, responsible leadership, and organizational and problem-solving skills required in directing remote production. Emphasis on script, storytelling, effective execution of pitch, preproduction, shoot, and editorial. 187B-187C. Instruction and supervised productions of the remote experience, with focus on organization and production of concept. Experience closely patterned after professional experiences in working with talent, production venues, and production logistics of remote on-location video programs.
188A. Special Courses in Film, Television, and Digital Media. (4) Lecture, three hours; discussion, one hour. Special topics in film, television, and digital media for undergraduate students that are taught on experimental or temporary basis. May be repeated for credit. P/NP or letter grading.

188B. Introduction to Art and Technique of Film-making. (4) Lecture, four hours; discussion, one hour. Students acquire understanding of practical and aesthetic challenges undertaken by artists and professionals in making of motion pictures and television. Examination of film as both art and industry. Storytelling, sound and visual design, casting and performance, editing, finance, advertising, and distribution. Exploration of American and world cinema from filmmaker's perspective. Honing of analytical skills and development of critical vocabulary for study of film-making as technical, artistic, and cultural phenomenon. P/NP or letter grading.

188C. Design and Experimental Digital Film Production. (4) Lecture, three hours; discussion, one hour. Students conceive, write, polish, shoot, and edit short digital experimental movies and crew on campus projects. Experimentation with image, sound, and montages. Exposure to scenes from feature films and experimental short subjects. By end of term, students have one- to three-minute digital films with titles and sound track. P/NP or letter grading.

188D. Film Editing: Overview of History, Technologies, and Practice. (4) Lecture, three hours. Practical application of film editing techniques, how they have evolved, and continue to evolve. Examination of history of editing, as well as current editing trends, terminology, and workflow. P/NP or letter grading.

188E. Digital Cinematography. (4) Lecture, three hours. With lectures, screenings, and demonstrations, study of principles of digital cinematography. How tools and technology affect storytelling process. Topics include formats, aspect ratios, cameras, lenses, special effects, internal menu picture manipulation, lighting, composition, coverage, high definition, digital exhibition, filtration, multiple-camera shooting. P/NP or letter grading.

188F. Hollywood Now! (4) Lecture, eight hours; discussion, one hour. Hollywood film industry from late 1990s to present. Multi-faceted industry with interrelated organizational, technological, demographic, narrative, ideological, and aesthetic foundations. Hollywood is dynamic industry marked by contradictory forces of stability and change, continuity, and innovation. Examination of historical paradigms, genres, styles, and modes of address as they are developed by new generation of filmmakers and targeted at new kinds of audiences that are increasingly younger and more global, as illustrated by Hollywood's new star directors: David Fincher, Steven Soderbergh, Paul Thomas Anderson, Quentin Tarantino, Alexander Payne, Wes Anderson, George Clooney, Sofia Coppola, and others. P/NP or letter grading.

188G. Asian Action Films. (4) Lecture, eight hours; discussion, one hour. Historical, cultural, and critical survey of action film genre from Hong Kong, Taiwan, Japan, and South Korea. Recent global popularity of East Asian action films created new genre that combines themes of American action film, emphasizing spectacle over narrative, with philosophies and action styles of East Asia. Topics that produce these films. Exploration of circulation of national-popular traditions within international contexts. Study of more enduring, exciting subgenres and national specialties of genre that has achieved widespread international production and achieved success beyond Asia, including kung fu and other martial arts films, yakuza or gangster films, and flying swordman films. How gender and race shape action genre, as in films like Bruce Lee, Jackie Chan, and Michelle Yeoh. Examination of issues of industry and authorship, and producers/directors such as Shaw Brothers, Seijun Suzuki, Tsui Hark, King Hu, and John Woo. P/NP or letter grading.

188L. Writing for Animation Series. (5) Lecture, three hours. Introduction to craft and business of writing for animation for its portrayal of history of animation produced specifically for this medium, along with its many formats. Business model has changed radically over past five decades, as have types of shows that have been created. Designed to put students in historical perspective, with eye toward where industry is heading given changes in technolo- gy and continuing (and growing) scrutiny of outside forces such as corporate, FCC. P/NP or letter grading.

188J. Disney Feature: Then and Now. (5) Lecture, three hours; discussion, three hours. Study and analysis of Disney’s animated features. Evaluation of why Disney's animated features have dominated until recently and ramifications of this dominance on animation and society. Letter grading.

188K. Visual Effects. (4) Lecture, three hours. Nearly every film employs some form of visual effects, whether in reconstructing backdrop of history, creating futuristic or fantasy world, or simply fixing weather or production problems. Discussion of evolution of visual effects, as well as problems and blessings inherent in constantly evolving technology. Top visual effects consultancies to be featured. Letter grading.

188M. Film and Television Directing. (4) Lecture, three hours. Through discussions, screenings, demonstrations, and guest lectures, exploration of directing as experimental, narrative, and expressive art form. Letter grading.

188N. History of Animation in American Film and Television. (5) Lecture, six hours. Survey of animation in America from its precinema origins to recent films of Disney, Pixar, DreamWorks, Ghibli, and others. Place of animation in pop culture, racial imagery and ethnic stereotypes, growth of art form, and how it reflects American society. P/NP or letter grading.

192.) Tutorial, two hours; fieldwork, 14 or 20 hours. May be repeated for credit. Letter grading.

193A. Film Curatorship. (4) Lecture, two hours; discussion, two hours; laboratory, four hours. Study of principles and techniques of film curatorship and research, including but not limited to acquisitions, cataloging, storage, and retrieval systems. Special attention to application of new technology, equipment, and program materials to film archival-library design for research and teaching.

193B. Television Curatorship. (4) Lecture, two hours; discussion, two hours; laboratory, four hours. Study of principles and techniques of television curatorship and research, including but not limited to acquisitions, cataloging, storage, and retrieval systems. Special attention to application of new technology, equipment, and program materials to television archival-library design for research and teaching.

193D. Seminar: Silent Film. (6) Seminar, three hours; film screenings, four to six hours. Develop organizational, technological, demographic, narrative, ideological, and aesthetic foundations. Hollywood is dynamic industry marked by contradictory forces of stability and change, continuity and innovation. Examination of historical paradigms, genres, styles, and modes of address as they are developed by new generation of filmmakers and targeted at new kinds of audiences that are increasingly younger and more global, as illustrated by Hollywood's new star directors: David Fincher, Steven Soderbergh, Paul Thomas Anderson, Quentin Tarantino, Alexander Payne, Wes Anderson, George Clooney, Sofia Coppola, and others. P/NP or letter grading.

193F. Seminar: European Film History. (6) Seminar, three hours; film screenings, four to six hours. Study of European film. Letter grading.

193G. Seminar: Silent Film History. (6) Seminar, three hours; film screenings, four to six hours. Study of silent film from its beginning in 1895 to transition to sound cinema in 1927. Consideration of influence of silent film out of which sound cinema grew. P/NP or letter grading.
208A. Seminar: Film Structure. (6) Seminar, three hours; film screenings, four to six hours. Designed for graduate students. Examination of various film conventions, both fictional and nonfictional, and of role of structure in motion picture. S/U or letter grading.

208B. Seminar: Classical Film Theory. (6) Seminar, three hours; film screenings, four hours. Study of principal theses that characterize theoretical writings of Arnheim, Eisenstein, Bazin, Kracauer, etc. Letter grading.

208C. Seminar: Contemporary Film Theory. (6) Seminar, three hours; film screenings, four to six hours. Required for graduate students. Design for graduate students. Study of redefinition of aims and methods of film theory through contemporary writings. S/U or letter grading.

209A. Seminar: Documentary Film. (6) Seminar, three hours; film screenings, four to six hours. Designed for graduate students. Nonfictional film and its relation to contemporary culture.

209B. Seminar: Fictional Film. (6) Seminar, three hours; film screenings, four to six hours. Designed for graduate students. Film as fiction and its relation to contemporary culture. May be repeated once for credit.

209D. Seminar: Animated Film. (4) Seminar, three hours; laboratory, three hours. Designed for graduate students. Critical study of animated film, its historical development, style, use, and relation to contemporary culture.

210. Seminar: Contemporary Broadcast Media. (4) Seminar, three hours (additional hours as required). Designed for graduate students. Consideration of issues raised by recent developments in television and radio, commercial and public, associated with innovations in satellite, cable, and cartridge systems.

211A. Seminar: Historiography. (4) Seminar, three hours. Limited to Film and Television M.A. candidates. Beginning examination of function and methods of writing film and television history as seen in works of key historians. S/U or letter grading.

211B. Seminar: Historiography. (4) Seminar, three hours. Limited to Film and Television Ph.D. candidates. Examination of function and methods of writing film and television history as exemplified by key works in this tradition, with attention to central issues of historical thought on the media.

215. Seminar: Theory and Method. (6) Seminar, three hours. Limited to Film and Television Ph.D. candidates. Examination of major modes of theoretical reflection on film and television through study of central texts of such traditions as phenomenology, auteurism, psychoanalysis, sociology, etc. S/U or letter grading.

217A. Seminar: American Television History. (6) Seminar, three hours; screenings, four hours. Critical survey of U.S. television industry from its inception to present. Examination of programming and changes within industry by considering range of technological, economic, aesthetic, social, and cultural dimensions.

217B. Seminar: Selected Topics in Television History. (6) Seminar, three hours; screenings, three hours. Advanced critical seminar, with focus on specific topic or area (historical period, industry, programming, genre, or social formation) in domestic or international television.

218. Seminar: Culture, Media, and Society. (6) Seminar, three hours; screenings/discussion, four hours. Emphasis on “discourse of the other(s).” The matization of the other is concerned with theories of “difference” rather than similarity or identity—with how other cultures, their politics of representation, and representation of politics through metaphors of (1) difference without opposition, (2) heterogeneity without hierarchy, and/or (3) otherness without ethno-centricism. Examines women, national minorities, and Third World peoples have been rendered others; place of cinematic apparatus in this process and how academization of others is positioned vis-à-vis mainstream critical discourse.

219. Seminar: Film and Society. (6) Seminar, three hours; film screenings, four to six hours. Designed for graduate students. Study of ways film images and ideas are affected by social behavior, belief, and value systems; considered in relation to role of media in society. May be repeated once for credit.

220. Seminar: Television and Society. (6) Seminar, three hours; screenings/discussion, three hours. Designed for graduate students. Study of ways television forms affect and are affected by social behavior, belief, and value systems; study of technological and economic aspects of television. May be repeated once for credit. S/U or letter grading.

221. Seminar: Film Authors. (6) Seminar, three hours; film screenings, four to six hours. Designed for graduate students. Intensive examination of works of outstanding creators of films. May be repeated twice for credit.

222. Seminar: Film Genres. (6) Seminar, three hours; film screenings, four to six hours. Designed for graduate students. Studies of patterns, styles, and themes of such genres as the Western, gangster, war, science fiction, comedy, etc. May be repeated twice for credit.

224. Computer Applications for Film Study. (6) Lecture, three hours; film screenings, three hours. Survey of computer applications relevant to film study, principally computer-aided design and production, digital computer systems and image capture technology. S/U or letter grading.

226. Seminar: Issues in Electronic Culture. (6) Seminar, three hours; laboratory, three hours. Critical studies seminar with major hands-on laboratory component that explores impact of new digital technologies on contemporary culture and aesthetics. Students do laboratory projects using visualization, image manipulation tools, and Internet authoring tools.

248. Advanced Digital Media Workshop, (4) Discussion, four hours; laboratory, two hours. Designed for students with previous laboratory course experience, course provides opportunity to create larger-scale new media works and serve them online. Contextual tools and techniques in small process-oriented, creative workshop environment. May be repeated once for credit. Concurrently scheduled with course C148. Letter grading.

249. Digital Revolution. (6) Lecture, four hours; discussion, one hour; laboratory, one hour. Comprehensive survey to introduce students to emerging digital technologies, resulting new media, and their artistic, economic, and social implications. Topics include digital editing, digital previsualization, multimedia, World Wide Web, interactive television, and virtual reality.

270. Seminar: Film Criticism. (6) Seminar, three hours; film screenings, four to six hours. Designed for graduate students. Study of key aesthetic questions of analysis and evaluation in relation to central works of motion picture criticism. May be repeated once for credit.

271. Seminar: Television Criticism. (6) Seminar, four hours; discussions, three hours. Designed for graduate students. Analysis of major forms of television production and criticism it has elicited. May be repeated once for credit. S/U or letter grading.

272. Seminar: Contemporary Film and Television Criticism. (6) Seminar, three hours; film and television screenings, four to six hours. Limited to Film and Television Ph.D. candidates. Study and practice of analytic and critical writing about television and film. S/U or letter grading.

274. Digital Imagery and Visualization. (4) Lecture, three hours; laboratory, three hours. Introductory hands-on investigation of techniques of digital still imaging and aesthetics of digital image, in context of emerging dynamics of cultural constructions and visual codes. Students conceive and produce several digital image visualizations. Concurrently scheduled with course C142. Letter grading.

275. Moving Digital Image. (4) Lecture, three hours; laboratory, three hours. Investigation of different ways of creating and manipulating linear moving images (digital video) on desktop computers, exploring both creative and theoretical aspects of this production environment. Students conceive and produce a number of short projects. Concurrently scheduled with course C143. Letter grading.

276. Seminar: Non-Western Films. (4) Seminar, three hours (additional hours as required). Designed for graduate students. Study of aesthetic and ideological impulses of selected films from Asia, Africa, and Latin America.

287A. Introduction to Art and Business of Producing I. (4) Seminar, three hours. Introduction for first-year producers program students to producer’s role in navigating unique dynamic between art and commerce in entertainment industry. Overview of development, production, and distribution of feature films for worldwide theatrical market, including identifying material, assembling elements, and understanding basics of studio and independent financing and distribution. S/U or letter grading.

287B. Introduction to Art and Business of Producing II. (4) Lecture, three hours. Requisite: course 287A. Builds on principles taught in course 287A and presents continuation of study of development, production, and distribution of feature films for worldwide theatrical market, including identifying material, assembling elements, and understanding basics of studio and independent financing and distribution. Minimum of two unproduced screenplays to be presented for review by class and instructor to begin identifying potential thesis projects. S/U or letter grading.

287C. Introduction to Art and Business of Producing III. (4) Seminar, three hours. Requisites: courses 287A, 287B. Builds on principles taught in courses 287A and 287B. Focuses on writing of screenplays prepared in course 287B for review by class and instructor with goal of isolating and identifying primary and secondary thesis projects. Discussions of script analysis and creation of development notes for primary projects. Completion of written outline for original projects and pitching of primary projects to panel of industry executives for further feedback. S/U or letter grading.

288A-288B-288C. Feature Film Development I, II, III. (4-4-4) Lecture, three hours. Course 288A is requisite to 288B, which is requisite to 288C. Practical hands-on approach to understanding and implementing producer’s role in development of feature film screenplay and negotiating particulars of production process. Through in-class discussions, script analysis, story writing, and creating pitch decks, students gain thorough understanding of various elements that comprise feature film development process. S/U or letter grading. 288A. Basic introduction to story and exploration of proper technique for evaluating screenplays through writing of cover pages. 288B. Deeper evaluation of screenplay through writing of story notes. 288C. Story development and art of pitching. Script evaluation and work in groups of two to build three-act structure and create compelling characters for original ideas pitched in class.

289B. Strategy. (4) Lecture, three hours. Course 289A is not requisite to 289B. Examination of business realities of industry, with focus on techniques for analyzing behavior, making strategic decisions, and overcoming obstacles to achieving results as producer, writer, or director. Assignments designed to assist students in articulating and achieving their goals and to help them effectively transition from classroom to their careers in entertainment industry. S/U or letter grading.

289C. Independent Spirit: Creative Strategies for Financing and Distributing Independent Features. (4) Lecture, three hours. Course 289B is not requisite to 289C. Key insights into financing and distribution of independent or “specialty” films. Topics include film finance, production, marketing, distribution, agents, and new technology, with emphasis on applying this knowledge to individual student projects. S/U or letter grading.

290A. Research and Development I. (4) Seminar, three hours. Forum for roundtable strategy sessions and mock story meetings with instructor, students, and various industry guests. Development of one story idea for thesis project. S/U or letter grading.

290B. Research and Development II. (4) Seminar, three hours. Forum for roundtable strategy sessions and mock story meetings. Students whose make outline, weekly progress on thesis project and adapt strategy based on feedback received. Development of marketing and business strategies for story idea set up in course 290A. S/U or letter grading.

290C. Research and Development III. (4) Seminar, three hours. Final stages of thesis preparation for evaluation. Guidance provided by instructor on how to effectively present selected project. Requirements include industry-related book reports, script analysis, “pitching” selected concept, weekly research to understand marketplace, accumulation and updating of data, and justification for potential “buyers” comprised of industry professionals. S/U or letter grading.

291B. Feature Film Marketing. (4) Lecture, three hours. Course 291A is not requisite to 291B. Examination of film distribution, sales, sales agents, and major players that make up entertainment industry with emphasis on film distribution and exhibition. Through lectures, readings, and guest speakers, exploration of interrelated arenas of production, marketing, business affairs, media, and impact of international market on distribution and exhibition of studio releases. S/U or letter grading.

292A. Overview of Network Television Management. (4) Lecture, three hours. Designed to expand basic understanding of network and cable television business. Exploration of role of showrunner, executive from networks and production companies, packaging agents, and studios responsible for developing and creating programming. S/U or letter grading.

292B. Who Produces Television? Showrunner, Nonwriting Producer, Network Executive, Studio Executive, or Agent? (4) Lecture, three hours. Course 292A is not requisite to 292B. In-depth look at roles that key industry players play in network television shows on air. Discussion of readings, lectures, and distinguished guests from each area of television industry: networks, studios, agencies, and production companies. S/U or letter grading.

292C. Running Shows: Producing for Broadcast and Cable. (4) Lecture, three hours. Course 292B is not requisite to 292C. Exploration of role of writers-producers or showrunners in creating television shows. Designed to train writers who typically enter field as staff writers and to develop concrete tools of producers. Training of next generation of nonwriting network and studio development executives. Job is to assist writers-producers in highly collaborative process of creating, developing, producing, and scheduling television programming. S/U or letter grading.

293. Seminar: Film and Television Curatorship. (4) Seminar, three hours. Requisite: course 292A. Designed for graduate students. Study and practice of issues in archival research and administration.

294A. Contracts and Negotiation. (4) Lecture, three hours. Survey of range of contracts involved in studio productions, included development and option agreements, artist employment, director employment, writer collaboration agreements, coproduction agreements, music rights license, etc. Actual studio agreements referenced to illuminate potential consequences of each transaction. Negotiation strategy exercises. S/U or letter grading.

294B. Entertainment Law, Business Practices, and Negotiation Strategies. (4) Lecture, three hours. Course 294A is not requisite to 294B. In-depth analysis of structure, economics, and legal aspects of entertainment industry, with emphasis on television and film. Topics include intellectual property and proprietary rights, project development and production, talent, guilds, distribution and financing, ancillary rights, and music rights. Advanced negotiation strategy exercises. S/U or letter grading.

295A. Art of Presentation. (4) Lecture, three hours. Cultivation of skills needed for students to present themselves and their project goals with clarity and precision to industry professionals. Oral presentations designed to enhance student ability to deliver convincing arguments on range of topics. S/U or letter grading.

295B. Advanced Film and Television Producing Workshop for Producers, Writers, and Directors. (4) Lecture, three hours. Course 295A is not requisite to 295B. Designed to help producers, as well as screenwriters and directors, focus on networking opportunities and to develop strategies to bring their feature and television projects to marketplace. Case-study documents (drafts of screenplays, dailies, etc.) from current or recently produced projects provided. S/U or letter grading.

295C. Advanced Producing: Role of Successful Producer. (4) Lecture, three hours. Designed to provide producers with comprehensive understanding of business acumen involved in purchasing scripts for studios and independent production companies. Through script analysis and in-class discussions, students encouraged to examine industry practices and story elements, but marketing assets inherent in pieces of material. S/U or letter grading.

296A. Role of Talent Agencies. (4) Lecture, three hours. Introductory overview of various departments at agencies, including liaison, talent, story, marketing, packaging, and television, and examination of various interactions among each. Exercises encourage producers, writers, and directors to learn how to work effectively with individuals at talent agencies. S/U or letter grading.

296B. Who Represents Me? (4) Lecture, three hours. Course 296A is not requisite to 296B. In-depth analysis of different forms of representation offered by agents, managers, business managers, and lawyers and detail of legal rights and responsibilities of each. Exercises require students to represent rights holders in series of potential projects. S/U or letter grading.

297A-297B-297C. New Media Marketing I, II, III. (4-4-4) Seminar, three hours. Course 297A is requisite to 297B, which is requisite to 297C. Overview of changing world of storytelling through development of new technologies and multimedia. Development of short teaser/trailer or website using digital resources (digital cameras, editing, and new media effects) to promote student feature or television thesis project. S/U or letter grading.

298A-298B. Special Studies in Film and Television. (2 to 4 each) Lecture/discussion. Designed for graduate students. Seminar study of problems in film and television, organized on topic basis. May be repeated once for credit.
407. Video Documentary Workshop. (8) Laborato-
ry, 12 hours. Limited to graduated film and television
students. Emphasis on supervisedex-
408A-408B. Video Editing. (4-4) Discussion, four
hours; laboratory, to be arranged. Limited to graduated
film and television students. Individual instruction in
electronic editing. 408A. Online Editing; 408B. Offline
409. Directing the Actor for the Camera Workshop.
(4) Workshop, six hours; laboratory, to be ar-
anged; laboratory preparation, two to four hours.
Limited to M.F.A. production program students. Team-
taught with five weeks designed to give the director
actor/camera techniques, and five weeks to offer ba-
sic strategies to elicit good performances from actors.
Emphasis on problems faced when directing actors for
film.
410A. Symposium. (2) Seminar, three hours. Limited
to and required of first-year M.F.A. production pro-
gram students. Exploration of principal concepts of
film and television production within context of prepro-
duction, production, and postproduction, providing fo-
tum for thesis coursework. May be repeated for credit.
Letter grading.
410B. Cinematography Seminar. Seminar, three hours.
Limited to and required of first-year M.F.A. production pro-
gram students. Production workshop designed to
give hands-on experience in all aspects of film pro-
duction (tools and practicum of medium) as each stu-
dent writes/directs/edits six-minute film. May be re-
peate for credit. Letter grading.
410C. Postproduction. (2) Seminar, three hours.
Limited to and required of first-year M.F.A. production program
students. Production workshop designed to
give hands-on experience in all aspects of film pro-
duction (tools and practicum of medium) as each stu-
dent writes/directs/edits six-minute film. May be re-
peate for credit. Letter grading.
410D. Postproduction Sound. (2) Formerly num-
bered 298A.) Seminar, three hours. Requires:
courses 405, 409. Limited to and required of first-
year M.F.A. production program students. Technical
and aesthetic aspects of postproduction sound recording,
editing, and re-recording for film and television. Appli-
cation of principles of sound design to student films
while using UCLA’s John Candy Room and Sounding
Stage for postproduction (automated mixing environment,
ADR), Foley, and mixing. Use of Pro Tools LE for recording,
editing, and mixing, selection and use of microphones
and mixing consoles, and incorporation of Final Cut Pro
soundtracks into mix environment. Students re-
cord ADR and Foley and present mix of edited dia-
logue/ADR, Foley, stx, and music tracks by end of term.
Letter grading.
410E. Production. (12) Lecture, three hours; field-
work; 24 to 40 hours. Requires: courses 401, 409,
410A through 410D. Limited to and required of first-
year M.F.A. production/directing students. Designed
to give hands-on experience in film production. Students
prepare and direct six-minute films and serve in preas-
signed crew positions for each other. Letter grading.
411. Survey of Multimedia Production. (4) Lecture,
three hours; laboratory; three hours. Introduction to
various methods of digital production, with focus on
photo manipulation, desktop nonlinear postproduction,
C416. Intermediate Cinematography. (4) Lecture,
two hours; laboratory; four hours. Requires: course 141
A M.F.A. production program students. Advanced study
in cinematography, with emphasis on exposure, lighting,
and selection of film, camera, and lenses. Concurrently
scheduled with course C118. Letter grading.
417. Lighting for Film and Television. (4) Lecture,
two hours; laboratory; six hours. Limited to graduate
directing and/or production students. Advanced study
of cinematography, with emphasis on lighting, lighting
in multi-camera and multiple camera with minimal use of remote camera. Use of various formats of video production, including scripted and nonscripted projects, culminating in a narrative three-camera project.
406. Experimental Video Workshop. (4) Laborato-
ry, six hours; other, to be arranged. Limited to gradu-
ate film and television students. Introduction to inde-
pendent and experimental video with examination of impact of new video technologies in television, cover-
ing concepts of television, video, high-definition TV, and film and tape postproduction.
403A-403B–403C. Advanced Documentary Work-
shops. (4 to 8–8) Limited to nine graduate film and television students. Production of a 10- to
15-minute fiction film or project. Letter grading.
402A. Laboratory. (8) Seminar, four hours; labora-
tory, six or 12 hours; fieldwork, to be arranged.
Requires: courses 401, 409, 410A, 410B, 410C, 433. Limited to graduate film and television students. Production of advanced personal documentary film or video proj-
ects. Students conceptualize, research, write, shoot (on location, and edit projects to completion. May be repeated once for credit.
402A-402B. Advanced Narrative Directing Work-
shops. (4 to 8) Lecture/discussion/laboratory, 16 to 24 hours; fieldwork, to be arranged. Requires:
courses 405, 409, 410A, 410B, 410C, 433. Limited to graduate film and television students. Production of advanced personal documentary film or video proj-
ects. Students conceptualize, research, write, shoot (on location, and edit projects to completion. May be repeated once for credit.
402C. Advanced Narrative Directing Workshop. (4) Laboratory, four hours. Requires: courses 402A, 402B. Conceptualization and production on projects start-
ed in courses 402A and 402B. Letter grading.
C416. Intermediate Cinematography. (4) Lecture,
three hours. Limited to and required of first-year M.F.A. production program students. Advanced study in cinematography, with emphasis on exposure, lighting, and selection of film, camera, and lenses.
452A. Film and Television Sound Recording. (4) Lecture, three hours; laboratory, four hours. Limited to graduate film and television students. Principles and practices of film and television sound recording, including supervised exercises.

452B. Music Recording Workshop. (4) Lecture, four hours; laboratory, eight hours. Supervised exercises in studio recording techniques, with emphasis on special requirements for motion pictures and television.

453. Postproduction Sound Design. (2 to 4) (Formerly numbered 286A) Lecture, three hours. Designed to give film and television insights into world of postproduction sound and to provide knowledge and tools necessary to complete postwork on their projects. Exploration of all areas of postproduction sound design from editing to final mixing. Emphasis on sound design to enhance story telling capability of films, evaluate music choices, pick composer, music edit, create sound design to enhance story points, discover design opportunities, and select right sound effects. How to edit dialogue, prep for Automatic Dialogue Replacement and Foley sessions, and supervise final sound mix. Screening of numerous film clips to provide examples of post-production choices that demonstrate effective use of sound design. S/U or letter grading.

454A. Advanced Film Editing. (4) Lecture, three hours; laboratory, to be arranged. Preparation: submission of rough cut of existing project or proposal to edit work of another director. Requisite: course 154. Limited to film and television students in postproduction phase of thesis or advanced project. Organization and operation of postproduction editing. Letter grading.

454B. Advanced Film Editing. (4) Lecture, three hours; laboratory, one hour. Preparation: submission of rough cut of existing project or proposal to edit work of another director. Requisite: course 154. Limited to film and television students in postproduction phase of thesis or advanced project. Organization and operation of postproduction editing. Letter grading.

455A-455B. Music in Film: Another Way to Tell Stories. (4-4) Lecture, three hours. Course C455A is requisite to C455B. Exploration of concepts and issues that drive creation and use of music in film. Through lecture/discussion and practical assignments, examination of deep collaboration between filmmaker and composer. Viewing of noteworthy examples and following of collaboration of filmmakers with composers, with weekly sessions dedicated to temping, creation and development of new scores, studio visits, and creation and dialogue between musician and filmmaker. Preparation of film ready for temping by end of first quarter and ready for scoring at beginning of second quarter. Concurrently scheduled with courses C145A-C145B. Letter grading.

459A-459B. Directing for Film and Television. (4-4) Lecture, three hours. Limited to graduate film and television students. Analysis and exploration, with specific scenes, of differences and many similarities in directorial approach to same literary material in theater, film, and television.

464A-464B. Advanced Film Directing. (8-8) Hours to be arranged. Limited to graduate film and television students. Special problems in direction of fictional and documentary films.

465. Narrative Television Workshop. (8) Laboratory, eight hours. Supervised exercises in television multicamera direction, with emphasis on creative use of composition and design, and communication with those in front of and behind the camera. Letter grading.

466A-466B. Advanced Professional Video Workshops. (8-8) Lecture, three hours; laboratory, to be arranged. Requisites: courses 405, 410A, 410B, 410C, 423A. Limited to graduate film and television students. Hands-on problems in working with various interrelated disciplines in a professional production experience, including interaction with students of design and acting from Department of Theater.

C468. Creative Location Film Production. (8) Lecture, four hours; discussion, four hours; laboratory, to be arranged. Limited to directing or producer's program students. Problems of location production, directing, and cinematography in various "real-life" practical locations. Application of solving problems and communication within limitations of production experience. Concurrently scheduled with course C170A. Letter grading.

C470A. Introduction to Digital Effects. (4) Lecture, three hours; laboratory, to be arranged. Introductory study of digital effects production, with specific focus on computer aided effects, effects processing, and title sequences. Concurrently scheduled with course C170A. Letter grading.

472. Commercials. (4) Lecture, four hours. Limited to M.F.A. students. Designed to give students opportunities to explore one very specific kind of filmmaking. Through exploration of advertising, students gain knowledge about what kind of work is salable in American and foreign markets and how to work within distinct confines of commercial genre. Letter grading.

475. Film I (8) Discussion, three hours; laboratory, to be arranged. Designed for graduate students. Study of basic techniques of film production, including preproduction planning and production of a group short film.

476. Video I. (8) Discussion, three hours; laboratory, to be arranged. Designed for graduate students. Study of basic techniques of television and video production, including completion of one or more projects.

478. Video II. (8) Discussion, three hours; laboratory, to be arranged. Requisites: courses 185, and 405 or 476. Designed for graduate students. Group experience in video production with each member rotating on crew work in production of individual or collective projects.

480. Timing for Animation. (4) Lecture, three hours; laboratory, three hours. Process of animation timing through lectures and assignments. Letter grading.

482A-482B. Advanced Animation Workshops. (4 or 8 each) Lecture, three hours; laboratory, to be arranged. Requisites: courses 181A, 181B, 181C. Advanced organization and integration of various creative arts used in animation, resulting in production of a complete animated film. May be repeated for a maximum of 16 units.

483A-483B-483C. Advanced Computer Animation. (4 to 8 each) Lecture, six hours; laboratory, four to eight hours. Requisites: courses 181A, 181B, 181C, 482A. Required once of all teaching assistants. Lecture, six hours; laboratory, to be arranged. Requisites: courses 181A, 181B, 181C. Lecture, six hours; laboratory, four to eight hours. Requisites: course 488A. Instruction in creation, preparation, and production of a complete and original computer animation film or tape. May be repeated for a maximum of 16 units.

485. Legal Issues in Animation. (4) Lecture, three hours; laboratory, three hours. Examination of legal issues in animation, including copyright, contracts, employment issues in animation, competing rights, employer/employee relationships, and representation in animation. S/U or letter grading.

486. Directed Individual Study: Preparation to Advance in Candidacy for M.F.A. Production. (2 to 4) Preparation for thesis production, four to eight hours. Limited to M.F.A. production program students. Specialized development and organization of proposed project prior to advancement to candidacy. Should be taken term before student plans to advance to candidacy.

487. Directed Individual Study: Postproduction Laboratory. (4) Laboratory, eight hours. Limited to M.F.A. production program students. Completion of projects in final stages of postproduction. May not be repeated.

488A. Interactive Animation. (4 to 8) Lecture, six hours; laboratory, to be arranged. Requisites: courses 181A, 181C, 489A. Organization and integration of various creative arts used in animation and interactive media to form complete study of a selective interactive animation project. May be repeated for a maximum of 16 units.

489A. Computer Animation in Film and Video. (4 to 8) Lecture, six hours; laboratory, four to eight hours; other, to be arranged. Preparation: completed animated film. Requisites: courses 181A, 181C. Instruction in and supervised production of computer animation. May be repeated for a maximum of 16 units. Letter grading.

489B. Production in Computer Animation. (4 to 8) Lecture, six hours; laboratory, four to eight hours. Requisite: course 489A. Instruction in creation, preparation, and production of a complete and original computer animation film or tape. May be repeated for a maximum of 16 units.

495A. Practice of Teaching Film and Television. (2) Seminar, three hours. Required of all teaching assistants and associates in critical studies program. Orientation and preparation of graduate students who have responsibility to assist in teaching undergraduate courses in department; discussion of problems common to teaching experience.

495B. Teaching with Technology in Film and Media Studies. (2) Seminar, three hours. How to use appropriate technology to become more effective teaching assistants. Pedagogical impact of tools, including course management software, presentation technologies, and Internet. Discussion of technological resources available on campus. Use of unfamiliar tools to gain confidence in ability to incorporate new technologies in teaching. S/U grading.

496. Practice of Teaching Film and Television. (2) Discussion. Required once of all teaching assistants and associates in department. Orientation and preparation of graduate students who have responsibility to assist in teaching undergraduate courses in department; discussion of problems common to teaching experience. May not be applied toward M.A., M.F.A., or Ph.D. May be repeated for a maximum of 16 units.

498. Professional Internship in Film and Television. (4, 8, or 12) Full- or part-time at a studio or on a professional project. Designed for M.F.A. program advanced students. Internship at various film, television, or theater facilities accentuating creative contribution, organization, and work of professionals in their various specialties. Given only when projects can be scheduled.
FOREIGN LITERATURE IN TRANSLATION

Scope and Objectives
The following courses offered in the departments of language and literature do not require reading knowledge of any foreign language.

Foreign Literature in Translation

Course List

Afrikaans (Germanic Languages)
40. From Oppressed to Oppressor and Beyond: Literature in Afrikaans from Preapartheid to Postapartheid Era in English Translation

Ancient Near East (Near Eastern Languages)
150A-150B. Survey of Ancient Near Eastern Literatures in English

Arabic (Near Eastern Languages)
150. Classical Arabic Literature in English
151. Modern Arabic Literature in English

Armenian (Near Eastern Languages)
150A-150B. Survey of Armenian Literature in English
C152. Modern Armenian Drama as Vehicle for Social Critique
C153. Art, Politics, and Nationalism in Modern Armenian Literature

Asian (Asian Languages)
151. Buddhist Literature in Translation

Bulgarian (Slavic Languages)
154. Survey of Bulgarian Literature

Chinese (Asian Languages)
C150A. Lyrical Traditions
150B. Traditional Narrative and Drama
151. Chinese Literature in Translation: Modern Literature
152. Topics in Contemporary Chinese Literature and Culture
M153. Chinese Immigrant Literature and Film

Classics
40W. Reading Greek Literature: Writing-Intensive
41W. Reading Roman Literature: Writing-Intensive
137. Ancient Lives: Art of Biography
140. Topics in History of Greek Literature
141. Topics in History of Latin Literature
142. Ancient Epic
143A. Ancient Tragedy
143B. Ancient Comedy

Comparative Literature
All undergraduate courses

Czech (Slavic Languages)
155. Survey of Czech Literature from Middle Ages to Present

Dutch (Germanic Languages)
113. Modern Dutch and Flemish Literature in Translation

English
108A-108B. English Bible as Literature
108C. English Bible as Literature: Special Topics
111A. Oral Tradition
111D. Celtic Mythology
111E. Survey of Medieval Celtic Literature
111F. Celtic Folklore

French (French and Francophone Studies)
112. Medieval Foundations of European Civilization
160. Francophone Cultures in English
161. French and Francophone Theater in Translation
164. French and Francophone Novel in Translation
166. French and Francophone Autobiography in Translation
167. French and Francophone Intellectual History in Translation
172. Francophone Cinema and Literature in Translation
191A. Variable Topics Research Seminars in Translation

German (Germanic Languages)
50A-50B. Great Works of German Literature in Translation
55. City as Text: German Exile Culture in Los Angeles
55W. German Exile Culture in Los Angeles
56. Figures Who Changed World
57. Hollywood and Germany
58. Knights and Ladies, Sex and Power at Medieval Court
59. Holocaust in Film and Literature
60W. War
61A-61D. Transatlantic Culture: Modern City in Central Europe
62W. Technoscience and German Culture
M70. Origin of Language
100A. German History and Culture before 1500
100B. German History and Culture, 1500 to 1914
100C. War, Politics, Art
106. Faust Tradition from Renaissance to Modern Age

M108. Love and Sex in German Literary Tradition
112. Jewish Writing and Thought in German Culture, 1755 to Present
116. Special Topics in Modern Literature and Culture

Hungarian (Slavic Languages)
121. Survey of Hungarian Literature in Translation

Iranian (Near Eastern Languages)
150A-150B. Survey of Persian Literature in English

Italian
42A-42B. Italy through the Ages in English
50A-50B. Masterpieces of Italian Literature in English
102A-102B-102C. Italian Cultural Experience in English
110. Dante in English
121. Literature and Film
122. Italian Theater

Japanese (Asian Languages)
C150. Topics in Japanese Literature and Philosophy
151. Japanese Literature in Translation: Modern
154. Postwar Japanese Culture through Literature
M156. Literature and Technology

Jewish Studies (Near Eastern Languages)
75. Modern Hebrew Literature Made into Film
M150A-150B. Hebrew Literature in English
M151A-151B. Modern Jewish Literature in English

Korean (Asian Languages)
150. Korean Literature in Translation: Classical
151. Korean Literature in Translation: Modern

Old Norse Studies (Scandinavian)
40. Heroic Journey in Northern Myth, Legend, and Epic
C139. Saga
C140. Viking Civilization and Literature

Polish (Slavic Languages)
152A-152B-152C. Survey of Polish Literature

Portuguese (Spanish and Portuguese)
40A-40B. Portuguese, Brazilian, and African Literature in Translation
46. Brazilian Culture and Civilization

Romanian (Slavic Languages)
152. Survey of Romanian Literature

Russian (Slavic Languages)
25, 25W. Russian Novel in Translation
M118. History of Russia from Origins to Rise of Muscovy
119. Golden Age and Great Realists
120. Literature and Revolution
124C-124T. Studies in Russian Literature
125. Russian Novel in Its European Setting
126. Survey of Russian Drama
M127. Women in Russian Literature
128. Russian Science Fiction
C170. Russian Folklore

Scandinavian
50, 50W. Introduction to Scandinavian Literatures and Cultures
141. Backgrounds of Scandinavian Literature
C141A. Theory of Scandinavian Novel
142. Scandinavian Literature of the 19th Century
143. Scandinavian Literature of the 20th Century
CM144A. Voices of Women in Nordic Literature
C145A. Henrik Ibsen
Scope and Objectives

The Department of French and Francophone Studies is a major West Coast center for the study of French. In recent decades French critical thought has maintained a dominant position in the Western world. The department seeks to give its students not only a background in the various fields of French and Francophone studies, but also opportunity to relate literary, linguistic, and cultural study to examination of the critical intellectual questions of our time.

The undergraduate lower division program is designed to provide practical competence in French after one year and thorough basic knowledge of the language after two years.

The undergraduate upper division program is chiefly devoted to perfecting linguistic skills and to the study of French and Francophone culture and literature. Courses in linguistics and business French are also offered. Students graduating with a Bachelor of Arts in French should be fully fluent in French and possess a thorough background in French and Francophone literature and culture.

The graduate program offers both M.A. and Ph.D. degrees and comprises training in the various fields of French and Francophone culture, literature, and thought, as well as in literary criticism, analysis, and theory. A number of courses in linguistics and stylistics are also offered.

Undergraduate Study

If students have taken French elsewhere, they must take a placement test administered by the department. Depending on the results of the placement test or with recommendation of an instructor, they may be permitted to enroll in a course of study at a more advanced level.

Requisites to all upper division courses taken in partial fulfillment of the French major are French 6, 12, or equivalent. Courses 105 through 109 are not sequential and may be taken in any order, provided the requisites for each course are fulfilled.

No credit is allowed for completing a less advanced course after successful completion of a more advanced course in French grammar and/or composition.

French B.A./French and Linguistics B.A.

Preparation for the Majors

Required: French 1, 2, 3, 4, 5, 6, 12, or equivalent. Students normally take course 6 before undertaking course 12. Students who receive a grade of A in course 5 may enroll in course 12 concurrently with course 6, with consent of the instructor. Students in Plan III must also take Linguistics 20.

Transfer Students

Transfer applicants to the French majors with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of French and one French literature course. Students in Plan III must also complete an introduction to linguistics course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Majors

Three plans are offered by the department:

Plan I: French/Francophone Studies in Literature and Culture

Plan II: Interdisciplinary French/Francophone Studies

Plan III: French and Linguistics

Scope and Objectives

The Department of French and Francophone Studies is a major West Coast center for the study of French. In recent decades French critical thought has maintained a dominant position in the Western world. The department seeks to give its students not only a background in the various fields of French and Francophone studies, but also opportunity to relate literary, linguistic, and cultural study to examination of the critical intellectual questions of our time.

The undergraduate lower division program is designed to provide practical competence in French after one year and thorough basic knowledge of the language after two years.

The undergraduate upper division program is chiefly devoted to perfecting linguistic skills and to the study of French and Francophone culture and literature. Courses in linguistics and business French are also offered. Students graduating with a Bachelor of Arts in French should be fully fluent in French and possess a thorough background in French and Francophone literature and culture. All three plans lead to the Bachelor of Arts degree and subsequently to graduate studies in French.

The graduate program offers both M.A. and Ph.D. degrees and comprises training in the various fields of French and Francophone culture, literature, and thought, as well as in literary criticism, analysis, and theory. A number of courses in linguistics and stylistics are also offered.

Undergraduate Study

If students have taken French elsewhere, they must take a placement test administered by the department. Depending on the results of the placement test or with recommendation of an instructor, they may be permitted to enroll in a course of study at a more advanced level.

Requisites to all upper division courses taken in partial fulfillment of the French major are French 6, 12, or equivalent. Courses 105 through 109 are not sequential and may be taken in any order, provided the requisites for each course are fulfilled.

No credit is allowed for completing a less advanced course after successful completion of a more advanced course in French grammar and/or composition.

French B.A./French and Linguistics B.A.

Preparation for the Majors

Required: French 1, 2, 3, 4, 5, 6, 12, or equivalent. Students normally take course 6 before undertaking course 12. Students who receive a grade of A in course 5 may enroll in course 12 concurrently with course 6, with consent of the instructor. Students in Plan III must also take Linguistics 20.

Transfer Students

Transfer applicants to the French majors with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of French and one French literature course. Students in Plan III must also complete an introduction to linguistics course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Majors

Three plans are offered by the department:

Plan I: French/Francophone Studies in Literature and Culture

Plan II: Interdisciplinary French/Francophone Studies

Plan III: French and Linguistics

France and Francophone Studies

Patrick J. Coleman, Ph.D., Undergraduate Studies Director

Professors

Albert I. Boime, Ph.D.
Jean-Claude Carron, Docteur ès Lettres
Patrick J. Coleman, Ph.D.
Eric L. Gans, Ph.D.
Lynn A. Hunt, Ph.D. (Eugen Weber Professor of Modern European History)
Françoise Lionet, Ph.D.
Alain M. Mabancou, D.E.A.
Allen F. Roberts, Ph.D.
Dominic R. Thomas, Ph.D.
Stephen D. Werner, Ph.D.

Associate Professors

Eleanor K. Kaufman, Ph.D.
Andrea N. Loselle, Ph.D.
Sara E. Melzer, Ph.D.
Malina Stefanovska, Ph.D.

Assistant Professors

Lia Brozgal, Ph.D.
Laure Murat, Doctorat en Histoire
Zrinka Stahuljak, Ph.D.

Lecturers

Laurence M. Denié, Ph.D.
If students’ knowledge of French exceeds the preparation usually received in courses preparing for the major and if they demonstrate the requisite attainment in French 100, 101, or 102, they may substitute for those courses in grammar and composition an equivalent number of upper division courses in the French and Francophone Studies Department in consultation with an adviser. All prospective French majors who are native or quasi-native speakers of French must see the undergraduate adviser before beginning upper division work in the major.

All majors must complete a minimum of nine courses of appropriate upper division work in the UCLA French and Francophone Studies Department. Freshmen and sophomores may take up to two courses taught in English, selected from French 164 through 167, in fulfillment of major requirements (if taken in the junior or senior year, these courses count as electives). A maximum of 8 units of course 199 may be applied toward the elective requirements for the major if approved in advance by the undergraduate adviser. Students must maintain a C average in upper division major courses in order to remain in any of the French majors.

Coursework taken on a Passed/Not Passed basis is not acceptable in any area of the major program. It is recommended that students intending to major in French consult the undergraduate adviser before enrolling in upper division courses.

**Honors Program**

The department encourages those students in the French majors with initiative and independence of mind who desire an enriched individualized course of study to apply for the honors program.

The honors program is designed for French majors who have fulfilled their lower division requirements and have a 3.5 departmental grade-point average. Students whose GPA falls between 3.3 and 3.5 should submit a composition from an advanced language or literature course to the honors committee. If the work submitted meets with approval, students are admitted to the program.

To graduate with departmental honors, students must complete a minimum of two honors projects in the context of nonhonors upper division courses (French 115 and above) taken for honors credit. They must do an honors project (a research paper of 12 to 15 pages) in addition to the regular course requirements. An honors contract must be signed before the end of the third week of the term. After completing the project, students fill out a completion form.

On the basis of their coursework and field of interest, students are expected to formulate a research topic they wish to pursue in greater depth. They take course 198 where they receive regular personal supervision from a faculty member in the research, methodology, and writing of their approximately 30- to 35-page honors thesis (honors projects and the honors thesis are not to be confused).

Students may begin the honors program toward the end of their junior year or during their senior year. Students are allowed to enroll in graduate courses with the consent of the instructor but cannot use those courses to replace an honors project. Departmental honors are recorded on the final transcript if students fulfill all requirements for the program. They may submit their final honors thesis for the departmental prize.

**French Minor**

To enter the French minor, students must have an overall grade-point average of 2.0 or better.

**Required Lower Division Courses (8 units):**
- French 6 or equivalent and one course from 12, 14, 15, 41, or 60.

**Required Upper Division Courses (20 units):**
- French 100 or 101, and four additional departmental courses in language, culture, or literature to be selected in consultation with an undergraduate counselor.

All minor courses must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

**Graduate Study**

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

**Graduate Degrees**

The Department of French and Francophone Studies offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in French and Francophone Studies.

**French Lower Division Courses**

1. **Elementary French**. (4) Lecture, five hours. P/NP or letter grading.
2. **Intermediate French for Graduate Students**. (3) Preparation for GSFLT or other language examinations. A passing grade does not imply satisfaction of language requirements. S/U grading.
3. **Elementary French**. (4) Lecture, five hours. Enforced requisite: course 1 with a grade of C– or better. P/NP or letter grading.
4. **Elementary French**. (4) Lecture, five hours. Enforced requisite: course 2 with a grade of C– or better. P/NP or letter grading.
5. **Intermediate French**. (4) Lecture, four hours. Enforced requisite: course 3 with a grade of C– or better. P/NP or letter grading.
7. **Intensive First-Year French**. (12) Lecture, 15 hours. All-in-French intensive language program equivalent to first year of college French and designed to develop basic language skills. Additional work in language and media laboratory required. Offered in summer only. P/NP or letter grading.
8. **Intensive Second-Year French**. (8) Lecture, 10 hours; media laboratory, three hours. Enforced requisite: course 3. Intensive course equivalent to first two terms of intermediate French and designed to improve proficiency in reading, writing, and speaking. Offered in summer only. P/NP or letter grading.
10. **Introduction to French Culture and Civilization, in English**. (5) Lecture, three hours; discussion, one hour. Not open for credit to students with credit for course 14W. Study of contemporary French institutions and issues in cultural, political, and socioeconomic realms. P/NP or letter grading.
12. **Introduction to French Cultural and Political History**. (5) Lecture, three hours; discussion, one hour. Study of contemporary French institutions and issues in cultural, political, and socioeconomic realms. P/NP or letter grading.
13. **Introduction to French Literature**. (5) Lecture, two hours; discussion, one hour. Study of literary masterpieces produced by writers from France and Francophone world (Canada, Africa, Caribbean, etc.) from the 17th century to early 21st century. P/NP or letter grading.
15. **Advanced Expository Writing: Techniques of Argumentation**. (4) Lecture, three hours; discussion, one hour. Study of contemporary French institutions and issues in cultural, political, and socioeconomic realms. P/NP or letter grading.
16. **French Cinema and Culture**. (5) Lecture, five hours; discussion, one hour. Study of contemporary French institutions and issues in cultural, political, and socioeconomic realms. P/NP or letter grading.
17. **French and Francophone Novel**. (5) Lecture, five hours; discussion, one hour. Study of contemporary French institutions and issues in cultural, political, and socioeconomic realms. P/NP or letter grading.

112. Medieval Foundations of European Civilization. (4) Lecture, three hours; discussion/film screenings, two hours. Medieval texts, culture, social structure, and political issues as they lay bases of European modernity. P/NP or letter grading.

114A. Medieval and Renaissance Literature. (5) Lecture, three hours. Requisite: course 12. Masterpieces of medieval and Renaissance literature, including examples of epic (La Chanson de Roland), romance (Christét de Troyes’ Yvain), and Renaissance prose and poetry (including Marot, Du Bellay, Ronsard, Fable, Bélain, Marguerite de Navarre, and Montaigne). P/NP or letter grading.

114B. 17th and 18th Centuries. (5) Lecture, three hours. Requisite: course 12. Study of selections from major works of classicism and the Enlightenment, including those by Racine, Pascal, La Fayette, La Fontaine, Lactos, Diderot, Voltaire, and Rousseau. P/NP or letter grading.

115. Studies in Medieval French Culture and Literature. (4) (Formerly numbered 115A.) Lecture, three hours. Taught in French. Study of medieval French culture and literature, including lyric poetry and narrative romance, history of medieval warfare, comedy, and class structures. May be repeated for credit with topic change. P/NP or letter grading.

116. Studies in Renaissance French Culture and Literature. (4) (Formerly numbered 116A.) Lecture, three hours. Taught in French. Study of Renaissance French culture and literature, including la Pèlaidé and 16th-century poetry, linguistic and poetic revolution, novel and early prose, and late French humanism. May be repeated for credit with topic change. P/NP or letter grading.

117. Studies in 17th-Century French Culture and Literature. (4) (Formerly numbered 117A.) Lecture, three hours. Taught in French. Study of 17th-century French culture and literature, including theater, philosophers, major cultural, political, religious, and courtly aspects. May be repeated for credit with topic change. P/NP or letter grading.

118. Studies in 18th-Century French Culture and Literature. (4) (Formerly numbered 118A.) Lecture, three hours. Taught in French. Study of 18th-century French culture and literature, including satire, novel, theater, philosophers, and theoretical writings. May be repeated for credit with topic change. P/NP or letter grading.

119. Studies in 19th-Century French Culture and Literature. (4) (Formerly numbered 119A.) Lecture, three hours. Taught in French. Study of 19th-century French culture and literature, including Romanticism, generation of 1848, naturalism and symbolism, and genres and trends from 1885 through World War I. May be repeated for credit with topic change. P/NP or letter grading.

120. Studies in 20th-Century French Culture and Literature. (4) (Formerly numbered 120A.) Lecture, three hours. Taught in French. Study of 20th-century French culture and literature, including early 20th-century writers, surrealism, literature from 1915 to 1945, post-World War II literature, existentialism, new novel, theater, and poetry. May be repeated for credit with topic change. P/NP or letter grading.

121. Studies in Francophone Cultures and Literatures. (4) (Formerly numbered 121A.) Lecture, three hours. Taught in French. Study of Francophone cultures and literatures, including works by poets, playwrights, and novelists from Caribbean, North Africa, Quebec, and sub-Saharan Africa, immigrant narratives, and colonialism and postcolonial studies. May be repeated for credit with topic change. P/NP or letter grading.

130. Contemporary French and Francophone Cultures. (4) Lecture, three hours. Requisite: course 12 or 100. Taught in French. Study of contemporary French and Francophone world (Africa, Asia, Caribbean, Europe), government, institutions, and cultural, economic, social, and political issues. May be repeated for credit with topic change. P/NP or letter grading.

131. French and Francophone Theater. (4) Lecture, three hours. Taught in French. Through plays of 20th century, analysis of struggles of individuals and social groups in contexts that are historical, political, philosophical, existentialist, and cultural (colonialism and conformism). May be repeated for credit with topic change. P/NP or letter grading.

135. French and Francophone Intellectual History. (4) (Formerly numbered 125.) Lecture, three hours. Taught in French. Introduction to intellectual history of France and Francophone world. Requisite: course 12 or 100. Taught in French. Exploration of themes that address particular problem of French literature, civilization, or ideas. May be repeated for credit with topic change. P/NP or letter grading.

141. French Cinema. (4) Lecture, three hours. Study of French cinema and cinematographers in generic, thematic, and sociocultural aspects. May be repeated for credit with topic change. P/NP or letter grading.

142. Francophone Cinema. (4) Lecture, three hours. Study of Francophone cinema (Africa, Caribbean, postcolonial communities in France) cinema and cinematographers in generic, thematic, and sociocultural aspects. May be repeated for credit with topic change. P/NP or letter grading.

143. French and Francophone Theater in Translation. (4) Lecture, three hours. Through plays of 20th century, analysis of struggles of individuals and social groups in contexts that are historical, political, philosophical, existentialist, and cultural (colonialism and conformism). May be repeated for credit with topic change. P/NP or letter grading.

144. French and Francophone Novel in Translation. (4) (Formerly numbered 164A-164B.) Lecture, three hours. Taught in French. May be repeated for credit with topic change. P/NP or letter grading.

145. French and Francophone Intellectual History in Translation. (4) (Formerly numbered 164C.) Lecture, three hours. Taught in French. Reading, discussion, and development of culminating genre and its relation to broad questions of identity, gender, race, and class. May be repeated for credit with topic change. P/NP or letter grading.

146. French and Francophone Intellectual History in Translation. (4) (Formerly numbered 164A-164B.) Lecture, three hours. Taught in French. May be repeated for credit with topic change. P/NP or letter grading.

191A. Variable Topics Research Seminars in Translation. (4) (Formerly numbered 165.) Seminar, three hours. Reading seminars on topics to be announced each term. Topics include major writers, genres, cultural movements, or theoretical practices. Reading, discussion, and development of culminating project may be repeated for credit with consent of major adviser. P/NP or letter grading.

191B. Variable Topics Research Seminars. (4) (Formerly numbered 165.) Seminar, three hours. Taught in French. Research seminars on topics to be announced each term. Topics include major writers, genres, cultural movements, or theoretical practices. Reading, discussion, and development of culminating project may be repeated for credit with consent of major adviser. P/NP or letter grading.

M140. Women’s Studies in French Literature. (4) (Same as Women’s Studies M140.) Lecture, three hours. Exploration of a social aspect of the situation of women in French literature and authors, character, symbol, etc. P/NP or letter grading.

149. 19th and 20th Centuries. (Formerly numbered 150.) Lecture, three hours. Taught in French. Study of French culture and literature, including early 20th-century feminism and transportation, multiple layers of past, present and future, and nègres and insurrectionists through wide range of literary and critical texts. Requisite: course 100 or 109. Taught in French. Analysis of struggles of individuals and social groups in contexts that are historical, political, philosophical, existentialist, and cultural (colonialism and conformism). May be repeated for credit with topic change. P/NP or letter grading.
198. Honors Research in French. (4) [Formerly numbered 170A.] Tutorial, three hours. Limited to junior or senior French majors with 3.5 departmental and 3.25 overall grade-point averages. Development and completion of honors thesis or comprehensive research project under direct supervision of faculty member. May be repeated for credit. Individual contract required for letter grading.

199. Directed Research or Senior Project in French. (2 to 4) Tutorial, three hours. Limited to juniors or seniors. Supervised individual research or investigation under guidance of faculty mentor. Culuminating paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

201. Techniques of Literary Analysis. (4) Lecture, three hours. Practice in close analysis of literary texts, including explication de texte. S/U or letter grading.

202. Cultural Studies. (4) Lecture, three hours. Introduction to theoretical approaches to popular and mass culture, and to postcolonial and Francophone cultures. Topics include emergent disciplines and theories such as sociology and structuralism, the city, revolution, avant-garde strategies, media, diaspora during postwar modernization, Algerian War, May 68, and beyond. Theorists include Barthes, de Certeau, Bourdieu, Baudrillard, Lyotard, Ross, Rey Chow, Virilio. S/U or letter grading.

203. Contemporary Francophone Literature. (4) [Formerly numbered 220.] Lecture, three hours. Study of Francophone African, Caribbean, Vietnamese, or Quebec literatures and cultures, with specific attention to issues of cultural contact, language, colonialism, anticolonialism, nationalism, resistance and dissidence, and postcolonial theory. S/U or letter grading.

204. Studies in Autobiography. (4) Lecture, three hours. Introduction to theories of autobiography and subjectivity, and to genre of autobiography in literatures in French across centuries. Topics include early modern approaches to self-writing, Rousseau and emergence of modern self, women's autobiography in France and Francophone world. Theorists may include Georges Guadarr, Philippe Lejeune, Paul de Man, Jacques Derrida, Helene Cixous, Michel Foucault, Pierre Bourdieu, Toril Moi. S/U or letter grading.

205A-205B. Seminar in Continental Literature. (4-4) Lecture, three hours. Discussion of selected topics in French and Francophone cinema and literature. S/U or letter grading.

206A-206B. Studies in Generative Anthropology. (4-4) Lecture, three hours. Discussion of principles of generative anthropology and their application to given set of literary, philosophical, and scientific texts and/or other cultural phenomena. S/U or letter grading.

207. Studies in History of Ideas. (4) Seminar, three hours. Problems in French literature and ideas. May be repeated for credit. S/U or letter grading.

208. Studies in Literary Criticism. (4) Seminar, three hours. Readings in literary criticism, theory, and literature from any period of French literature. May be repeated for credit. S/U or letter grading.

209. Studies in Literary Genre. (4) Seminar, three hours. Advanced research and study of literary genres such as poetry, drama, fiction, autobiography, and performance and of theory of these genres. S/U or letter grading.

210. Paleography of Latin and Vernacular Manuscripts, 900 to 1500. (4) Same as Classics M218, English M215, and History M218.) Lecture, three hours; discussion, two hours. Introduction to history of Latin and vernacular manuscript book from 900 to 1500 to (1) train students to make informed judgments with regard to place and date of origin, (2) provide training in accurate reading and transcription of later medieval scripts, and (3) examine manuscript book as witness to changing society that produced it. Focus on relationship between Latin manuscripts and vernacular manuscripts with regard to their respective presentation of written texts. S/U or letter grading.

220. 20th Century. (4) Lecture, three hours. Overview, both historical and analytical, of 20th-century French literature set in context of several key critical topics that interrogate canonical interpretation. Letter grading.

226. Research Methods and Writing. (2) Seminar, two hours. Advanced study of current topics in literary and cultural analysis and in critical theory. Discussion of current research and literature in research speciality of faculty member teaching course. S/U grading.

229. Research Resources for European Studies. (2) (Same as German M299, Information Studies M299, Italian M299, Slavic M299, and Spanish M299.) Lecture, two hours. Essentials of library research strategy and effective searching in key print and on-line resources for European and Russian studies. Through combination of lecture, online demonstration, and hands-on activities in and outside class, students understand how to efficiently use library and databases. S/U grading.

370. Teaching French in Secondary School. (4) Lecture, three hours; discussion, one hour. Required of all candidates for general secondary instructional credential in French.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Teaching French at College Level. (4) Seminar, three hours; discussion, one hour. Designed for graduate students. Theory and practice of language teaching. S/U grading.

FRESHMAN GENERAL EDUCATION CLUSTERS

College of Letters and Science
UCLA
A265 Murphy Hall
Box 951571
Los Angeles, CA 90095-1571
(310) 206-5446
http://www.ugeducation.ucla.edu/clusters/

Scope and Objectives

Available to entering freshmen only, cluster courses are an option for satisfying general education requirements. Clusters are yearlong, collaboratively taught, interdisciplinary courses that focus on a topic of timely importance, such as the global environment or intercultural dynamics. The courses are taught by some of UCLA's most distinguished faculty members and seasoned graduate students. During Fall and Winter Quarters, students attend lecture courses and small discussion sections and/or laboratories. In Spring Quarter, the same students enroll in one of a number of satellite seminars dealing with topics related to the cluster theme. Freshman clusters are designed to strengthen the writing, quantitative reasoning, critical thinking, and information literacy skills that students need to excel at UCLA. At the conclusion of the entire yearlong cluster, students complete nearly a third of their general education course requirements, satisfy their general education seminar requirement, and fulfill the Writing II requirement. Cluster students are eligible for three terms of honors credit, with the Spring Quarter seminar providing Honors Collegium credit.

For the current cluster course offerings and general education credit, refer to http://www.ugeducation.ucla.edu/clusters/.

596. Directed Individual Studies or Research. (2 to 4) Tutorial, to be arranged.

597. Preparation for M.A. Comprehensive Examination or Ph.D. Qualifying Examinations. (2 to 8) May be repeated for a maximum of 16 units. S/U grading.

598. Research for and Preparation of M.A. Thesis. (2 to 4) Maximum of 4 units may be applied toward M.A. degree requirements. S/U grading.

General Education Clusters

Lower Division Courses

M1A-M1B-M1CW. Global Environment. (5-5-5) (Same as Environment M1A-M1B-M1CW) Course M1A is enforced requisite to M1B, which is enforced requisite to M1CW. Limited to first-year freshmen. Letter grading. M1A-M1B. Multidisciplinary Perspective I. II, Lecture, three hours; discussion, two hours. Human effects on Earth's ecosystem and social and technological solutions to environmental pollution and overpopulation. History and ecology in lectures; laboratory exercises included in discussions. M1CW. Special Topics. Seminar, three hours. Enforced requisites: course M1A and English Composition 3 or 3H or English as a Second Language 36. Examination of specialized environmental topics such as air and water, global warming, and feeding Earth's population. Satisfies Writing II requirement.

20A-20B-20CW. Interracial Dynamics in American Culture and Society. (5-5-5) Course 20A is an enforced requisite to 20B, which is enforced requisite to 20CW. Limited to first-year freshmen. Letter grading. 20A-20B. Lecture, four hours; discussion, two hours. Introduction to historical development and evolution of perceiving, assessing, and classifying race in social and cultural contexts within which race has evolved. 20CW. Special Topics. Seminar, three hours. Enforced requisites: course M1CW and English Composition 3 or 3H or English as a Second Language 36. Topics include origins and ideas of performance, art and performance, and music as cultural expression. Satisfies Writing II requirement. M24A-M24B-M24CW. Work, Labor, and Social Justice in U.S. (5-5-5) (Same as Labor and Workplace Studies M1A-M1B-M1CW) Course M24A is enforced requisite to M24B, which is enforced requisite to M24CW. Limited to first-year freshmen. Letter grading. M24A-M24B. Lecture, three hours; discussion, two hours. Exploration of ways in which work has been transformed over last century, impact of this transformation on working people, and role of labor movement as force for social justice. M24CW. Special Topics. Seminar, three hours. Enforced requisites: course M24B, and English Composition 3 or 3H or English as a Second Language 36. Topics include labor law/history, gender, race, and workplace. Satisfies Writing II requirement. 25A-25B-25CW. Politics, Society, and Urban Culture in East Asia. (5-5-5) Course 25A is enforced requisite to 25B, which is enforced requisite to 25CW. Limited to first-year freshman. Letter grading. 25A-25B. Lecture, three hours; discussion, two hours. Comprehensive exploration of historical evolution of popular East Asian culture and interpersonal relationship of East Asian politics, social life, and urban cultural expression. 25CW. Special Topics. Seminar, three hours. Enforced requisites: course 25B, and English Composition 3 or 3H or English as a Second Language 36. In-depth examination of issues in historical and contemporary East Asian popular culture. Satisfies Writing II requirement. 60A-60B-60CW. America in Sixties: Politics, Society, and Culture. 1954 to 1974. (5-5-5) Course 60A is enforced requisite to 60B, which is enforced requisite to 60CW. Limited to first-year freshmen. Letter grading. 60A-60B. Lecture, three hours; discussion, two hours. Interdisciplinary exploration of U.S. society from Brown versus Board of Education (1954) to resignation of Nixon. Topics include civil rights, Great Society, and Vietnam War, politics and art/tic countercultures, and changes in technology, law, and media. 60CW. Special Topics. Seminar, three hours. Enforced requisites: course 60B, and English Composition 3 or 3H or English as a Second Language 36. In-depth examination of political and cultural issues affecting U.S. society from 1954 to 1974. Satisfies Writing II requirement. 66A-66B-66CW. Los Angeles: The Cluster. (5-5-5) Course 66A is enforced requisite to 66B, which is enforced requisite to 66CW. Limited to first-year freshmen. Letter grading. 66A-66B. Lecture, three hours; discussion, two hours. In-depth look at city in which their work is fundamental. 66B-66C. Lecture, three hours; discussion, two hours. As they do, they come to understand peoples, spaces, politics, and cultures of Los Angeles and its metropolitan region in both present and past, as well as Los Angeles’ place in urban world. 66CW. Special Topics. Seminar, three hours. Enforced requisites: course 66B, and English Composition 3 or 3H or English as a Second Language 36. Topics may include musical cultures of Los Angeles, Los Angeles as global city, Los Angeles in fiction, Southern California and environment, planning for 21st-century Los Angeles, and housing and homeless in Los Angeles. Satisfies Writing II requirement. 70A-70D. Evolution of Cosmos and Life. (5 each) Course 70A is enforced requisite to 70B, which is enforced requisite to 70C or 70D. Limited to first-year freshmen. Letter grading. 70A-70B. Lecture, three hours; discussion, two hours. Use of concept of evolution, as it applies to biological organisms, Earth, solar system, and universe itself, to introduce students to both life and physical sciences. Examination of evolution of universe, galaxy, solar system, and Earth in course 70A; focus on evolution of life in course 70B. 70CW. Special Topics in Life Sciences. Seminar, three hours. Enforced requisites: course 70B, and English Composition 3 or 3H or English as a Second Language 36. Not open for credit to students with credit for course 70DW. Examination in depth of various issues of evolution in cosmos from physical sciences perspective. Satisfies Writing II requirement. 71A-71B-71CW. Biotechnology and Society. (5-5-5) Course 71A is enforced requisite to 71B, which is enforced requisite to 71CW. Limited to first-year freshmen. Letter grading. 71A-71B. Lecture, three hours; discussion, two hours; laboratory, two hours. Exploration of methods, applications, and implications of biotechnology and of ethical and social implications of various issues as well as biological underpinnings. 71CW. Special Topics. Seminar, three hours. Enforced requisites: course 71B, and English Composition 3 or 3H or English as a Second Language 36. Topics may include in-depth examination of ethics and human genetics, bio-weapons and biodefense,sex and biotechnology. Satisfies Writing II requirement. 72A-72B-72CW. Sex from Biology to Gendered Sociology. (5-5-5) Course 72A is enforced requisite to 72B, which is enforced requisite to 72CW. Limited to first-year freshmen. Letter grading. 72A-72B. Lecture, three hours; discussion, two hours. Examination of many ways in which sex and sexual identity shape and are shaped by biological and social forces, approached from complementary perspectives of anthropology, biology, medicine, and sociology. Specific topics include biological origins of sex differences, intersex, gender identity, gender inequality, homosexuality, sexuality, sex/gender and law, and politics of sex research. 72CW. Special Topics. Seminar, three hours. Enforced requisites: course 72B, and English Composition 3 or 3H or English as a Second Language 36. Topics may include politics of reproduction, sexuality, sexual identity, social construction of gender and reproductive technologies. Satisfies Writing II requirement. 80A-80B-80CW. Frontiers in Human Aging: Biomedical, Social, and Policy Perspectives. (5-5-5) Course 80A is enforced requisite to 80B, which is enforced requisite to 80CW. Limited to first-year freshmen. Letter grading. 80A-80B. Lecture, three hours; discussion, two hours. Examination of aging process from vantage points of multiple disciplines, including biology, psychology, sociology, ethics, and public policy. Study of biomedical and biological aging and psychological, social, and ethical implications of phenomena. 80CW. Special Topics. Seminar, three hours. Enforced requisites: course 80B, and English Composition 3 or 3H or English as a Second Language 36. Not open for credit to students with credit for former course 80C. In-depth examination of gender and aging, cellular aging, cancer, and aging of brain. Satisfies Writing II requirement.

Scope and Objectives

Geography is the study of the natural world and how humans have changed it. It examines the physical Earth and life on it, looking at the world’s diverse cultures and economies and at the environmental problems they produce.

Geography addresses many issues about the contemporary world. Some are local, such as documenting the development of ethnic neighbor- hoods within Los Angeles. Others are regional, such as determining the best locations for nature reserves in California. Many are global, such as the study of greenhouse gases and how they affect climates, culture and re- source issues in developing countries, and the impact of information technologies on people in different places.

The work of geographers often takes them out of the classroom into the field to collect infor- mation on topics that range from the settle- ment of new immigrants to the distribution of endangered species, the erosion of shorelines, and the location of high-tech businesses. On other occasions, geographers work in laborato- ries, using techniques such as the computer analysis of satellite photographs to look for changes in river courses and the computer modeling of shifts in global vegetation patterns and the distribution of human populations. Re- search is also conducted in libraries and ar- chives, probing documentary sources on hu- man interaction with the natural world and how that world is imagined.

Geography graduates have a wide variety of career opportunities because of their combina- tion of geographical/environmental perspec- tives and technical skills. UCLA geography stu- dents have gone on to become university scholars, school teachers, members of government and nongovernmental planning, develop- ment, and conservation agencies, business executives, lawyers, and specialists in geo- graphical information analysis for government and private business. Because of its sophisti- cated focus on the relationship of the global to the local, geography is particularly useful for those who wish to pursue careers with an inter- national focus.

The department has one of the top programs in the U.S. and offers two undergraduate ma- jors that lead to the Bachelor of Arts degree: Geography and Geography/Environmental Studies. The Geography major combines a broad background in the field with specific tracks. The Geography/Environmental Studies major focuses on the impact of humans on the natural environment. Also offered is an under- graduate minor in Geospatial Information Sys- tems and Technologies.

The department also offers M.A. and Ph.D. de- grees. Student research projects are conducted in collaboration with a faculty adviser and advis- ory committee. Graduate students work in most major areas of geography and on projects around the world. Graduate alumni of the de- partment have teaching positions at many lead- ing universities in the U.S. and abroad.

Undergraduate Study

Geography B.A.

The Geography major allows students to com- bine a broad background in the field with more specific interests and career goals. Students can select classes in several areas of geogra- phy such as urban, economic, cultural, envi- ronmental, physical, or biogeography. They should consult with the undergraduate adviser to plan a program suitable to their personal ob- jectives.

Preparation for the Major

Required: Three courses (15 units) as follows: Geography 1 or 2, 3 or 4 or 6, and Statistics 12. All courses must be taken for a letter grade.

Transfer Students

Transfer applicants to the Geography major with 90 or more units must complete as many of the following introductory courses as possi- ble prior to admission to UCLA: one physical geography or biogeography course, one cul- tural geography or economic geography course, and one statistics course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/ adm_tr.htm for up-to-date information regard- ing transfer selection for admission.

The Major

Required: Twelve upper division geography courses (48 units minimum) taken for a letter grade.

Geography/Environmental Studies B.A.

The major in Geography/Environmental Stud- ies develops and deepens students’ under- standing of environmental issues; it explores problem-solving approaches from an interac- tive perspective in the value of place and involves analysis of social, physical, and biotic environmen- tal systems. The major’s uniqueness lies in its emphasis on its geographical perspective of human impacts on natural systems, as well as the implications of global change on local and regional human systems.

Preparation for the Major

Required: Geography 1 or 2, 3 or 4 or 6, and Statistics 12. All courses must be taken for a letter grade. Students are strongly advised to com- plete all preparation for the major courses be- fore beginning upper division work in the major.

Transfer Students

Transfer applicants to the Geography/Environ- mental Studies major with 90 or more units must complete as many of the following intro- ductory courses as possible prior to admission to UCLA: one physical geography or biogeog- raphy course, one cultural geography or eco- nomic geography course, one people and eco- systems course, and one statistics course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/ adm_tr.htm for up-to-date information regard- ing transfer selection for admission.
cluster — five courses from M106, M107, M109, M110, M113, M115, M116, M120, M121, M122, M123, M124, M125, M126, M127, M128, M129, M131, M132, M135, M156, M159D, M159E; (4) procedures — two courses (8 units) from 100A (2 units), 101A (2 units), 105A (2 units), 162, 163, 167 (6 units), 168, 169, 170, M171, M172; and (5) regions — one course from 122, 135, 136, M137, M152, M156, M180, M181, M182A, M182B, M183, M184, M185, M187.

Geography/Environmental Studies majors are advised to complete the required courses in the natural and human systems cores before taking courses in the environmental studies cluster.

Honors Program

The honors program is designed for Geography and Geography/Environmental Studies majors who are interested in completing a research project that culminates in an honors thesis.

To qualify for graduation with departmental honors, students must have a cumulative grade-point average of 3.5 or better in all upper division geography courses and a 3.0 overall GPA. They must enroll in Geography 198A and 198B in two consecutive terms and earn grades of A– or better. They may elect to work with one or two faculty sponsors. Students are awarded highest honors, honors, or no honors based on an evaluation of the thesis by the faculty sponsor(s). Contact the undergraduate advising office for further information.

Computing Specialization

Majors in Geography and Geography/Environmental Studies may select a specialization in Computing by (1) satisfying all the requirements for a bachelor’s degree in the specified major, (2) completing Program in Computing 10A, 10B, 30, 60, and Mathematics 61 with a minimum grade of C in each course (Mathematics 32A and 32B are also recommended), and (3) completing at least two courses from Geography 104, 167, 168, M171. Students graduate with a bachelor’s degree in their major and a specialization in Computing.

Geography Minor

The Geography minor is designed for students who wish to deepen and/or broaden their major program of study with a distinctive yet flexible program of courses encompassing the relationship between environment and society. The minor allows students to develop a coherent strategy for understanding and explaining the manner in which people and the Earth interact. Students have the opportunity to explore the origins, development, morphology, and processes of landscapes inherited from nature, as well as those institutions and cultural, economic, political, and social patterns associated with the human development, occupancy, organization, perception, and use of these landscapes.

To enter the minor, students must have an overall grade-point average of 2.0 or better and file a petition in the Geography Department Advising Office, 1255 Bunche Hall, (310) 825-1166. Courses should be selected in consultation with the departmental adviser.

Required Lower Division Courses (10 units): Two courses from Geography 1, 2, 3, 4, 6. It is recommended that students take these courses before attempting upper division courses.

Required Upper Division Courses (20 units): Any five upper division geography courses.

No more than 8 units may be applied toward both this minor and a major or minor in another department or program, and at least three of the five upper division courses must be taken in residence at UCLA. Transfer credit for any of the above is subject to departmental approval.

All minor courses must be taken for a letter grade. Successful completion of the minor is indicated on the transcript and diploma.

Geography/Environmental Studies Minor

The Geography/Environmental Studies minor is intended for students interested in environmental issues and emphasizes a systems approach to gaining a causal understanding of major environmental problems facing our society and the world at large. The uniqueness of the minor lies in its geographical perspective on the impact, at various geographical scales, of human activity on natural systems and on the implications of global environmental change on local, regional, and global human systems.

To enter the minor, students must have an overall grade-point average of 2.0 or better and file a petition in the Geography Department Advising Office, 1255 Bunche Hall, (310) 825-1166. Courses should be selected in consultation with the departmental adviser.

Required Lower Division Courses (10 units): Geography 5 and one course from 1, 2, 3, 4, or 6. It is recommended that students take these courses before attempting upper division courses.

Required Upper Division Courses (20 units): Three courses from the environmental studies cluster specified within the major and two geography courses from outside the environmental studies cluster.

No more than 8 units may be applied toward both this minor and a major or minor in another department or program, and at least three of the five upper division courses must be taken in residence at UCLA. Transfer credit for any of the above is subject to departmental approval.

All minor courses must be taken for a letter grade. Successful completion of the minor is indicated on the transcript and diploma.

Geospatial Information Systems and Technologies Minor

The Geospatial Information Systems and Technologies minor is designed to provide students with a strong background in the use, application, and development of geospatial/environmental research techniques and methods.

To enter the minor, students must be in good academic standing, have completed at least one upper division minor course with a grade of C+ or better, and file a petition in the Geography Department Advising Office, 1255 Bunche Hall, (310) 825-1166. For majors in Geography or Geography/Environmental Studies, only two courses may overlap between the major or this minor.

Required Lower Division Course (5 units): Statistics 12 with a grade of C or better.

Required Upper Division Courses (28 units minimum): Geography 167 (6 units), 168, 169, 170, and any three courses selected from 154, 162, 163, M171, 172. All upper division courses must be completed with a grade of C or better.

All minor courses must be taken for a letter grade, with an overall grade-point average of 2.0 or better in the minor. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gradnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Geography offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Geography.

Geography

Lower Division Courses

1. Earth’s Physical Environment. (5) Lecture, three hours; laboratory, two hours. Study of Earth’s physical environment, with particular reference to nature and distribution of landforms and climate and their significance to people. P/NP or letter grading.

102. Tropical Climatology. (4) Lecture, three hours. In-depth exploration of development of tropical climate, with special reference to hurricanes, ENSO, and monsoons. Examination of human impact on tropical climate processes and human-induced climate change in tropics. Use of climatological information to foster sound environmental management of climate-related resources. P/NP or letter grading.

103. Paleoecology and Ice-Age Environments. (4) Lecture, three hours; discussion, one hour. Requisite: course 1. Study of past climates and their evolution. Examination of evidence from the past three million years, including evidence for glacial and interglacial oscillations, historic changes, paleogeographic reconstruction, external and internal forcing mechanisms, and human implications. P/NP or letter grading.

104. Climatology. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Examination of the many relations between climate and the world of man. Application of basic energy budget concepts to the microclimates of relevance to ecosystems of agriculture, animals, man, and urban places. P/NP or letter grading.

105A. Hydrology: Field and Laboratory. (2) Laboratory/fieldwork, six hours. Corequisite: course 105. Field and laboratory investigations into role of water in geographic systems: hydrologic phenomena in relation to climate, landforms, soils, vegetation, and cultural processes and impacts on the landscape. Students solve applied hydrology problems in laboratory and make hydrologic measurements in the field.

M106. Applied Climatology: Principles of Climate Impact on Natural Environments. (4) (Formerly numbered 106.) (Same as Atmospheric and Oceanic Sciences M106.) Lecture, three hours; discussion, one hour. Designed for juniors/seniors. Exploration of knowledge and tools to solve complex problems in contemporary applied climatology, including current practices, influences of climate on environment, and human influence on changing climates. P/NP or letter grading.

M107. Soil and Water Conservation. (4) (Same as Environment M114.) Lecture, three hours; discussion, one hour. Designed for juniors/seniors. Systematic study of processes of and hazards posed by erosion, sedimentation, and runoff. Emphasis on techniques to conserve soil and maintain environmental quality. Scope includes agriculture, forest engineering, mining, and other rural uses of land. P/NP or letter grading.

108. World Vegetation. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Analysis of basic principles and problems associated with conservation of natural resources in the U.S. and Canada. P/NP or letter grading.

110. Human impact on Biophysical Environment: What Science Has Learned. (4) (Formerly numbered 109.) (Same as Environment M109.) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Examination of history, mechanisms, and consequences of interactions between humans and environment. Exploration in depth of three thematic topics (deforestation, desertification, and greenhouse gas increase and ozone depletion) and four major subjects (soil, biodiversity, water, and landforms). P/NP or letter grading.

111. Forest Ecosystems. (4) Lecture, three hours; field trips. Requisite: course 2 or Life Sciences 1. Designed for juniors/seniors. Evaluation of ecological principles as they apply to forests. Emphasis on constraints of physical environment, biotic interactions, succession, disturbances, and long-term environmental change. P/NP or letter grading.

113. Humid Tropics. (4) Lecture, three hours. Requisite: course 2 or 5 or Life Sciences 1. Designed for juniors/seniors. Examination of humid tropics with emphasis on rainforests, their ecological principles, and forms of land use. Letter grading.

M115. Environmentalism: Past, Present, and Future. (4) (6) (Same as Environment M132 and Urban Planning CM165.) Lecture, three hours. Exploration of history and origin of major environmental ideas, movements or countermovements they spawned, and new and changing nature of modern environmentalism. Introduction to the role of environment, how rise of modern sciences reshaped environmental thought, and how this was later transformed by the second environmental revolution. Extension of American environmental thought and contemporary environmental questions as they relate to broader set of questions about nature of development, sustainability, and equity in environmental debate. Exploration of issues in broad context, including global climate change, rise of pandemics, deforestation, and environmental justice impacts of war. Letter grading.

116. Biogeography of Plants and Their Environments. (4) Lecture, three hours; reading period, one hour. Requisite: course 1 or 2 or 5. Examination of theories and examples of invasion of new environments by plants and animals. Introduction through natural processes or by human activity. P/NP or letter grading.

118. Medical Geography. (4) Lecture, three hours; reading period, one hour. Requisite: course 5. Examination of patterns of population/place/disease interactions in these regions, health development on disease etiology and problems of healthcare.

125. Health and the Global Environment. (4) Lecture, three hours; reading period, one hour. Impact of the environment and lifestyle on individual health examined from a geographical perspective, with examples from both developed and developing countries. P/NP or letter grading.

126. Geography of Extinction. (4) Lecture, three hours; reading period, one hour. Requisite: course 5. Designed for juniors/seniors. Geographical and taxonomic survey and analysis of biotic extinctions over the past 15,000 years. Identification of extinction factors and pathways can be studied from extinction of extinct and endangered species and communities. P/NP or letter grading.

134. Technology, Nature, and the American Landscape. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of cultural landscapes of the area that is now the U.S. Examination of past geographies and of geographical change through time. P/NP or letter grading.

135. Historical Geography of American Environment. (4) Same as Environment M 137.) Lecture, three hours. Designed for juniors/seniors. Study of systematic changes of natural environment in the U.S. during historical time, with emphasis on interplay between and among natural factors of climate, soils, vegetation, and landforms, and human factors of settlement, economic activity, technology, and cultural traits. P/NP or letter grading.

137. Technology, Nature, and the American Landscape. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of cultural landscapes of the area that is now the U.S. Examination of past geographies and of geographical change through time. P/NP or letter grading.

138. Place, Identity, and Networked World. (4) Lecture, three hours; reading period, one hour. Communitications technologies, such as personal computers and Internet, seem to be connected to dramatic changes in identities of people, groups, and places. Exploration of those changes and their implications for social institutions and human values and practices. P/NP or letter grading.

139. Society and the Global Environment. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of social and behavioral perspectives encouraging people in their patterns of demographic change, migration, and mobility, with special emphasis on spatial relationships and selected case studies. P/NP or letter grading.

140. Political Geography. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of political power, control over space as central component to political struggles. Studies at local, national, state, and global levels. P/NP or letter grading.

141. Space, Place, and Nature in Western History. (4) Lecture, three hours; reading period, one hour. Spaces of femininity, masculinity, and sexuality. P/NP or letter grading.

142. Population Geography. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of social and behavioral perspectives influencing people in their patterns of demographic change, migration, and mobility, with special emphasis on spatial relationships and selected case studies. P/NP or letter grading.

143. Cultural Geography of Modern World. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors and graduate students. Historical and structural approach to cultural geography of modern world system, with particular emphasis on the structure and function of its core, semi-periphery, and periphery. P/NP or letter grading.

147. Social Geography. (4) Lecture, three hours; discussion, one hour. Study of spatiality of social differences and patterns and contemporary specialization of space and place in social life. P/NP or letter grading.

152. Cities of Europe. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Urbanization of Europe, growth of city systems and internal spatial structure, functions, and geographic problems of contemporary European cities. Particular attention to historical development and landscapes of capital cities such as Rome, Paris, and Berlin. P/NP or letter grading.

153. Past Societies and Their Lessons for Our Own Future. (5) Same as Anthropology M 158Q and Honors Collegium M 152.) Lecture, two hours; discussion, two hours. Examination of modern and past tribal and band societies (Amazonian Indians, Kalahari bushmen, and others) that met varying fates, as a background to examination of how modern state societies are coping or failing to cope with similar issues. P/NP or letter grading.

154. Images of Earth: World from Above. (4) Formerly numbered 166.) Lecture, three hours. Use of maps, charts, diagrams, and other images to show how Earth has been represented through ages, how they have been influenced by current ideas and, in turn, how they have themselves influenced course of events. P/NP or letter grading.

156. Metropolitan Los Angeles. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of origins, growth processes, internal structure and pattern, interactions, environmental and spatial problems of the Los Angeles metropolitan area. P/NP or letter grading.

158. Korean Urban Experience. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors with previous coursework in geography or East Asian studies. Study of cities by geographers entails analysis of evolution, functions, spatial patterns, and other geographical problems of urban societies throughout history. Korean experience to be seen as an urban experience as found in Seoul, South Korea, along with other cities in both Koreas and overseas where Korean diaspora resides. Korean experience to be juxtaposed against responses by other cities of world to similar challenges. Geography of housing and associated processes of urban redevelopment whereby built environment is continuously being reproduced and transformed. Current debates, as well as topics showing interplay between competing visions of city. P/NP or letter grading.
159A-159E. Problems in Geography. (4 each) Discussion, three hours; reading period, one hour. Preparation: completion of three courses in a concentration. Limited to seniors. Seminar course in which students carry out intensive research projects developed from courses within a concentration. P/NP or letter grading.

159E. Topics in Regional Development Studies. 159B. Spatial Demography and Social Processes in the City; 159C. Culture and Environment in the Modern World; 159D. Physical Geography; 159E. Biogeography.

Procedures

162. Glacier Environments of California’s High Sierra. (4) Fieldwork. 10 hours; discussion, four hours. Introduction to alpine glacial environment through three hours of introductory lecture followed by intensive seven-day field trip to California’s High Sierra. Students carry out laboratory exercises, as well as data collection on projects of their own and their individual interests. Presentation of additional evening lectures, using presentation facilities at Sierra Nevada Aquatic Research Laboratory (SNARL). Offered in summer only. P/NP or letter grading.

166. Environmental Modeling. (4) Lecture, one hour; laboratory, two hours. Presentation of basic concepts related to computer modeling of biogeochemical cycles, geomorphic processes, and other phenomena relevant to changing Earth and its inhabitants. Laboratory exercises include building basic computer models and working with existing models. P/NP or letter grading.

168. Introduction to Geographic Information Systems. (4) Lecture, two hours; laboratory, two hours. Designed for juniors/seniors. Introduction to basic geographic information systems (GIS) concepts and spatial analysis. Data structures, topology, and attribute information. Laboratory exercises use database query, manipulation, and spatial analysis to address "real world" problems. P/NP or letter grading.

169. Satellite Remote Sensing and Imaging Geographic Information Systems. (4) Lecture, two hours; laboratory, one hour. Introduction to fast-growing field of environmental monitoring from space. Application of Landsat, radar, Global Positioning System (GPS), and Earth Observation System satellites to land-use change, oceanography, meteorology, and environmental monitoring. Introduction to digital image-processing and imaging geographic information system (GIS) software. P/NP or letter grading.

172. Remote Sensing: Digital Image Processing and Analysis. (4) Lecture, three hours; laboratory, one hour. Requisite: one course from Introduction to GIS methods and current literature in field or of research of faculty members or students. May meet concurrently with graduate research seminar. May be repeated for credit with topic change.

173. Geographic Information Systems Programming and Development. (4) Lecture, two hours; laboratory, two hours. Enforced requisite: course 168. Introduction to fundamental concepts and architecture of programming objects in widely used geographic information systems (GIS), and programming in GIS environment. Topics centered on GIS customization and development using variety of programming languages. Lectures followed by laboratory exercises. P/NP or letter grading.

Regions

181. Mexico, Central America, Caribbean. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of geographic factors, physical and cultural, that are basic to understanding historical development of Middle America and the contemporary economic and cultural geography of Mexico and countries of Central America and the West Indies. P/NP or letter grading.

182A. Spanish South America. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Study of geographic factors, physical and cultural, that are basic to understanding historical development of Portuguese South America and contemporary economic and cultural geography of Brazil. P/NP or letter grading.

182B. Brazil. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Systematic geographic analysis of elements of the physical, cultural, and economic aspects and detailed studies of various regions. P/NP or letter grading.

185. South and Southeast Asia. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Regional synthesis with emphasis on the people of South or Southeast Asia in their physical, biotic, and cultural environment and its dynamic transformation. P/NP or letter grading.

186. Contemporary China. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Systematic geographic analysis of elements of landscape, resources, population, and socioeconomic characteristics of the People’s Republic of China. Dynamics that have led to China’s major role in the East Asian and international scene, with special attention to China-Japan and Sino-American relations and their geographic bases. P/NP or letter grading.

187. Middle East. (4) Lecture, three hours; reading period, one hour. Designed for juniors/seniors. Analysis of economic, social, and political geography of the area extending from Iran to Morocco and from Turkey to Sudan. Emphasis on geographical themes and problems during historical and modern times. P/NP or letter grading.

Special Studies

194. Research Group Seminars: Geography. (2) Seminar, two hours; research group meeting, two hours. Designed for undergraduate students who are part of a research group. Discussion of research methods and current literature in field or of research of faculty members or students. May meet concurrently with graduate research seminar. May be repeated for credit with topic change.

C194A. Research Group Seminars: Controversies in Earth System Science. (1) Seminar, two hours. Designed for undergraduate students who are part of research group. Biweekly seminar to discuss emerging issues and controversies in earth system science. Topics include oscillatory climate phenomena, biogeochemical cycling, biocomplexity, land/atmosphere interactions, paleoclimate, and human-induced environmental change. May be repeated for credit. Concurrently scheduled with course C296A. P/NP grading.

195. Community or Corporate Internships in Geography. (4) Tutorial, four hours. Limited to juniors/seniors. Internship in supervised setting in community agency or business. Students meet on regular basis with instructor and provide periodic reports of their experience. May be repeated for credit. Individual contract with supervising faculty member required. P/NP or letter grading.

198A-198B. Honors Research in Geography I, II. (4-4) Tutorial, to be arranged. Preparation: 3.25 grade-point average overall, at least five upper division geography courses with 3.5 grade-point average. Located in spring only. Limited to juniors/seniors. Development and completion of honors thesis or comprehensive research project under direct supervision of one or two faculty members. May be repeated for maximum of 16 units. Individual contract required. Letter grading.

199. Special Studies. (2 to 8) Tutorial, to be arranged. Limited to juniors with B average in major or seniors. May be repeated for maximum of 16 units. P/NP or letter grading.

Graduate Courses

Environment

200. History and Paradigms of Geomorphology. (4) Lecture, two hours; discussion, one hour; reading period, eight hours. Preparation: two courses from 101, 103, 105, M107. Requisite: course 100. Analysis of geomorphic theories since the scientific revolution, with emphasis on catastrophism, uniformitarianism, glacial theories, isostasy and eustasy, evolution and cyclicity, thermodynamics and mechanics, quantification, and current paradigms. View of each theme in its contemporary research context.

201. Coastal Geomorphology Seminar. (4) Discussion, three hours; reading period, five hours; fieldwork. Requisites: courses 100, 101. Discussion of selected topics pertaining to geomorphic processes and responses observable in the coastal zone. May be repeated for credit.

202. Fluvial Geomorphology Seminar. (4) Discussion, three hours; reading period, five hours; fieldwork. Requisites: courses 100 and 105, or Civil Engineering 150. Discussion of selected topics pertaining to action of running water in shaping the physical landscape. May be repeated for credit.

203. Glacial Geomorphology Seminar. (4) Discussion, three hours; reading period, five hours; fieldwork. Requisites: courses 100 and 105, or Civil Engineering 150. Discussion of selected topics pertaining to action of snow and ice in arctic and alpine environments. May be repeated for credit.

204A-204B-204C. Advanced Climatology. (4) Lecture, three hours; laboratory, one hour. Preparation: first year of calculus and acquaintance with Fortran. Requisites: courses 100, 101. Analysis of selected topics, including effects of greenhouse gases on earth system. May be repeated for credit.
Human Geography

231. Terminology and Theory in Political Econo-
ye: Deconstruction and Reconstruction of Ap-
proaches in Research, Writing, and Practice. (4)
Discussion, three hours; discussion, one hour; reading
period, one hour. Required of graduate students. Deconstruction of oft-
used terms in intellectual discourse with goal of mak-
ing assumptions more explicit, analysis more concise, and use of theory to inform practice (and vice versa)
more successful. Attempt to reconstruct a more con-
cise and useful terminology to inform theoretical inqui-
ry and research practice. S/U or letter grading.

232. Advanced Cultural Geography. (4) Lecture,
two hours; discussion, one hour; reading period, one
hour. Required: course 133. Lectures and discus-
sions around specific aspects of development of cul-
tural landscape in different geographic environments.

233. Seminar: Cultural Geography. (4) Seminar,
three hours; reading period, two hours. Discussions
on particular topics in cultural geography. Content
may vary from year to year. May be repeated for cred-
it. S/U or letter grading.

234. Environment and Subsistence in Indigenous
Cultures. (4) Seminar, three hours. Discussion on re-
source management strategies and environmental is-
sues in indigenous cultures. Topics vary from year to year.

235. Seminar: Social Geography. (4) Seminar,
three hours; reading period, one hour. Process of doing so-
cial/cultural geography entails conceptualizing, adapt-
ing, and reformulating social and critical theories of
space, subject, and power. Examination of this process
by considering theoretical themes that shape concepts of
social space and social research. Theoretical dis-
cussions of recent research in social/cultural geogra-
phy, particularly around topics of gender, race sexuali-
ty, subjects and spatiality resistance and agenda, and
social difference and identity. S/U or letter grading.

237. Seminar: Historical Geography. (4) Seminar,
three hours; reading period, two hours. Theory and
practice of historical geography in North America
and Europe. May be repeated for credit. S/U or letter grad-
ing.

240. Advanced Political Geography: Geopolitics.
(4) Lecture, two hours; discussion, one hour; reading
period, one hour. Intensive study of theories and prin-
ciples of geopolitics. Selected regions used as exam-
amples of differing techniques of study in geopolitics. S/U
or letter grading.

241. Seminar: Political Geography. (4) Discussion,
three hours; reading period, two hours. Required: course
240. Related research projects growing out of course
240. May be repeated for credit.

242. Advanced Population Geography. (4) Le-
cure, three hours; reading period, one hour. Required:
course 142. Study of population dynamics and migra-
tion, spatial variation in population composition, and
population resource problems, diffusion, and epidemi-
ology.

248. Location and Space Economy. (4) Lecture,
two hours; discussion, one hour; reading period, one
hour. Methods of locational analysis as applied to
problems of regional growth and development. S/U or
letter grading.

249. Seminar: Economic Geography. (4) Discus-
sion, three hours; reading period, two hours. Requi-
site: course 248. Related research projects growing out
of course 248. May be repeated for credit.

250. Urban Systems. (4) Lecture, two hours;
discussion, one hour; reading period, one hour. General
study of hierarchy of urban places, including diffusion
within urban hierarchy and theories to account for lo-
cation and size distribution of cities. S/U or letter grad-
ing.

251. Seminar: Urban Geography. (4) Discussion,
three hours; reading period, two hours. Required: course
250. Related research projects growing out of course
250. May be repeated for credit.

Procedures

260. Advanced Field and Laboratory Analysis in
Geomorphology. (4) Laboratory/workshop, 10 hours.
Preparation: two courses from 200, 201, 202, 203,
215. Related research projects growing out of two advanced
field and laboratory procedures used in con-
temporary geomorphic research, with emphasis on
scientific design, instrumentation, and data evaluation.

262. Advanced Field Analysis: Biogeography. (8)
Fieldwork, 10 hours. Observation, measurement, and
analysis of biogeographic phenomena, including
identification and evaluation of biotic populations and
communities and their modifications resulting from
the impact of human activity.

268. Advanced Projects in Geographic Informa-
tion Systems (GIS)/Remote Sensing. (4) Discus-
sion, one hour; laboratory, three hours. Recommend-
ed requisite: course 169 or 170 or Earth and Space
Sciences 150. Familiarity with a GIS or image pro-
cessing package expected. Individualized research
projects conducted on UNIX platforms within a struc-
tured course environment. All aspects of a modest
but original project, including data acquisition, ingestion,
and analysis; interpretation of results and presenta-
tion in publication-style format.

269. Remote Sensing of Environment. (4) Labora-
tory, three hours; independent study, two hours. Re-
quisite: course 167. Study of aerial photographs and
other remote sensing images as tools for geographi-
cal research. Particular attention to analysis of land-
scapes and interpretations of interrelationships of indi-
vidual features in their physical and cultural complex.

M270A-M270B-M270C. Seminars: Climate Dynam-
ics. (2 to 4 each) (Same as Atmospheric and Ocean-
ic Sciences M270A-M270B-M270C and Earth and Space
Sciences M270A-M270B-M270C.) Seminar, two
hours. Archaeological, geochemical, micropale-
ontological, and stratigraphic evidence for climate
change throughout geological past. Rhetorology and
dynamics of climate subsystems: atmosphere and oceans,
ices sheets and marine ice, lithosphere and mantle.
Climate of other planets. Modeling, simula-
tion, and prediction of modern climate on monthly,
seasonal, and interannual time scale. May be repeat-
ed for credit. S/U or letter grading.

M272. Spatial Statistics. (4) (Same as Statistics
M222 and Urban Planning M215.) Lecture, three
hours. Designed for graduate students. Survey of
modern methods used in analysis of spatial data. Im-
plementation of various techniques using real data
sets from diverse fields, including neuroimaging, ge-
ography, seismology, demography, and environmental
sciences. S/U or letter grading.

Regions

282. South America. (4) Seminar, three hours; read-
ing period, two hours. Introduction to main issues in
government of South America, with focus mainly on
cultural/historical geographical perspectives on the
national period; themes and periods can be adapted to
individual interests. S/U or letter grading.

283. Europe. (4) Seminar, two hours; discussion, two
hours. Related independent study, two hours. Requi-
site: course 253. May be repeated for credit.
S/U or letter grading.

286. Geography of Contemporary China. (4) Semi-
inar, three hours; reading period, two hours. Designed
for graduate students. May be repeated for credit.
S/U or letter grading.

292. Advanced Regional Geography: Selected Re-
egions. (4) Lecture, three hours; discussion, one hour.
Preparation: appropriate upper division regional course.
Lecture series devoted to a specific region at discre-
tion of instructor. May be repeated for credit.

Seminars

295. Seminar: Geographic Thought. (4) Discus-
sion, three hours; reading period, two hours. De-
signed for graduate students. Discussion and study of
topics significant to growth of modern philosophy of
graphy.

Professors
Sue-Ellen Case, Ph.D.
Andrew F. Hewitt, Ph.D.
Douglas M. Kellner, Ph.D. (George F. Kneller Professor of Education and Philosophy)
Robert S. Kirsner, Ph.D.
Kathleen L. Komar, Ph.D.
John A. McCumber, Ph.D.
James A. Schultz, Ph.D.
Hans Wagener, Ph.D.

Professors Emeriti
Ehrhard Bahr, Ph.D.
Franz H. Baum, Ph.D.
Mariana D. Birnbaum, Ph.D.

Associate Professors
Todd S. Presner, Ph.D.
Christopher M. Stevens, Ph.D.
Christopher J. Wild, Ph.D.

Lecturer P.S.O.E.
Lisa C. Parkes, Ph.D.

Scope and Objectives
The Department of Germanic Languages offers an extraordinary array of courses in languages, literatures, and cultures. This broad range of studies offers training in specialized fields such as film, linguistics, folklore, and critical theory. Courses prepare students for a variety of careers, including law, business, international relations, academic professions, and publishing.

Undergraduate majors earn a Bachelor of Arts degree. The graduate program offers Master of Arts and Ph.D. degrees. Refer to the Scandinavian Section later in this catalog for information about the degrees in Scandinavian studies.

At all levels of study various specializations are possible. Language, literature, and culture studies are available in Afrikaans, Dutch, and Icelandic, in addition to German. The program also provides opportunity for study, work-study, and internships in a German-speaking country or in a country related to the course of study.

Undergraduate Study

Grammar/Composition Courses
No credit is allowed for completing a less advanced course after successful completion of a more advanced course in Afrikaans, Dutch, and German grammar and/or composition. Students with demonstrated preparation may be permitted to transfer to a more advanced course with consent of the instructor.

German B.A.

Preparation for the Major

Required: German 1, 2, 3, 4, 5, 6, or equivalent.
Students who have completed one year of college-level German language courses should enroll in course 4. Students who are in doubt as to their level of language proficiency or who are native speakers should consult the language program supervisor. Students in Plan C must also take Linguistics 20.

Transfer Students
Transfer applicants to the German major with 9 or more units must complete the following introductory courses prior to admission to UCLA: two years of German.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Three plans are offered by the department:

Plan A: Literature and Culture
Plan A is designed for students who are interested in studying German language and thought by selecting courses in literature, film, folklore, and contemporary culture studies.

Required: German 130A, 130B, and 11 upper division German courses, at least three of which must be at the 150 level or above. Two of the 11 courses may be upper division courses in other departments. Students who enroll in any course taught in English translation in the department must sign a contract with the instructor that all texts authored in German are to be read in the original language. The con-
Plan B: German Studies
Plan B is designed for students whose interests are primarily interdisciplinary in nature. Departmental majors receive credit only for upper division courses in German literature, film, folklore, and contemporary culture, but for courses in related fields such as history, political science, philosophy, music, and others.

Required: German 130A, 130B, seven upper division German courses (at least two of which must be at the 150 level or above), and four upper division courses in a related field or fields selected in consultation with the undergraduate adviser. Students who enroll in any course taught in English translation in the department must sign a contract with the instructor that all texts authored in German are to be read in the original language. The contract must then be filed with the undergraduate adviser. Only two such contract courses may be applied toward the major. All courses must be taken for a letter grade.

Plan C: Germanic Languages/Linguistics
Plan C is intended for students interested in the study of languages and linguistics and allows students to study more than one Germanic language.

Required: German 130A, 130B, 150, 170, C172, and eight additional upper division courses as follows: three courses in other Germanic language (Scandinavian languages taught in the Scandinavian Section may be applied by petition to the undergraduate adviser), three linguistics courses from outside the department (i.e., anthropology, applied linguistics, linguistics, sociology) selected in consultation with the undergraduate adviser, and two electives from department offerings (excluding German 100A, 100B, 100C, and courses taught in English translation). All courses must be taken for a letter grade.

Honors Program
To qualify for graduation with departmental honors, students must earn a cumulative grade-point average of 3.6 or better in upper division German courses and a 3.3 overall GPA, and complete German 199 with a grade of A. Contact the departmental honors adviser for procedures, special arrangements, possible exceptions, and other information.

German Minor
To enter the German minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Courses (8 units): German 5 and 6 or equivalent.

Required Upper Division Courses (20 units): Any five German courses (excluding German literature in translation).

All minor courses must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Germanic Languages Minor
To enter the Germanic Languages minor, students must have an overall grade-point average of 2.0 or better.

Required Upper Division Courses (28 units): Seven courses in any of the following languages and literatures: Afrikaans, Dutch, German (excluding German literature in translation), Hungarian, Old Norse, Scandinavian languages, Yiddish.

All minor courses must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gsaa/library/pgmgrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of Germanic Languages offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Germanic Languages and a Master of Arts (M.A.) degree in Scandinavian (see Scandinavian Section).

Afrikaans
Lower Division Course
40. From Oppressed to Oppressor and Beyond: Literature in Afrikaans from Preapartheid to Post-apartheid Era in English Translation. (5) Lecture, four hours; discussion, one hour. Enforced requisite: English Composition 3 or 4H. Development of all literature in Afrikaans, with special attention to authors and poets who protested apartheid — Brink, Breytenbach, Van Heerden, Jonker, Joubert, Kroe, Leroux, Rabie, Small, and Willemse. Additional readings by Coetsee, De Lange, Krog, and others on censorship, imprisonment, South African history, and post-colonial literary theory. P/NP or letter grading.

Upper Division Courses
105A. Elementary Afrikaans. (4) Lecture, four hours; language laboratory. Introduction to sister language of modern Dutch and one national language of South Africa. Grammar, practice in listening, speaking, reading, and writing. P/NP or letter grading.

105B. Intermediate Afrikaans. (4) Lecture, four hours; language laboratory. Requisite: course 105A. Grammatical exercises; reading and linguistic analysis of texts from literary and nonliterary sources. P/NP or letter grading.

135. Introduction to Afrikaans Literature. (4) Discussion, three hours. Requisite: course 105B. Analysis of selected works from founding of Genootskap van Regte Afrikaners in 1876 to present time, including novels by recent writers such as Leroux and Brink, as well as work of poets such as Eybers, Opperman, W.E.G. Louw, Van Wyk Louw, and Breytenbach. P/NP or letter grading.

199. Directed Research or Senior Project in Afrikaans. (4) Tutorial, three hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses
596. Directed Individual Study or Research in Afrikaans. (4) Tutorial, to be arranged with faculty member who directs study or research (course section to be identified by two-letter code using initials of sponsoring instructor — see department for I.D. number). May be repeated once. S/U grading.

597. Preparation for Ph.D. Qualifying Examinations. (4) Tutorial, to be arranged with instructor (see department for I.D. number). S/U grading.

Dutch
Lower Division Course
10. Contemporary Dutch Society and Culture: Beyond Rembrandt, Cheese, and Wooden Shoes. (5) (Formerly numbered 100.) Lecture, three hours. Lectures and readings in English. Country known as Holland, or more correctly, The Netherlands (in Dutch: Nederland) has played crucial role in both American history and American current events. It was first country to try to set up official diplomatic relations with U.S. (in 1782) and is major investor in U.S. and staunch ally of its foreign policy. Piercing of tourist aura surrounding The Netherlands by actively comparing and contrasting contemporary Dutch culture and society with contemporary American culture and society. How life would be different growing up in The Netherlands. Letter grading.

Upper Division Courses
103A-103B. Elementary Dutch. (4-4) Lecture, four hours; language laboratory. Course 103A is requisite to 103B. Introduction to standard language of Netherlands and one of three standard languages of Belgium. Practice in grammar, listening, speaking, reading, and writing. P/NP or letter grading.

104A-104B. Accelerated Dutch. (5-5) Lecture, four hours; discussion, one hour; laboratory, two hours. Covers material in courses 103A, 103B, 103C in two terms rather than three. Letter grading.

113. Modern Dutch and Flemish Literature in Translation. (4) Lecture, three hours. Readings and analysis of works by selected authors of Netherlands and northern (Flemish) Belgium such as Boon, Claus, Couperus, Hermans, Mulisch, Multatuli, and Reve and selected poets such as Campert, Gezelle, Gorter, Kiko, Lucebert, Nijhoff, Van Ostaijen, and Vroman. Letter grading.

German Lower Division Courses

1. Elementary German. (4) Lecture, five hours; laboratory, one hour. P/NP or letter grading.

2. Elementary German for Graduate Students. (4) Lecture, four hours. Preparation for Graduate Division foreign language reading requirement. May not be applied toward degree requirements. S/U grading.

3. Elementary German. (4) Lecture, five hours; laboratory, one hour. Enforced requisite: course 1. P/NP or letter grading.

4. Intermediate German. (4) Lecture, five hours; laboratory, one hour. Enforced requisite: course 2. P/NP or letter grading.

8. Elementary German: Intensive. (12) Lecture, 15 hours; laboratory, five hours. Intensive basic course in German equivalent to courses 1, 2, and 3. P/NP or letter grading.

10. German Conversation. (4) Discussion, three hours. Enrollment: three hours. Enforced requisite: course 5A. Conversation course designed for intermediate and advanced students who wish to improve their spoken command of German. Topics of current student interest to be used as basis for conversation. P/NP or letter grading.

50A-50B. Great Works of German Literature in Translation. (4-5) Lecture. May not be applied toward completion of major in German. P/NP or letter grading.

50A. Medieval Period through Classicism. (4) Lecture, three hours. Study and analysis of selected masterworks in English translation, including works from early period, such as heroic and court poetry, to authors such as Grimmelsehauen, Lessing, Schiller, and Goethe. P/NP or letter grading.

50B. Romanticism to Present. (5) Lecture, three hours; discussion, one hour. Study and analysis of selected masterworks in English translation, including authors such as E.T.A. Hoffmann, Heine, Fontane, Rilke, Kafka, Brecht, Thomas Mann, Hesse, Grass, Bühl, and Christa Wolf. P/NP or letter grading.

55. City as Text: German Exile Culture in Los Angeles. (4) Lecture, three hours. Not open for credit to students with credit for course 55W. Cultural and historical exploration of exile as site of creative activity for German writers and other artists during and after World War II. General questions of cultural migration and transfer to be thematized. P/NP or letter grading.

55W. German Exile Culture in Los Angeles. (5) Lecture, three hours; discussion, two hours. Enforced requisite: English Composition 3 or 3H or English as a Second Language 3. Not open for credit to students with credit for course 55. Reflection on history of German exile culture in Los Angeles (literature, film, music, architecture, philosophy) during 1940s — on its significance from anthropological, philosophical, political, and historical perspectives. Satisfies Writing II requirement. Letter grading.

56. Figures Who Changed World. (5) Lecture, three hours; discussion, one hour. Introduction to strains of German philosophy and political thought that resonated internationally. Use of version of “great man” model of history to move beyond such models in its understanding of how, exactly, intellectual currents actually ferment change in world. P/NP or letter grading.

57. Hollywood and Germany. (5) Lecture/screenings, five hours; discussion, one hour. Examination of images of Germany generated by Hollywood, cultural/historical interface between Hollywood and Germany, and contemporary critiques of long-standing relationship between these cultural sites. Discussion of how and why cultural stereotypes are generated and maintained, and why film is a uniquely powerful tool in ideological discourse. P/NP or letter grading.

58. Knights and Ladies, Sex and Power at Medieval Court. (5) Lecture, three hours. Introduction to culture of high medieval court, one of great achievements of European Middle Ages. P/NP or letter grading.

59. Holocaust in Film and Literature. (5) Lecture/screenings, five hours; discussion, one hour. History of Holocaust and its present memory through examination of challenges and problems encountered in trying to imagine its horror through media of literature and film. P/NP or letter grading.

60W. War. (5) Lecture, three hours; discussion, two hours. Enforced requisite: English Composition 3 or 3H or English as a Second Language 3. Reflection on cultural history of war — on its significance from anthropological, cultural, and philosophical perspectives rather than from perspective of political and historical gains and losses. Emphasis on World War I, war in which political and cultural understanding seemed particularly attuned to sense of confrontation and scandal in cultural life. Satisfies Writing II requirement. Letter grading.

61A-61D. Transatlantic Culture: Modern City in Central Europe. (5 each) Lecture, three hours; discussion, one hour. Historical exploration of major Central European cities and their cultures. P/NP or letter grading. 61A. Berlin; 61B. Weimar; 61C. Vien- na; 61D. Prague.

62W. Technoscience and German Culture. (5) Lecture, three hours; discussion, two hours. Enforced requisite: English Composition 3 or 3H or English as a Second Language 3. Study of German culture to challenges presented by technology and science. From Romanticism to critical theory and postmodernism, from Schopenhauer to Nietzsche to Habermas and Wolf, strands of German intellectual tradi- tion provide illuminating contrasts to American context. Satisfies Writing II requirement. Letter grading.

M70. Origin of Language. (5) (Same as Communication Studies M70 and Studies M70B) Lecture, three hours; discussion, one hour. Theoretical and methodological issues surrounding origin of language. Topics include evolutionary theory, evolution of man, how language is organized in brain, and science of language, including physiology of speech, phonetics, and comparative reconstruction. Letter grading.

88. Lower Division Seminar. (4) Seminar, three hours. Course of variable content limited to topics of current interest and offered whenever staff member is available. P/NP or letter grading.

Upper Division Courses

100A. German History and Culture before 1500. (4) Lecture, three hours; discussion, one hour. Lectures, discussions, and readings in English; knowledge of German not required. Study of German culture and society as represented in literature, art, music, and architecture from Reformation and invention of printing to start of World War I. P/NP or letter grading.

100B. German History and Culture, 1500 to 1914. (4) Lecture, three hours; discussion, one hour. Lectures, discussions, and readings in English; knowledge of German not required. Study of German culture and society as represented in literature, art, music, and architecture from World Wars I and II and German history to be used as model for principal questions of society and philosophical thinking. P/NP or letter grading.

100C. War, Politics, Art. (5) Lecture, three hours; discussion, one hour. Analysis of interrelationship between politics, social conditions, and arts with respect to war. World Wars I and II and German history to be used as model for principal questions of society and philosophical thinking. P/NP or letter grading.

102A. German Film in Cultural Context: Early Ger- man Film. (4) Lecture, two hours; discussion, one hour. Lectures and texts in English; additional readings in German for majors. Survey of German film between 1919 and 1945. Analysis of technological and stylistic development of films that include expressionist films to Nazi propaganda and entertainment films. Film discussions enhanced by interactive media. Letter grading.

102B. German Film in Cultural Context: New Ger- man Film. (4) Lecture, two hours; discussion, one hour. Lectures and texts in English; additional readings in German for majors. Survey of German film since 1960 in its thematic and stylistic diversity. Films authored by Werner Herzog, Fassbinder, and Marga- retre von Trotta are juxtaposed with commercial com- edies of 1990s. Film discussions enhanced by interactive media. Letter grading.

104. Tristan, Isolde, and History of Heterosexual- ity. (4) (Same as Women’s Studies M119.) Lecture, three hours. German, French, and English versions of Tristan and Isolde story from Middle Ages to 20th century. Particular attention to relation between representation of “heterosexual” love in each text and contemporaneous ideas about human sexuality. P/NP or letter grading.

106. Faust Tradition from Renaissance to Modern Age. (4) Lecture, three hours; discussion, one hour. Revisions and discus- sions of Faust theme in European literature and intel- lectual history, including chabbook of Doktor Faustus, Marlowe’s and Goethe’s dramas, and Thomas Mann’s and Buñuel’s novels. Letter grading.

108. Love and Sex in German Literary Tradition. (4) (Same as Women’s Studies M108.) Lecture, three hours. Study of major literary works that address is- sues of idealized desire, emotional/ssexual boundaries, and development of sexual identity. Letter grading.
110. Nietzsche and Critique of Western Culture. (4) Lecture, two hours; discussion, one hour. Readings that focus on Nietzsche’s critique of Christianity, master-slave dynamic, and the reciprocal relation between poetry and philosophy. German majors required to complete all readings in German. Letter grading.

112. Jewish Writing and Thought in German Culture, 1755 to Present. (4) Lecture, three hours. Analysis of works that represent process of Jewish assimilation, disenfranchisement, and extermination, including authors such as Mendelssohn, Heine, Kafka, Paul Celan, Nelly Sachs, Anne Frank, and others. Letter grading.

113. Advanced German Exile Culture in Los Angeles. (4) Lecture, three hours. Cultural and historical exploration of exile as site of creative activity for German writers and other artists during and after World War II. General questions of cultural migration and cultural transfer to be thematized. P/NP or letter grading.

116. Special Topics in Modern Literature and Culture. (4) Lecture, three hours. Content varies with instructor and may include works by authors such as Thomas Mann, Rilke, Kafka, Brecht, Christa Wolf, and others. May be repeated for credit. Letter grading.

117. Thomas Mann, Hesse, Böll, and Grass: German Nobel Prize-Winners, in English. (4) Lecture, three hours. Survey of Nobel Prize-winning German texts with eye for degree to which these authors’ visions reflect Nobel’s ideals of peace and progress of human values. (Hauptmann, ex- cers from Buddenbrooks (Mann), and Siddharta (Hesse). Viewing of films based on Lost Honor of Katharina Blum and Tin Drum. Letter grading.

118. Feminist Issues in German Literature and Culture. (4) Lecture, three hours. Analysis of major issues in German feminism today (e.g., status, creative work, and reception of women writers in various periods such as Romanticism, Fascism, and/or divided Germany). Letter grading.

119A. Introduction to German Drama. (5) Lecture, four hours. Enforced requisite: course 3. Introduction to four German plays (readings variable) and to different types of drama — tragedy, comedy, tragicomedy, absurd, expressionist, heroic, and epic — and drama theory. Reading, discussion, and analysis of plays in detail, practice in performing roles in class, and writing of short responses in German. May be repeated for credit. Letter grading.

119B. German Play Production. (5) Lecture, four hours. Requisites: courses 3 (enforced), 119A. Staging of production of play in German, working intensively on production and production of technical aspects in detail with instructors. Students responsible for different tasks in theater production, including dress rehearsals and technical jobs such as costumes, set, lighting, programs. Students with minor hands work collaboratively on technical aspects and program notes, which involve further reading (in consultation with instructor). Two performances take place at end of term. May be repeated for credit. Letter grading.

120. German Folklore. (4) Lecture, three hours. Survey of various folklore genres in cultural context, including legends, proverbs, and cultural enactments such as carnival. Letter grading.

122. Fairy Tales and Fantasy. (5) Lecture, three hours; discussion, one hour. Reading, reception of folklore collections in Europe, with particular attention to ideology and influence of Grimm’s tales. Interpretation of selected tales and their transformations and appropriation in literature, film, advertising, and pedagogy. P/NP or letter grading.

130A-130B. Conversation and Composition on Contemporary German Culture and Society I, II. (4-4) Lecture, three hours. Course 130A is requisite to 130B. Structured around themes as they emerge in contemporary German texts ranging from news magazine articles to literature, with emphasis on speaking and writing proficiency. Presentation software featured. P/NP or letter grading.

134. Advanced German Language through Cultural History and Current Affairs. (4) Lecture, three hours. Requisite: courses 130A, 130B. Advanced German language course that juxtaposes cultural history with current German discourse, focusing on complex speaking and writing skills of interpretation, analysis, and criticism. Readings may include selections from Luther, Heine, Freud, and current authors. Students create their own interactive media presentations. Letter grading.

140A. Introduction to German Poetry. (4) Lecture, three hours. Close reading of representative examples of German lyric poetry from early as well as recent literary periods, with focus on analysis of poetic forms and conventions, diction, imagery, symbolism, and metrics. Letter grading.

140B. Introduction to German Drama. (4) Lecture, three hours. Analysis of narrative genres (e.g., tragedy, comedy, one-act play, lyric drama, lyric theater, historical drama, etc.), including systematic review of dramatic forms, techniques, and theories. Texts selected from both contemporary and earlier periods. Letter grading.

140C. Introduction to German Narrative Prose. (4) Lecture, three hours. Analysis of narrative prose genres (e.g., short story, novella, fairy tales, etc.), including systematic study of narrative forms, techniques, and styles. Texts selected from both contemporary and earlier periods. Letter grading.

142. Introduction to 18th-Century Studies. (4) Lecture, three hours. Topics in Enlightenment literature, social history, and culture. Works by Goethe, Lessing, Schiller, Kant, Mozart, and others. Letter grading.

144. Introduction to 19th-Century Studies. (4) Lecture, three hours. Presentation of major texts from Romanticism to realism. Works by Kleist, Büchner, Heine, Fontane, and others. Letter grading.

145. 19th-Century German Philosophy. (4) Lecture, three hours; discussion, one hour. German philosophy, which may generally be characterized as philosophy that takes active rather than passive subsistence to be fundamental nature of all things, is one of Germany’s greatest gifts to humanity. Exploration of first half of two-century history of German philosophy — period from Kant to Nietzsche, including Hegel, Kierkegaard, and Marx. Letter grading.

146. Introduction to Modern Literature. (4) Lecture, three hours. Analysis of selected modern works written between 1890 and 1945, including texts by authors such as Thomas Mann, Kafka, Rilke, Brecht, and others. Letter grading.

147. 20th-Century German Philosophy. (4) Lecture, three hours; discussion, one hour. German philosophy, which may generally be characterized as philosophy that takes activity rather than passive subsistence to be fundamental nature of all things, is one of Germany’s greatest gifts to humanity. Exploration of second half of two-century history of German philosophy — period from Nietzsche through Habermas, including Heidegger, Gadamer, Jaspers, and Frankfurt School theorists. Letter grading.

148. Introduction to Contemporary Literature. (4) Lecture, three hours. Analysis and discussion of German, Austrian, Swiss, and ex-GDR literatures from 1945 to present. Examination of writers such as Heinrich Böll, Günter Grass, Friedrich Dürrenmatt, Elfriede Jelinek, and Christa Wolf with view to their specific political and cultural context. Letter grading.

150. Language and Linguistics. (4) Lecture, three hours. Requisite or corequisite: course 130A. Theoretical and methods of linguistics, with emphasis on structure of modern standard German, its phonology, morphology, syntax, semantics, and pragmatics. Other topics include diachronic, spatial, and social variation of German (i.e., its historical development, dialectology, and sociolinguistic dimensions). Letter grading.

152. Studies in German Literature before 1750. (4) Lecture, three hours. Requisite: course 140A. Readings and analysis of major works from Middle Ages to baroque. Letter grading.

162. Advanced Study of Contemporary Literature and Culture. (4) Lecture, three hours. Requisite: course 130A. Literature after 1945 in German-speaking countries, including issues such as national bor- ders, ethnic identity, gender relations, and commercialization of culture. Letter grading.

170. Current Topics in Germanic Linguistics. (4) Lecture, three hours. Requisite: course 130A. In- depth investigation of one topic in field of Germanic linguistics, such as phonetics and phonology, mor- phology and syntax, semantics and pragmatics, social and spatial variation (i.e., sociolinguistics and dia- lectology of German), or history of German. Letter grading.

187. Undergraduate Seminar. (Seminar, three hours. Required of all German majors who are candi- dates for general secondary instructional credential. Content varies by instructor and may include ad- vanced work in folklore, film, and German studies. Letter grading.

197. Individual Studies in German. (2 to 4) Tutorial, three hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be ar- ranged between faculty member and student. As- signed reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

199. Directed Research or Senior Project in Ger- man. (2 to 4) Tutorial, three hours. Directed reading and research or independent research under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Indi- vidual contract required. P/NP or letter grading.
Graduate Courses

201A. Bibliography, Research Methods, and Scholarly Writing. (4) Lecture, three hours. Introduction to current state of advanced research and analysis of literary and philological materials, with emphasis on bibliographies and such tools of research as reference works, series publications, journals, archives, literary histories, and special attention to online resources. Practical exercises in analysis of sources, compilation and presentation of bibliographies, and written research papers. Letter grading.

201C. Theories of Literary Interpretation. (4) Lecture, three hours. Advanced analysis and discussion of various models of literary interpretation and schools of thought such as hermeneutics, psychoanalytic criticism, social historical approaches, semiotics, structuralism, and poststructuralism. Topics vary with instructor. Letter grading.

202A. Middle High German. (4) Lecture, three hours. Introduction to Middle High German language, with particular emphasis on developing facility in reading. Study of grammar, syntax, and vocabulary combined with introduction to poetic forms and cultural context. Letter grading.

202B. Readings in Middle High German Literature. (4) Lecture, three hours. Introduction to medieval German literature and literary history and to use of contemporary theory in study of medieval texts. Continued practice in reading Middle High German, although most texts to be read in modern translation. Letter grading.

204. Early Modern German Literature. (4) Lecture, three hours. Selected readings from 1500 to 1700, with introduction to development of German as modern literary language and to literary genres and cultural models. Impact of Thirty Years’ War on German literary production and reception in German baroque. Letter grading.

207. Weimar Classicism. (4) Lecture, three hours. Reading and interpretation of major works of German classicism. May include problems in reception of classicism by later authors and cultural theorists. Letter grading.

208. Romanticism. (4) Lecture, three hours. Analysis of selected works and theories of German Romantics such as Friedrich Schlegel, Novalis, and Hoffmann with introduction to relationship between Romanticism and other periods. Letter grading.

210A. Naturalism, Symbolism, and Expressionism. (4) Lecture, three hours. Analysis of selected works (poetry, drama, prose) of early modernism from Hauptmann to Kafka. Discussion of sociological spectra and pluralism of styles and forms. Letter grading.

210B. 20th-Century Novel to 1945. (4) Lecture, three hours. Prose works in first half of 20th century as they express experience, crisis of consciousness, and cultural conflicts between wars, as well as innovations in narrative technique. Letter grading.

211. Postwar Literature. (4) Lecture, three hours. Study of major works by German-speaking authors written post World War II. Examination of issues such as identity crises, nationalism and divided Germany, gender expectation, and social-political attitudes. Letter grading.

212. Contemporary Literature and Culture. (4) Lecture, three hours. Analysis of current cultural issues and their relation to literary production and interpretation. Topics may include areas such as feminism, postcolonialism, postmodernism, and contemporary theory. Letter grading.

213. Topics in Literature and Film. (4) Lecture, three hours. With focus on two different modes of cultural representation, examination of topics in German literature and film from Weimar Republic to present. Study of media theory, feminist film theory, and interrelationships between film, literature, and social history. Letter grading.

217. History of German Language. (4) Discussion, three hours. Historical survey of development of standard literary German language from time of Indo-European unity through proto-Germanic, West Germanic, medieval period, Reformation, baroque period, and Enlightenment until its final codification at end of 19th century. S/U or letter grading.

231. Gothic. (4) Discussion, three hours. Systematic study of gothic and grammar MC/Gothic language with readings in Wulff’s translation of Bible and introduction to history of Gothic and their place in development of modern Europe. S/U or letter grading.

232. Old High German. (4) Discussion, three hours. Introduction to earliest phases of German literature with extensive readings in major documents of that period (750 to 1050). Emphasis on grammatical interpretation of these documents and identification of dialects used in their composition. S/U or letter grading.

238. Linguistic Theory and Grammatical Description. (4) Lecture, three hours. Requisite: course 150 or Linguistics 20. Problems in structure of Dutch and German, considered from theoretical frameworks such as generative grammar. Course 238 and linguistics 239 and 249 introduce students to modern grammatical approaches in the linguistics discipline. Concurrently scheduled with course C172. Graduate students meet as group one additional hour each week and write research papers of greater length and depth. Letter grading.

251. Seminar: Germanic Linguistics. (4) Seminar, three hours. Current topics in synchronic or diachronic linguistics, such as specific issues in generative grammar, sociolinguistics and dialectology, or language contact. Letter grading.

252. Seminar: Historical and Comparative Germanic Linguistics. (4) Seminar, three hours. Topics selected from field of historical Germanic phonology and syntax according to needs and preparation of students enrolled (e.g., West German problem and classification of non-Germanic development of Germanic verbal and nominal morphology in Proto-Germanic syntax). S/U or letter grading.

256. Seminar: Enlightenment. (4) Seminar, three hours. Selected problems in cultural, literary, and philosophical history. May include modern critiques of Enlightenment thought. Letter grading.

257. Seminar: Age of Goethe. (4) Seminar, three hours. Selected topics in literature and culture between 1740 and 1840 in context of work of Goethe and Schiller as it relates to philosophic texts such as Hegel’s Phänomenologie des Geistes or as it relates to historical events such as French and American Revolutions. Letter grading.

261. Seminar: Contemporary Literature. (4) Seminar, three hours. In-depth analysis of one particular issue in post-1945 German literature and culture. Letter grading.

263. Seminar: Literary Theory. (4) Seminar, three hours. Special focus on particular theoretical school or interpretive paradigm. Content varies with instructor. Letter grading.

265. German Philosophy. (4) Seminar, three hours. German philosophical tradition is one of most influential, difficult, and problematic in the Western world has known. Beginning with Kant’s Critique of Pure Reason and continuing through Hegel, Marx, Nietzsche, and Heidegger to Arendt and thinkers of Frankfurt school, German philosophers have explored, more deeply and rigorously than any other Western thinkers, nature and limits (if any) of human mental activity. Results have been basic to social, political, and aesthetic theory as well as to philosophy itself. Exploration of thought of one member of that tradition by concentrat- ing yearly on one exemplary text. Letter grading.

M299. Research Resources for European Studies. (2) (Same as French M299, Information Studies M299, Italian M299, Slavic M299, and Spanish M299.) Lecture, two hours. Essentials of library research strategy and effective searching in key print and online resources for European and Russian studies. Three hour combination of lecture, online demonstration, and hands-on activities in and outside class, students understand how to efficiently use library and databases. S/U grading.
375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

485. Approaches to Foreign Language Pedagogy. (4) Seminar, one hour; discussion, two hours. Issues include development of current theories of second-language acquisition, effects of these theories on language teaching, psycholinguistics, sociolinguistics, assessment techniques, use of multimedia in foreign language pedagogy, and design of syllabai for basic foreign language courses. S/U grading.

496. Teaching with Technology. (4) Seminar, one hour. Introduction for teaching assistants to technological resources available to them and demonstration of how to incorporate computer-based assignments into curriculum. Discussion of pros and cons of using different types of material both inside and outside classroom, as well as how technology can be used to create teaching portfolios and interactive learning tools. S/U grading.

596. Directed Individual Study or Research. (4) Tutorial, three hours. To be arranged with faculty member who directs study or research. Required research paper must be filed with department chair. S/U grading.

597. Preparation for M.A. Comprehensive Examination or Ph.D. Qualifying Examinations. (4) Tutorial, three hours. To be arranged with faculty member who directs examination preparation. S/U grading.

598. Research for and Preparation of M.A. Thesis. (4 to 12) Tutorial, three hours. To be arranged with faculty member who directs research for and preparation of thesis. S/U grading.

599. Research for and Preparation of Ph.D. Dissertation. (4 to 12) Tutorial, three hours. To be arranged with faculty member who directs research for and writing skills. P/NP or letter grading.

Yiddish

Upper Division Courses

101A. Elementary Yiddish. (4) Lecture, four hours. Introduction to grammar; instruction in listening, speaking, reading, and writing skills. P/NP or letter grading.

121C. Special Topics in Yiddish Literature in English Translation. (4) Lecture, three hours. Varying topics of importance and relevance to Yiddish literary study. Reading and analysis of wide range of 19th- and 20th-century literature. P/NP or letter grading.

131C. Special Topics in Yiddish Literature. (4) Lecture, three hours. Requisite: course 131A or 131B. Varying topics of importance and relevance to Yiddish literary study. Reading and analysis of wide range of 19th- and 20th-century literature. P/NP or letter grading.

197. Individual Studies in Yiddish. (2 to 4) Tutorial, to be arranged. Limited to juniors/seniors. Individually intensive study or more specialized investigation of topics in Yiddish, with scheduled meetings to be arranged between faculty member and student. As signed reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

596. Directed Individual Study or Research in Yiddish. (4) Tutorial, to be arranged with faculty member who directs study or research (course section to be identified by two-letter code using initials of sponsoring instructor — see department for I.D. number). May be repeated once. S/U grading.

597. Preparation for Ph.D. Qualifying Examinations. (4) Tutorial, to be arranged with faculty member who directs study (see department for I.D. number). S/U grading.

Undergraduate Study

Gerontology Minor

To enter the Gerontology minor, students must have an overall grade-point average of 2.0 or better.

Required Upper Division Courses (28 units): Gerontology M140 and six courses from M104C, M104D, M104E, M1190, M119X, M150, Community Health Sciences 90, Psychology M117J, 124G, 195A (only 8 units may be applied toward the minor; fieldwork placements must be approved by the chair of the minor), Women’s Studies 185 (only when the special topic is women, health, and aging).

All minor courses must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Gerontology

Upper Division Courses

M104C. Diversity in Aging: Roles of Gender and Ethnicity. (4) (Same as Social Welfare M104C and Women’s Studies M104C.) Lecture, four hours. Examination of complexity of variables related to diversity of the aging population and variability in aging process. Examination of gender and ethnicity within context of both physical and social aging, in a multidisciplinary perspective utilizing faculty from a variety of fields to address issues of diversity. Letter grading.

M104D. Public Policy and Aging. (4) (Same as Social Welfare M104D.) Examination of theoretical models and concepts of the policy process, with application to aging policy. Analysis of decision-making processes that affect aging policy. Description of history of contemporary aging policy. Exploration of current policy issues affecting the elderly. P/NP or letter grading.

M104E. Social Aspects of Aging. (4) (Same as Social Welfare M104E.) Topics include theories of aging, economic factors, changing roles, social relationships, and special populations. Weekly seminars organized around a key aspect of social gerontology. P/NP or letter grading.

M1190. Psychology of Aging. (4) (Same as Psychology M1190.) Lecture, four hours. Designed for juniors/seniors. Aging refers to developmental changes occurring at end stages of life. Some alterations that occur represent improvement, others are detrimental. Examination of impact of aging process on mental phenomena and exploration of ways in which positive changes can be maximally utilized and impact of detrimental alterations minimized. P/NP or letter grading.

M119X. Biology and Behavioral Neuroscience of Aging. (4) (Same as Psychology M119X.) Lecture, three hours. Designed for juniors/seniors. Biologic mechanisms of aging process and its terminal phase, death, have been increasingly studied in recent years. Establishment of what is known experimentally about biology and behavioral neuroscience of aging and evaluation of theories developed to account for this knowledge. P/NP or letter grading.

120. Sex and Aging. (4) Lecture, three hours. Sexuality in aging from psychological, psychobiological, physical, and psychosocial perspectives, with emphasis on differences between females and males concerning physical and social changes that occur with aging and how this impacts on emotional well-being and human sexual response. P/NP or letter grading.
M140. Introduction to Study of Aging. (4) (Same as Psychology M140 and Social Welfare M140) Lecture, three hours. Designed for juniors/seniors. Perspectives on major features of human aging — biological, social, psychological, and humanistic. Introduction to information on the range of influences on aging to prepare students for subsequent specialization. P/NP or letter grading.

M141. Women, Health, and Aging: Policy Issues. (4) (Same as Health Services CM141 and Women’s Studies M141.) Lecture, three hours; discussion, one hour. Preparation: two upper division social sciences courses, two upper division biological sciences courses. Social and economic context of older women’s aging, major physical and psychological changes older women experience, delivery of health services to this population, and policies that respond to their health needs. Letter grading.

M150. Sociology of Aging. (4) (Same as Sociology M150.) Lecture, three hours; discussion, one hour. Study of sociological processes shaping definition, experience, and response to aging in contemporary society. Topics include race, class, and gender in aging over life course; interpersonal relations and social context of aging, policies that respond to aging. Letter grading.

195. Community or Corporate Internships in Gerontology. (4) Tutorial; one hour; internship (approved community agency or business). Students meet on regular basis with sponsor and provide periodic reports of their experience. Culminating report required. May be repeated for credit, but only 8 units may be applied toward major. Individual contract required. Information and contracts may be obtained from Gerontology Advising Office, 8631 Franz Hall. P/NP or letter grading.

196. Research Apprenticeship in Gerontology. (2 to 4) Tutorial, three hours per week per unit. Requisites: courses M119O or M119X, and M140. Limited to juniors/seniors. Internship in applications of gerontology in supervised setting in community agency or business. Students meet on regular basis with sponsor and provide periodic reports of their experience. Culminating report required. May be repeated for credit, but only 8 units may be applied toward minor. Individual contract required. Information and contracts may be obtained from Gerontology Advising Office, 8631 Franz Hall. P/NP or letter grading.

199A. Directed Research or Senior Project in Gerontology. (2 to 4) Tutorial, to be arranged. Requisites: courses M119O or M119X, and M140. Limited to juniors/seniors. Supervised individual research under guidance of gerontology faculty mentor. Individual contract required. Information and contracts may be obtained from Gerontology Advising Office, 8631 Franz Hall. Letter grading.

199B. Guided Research or Senior Project in Gerontology. (4) Tutorial, to be arranged. Requisites: courses M119O or M119X, and M140. Limited to juniors/seniors. Supervised individual research under guidance of gerontology faculty mentor. Culminating paper required. May not be repeated for credit. Individual contract required. Information and contracts may be obtained from Gerontology Advising Office, 8631 Franz Hall. P/NP grading.

Dominic R. Thomas, Ph.D. (Comparative Literature, French and Francophone Studies)
Daniel S. Treisman, Ph.D. (Political Science)
Amy Z. Zegart, Ph.D. (Public Policy)

Scope and Objectives
The Global Studies major provides undergraduates with rigorous interdisciplinary education in the principal issues confronting today's globalized world. The curriculum features three thematic pillars that capture the principal dimensions of the unprecedented depth and breadth of interconnections among nation-states, ethnic and religious groups, and individuals. Culture and society courses concentrate on the tensions between local ways of life with deep historical, linguistic, ethnic, and religious roots and today's pressures for transnational cultures and multiple identities, fueled by the communication of ideas and the movement of people all around the world. Governance and conflict courses focus on challenges to the nation-state from forms of governance above (regional and global forms of governance) and below (autonomy and secessionist movements) and from security threats beyond interstate warfare (ethnic conflict, terrorism, civil wars). Markets courses address the interactions among global, regional, national, and subnational economic processes and market dynamics, their effects on different societies with respect to economic growth, poverty, inequality, and the interactions among market forces, political institutions, and public policy.

The curriculum draws on insights from disciplines across the humanities and social sciences to give students the theoretical and methodological skills and knowledge base necessary to understand this complex and rapidly changing world.

Undergraduate Study
Global Studies B.A.

Admission
To enter the Global Studies major, students must have a minimum grade-point average of 2.5 and must have completed all non-language preparation for the major courses and one modern foreign language equivalent to level 3 at UCLA. Interested students are strongly advised to meet with the academic counselor to discuss the requirements and must file a petition in the Undergraduate Advising Office, 10375 Bunche Hall, to declare the major.

Preparation for the Major
Required: Global Studies 1; one statistics course selected from Political Science 6, 6R, Statistics 10, 11, or 12; demonstrated proficiency equivalent to level 6 at UCLA in one modern foreign language; and five additional courses as follows: (1) one culture and society course selected from Anthropology 9, Comparative Literature 1C or 2CW, 1D or 2DW, Ethnomusicology 25, Geography 3, 6, History 2B, or World Arts and Cultures 20, (2) one governance and conflict course selected from History 22, Political Science 10, 20, 30, 50, 50R, or Sociology 1, and (3) one markets course selected from Economics 165, 1, 2, or Geography 4. The remaining two courses, taken from two separate categories, may be selected from the three lists above. One course from the following list may be applied toward the culture and society category: Asian 70C, French 14, 14W, Italian 42A, 42B, Near Eastern Languages 50C, Portuguese M42, M44, Russian 90B, 90BW, Spanish M42, M44.

Transfer Students
Transfer applicants to the Global Studies major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one modern world history course, one major world region languages and cultures course, one international politics course, one macroeconomics or microeconomics course, one statistics course, and demonstrated proficiency equivalent to level 3 at UCLA in one modern foreign language.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Global Studies 100A, 100B, 110A, 110B, and seven elective courses, with at least two from each of the following categories and at least three in one category: (1) culture and society — Anthropology M154Q, Art History C180A, Chicana and Chicano Studies M147, Communication Studies 122, Comparative Literature 100, C173, English 114, Film and Television 110C, French 142, Geography 133, 138, Sociology 151, 154, 155, 162, 191F, Women’s Studies M147C, M154Q, M162, World Arts and Cultures 102; (2) governance and conflict — Asian American Studies 171A, Geography 140, History 121E, 121F, 135C, Political Science 126, 138B, 166, Public Policy CM117, Sociology 182; (3) markets — Anthropology 153P, Chicana and Chicano Studies 125, Economics 110, 120, 121, 122, 181B, Geography 148, History 131A, International Development Studies M100B, Political Science 124A, M167C, Sociology 183.

During their senior year, students must also take Global Studies 191, 194, 199A, and 199B.

Global Learning Institutes
After successful completion of Global Studies 100A and 100B, majors are expected to attend

Global Studies / 357
Global Studies Minor

The Global Studies minor offers students a multidisciplinary curriculum in the humanities and social sciences through which they can explore the complex and multifaceted interconnections that characterize the contemporary world. The minor is designed to complement and enrich studies in their major.

To enter the minor, students must (1) be in good academic standing (minimum 2.0 grade-point average) and (2) have completed Global Studies 1 and one course in two of the following three categories: (a) culture and society — Anthropology M154Q, Art History C180A, Chicana and Chicano Studies M147, Comparative Studies C122, Comparative Literature 100, C173, English 114, Film and Television 110C, French 142, Geography 133, 138, Sociology 151, 154, 162, 191F, Women’s Studies M147C, M154Q, M162, World Arts and Cultures 102; (b) governance and conflict — Asian American Studies 171A, Geography 140, History 121E, 121F, 15C, Political Science 122A, 138B, 166, Public Policy CM117, Sociology 182; (3) markets — Anthropology 153P Chicana and Chicano Studies 125, Economics 110, 120, 121, 122, 181B, Geography 148, History 131A, International Development Studies M100B, Political Science 124A, M167C, Sociology 183.

Global Studies minors are highly encouraged to participate in a summer Global Learning Institute at one of several locations around the world in which they enroll in Global Studies 110A and 110B. Students who cannot attend the summer travel study program must instead take two upper division courses on the globalization of one of the world’s regions, subject to approval by the program chair.

At the end of the institute, students may stay in the foreign country to pursue internships in local government, corporate, or nonprofit organizations.

Global Studies Lower Division Course

1. Introduction to Global Studies. (5) Lecture, three hours; discussion, one hour. Required: course 100A. Introduction to concepts and history of globalization, addressing different processes and forms of globalization while attempting to develop methods and theories through which aspects of globalization can be more readily understood. Letter grading.

2. Globalization: Concepts and History. (5) Lecture, three hours; discussion, one hour. Required: course 100A. Application of theoretical tools and historical perspective of course 100A to most pressing contemporary issues concerning globalization. Issues include globalization and Americanization; migration, culture, and identity; and political and social issues confronting globalized world today. Structured around three thematic categories — culture and society, governance and conflict, and markets — designed to capture principal dimensions of multinational connections among nation-states, nongovernmental organizations, ethnic, cultural, and religious groups, and populations around world. P/NP or letter grading.

Global Studies Upper Division Courses

100A. Globalization: Concepts and History. (5) Lecture, three hours; discussion, one hour. Required: course 100A. Application of theoretical tools and historical perspective of course 100A to most pressing contemporary issues concerning globalization. Issues include globalization and Americanization; migration, culture, and identity; and political and social issues confronting globalized world today. Structured around three thematic categories — culture and society, governance and conflict, and markets — designed to capture principal dimensions of multinational connections among nation-states, nongovernmental organizations, ethnic, cultural, and religious groups, and populations around world. P/NP or letter grading.

100B. Globalization: Contemporary Issues. (5) Lecture, three hours; discussion, one hour. Required: course 100A. Application of theoretical tools and historical perspective of course 100A to most pressing contemporary issues concerning globalization. Issues include globalization and Americanization; migration, culture, and identity; and political and social issues confronting globalized world today. Structured around three thematic categories — culture and society, governance and conflict, and markets — designed to capture principal dimensions of multinational connections among nation-states, nongovernmental organizations, ethnic, cultural, and religious groups, and populations around world. P/NP or letter grading.

110A. Globalization in Context. (5) Lecture, six hours. Required: course 100B. Corequisite: course 110B. Culture, economy, history, and politics of different locations around world and how they are affected by globalization. Field trips included to gain first-hand experience of these processes. Offered in summer only. P/NP or letter grading.

110B. Globalization in Context Research Seminar. (5) Seminar, six hours. Required: course 100B. Corequisite: course 110A. Culture, economy, history, and politics of different locations around world and how they are affected by globalization. Field trips included to gain first-hand experience of these processes. Offered in summer only. P/NP or letter grading.

191. Research Group Seminars: Global Studies. (2) Formerly numbered 190.) Seminar, two hours. Required: courses 110A, 110B. Limited to senior Global Studies majors. Organized on topics basis with readings, discussions, papers, and development of culminating project. May be repeated for credit. Letter grading.

194. Research Group Seminars: Global Studies. (2) Formerly numbered 190.) Seminar, two hours. Required: courses 110A, 110B. Limited to senior Global Studies majors. Organized on topics basis with readings, discussions, papers, and development of culminating project. May be repeated for credit. Letter grading.

Marvin Marcus, D.D.S.
Vickie M. Mays, Ph.D.
John W. Peabody, M.D., Ph.D., in Residence
Thomas H. Rice, Ph.D.
Lisa V. Rubenstein, M.D., in Residence
Stuart O. Schwartz, Ph.D.
Martin F. Shapiro, M.D.
Paul R. Tortora, M.D., M.P.H.
Kenneth B. Wells, in Residence
Antonette K. Yancey, M.D., Ph.D.

Professors Emeriti
Ronald M. Andersen, Ph.D.
Lesler Breslow, M.D., M.P.H.

Associate Professors
Paul C. Fu, Jr., M.D., M.P.H.
Clifford Y. Ko, M.D.
Jack Needleman, Ph.D.
Alex N. Ortega, Ph.D.
Patricia H. Parkerton, Ph.D., in Residence

Lecturer
Bruce W. Bennett, Ph.D.

Adjunct Professors
Ellen Alkon, M.D., M.P.H.
Arlene Fink, Ph.D.
Dana P. Goldman, Ph.D.
public and private agencies involved in health services research and health policy analysis.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gsas/library/pgmnrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Health Services offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Health Services.

Health Services

Upper Division Courses

100. Health Services Organization. (4) Lecture, four hours; discussion, one hour. Preparation: 4 units of social sciences. Structure and function of American healthcare system; issues and forces shaping its future. P/NP or letter grading.

C121. Tobacco: Prevention, Use, and Public Policy. (4) Lecture, four hours. Designed for juniors/seniors. Study of tobacco use and its health consequences, including interplay of historical, biological, sociocultural, political, and economic forces with knowledge, attitudes, and behavior choices of individuals. Introduction to prevention interventions, cessation interventions, anti-tobacco efforts in U.S., and international trends in tobacco use. Concurrently scheduled with course CM221. Letter grading.

C141. Women, Health, and Aging: Policy Issues. (4) (Same as Gerontology M141 and Women’s Studies M141.) Lecture, three hours; discussion, one hour. Preparation: two upper division social sciences courses, two upper division biological sciences courses. Social and economic context of older women’s aging, major physical and psychological changes older women experience, delivery of health services to this population, and policies that respond to their health needs. Concurrently scheduled with course CM241. Letter grading.

197. Individual Studies in Health Services. (2 to 4) (Formerly numbered 199.) Tutorial, four hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

200A-200B. Health Systems Organization and Financing. (4 to 6 each) Lecture, four to six hours; discussion, two hours. Limited to graduate health services research and exploration of methods that can be used to incorporate them in research on American Indian cultures, societies, languages, and other issues. Quantitative methods (design, appropriate use), with emphasis on qualitative research methods, ethics, and special considerations in conducting research in American Indian country. Design of research and exploration of feasibility of researching topics. Letter grading.

2004A-2004B-2004C. Seminars: Pharmaceutical Economics and Policy. (1-1-2) (Same as Economics M204A-M204M-M204N) Seminar, three hours every other week for three terms. Requisites: course M236, Economics 201A, 201B, 201C. Limited to graduate public health and economics students. Various topics in economics of pharmaceutical industry, including rates of innovation, drug regulation, and economic impact of pharmaceuticals. In Progress (M204A, M204B) and S/U or letter (M204C) grading.

205. Pharmaceutical Policy. (4) Lecture, three hours. Policy issues pertaining to pharmaceutical sector. Topics include determinants of expenditures on drugs, price setting in industry, health insurance coverage for pharmaceuticals, and research and development process. Letter grading.

207. Current Topics in Health Services: Practice and Policy Perspectives. (2) (Formerly numbered 207A-207B-207C) Seminar, two hours. Required of Dr. Ph. students. Examination and discussion of current content in health services topics in various practice sectors, with focus on organizational leadership and direction in addressing these issues. Journal club discussions of relevant scientific literature, presentations of dissertation work by advanced Dr. Ph. students, and interactive lectures/discussions by professionals in public health practice and healthcare management. S/U or letter grading.

220. Seminar: Cost Containment. (4) Seminar, three hours. Through lectures and discussion of journal articles, analysis of success and failure of alternative methods of controlling U.S. healthcare costs. Examination of how other countries have controlled their costs. Letter grading.

221. Tobacco: Prevention, Use, and Public Policy. (4) (Same as Community Health Sciences M223) Lecture, four hours. Designed for juniors/seniors and graduate students. Study of tobacco use and its health consequences, including interplay of historical, biological, sociocultural, political, and economic forces with knowledge, attitudes, and behavior choices of individuals. Introduction to prevention interventions, cessation interventions, anti-tobacco efforts in U.S., and international trends in tobacco use. Concurrently scheduled with course C121. Letter grading.

231. History of Public Health. (4) Discussion, three hours. Designed for doctoral students. Emphasis on topics which illuminate current issues in public health policy. Discussion of historical perspectives on health care providers, healthcare institutions, healthcare reform movements, public health activities, childbirth, and AIDS. S/U or letter grading.

Adjunct Associate Professors

Barbara A. Berman, Ph.D.
Pamela L. Davidson, Ph.D.
Farhad A. Haghighi, Dr.P.H., M.B.A., C.M.C.
Diana W. Hilberman, Dr.P.H.
Geoffrey F. Joyce, Ph.D.
Jeffrey Luck, Ph.D., M.B.A.
Annette Maxwell, Ph.D.
William J. McCarthy, Ph.D.
Naderah Pourat, Ph.D.
Maren T. Scheuner, Ph.D.
Richard E. Sinaiko, M.P.H.
Amadeep S. Thind, M.D.
L. Carl Volpe, Ph.D.
Elizabeth M. Yano, Ph.D.

Adjunct Professor

Anthony H. Schiff, J.D.
232. Governmental Health Services and Trends. (4) Lecture, four hours. Preparation: two upper division social or behavioral sciences courses. Requisite: course 100. Systematic study of interface between organized programs of personal health services and governmental agencies at all jurisdictional levels. Study of changing relationships between traditional public health and newer medical care and quality control functions. S/U or letter grading.

234. Health Services Organization and Management Theory. (4) Lecture, four hours. Preparation: two upper division social sciences courses. Requisite: course 100. Application of contemporary organization and management theory to systems that provide personal healthcare services. Environmental characteris-
tics, missions/goals, structure, and processes of health services organizations. S/U or letter grading.

M236. Microeconomics of Health Sector. (4) (Same as Public Policy M268.) Lecture, four hours; discussion, two hours. Preparation: intermediate microeconomics. Requisite: Biostatistics 100A. Microeconomic aspects of healthcare system, includ-
ing health manpower substitution, choice of efficient modes of treatment, market efficiency, and competi-
tion. Letter grading.

237A. Special Topics in Health Services Research Methodology. (4) Lecture, four hours. Requisite: Bio-

237B. Special Topics in Health Services Research Methodology. (4) Lecture, four hours. Requisites: Biostatistics 200A, and 200B or 201. Introduction to multivariate analysis techniques in health services re-

237C. Issues in Health Services Methodologies. (4) Lecture, four hours. Requisites: courses 237A, 237B, Biostatistics 200A, 200B (or 201). Designed for doctoral students. Intended to train students in statis-
tical and economic methods used in health services research, with focus on practical application of ad-
vanced regression models. Letter grading.

239. Aging and Long-Term Care. (4) Lecture, four hours. Requisites: courses 100, 239, Community Health Sciences 270A, 270B. Long-term care of the chronically ill examined from perspective of political and sociodemographic trends, including pop-

240. Healthcare Issues in International Perspective. (4) Lecture, four hours. Preparation: two health administration courses, two upper division social sci-
cences courses. Analysis of crucial issues in health care; manpower policy, economic support, health fa-
cilities, patterns of health service delivery, regulation, planning, etc. Analysis of different healthcare systems probed in settings of European welfare states, devel-
opung nations, and socialist countries. S/U or letter grading.

CM241. Women, Health, and Aging: Policy Issues. (4) (Same as Social Welfare M290D.) Lecture, three hours; discussion, one hour. Preparation: two upper division social sciences courses, two upper division biological sciences courses. Social and economic context of older women's aging, major physical and psychological changes older women experience, de-

CM242. Determinants of Health. (4) (Same as Com-

249A-249Z. Special Topics in Health Economics. (2 to 4 each) Hours to be arranged. Requisites for each course announced in advance by department. Ad-
vanced seminars covering current issues and special topics in health policy, health financing, and organiza-
tion and administration of health services. Sections offered on regular basis, with topics announced in preceeding term. May be repeated for credit with topic change.

249D. Principles of Organization Leadership: Applica-
tions in Public Health and Welfare. (4) Lecture, three hours; discussion, three hours. Designed for graduate students. Examination of principles and models of or-

M249E. Advanced Topics in Health Economics. (4) (Same as Public Policy M268.) Seminar, four hours. Requisites: courses 200A, 200B, M236. Advanced treatment of number of topics in health economics, in-
cluding mental health economics, pharmacoeconomic economics, and relationship between labor supply, welfare, and health. Letter grading.

249F. Quality Assessment and Assurance. (4) Semi-
nar, four hours. Preparation: one health services or epidemiology course 100. Biosta-
tistics 100A, Epidemiology 100. Fundamental issues in quality assurance, quality assessment, and mea-
urement of health status. S/U or letter grading.

249G. Tobacco and Public Health. (2) Seminar, four hours. Information and analysis of principal issues in tobacco control. As administrators, researchers, and.

M249M. Mental Health Services. (4) (Same as Psychi-

M249N. Tobacco and Public Policy. (4) Lecture, four hours. Information and analysis of principal issues in
tobacco control. As administrators, researchers, and

M249O. Tobacco and Public Policy. (4) Lecture, four hours. Information and analysis of principal issues in
tobacco control. As administrators, researchers, and

M249Q. Editorial Board Apprenticeship. (2) (Formerly numbered 249Q.) (Same as Psychiatry M210.) Semi-
nar, two hours. Designed for postdoctoral fellows and advanced Ph.D. students. Participation in peer review process for academic journal, Health Psychology, with consideration of interface between behavioral science, health, and medicine. Reading and discus-
sion of submissions and advising of editor on suitab-
ility for full review. S/U or letter grading.

249R. Cancer Prevention and Control Research. (2) Seminar, two hours. Limited to graduate students. Pre-

249S. Professional Ethics. (2) (Same as Community Health Sciences M249L.) Lecture, four hours. Re-

M249T. Women, Health, and Aging: Policy Issues. (4) (Same as Social Welfare M290D.) Lecture, three hours; discussion, one hour. Requisites: courses 200A, 200B, M236. Survey of contemporary American delivery of health services to emotionally and mentally ill and retarded. Analysis of characteristics of such services, with historical background of their evolution and projections of their future prospects. Letter grading.

249K. Health Care Practice Guidelines, Variations in Care, and Patient Outcomes. (4) Lecture, three hours. Requisites: courses 200A, 200B, M242, Biostatistics 100A, 100B. Designed for graduate students. Survey of student critical review and discussion of selected papers dealing with course topics, including small and large area variations in care, and develop-

249L. Ethical Issues in Public Health. (4) (Same as Community Health Sciences M249L.) Lecture, four hours. Requisites: courses 200A, 200B. Case confer-
ences, based on real-life experience, focus on ethical issues in health services organization and manage-
ment, including ethical issues related to conflict of in-
terest, quality of care, confidentiality, diversity, equitable access, choice of drugs, reproductive rights, AIDS, and re-
source allocation. Letter grading.

249M. Review of Current Health Services Manage-
ment Literature. (2) Lecture, two hours. Designed to help students remain current on recent developments in health services management and to place these current developments in proper context of academic research and theory. Letter grading.

249N. Accessing, Analyzing, and Presenting Health-
care Management Data. (2) Lecture, two hours. De-
signed to provide first-year M.P.H. health professional students with basic skills, and acquisition and quanti-
tative analysis of data for healthcare management, as well as written and oral presentation of those results. Letter grading.

249O. Tobacco and Public Policy. (4) Lecture, four hours. Information and analysis of principal issues in tobacco control. As administrators, researchers, and

249P. Ethical Issues and Healthcare Executive. (2) Lecture, two hours. Introduction to ethical issues fac-
ing managers in healthcare organizations today. Un-
derstanding and resolving these issues within a

249Q. Editorial Board Apprenticeship. (2) (Formerly numbered 249Q.) (Same as Psychiatry M210.) Semi-
nar, two hours. Designed for postdoctoral fellows and advanced Ph.D. students. Participation in peer review process for academic journal, Health Psychology, with consideration of interface between behavioral science, health, and medicine. Reading and discus-
sion of submissions and advising of editor on suitab-
ility for full review. S/U or letter grading.

249R. Cancer Prevention and Control Research. (2) Seminar, two hours. Limited to graduate students. Pre-

249S. Professional Ethics. (2) (Same as Community Health Sciences M249L.) Lecture, four hours. Re-

249T. Women, Health, and Aging: Policy Issues. (4) (Same as Social Welfare M290D.) Lecture, three hours; discussion, one hour. Requisites: courses 200A, 200B, M236. Survey of contemporary American delivery of health services to emotionally and mentally ill and retarded. Analysis of characteristics of such services, with historical background of their evolution and projections of their future prospects. Letter grading.
249S. Introduction to Science of Implementing Evidence-Based Practice. (4) Seminar, four hours. Requires: courses 200A, 200B. Designed to provide basic understanding and experience of implementing evidence-based practice. Through series of didactic teaching and interactive case discussions, introduction to integrated framework to understand key issues related to implementation of evidence-based practice and set of tools to apply evidence base to improving healthcare quality. Guest lecturers included who are nationally recognized authorities in their domain. Interactive discussion and case analyses based on materials closely related to lecture material. S/U or letter grading.

249T. Cost-Effectiveness Analysis. (4) Seminar, four hours. Requisite: course 249G. How to conduct uncertainty analyses, understand methods used to construct quality-adjusted life years (QALYs), conduct Markov analyses, critically analyze large-scale published cost-effectiveness analyses (CEAs), effectively present strengths and limitations of published CEAs to peers, and use advanced features of TreeAge software to analyze and CEA models, including Markov modeling.

250. Evolution of Health Professions in the 20th Century. (4) Lecture, two hours; discussion, two hours. During the 20th century there have been dramatic changes in composition of “helping” professions. Review forces responsible for these changes and description of processes by which lay persons are educated/socialized into major subgroups of health professions. Review of major social forces external to healthcare system that affect its composition. Letter grading.

251. Quality Improvement and Informatics. (4) Lecture, four hours. Requisites: course 100, Biostatistics 100A. Introduction to concepts of healthcare quality measurement, process improvement, and information systems, as well as organizational aspects of implementing them. Letter grading.

M252. Medicare Reform. (4) (Same as Public Policy M267.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Analytical and managerial skills learned earlier to be used to analyze problems with existing medicare program and to develop specific options for reforming features of program to accommodate coming pressures generated by retiree of baby-boom generation. Letter grading.

M253. Advanced Topics in Health Services Research: Access to Care. (4) (Same as Community Health Sciences M287.) Lecture, three hours. Requires: courses 237A, 237B, and 237C, or Community Health Sciences 210, 270A, and 270B. Doctoral seminar designed to explore health services research regarding access to healthcare and policies to enhance access. Topics include conceptual frameworks, measurement issues, study designs, analytic approaches, and substantive findings and trends in access and access-related policies. Letter grading.

254. Multidisciplinary Perspectives: Research Approaches to Managed Care. (4) Seminar, three hours. Requires: courses 100, or 200A and 200B. Exploration of perspectives and methodologies of noneconomic dimensions relevant to health services research. Scholars in each discipline introduce their framework and discuss applications to current research in managed care. Letter grading.

M255. Obesity, Physical Activity, and Nutrition Seminar. (4) (Same as Community Health Sciences M234.) Seminar, three hours; outside study, one hour. Designed for graduate students. Multidisciplinary introduction at graduate level to epidemiology, physiology, and current state of preventive and therapeutic interventions for obesity in adults and children, including public health policy approaches to healthy nutrition and physical activity promotion. S/U or letter grading.

260A-260B. World Health. (2-2) Lecture, two hours. Designed for graduate students. Overview of world health, with emphasis on healthcare outside the U.S. Key areas include burden of infectious diseases, health economics, and impact of healthcare policy on healthcare delivery. In Progress (260A) and letter (260B) grading.

265. Challenges in Clinical Health Services Research. (4) Lecture, four hours. Requisites: courses 200A, 200B. Designed to prepare students for challenges involved in conducting health services research on clinical topics and populations. Topics include formulating appropriate questions, identifying sources, mechanism of conducting field studies, identifying funding sources, writing grants, and publishing findings. S/U or letter grading.

265A-265B. Community-Based Participatory Health Research: Methods and Applications. (4-4) Lecture, one hour; discussion, one hour; fieldwork, two hours. Limited to clinical scholars fellows. Mentoring of field experiences with introduction to critical issues in conducting research in community settings. Review of assignments, interventions, and evaluation designs for community settings and discussion of policy issues in partnering with communities. Letter grading.

M269. Healthcare Policy and Finance. (4) (Same as Public Policy M269.) Seminar, three hours; outside study, nine hours. Exploration of health and healthcare insurance, policies for public medicine (Medicaid and Medicare), uninsured, and health insurance reform. Examination of effects of managed care on health and costs, consumer protection movement, and rise of competitive healthcare markets. Letter grading.

M274. Health Status and Health Behaviors of Racial and Ethnic Minority Populations. (4) (Same as Psychology M274.) Lecture, two hours; discussion, one hour. Limited to graduate students. Overview of physical and mental health behaviors and status of major racial/ethnic groups in the U.S. Where appropriate, discussion of international issues as well. S/U or letter grading.

286. American Political Institutions and Health Policy. (4) Lecture, three hours; discussion, one hour. To effectively participate in policy process as analyst, policymaker, advocate, or citizen, it is necessary to understand institutional and political context within which policy is made. Introduction to federal and state policy-making, with focus on health policy. Discussion of federalism and constitutionalism. Examination of stake-holders, public, interest groups, and nature of issues space for health policy. Structure and process of political institutional at federal level, Congress, President, executive agencies, courts, and administrative law. State responsibilities and federal/state relations. How analysis enters policy process with examination of roles of federal analytic agencies and private research and advocacy groups. Letter grading.

M287. Politics of Health Policy. (4) (Same as Community Health Sciences M287.) Lecture, three hours; discussion, one hour. Requisites: courses 200A and 200B, or Community Health Sciences 210. Examination of politics of health policy process, including effects of political structure and institutions; economic and social factors; interest groups, classes, and social movements; media and public opinion; and other factors. Letter grading.

288. Role and Impact of Technology on Health Services. (4) Lecture, four hours. Examination of role and impact of technology on health services in the U.S. from point of view of system itself. Examination of various types of technology for their policy, economic, and organizational impact. S/U or letter grading.

289. Healthcare Disparities. (4) Seminar, three hours. Limited to graduate students. Exploration of what constitutes and explains disparity in healthcare. Emphasis on understanding history of disparities in U.S. to understand current state of disparities, and on evaluating effectiveness of ongoing strategies to eliminate them, such as increasing insurance coverage and delivery of culturally competent healthcare. Examination of sociological models that explain disparities in healthcare and evaluation and expansion on these models.

401. Public Health Informatics. (4) Lecture, three hours. Preparation: general familiarity and understanding of basic information technologies. Recommended requisite: course 251. Introduction to field of public health informatics and design to project planning and development to system implementation. Entire process, from systems conceptualization and design to project planning and development to system implementation. Letter grading.

M411. Issues in Cancer Prevention and Control. (4) (Same as Community Health Sciences M411.) Lecture, four hours. Designed for juniors/seniors and graduate students. Introduction to causes and characteristics of cancer epidemic, cancer control goals for nation, and interventions designed to encourage smoking cessation/prevention, cancer screening, and other dietary, psychosocial, and lifestyle changes. Letter grading.

M420. Children with Special Healthcare Needs: Systems Perspective. (4) (Same as Community Health Sciences M420 and Social Welfare M290.) Lecture, three hours; fieldwork, one hour. Examination and evaluation of principles, policies, programs, and practices that have evolved to identify, assess, and meet special needs of infants, children, and adolescents with developmental disabilities or chronic illness. Letter grading.

M428. Child and Family Health Program Community Leadership Seminar. (2) (Same as Community Health Sciences M428.) Seminar, two hours. Designed for graduate students. Examination of characteristics of community-based organizations (CBOs) and role of leadership in decision-making process involved in major issues facing maternal and child health in Los Angeles County. Focus on specific leadership competencies that are or should be employed by organizations effectively serving maternal and child health programs and policies (or any population-level policies and programs). Leaders from CBOs in Los Angeles meet with students, comment on their practices and experiences, and underscore community leadership concepts demonstrated by those CBOs. S/U grading.
430. New Developments in E-Health and Internet. (4) Lecture, four hours. Introduction of new technologies in healthcare e-commerce/internet/new media arena, with emphasis on general background, review of applications, and discussion of organizational and managerial issues dealing with successful use and implementation of technologies. S/U or letter grading.

431. Managerial Processes in Health Services Organizations. (4) Lecture, one hour; laboratory, three hours. Requisites: courses 100, 234. Managerial skills and behaviors applied to components of organizations at several levels: individual, interpersonal, group, inter-group, system, and inter-organization. Unique features of health services organizations are stressed as applications are presented. Letter grading.

432. Integrative Seminar: Health Services Management. (4) Seminar, four hours. Requisite: course 431. Residents and preceptors are responsible for presenting cases of actual administrative problems for solution by teams of students and faculty. S/U or letter grading.

434. Employer/Employee Health Management. (4) Lecture, two hours; discussion, two hours. Preparation: a combination of three graduate courses in health planning, hospital finance, health policy, health insurance, occupational health, health services research, and health information systems. Requisite: course 100. Preview and analysis of how employer and employee groups provide, sponsor, and manage health-related services for others. S/U or letter grading.

438. Issues and Problems of Local Health Administration. (4) Lecture, three hours. Preparation: one health services course. Requisite: course 100, Epidemiology 100. Overview of administrative issues currently faced by local health departments, including providing public health programs during fiscal constraint, quality improvement, interagency relationships and partnerships, and political and public interactions. Letter grading.

439. Dental Care Administration. (4) Lecture, three to four hours. Requisites or corequisites: Biostatistics 100A, Epidemiology 100. In-depth examination of several specific dental care policy issues: manpower, relationship of treatment to disease, national health program strategies, and evaluation mechanisms. Letter grading.

440B. Health Information Systems: Organization and Management. (4) Lecture, two hours; laboratory, three hours. Requisite: course 440A. Health and administrative research using clinical records. Principles of planning for routine and special studies. Individual investigation in methods of obtaining and processing data to meet needs of programs in institution and agency. Introduction to principles of medical auditing; analysis of medical and health services. S/U or letter grading.

441. Ambulatory Care in the U.S. (4) Seminar, three hours. Requisites: courses 200A, 200B, 403. Management 403. Introduction to organization and management concepts, problems, and issues in ambulatory health services, including financial management and information systems requirements. Letter grading.

443A. Biological and Social Bases of Prevention. (4) Lecture, two hours; discussion, two hours. Requisites: courses 100 (or 200A and 200B), Biostatistics 100A, Epidemiology 100. Designed for graduate students. Exploration of development, current status, and potential of preventive medicine in public health practice, focusing on risk indicator approach (exercise, alcohol, stress, etc.), with consideration of program settings, delivery problems, and issues. Letter grading.

444. Applied Methodology in Health Planning. (4) Lecture, three hours; fieldwork, four hours. Requisites: courses 200A, 200B. Demonstration of methodology of health planning by involving students in formulation of actual health plan for existing agency in Los Angeles area. Letter grading.

447. State Health Policy Issues. (4) Seminar, three hours. Requisite: course 238. Focus on health policy development and implementation at state government level, with emphasis on financing, direct provision, and regulation of healthcare services, facilities, equipment technology, and manpower. Exploration of inter-governmental relationships. S/U or letter grading.

447E. Health Insurance Principles and Programs. (4) Lecture, four hours; preparation: one health services course. Requisites: courses 100, 232. Examination of social, actuarial, and commercial assumptions underlying private health insurance. Comparison with government-sponsored health insurance. Analysis of diversity of voluntary medical care insurance plans under different sponsorships and with varied scopes of coverage and benefits and their implications for public and private medical care developments. S/U or letter grading.

M449A-M449B. Child Health, Programs, and Policies. (4-4) (Same as Community Health Sciences M436A-M436B.) Lecture, four hours. Requisite: course 100. Course M449A is requisite to M449B. Examination of history of child health policy trends and determinants of health, structure, and function of health service system; needs, programs, and policies affecting especially at-risk populations. Letter grading.

501. Cooperative Program. (2 to 8) Tutorial, to be arranged. Preparation: consent of UCLA graduate advisor and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. No more than 8 units may be applied toward master's degree minimum total course requirement; may not be applied toward minimum graduate course requirement. S/U grading.

596. Directed Individual Study or Research. (2 to 8) Tutorial, to be arranged. Limited to graduate students. Individual guided studies under direct faculty supervision. Only 4 units may be applied toward M.P.H. and M.S. minimum total course requirement. May be repeated for credit. S/U grading.

597. Preparation for Master's Comprehensive or Doctoral Qualifying Examinations. (2 to 12) Tutorial, to be arranged. Limited to graduate students. May not be applied toward any degree course requirements. May be repeated for credit. S/U grading.

598. Master's Thesis Research. (2 to 8) Tutorial, to be arranged. Only 4 units may be applied toward M.P.H. and M.S. minimum total course requirement; may not be applied toward minimum graduate course requirement. May be repeated for credit. S/U grading.

599. Doctoral Dissertation Research. (2 to 12) Tutorial, to be arranged. May not be applied toward any degree course requirements. May be repeated for credit. S/U grading.

Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. No more than 8 units may be applied toward master's degree minimum total course requirement; may not be applied toward minimum graduate course requirement. S/U grading.

596. Directed Individual Study or Research. (2 to 8) Tutorial, to be arranged. Limited to graduate students. Individual guided studies under direct faculty supervision. Only 4 units may be applied toward M.P.H. and M.S. minimum total course requirement. May be repeated for credit. S/U grading.

597. Preparation for Master's Comprehensive or Doctoral Qualifying Examinations. (2 to 12) Tutorial, to be arranged. Limited to graduate students. May not be applied toward any degree course requirements. May be repeated for credit. S/U grading.

598. Master's Thesis Research. (2 to 8) Tutorial, to be arranged. Only 4 units may be applied toward M.P.H. and M.S. minimum total course requirement; may not be applied toward minimum graduate course requirement. May be repeated for credit. S/U grading.

599. Doctoral Dissertation Research. (2 to 12) Tutorial, to be arranged. May not be applied toward any degree course requirements. May be repeated for credit. S/U grading.
Scope and Objectives

History is the study of the past of our own society and how it emerged out of the traditions that produced it. At the same time, self-knowledge for students of history comes not only from self-discovery, but from a comparison of their own tradition and experience with those of others. It is only by studying the history of other civilizations and cultures that we can hope to gain perspective on our own.

The course offerings in history at UCLA are designed to bring about an understanding of the forces that have shaped the many cultures of this country and the world. UCLA has one of the largest, most distinguished, and most diverse history faculties in the country. Its main emphasis is on the many aspects of social history, but intellectual, cultural, and political history are also strongly represented.

Of all undergraduate majors, History is probably the most flexible and far-reaching. Leading to a Bachelor of Arts degree, it is excellent preparation for a wide variety of careers — law, teaching, business, the communications media, public services, and medicine.

The graduate program leads to the Ph.D. degree in History (a master's degree may be earned in the process of completing Ph.D. requirements). Traditionally, the M.A. and Ph.D. in History have led to careers in high school, college, and university teaching. Increasingly, they are also being put to use in government service, international business, museum and archival work, and journalism.

Undergraduate Study

History B.A.

The History Department's undergraduate program consists of 16 courses in history (six lower division — the Preparation for the Major, including the premajor requirements; 10 upper division — the Major). All courses must be taken for a letter grade.

Preparation for the Premajor and Major

Required for the Premajor: Three courses, including two in Western civilization (History 1A, 1B, 1C) or two in world history (courses 20, 21, 22), and one course from 96W or 97A through 97O.

After completing the three courses with a minimum grade-point average of 2.0, students should petition to enter the major at the undergraduate counselor's office in 6248 Bunche Hall.

Required for the Major: Three additional lower division history courses.

Transfer Students

Transfer applicants to the History major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one semester or two quarters of history of Western civilization or world history, one historical practice course, and three additional lower division history courses.

Transfer credit for the premajor courses is subject to department approval. Transfer students should consult the undergraduate counselor before enrolling in any courses for the major.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Required: At least 10 upper division history courses, including (1) two courses in U.S. history, (2) two courses in non-Western history from the same area (i.e., Latin America, Asia, Near East, Africa), (3) two courses in European history or in history of science, and (4) History 191.

The requirements for U.S., non-Western, and European history may be fulfilled with either upper or lower division courses, but majors are required to take a minimum of 10 upper division history courses.

There is no language requirement for the major; however, students wishing to enter the honors program or planning to do graduate work in history are urged to pursue language study early in their undergraduate careers.

Advanced Placement Credit in History

Effective Fall Quarter 2002 for entering freshmen, no course credit is granted for any AP Test.
Honors Program
The honors program is designed for History majors who are interested in completing a year-long research project that culminates in an honors thesis. A 3.5 departmental grade-point average is required for admission. To graduate with departmental honors, students must have a cumulative or overall GPA of at least 3.0 in all University-level coursework and at least a 3.5 GPA in all coursework required for the major.

The honors thesis must be completed in three terms, on the basis of work carried out in History 198A, 198B, and 198C. Students must register their intention to undertake an honors thesis with the undergraduate affairs vice chair no later than Spring Quarter of their junior year.

When students register for honors, they must provide the undergraduate affairs vice chair with a two-paragraph description of their thesis project, which must be approved in writing by the faculty member who agrees to act as their adviser. The undergraduate affairs vice chair must also approve the proposed project in writing.

The faculty adviser is primarily responsible for guiding the thesis work to its completion and assigns grades for the honors courses after the thesis is complete. The honors thesis should be 40 to 60 pages in length and be based on primary source material. Determination of the level of honors awarded (no honors, honors, or highest honors) is made by the undergraduate affairs vice chair, acting in conjunction with the honors committee, at the end of the term in which the thesis is completed.

History of Science and Medicine Minor
The History of Science and Medicine minor is designed for students who wish to augment their major, perhaps in one of the sciences, with a series of courses that analyze the historical growth, impact, and significance of science and medicine in Western and world culture.

The minor consists of a choice of lower division courses that expose students to overviews of science and medicine in large time periods or to specific thematic concerns. Upper division courses offer more focused and often smaller classes that explore crucial episodes or areas with a more rigorous and sophisticated content and methodology.

To enter the minor, students must be in good academic standing (2.0 grade-point average), have completed 45 units and at least one lower division course in the history of science or medicine for a letter grade, and file a petition with the minor adviser in 6265 Bunche Hall.

Required Lower Division Courses (12 units):
Three courses from History 2B, 2D, 3A through 3D, Philosophy 8.

Required Upper Division Courses (20 units):
Five courses from Anthropology 182, 183, History 179A through 180C, any upper division Honors Collegium courses with history of science or history of medicine content, Neurobiology M168 (or Physiological Science M168), Philosophy 124.

Each year certain undergraduate seminars in the History 191 sequence are designated as applicable to the upper division minor requirements. Students may also petition to have other relevant courses, including those from other departments, applied toward the upper division requirements.

At least one upper division course, to be selected and approved in consultation with the undergraduate or faculty adviser, must involve writing a research or interpretative paper of significant length and intellectual content. No more than one upper division course may be applied toward both this minor and a major or minor in another department or program. Transfer credit for courses may be subject to departmental approval.

One course may be taken on a Passed/Not Passed basis; all other minor courses must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of History offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in History.

History
Lower Division Courses
1A-1B-1C. Introduction to Western Civilization. (5-5-5) Lecture, three hours; discussion, two hours. Broad, historical study of major elements in Western heritage from the world of the Greeks to that of the 20th century, designed to further beginning students’ general education, introduce them to ideas, attitudes, and institutions basic to Western civilization, and acquaint them, through reading and critical discussion, with representative contemporary documents and writings of enduring interest. P/NP or letter grading.

1A. Ancient Civilizations from Prehistory to Circa A.D. 843; 1B. Circa A.D. 843 to Circa 1715; 1C. Circa 1715 to the Present.

1A-H1B-H1C. Introduction to Western Civilization (Honors). (5-5-5) Lecture, three hours; discussion, two hours. Honors sequence parallel to courses 1A, 1B, 1C. P/NP or letter grading. 1A-H. Ancient Civilizations from Prehistory to Circa A.D. 843 (Honors); 1B-H. Circa A.D. 843 to Circa 1715 (Honors); 1C-H. Circa 1715 to the Present (Honors).

2A. Power, Ethics, and Technological Change. (4) Lecture, three hours; discussion, two hours. Examination of historical and theoretical relationships between ethical behavior, corporate power, and technological change. Topics include engineering practice and business profits, gender and engineering cultures, product liability and consumer safety, and engineering and computer ethics. History of science studies include Three Mile Island, Chernobyl, the DC-10, and Challenger Disaster. P/NP or letter grading.

2B. Social Knowledge and Social Power. (5) Lecture, three hours; discussion, two hours. History of social knowledge and social power in the 19th and 20th centuries. Everyday ideas and practices about human nature, common sense, and community and relation of those practices to social thought, social engineering, and social science. Themes include development of social knowledges through public activities and courses, how social knowledge differs in agricultural, mercantile, industrial, and information-based political economies, and how social science addresses these issues. P/NP or letter grading.

2C-2D. Religion, the Occult, and Science. (5-5) Lecture, three hours; discussion, two hours. P/NP or letter grading.

2C. Mystics, Heretics, and Witches in Western Tradition, 1000 to 1600. (5) Lecture, three hours; discussion, two hours. Specific aspects of elite and popular culture in medieval and early modern Europe. Manner in which men and women sought to explain, order, and escape terrors of their lives by embracing transcendent religious experiences and dreaming of apocalypse and witchcraft. Examination of experiences in context of genesis of the state, birth of a new science, and economic and social change. P/NP or letter grading.

2D. Science, Magic, and Religion, 1600 to the Present. (5) Lecture, three hours; discussion, two hours. Science and religion as historical phenomena that have evolved over time. Examination of earlier mindset before 1700 when into science fitted elements that came eventually to be seen as magical. How Western cosmologies became “disenchanted.” Magical tradition transformed into modern mysticisms. Political implications of these movements; science in totalitarian settings as well as “big science” during the Cold War. Discussion of anti-science and cult movements. P/NP or letter grading.

3A-3B-3C. Introduction to History of Science. (5-5-5) Lecture, three hours; discussion, two hours. History majors may not apply these courses on science general education requirements. P/NP or letter grading.

3A. Scientific Revolution. (5) Lecture, three hours; discussion, two hours. Survey of beginnings of physical sciences involving transformation from Aristotelian to Newtonian cosmology, mechanization of natural world, rise of experimental science, and origin of scientific societies. P/NP or letter grading.

3B. History of Science from Newton to Darwin. (5) Lecture, three hours; discussion, two hours. In this period science became part of Enlightenment campaign for reason and of culture of an Industrial Revolution. New social science and evolutionary debates about science and religion demonstrate its rising intellectual and practical significance. P/NP or letter grading.

3C. History of Modern Science, Relativity to DNA. (5) Lecture, three hours; discussion, two hours. Range from startling new physics of relativity and the quantum, and of nuclear weapons, to molecular reductionism in biology and campaigns for statistical objectivity, examination of involvement of science in technologi cal, military, intellectual, and political changes of the 20th century. P/NP or letter grading.

3CH. Introduction to History of Science: History of Modern Science, Relativity to DNA (Honors). (5) Lecture, three hours; discussion, two hours. Honors course parallel to course 3C. P/NP or letter grading.
3D. Themes in History of Medicine. (5) Lecture, three hours; discussion, two hours. Examination, through illustrated lectures and focused discussion of primary sources, of five important themes in development of modern medicine: nature of diagnosis, emergence of surgery, epidemics, conception and treatment of insanity, and use of medical technology. P/NP or letter grading.

4. Introduction to History of Religions. (5) Lecture, three hours; discussion, two hours. Discussion of various systems, ideas, and fashions of thought that have dominated and shaped religions of the modern world since antiquity. Survey of development from classical Greek and early Christian theories to modern history with its discoveries of religions of India, China, ancient Near East, etc., and problem of encounter of various religions in the 19th and 20th centuries. P/NP or letter grading.

8A. Colonial Latin America. (5) Lecture, three hours; discussion, two hours. General introduction to Latin American history from contact period to independence (1490s to 1820s), with emphasis on convergence of Native American, European, and African cultures in Latin America; issues of ethnicity and gender; development of colonial institutions and societies; and emergence of local and national identities. Readings focus on writings of Latin American men and women from the period studied. P/NP or letter grading.

8AH. Colonial Latin America (Honors). (5) Lecture, three hours; discussion, two hours. Honors course parallel to course 8A. P/NP or letter grading.

8B. Political Economy of Latin American Underdevelopment. (5) Lecture, three hours; discussion, two hours. Interaction of precapitalist and modern modes of social organization in Latin American history, particularly during the long 19th century, by focusing on relationship between economic change, social and cultural structures, and politics in the region. P/NP or letter grading.

8BH. Political Economy of Latin American Underdevelopment, 1750 to 1930 (Honors). (5) Lecture, three hours; discussion, two hours. Honors course parallel to course 8B. P/NP or letter grading.

8C. Latin American Social History. (5) Lecture, three hours; discussion, two hours. Historical and contemporary perspective of role of ordinary people in Latin American society. Each lecture/session centers on a major Latin American movie illustrative of a theme in social history. P/NP or letter grading.

8CH. Latin American Social History (Honors). (5) Lecture, three hours; discussion, two hours. Honors course parallel to course 8C. P/NP or letter grading.

9A-9E. Introduction to Asian Civilizations. (5-9) Lecture, three hours; discussion, two hours. P/NP or letter grading.

9A. History of India. (5) Lecture, three hours; discussion, two hours. Introductory survey for beginning students of major cultural, social, and political ideas, traditions, and institutions of Indic civilization. P/NP or letter grading.

9B. History of China. (5) Lecture, three hours; discussion, two hours. Survey of Chinese history from earliest recorded time to the present, with emphasis on development of Japan as a cultural daughter of China. Attention to manner in which Chinese culture was Japanese and aspects of Japanese civilization which became unique. Creation of the modern state in the last century and impact of Western civilization on Japanese culture. Each lecture/session centers on a major Latin American movie illustrative of a theme in social history. P/NP or letter grading.

9C. History of Japan (Honors). (5) Lecture, three hours; discussion, two hours. Honors course parallel to course 9A. P/NP or letter grading.

9D. History of the Near and Middle East. (5) Lecture, three hours; discussion, two hours. Introduction to history of Arabia, non-Arabic peoples and themes in development of modern medicine: nature of diagnosis, emergence of surgery, epidemics, conception and treatment of insanity, and use of medical technology. P/NP or letter grading.

9E. Southeast Asian Crossroads. (5) Lecture, three hours; discussion, two hours. Overview of a region rich in history and diverse by great religious, cultural and political pluralism, with focus on Vietnamese, Thai, Filipino, Khmer, Burmese, and Malayo-Indonesian patterns. P/NP or letter grading.

9F. History of Africa. (5-5) P/NP or letter grading. M10A. To 1800. (Same as Afro-American Studies M10A.) Lecture, three hours; discussion, one hour. Exploration of development of African societies from emergence in 18th century. To 1800. To Present. Lecture, three hours; discussion, two hours. Not open for credit to students with credit for course 106 or 108W. Survey of social, economic, and political developments from slave trade, imperialism and colonialism, and nationalism and independence. Attention to different ideologies (nationalism, socialism, apartheid), rural/urban tensions, changing role of women. 108B. Introduction to Civilizations of Africa (Honors). (4) Lecture, three hours; discussion, two hours. Not open for credit to students with credit for course 105 or 106W. Honors course parallel to course 106. P/NP or letter grading.

105B. Introduction to Civilizations of Africa since 1800. (5) Lecture, three hours; discussion, two hours. Forbidding requisite: English Composition 3 or English Language and Literature 36. To credit it to students with credit for course 106W. Survey of social, economic, and political developments in Africa since 1800, with focus on slave trade, imperialism and colonialism, and nationalism and independence. Attention to different ideologies (nationalism, socialism, apartheid), rural/urban tensions, changing role of women. Four papers required. Satisfies Writing II requirement. Letter grading.

11A-11B. History of China (Honors). (5-5) Lecture, three hours; discussion, two hours. P/NP or letter grading. 11A. To 1000. Survey of early history of China — genes of characteristic Chinese institutions and modes of thought from antiquity to 1000. Focus on social, political, intellectual, and economic aspects of early and middle eras. 11B. 1000 to 1950. Survey of later history of China — evolution of characteristic Chinese institutions and modes of thought from 1000 to 1950. Focus on social, political, intellectual, and economic aspects of late empires and rise of modern China in contemporary era. 11AH-11BH. History of China (Honors). (5-5) Lecture, three hours; discussion, two hours. Honors sequence parallel to courses 11A, 11B. P/NP or letter grading. 11AH. To 1000 (Honors); 11BH. 1000 to 1950 (Honors).

12A. World History. (5) Lecture, three hours; discussion, two hours. Examination of earliest civilizations of Asia, North Africa, and Europe — Mesopotamia, Egypt, Israel, India, China, Greece, and Rome — from development of settled agricultural communities until about A.D. 500, with focus on rise of cities, organization of society, nature of kingship, writing and growth of bureaucracy, varieties of religious expression, and linkage between culture and society. P/NP or letter grading.

21. World History, Circa 600 to 1760. (5) Lecture, three hours; discussion, two hours. Outline of world history from rise of Islam to start of Industrial Revolution, structured around chronological narrative of salient developments. Use of thematic and comparative approaches, with certain recurring themes and institutions that modulate from culture to culture. Readings will vary depending on content of syllabus. Culminating project may be required. P/NP or letter grading.

22. Contemporary World History, 1760 to the Present. (5) Lecture, three hours; discussion, two hours. Broad overview of the world since the mid-18th century. Examination, through lecture and discussion, of global implications of imperialism, total war, nationalism, cultural change, decolonization, changes in women’s rights and roles, and eclipse of western Europe. Designed to introduce students to historical study, help them understand issues and dilemmas facing the world today, and prepare them for more in-depth work in history of specific regions or countries of the world. P/NP or letter grading.

87P. Sophomore Seminars: History. (4) Seminar, three hours. Limited to maximum of 20 lower division students. Readings and discussions designed to introduce students to historical study. Culminating project may be required. P/NP or letter grading.

88G. Sophomore Seminar: Special Topics in History. (5) Seminar, four hours. Requisite: designated GE lecture course; see Schedule of Classes for specific requisite lecture and seminar topics. Designed for sophomores/juniors. Exploration of aspects of lecture topic through readings, images, and discussions. P/NP or letter grading.

95. History Research Methods and Strategies. (1) Seminar, one hour. Development of competency with identifying, locating, critically evaluating, and using information in print and on-line formats. Flow of information in variety of disciplines, how to approach research problems systematically, how to access and evaluate information in variety of formats, and how to formulate effective searches and search in electronic databases and on internet. P/NP or letter grading.

96W. Introduction to Historical Practice. (5) Seminar, three hours. Enforced requisite: English Composition 3 or English as a Second Language 36. Not open for credit to students with credit for former course 99W. Introduction to study of history, with emphasis on historical theory and research methods. Satisfies Writing II requirement. Letter grading.

97. Historical Practices Adjunct Seminar. (1) Seminar, one hour. Corequisite: any course from History 97A through 97O. Limited to History majors. Exploration of topics covered in courses 97A through 97O in greater depth through supplemental readings, discussions, or other activities. P/NP grading.

97A-97O. Introduction to Historical Practice: Variable Topics. (4 each) Seminar, three hours. Discussion classes of no more than 15 students. Introduction to topics of history reflected by historical theory and research methods. Variable topics courses; consult Schedule of Classes for topics to be offered. P/NP or letter grading. 97A. Ancient History; 97B. Medieval History; 97C. European History; 97D. U.S. History; 97E. Latin American History; 97F. Near Eastern History; 97G. East Asian History; 97H. Science of Technology/Science; 97J. African History; 97K. History of Religion; 97L. Jewish History; 97M. Southeast Asian History; 97N. Indian History; 97O. World History.

Upper Division Courses

100. History and Historians. (4) Lecture, three hours; discussion, one hour (scheduled). Designed for juniors/seniors. Study of historiography, including intellectual processes by which history is written, results of these processes, and sources and development of historical interpretations. A prerequisite to representative historians. P/NP or letter grading.

101. Topics in World History. (4) Lecture, three hours; discussion, one hour (scheduled). Designed for juniors/seniors. Examination of specific historical themes from world historical perspective. May be repeated for maximum of 16 units with topic and/or instructor change. P/NP or letter grading.

102. Explorations in Psychoanalysis and History. (4) Lecture, three hours; discussion, one hour (scheduled). Designed for juniors/seniors. Examination of specific historical themes from psychoanalytic perspective; assessment of recent writings in field of psychohistory.
108A. History of North Africa from Islamic Conquest. (4-4) (Formerly numbered 109B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of political, social, economic, and religious history of Islamic West (Maghrib) from Muslim conquest in the 7th and 8th centuries C.E. until 1576. P/NP or letter grading.

108B. History of Islamic Iberia. (4) (Formerly numbered 108B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of political, social, economic, religious, artistic, and literary history of Iberian culture in Western Europe. P/NP or letter grading.

108C. Culture Area of Maghrib (North Africa). (4) (Same as Anthropology M171P.) Lecture, three hours. Designed for juniors/seniors. Introduction to North Africa, especially Morocco, Algeria, Tunisia, and Libya, also known as Maghrib or Maghazga. Topics include changing notions of personal, tribal, ethnic, linguistic and religious identities; colonialism; gender and legal rights, changing representations of Islam, and religions in region’s public spaces. P/NP or letter grading.

109A. Early Modern State in Mediterranean. (4) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Exploration of main themes and processes of state formation in European and Mediterranean history. P/NP or letter grading.

109B. Palestine, Zionism, and Evolution of Israeli-Palestinian Conflict. (4) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Introduction to history of Zionist colonization, origins of Zionist and Palestinian nationalism, variations of Zionism, Zionism and colonialism, seminal events and their consequent symbolic connotations “Great Revolt” and 1948 nakba (disaster), construction of national consensus in Israel, 1967 and its aftermath, refitada, and redefinition of conflict as result of Oslo. P/NP or letter grading.

M110A-M110B-M110C. Iranian Civilization. (4-4-4) (Same as Ancient Near East M110A-M110B-M110C. Iranian Civilization. (4-4-4) (Formerly numbered 110A-110B-110C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Iran from Islamic rule to the present. Exploration of social history of Palestine up to Zionist colonization, origins of Zionism and Palestinian nationalism, variations of Zionism, Zionism and colonialism, seminal events and their consequent symbolic connotations “Great Revolt” and 1948 nakba (disaster), construction of national consensus in Israel, 1967 and its aftermath, refitada, and redefinition of conflict as result of Oslo. P/NP or letter grading.

M110B-M110B-M110C. Iranian Civilization. (4-4-4) (Same as Ancient Near East M110A-M110B-M110C and Iranian M110A-M110B-M110C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Iran from Islamic rule to the present. Exploration of social history of Palestine up to Zionist colonization, origins of Zionism and Palestinian nationalism, variations of Zionism, Zionism and colonialism, seminal events and their consequent symbolic connotations “Great Revolt” and 1948 nakba (disaster), construction of national consensus in Israel, 1967 and its aftermath, refitada, and redefinition of conflict as result of Oslo. P/NP or letter grading.

110A. Ancient Egypt. (4) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of political, economic, artistic, and cultural history of Ancient Egypt and ideas on which they were based. P/NP or letter grading.

110B. Ancient Mesopotamia and Syria. (4) (Formerly numbered 105.) (Same as Ancient Near East 105B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Introduction to Middle East archaeology in North America, particularly to the Near East. Some attention to monuments and churches of medieval and Renaissance Rome in their historical context. Part of UCLA Summer Travel Program. P/NP or letter grading.

111A-111B-111C. History of Ancient Greece. (4-4-4) (Formerly numbered 116A-116B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

111A. Topics in Ancient History. (4) (Formerly numbered 111A-111B-111C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

111B. Greek and Roman History. (4) (Formerly numbered 111A-111B-111C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

111C. History and Monuments of Rome: Field Studies. (4) (Formerly numbered 115E.) Fieldwork, three hours. Enforced corequisite: course 112C. Examination of history, art, and monuments of ancient Rome through daily lectures and field trips to museums and archaeological sites. Field trips outside Rome to Pompeii, Hadrian’s Villa, and ancient Ostia. Some attention to monuments and churches of medieval and Renaissance Rome in their historical context. Part of UCLA Summer Travel Program. P/NP or letter grading.

112A. History of Ancient Meditteranean World. (4-4-4) (Formerly numbered 112A.) Lecture, three hours; discussion, one hour (when scheduled). Designed for seniors. P/NP or letter grading.

112B. Palestine, Zionism, and Evolution of Israeli-Palestinian Conflict. (4) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Introduction to history of Zionist colonization, origins of Zionism and Palestinian nationalism, variations of Zionism, Zionism and colonialism, seminal events and their consequent symbolic connotations “Great Revolt” and 1948 nakba (disaster), construction of national consensus in Israel, 1967 and its aftermath, refitada, and redefinition of conflict as result of Oslo. P/NP or letter grading.

112C. History of Ancient Mediterranean World. (4-4-4) (Formerly numbered 112A-112B-112C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

112D. History of the Ancient Near East. (4) (Formerly numbered 112D.) Fieldwork, three hours. Enforced corequisite: course 112C. Examination of history, art, and monuments of ancient Rome through daily lectures and field trips to museums and archaeological sites. Field trips outside Rome to Pompeii, Hadrian’s Villa, and ancient Ostia. Some attention to monuments and churches of medieval and Renaissance Rome in their historical context. Part of UCLA Summer Travel Program. P/NP or letter grading.

113A. History of the Ancient Near East. (4) (Formerly numbered 113.) Lecture, three hours; discussion, one hour (when scheduled). Designed for seniors. P/NP or letter grading.

113B. Persian Empire. (4) (Formerly numbered 110A-110B-110C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for seniors. P/NP or letter grading.

113C. Roman Empire. (4) (Formerly numbered 110A-110B-110C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for seniors. P/NP or letter grading.

114A-114B-114C. History of Rome. (4-4-4) (Formerly numbered 117A-117B-117C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

114A. Introduction to Medieval Studies. (4) (Formerly numbered 114A.) Lecture, three hours; discussion, one hour (when scheduled). Designed for seniors. P/NP or letter grading.

114B. Byzantine History and Monuments: Field Studies. (4) (Formerly numbered 115A-115B.) Lecture, three hours; discussion, one hour (when scheduled). Requisites: courses 111A, 111B. Enforced corequisite: course 112C. Study of relations of authority and intelligentsia in highly centralized Byzantine Empire. Topics include economic and sociopolitical structures, dynamics of society, intellectual freedom, attempts at reform. Letter grading.

135A-135B-135C. Europe and World. (4-4-4) (Formerly numbered 140A-140B-140C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

135A. Exploration and Conquest, 1400 to 1700. (4) (Formerly numbered 140A.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. First phase of European expansion in Americas, Africa, and Eurasia. Analysis of motives and methods of expansion, differing patterns of European settlement, including plantation economy, and development of new commercial networks, including Atlantic slave trade. P/NP or letter grading.

135B. Colonialism, Slavery, and Revolution, 1700 to 1870. (4) (Formerly numbered 140B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Origins and gradual increase of European dominance of world trade, impact of European colonialism in New World, Africa, and Asia, influence of new revolutionary ideals that took shape in wake of Enlightenment of the 18th century, and beginnings of industrialization. P/NP or letter grading.

135C. Imperialism and Postcolonialism, 1870 to the Present. (4) (Formerly numbered 140C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of major European events and trends and their impact on world in modern period. Interrelationship of European and world history, from partition of Africa to founding of India and Pakistan. Global consequences of imperialism and new place of Europe in world. P/NP or letter grading.

136A-136B-136C. History of Britain. (4-4-4) (Formerly numbered 141A-141B-141C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Political and economic development of British Empire, including evolution of colonial nationalist ideology, development of commonwealth idea, and changes in British colonial policy. P/NP or letter grading.

136B. Making of Modern Britain, 1715 to 1867. Social, economic, political, and cultural history of Britain from Hanoverian revolution in politics to advent of mass democracy in mid-Victorian era. Themes include social change under pressure of industrialization, emergence of first British Empire, loss of America, shifts in religious and social position. 136C. Modern Britain since 1832. 137A-137B. British Empire since 1783. (4-4) (Formerly numbered 142A-142B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Political and economic development of British Empire, including evolution of colonial nationalism, development of commonwealth idea, and changes in British colonial policy. P/NP or letter grading.
152. Asians in American History. (4) (Formerly numbered 161B.) Lecture; three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Study of politically troubling question of entry into the U.S. of immigrants ineligible for citizenship and their citizen children in American history. P/NP or letter grading.

153. American West. (4) (Formerly numbered 162B.) Lecture; three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Study of West as frontier and as region, in transit from Atlantic seaboard to California by 17th century to the present. P/NP or letter grading.

154. History of California. (4) (Formerly numbered 163B.) Lecture; three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Economic, social, intellectual, and political development of California from earliest times to the present. P/NP or letter grading.

155. History of Los Angeles. (4) (Formerly numbered M164.) (Same as Chicana and Chicano Studies M164E.) Lecture; three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Critical examination of African American search in first half of 20th century for national/gender identity. Focus on collectively built institutions, associations, organized protest movements, and ideological self-definition. P/NP or letter grading.

151A. History of Chicano Peoples. (4) (Formerly numbered M159A.) (Same as Chicana and Chicano Studies M159A.) Lecture; three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey lecture course on historical development of Mexican (Chicano) community and people of Mexican descent in U.S. through 20th century. Focus on major historical forces affecting community. Emphasis on social, economic, political, and cultural aspects. P/NP or letter grading.

151B. History of Chicano Peoples. (4) (Formerly numbered M159B.) (Same as Chicana and Chicano Studies M159B.) Lecture; three hours; discussion, one hour (when scheduled). Designed for seniors. Survey lecture course on historical development of Mexican (Chicano) community and people of Mexican descent in U.S. through 20th century. Focus on major historical forces affecting community. Emphasis on social, economic, political, and cultural aspects. P/NP or letter grading.

151C. Understanding Whiteness in American History and Culture. (4) (Formerly numbered M144.) (Same as Chicana and Chicano Studies M144B.) Lecture; three hours; discussion, one hour (when scheduled). Understanding whiteness and its role in history. History, construction, and representation of whiteness in American society. Readings and discussions trace evolution of the concept of whiteness and explore its significance to historical construction of race class in American history. Letter grading.

152A. Modern Brazil. (4) (Formerly numbered 173B.) Lecture; three hours; discussion, one hour (when scheduled). Designed for seniors. Exploration of colonial and 20th-century history of Brazil, with emphasis on modernization and social change. P/NP or letter grading.

152B. Brazil and Atlantic World, 1500 to 1822. (4) (Formerly numbered 174B.) Lecture; three hours; discussion, one hour (when scheduled). Designed for seniors. Exploration of colonial and Atlantic World history of Brazil, with emphasis on modernization and social change. P/NP or letter grading.

152C. History of Argentina. (4) (Formerly numbered 172B.) Lecture; three hours; discussion, one hour (when scheduled). Designed for seniors. History of political development of colonial Argentina, with emphasis on modernization and social change. P/NP or letter grading.

151A. Prehistoric Africa — Technological and Cultural Traditions. (4) (Formerly numbered M175A.) (Same as Anthropology M175A.) Lecture; three hours; discussion, one hour (when scheduled). Survey of prehistoric African cultures and technological and cultural traditions. P/NP or letter grading.

151B. Prehistoric Africa — Technological and Cultural Traditions. (4) (Formerly numbered M175B.) (Same as Anthropology M175B.) Lecture; three hours; discussion, one hour (when scheduled). Survey of prehistoric African cultures and technological and cultural traditions. P/NP or letter grading.

151C. Prehistoric Africa — Technological and Cultural Traditions. (4) (Formerly numbered M175C.) (Same as Anthropology M175C.) Lecture; three hours; discussion, one hour (when scheduled). Survey of prehistoric African cultures and technological and cultural traditions. P/NP or letter grading.
164E. Africa from 1945 to the Present. (4) (Formerly numbered 175E.) Lecture; three hours; discussion, one hour (when scheduled). Preparation: one prior course in African History at UCLA. Designated for ju-
niors/seniors. History of Africa south of Sahara from end of World War II to the present. Last phases of co-
lonial rule in Africa. African nationalism, Pan-African-
ism, liberation movements, and achievement of inde-
pendence. Political, social, and economic change in
colonies and in independent states of Africa. Neoco-
lonialism, experiments in national development, ap-
parted in South Africa, ideological conflict in con-
temporary Africa, and Africa in world affairs since 1957. P/NP or letter grading.

165. Topics in African History. (4) Lecture, three
hours; discussion, one hour (when scheduled). De-
signated for juniors/seniors. Examination of specific his-
torical themes and/or major issues in African history.
May be repeated for maximum of 16 units with topic
and/or instructor change. P/NP or letter grading.

166A-166B. History of West Africa. (4-4) (Formerly numbered 176A-176B.) Lecture, three hours; dis-
cussion, one hour (when scheduled). Designed for ju-
niors/seniors. P/NP or letter grading. 166A. West Af-
rica from Earliest Times to 1800; 166B. West Africa
since 1800.

166C. Social and Economic History of West Africa
since 1600. (4) (Formerly numbered 176C.) Lecture,
three hours; discussion, one hour (when scheduled).
Designed for juniors/seniors. Analysis of main cur-
rents of West African social, cultural, and economic
history since fall of Songhai Empire, with emphasis on
family, religious values, education, urbanization, mi-
grations, arts, slavery, and slave trade. Roles of eco-
nomic forces and institutions in promoting or inhibiting
economic change in West Africa; ethnic diversity and
sociopolitical integration; colonial economic systems
and efforts at economic planning and development since
the 1950s. P/NP or letter grading.

167A. History of Northeast Africa. (4) (Formerly
numbered 177.) Lecture, three hours; discussion, one
hour (when scheduled). Designed for juniors/seniors.
Survey of history of Ethiopia, Sudan, and Somalia in
regional context of northeast Africa from earliest
times to the present, with emphasis on economy and
society, evolution of state, and significance of Chris-
tianity and Islam. P/NP or letter grading.

167B. History of East Africa. (4) (Formerly
numbered 178A.) Lecture, three hours; discussion, one
hour (when scheduled). Designed for juniors/seniors.
Survey of history of East Africa from earliest times,
with emphasis on development of agriculture, growth
of trade, rise of states, and incorporation of region into
world economy. P/NP or letter grading.

168A-168B. History of Southern Africa. (4-4) (For-
merly numbered 179A-179B.) Lecture, three hours;
discussion, one hour (when scheduled). Designed for
juniors/seniors. Attention to social and economic as
well as political aspects. P/NP or letter grading. 168A.
From Origins to 1870. Origins of South African peo-
ple and their interactions to 1870. 168B. Since 1870.
Interactions between inhabitants of southern Africa
since 1870.

169A-169B. Thought and Society in China. (4-4) (For-
merly numbered 182A-182B.) Lecture, three
hours; discussion, one hour (when scheduled). De-
signated for juniors/seniors. P/NP or letter grading.

(Formerly numbered 183C.) Same as Women's Studies
M170C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for
juniors/seniors. Study of Bhakti or devotional traditions
in Hinduism, as well as media and arts, explored through
textual readings. P/NP or letter grading.

170D. 20th-Century China. (4) (Formerly numbered
184.) Lecture, three hours; discussion, one hour
(when scheduled). Designed for juniors/seniors.
Survey of political history since fall of Songhai Empire,
with emphasis on state, political change, and heterodox
values evolved and changed. Evalua-
tion of iconoclastm of Chinese intellectual life in the
20th century in light of earlier currents of thought.

170E. Modern China: 1949–2000. (4) (Formerly num-
ered 185B.) Lecture, three hours; discussion, one
hour (when scheduled). Designed for juniors/seniors.
Introduction to China's modern history from the end of
the 20th century in light of earlier currents of thought.

170F. Women's History in China, A.D. 1000 to
the Present. (4) (Formerly numbered 185C.) Same as
Women's Studies M170C.) Lecture, three hours;
discussion, one hour (when scheduled). Designed for
juniors/seniors. Study of Chinese women in Japanese
and world history through the 20th century. May be
repeated for maximum of 16 units with topic and/or in-
structor change. P/NP or letter grading.

171A. Chinese Popular Culture. (4) (Formerly
numbered 186A.) Lecture, three hours; discussion, one
hour (when scheduled). Designed for juniors/seniors.
Topics include women and family, women in Confucian
ideology, women in literature and culture, feminist move-
ment, and women and communist revolution. P/NP or
letter grading.

171B. Historical Perspectives on Chinese Women,
A.D. 1000 to the Present. (4) (Formerly numbered
186B.) Lecture, three hours; discussion, one hour (when
scheduled). Designed for juniors/seniors. Study of
women in Chinese history, at home and abroad, from
1000 to the 20th century. Emphasis on social, political,
and economic conditions within which Chinese orthodox
and heterodox values evolved and changed. Evalu-
uation of iconoclastm of Chinese intellectual life in the
20th century in light of earlier currents of thought.

171C. History of Women in China, A.D. 1000 to
1990s. (4) (Formerly numbered 186C.) P/NP or letter
grading. 171D. History of Women in China, 1000 to
1900. Recommended preparation: course 11B. Designed for
juniors/seniors. Age of glory under Imperial
Guptas and subsequent consolidation under Harsha
(north India) and Vakatakas, Chalukya, Pallava, and
Chola (central and south India); emergence of San-
skrit as Pan-Indian language; spread of Indian culture in

M187A. Global Feminism, 1850 to the Present. (4) (Same as Women’s Studies M168A.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Introduction to movements for women’s rights (educational, political, economic, sexual, and reproductive) around world and over one and one-half centuries. P/NP or letter grading.

188. Special Courses in History. (4) Lecture, three hours. Departmentally sponsored experimental or temporary courses, such as those taught by visiting faculty members. May be repeated for credit with top- ic change. P/NP or letter grading.

191A-191P. Undergraduate Variable Topics Research Seminars: History. (4) (Formerly numbered 197A-197O.) Seminar, three hours. Designed for juniors/seniors. Limited to 15 students meeting with faculty member. Organized on topics basis with reading, discussion, and development of culminating project. May be repeated once for credit. P/NP or letter grading.

191A. Ancient History; 191B. Medieval; 191C. Europe; 191D. U.S.; 191E. Latin America; 191F. Near East; 191G. East Asia; 191H. Science/Technology; 191I. Africa; 191K. Religion; 191L. Jewish History; 191M. Southeast Asia; 191N. India; 191O. World History; 191P. Historical Theory.

M191DC. CAPPP Washington, DC, Research Seminars. (8) (Same as Political Science M191DC and Sociology M191DC.) Seminar, four hours; laboratory, 24 hours. Limited to CAPPP Program students. Seminars for undergraduate students in Center for American Politics and Public Policy’s program in Washington, DC. Focus on development and execution of original empirical research based on experiences from Washington, DC-based field placements. Study of variety of qualitative methods (observation, interviewing, etc.). Emphasis on preparation for quantitative analysis. Examination of features of solid and significant research; intensive writing. Letter grading.

M194DC. CAPPP Washington, DC, Research Seminars. (4) (Same as Political Science M194DC and Sociology M194DC.) Seminar, three hours. Limited to CAPPP Program students in Winter Quarter. Seminars for undergraduate students in Center for American Politics and Public Policy’s program in Washington, DC. Focus on development and execution of original empirical research based on experiences from Washington, DC-based field placements. Study of variety of qualitative methods (observation, interviewing, etc.). Emphasis on preparation for quantitative analysis. Examination of features of solid and significant research; intensive writing. Letter grading.

195. Community or Corporate Internships in History. (4) Tutorial, three hours. Limited to juniors/seniors. Internship in supervised setting in community agency or business. Students meet on regular basis with instructor and provide periodic reports of their experience. May be repeated for credit. Individual contract with supervising faculty member required. P/NP grading.

M195DC. CAPPP Washington, DC, Internships. (4) (Same as Political Science M195DC and Sociology M195DC.) Seminar, four hours. Limited to junior/se- nior CAPPP Program students. Internships in Washing- ton, DC, through Center for American Politics and Public Policy. Students meet on regular basis with instructor and provide periodic reports of their experience. Individual contract with supervising faculty member required. P/NP grading.

197. Individual Studies in History. (4) Tutorial, three hours. Limited to juniors/seniors. Individual in- tensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract with supervising faculty member required. P/NP grading.

198. Honors Research in History. (4) Tutorial, to be arranged. Course 198A is requisite to 198B, which is requisite to 198C. Limited to juniors/seniors. Development of honors thesis or comprehensive research project under direct supervision of faculty member. May be repeated for maximum of 16 units. Individual contract required. Letter grading.

198B. Honors Research in History. (4) Tutorial, to be arranged. Requisite: course 198A. Limited to ju- niors/seniors. Continued development of honors the- sis or comprehensive research project under direct supervision of faculty member. May be repeated for maximum of 16 units. Individual contract required. Letter grading.

Graduate Courses

200A-200U. Advanced Historical Geography. (4 each) Seminar, three hours. May be repeated for credit.

M200V. Advanced Historical Geography: Afro-Ameri- can. (4) (Same as Afro-American Studies M200A.) Seminar, three hours. May be repeated for credit.

M200W. Advanced Historical Geography: American Indi- an Peoples. (4) (Same as American Indian Studies M200A.) Lecture, 90 minutes; seminar, 90 minutes. Introduction to culture-histories of North American Indians and review of Indian concepts of history. Ste- reotypical approach to content and methodologies re- lated to Indian past that is interdisciplinary and multi- cultural in its scope. Letter grading.

200Y. Advanced Historical Geography: Application of Economics to History. (4) Seminar, three hours.

200Z. Advanced Historical Geography: Chicanos. (4) Disc- ussion, three hours. Graduate survey of leading liter- ature in Chicano history, with emphasis on new meth- odological and theoretical approaches in the field.

201A-201U. Topics in History. (4 each) Seminar, three hours. Graduate courses involving reading, lecturing, and discussion of selected topics. Does not ful- fill seminar requirements for Ph.D. degree. May be re- peated for credit. Limited to course 191, undergraduates must obtain consent of instructor to enroll. 201A. Ancient Greece; 201B. An- cient Rome; 201C. Medieval; 201D. Early Modern Europe; 201E. Modern Europe; 201F. Russia/Eastern Europe; 201G. Britain; 201H. U.S.; 201I. Latin Ameri- ca; 201J. Near East; 201K. India; 201L. China; 201M. Japan; 201N. Africa; 201O. Science/Technology; 201P. History of Religions; 201Q. Theory of History; 201R. Jewish History; 201S. Armenia and Caucasus; 201T. Southeast Asia; 201U. Psychology.

202A-202B. Seminars: Comparative Modern Eco- nomic History. (4-4) Seminar, three hours. Course 202A is requisite to 202B. Designed for graduate stu- dents. Study of problems of modern economics in the 19th and 20th centuries, including such topics as in- dustrialization, growth, demography, development, and economic change. In Progress (202A) and letter (202B) grading.

M203A-M203B. Social Theory and Comparative Economic History. (4-4) (Same as Political Science M291A- M291B and Sociology M296A-M296B.) Seminar, three and one-half hours every other week. Introduction to historically rooted social theory and theoretical- ly sensitive history, following program of Center for Social Theory and Comparative History. Each course may be taken independently for credit. S/U or letter grading.

M203C. Theories in Cultural History. (4) (Same as Sociology M296C.) Discussion, three hours. Introduc- tion to social, linguistic, economic, or other new inter- pretive theories and practices developed in other fields and applied to historical material. Letter grading.

M207. Seminar: Ancient Mesopotamia. (4) (Same as Ancient Near East M250.) Seminar, three hours. Selected topics on political, social, and intellectual history of ancient Mesopotamia. May be repeated for credit.

211A-211B. Seminars: Armenian History. (4-4) Seminar, three hours. Course 211A is requisite to 211B. Grade in Seminar: A (211) and letter (211B) grading.

M203D. Social Theory.

214. Topics in World History. (4) Discussion, three hours. Graduate seminar utilizing world-historical perspective to examine variety of broad themes in human history. Topics vary annually. Letter grading.

215A-215B. Seminars: Ancient History. (4-4) Seminar, three hours. Course 215A is requisite to 215B. In Progress (215A) and letter (215B) grading.

216A-216B. Seminars: Byzantine History. (4-4) Seminar, three hours. Course 216A is requisite to 216B. In Progress (216A) and letter (216B) grading.

217. Sources and Handbooks of Medieval History. (4) Seminar, three hours. Preparation: reading knowledge of German or French. Introduction to types of medieval source materials and the handbooks needed to use them.

221A. Early Medieval Intellectual History: Thought, Literature, and Religion Circa 1100 to 1500. (4) Lecture, three hours; discussion, one hour (when scheduled). Examination of ideas and means by which they were communicated in late Middle Ages. Concurrently scheduled with course C117A. S/U or letter grading.

221B. Later Medieval Intellectual History: Thought, Literature, and Religion Circa 1100 to 1500. (4) Lecture, three hours; discussion, one hour (when scheduled). Examination of evolution of ideas and means by which they were communicated in later Middle Ages. Concurrently scheduled with course C117B. S/U or letter grading.

222A-222B. Seminars: Medieval History. (4-4) Seminar, three hours. Course 222A is requisite to 222B. In Progress (222A) and letter (222B) grading.

225. Colloquium for Entering Graduate Students in Modern European History. (4) Seminar, three hours. Normally limited to and required of all modern European history graduate students. Introduction to topics, methods, and historiography of modern European history.

226A-226B. Seminars: Italian Renaissance. (4-4) Seminar, three hours. Course 226A is requisite to 226B. In Progress (226A) and letter (226B) grading.

227A-227B. Seminars: Reformations. (4-4) Seminar, three hours. Course 227A is requisite to 227B. In Progress (227A) and letter (227B) grading.

229A-229B. Seminars: Early Modern European History. (4-4) Seminar, three hours. Course 229A is requisite to 229B. In Progress (229A) and letter (229B) grading.

M230A-M230B. Seminars: Modern European History. (4-4) Same as Art History M241A-M241B. Seminar, three hours. Course M230A is requisite to M230B. May be repeated for credit with consent of adviser. In Progress (M230A) and letter (M230B) grading.

231A-231B. Seminars: Modern European Intellectual and Cultural History, 1600-1800. (4-4) Seminar, three hours. Course 232A is requisite to 232B. In Progress (232A) and letter (232B) grading.

232A-232B. Seminars: French History of the 19th and 20th Centuries. (4-4) Seminar, three hours. Course 232A is requisite to 232B. In Progress (232A) and letter (232B) grading.

233A-233B. Seminars: Russian/Soviet History. (4-4) Seminar, three hours. Course 233A is requisite to 233B. In Progress (233A) and letter (233B) grading.

234A-234B. Seminars: Modern History of Spain, Portugal, and Italy. (4-4) Seminar, three hours. Course 234A is requisite to 234B. In Progress (234A) and letter (234B) grading.

235A-235B. Economic History of Europe, 1780 to 1939. (4-4) Seminar, three hours. Course 235A is requisite to 235B. Analysis of internationalization of European world economy, emergence of Western core and its relation with European peripheries. Comparative analysis of economic and social structures stressing material characteristics of postwar European economy. In Progress (235A) and letter (235B) grading.

235C-235D. Economic History of 20th-Century Europe. (4-4) Seminar, three hours. Course 235C is requisite to 235D. Cyclical trend, various economic regimes, and integration process of Europe. In Progress (235C) and letter (235D) grading.

236A. Proseminar: Political Psychology. (4) Same as Political Science M261A. Seminar, three hours. Introduction to political psychology: psychobiography, personality and politics, mass attitudes, group conflict, political communi- cation, and group decision making. Letter grading.

237A-237B. Seminars: History of China — Middle Ages, 900-1500. (4-4) Seminar, three hours. Course 237A is requisite to 237B. Study of Chinese history from 900 to 1500. In Progress (237A) and letter (237B) grading.

239A-239B. Seminars: English History — Middle Ages. (4-4) Seminar, three hours. Course 239A is requisite to 239B. In Progress (239A) and letter (239B) grading.

246A-246B-246C. Introduction to U.S. History. (4-4) Seminar, three hours. Course 246C is requisite to 246B. In Progress (246A) and letter (246B) grading.

247A-247B. Seminars: Early American History. (4-4) Seminar, three hours. Course 247A is requisite to 247B. In Progress (247A) and letter (247B) grading.

249A-249B. Seminars: Jacksonian America. (4-4) Seminar, three hours. Course 249A is requisite to 249B. In Progress (249A) and letter (249B) grading.

250A-250B. Seminars: U.S. History of the Middle 19th Century. (4-4) Seminar, three hours. Course 250A is requisite to 250B. In Progress (250A) and letter (250B) grading.

251A-251B. Collaborative Research Seminars: American History. (4-4) Seminar, three hours. Research seminars taught jointly by two faculty members. In Progress (251A) and letter (251B) grading. 251A. Common readings and development of individual research projects. 251B. Research, completion of research, and critical discussion of draft papers.

252A-252B. Seminars: Recent U.S. History to 1930. (4-4) Seminar, three hours. Course 252A is requisite to 252B. In Progress (252A) and letter (252B) grading.

253A-253B. Seminars: Recent U.S. History since 1930. (4-4) Seminar, three hours. Course 253A is requisite to 253B. In Progress (253A) and letter (253B) grading.

254A-254B. Seminars: U.S. Social and/or Intellec- tual History. (4-4) Seminar, three hours. Course 254A is requisite to 254B. In Progress (254A) and letter (254B) grading.

255A-255B. Business Enterprise and American Culture. (4-4) Seminar, three hours. Course 255A is requisite to 255B. In Progress (255A) and letter (255B) grading.

256A-256B. Seminars: America in the World. (4-4) Seminar, three hours. Course 256A is requisite to 256B. In Progress (256A) and letter (256B) grading.

257A-257B. Seminars: U.S. Urban History. (4-4) Seminar, three hours. Course 257A is requisite to 257B. In Progress (257A) and letter (257B) grading.

258A-258B. Seminars: Working Class History. (4-4) Seminar, three hours. Course 258A is requisite to 258B. In Progress (258A) and letter (258B) grading.

M259A-M259B. History of Women. (4-4) Same as Women’s Studies M259A-M259B.) Seminar, three hours. Course M259A is requisite to M259B. History of women’s social and political issues seen in U.S. and comparative context. In Progress (M259A) and letter (M259B) grading.

260A-260B. Seminars: Native American History. (4-4) Seminar, three hours. Course 260A is requisite to 260B. In Progress (260A) and letter (260B) grading.

M260C. Native American Revitalization Move- ments. (4) (Same as Anthropology M261.) Lecture, two hours; discussion, one hour. Examination of revitalization movements among Native Americans of North America (north of Mexico). Specific revitalization includes Handsome Lake, 1870 and 1890 Ghost Danc- es, and Peyote Religion. Letter grading.

M260D. Native American Historical Demography. (4) (Same as Anthropology M267.) Lecture, two hours; discussion, one hour. Examination of popula- tion history of Native Americans north of Mexico prior to and following contacts with Europeans, Africans, and others, circa 1492. Emphasis on number of American Indians and other Native Americans, their decline following European contact, and their recent resurgence. Letter grading.

261A-261B. Seminars: Afro-American History. (4-4) Seminar, three hours. Course 261A is requisite to 261B. Social and political history of the Afro-Ameri- can, including emphasis on development and structure of race relations in America; racial concepts and dilemmas, black and white. In Progress (261A) and letter (261B) grading.

262A-262B. Seminars: Chicano History. (4-4) Seminar, three hours. Course 262A is requisite to 262B. In Progress (262A) and letter (262B) grading.

263A-263B. Seminars: History of American West. (4-4) Seminar, three hours. Course 263A is requisite to 263B. In Progress (263A) and letter (263B) grading.
M264. History of American Education. (4) (Same as Education M201C) History of educational thought and of social forces impinging on American education from the 1930s to the present. Analysis of relations between these ideas and forces, and aims and practices of American education today.

M265. Latin American Research Resources. (4) (Same as Latin American Studies M225 and Latin American Studies M200.) Seminar, three hours. General and specialized materials in fields concerned with Latin American studies. Library research techniques provide experience and competency required for future bibliographic and research sophistication as basis for enhanced research results.

266A-266B. Seminars: Colonial Latin American History. (4-4) Seminar, three hours. Course 266A is requisite to 266B. In Progress (266A) and letter (266B) grading.

M266C. Analyzing Historical Texts. (4) (Same as Linguistics M238.) Seminar, four hours. Designed for graduate students. Analysis of linguistic structure and ethnohistorical context of legal and other documents written by native-speaking scribes and translators. Topics include paleographic technique and text analysis. Software may be repeated for credit. S/U grading.

267A-267B. Latin American History, 19th and 20th Centuries. (4-4) Seminar, three hours. Course 267A is requisite to 267B. In Progress (267A) and letter (267B) grading.

M268A-M268B. Seminars: Recent Latin American History. (4-4) (Same as Latin American Studies M268A-M268B.) Seminar, three hours. Course M268A is requisite to M268B. Reading knowledge of Spanish and Portuguese normally required. Seminar devoted to selected topics of interdisciplinary nature. In Progress (M268A) and letter (M268B) grading.

278A-278B. Seminars: African History. (4-4) Seminar, three hours. Course 278A is requisite to 278B. Topics in African history, with focus on producing papers of publishable quality. In Progress (278A) and letter (278B) grading.

M280. China Studies: Discipline, Methods, Debates. (2) (Same as Chinese M202.) Seminar, two hours. Introduction to study of China as practiced in humanities and social science disciplines. S/U grading.

282A-282B. Seminars: Chinese History. (4-4) Seminar, three hours. Course 282A is requisite to 282B. In Progress (282A) and letter (282B) grading.

285A-285B. Seminars: Japanese History. (4-4) Seminar, three hours. Course 285A is requisite to 285B. In Progress (285A) and letter (285B) grading.

M286. Japan in Age of Empire. (4) (Same as Anthropology M276 and Asian M292.) Seminar, three hours. Designed for graduate students. Since late 19th century, Japan expanded its empire into East and South Asia. Focus of that course will be an array of anthropological studies conducted in Japan's colonies and occupied areas in this hardly explored area of study of colonialism. S/U or letter grading.

288A-288B. Seminars: Southeast Asia. (4-4) Seminar, three hours. Course 288A is requisite to 288B. In Progress (288A) and letter (288B) grading.

289A-289B. Seminars: Southeast Asia. (4-4) Seminar, three hours. Course 289A is requisite to 289B. In Progress (289A) and letter (289B) grading.

291A-291B. Seminars: Jewish History. (4-4) Seminar, three hours. Course 291A is requisite to 291B. Studies in intellectual and social history of Jewish people from ancient times to modern period. In Progress (291A) and letter (291B) grading.

293A-293B. Seminars: History of Religions. (4-4) Seminar, three hours. Course 293A is requisite to 293B. In Progress (293A) and letter (293B) grading.

294A-294B. Western Science, Religion, and Political Economy, 1600 to 1830. (4-4) Seminar, three hours. Study of science integrated within matrix of religious belief commonplace in early modern Europe and, to a lesser extent, in American colonies. Examination of relationship of both cultural matrices to political and economic change. S/U or letter grading.

295. Theories of Scientific Change. (4) Seminar, three hours. Historical and philosophic perspectives on science, focusing on rationality of scientific change and logic and psychology of scientific discovery. Readings and seminar-style discussions of such authors as Popper, Kuhn, Toomlin, Lakatos, Holton, Buchanan, Feyneman, and others.

297A-297B. Seminars: History of Science. (4-4) Seminar, three hours. Course 297A is requisite to 297B. In Progress (297A) and letter (297B) grading.

M298. Interdisciplinary American Studies. (6) (Same as English M299.) Seminar, discussion, four hours. Readings, discussion, and papers on a common theme, team-taught by faculty from different departments. Topics vary according to participating faculty. May be repeated for credit with consent of instructors.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

490. Writing Workshop for Graduate Students. (4) Tutorial, three hours. Writing workshop on students' papers-in-progress. Analysis and group discussion of rhetorical and stylistic principles, illustrated in students' own and in professional historians' work, help students improve their own writing. May be repeated once. S/U grading.

495. Teaching History. (4) Seminar, to be arranged. Designed for graduate students. Required of all new teaching assistants. Lectures, readings, discussions, and practice teaching sessions within the structure of a seminar. Students receive unit credit toward full-time equivalence but not toward the nine-course requirement for M.A. degree. S/U grading.

501. Cooperative Program. (2 to 8) Preparation: consent of UCLA graduate adviser and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.

596. Directed Studies. (1 to 8) Limited to graduate students. Individual directed reading arranged with professor. M.A. candidates may take this course only over a number of times. Ph.D. candidates may take this course subject to consent of graduate studies committee. S/U or letter grading.

Group F: Two art history elective courses selected from the above lists. Students may also take Art History 100, C103A, C103B, C103C, 127, 197, 199 to meet this requirement

Honors Program

The honors program is designed for History/Art History majors who are interested in carrying out an independent research project that culminates in an honors thesis of approximately 30 pages. The program gives qualified students the opportunity to work closely with individual professors on an in-depth supervised research and writing project.

All junior and senior History/Art History majors who have completed a minimum of four upper division art history courses with a grade-point average of 3.5 or better and an overall GPA of 3.0 or better are eligible to apply. Consult the art history undergraduate counselor one term prior to beginning the honors program.

To qualify for graduation with honors, students must (1) complete all requirements for the major, (2) have a cumulative grade-point average of 3.5 or better in upper division courses in the major and an overall GPA of 3.0 or better, and (3) complete Art History 198A and 198B with grades of A– or better.

To qualify for graduation with highest honors, students must (1) complete all requirements for the major, (2) have a cumulative GPA of 3.85 or better in upper division courses in the major and an overall GPA of 3.65 or better, and (3) complete Art History 198A and 198B with grades of A– or better.

Robert N. Watson, Ph.D., Chair
Faculty Advisory Committee
Esteban C. Dell’Angelica, Ph.D. (Human Genetics)
Seon A. Kelsey, Ph.D. (Philosophy)
Daniel H. Lowenstein, LL.B. (Law)
Jeffrey H. Miller, Ph.D. (Microbiology, Immunology, and Molecular Genetics)
Mark B. Moldwin, Ph.D. (Earth and Space Sciences)
William G. Roy, Ph.D. (Sociology)
Zrinka Stahuljak, Ph.D. (French and Francophone Studies)
Brian D. Walker, Ph.D. (Political Science)
Robert N. Watson, Ph.D. (English)

Scope and Objectives

The Honors Collegium is an unusual educational alternative, with an interdisciplinary emphasis. The collegium encourages animated discussion among students, as well as between students and professors. It seeks to promote scholarly exchange across the major disciplines in the University. And it offers small classes and individual attention.

Undergraduate Study

Each Honors Collegium course is staffed by a director who is distinguished in teaching and scholarship and may include a variable number of guest lecturers and additional specialists in their fields. Many courses satisfy general education requirements and serve as preparation for numerous majors in the College of Letters and Science. Counselors are available in the Honors Programs Office, A311 Murphy Hall, to advise and help students plan an integrated academic program.

Courses in the Honors Collegium are mainly small, with considerable student participation. Most courses are letter graded. The collegium encourages animated discussion among students, as well as between students and professors. It seeks to promote scholarly exchange across the major disciplines in the University. And it offers small classes and individual attention.

Honors Collegium

Lower Division Courses

2. Comparative Genocide. (4) Lecture, four hours; discussion, one hour. Social comparative study of genocide, combining theoretical concepts with case studies (such as Armenia, the Holocaust, American Indians, Uganda under Amin and Obote, etc.). P/NP or letter grading.

4. Immigrants and American Dream. (5) Seminar, three hours. Study of process of attaining the “American Dream;” including analysis of different perspectives on immigration and assessment of success based on such measures as occupational achievement, home ownership, and political participation. P/NP or letter grading.

5. Representing Cleopatra: History, Drama, and Film. (5) Seminar, three hours. Examination of leg- endary queen of Egypt as seen by her contempo- raries and study of origins of myths about her and ways in which subsequent cultures and eras have imagined her in literary, visual, and cinematic repre- sentations. P/NP or letter grading.

7. Saint and Heretic: Joan of Arc and Gilles de Rais, History and Myth. (5) Seminar, three hours. Examination of both history of Joan of Arc and Gilles de Rais and of way in which, over time, their histories be- came legends, driven by various agendas including na- tional identity, beatification, and gender politics. P/NP or letter grading.

8. Communication among Organisms. (4) Lecture, three hours; discussion, two hours. Study of commu- nication among a variety of taxonomic groups ranging from single-celled organisms to plants, whales, and nonhuman primates. P/NP or letter grading.

11W. Postmodern Culture. (5) Seminar, four hours. Enforced requisite: English Composition 3 or 3H or English as a Second Language 36. Exploration of theories and art (literature, music, film, fine art) that emerged after World War II in what has come to be known as postmodern art. Art criticizes master narra- tives of earlier age and fosters fragmentation, skepti- cism toward universal truth, commodification of knowledge, media creating reality, and globalization in industry and society. Satisfies Writing II requirement. Letter grading.

12. Sacred Form: Literature and Poetry in India from Bronze Age to Premodern Times. (4) Semi- nar, three hours. Exploration of cultural and literary development in India from early religious poetry (prior to 1000 B.C.) to broad range of literary styles and di- verse religious and philosophical movements through classical, medieval, and premodern period. P/NP or letter grading.

14. Interaction of Science and Society. (4) Semi- nar, three hours. Examination of interaction of science and society and effects of this interaction on history, development of societies, evolution of revolutionary ideas as modeled in Galileo, Darwin, and others, and selected contemporary issues such as genetic engi- neering and war against infectious diseases. P/NP or letter grading.

15. Acting Myth. (4) Seminar, three hours. Interdisci- plinary approach to literature and acting through study of texts and mythologies from variety of Indo- European and Near Eastern sources; students learn acting techniques in directed scenes from the texts. P/NP or letter grading.
58. Time in Society and History. (5) Seminar, four hours. Examination of concept of time from sociological, philosophical, anthropological, and physical perspectives, including study of how cultures have perceived time, how societies have organized themselves with time, how groups have clashed over time's definition and measurement, and how academics in various disciplines have perceived time. P/NP or letter grading.

59W. Literature and Culture of the American South. (6) Seminar, four hours; writing laboratory, two hours. Examination of Southern literature from the 1830s to the present. Emphasis on Southern novels and short fiction, including the classics of the genre; exploration of Southern culture and social history; and writing assignments. Grade: P/NP or letter grading.

60. Discovering and Explaining Anomalies of English. (5) Seminar, four hours. Study of linguistic anomalies, historical facts of English that brought about these irregularities, and artificiality of notion of "standard English." P/NP or letter grading.

64. Neuroscience and Psychology of Art and Biology of Aesthetics. (5) Seminar, three hours. Interdisciplinary approach to study of beauty, whether of faces, art works, or other subjects, is processed by brain and can be understood as neurological and psychological phenomenon. P/NP or letter grading.

67. Structure of Physical Reality. (4) Lecture, three hours; discussion, one hour. No special mathematical or computer knowledge required. Course in modern physics, including videos and practical demonstrations, Zen sto- ries, and philosophical implications. P/NP or letter grading.

70A. Gene Discovery Laboratory. (5) Seminar, three hours; laboratory, five hours. Examination of technologies that are in process of development. P/NP or letter grading.

70C. Culture, Ethnicity, Race, and Development: Multimedia and Multidisciplinary Approach. (5) Lecture hour; two hours for laboratory, four hours for seminar. Study of ethnic, racial, and cultural apprenticeship, including evolution of multicultural learning, ontology of cultural learning, changes in cultural learning over history, and conflicts between forms and goals of cultural learning in a multicultural society. P/NP or letter grading.

71. Cross-Cultural Approaches to Media History and Culture. (5) Seminar, three hours. Examination of media, media history, and media culture from cross-cultural perspective, one that demands redemption of media and understanding of art in cross-cultural context. P/NP or letter grading.

73. Elementary Particles in the Universe. (4) Lecture, two hours; discussion, 90 minutes. No special mathematical knowledge required. Examination of elementary particle physics, including status of current study in laboratories around the world and its role in assessing the early evolution of the universe. P/NP or letter grading.

77. Writing Numbers. (5) Seminar, four hours. Not open to students with credit for introd. statistics. Whether it be to convince about lack of government support for arts, or global warming, or risks of living in high crime areas, it promotes effective citizenship and social power. How to read narratives (in media, academic journals, etc.) supported by statistical data with critical eye, how to research and assess data, how to critique statistical evidence, and how to write persuasive articles supported by statistical data. P/NP or letter grading.

80. Genomics and Boundaries of Self. (5) Seminar, three hours. Study of impact that knowledge of entire human genome sequence has on our concept of ourselves as individuals and our place in biological universe. P/NP or letter grading.

81. Eastern Christianity in Comparative Perspective: Historical, Cultural, and Physiological Origins of Policy Arguments. Examination of issues of culture and identity in cross-cultural counseling, including study of writing in various disciplines and honing of editing and production skills. May be repeated once for credit. P/NP grading.

82. Eastern Christianity in Comparative Perspective: History of Culture. (5) Lecture, three hours; discussion, two hours. Exploration of philosophical and metaphysical beliefs of Eastern Christianity, comparing and contrasting Eastern churches to those that dominate in the West and examining how Eastern Orthodox outlook has developed within broader Judeo-Christian tradition. P/NP or letter grading.

83W. Politics and Rhetoric of Literature. (6) Seminar, four hours; writing laboratory, two hours. Enforced requisite: English Composition 3 or ENGLISH 7. Enforced requisite: English Composition 3 or 4 or English as a Second Language 36. Exploration of relationships among politics, rhetoric, and literature in study of literature from classical times to the present, broadening into general discussions of development of political discourse in Western thought, particularly conflict between self and state, between ideology and the practical business of living. Satisfies Writing II requirement. Letter grading.

84. Conflicts between Languages. (5) Seminar, three hours. Study of artificial and naturalistic languages and conflict-ridden language situations in three countries abroad and discussion of various aspects of minority languages in the U.S. P/NP or letter grading.

85. Mestizaje and Minority in Americas. (5) Seminar, four hours. Examination of texts from colonial Spanish America and 20th-century North America to investigate how authors in these different contexts have struggled with between two cultures. P/NP or letter grading.

86. Psychology of Fear. (5) Formerly numbered Dentistry 98B.) Three hours; fieldwork, one hour. Examination of phobias, including inquiry into how fears are affected by internal and external events, including genetics, culture, and environment. P/NP or letter grading.

87. Issues in American Foreign Policy: Methodology of Assessment. (4) Lecture/debate, three hours; discussion, one hour. Exploration in debate format of wide range of views on contemporary foreign policy issues to train students how to discern the ideological origins of policy arguments. Examination of major foreign policy journals. P/NP or letter grading.

Upper Division Courses

101A. Student Research Forum. (2) Lecture, one hour; workshop, two hours. Corequisite: course 98. Designed to promote broad and deep understanding of university research, including plenary lectures on research and workshops on grant writing, Internet searching for research opportunities and regulations governing research. P/NP grading.

101B. UCLA Undergraduate Science Journal. (2) Seminar, two hours. For students on editorial board of annual UCLA Undergraduate Science Journal, including study of writing in the sciences and honing of editing and production skills. May be repeated once for credit. P/NP grading.

101C. UCLA Undergraduate Journal for Humanities and Social Sciences. (2) Seminar, two hours. For students on editorial board of annual UCLA Undergraduate Research and Writing, including study of writing in various disciplines and honing of editing and production skills. May be repeated once for credit. P/NP grading.

101D. Counseling Multicultural Communities. (2) Seminar, two hours. Study of issues of culture and identity in cross-cultural counseling, including development of working model. P/NP grading.

101E. Leading Undergraduate Seminars. (2) Seminar, two hours. Limited to students who have been accepted into Undergraduate Student Initiated Education (USIE) program. Learning and exploration of issues that are integral to developing seminars and development of skills to become effective student facilitators. Practical teaching strategies and techniques, as well as pedagogical, organizational, and technological issues concerning runs of new instructors. Discussion of key topics, followed by discussion of syllabi that students are developing for their seminars and conducting of micro-teaching presentations. Guest speakers expand on topics that arise from class discussions. P/NP grading.

101F. Integrity in Research. (2) Seminar, two hours. Limited to students in CARE, HHMI, MARC, and UC Leads programs. Discussion about integrity in research, current thinking in field, and important ethical issues that impact scientific investigation. P/NP grading.

101G. Graduate School Preparation. (2) Seminar, two hours. Limited to AAP students. Designed to help AAP students familiarize themselves with academic disciplines that they would like to pursue in graduate school. Through course readings, guest speakers, and interactive assignments, students learn more about their graduate school options and how to navigate application processes. P/NP grading.

M102. Culture, Media, and Los Angeles. (6) (Same as Afro-American Studies M102 and Asian American Studies M160H.) Lecture, four hours; screenings, four hours. Designed for juniors and seniors. Role of media in society and its influence on contemporary cultural environment, specifically in Los Angeles; issues of representation as they pertain to race, ethnicity, gender, and sexuality. P/NP or letter grading.

103. Scientific Knowledge, Industrial Growth, and Social Policy. (5) Lecture, three hours; laboratory, two hours. Examination, using nanotechnology, of both social policy issues that are integral to developing seminars and conducting of micro-teaching presentations. Guest speakers expand on topics that arise from class discussions. P/NP grading.

104. Inequality and the City. (5) Lecture, three hours; discussion, two hours. Enforced requisite: English Composition 3 or 4 or English as a Second Language 36. Examination of social and economic inequality and its implications for social and economic development. P/NP or letter grading.

106. Cross-Cultural Approaches to Media History and Culture. (5) Seminar, three hours. Examination of media, media history, and media culture from cross-cultural perspective, one that demands redemption of media and understanding of art in cross-cultural context. P/NP or letter grading.
104. Trojan War: Antiquity and Afterlife. (5) Seminar, three hours. Focus on Troy as locale for ancient and modern imagination in poetry, archaeology, and historical fantasy. P/NP or letter grading.

M106. Imaginary Women. (4) (Same as Women’s Studies M106.) Seminar, four hours. Designed for juniors/seniors. Study of four female cultural archetypes — Amazon, Incarnate mother, intellectual woman, and warrior woman — as they appear in their classical and modern manifestations in European and American cultures. P/NP or letter grading.

107. Painful Birth: Rise of Modern Capitalism in Late Medieval Italy. (4) Seminar, three hours. Through medieval texts and representations of the human figure in art, examination of rise of merchant and banking class in late medieval Italy, focusing on ideological and economic issues rooted in contempt of commerce, prohibition of usury, ideal of the nobility, and choice between Earth and sky. P/NP or letter grading.

108. Transnationalism, Diasporas, and Homeland-Hostland Politics. (5) Seminar, three hours. Examination of debates about transnationalism, global migration, and diaspora communities in the 20th and 21st centuries, with focus on the U.S., including comparative perspective. P/NP or letter grading.

109. Landscape in Medieval Manuscripts and the Making of Poetry. (4) Seminar, three hours; workshop, one hour. In words of the august professor, “Semiological warfare against the purveyors of semantic entropy.” In context of one of course with contemporary speech, study of history of philosophic and poetic discourse on language and its potentials, including social and political implications. P/NP or letter grading.

110. Marxist and Post-Marxist Approaches to Cultural Studies. (4) Seminar, four hours. Examination of Marxist and post-Marxist approaches to study of culture, including classic texts, theoretical and empirical works, and the Marxist roots of postmodernism. P/NP or letter grading.

111. Stress and Coping. (4) Seminar, four hours. Examination of research and theory on stress and coping, with emphasis on physical and mental consequences of stress and moderators of both social support and personality in coping strategies. P/NP or letter grading.

113. Work, Gender, and Race in America. (5) Seminar, three hours; fieldwork, two hours. Exploration of how shifts from manufacturing to service work and from local to global markets have differentially affected nature of work in the U.S. for workers assessed by gender, race, ethnicity, and economic status. P/NP or letter grading.

114. Architecture from Los Angeles: Work of Frank Gehry, Thom Mayne, and Greg Lynn. (5) Seminar, three hours. Within last 30 years, body of architectural work originating in Los Angeles but reaching world both in material construction and aesthetic influence has emerged. Study of works of several architectural icons of Frank Gehry, Thom Mayne, and Greg Lynn. Site visits and hands-on practice in how to read architectural plans and how to use computers and modeling in architectural study and design. P/NP or letter grading.

M116. Art Alive: Art and Improvisation in the Museum. (4) (Same as Theater M187.) Seminar, four hours. Offered in collaboration with Los Angeles County Museum of Art (LACMA), interpretation and collection through acting, dialogues, movement, and music. Research into history and art history and production of creative performance piece required. P/NP or letter grading.

117. Resistance to Evil: Organized Resistance to Nazis in Occupied Europe. (4) Seminar, three hours. Assesses historical and philosophical issue, but a sociological one. What makes resistance possible are specific historical circumstances and social relations that enable ordinary men and women to oppose their oppressors. Examination of this premise through analysis of organized resistance to Nazi occupation in Europe. P/NP or letter grading.

117L. Resistance to Evil: Organized Resistance to Nazis in Occupied Europe. (2) Seminar, two hours. Continue critical reading of texts in Dutch, Flemish, and some French selected from works that relate directly to material covered in course 117. P/NP or letter grading.

M118. Roots of Patriarchy: Ancient Goddesses and Heroines. (4) (Same as Women’s Studies M128.) Lecture, three hours. Examination of ancient goddesses and heroines — European, Neolithic, Near Eastern, Celtic, Scandinavian, Balto-Slavic, Indo-Iranian, and Greco-Roman — using translations of ancient texts, archaeological evidence, and feminist methodology in order to discover implications of ancient patriarchy on modern society. P/NP or letter grading.

119. Nuclear War: Critical Decisions. (4) (Same as Political Science M116, and Political Science M139B.) Lecture, three hours. Examination of critical decisions regarding nuclear warfare. Stretches of time to build atomic bomb and ending with current policies on containing nuclear proliferation and on avoiding nuclear catastrophe. Letter grading.

120. Art and Performance: Interdisciplinary Approach to Collections of Getty Center. (4) (Same as Theater M109,) Lecture, four hours; discussion, one hour. Drawing from objects in five major collections at Getty Museum, focus on five parallel historical periods in which political, social, and aesthetic philosophy of the age is examined in musical and dramatic performance. Letter grading.

121. Psychoanalysis before Freud, and a Little After. (5) Lecture, three hours; discussion, one hour. Examination of different ways humans being have developed conceptions of themselves through history from early civilizations through Middle Ages, Renaissance, Reformation, scientific revolution, Enlightenment, origins of modern world, Freud’s fin de siècle Vienna, and post-Freudian visions; investigation of various interactions of these different conceptions in present day. P/NP or letter grading.

122. Violence Against Women in Cross-Cultural Perspective. (5) Seminar, three hours. Study of political satire in several societies, with emphasis on how such expressions have been used as weapons, as propaganda, as a means of opposition and mobilization. Letter grading.

127. Citizenship, Leadership, and Service. (4) Seminar, three hours; fieldwork, three hours. Interactions between citizenship, leadership, and service, including both theoretical work in classroom and practical work in service organizations in the field. P/NP or letter grading.

M128L. Latinos, Linguistics, and Literacy. (5) (Formerly numbered M128.) (Same as Chicano and Chicana Studies M170SL and Spanish M172SL.) Seminar, four hours; field project, four to six hours. Recommended requisite: Spanish 100A. In-depth study of various topics covering reading of texts in Dutch, Flemish, and some French selected from works that relate directly to material covered in course 117. P/NP or letter grading.

130. How Cold War Was Played. (4) Lecture/discussion, one hour. Examination of what perspective there was on Cold War, why it lasted so long, what its impact was on political and socioeconomic systems of two main protagonists, and what its legacy has become. P/NP or letter grading.

132. Bible as Political Theory. (4) Seminar, four hours. The Bible treated as political text, addressing prepolitical condition, formation of political community; state, survival without a state, and messianism, with focus both on institutions and on intellectual history. P/NP or letter grading.

133. Quest for Identity and the American Dream. (5) Seminar, three hours. Exploration of concepts of equality, identity, individuality, and authenticity in American society through literary and legal texts and selected theory and films. P/NP or letter grading.

135. Narrative in Mass Communication. (6) (Same as Communication M135.) Seminar, four hours. Examination of narrative as primary function of mass media, beginning with social, psychological, cultural, and rhetorical functions of storytelling and broadening of narrative, then applying these to study of film, television, and print media. P/NP or letter grading.

137. Political Satire: Offensive Art. (5) Seminar, three hours. Study of political satire in several societies and variety of genres, including review of sociopolitical conditions that act to foster or constrain satire. P/NP or letter grading.

138. Disease and Human Condition. (5) Seminar, three hours. Exploration of scientific characteristics and historical manifestations of disease that have shaped civilization; discussion of how historical manifestations of each disease are embedded in social and economic conditions of its time. P/NP or letter grading.

139. African Americans and Africa in Perspective. (5) Seminar, four hours. Study of saga of how African Americans have struggled to reassert their identity to Africa and Africans in both historical and contemporary American public school, showing how such entrenched inequalities tend to become permanent. Field component included. P/NP or letter grading.

143. From Latin America to U.S.: Immigration and Latino Identity. (4) (Same as Chicana and Chicano Studies M212.) Lecture, three hours. Overview of immigration in 20th century, examining social, political, and economic contexts out of which different waves of Latin American immigration to U.S. has occurred. Letter grading.

144. Stigma: Anthropology of Dangerous Other. (4) Seminar, three hours. Cross-cultural perspective, analysis of apparently common causes and consequences of diverse forms of social inequality in which culturally ascribed stigma is common factor. P/NP or letter grading.

147. Feminism Around the World: Past and Present. (3) Seminar, three hours. Historical and global perspective on variety of feminist movements in the world, including their similarities and differences. P/NP or letter grading.

148. Simulating Society: Exploring Artificial Communities. (5) (Same as Sociology M118.) Seminar, three hours; computer laboratory, one hour. Examination of social behavior through computer simulations of behavior in artificial communities. P/NP or letter grading.

149. Culture: What Makes It Work. (5) Seminar, four hours. Examination of some basic questions that arise in study of what we mean by culture, including new theory and methods, using multistage modeling, that allows us to do quasi-experimental research into nature of culture. P/NP or letter grading.

150. Formal Modeling and Simulations in Social Sciences. (4) (Same as Anthropology M186 and Human Computer Interaction M186.) Lecture, three hours. Exploration of different approaches to modeling empirical phenomena of concern to social sciences. Topics include utility models, learning models, decision models, group competition models, and evolutionary models. Use of multistage computer simulations and group exercises to explore emergent behaviors among individuals interacting according to models for behavior. Discussion of advantages and drawbacks of more traditional mathematical modeling. Review of alternative forms of formal representations of hypothesized processes and issues related to verification of simulations. P/NP or letter grading.

151. American Jews and Israel in Mutual Perspective. (4) Seminar, three hours. Examination of relationships between Israel and Jews in the U.S., with emphasis on locating the two communities in Jewish history and political impact of this relationship. Offered mutually with parallel course at Tel Aviv University, including shared bulletin board and chat room. P/NP or letter grading.

152. Past Societies and Their Lessons for Our Own Future. (5) (Same as Anthropology M155Q and Geography M153.) Lecture, two hours; discussion, two hours. Examination of modern and past tribal and band societies (Amazonian Indians, Kalamari bushmen, and others) that met varying fates, as background to examination of how modern state societies are coping or failing to cope with similar issues. P/NP or letter grading.

153. International Flash Points. (5) Seminar, three hours. Debate-style seminar concentrating on explosive controversies or current international affairs, including North and South Korea, India and Pakistan, Israel and Palestinians, Iraq, Colombia, and Congo and Rwanda. P/NP or letter grading.

154. Interpreting Performance: Examination of Sociocultural Context for Performance Arts. (5) (Same as Theater M112.) Lecture, two hours; discussion, two hours. Examination of nature of performance in theory and practice and of social, historic, and cultural contexts in which performances have evolved. Attendance at approximately five designated performances/events required. P/NP or letter grading.

155. The U.S. and World Post-9/11. (5) Lecture, two hours; discussion, two hours; tutorial, 90 minutes every other week. Survey of major questions confronting American foreign policy in period since September 11, 2001, in course organized in conjunction with series of public lectures on this topic. P/NP or letter grading.

156. Consciousness and Brain. (5) Seminar, three hours. Examination of philosophical and neuroscientific aspects of how brain produces conscious experience, including consideration of whether consciousness exists, or if it is an artifact of human experience, and role of language and self in consciousness. P/NP or letter grading.

157. International Relations of Middle East. (4) (Same as Global Studies M116 and Middle Eastern and Islamic Studies M128.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for seniors/juniors. Role of great powers in Middle East, with emphasis on American, Soviet, and West European policies since 1945. P/NP or letter grading.

159. Pushkin and Russian National Identity. (5) Seminar, three hours. Examination of history and mythology surrounding African ancestry of Russian poet Alexander Pushkin and their effects on national identity. P/NP or letter grading.

160. Women and Literature in Southeast Europe. (5) Seminar, three hours. Examination, through prism of literature, of changing role of women in southeastern European countries (Albania, Bosnia-Herzegovina, Bulgaria, Croatia, Greece, Macedonia, Montenegro, Romania, Russia, Serbia, Slovenia, Turkey) during last 80 years, with emphasis on economic, cultural, and political variables affecting women's roles. P/NP or letter grading.

161. Cultural History of Allenstein. (4) (Same as History M116.) Seminar, three hours. Exploration of historical phenomena of concern to social sciences. Topics include utility models, learning models, decision models, group competition models, and evolutionary models. Use of multistage computer simulations and group exercises to explore emergent behaviors among individuals interacting according to models for behavior. Discussion of advantages and drawbacks of more traditional mathematical modeling. Review of alternative forms of formal representations of hypothesized processes and issues related to verification of simulations. P/NP or letter grading.

162. Studies of Cultural Distance and Imposed Assimilation. (5) Seminar, four hours. Examination of how fiction, memoir, and film have represented involuntary cross-cultural assimilation as seen from perspective of intimate others, usually family members, coming to terms with their own and their relatives’ cultural identity. P/NP or letter grading.

163. Politics of Health from 1750 to 1900: World Health and Public Health, Physical and Mental Health. (5) Seminar, three hours. Examination of health in latter half of 18th century and in 19th century. Research topics may include impact of diseases and controversy over inoculation, professional development of physicians, surgeons, pharmacists, midwives, and nurses, evolution of hospital, rise of specialization in healthcare, and intervention of medical science by government in public health. P/NP or letter grading.

164. Mediterranean World since Roman Empire. (5) Seminar, three hours. Introduction to study of Mediterranean world since Roman Empire to present day. Includes discussion of debates on ecological change, social particularity, role of commerce and trade in historical change, and nature of cross-cultural exchange. P/NP or letter grading.

165. Imposture and National Identity. (5) Seminar, three hours. Cross-cultural approach to study of imposture phenomenon as taken up by writers from different national groups through which to examine cultural modernity and national identity. Study of literature, history, and film from Australia, United Kingdom, the U.S., Near East, and South Asia as way of trying to define both hypocrisies and creativity of imposture. P/NP or letter grading.

170. Venice Imagined. (5) Seminar, three hours. Study of literature and visual arts associated with city of Venice, Italy, concentrating first on period of early modern Venice as flourishing republic and then on its long decline, of special fascination to Romantic, modern, and contemporary authors. P/NP or letter grading.

171. Rationality and Emotions. (5) Seminar, three hours. Historical study of way in which philosophers, social theorists, and political scientists have characterized relationship between rationality and emotions, culminating in emerging consensus that emotions can positively influence rational decision making. Readings range from philosophy of ancient Greeks to writings of contemporary neuroscientists. P/NP or letter grading.

172. French Thinkers of Society. (5) Seminar, four hours. In-depth study of distinguishing perspectives of French theorists who wrote on society and its impact on individuals. Theorists include Rousseau, Mauss, Durkheim, and Deleuze. P/NP or letter grading.

176. Women and Literature in Southeast Europe. (5) Seminar, three hours. Examination of some basic questions that arise in study of what we mean by culture, including new theory and methods, using multistage modeling, that allows us to do quasi-experimental research into nature of culture. P/NP or letter grading.

177. Terrorism, Counterterrorism, and Weapons of Mass Destruction: Practical Approach. (5) Seminar, three hours. Terrorism, its origins, and ways of addressing terrorism at local, national, and global levels. Guest speakers from a variety of UCLAS departments and from Los Angeles. P/NP or letter grading.

178. Directed Honors Studies. (4) Seminar, two hours; tutorial, 90 minutes every other week. Survey of major questions confronting American foreign policy in period since September 11, 2001, in course organized in conjunction with series of public lectures on this topic. P/NP or letter grading.

179. Directed Honors Studies. (5) Seminar, four hours. Examination, for general audience, of science behind nanotechnology and way in which nano can potentially influence medical care, environment, energy issues, military, government, and economics. Demonstration of how nano, like current technology, cannot be separated from ethical, cultural, political, and social issues. P/NP or letter grading.

180. Terrorism, Counterterrorism, and Weapons of Mass Destruction: Practical Approach. (5) Seminar, three hours. Terrorism, its origins, and ways of addressing terrorism at local, national, and global levels. Guest speakers from a variety of UCLAS departments and from Los Angeles. P/NP or letter grading.

181. Journal Club Seminars: McNair Research Scholars. (2) Seminar, two hours; discussion, two hours. Limited to McNair research scholars. Study of key research journals and important research articles in humanities and social sciences. Weekly research reports and presentations by McNair students. Presentations by program faculty members and other leading researchers. May be repeated for credit. P/NP grading.

182. Journal Club Seminars: Arts and Humanities Summer Research Program. (2) Seminar, one hour; discussion, one hour. Limited to students selected for Humanities Summer Research Program. Study of humanities research journals and monographs. Weekly student research reports and presentations by humanities faculty members. May be repeated for credit. P/NP grading.

183. Directed Honors Studies. (4) Tutorial, two hours. Preliminary; minimum of 4 units completed in Honors Collegium with grade of B or better, overall UCLA grade-point average of 3.0 or better. Special research writing tutorial with director of one Honors Collegium course to pursue significant topics from one colleague course. May be repeated for credit. P/NP grading.
HUMAN COMPLEX SYSTEMS
Interdisciplinary Minor
College of Letters and Science

UCLA
341 Haines Hall
Box 95153
Los Angeles, CA 90095-1553
(310) 205-1553
fax: (310) 206-7833

http://hcs.ucla.edu
Dwight W. Read, Ph.D., Chair
Faculty Advisory Committee
Phillip Bonoich, Ph.D. (Sociology)
Susanne Lohmann, Ph.D. (Political Science)
William McKeown, Ph.D. (Management)
Dwight W. Read, Ph.D. (Anthropology)
Francis F. Steen, Ph.D. (Communication Studies)

Scope and Objectives
Human social systems are complex because humans conceptualize, communicate, and construct. Human social systems are shaped not only by factors extrinsic to the individuals making up the social systems, but also by the humans embedded within them. Humans are agents who analyze, reflect on, affect, shape, modify, and construct the social systems of which they are a part.

Students in the Human Complex Systems minor learn ways of thinking that help them make sense of and move effectively in today’s world — a world that is complex, information-rich, and prone to fast and furious change. They develop analytical skills and learn methodological tools that are relevant for the workplace in the emerging techno-economy. Students who seek to enter graduate school are well prepared by virtue of participating in some of the most exciting and novel research programs linking the frontiers of the social sciences with computer science, life sciences, humanities, management, public policy, and media arts.

Undergraduate Study
Human Complex Systems Minor
To enter the Human Complex Systems minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Courses (12 units minimum): Three courses, including one from Mathematics 2, Statistics 10, 11, 12, 13, or 14 and two from Anthropology 7, 8, 9, 33, Economics 1, 2, Geography 3, 4, any lower division history course, Political Science 10, 20, 30, 50, Sociology 1, 10, 24 (courses may be from the same department or from different departments).

Required Upper Division Courses (20 units minimum): Five courses selected from the following:

1. Two core courses from Anthropology 131, Communication Studies 154, Human Complex Systems 130 or Management M118A, Political Science 146G, Sociology 111, (2) two method courses (Human Complex Systems M100/100L and 110), and (3) one elective course from Anthropology 131 (unless taken as part of the core), M186, 186P, Communication Studies 154 (unless taken as part of the core), Geography 142, 148, Human Complex Systems 120, M130 or Management M118A (unless taken as part of the core), Political Science M115A, M142D, 146G (unless taken as part of the core), 164, Public Policy 102, C119, Sociology 111 (unless taken as part of the core), or M118; other courses may be applied by petition, and students may petition to apply Human Complex Systems 197 at the same time the contract is signed.

No more than two courses (8 to 10 units) may be applied toward both this minor and a major or minor in another department or program. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Human Complex Systems

Lower Division Courses

1Q. Emerging Issues in Complex Systems Science. (2) Lecture, two and one half hours. Presentation of current faculty work in complexity science, particularly in human social and organizational dynamics, but also including aspects of arts, humanities, and natural sciences. Introduction to readings relevant to human complex systems and to current faculty members and researchers who teach and advise in program. P/NP or letter grading.

10A. Introduction to Complex Systems Science. (5) Lecture, four hours. How macroscopic patterns emerge dynamically from local interactions of large number of interdependent (often heterogeneous) entities, without global design or central control. Such emergent order, whose explanation cannot be reduced to explanations at level of individual entities, is ubiquitous in biology and human social collectives, but also exists in certain physical processes such as earthquakes and some chemical reactions. Complexity also deals with how such systems undergo sudden changes, including catastrophic breakdowns, in absence of external force or central influence. Key aspect of biological and social collectives is their nature as complex adaptive systems, where individuals and groups adjust their behavior to external conditions. In biological and social systems, complexity science goes beyond traditional mathematics and statistics in its use of multilevel computational models that better capture these complex, adaptive, and self-organizing phenomena. Letter grading.

Upper Division Courses

M100. Formal Modeling and Simulations in Social Sciences. (4) Same as Anthropology M118 and Honors Collegium M150. Lecture, three hours. Exploration of different approaches to modeling empirical phenomena of concern to social sciences. Topics include: utility models, learning models, decision models, group competition models, and evolutionary models. Use of multiagent computer simulations and group exercises to explore emergent behaviors among individuals interacting according to models for behavior. Discussion of advantages and drawbacks of more traditional mathematical modeling. Review of alternative forms of formal representations of hypothesized processes and issues related to verification of simulations. P/NP or letter grading.

100L. Modeling and Simulations Laboratory. (1) Laboratory, one hour. Designed for Human Complex Systems minor students. Discussion of observational techniques and engagement in live group simulations as experiential learning, with focus on how coherent behavior and complexity emerge from interactions between individuals, such as formation of social and political movements. Informed and critical look at natural and social processes observed in human complex systems. Students design their own populations of cultural agents, create social and physical environments in which they live, and study consequences of counterfactual what-if scenarios. May be repeated for credit. Letter grading.

110. Artificial Culture: Experiments in Synthetic Anthropology. (5) Lecture, two hours; laboratory, four hours. Prior programming experience not required. Hands-on introduction to artificial culture — philosophy and practice of constructing highly interactive computer simulations of human social worlds. Informed and critical look at revolutionary new sciences of complexity: multiple agency, simultaneous causation and evolutionary emergence embodied in computational description, and understanding and explanation of human complex systems. Students design their own populations of cultural agents, create social and physical environments in which they live, and study consequences of counterfactual what-if scenarios. May be repeated for credit. Letter grading.

120. Artificial Life, Culture, and Evolution. (5) Lecture, two hours; laboratory, four hours. Prior programming experience not required. Hands-on introduction to artificial life and evolutionary computation as they contribute to philosophy and practice of artificial culture, description, understanding, and explanation of human complex systems through computer simulations. Informed and critical look at evolution, origin, and emergence of physical, biological, and cultural processes from perspective of revolutionary new sciences of complexity. Students design, modify, and experiment with interactive simulations featuring cellular automata, algorithmic patterning, and evolutionary and genetic programming. May be repeated for credit. Letter grading.

M130. Foundations of New (Bottom-Up) Social Science: Applications of Complexity Science and Agent-Based Models. (4) Same as Management M118A. Lecture, four hours. Limited to juniors/seniors. Introduction to (1) complexity science as applied to social behavior, (2) agent-based computational modeling, and (3) philosophies of scientific realism, model-centered science, and other recent trends in philosophy of science as they pertain to complexity science and computational modeling. Use of complexity science to bridge old and new conceptions of social science. Newtonian science, neoclassical economics, and old-style approaches to social science all build on assumptions that all basic agents comprising phenomena (atomic particles, atoms, molecules, organisms, people, groups, firms) are homogeneous and go forward in time under equilibrium conditions interspersed with occasional disequilibrium periods. Letter grading.
Adjunct Associate Professors
York Marahrens, Ph.D.
Linda L. McCabe, Ph.D.
Jeanette Papp, Ph.D.
Adjunct Assistant Professors
Christina Jamieson, Ph.D.
Rowe Ophoff, Ph.D.

Scope and Objectives
The graduate Human Genetics Program prepares students for careers as independent laboratory researchers with a firm grasp of the developments in biological and medical research. The rapidly evolving field of human genetics now incorporates genetic, biochemical, cellular, and developmental studies of both humans and model organisms to tackle biomedical problems important for human health and disease. Areas of study include both Mendelian and non-Mendelian hereditary diseases, genomics and mapping, bioinformatics, developmental biology, neurogenetics, sex determination, cytogenetics, human malformation, and chromatin structure and function. Laboratory research is emphasized. Conceptual approaches to medically related biological problems are employed, frequently with the aid of automation and advanced imaging techniques, toward the goal of disease prevention, control, and eradication methods such as gene therapies. Coursework acquaints students with the most current literature and trains students in critical thinking, experimental design, and the ability to anticipate future developments. Graduate study leading to a Ph.D. degree is emphasized. Under special circumstances, master's candidates are considered after consultation with faculty members and the chair.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of Human Genetics offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Human Genetics. An M.D./Ph.D. program is also offered.

Human Genetics
Upper Division Courses
M102W. DNA: Promise and Peril. (5) (Same as Sociology and Genetics M102W.) Lecture, three hours; discussion, two hours. Enforced requisite: English Composition 3 or 3H or English as a Second Language 36. Sequence of entire personal genome is now available to us. Consideration of impact that knowledge of this genomic sequence has on concepts of ourselves as individuals and of our place in biological universe. Exploration of how this information influences concepts of race, ethnicity, and gender. Examination of ability of DNA-based forensics to identify specific individuals. As genes become commodities with value in marketplace, someone else may own our genes. Discussion of cloning of humans for reproductive and therapeutic purposes. Much has been made of medical implications of Human Genome Project, but we look at influence of this information on our concepts of self and identity. Satisfies Writing II requirement. Letter grading.

CM122. Mouse Molecular Genetics. (2) (Same as Microbiology CM122.) Lecture, two hours. Requisites: course CM156, Life Sciences 3, 4. Emphasis on use of mouse genetic approach to studying fundamental biological questions. Topics include mouse genome and functional genomics, mutagenesis screening and cloning of disease genes, transgenesis and its application in developmental biology, stem cell biology, neurobiology, and modeling human genetic disorders. Reading materials include original papers and reviews. Concurrently scheduled with course CM222. P/NP or letter grading.

CM124. Computational Genetics. (4) (Same as Computer Science CM124.) Lecture, three hours; discussion, one hour; outside study, eight hours. Preparation: one statistics course and familiarity with any programming language. Designed for undergraduate and graduate engineering students, as well as students from biological sciences and medical school. Introduction to current quantitative understanding of human genetics and computational interdisciplinary research in genetics. Topics include introduction to genetics, human population history, linkage analysis, association analysis, association study design, isolated and admixed populations, population substructure, human structural variation, model organisms, and genotyping technologies. Computational techniques include those from statistics and computer science. Concurrently scheduled with course CM224. Letter grading.

C144. Genomic Technology. (4) Lecture, three hours; discussion, one hour. Requisite: Life Sciences 4. Survey of key technologies that have led to successful application of genomics to biology, with focus on theory behind specific genome-wide technologies and their current applications. Concurrently scheduled with course CM244. P/NP or letter grading.

CM115. Human Genetics. (4) (Same as Microbiology CM116 and Molecular, Cell, and Developmental Biology CM116.) Lecture, three hours; discussion, two hours. Cross-listed with course CM118. Recommended: Molecular, Cell, and Developmental Biology 100 or C139 or M140. Application of genetic principles in human populations, with emphasis on cytogenetics, bioinformatics, gene therapy, and genetic testing. Topics include population substructure, human structural variation, association analysis, and computational and statistical bioinformatics. S/U or letter grading.

CM222. Mouse Molecular Genetics. (2) (Same as Microbiology CM222.) Lecture, two hours. Requisites: course CM115, Life Sciences 3, 4. Emphasis on use of mouse genetic approach to studying fundamental biological questions. Topics include mouse genome and functional genomics, mutagenesis screening and characterization, and applications of mouse genetics in developmental biology, stem cell biology, neurobiology, and modeling human genetic disorders. Reading materials include original papers and reviews. Concurrently scheduled with course CM122. S/U or letter grading.

CM224. Computational Genetics. (4) (Same as Computer Science CM224.) Lecture, three hours; discussion, one hour; outside study, eight hours. Topics include computational and statistical bioinformatics. Focus on sequence analysis, gene prediction, and genome assembly. S/U or letter grading.

M205. Stochastic Models in Biology. (4) (Same as Biostatistics M205.) Lecture, four hours. Requisites: Mathematics 115A, 115B, 131A, 131B, Statistics 100B. Topics include population genetics and computational interdiscip lar research in genetics. Topics include population genetics, linkage analysis, association analysis, and computational methods for sequencing and genotyping. Computational techniques include those from biology, statistics, and computer science. Concurrently scheduled with course CM124. S/U or letter grading.

M229S. Seminar: Current Topics in Bioinformatics. (4) (Same as Computer Science M229S.) Seminar, two hours. Lecture, three hours; laboratory, one hour. Enforced requisites: Life Sciences 3 or C139 or M140. Seminar in current topics in bioinformatics, with focus on current questions in fields of medical and human genetics and methodologies appropriate to answer such questions. Concurrently scheduled with course CM124. Letter grading.

M234. Genetic Technology. (4) Lecture, three hours; discussion, one hour. Requisite: Life Sciences 4. Survey of key technologies that have led to successful application of genetics to biology, with focus on the methods and techniques. Topics include population genetics and computational methods. Concurrently scheduled with course CM124. S/U or letter grading.
Program Requirements for UCLA

other specialized language area studies.

Indo-European linguistics and Indo-Iranian or

offered with two alternative major emphases:

Indo-European culture, based on comparative

Scope and Objectives

Christopher M. Stevens, Ph.D.

Joseph F. Nagy, Ph.D.

Faculty Advisory Committee

Vyascheslav V. Ivanov, Ph.D. (Slavic Languages and Literatures)

Stephanie W. Jamison, Ph.D. (Asian Languages and Cultures)

H. Craig Melchert, Ph.D. (Linguistics)

Joseph F. Nagy, Ph.D. (English)

Christopher M. Stevens, Ph.D. (Germanic Languages)

Brent H. Vine, Ph.D. (Classics)

The primae aim of the interdisciplinary Indo-European Studies Program is the integral study of Indo-European culture, based on comparative linguistics, archaeology, social structure, and religion. The Ph.D. in Indo-European Studies is offered with two alternative major emphases: Indo-European linguistics and Indo-Iranian or other specialized language area studies.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/

M278. Statistical Analysis of DNA Microarray Data. (4) (Same as Biostatistics M278.) Lecture, three hours. Requisite: Biostatistics 200C. Instruction in use of statistical tools used to analyze microarray data. Structure corresponds to analytical protocol an investigator might follow when working with microarray data. S/U or letter grading.

282. Human Genetics Seminar and Journal Club. (2) Seminar, 90 minutes; discussion, 90 minutes. Limited to graduate students. Participation and presentation in weekly journal club meeting whose topics reflect ones of the talk in Human Genetics Seminar Series during following week. Attendance and production of short written report required. S/U or letter grading.

596. Directed Individual Study and Research. (2 to 12) Tutorial, to be arranged. Individual study or research for graduate students. May be repeated for credit. S/U grading.

597. Preparation for M.S. Comprehensive Examination or Ph.D. Qualifying Examinations. (2 to 12) Tutorial, to be arranged. Individual study for M.S. comprehensive examination or Ph.D. qualifying examinations. May be repeated for credit. S/U grading.

250A-250B. European Archaeology. (4-4) Seminar, three hours. Studies in ancient European archaeological materials and their relationship to Near East, Western Siberia, and Central Asia. May be repeated for credit. In Progress (250A) and S/U or letter (250B).

C260. Indo-European Comparative Mythology and Poetics. (4) Seminar, three hours. Preparation: ability to read original sources in at least one ancient Indo-European language. Comparison of major Indo-European mythological and poetic traditions and reconstruction of their common sources. Topics include divinities and their names; symbolic systems in social context; myths, folk narratives, belief systems; relations with other traditions; literary continuations of mythopoetic material. Concurrently scheduled with course C160. S/U or letter grading.

Information Studies

Scope and Objectives

The Department of Information Studies has one of the top-ranked programs of its kind in the country and has developed an international reputation in the areas of information policy, information-seeking behavior, user interface development, archives, preservation, and cataloging. Whether students choose to pursue a master’s degree or a Ph.D., they graduate with a broad understanding of both theory and practice.

Students with master’s degrees go on to careers as librarians, archivists, and information professionals in a variety of organizational settings. The Ph.D. focuses on the preparation of scholars in the field.

For information about the department and programs, see http://lirs.gseis.ucla.edu.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Information Studies offers the Master of Library and Information Science (M.L.I.S.) degree and the Doctor of Philosophy (Ph.D.) degree in Information Studies.

One concurrent degree program (Library and Information Science M.L.I.S./Management M.B.A.) and one articulated degree program (Library and Information Science M.L.I.S./Latin American Studies M.A.) are also offered.

Information Studies

Lower Division Courses

10. Fundamentals of Information Searching and Evaluation. (5) Lecture, one hour; discussion, one hour; laboratory, two hours. Designed for first-year undergraduate students. Introduction to bibliographic and information searching techniques both general and specialized materials. Specifically designed to facilitate knowledgeable use of UCLA libraries and efficient retrieval of information. Letter grading.

20. Introduction to Information Studies. (5) Lecture, five hours. Designed for undergraduate students. Exploration of social, economic, cultural, ethical, and structural aspects of information, and issues that are critical, emergent, and dominant in society as information proliferates globally via networks and computer-mediated communication. Letter grading.

30. Internet and Society. (5) Lecture, five hours. Designed for undergraduate students. Examination of the roles of information technology in society, including Internet, World Wide Web, search engines (e.g., Google, Yahoo, Lycos), retrieval systems, electronic publishing, and distribution of media, including newspapers, books, and music. Exploration of many of these technologies, social, cultural, and political context in which they exist, and how social relationships are changing. Letter grading.

Upper Division Courses

100. Perspectives on Literacy. (4) Lecture, two hours; discussion, two hours. Designed for sophomores/juniors/seniors. Open to M.L.I.S. students and to graduate students from other schools/departments. Interdisciplinary introduction to literacy as a historical, social, and political issue. Topics include culture and literacy, historical development of literate societies, social definitions of illiteracy, literacy campaigns, literacy as a national and local policy issue. Letter grading.

110. Information Resources and Libraries. (5) Lecture, four hours; discussion, one hour; laboratory, two hours. Designed for sophomores/juniors/seniors. Not open for credit to M.L.I.S. students. Introduction to bibliographic and information resources that encompass both general and specialized materials as well as relevant research methodologies in social sciences, physical sciences, and humanities. Specifically designed to facilitate knowledgeable use of libraries and efficient retrieval of information. Letter grading.

111A-M111E. Ethnic Groups and Their Bibliographies. (4 each) Lecture, four hours. Introduction to bibliographical and research tools and methods for studying ethnic groups in ethnic group bibliographies on other ethnic groups may be added. Offered in collaboration with several centers for ethnic studies. Not repeated for credit. P/NP or letter grading. 111A, American Indian History and Culture; 111B, African American History and Culture; M111C, Latino History and Culture. (Same as Chicana and Chicano Studies M112.;) 111D, Asian American History and Culture; M111E, Jewish History and Culture. (Same as Jewish Studies M111E.)

180. Special Topics in Information Studies. (4) Lecture, three hours; discussion, one hour. Designed for juniors/seniors. Selected topics or issues related to social, cultural, political aspects of information and information systems. Consult Schedule of Classes for topics and instructors. May be repeated once for credit with topic change. P/NP or letter grading.

Graduate Courses

200. Information in Society. (4) Lecture, two hours; discussion, two hours. Examination of processes by which information and knowledge are created, integrated, disseminated, organized, used, and preserved. Topics include history of communication technologies, evolution of literacy, development of information professions, and social issues related to information access. Letter grading.

201. Ethics, Diversity, and Change in Information Professions. (4) Lecture, two hours; discussion, two hours. Service learning course that serves as forum to discuss, learn, and understand ethical challenges of multicultural information society that shape societal, professional community, and individual views and impact professional practice, decision making, and public policy. S/U grading.

208. Scholarly Communication and Bibliometrics. (4) Lecture, four hours. Preparation: one inferential statistics course. Survey of current theory, method, and empirical studies at intersection of scholarly communication and bibliometrics, seeking to understand flow of ideas through published record, whether in print, electronic form, or other media. Letter grading.

210. Design of Library and Information Services. (4) Lecture, two hours; discussion, two hours. Principles and methods for planning and designing user-driven library and information services. Principles and methods for assessing user needs of designated populations and for designing services that meet those needs. Letter grading.

Mary Niles Maack, D.L.S.
John V. Richardson, Ph.D.
Virginia A. Walter, Ph.D.
Professors Emeriti
Marcia J. Bates, Ph.D.
Harold Borko, Ph.D.
Robert M. Hayes, Ph.D.
Russell Shank, D.L.S.
Elaine Svenonius, Ph.D.
Diana M. Thomas, Ph.D.
Associate Professors
Philip E. Agre, Ph.D.
Claire Chu, Ph.D.
Jonathan Furner, Ph.D.
Gregory H. Leazer, D.L.S.
Assistant Professors
Jean-François Blanchette, Ph.D.
Steven Ricci, M.F.A., Ph.D.
Ramesh Srinivasan, Ph.D.
Lecturers
Murtha Baca, Ph.D.
Stuart Biegel, J.D.
Keri S. Botello, M.L.S.
Lynn Boyd, M.L.S.
David Cappoli, M.L.S.
Chris Chandler, M.A.U.P.
Mahnaz Ghaznavi, M.L.I.S.
Esther S. Grassian, M.L.S.
Joan Kaplowitz, Ph.D.
Julie Kwan, M.S.
Stacey McKeever, M.L.I.S.
Cynthia L. Medavilla, Ph.D.
Luis H. Mendes, M.L.I.S.
Eilene Meyers, M.L.S.
Teresa Portilla Omidsalar, M.L.S.
Alma Ortega, M.L.I.S., M.A.
Kristen St. John, M.L.I.S.
Joshua Sternfeld, Ph.D.
Stephen Tabor, M.L.S.
227. Information Services in Culturally Diverse Communities. (4) Lecture, four hours. Issues in provision of information services in multilingual and multicultural settings. Role of information institutions in promoting cultural diversity and preserving ethnic heritage. Letter grading.

228. Measurement and Evaluation of Information Systems and Services. (4) Lecture, two hours; discussion, two hours. Preparation: one research methods course. Recommended: one library automation course. Information systems and services from points of view of their cost and effectiveness in meeting desired objectives. Review of principles of costing. Study of literature in which measures have been developed to evaluate effectiveness of document collections, reference and information retrieval services, document delivery systems, networking, and technical services, including circulation, acquisitions, and document description. S/U or letter grading.

229C. Introduction to Slavic Bibliography. (2) (Same as Slavic M229.) Lecture, two hours. Introduction to Slavic and East European bibliography for the humanities and social sciences. Emphasis to be determined by requirements and background of enrolled students. Topics include relevant library terminology and concepts, survey of languages and transliteration systems; acquisition of Slavic and East European library materials; Slavic and East European scholarly literature in the West; relevant reference sources, archival resources, research tools; survey of online databases; compilation of bibliographies. S/U grading.

233. Records and Information Resources Management. (4) Lecture, three hours. Introduction to records and information resources management in corporate, government, and other organizational settings, including analysis of organizational information flow, classification and filing systems, records retention scheduling, records protection and security, reorganization and image management technology, and litigation support. Letter grading.

235. Historical Bibliography. (4) Lecture, four hours. Requisites: courses 200, 435. History of letterpress formats (books, broadsides, magazines, newspapers, some music, etc.) as well as materials and methods of production, distribution, and readership in their social, political, and economic context. Emphasis varies but is usually on developments prior to 1800. Attention to historiography of field, including antiquarian, Anglo-American, and histoire du livre approaches. Letter grading.

240. Management of Digital Records. (4) Lecture, three hours. Introduction to long-term management of digital records: administrative, preservation, imaging, or research systems and records. Topics include electronic recordkeeping, enterprise and risk management, systems analysis and design, metadata development, data preservation, and technological standards and policy development. Letter grading.

245. Information Access. (4) Lecture, four hours. Requisites: courses 200, 260. Provides fundamental knowledge and skills enabling information professionals to link users with information. Overview of structure of literature in different fields; information-seeking behavior of user groups; communication with users; development of search strategies using print and electronic sources. Letter grading.

246. Information-Seeking Behavior. (4) Lecture, three hours; discussion, one hour. Study of factors and influences, both individual and social, associated with human beings needing, using, and acting on information. Topics include information theory, human information processing, information flow among social and occupational groups, and research on information needs and uses. Letter grading.

251. Seminar: Specialized Literatures. (4) Seminar, four hours. Requisite: course 245. Exposure to major literatures across spectrum of disciplines in three broad areas: (1) arts and humanities, (2) social sciences, (3) natural sciences and engineering. Students become familiar with knowledge structures; emphasis on reference and information sources for scholarly research. Letter grading.

258. Legal Information Resources and Libraries. (4) Lecture, four hours. Introduction to information resources in law, with emphasis on primary authority and indexes to legal literature. Legal research skills. Law library services and management. Letter grading.

260. Information Structures. (4) Lecture, four hours; discussion, one hour. Required core course. Introduction to various systems and tools used to organize materials and provide access to them, with emphasis on generic concepts of organization, classification, hierarchy, arrangement, and display of records. Provides background for further studies in cataloging, reference, information retrieval, and database management. Letter grading.

270. Introduction to Information Technology. (4) Lecture, four hours. Introduction to theories and principles of information technologies. Topics include social issues of information technologies and design and development of information systems. Background provided for further studies in information retrieval and design and maintenance of information systems. S/U or letter grading.

272. Human/Computer Interaction. (4) Lecture, four hours. Preparation: one programming course, one information systems course, social, behavioral, and design, and evaluation issues in humancomputer interaction, with readings from several disciplines. Extensive use of technology demonstrations and class discussions. Recommended for students in any discipline involved in design or implementation of information technologies. Letter grading.

274. Database Management Systems. (4) Lecture, three hours; laboratory, two hours. Theories, principles, and practicalities of database systems, including data models, retrieval mechanisms, evaluation methods, and storage, efficiency, and security considerations. S/U or letter grading.

275. Development of Cultural Information Sources Using Digital Multimedia. (4) Lecture, two hours; laboratory, two hours. Overview of technologies, niches, and principles underlying development and packaging of cultural information resources into digital multimedia such as digital libraries, World Wide Web homepages, and CD-ROMs, as well as user, policy, presentation, motivation, and evaluation considerations. Letter grading.

277. Information Retrieval Systems: User-Centered Designs. (4) Lecture, two hours; discussion, two hours. Requisites: courses 245, 260. Design implications of interaction between users and features of automated information systems and interfaces that are specific to information-seeking process. Emphasis on search strategy and subject access through use of thesauri and other vocabularies. Letter grading.

279. Seminar: Information Systems. (4) Seminar, four hours. Preparation: at least one course from 246, 272, 276, 277, 455. Requisites: courses 200, 260. Content varies from term to term to allow emphasis on specialized topics such as vocabulary control, file design, indexing, classification, text processing, measurement of relevance, evaluation of information systems, and social and policy issues related to information technology and services. Letter grading.

280. Social Science Research Methodology for Information Studies. (4) Lecture, four hours. Understanding of nature, uses, and practice of research appropriate to information studies. Identification of research problems and design and evaluation of research. Social science quantitative and qualitative methods. Emphasis on inquiry methodology and empirical research. S/U or letter grading.

281. Historical Methodology of Information Studies. (4) Seminar, four hours. Requisites: courses 246, 272, 276, 277, 455. Content varies from term to term to allow emphasis on specialized topics such as vocabulary control, file design, indexing, classification, text processing, measurement of relevance, evaluation of information systems, and social and policy issues related to information technology and services. Letter grading.

282. Principles of Information Systems Analysis and Design. (4) Discussion, four hours. Theories and principles of systems development, including determination of requirements, technical design and evaluation, and internal organization. S/U or letter grading.

285. Introduction to Research Design and Methodology. (4) Seminar, three hours. Designed for Ph.D. students. Introduction to research traditions in library and information science: quantitative/qualitative social science methods, ethnographic/field approaches, and historical approaches. Epistemological foundations of research, formulating research questions, and designing appropriate research studies. Letter grading.
289. Seminar: Special Issues in Information Studies. (2 to 4) Seminar, two to four hours. Identification, analysis, and discussion of critical intellectual, social, and technological issues confronting the profession. Topics may include (but not limited to) expert systems, literacy, electronic networks, youth at risk, information literacy, historical bibliography, preservation of electronic media, etc. May be repeated with topic change. Letter grading.

290. Research Seminar: Information Studies. (1 to 2) Seminar, one to two hours. Designed for Ph.D. students. Emphasis on reading, exploration, research, and methodology. May be repeated for credit. S/U grading.

291A. Doctoral Seminar: Theoretical Traditions in Information Studies. (4) Seminar, one hour; discussion, two hours. Introduction to multiple approaches historically taken in study of information (e.g., library and information science, archival theory, social informatics). Assessment of influence of cognate disciplines (e.g., linguistics, mathematics, philosophy, sociology). Evaluation of epistemological accounts of information sciences. Letter grading.

291B. Doctoral Seminar: Research Methods and Design. (4) Seminar, one hour; discussion, two hours. Seminar integrates qualitative and quantitative research designs. Ethical issues: conceptualization and measurement; indexes, scales, and sampling; experimental, survey, field, and evaluation research; data analysis. Letter grading.

292. Information as Evidence. (4) Seminar, four hours. Through close reading of scholarly works, exploration of how certain objects (e.g., records, books, statistics) acquire their particular role as evidence of historical events, authorial intention, social phenomena, collective trauma, and more. Special attention to kind of interventions that must be staged so that these objects retain their evidential value while subject to gradual decontextualization, physical degradation, and competition from contradictory evidence. S/U or letter grading.

293. Doctoral Seminar: Information Retrieval. (4) Seminar, four hours. Designed for Ph.D. students. Intellectual principles for organization of information, including principles for design of systems for acquiring, organizing, and retrieving information. Also includes system-specific user studies to extent that design of information systems is predicated on their evaluation and use. S/U or letter grading.

294. Doctoral Seminar: Information Policy. (4) Seminar, four hours. Designed for Ph.D. students. Examination of social, political, and economic influences in development of library and information science and management of information organizations and resources. S/U or letter grading.

295. Doctoral Seminar: Information Seeking. (4) Seminar, four hours. Designed for Ph.D. students. Examination of behavioral and cognitive aspects of inquirer’s information needs and uses, including inquirer’s characteristics, information problems, psycholinguistic needs, and uses of information and information technologies, and aspects of question negotiation. S/U or letter grading.

296. Doctoral Seminar: Information Structures. (4) Seminar, four hours. Designed for Ph.D. students. Intellectual principles for organization of information, including principles for design of systems for acquiring, organizing, and retrieving information. System-specific user studies included to extent that design of information systems is predicated on their evaluation and use. S/U or letter grading.

297. Doctoral Seminar: Information Institutions and Professions. (4) Seminar, four hours. Designed for Ph.D. students. Examination of social theory and examination of several analytical frameworks that can be used to analyze social, cultural, and political roles of information institutions and professionals who direct them. Letter grading.

M299. Research Resources for European Studies. (2) Same as French M299, German M299, Italian M299, and Slavic M299. Twelve to twenty hours. Essentials of library research strategy and effective searching in key print and online resources for European and Russian studies. Through combination of lecture, online demonstration, and hands-on activities in and outside class, students understand how to efficiently use library and databases. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

400. Professional Development and Portfolio Design. (2 to 4) Lecture, two hours; discussion, two hours. Preparation: completion of information studies core courses. Drawing on literature from many fields, exploration of issues related to professional development, such as career planning, continuing education, mentoring, and reflective practice; students also engage in process of guided portfolio development for M.L.I.S. degree. S/U grading.

410. Management Theory and Practice for Information Professionals. (4) Lecture, two hours; discussion, two hours. Principles and practice of management in all types of organizations where information professionals are involved. S/U grading.

415. Library Personnel Management. (4) Lecture, four hours. Basic principles of personnel management. Survey of current personnel practices in libraries; how basic principles apply or need to be modified to fit library settings. S/U or letter grading.

416. Interpersonal Communication Issues in Library Systems. (4) Lecture, four hours. Examination of interpersonal communication patterns in library management and staff management, in resource sharing, and in providing information services. Emphasis on relationships within organizational environment and on effective communication styles in decision making, managing conflict, and implementing change. S/U grading.

422. College, University, and Research Libraries. (4) Lecture, four hours. Administration, collections, facilities, finances, and problems of college and university libraries and their relationships within institutions of which they are part. Functions of research libraries and types of staffs in serving scholars. S/U or letter grading.

425. Library Services and Programs for Children. (4) Lecture, two hours; discussion, two hours. Theory and practice of service to children in public libraries. Overview of professional services to children aged 14 and under; provides opportunities for students to gain experience in particular skills needed to provide that service. Letter grading.

426. Library Services and Literature for Youth. (4) Lecture, four hours. Overview of literature and programs which are of interest to young adults (seventh grade and above). Discussion of special problems in working with young people and psychology of teenagers. S/U or letter grading.

427. Library Personnel Management. (4) Lecture, four hours. Essentials of library research strategy and effective searching in key print and online resources for European and Russian studies. Through combination of lecture, online demonstration, and hands-on activities in and outside class, students understand how to efficiently use library and databases. S/U grading.

438A. Seminar: Advanced Issues in Archival Science — Archival Appraisal. (4) Seminar, four hours. Requires course 431. Exploration of historical archives and access systems in the U.S. and their development since World War II; data collection; access tools and implications of these issues in development of online archival access systems. Letter grading.

438B. Seminar: Advanced Issues in Archival Science — Archival Description and Access Systems. (4) Seminar, four hours. Requires course 431. Exploration of history of archival description and access systems in the U.S. and their development since World War II; data collection; access tools and implications of these issues in development of online archival access systems. Letter grading.

448. Information Literacy Instruction: Theory and Technique. (4) Lecture, four hours. History, theory, methods, and materials of user education/bibliographic instruction in libraries and other information retrieval environments. Examination of variety of user education/bibliographic instruction theories and methodologies, including overview of planning and administration. Identification of problems in user education/bibliographic instruction. Applications of methods of teaching use of libraries and information resources. S/U or letter grading.

455. Government Information. (4) Lecture, four hours. Introduction to nature and scope of government information provided by federal government, as well as by state, municipal, international, and foreign governments. Problem-oriented approach. S/U or letter grading.

457. Health Sciences Librarianship. (4) Lecture, four hours. Health sciences information resources and services, management of health sciences information resources and services, health sciences environment and policies, information systems and technologies. Letter grading.

Scope and Objectives
The mission of the UCLA Institute of the Environment (IoE) is to advance cross-disciplinary research, teaching, and public service on matters of critical importance to the planet and the campus community. The environment is defined broadly to include the interrelated issues of global climate change, loss of biological diversity, sustainability, and threats to human health and well-being from the use and misuse of natural resources, applying all the tools of scientific and policy analysis as well as moral and aesthetic values to the work. Los Angeles itself is a vital asset to this mission. As an international mega-city located in one of the world’s most biologically diverse regions, Los Angeles is a magnet for scholars from around the world who are facing similar issues of pollution, access to potable water, demand for energy to support economic growth, fragmentation of habitat, and the need to restore ecological function to sprawling urban settlements.

The IoE offers creative, multidisciplinary academic programs and courses that address the full complexity of current environmental problems. The Bachelor of Science degree in Environmental Science is an innovative dual-component degree program for students seeking a challenging and invigorating science curriculum. The first component, the Environmental Science major, provides students with disciplinary breadth in several areas important to environmental science. The second component is a minor or concentration in one of eight environmental science areas, each associated with a particular department. With assistance from Institute of the Environment staff, students must formally apply to and be accepted by the associated department to receive the minor.

Preparation for the Major
Required: Chemistry 14A, 14B, and 14BL (or 20A, 20B, and 20L), and Earth and Space Sciences 1 (required for the geology or geophysics and planetary physics minor) or Environment M10, Life Sciences 1, 2, Mathematics 3A and 3B (or 31A and 31B), Physics 1A and 1B (or 6A and 6B), Statistics 12 or 13.

For the atmospheric and oceanic sciences and environmental engineering minors, Mathematics 3C (or 32A) and Physics 1C (or 6C) are also required.

For the conservation biology minor, Chemistry and Biochemistry 14C (or 30A), Life Sciences 1, and 3 are also required.

For the environmental health concentration, Chemistry and Biochemistry 14C (or 30A) and Life Sciences 3 are also required.

For the environmental systems and society minor, two courses from Chemistry and Biochemistry 14C or 30A, Life Sciences 3, Mathematics 3C or 32A, and Physics 1C or 6C, and at least two courses from Astronomy 3, Earth

Undergraduate Study
Environmental Science B.S.
The Environmental Science B.S. program represents strong collaboration by the Institute of the Environment and the Departments of Atmospheric and Oceanic Sciences, Civil and Environmental Engineering, Earth and Space Sciences, Ecology and Evolutionary Biology, Environmental Health Sciences, and Geophysics. The program is designed for students who are deeply interested in the study of environmental science. There are two components to the program, and both must be completed to receive the degree. The first component, the Environmental Science major, requires completion of lower division requirements grounded in basic natural sciences, a six-course upper division environmental science requirement reflecting the disciplinary breadth of environmental science, two social sciences/humanities courses, participation in an ongoing environmental science colloquium, and completion of an environmental science practicum. The second component is a minor or concentration in one of eight environmental science areas, each associated with a particular department. With assistance from Institute of the Environment staff, students must formally apply to and be accepted by the associated department to receive the minor.
and Space Sciences 15, 16, 20, Ecology and Evolutionary Biology 13, 25, Environment M10, 14 are also required.

For the geography/environmental studies minor, two courses from Chemistry and Biochemistry 14C or 30A, Life Sciences 3, Mathematics 3C or 32A, and Physics 1C or 6C, plus Geography 5 and one course from 1, 2, 3, 4, or 6 are also required. Students should take these courses before enrolling in upper division courses.

For the geology minor, Earth and Space Sciences 1, 61, Mathematics 3C or 32A, and Physics 1C or 6C are also required.

For the geophysics and planetary physics minor, Earth and Space Sciences 1, 8, 9, Mathematics 3C or 32A, and Physics 1C or 6C are also required.

Transfer Students

Transfer applicants to the Environmental Science major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two general chemistry courses with laboratory for majors, two general biology courses with laboratory for majors, two calculus courses, and two calculus-based physics courses.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

The major consists of four requirements: environmental science, social sciences/humanities, practicum/colloquium, and minor or concentration, as follows:

Environmental Science Requirements

Required: One course from each of the following six core environmental science areas. No more than two courses may be taken in any one department. (1) One atmospheric and water science course from Atmospheric and Oceanic Sciences 101, 103, M105, 130, Earth and Space Sciences C132, 153, or Geography 105; (2) one climate science course from Atmospheric and Oceanic Sciences 102, Geography 102, 104, or M106; (3) one Earth science course from Earth and Space Sciences C113, 119, 135, 139, 150, Environment M127, Geography 100, or 101; (4) one ecology and conservation biology course from Ecology and Evolutionary Biology 100, 109, 116, 151A, 154, Environment 121, Geography 111, or 113; (5) one environmental management course from Environment M134, M135, 160, or Public Policy C115; (6) one pollutant sources, treatment, fate, and transport course from Atmospheric and Oceanic Sciences 104, Chemical Engineering C118, Civil and Environmental Engineering 153, 154, M166, Environmental Health Sciences 100, C125, C152D, or C164.

Social Sciences/Humanities Requirements

Required: (1) One humans and environment course from Environment M132, M133, M137, M153, Geography M128, M137, M135, 145, 150, 156, or Philosophy 125; (2) one policy and politics course from Environment 138, M155, M161, M162, or M164.

Practicum/Colloquium Requirements

Minor and Concentration Requirements

No more than two of the courses below may be applied toward both these minors and concentrations and a major or minor in another department or program. Successful completion of a minor is indicated on the transcript and diploma.

For the atmospheric and oceanic sciences minor, at least two courses from Atmospheric and Oceanic Sciences 101, 102, 103, 104 and five courses from Atmospheric and Oceanic Sciences C110, C115, 130, 145, C160, C170, Chemistry and Biochemistry 110A are required. One course may be taken on a Passed/Not Passed basis.

For the conservation biology minor, Ecology and Evolutionary Biology 100, 116 (or Environment 121), and four to six courses from 101, 103, 105, 109, 111, 112, 114A, 122, 129, 151A, 154, 176, 180 are required.

For the environmental engineering minor, Civil and Environmental Engineering 153 and five courses from 151, 154, 155, 156A, M166, Chemical Engineering C118, Environmental Health Sciences C125, C164 are required.

For the environmental health concentration, Environmental Health Sciences 100, 135, Epidemiology 100, and three courses from Chemistry and Biochemistry 153A, Environmental Health Sciences C125, C140, C152D, C157, C164, 203 are required.

For the environmental systems and society minor, five courses from Environment M109, M111, 121, 122, M132, M133, M134, M135, M137, 138, M153, M155, 160, M161, M164 are required.

For the geography/environmental studies minor, three courses from Geography M106, M107, M109, 110, 113, M115, 116, 120, 121, 122, 123, 124, 125, 126, M127, M128, 129, 131, 132, 135, 136, M137, 159C, 159D, 159E, and any two additional upper division geography courses (except those from the preceding list and courses 194 through 199) are required.

For the geology minor, Earth and Space Sciences 112, 119, and three courses from C107, 116, 125, C132, 133, 134, 139, 150 are required.

For the geophysics and planetary physics minor, Earth and Space Sciences 134, 135, and three courses from M140, 152, 153, 154, 155 are required.

Each course applied toward requirements for preparation for the major and the minor, except Environment 170, must be taken for a letter grade and passed with a grade of C– or better. Students must maintain an overall grade-point average of 2.0 (C) or better in all courses applied toward the major.

Environmental Systems and Society Minor

The Environmental Systems and Society minor is designed for students who wish to augment their major program of study with courses addressing the relationships between environmental science and associated social and political issues. The minor seeks to impart a deeper understanding of environmental systems related to air, land, and water resources, providing a basis for sound professional decision making.

To enter the minor, students must be in good academic standing (2.0 grade-point average) and file a petition at the Institute of the Environment, 300 La Kretz Hall, (310) 206-9193.

Required Lower Division Courses (8 units): At least two courses from Astronomy 3, Atmospheric and Oceanic Sciences 1, 2, 3, Earth and Space Sciences 1, 15, 16, 20, Ecology and Evolutionary Biology 10, 13, 25, Environment M1A, M1B, M10, 14, Geography 1, 2, 5.

Required Upper Division Courses (20 units): At least five courses from Environment M109, M111, 121, 122, M132, M133, M134, M135, M137, 138, M153, M155, 160, M161, M164.

No more than 8 units may be applied toward both this minor and any other major or minor program, and at least 16 units applied toward the minor must be taken in residence at UCLA. Transfer or substitution of credit for any of the above is subject to institute approval; consult an academic adviser at the institute before enrolling in any courses for the minor.

Each minor course must be taken for a letter grade, with a minimum grade of C (2.0) in each and an overall C average. Successful completion of the minor is indicated on the transcript and diploma.

Environment

Lower Division Courses

M1A-M1B-M1CW. Global Environment. (5-5-5)
(Same as GE Clusters M1A-M1B-M1CW) Course M1A is enforced requisite to M1B, which is enforced requisite to M1CW. Limited to first-year freshmen. Letter grading. M1A-M1B. Multidisciplinary Perspectives I, II. Lecture, three hours; discussion, two hours. Human effects on Earth's ecosystem and social and technological solutions to environmental pollution and overpopulation. History and ecology in lectures; laboratory exercises included in discussions. M1CW. Special Topics. Seminar, three hours. Enforced requisites: course M1B, and English Composition 3 or 3H or English as a Second Language 36. Examination of specialized environmental topics such as air and water, global warming, and feeding Earth's population. Satisfies Writing II requirement.
M109. Human Impact on Biophysical Environment: What Science Has Learned. (4) (Same as Geography M109.) Lecture; three hours, reading period one, one hour. Designed for juniors/seniors. Examination of history, mechanisms, and consequences of interactions between humans and environment. Exploration in depth of three thematic topics (deforestation, desertification, and greenhouse gas increase and ozone depletion) and four major subjects (soil, biodiversity, water, and land) using knowledge gained during course. Letter grading.

124. California Sustainable Development: Ecomomic Perspective. (4) (Same as Public Policy M149 and Urban Planning M163.) Lecture; three hours. Examination of specific environmental challenges and policies related to California. Microeconomic perspective used, with special emphasis on incentives of polluters to reduce their pollution and incentives of local, federal, and state government to address these issues. Focus on measurement and empirical hypotheses testing. P/NP or letter grading.

127. Soils and Environment. (5) (Same as Ecology and Evolutionary Biology M127 and Geography M128.) Lecture; five hours, discussion; one hour. General treatment of soils and environmental implications: soil development, morphology, and world-wide distribution of soil orders; physical, chemical, hydrologic, and biological properties; water use, erosion, and pollution in agricultural systems, as related to plant growth and distribution. P/NP or letter grading.

131SL. Gender and Sustainability: Local-Global Connections. (5) Same as Women's Studies M131SL. Lecture; two hours; discussion, one hour. Focus on measurement and empirical hypotheses testing. P/NP or letter grading.

132. Environmentalism: Past, Present, and Future. (4) (Same as History M115 and Urban Planning CM165.) Lecture; three hours. Exploration of the history and origin of major environmental ideas, movements or countermovements since the 17th century. Growth and development of American conservation movements. Review of politics of American environmental thought and contemporary environmental questions as they relate to broader set of questions about nature of development, sustainability, and environmentalism. In introduction to early ideas of environment, how rise of modern sciences reshaped environmental thought, and how this was later transformed by 19th-century ideas of the rise of American conservation movements. Letter grading.

133. Environmental Sociology. (4) (Same as Sociology M115.) Lecture; three hours; discussion; one hour. Analysis of factors of society and environment. Scalability and effects of social organizations; need to conserve soil and maintain environmental quality. Scope includes agriculture, forest engineering, mining, and other rural uses of land. P/NP or letter grading.

139. Effective Methods of Social Change. (4) (Formerly numbered 188.) Lecture, four hours. Introduction to most effective methods of social change. Examination of social Movements, innovation, and visionaries. Review of traditional methods of activism and new theories of nonviolent social change. Case studies of success in restoring environment, resolving conflicts, and helping people and society in addressing other problems of social injustice as well as reviewing actual strategies and methods for social change in the 21st century. Challenges that nonprofit advocates and community activists face today, including strategic planning, time management, networking, and fund-raising. P/NP or letter grading.

153M. Introduction to Sustainable Architecture and Community Planning. (4) (Same as Architecture and Urban Design CM153.) Lecture; three hours. Relationship of built environment to natural environment through whole systems approach, with focus on sustainable design of buildings and planning of communities. Emphasis on energy efficiency, renewable energy, and appropriate use of resources, including materials, water, and land. Letter grading.

155. Energy in Modern Economy. (4) (Same as Physics M155.) Lecture; four hours. Requisites: Mathematics 3A and 3B (or 31A and 31B), Physics 1A and 1B (or 6A and 6B), Statistics 12 or 13. Examination of physics of energy, history of energy development, and role that economy, particularly in transportation and power grid. Prospects for decreasing availability of fossil fuels and impact of global warming on energy development. Current and potential future government and social responses to energy issues. P/NP or letter grading.

161. Global Environment and World Politics. (4) (Same as Political Science M122B.) Lecture; three or four hours; discussion; one hour (when scheduled). Recommended requisite: Political Science 20. Politics and policy of major global environmental issues such as climate change, integrating law, policy, and political science perspectives. Emphasis placed on role of diffuse advocates and community activists face today, including strategic planning, time management, networking, and fund-raising. P/NP or letter grading.

162. Land Use and Development. (4) (Same as Urban Planning M162.) Lecture; four hours. Examination of institutional and historical evolution of land use in U.S. Comparison and contrasting of how cities have evolved in different parts of the U.S. and some recent trends in urbanization. Relationships of state-level land-use policies and politics and ways in which localities plan. Environmental, social, and equity aspects of different patterns of urbanization and likely trends into future. Letter grading.

164. Environmental Politics and Governance. (4) (Same as Urban Planning CM160.) Lecture; three hours. Environmental planning is more than simply finding problems and fixing them. Each policy must be negotiated and implemented within multiple, complex systems of governance. Institutions and politics matter. Overview of how environmental governance works in practice and how it might be improved. Letter grading.

165. Nuclear Weapons: Critical Decisions. (4) (Same as Honors Collegium M119, Public Policy M116, and Political Science M338.) Lecture; three hours. Examination of critical decisions regarding nuclear weapons, particularly in light of President Roosevelt’s decision to build atomic bomb and ending with current policies on containing nuclear proliferation and on avoiding nuclear catastrophe. Letter grading.

170. Environmental Science Colloquium. (1) Seminar, 90 minutes; one field trip. Limited to undergraduate students. Study of current topics in environmental science, including participation in colloquium series and field trips. May be repeated for credit. P/NP grading.
180A. Practicum in Environmental Science. (4) Lecture, three hours; discussion, two hours. Limited to junior/senior Environmental Science majors. Examination of case studies and presentation of tools and methodologies in environmental science, building on what students have been exposed to in other courses. Letter grading.

188B-180C. Practicum in Environmental Science. (4-4) Laboratory, three hours. Enforced requisite: course 180A. Course 180B is enforced requisite to 180C. Limited to junior/senior Environmental Science majors. Investigation of various aspects of one environmental case study representing actual multidisciplinary issue. Particular emphasis on developing skills required for working as professionals in this field. Field work may involve investigations, original data collection and analysis, mapping and geographic information systems, and environmental policy and law issues. Case study to be defined and conducted with collaboration of local agency or nonprofit institution. Letter grading.

184. Basics of Satellite Oceanography. (4) Lecture, two hours; discussion, one hour; computer laboratory, three hours. Remotely sensed data collected since late 1970s provide oceanographers with large volume of information on state of surface of world ocean, including sea surface temperature measured by infrared sensors, anomalies of sea winds measured by scatterometers, and water color properties measured by optical sensors. Multidiscipline information enables comprehensive monitoring of both physical and biological properties of ecosystems in different ocean regions. P/NP or letter grading.

185. Speaker Series: Sustainability. (1) Lecture, two hours. Series of lectures by world-renowned authors, environmentalists, and progressive thinkers, to expose students to the concerns of the developing countries of Asia, Eastern Europe, Africa, the Middle East, and Latin America. Letter grading.

199. Directed Research in Environment. (2 to 4) Research or investigation under guidance of faculty mentor. Progress report must be submitted to faculty advisor. May be taken for maximum of 4 units. Independent study involving travel, study, and/or work in the developing world. Letter grading.

180B-180C. Practicum in Environmental Science. (4-4) Laboratory, three hours. Enforced requisite: course 180A. Course 180B is enforced requisite to 180C. Limited to junior/senior Environmental Science majors. Investigation of various aspects of one environmental case study representing actual multidisciplinary issue. Particular emphasis on developing skills required for working as professionals in this field. Field work may involve investigations, original data collection and analysis, mapping and geographic information systems, and environmental policy and law issues. Case study to be defined and conducted with collaboration of local agency or nonprofit institution. Letter grading.

184. Basics of Satellite Oceanography. (4) Lecture, two hours; discussion, one hour; computer laboratory, three hours. Remotely sensed data collected since late 1970s provide oceanographers with large volume of information on state of surface of world ocean, including sea surface temperature measured by infrared sensors, anomalies of sea winds measured by scatterometers, and water color properties measured by optical sensors. Multidiscipline information enables comprehensive monitoring of both physical and biological properties of ecosystems in different ocean regions. P/NP or letter grading.

185. Speaker Series: Sustainability. (1) Lecture, two hours. Series of lectures by world-renowned authors, environmentalists, and progressive thinkers, to expose students to the concerns of the developing countries of Asia, Eastern Europe, Africa, the Middle East, and Latin America. Letter grading.

199. Directed Research in Environment. (2 to 4) Research or investigation under guidance of faculty mentor. Progress report must be submitted to faculty advisor. May be taken for maximum of 4 units. Independent study involving travel, study, and/or work in the developing world. Letter grading.

Faculty Advisory Committee
Edward A. Alpern, Ph.D. (History)
Andrew Apter, Ph.D. (Anthropology, History)
César J. Ayala, Ph.D. (Sociology)
Ali Behdad, Ph.D. (Comparative Literature, English)
Judith A. Carney, Ph.D. (Geography)
Frederico S. Finan, Ph.D. (Economics)
Sondra Hale, Ph.D. (Anthropology, Women's Studies)
Patrick Heuveline, Ph.D. (Sociology)
Edmond Keller, Ph.D. (Political Science)
Nancy E. Levine, Ph.D. (Anthropology)
Daniel N. Posner, Ph.D. (Political Science)
Michael L. Ross, Ph.D. (Political Science)
Mary A. Yeager, Ph.D. (History)

Scope and Objectives
The International Development Studies major offers an interdisciplinary study of the critical issues of the developing world, such as poverty, human rights, global health, civil war, economic growth, and global inequality. The curriculum exposes students to the concerns of the developing countries of Asia, Eastern Europe, Africa, the Middle East, and Latin America.

An understanding of these issues is indispensable for both practical and scholarly purposes. While encouraging the acquisition of theoretical and conceptual knowledge, the program is equally concerned with its practical application to global realities. The program values field experience involving travel, study, and/or work in the developing world.

Undergraduate Study
International Development Studies B.A.

Preparation for the Major
Required: Economics 1 or 2; one statistics course from Economics 41, Political Science 6, 6R, Statistics 10, or 12; four social sciences courses, each from a different department, selected from Anthropology 9, Geography 3, 4, 5, 6, History 8A, 8B, 8C, 9A, 9D, 9E, M10A, 10B, 10BW, 11B, 21, 22, Political Science 20, 50, 50R, Sociology 1; and demonstrated proficiency in one modern foreign language equivalent to level 6 at UCLA. Each course must be taken for a letter grade.

After satisfying the preparation for the major requirements, students must meet with the academic counselor in 10357 Bunche Hall to declare the International Development Studies major.

Transfer Students
Transfer applicants to the International Development Studies major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one introductory economics course, one statistics course, and four courses selected from four of the following five fields: sociocultural anthropology, cultural or economic geography, world history, comparative politics, and introductory sociology.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Admission to the major is based on completion of all nonlanguage preparation courses and one modern foreign language equivalent to level 5 at UCLA, with a cumulative minimum grade-point average of 2.0. Any remaining language courses may be completed after students have been admitted to the major.

The major consists of four required parts (courses marked with an asterisk have requirements). Each course must be taken for a letter grade.

Eastern Europe and West Central Asia: Anthropology 175R, Czech 155, History 107C, 107E, 120A through 120D, 127B, 127C, Political Science 128B, 156A through 156D, Romanov 152, Russian 119, 120, 125, 126, 127, 131, Serbian/Croatian 154, Slavic 125, 126, Women's Studies M127

Latin American Studies 191, Political Science 124C, 131, 154A, 154B, Portuguese 141, Sociology M178, 186, Spanish 161, Women's Studies M144

Honors Program

 Majors who have completed International Development Studies 100A and M100B and who have a 3.5 grade-point average in all courses offered for the major are eligible to formally apply for the honors program. In addition to completing all courses required for the major, students must take courses 198A, 198B, and 198C, in which they research, write, and present an honors thesis. To receive honors at graduation, students must have at least a 3.5 GPA in courses applied toward the major (including 198A, 198B, 198C) and an overall GPA of 3.0.

Highest honors are awarded to students who complete the major (including courses 198A, 198B, 198C) with a 3.75 GPA and who produce an exceptional thesis.

Steven D. Nelson, Ph.D. (Art History)
Ismael K. Poornawala, Ph.D. (Near Eastern Languages and Cultures)
Hossein Ziai, Ph.D. (Near Eastern Languages and Cultures)

Scope and Objectives
The Islamic Studies Interdepartmental Program encompasses the broadest cultural concerns in the study of Islamic civilizations. It provides opportunities for study of the major languages, literatures, history, culture, and religious traditions of the populations of regions where Islamic-influenced civilizations have had, or continue to have, the greatest impact. Linguistics skills, historical knowledge, and cultural understanding are the foundation on which the disciplinary paradigms and methodologies of both the social sciences and humanities may be applied. Within this broad framework, students are encouraged to construct individualized curricula that will prepare them to carry out cutting-edge dissertation research leading to the Ph.D.

The Master of Arts and Ph.D. degrees in Islamic Studies are designed primarily for students desiring to prepare for an academic career. They may, however, be found useful for students desiring a special emphasis in this particular area or for those who plan to live and work in predominantly Muslim areas and whose career will be aided by a knowledge of the people, languages, and institutions.

The undergraduate major in this discipline is called Middle Eastern and North African Studies. For details, see the program by that name later in this section.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Islamic Studies Program offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Islamic Studies. A concurrent degree program (Islamic Studies M.A./Public Health M.P.H.) is also offered.

Islamic Studies
Graduate Course
200. Introduction to Islamic Studies. (4) Seminar, three hours. Introduction to various disciplines and methods employed in study of Islamic histories, cultures, and societies, with special emphasis on methodologies and current theories and how they may be used and combined by Islamic studies students. Content varies each year. Letter grading.

ITALIAN

Steven D. Nelson, Ph.D. (Art History)
Ismael K. Poornawala, Ph.D. (Near Eastern Languages and Cultures)
Hossein Ziai, Ph.D. (Near Eastern Languages and Cultures)

Scope and Objectives
Italian art and letters provide an invaluable key to understanding many facets of European civilization. Examined in its own right or studied comparatively, Italian culture offers unmatched rewards. The UCLA faculty views transmitting the Italian language as inseparable from transmission of the culture, so students consider in depth virtually all aspects of Italian civilization. After their linguistic initiation, ideally including a year abroad, students may pursue advanced studies in the department exclusively and through a wide range of interdisciplinary programs.

Bachelor of Arts degrees are offered in Italian and in Italian and Special Fields. Graduate study leads to the Master of Arts degree in Italian (with specializations in literature and language) and to the Ph.D. (literature specialization). In addition, the department participates extensively in the interdepartmental graduate program in Romance Linguistics and Literature.

Undergraduate Study
Italian B.A.

The program of studies leading to the Bachelor of Arts in Italian consists of two distinct phases: preparation in the language and study of the literature and culture. While literature courses constitute the bulk of the program, good knowledge of the language is requisite to most upper division literature courses credited toward the major in Italian. The uniqueness of Italian is stressed at all levels of study. Detailed information on programs and specific degree requirements is available from the department.

Preparation for the Major
Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46.

Transfer Students
Transfer applicants to the Italian major with 90 or more units must complete the following introductory courses prior to admission to UCLA:
two years of Italian and one Italian civilization or culture course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Required: Thirteen upper division Italian courses, including 100, 103A, 103B, 113, 114A or 114B, 116A or 116B; one course from 118 or 119; one course from 120 or 121; four courses from 114A through 191; 180. One upper division elective course in a field relevant to Italian studies from outside the department may be substituted with consent of the undergraduate adviser.

Majors who select courses taught in English must do additional work from the original Italian texts in consultation with the course instructor.

Italian and Special Fields

B.A.

Students with special interests or professional goals may select this major, with coursework divided between Italian and a collateral field. Study programs fulfilling requirements for the major have been developed with the departments and programs listed below.

Majors who select courses taught in English must do additional work from the original Italian texts in consultation with the course instructor.

Transfer Students

Transfer applicants to the Italian and Special Fields major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of Italian and related courses in civilization, culture, history, linguistics, literature, and closely related languages.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

Anthropology Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B; Anthropology 8 or 9, and 33.

The Major

Required: Italian 100, 103A or 103B, 180, 195, and three courses from 113 through 191 selected in consultation with the undergraduate adviser; five courses from Anthropology 111, 112, M115A, M115B, C115R, 130, 133Q, 135A, 135B, 135C, 135S, 135T, 139, M140, 141, 143, 150 through M154Q, 161, 162, 183 selected in consultation with the undergraduate adviser.

Art History Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46; Art History 50 or 51, 54, 57.

The Major

Required: Italian 100, 103A or 103B, 195, and four courses from 113 through 191 selected in consultation with the undergraduate adviser; six courses from Art History M102F, M102G, M102H, 105A through 105D, 105F, 106A through 106D, C109A, 109C, 110A, 110B, 110F, 127, 150D selected in consultation with the undergraduate adviser.

Classics Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B; Classics 10 or 20, 40W or 41W, and Greek 1, 2, 3 or Latin 1, 2, 3, or equivalent.

The Major

Required: Italian 100, 103A or 103B, 180, 195, and two courses from 113 through 191 selected in consultation with the undergraduate adviser; Greek 100 or Latin 100, one course from Classics 141 through 197, and one course from Greek 101A through 133 or Latin 101 through 133 (graduate seminars may be substituted for upper division author courses) selected in consultation with the undergraduate adviser.

English Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B; English Composition 3, English 4W, 10A, 10B, 10C.

The Major

Required: Italian 100, 103A or 103B, 195, and four courses from 113 through 191 selected in consultation with the undergraduate adviser; six courses from Philosophy 1 through 31.

Music History Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, Music History 2A, 2B, 26A, 26B, 26C. Recommended: Music 20A, 20B, 20C.

The Major

Required: Italian 100, 103A or 103B, 180, 195, and three courses from 113 through 191 selected in consultation with the undergraduate adviser; six courses from Music History 126A, 126B, 126C, 135A, 135B, 135C, 191A through 191G selected in consultation with the undergraduate adviser.

History Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46; one course from History 1A, 1B, 1C, 88.

The Major

Required: Italian 100, 103A or 103B, 195, and four courses from 113 through 191 selected in consultation with the undergraduate adviser; one course from French 114A, 114B, 114C, and three courses from 115 through 142 selected in consultation with the undergraduate adviser.

Film and Television Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46; Film and Television 54, 57.

The Major

Required: Italian 100, 103A or 103B, 195, and four courses from 113 through 191 selected in consultation with the undergraduate adviser; six courses from French 114A, 114B, 114C, and three courses from 115 through 142 selected in consultation with the undergraduate adviser.

Philosophy Field

Preparation for the Major

Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B; one course from Philosophy 1 through 31.

The Major

Required: Italian 100, 103A or 103B, 195, and four courses from 113 through 191 selected in consultation with the undergraduate adviser; Philosophy 100A, 100B, 100C, and three courses from M101A through 185 selected in consultation with the undergraduate adviser.
Political Science Field
Preparation for the Major
Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B; Political Science 10, 20.

The Major
Required: Italian 100, 103A or 103B, 195, and four courses from 113 through 191 selected in consultation with the undergraduate adviser; six courses from Political Science M111A through 113A, 116A through 119, 137A, 137B, 139, 153A, 155, 167A selected in consultation with the undergraduate adviser.

Portuguese Field
Preparation for the Major
Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B; Portuguese 1, 2, 3, 25, M42 or M44 or 46.

The Major
Required: Italian 100, 103A or 103B, 180, 195, and three courses from 113 through 191 selected in consultation with the undergraduate adviser; three courses from Portuguese 120A through 191 selected in consultation with the undergraduate adviser.

Spanish Field
Preparation for the Major
Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B; Spanish 1, 2, 3, 4, 5, (or equivalent as determined by placement test), M42 or M44.

The Major
Required: Italian 100, 103A or 103B, 180, 195, and three courses from 113 through 191 selected in consultation with the undergraduate adviser; one course from Spanish 120A or 120B and three courses from 122 through 161 selected in consultation with the undergraduate adviser.

Theater Field
Preparation for the Major
Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46, 50A, 50B.

The Major
Required: Italian 100, 103A or 103B, 122, 195, and three courses from 113 through 191 selected in consultation with the undergraduate adviser; one course from Theater 101A, 101B, 101C and five courses from 105, 111A, Classics 143A, English 142A, 142B, 142C, 168 selected in consultation with the undergraduate adviser.

Women’s Studies Field
Preparation for the Major
Required: Italian 1, 2, 3, 4, 5, 6, and one course from 42A, 42B, 46; Women’s Studies 10.

The Major
Required: Italian 100, 103A or 103B, M158, 195, and three courses from 113 through 191 selected in consultation with the undergraduate adviser; Women’s Studies 110A or 110B, and five additional upper division courses from any of the women’s studies course lists selected in consultation with the undergraduate adviser.

Study in Italy
Students are encouraged to spend up to one year in Italy either to (1) study with an education abroad program or (2) study in an Italian university. They are also urged to take advantage of summer language workshops and study programs, including UCLA’s own programs in Italy and Los Angeles. For additional information, contact the Education Abroad Program, B300 Murphy Hall, or the Summer Sessions Office, 1147 Murphy Hall.

Honors Program
Majors with an overall grade-point average of 3.25 and a 3.5 GPA or better in Italian are eligible to participate in the honors program. Requirements: Italian 102A, 102B, 102C.

Candidates select three upper division literature courses in which additional readings are required. In the last term of the senior year, they are required to write a thesis on a subject related to one of the three above-mentioned courses. The average for the three courses may not fall below A–. Applications should be made during the last term of the junior year.

Italian Minor
To enter the Italian minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Courses (12 units):
Italian 5, 6, and one course from 42A, 42B, 46, 50A, 50B.

Required Upper Division Courses (20 units):
Italian 100 and four additional Italian courses.

Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of Italian offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Italian.

Italian
Lower Division Courses
1. Elementary Italian — Beginning. (4) Lecture, five hours. P/NP or letter grading.
2. Special Reading Course. (4) Readings, three hours. Open to graduate students in other fields. Preparation for Graduate Division foreign language reading requirement. S/U grading.

2G. Special Reading Course. (4) Readings, three hours. Open to graduate students in other fields. Preparation for Graduate Division foreign language reading requirement.

8A-8B-8C. Italian Conversation. (2-2-2) Seminar, three hours. Enforced requisite for course 8A: course 2; for 8B: course 3; for 8C: course 4. Each course may be repeated once for credit. P/NP or letter grading.

9. Intensive Italian. (12) Lecture, 20 hours. Intensive language program equivalent to first year of college Italian (courses 1, 2, 3) and designed to develop basic language skills. Offered in summer only. P/NP or letter grading.

42A-42B-42C. Italy through the Ages in English. (5-5-5) Lecture, four hours; discussion, one hour. P/NP or letter grading.

42A. Holy Roman Empire to the Fall of Rome. Survey of Italy’s unique contribution to Western civilization in history, politics, philosophy, arts, and popular culture from time of Charlemagne to High Renaissance. 42B. Late Renaissance to Postmodern Period. Influence and effects of baroque sculpture and architecture, Galileo, Enlightenment, unification of Italy, Fascism, terrorism, and cinema. 42C. Food and Literature in Italy. Profile of Italian history and culture through analysis of gastronomic and literary texts. Special emphasis on late Middle Ages, Renaissance, and Risorgimento.

46. Italian Cinema and Culture in English. (5) Lecture, screenings, five hours; discussion, one hour. Special topics in Italian culture as reflected and reinforced by the nation’s prime artform, styling aesthetics and ideology of films, contemporary Italian history, and politics. Rotating topics include sex and politics, comedy, integration, family networks, and neorealism. P/NP or letter grading.

50A-50B. Masterpieces of Italian Literature in English. (5-5) Lecture, four hours; discussion, one hour. P/NP or letter grading.

50A. Middle Ages to Barbarism. Reading philosophical, religious, and sociopolitical issues in Europe, examined in authors such as St. Francis, Dante, Boccaccio, Petrarch, Lorenzo de’ Medici, Machiavelli, Castiglione, Ariosto, and Tasso. 50B. Enlightenment to Postmodernity. Comparative study of major literary texts and their adaptations into different forms of public spectacle, including theater, opera, and film. Works by Goldoni, Gozzi, Mascagni, Verga, Pirandello, Calvino, Ortese, Zavattini, de Sica, and Taviani Brothers. Emphasis on development of ideas of spectacle.

Upper Division Courses
102A-102B. Italian Cultural Experience in English. (4-4-4) Lecture, three hours. Study of cultural development of Italy. P/NP or letter grading. 102A. Roots of Italy. Social and artistic achievements of communal society; Marco Polo, Dante, Boccaccio, Giotto, rise of Italian merchant class. 102B. Renaissance discovery of human genius, crucial period between Machiavelli and Galileo leading Italy and Europe to scientific revolution. 102C. Birth of Italian nation from wars of independence to foundation of modern Italy. Delineation of narrative and cinema in historical context.

103A-103B. Introduction to Italian Literature and Literary Analysis. (4-4-4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Italian literature from 1150 to present, with emphasis on methods of interpreting literary form and meaning in poetry, drama, epic, and novel. P/NP or letter grading.

103C. Romanticism, Politics, and Disillusionment. (4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Great poetry and dialogues of Gaetano Leopardi; patriotic literature accompanying rise of modern Italian state; futurism, surrealism, neo-realism, and postmodernism. Authors may include Alessandro Manzoni, Verga, Pirandello, Calvino, and Dario Fo. P/NP or letter grading.

110. Dante in English. (4) Lecture, three hours. Close study of one of world’s greatest literary geniuses, particularly of his masterpiece, Divina Commedia; the archetypal medieval journey through the afterworld. P/NP or letter grading.

113. Dante’s La Divina Commeda. (4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Study of medieval philosophy, religion, and politics in Dante’s text. Emphasis on Dante’s role in Italian literature through his translation into film and of different techniques in two forms of expression. Texts include literary works, screenplays, and works on literary and film theory. P/NP or letter grading.

121. Literature and Film. (4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Comparative study of specific literary works and their translation into film and of different techniques in two forms of expression. Texts include literary works, screenplays, and works on literary and film theory. P/NP or letter grading.

122. Italian Through Opera. (4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Profile of Italian history and culture through analysis of operatic documents and literary texts, with special emphasis on late Middle Ages, Renaissance, and Risorgimento. Emphasis on relation of food and health sciences through analysis of Regimina Sanitatis, authored by various medical doctors of Salernitan Schools and Platonismo della buona salute. P/NP or letter grading.

124. Food and Literature in Italy. (4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Profile of Italian history and culture through analysis of gastronomic documents and literary texts, with special emphasis on late Middle Ages, Renaissance, and Risorgimento. Emphasis on relation of food and health sciences through analysis of Regimina Sanitatis, authored by various medical doctors of Salernitan Schools and Platonismo della buona salute. P/NP or letter grading.

125. Italian through Opera. (4) Lecture, three hours. Enforced requisite: course 6. Conducted in Italian. Introduction to traditional Italian opera as means of appreciating culture of Italy, art form of opera, and study of Italian language at advanced level through reading of libretti. Six masterworks of Italian opera tradition — Il Barbiere di Siviglia, La Bohème, Pagliacci, Otello, Tosca, and Madama Butterfly. Presentation of authentic contexts to learn about operas, their characters, plots, settings, and themes. Exploration of various historical, political, and cultural issues raised in each opera. P/NP or letter grading.

140. Italian Novella from Boccaccio to Basile in Translation. (4) Lecture, three hours. Analysis of development of Italian novella in its structure, historical context, and folk material. Emphasis on how Italian novelle influenced other European literatures. P/NP or letter grading.

141. Italian Renaissance. (4-4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Study of philosophical and political prose, satire, poetry, and dramatic and birth of modern spirit through writings of Vico, Montesquieu, Parini, and Alfieri. P/NP or letter grading.

180. History of Italian Language. (4) Lecture, three hours. Enforced requisite: course 100. Conducted in Italian. Main features that have shaped literary or standard Italian and specific ways in which language has evolved. Tracing of its changing relations with other European languages and survey of effects wrought by historical events, changes in taste, and altered social functions. P/NP or letter grading.

191. Variable Topics Research Seminars: Italian Studies. (4) Formerly numbered 197.) Seminar, three hours. Research seminar with focus on themes and issues outside uniquely Italian literary topics covered in regular departmental undergraduate courses. Reading, discussion, and development of culminating project. May be repeated once for credit. P/NP or letter grading.

195. Community or Corporate Internships in Italian. (4) Tutorial, three hours. Limited to juniors/seniors. Internship in supervised setting in community agency or business. Students meet on regular basis with instructor and provide periodic reports of their experience. May be repeated for credit. Individual contract with supervising faculty member required. P/NP or letter grading.

Graduate Courses

205A-205B. Studies in Criticism. (4-4) Lecture, three hours. History, theory, and practice of criticism. P/NP or letter grading. 205A. Brief History of Literary Criticism. Presentation, discussion, and application of basic currents of criticism from stylistics to structuralism. 205B. Discussion of Modern Critical Approaches. Emphasis on instruction, discussion, and application of contemporary approaches from structuralism to deconstruction, new historicism, and feminist criticism.

210. Studies in Early Italian Literature. (4) Lecture, three hours. Topics include origins of Italian language and study of early texts, Storia Sciliana and early poetry of Central and Northern Italy, and Dolce Stil Novo. S/U or letter grading.

214A. La Divina Commeda. (4) Lecture, three hours. S/U or letter grading.

214B. Dante’s Other Works. (4) Lecture, three hours. S/U or letter grading.

214C. Petrarcha’s Canzoniere. (4) Lecture, three hours. S/U or letter grading.

214D. Boccaccio’s Decameron. (4) Lecture, three hours. S/U or letter grading.

214E. Boccaccio’s Other Works. (4) Lecture, three hours. S/U or letter grading.

214F. Variable Topics. (4) Lecture, three hours. Variable-content seminar on themes and issues of medieval literature, with topics such as St. Francis of Assisi or Jacopone de Todi. S/U or letter grading.

215A. Variable Topics. Variable-content seminar on themes and issues of 15th-century literature, with coverage of authors such as Pulci or Poliziano. 215B. Age of Lorenzo de’ Medici and Poliziano.

216A. Machiavelli and Renaissance Political Thought. (4) Lecture, three hours. S/U or letter grading.

216B. Ariosto and Renaissance Epic. (4) Lecture, three hours. S/U or letter grading.

216C. Tasso. (4) Lecture, three hours. S/U or letter grading.

216D. Renaissance Theater. (4) Lecture, three hours. S/U or letter grading.

216E. Varia. Topics. (4) Lecture, three hours. Variable-content seminar on themes and issues of Renaissance literature, with coverage of authors such as Vasari, Leonardo, or Benvenuto. S/U or letter grading.

218B. Affieri. (4) Lecture, three hours. S/U or letter grading.

218C. Goldoni. (4) Lecture, three hours. S/U or letter grading.

218D. Variable Topics. (4) Lecture, three hours. Variable-content seminar on themes and issues of 18th-century literature, with coverage of authors such as Vico or Ludovico. S/U or letter grading.

219A. Foscolo. (4) Lecture, three hours. S/U or letter grading.

219B. Leopardi. (4) Lecture, three hours. S/U or letter grading.

219D. Variable Topics. (4) Lecture, three hours. Variable-content seminar on themes and issues of 19th-century literature, with coverage of authors such as Carducci, Tommaso, or Nievo. S/U or letter grading.

221A. Variable Topics. (4) Lecture, three hours. Variable-content seminar on themes and issues of 20th-century literature, with coverage of authors such as D’Annunzio, Vergna, Manzini, and Pirandello. S/U or letter grading.

221B. Contemporary Poetry. (4) Lecture, three hours. Analysis of legacy of two major figures in Italian poetry from World War II — Ungaretti and Montale. thorough examination of movements and individual poets active in the 1960s and 1970s. S/U or letter grading.

221C. 20th-Century Narrative to World War II. (4) Lecture, three hours. Assessment of turn-of-the-century narrative pattern (Gabriele D’Annunzio) and analysis of radical innovations brought about by such towering figures as Pasolini, Svevo, Bernini, Marinetti, etc. S/U or letter grading.

221D. 20th-Century Narrative since World War II. (4) Lecture, three hours. In-depth exploration of some major works that have made contemporary Italian literature famous throughout the world, with special emphasis on study of formalistic modes adopted by the neo-avant-garde. S/U or letter grading.

221E. Pirandello and Contemporary Theater. (4) Lecture, three hours. Through reading of theatrical texts, accompanied by analysis of how the plays have been realized on stage by important directors such as Streher, Ronconi, and the playwrights/actors themselves. Emphasis on ritualistic implications of the theatrical performance. S/U or letter grading.

M222A-M222B. Comparative Romance Historical Grammar. (4-4) (Same as Romance Linguistics M222A-M222B) Lecture, three hours. Each course may be taken independently for credit. S/U or letter grading.

222A222B. Phonology. Principal sound changes from late Latin to main Romance dialects. M222B. Morphology and Syntax. Prime morpho-syntactic changes occurring between late Latin and main Romance dialects.

223. Structures of Modern Italian. (4) Lecture, three hours. Descriptive analysis of basic features of standard Italian from synchronic, typologic vantage. Topical emphasis may vary annually, but core progression departs from phonology (e.g., syllable types, prosodic patterns, phrasal phonetics), moves through morphologic constituents, passing to sentence sequences (coordination, ellipses, etc). S/U or letter grading.

224. Italo-Romance Dictalectics. (4) Lecture, three hours. Differentiation of late spoken Latin into myriad varieties spoken in Italy. Attention to discrete language types (e.g., Sardinian, Ladino, Friulian, and Franco-Provençal). Consideration of present-day sociolinguistic pressures. S/U or letter grading.

225. Cultural History of Italian Language. (4) Lecture, three hours. Historical survey of development of Italian language from its medieval times to unification of country in 1861. Questione della lingua, general acceptance of Florentine speech, and its evolution into national language. S/U or letter grading.

250A-250D. Seminars: Dante. (4 each) Seminar, three hours. S/U or letter grading.

253A-253B-253C. Seminars: Chivalric Poetry in Italy. (4-4-4) Seminar, three hours. Relationship between genre and its French medieval sources, with study of its evolution in Italy through Pulci, Boiardo, Ariosto, and Tasso. S/U or letter grading.

255A-255B. Seminars: Romanticism. (4-4) Seminar, three hours. S/U or letter grading.

258A-258B. Seminars: Contemporary Italian Literature. (4-4) Seminar, three hours. S/U or letter grading.

260A. Alternative Perspectives in Italian Culture: Studies of Folk Tradition in Italian Literature. (4) Lecture, three hours. Open to undergraduates with consent of instructor. Conscious diversity animating Italian society articulated through class, gender, and ethnolinguistic groups to be studied across range of texts, some selected from literary canon, but others purely oral (tales, songs, proverbs, cures and curses, secular and ritual) in oral tradition. S/U or letter grading.

260B. Women in Italian Culture. (4) Lecture, three hours. Designed for graduate students. Conditions of women within Italian society, with concentration on specific works produced by women representing women’s conditions in either medieval/ Renaiss ance or contemporary times. S/U or letter grading.

260C. Studies in Italian Cinema. (4) Lecture, three hours. Designed for graduate students. Italian cinema compared with those of other European countries and Hollywood’s cinema, with focus on its development from its origins through Fascist times to neorealism, its legacy, different genres, and contemporary scene. S/U or letter grading.

M270. Seminar: Literary Theory. (5) Same as Asian M251, Comparative Literature M254, English M257, French M257, German M257, Scandinavian M257, and Spanish M294.) Seminar, three hours. Advanced interdisciplinary seminar to explore philosophical, historical, and critical foundations of literary theory as well as current issues in literary and cultural studies. S/U or letter grading.

298. Variable Topics in Italian Studies. (4) Lecture, three hours. Discussion, one hour. Designed for graduate students. Seminar focusing on themes and issues outside the uniquely Italian literature topics covered in regular departmental graduate courses.

M299. Research Resources for European Studies. (2) (Same as French M299, German M299, Information Studies M299, Slavic M299, and Spanish M299.) Lecture, two hours. Essentials of library research strategy and effective searching in key print and online resources for European and Russian studies. Through combination of lecture, online demonstration, and hands-on activities in and outside class, students understand how to efficiently use library and databases. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495A-495B-495C. Teaching Italian at College Level. (2 to 4 each) Seminar, to be arranged. S/U grading.

495A. Study methods in preparation for teaching Italian at college level, with emphasis on teaching proficiency-oriented instruction. May not be applied toward M.A. course requirements. 495B. Continuation of course 495A; study of contemporary issues in Italian language pedagogy. 495C. Effective uses of technology in foreign language classroom. Project-based seminar in which students develop materials for classroom instruction as well as an electronic teaching portfolio.

501. Cooperative Program. (2 to 8) Preparation: consent of UCLA graduate adviser and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.

596. Directed Individual Studies. (2 to 12) May be repeated twice for credit. S/U grading.

597. Preparation for M.A. Comprehensive Examination or Ph.D. Qualifying Examinations. (2 to 12) S/U grading.

Jacqueline Leavitt, Ph.D., Chair

Faculty Advisory Committee

Christopher L. Erickson, Ph.D. (Management)
398 / Labor and Workplace Studies

Frank T. Higbie, Ph.D. (History)
Sanford M. Jacoby, Ph.D. (Management)
Jacqueline Levitt, Ph.D. (Urban Planning)
Ruth M. Milkman, Ph.D. (Sociology)
Karen J. Orren, Ph.D. (Political Science)
Abel Valenzuela, Jr., Ph.D. (Chicana and Chicano Studies, Urban Planning)

Scope and Objectives
The Labor and Workplace Studies minor offers an opportunity to learn about the workplace and the social, political, and economic forces that influence it. The program emphasizes the institutions of the labor market, public policy, employment relations, unions, and working-class movements. It also explores issues of race, class, and gender in the workplace. The interdisciplinary approach gives students exposure to disciplines in addition to their own majors; students should plan to take courses from multiple departments, as disciplinary breadth is encouraged.

The program is intended for students who wish to gain an in-depth understanding of the broad array of issues related to labor and the workplace. Students are encouraged to plan with the faculty advisor and minor coordinator, either a coherent integration of courses according to a thematic or subtopical investigation or, alternatively, a comprehensive survey of the main issues involved in the study of labor and the workplace.

Undergraduate Study

Labor and Workplace Studies Minor
The Labor and Workplace Studies minor augments study in a traditional field. Students are required to complete both a departmental major and this minor. The faculty advisor certifies completion of the program.

To enter the minor, students must be in good standing, to apply other topical courses with substantial labor and workplace studies content. A minimum of 20 units applied toward the minor requirements must be in addition to units applied toward major or minor requirements in another department or program. No more than 8 units may be applied toward both this minor and a major or minor in another department or program.

Each minor course must be taken for a letter grade, with a minimum grade of C (2.0) in each and an overall C average. Successful completion of the minor is indicated on the transcript and diploma.

Labor and Workplace Studies

Lower Division Courses

M167. Worker Center Movement: Next Wave Organizing for Justice for Immigrant Workers (4) (Formerly numbered 167.) (Same as Chicana and Chicano Studies M167 and Chicana and Chicano Studies M168.) Lecture, four hours. Enforced requisites: course M1A, M1B, M1C. Limited to first-year freshmen. Letter grading.

160. Research Group or Internship Seminars: Labor and Workplace Studies (5) Seminar, three hours. Enforced requisites: course 195. Designed for undergraduate students who are part of research group or internship. Discussion of research methods and current literature in field or of research of faculty members or students. In-lab examination of experience of workers and role of labor movement in American society, historically and today. Topics include changing organization of work in the U.S. and reconfigurations of employment relations; role of labor movement to managerial initiatives; ways in which organized labor has handled issues of race, ethnicity, gender, and immigration status; challenges facing workers in the 21st century and ways in which organizations (unions and community-based organizations) are responding to those challenges. Letter grading.

M165. Sociology of Race and Labor (4) (Same as Afro-American Studies M165 and Sociology M165.) Lecture, three hours; discussion, one hour. Limited to juniors/seniors. Enforced requisites: course M1A, M1B, M1C. Limited to first-year freshmen. Letter grading.

M167. Worker Center Movement: Next Wave Organizing for Justice for Immigrant Workers (4) (Formerly numbered 167.) (Same as Chicana and Chicano Studies M167 and Chicana and Chicano Studies M168.) Lecture, four hours. Enforced requisites: course M1A, M1B, M1C. Limited to first-year freshmen. Letter grading.

Latin American Studies / 399

M180. Southern California Regional Economy. (4) (Same as Urban Planning CM137.) Lecture, three hours. Introduction to regional economy, with emphasis on Los Angeles, key economic sectors, labor market composition, and review of conflicting portrayals depicting dynamics of region. Two all-day bus tours of key economic regions and guest lectures by regional experts included. Letter grading.

188. Special Courses in Labor and Workplace Studies. (4) Seminar, four hours. Program-sponsored experimental or temporary courses, such as those taught by visiting faculty members. May be repeated for credit. P/NP or letter grading.

195. Community or Corporate Internships in Labor and Workplace Studies. (5) Tutorial, three hours; internship, 10 hours. Enrolled corequisite: course 160. Limited to juniors/seniors. Internship in supervised setting in community agency, labor union, or other organization concerned with work and employment issues. Placements to be arranged by instructor. Students meet on regular basis with instructor and provide periodic written reports on their experience. May be repeated for credit. Individual contract with supervising faculty member required. P/NP grading.

199. Directed Research in Labor and Workplace Studies. (2 to 4) Tutorial, one hour. Limited to juniors/seniors. Supervised individual research under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Kevin B. Terracciano, Ph.D. (History)
Charlene Villaseñor Black, Ph.D. (Art History)

Scope and Objectives

UCLA has been in the forefront of U.S. universities with significant teaching and research interests in Latin American studies for more than 50 years. More than 100 faculty members from 22 departments and professional schools regularly offer a broad range of courses with an emphasis on Latin America. These course offerings in the humanities, social sciences, fine arts, and professional fields provide students a unique opportunity to focus on Latin America, a region of growing importance.

The Latin American Studies Program offers the Bachelor of Arts and Master of Arts degrees. In the undergraduate major students develop a course combining language and methodological training with interdisciplinary studies in one of three areas: arts and humanities, social sciences, or ecology and environment. At the graduate level, students pursue more specialized coursework and interests, culminating in an interdisciplinary research study. Cooperative degree programs with the UCLA Schools of Education and Information Studies, Management, Public Health, and Public Affairs provide the opportunity to combine the M.A. in Latin American Studies with a master's degree in a professional field.

Undergraduate Study

Latin American Studies B.A.

Undergraduate studies of the Latin American region are designed to serve the needs of students (1) desiring a general education focused on the Latin American cultural region, (2) planning to enter business, government, or international agency service, (3) preparing to teach social sciences or language, and (4) preparing for advanced academic study of Latin America.

Students must complete all preparation courses with a C (2.0) in each course; the courses are applicable toward the Letters and Science lower division general education requirements.

Foreign Language Requirement

Language requirements are uniform for all students in the major regardless of core area. Proficiency in two languages equivalent to (1) Spanish 25 and Portuguese 3 or (2) Portuguese 25 and Spanish 5 is required. In lieu of Portuguese 1, 2, and 3, students may take Portuguese 102A and 102B which are designed for those with a background in Spanish. An indigenous language of Latin America (i.e., Quechua) may be substituted for the minor language.

Transfer Students

Transfer applicants to the Latin American Studies major with 90 or more units must complete the following introductory courses prior to admission to UCLA: advanced Spanish and one year of elementary Portuguese, or advanced Portuguese and intermediate Spanish, two Latin American history courses, and additional coursework in the area of concentration.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

Course Limitations

Students may not take more than 8 units of Latin American Studies 199 for letter-grade credit nor more than 8 units in any single term. No course taken on a Passed/Not Passed basis may be applied toward the B.A. degree requirements. In order to register in a 199 course, students must have advanced junior standing and an overall grade-point average of 3.0, or senior standing.

Double Majors

Through judicious use of electives, students may find it possible to obtain the B.A. degree with two majors (e.g., Latin American Studies and History). Interested students who have achieved junior standing should consult the undergraduate advisers of both departments involved, initiating the appropriate petition with the student affairs counselor in Latin American Studies.

Study in Latin America

Students are encouraged to spend up to one year in Latin America either (1) to study with an education abroad program, (2) to study in Latin American universities, (3) to conduct research, or (4) to complete an internship in an international or development agency. Full credit is granted according to the individual programs arranged in consultation with the undergraduate adviser. For information on studying in Mexico, Costa Rica, Chile, or Brazil, contact the Education Abroad Program, B300 Murphy Hall, (310) 794-9820.

Core Areas for the Major

Students select one of three core areas as the focus of their major: arts and humanities, social sciences, or ecology and environment. Requirements for each core area are listed below.

Core I: Arts and Humanities

Preparation

Required: Two courses from History 8A, 8B, 8C; Latin American Studies 97A (or 191 with department consent); Spanish and Portuguese M44; Art History 55B or Ethnomusicology 91K and World Arts and Cultures 6 or 8.

Core Area

Required: Ten upper division courses from the approved list of Latin American courses distributed as follows:

1. Core Concentration: Five courses as listed below in either the literature and folklore field or the linguistics field selected from Portuguese or Spanish, or in the fine arts field selected from art history or ethnomusicology. Only one course from the electives list within the arts and humanities core area may be applied toward the core concentration
2. Theory and Methods: One course from theory and methods within the core concentration
3. Internal Breadth: Four additional courses from the arts and humanities core area but outside the core concentration field.

External Breadth

Required: From the approved list, six upper division courses outside the arts and humanities core area distributed as follows: at least two courses in social sciences (e.g., history) and two courses in ecology and environment (e.g.,
geography). The two additional courses required may be from either social sciences or ecology and environment. No more than three external breadth courses may be electives.

Approved Undergraduate Courses
Special courses which may be applied toward the M.A. degree requirements with advanced departmental approval are indicated with asterisks. These courses do not have any exclusive focus on Latin America but provide an opportunity for students to relate a particular perspective or phenomenon to Latin America.

(1) Literature and Folklore Field
History 160A, Portuguese 130A, 130B, C132, C133, C134, C135, 141, Spanish 120A through 120D, 137, 139, 140, 142, 143, 144A, 144B, 144C, 147, 149, 151B, 161, 191A, 191B, 198

Theory and Methods
Portuguese 197, Spanish *119A, *119B, *119C, 197, World Arts and Cultures 122

(2) Fine Arts Field

Theory and Methods
Art History *197, Ethnomusicology *180, *183, *197E, Film and Television 199, World Arts and Cultures *199

(3) Linguistics Field

Theory and Methods

(4) Arts and Humanities Electives
Chicana and Chicano Studies 141, 142, Ethnomusicology *CM110A, *CM110B, Film and Television 112, Latin American Studies 191, 199, Theater M103C, World Arts and Cultures *131

Core II: Social Sciences
Preparation
Required: Two courses from History 8A, 8B, 8C; Latin American Studies 97A (or 191 with department consent); Economics 1 and 2, or 100; Statistics 10.

Core Area
Required: Ten upper division courses from the approved list of Latin American courses distributed as follows:

1. Core Concentration: Five courses as listed below in one of the five fields (anthropology and sociology or economics or geography or history or political science). Only one course from the electives list within the social sciences core area may be applied toward the core concentration

2. Theory and Methods: One course from theory and methods within the core concentration field

3. Internal Breadth: Four additional courses from the social sciences core area but outside the core concentration field. No more than two of these may be electives

External Breadth
Required: From the approved list, six upper division courses outside the social sciences core area distributed as follows: at least two courses in arts and humanities (e.g., fine arts) and two courses in ecology and environment (e.g., geography). The two additional courses required may be from either arts and humanities or ecology and environment. No more than three external breadth courses may be electives.

Approved Undergraduate Courses
Special courses which may be applied toward the M.A. degree requirements with advanced departmental approval are indicated with asterisks. These courses do not have any exclusive focus on Latin America but provide an opportunity for students to relate a particular perspective or phenomenon to Latin America.

(1) Anthropology and Sociology Field
Anthropology 114P, 114Q, 114R, 173Q, 174P, 179, Sociology 186

Theory and Methods

(2) Economics Field

Theory and Methods

(3) History Field

Theory and Methods
History 191E, *197, Information Studies M111C

(4) Political Science Field

Theory and Methods

(5) Geography Field

Theory and Methods
Geography *M171

(6) Social Sciences Electives

Core III: Ecology and Environment
Preparation
Required: Two courses from History 8A, 8B, 8C; Latin American Studies 97A; Geography 5; Statistics 10.

Core Area
Required: Ten upper division courses from the approved list of Latin American courses distributed as follows:

1. Core Concentration: Five courses as listed below in geography. Only one course from the electives list within the ecology and environment core area may be applied toward the core concentration

2. Theory and Methods: One course from theory and methods within the core concentration field

3. Internal Breadth: Four additional courses from the ecology and environment core area to be selected from theory and methods core courses or electives

External Breadth
Required: From the approved list, six upper division courses outside the ecology and environment core area distributed as follows: at least two courses in arts and humanities (e.g., fine arts) and two courses in social sciences (e.g., history). The two additional courses required may be from either arts and humanities or social sciences. No more than three external breadth courses may be electives.

Approved Undergraduate Courses
Special courses which may be applied toward the M.A. degree requirements with advanced departmental approval are indicated with asterisks. These courses do not have any exclusive focus on Latin America but provide an opportunity for students to relate a particular perspective or phenomenon to Latin America.

Ecology and Environment

Theory and Methods
Anthropology *M186, Geography *M171

Electives
Latin American Studies Minor

The interdisciplinary program leading to the Latin American Studies minor allows students to choose from a broad range of course offerings in various departments to develop professional and methodological skills with area expertise.

To enter the minor, students must have an overall grade-point average of 2.0 or better and have completed 45 units. For further information, contact Magda Yamamoto at (310) 206-6571.

Required Lower Division Courses (8 units):
History 8A or 8B or 8C or Latin American Studies 97A, Spanish 25 or Portuguese 25.

Required Upper Division Courses (20 units):
Five courses selected from the approved list of Latin American studies courses in at least two of the following fields: (1) arts and humanities (art history, ethnomusicology, folklore, Spanish and Portuguese), (2) ecology and environment (geography, public health), (3) social sciences (anthropology, economics, history, political science, sociology). If the social sciences field is selected, at least two courses must be taken in that field. No more than 4 units of course 199 may be applied toward the minor, and at least three upper division courses (12 units) must be taken in residence at UCLA.

Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

Latin American Studies Lower Division Course

97A. Introduction to Latin America. (4) Lecture, three hours. Interdisciplinary freshman/sophomore survey course designed as introduction to modern Latin America. P/NP or letter grading.

Upper Division Courses

191. Variable Topics Research Seminars: Latin American Studies. (4) Seminar, four hours. Advanced interdisciplinary research seminars for juniors/seniors. Reading, discussion, and development of culminating project. May be repeated for credit with topic change. P/NP or letter grading.

199. Special Studies in Latin American Studies. (4 or 8) Tutorial, to be arranged. Limited to juniors/seniors. Intensive directed research program in which students conduct interdisciplinary research to complete internship with international agency or program dealing with Latin America. Faculty sponsorship and written reports required. May be repeated for credit. P/NP or letter grading.

Graduate Courses

M200. Latin American Research Resources. (4) (Same as History M265 and Information Studies M225.) Seminar, three hours. General and specialized materials in fields concerned with Latin American studies. Library research techniques provide experience and competency required for future bibliographic and research sophistication as basis for enhanced research results.

205. Latin Americanist Scholarship. (4) Lecture, three hours. Panoramic introduction to methods and issues in various disciplines that study Latin America, with guest lecturers from various fields. (Latin American Studies core course.)

M250A. Indians of South America. (4) (Same as Anthropology M272.) Lecture, three hours. Survey of literature and research topics related to Indian cultures of South America. May be repeated for credit.

250B. Interdisciplinary Seminar: Latin American Studies. (4) Seminar, three hours. Problem-oriented seminar on critical areas stressed in University's cooperative programs in Latin America.

250C. Interdisciplinary Topics in Latin American Studies. (4) Reading knowledge of Spanish or Portuguese normally required. Seminar devoted to selected topics of an interdisciplinary nature.

M264. Latin America: Traditional Medicine, Shamanism, and Folk Illness. (4) (Same as Anthropology M264 and Community Health Sciences M264.) Lecture, three hours. Recommended prerequisite: Community Health Sciences 132, bilingual English/Spanish skills. Examination of role of traditional medicine and shamanism in Latin America and exploration of how indigenous and mestizo groups diagnose and treat folk illness and Western-defined diseases with variety of health-seeking methods. Examination of art, music, and ritual case examples of religion and healing practices via lecture, film, and audiocassette. Letter grading.

M268A-M268B. Seminars: Recent Latin American History. (4) (Same as History M268A-M268B.) Seminar, three hours. Course M268A is requisite to M268B. Reading knowledge of Spanish and Portuguese normally required. Seminar devoted to selected topics of interdisciplinary nature. In Progress (M268A) and Letter (M268B) grading.

501. Cooperative Program. (2 to 8) Preparation: consent of UCLA graduate adviser and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.

596. Directed Individual Study or Research. (2 to 8) Tutorial, to be arranged. May be repeated, but only 4 units may be applied toward the minimum graduate course requirement. S/U or letter grading.

597. Preparation for M.A. Comprehensive Examination. (4) Tutorial, to be arranged. Ordinarily taken only during term in which student is being examined. S/U grading.

598. Research for and Preparation of M.A. Thesis. (4) Tutorial, to be arranged. Only 4 units may be applied toward minimum graduate course requirement. S/U grading.

Professional Study

The undergraduate courses offered by the School of Law are designed for undergraduate students only. For information about the legal curriculum of the School of Law, see http://www.law.ucla.edu/home/

Law, Undergraduate

Upper Division Courses

156. American Political Thought Seminar. (3) Seminar, nine hours. Examination of American political thought from founding to writings of Abraham Lincoln. Readings include Locke's Second Treatise of Government, Declaration of Independence, Federalist numbers 10 and 51, and numerous writings and speeches of Lincoln, including extensive portions of Lincoln-Douglas debates. Emphasis on class discussion. Letter grading.

161. Consumer Bankruptcy Policy Seminar. (3) Seminar, 13 hours. Examination of consumer bankruptcy policy with one architect of 1978 Bankruptcy Code. Discussion of debt payment in ancient Babylon where spouses and siblings could be sold into slavery for nonpayment of relative's debt. Examination of bankruptcy in U.S. history and analysis of heart of consumer bankruptcy policy, such as when debtors should be released from debts, what property debtors should keep, and how debtors can put together repayment plans. P/NP or letter grading.

170. Race and Racism in California Legal History, 1846 to the Present. (4) Seminar. 14 hours. Limited to freshmen/sophomores. Exploration of California legal history, with focus on issues of race and racism, beginning with mid-19th-century transition from Mexican Alta California to U.S. territory and statehood. Topics include state measures affecting California Indians in the 19th century, African Americans in California's 19th-century history, measures used to curtail Chinese immigration laws designed to prevent racial intermixing, Alien Land Laws aimed at Japanese residents of California, relocation of Japanese citizens after Pearl Harbor, California's response to U.S. immi-grants from dust bowl during great depression, post-World War II through 1960s measures aimed at equal access to things like home ownership, employment, and rental housing, and uses of initiative in modern era. P/NP or letter grading.

172. Politics and International Law Colloquium. (3) Seminar, two hours.Corequisite: course 193. Limited to College Honors students. Lectures on alternative theoretical approaches (including realism, institutionalism, and constructivism) to understand relationship between politics and international law. Weekly presentations on topics by 10 leading law and political science scholars from the U.S. and abroad. Reading of scholarly papers, preparation of critiques, and discussion of issues in seminar setting with author of papers. P/NP or letter grading.

178. Politics and International Law Colloquium. (3) Seminar, two hours.Corequisite: course 193. Limited to College Honors students. Lectures on alternative theoretical approaches (including realism, institutionalism, and constructivism) to understand relationship between politics and international law. Weekly presentations on topics by 10 leading law and political science scholars from the U.S. and abroad. Reading of scholarly papers, preparation of critiques, and discussion of issues in seminar setting with author of papers. P/NP or letter grading.

191. Variable Topics Research Seminars: Law — California Legal History. (4) Seminar, two hours. Requisite: course 170. Research project, selected in consultation with faculty member and using original and secondary materials, to be conducted, followed by major presentation of student work to class and writing of major research paper. Letter grading.

193. Journal Club Seminars: Law. (1) Seminar, one hour: discussion, two hours. Corequisite: course 187A. Adjunct course limited to undergraduate students taking law colloquium. Intensive review and follow-up of scholarly papers presented in colloquium series. Reading of legal cases and supplemental materials to provide legal framework for each scholarly paper presented in colloquium. Supervised by faculty member in charge of colloquium series. May be repeated for credit. P/NP or letter grading.

199. Directed Research in Law. (1 to 6) Tutorial, three hours per week per unit. Limited to juniors/seniors. Supervised individual research under guidance of faculty mentor. Culminating scholarly paper required. May be repeated for credit. Individual contract required. P/NP or letter grading.
Although lesbian, gay, bisexual, and transgender studies has only recently found a place in university curricula, the field actually represents the intersection of two traditions that have existed for thousands of years. The better known is the learned tradition, which, at least since the end of the ancient world, has been overwhelmingly hostile. Medieval theology condemned the sodomite, nineteenth-century medicine pathologized the invert, and until very recently psychiatry felt called on to “cure” the homosexual. For at least as long, however, women and men attracted to others of their own sex have kept alive another affirmative tradition, a knowledge of their past that sustained them, often in the face of overwhelming official hostility. The guests at Plato’s Symposium looked back to Achilles and Patroclus; women-loving-women in early twentieth-century Paris remembered Sappho.

After the birth of the modern gay liberation movement in 1969, this underground knowledge came out of the closet and found a public voice sufficiently strong to mount a sustained challenge to the official teachings concerning minority sexualities and genders. This challenge led to a dramatic increase in research on same-sex desire and cross-gender phenomena, most of it the work of scholars without academic affiliations. Inspired by these accomplishments, students and faculty at colleges and universities eventually mustered the courage to address similar topics, thereby transforming—partly by assimilation, partly by contestation—the previously hostile learned tradition. This originally rather disparate work gradually coalesced into lesbian, gay, bisexual, and transgender studies, which, over the last 20 years, has developed into an academic discipline of remarkable breadth and vitality. The field embraces work in genetics and cultural studies, literature and anthropology, the health sciences, history, and the visual arts. It ranges from archival research to the elaboration of queer theory, from the analysis of constitutional law to questions of public health, from the study of identical twins to the study of popular culture.

Although the initial focus in lesbian, gay, bisexual, and transgender studies is usually on minority sexualities and genders, it is impossible to study them in any meaningful way without raising questions about sexuality and gender in general. And those questions cannot be responsibly answered without considering class, race, ethnicity, history, political economy, and the construction of scientific knowledge. Thus lesbian, gay, bisexual, and transgender studies, which may at first seem to concern the private practices of a small number of people, inevitably leads to the much larger study of sexuality, gender, and culture. It represents an important vantage point from which to investigate the social construction of gender and sexual identity, social control of behavior, changing definitions of the family, and the place of sexual and gender expression in the public and private spheres. Because of the kinds of questions asked, lesbian, gay, bisexual, and transgender studies is the site of some of the most exciting work being done today on the relation of culture, gender, and sexuality.

UCLA’s minor in Lesbian, Gay, Bisexual, and Transgender Studies provides the opportunity to study sexuality from a variety of interdisciplinary perspectives. Interdisciplinarity is assured by requiring students to take at least one course each in the life sciences, social sciences, and humanities. In addition, seniors in the minor are expected to do an internship in a relevant field. Each minor course must be taken for a letter grade. Successful completion of the minor is indicated on the transcript and diploma.

Undergraduate Study

Lesbian, Gay, Bisexual, and Transgender Studies Minor

To enter the Lesbian, Gay, Bisexual, and Transgender Studies minor, students must have an overall grade-point average of 2.0 or better.

Required Upper Division Courses (32 units):

- Lesbian, Gay, Bisexual, and Transgender Studies M114, 195, and six additional courses, including at least one each in the humanities, life sciences, and social sciences, to be selected from the approved list of courses available in the program office each term. Students may petition to apply a related course not on the list toward the six-course requirement if they can show that lesbian, gay, bisexual, or transgender issues represent a significant part of the course content. Students are strongly urged to keep in close contact with advisers in the program office who can help them plan their course of study.

Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Lesbian, Gay, Bisexual, and Transgender Studies

Upper Division Courses

M101A. Lesbian and Gay Literature before Stonewall. (5) (Same as English M101A and Women’s Studies M101A.) Lecture, four hours. Requisite: English Composition 3 or 3H. Survey of lesbian and gay literature in English from earlier periods through the 1960s. Works by such authors as Walt Whitman, Oscar Wilde, Radclyffe Hall, E.M. Forster, Willa Cather, Virginia Woolf, James Baldwin, Christopher Isherwood, William S. Burroughs, John Rechy, Audre Lorde, and Edward Albee. P/NP or letter grading.

M101B. Lesbian and Gay Literature after Stonewall. (5) (Same as English M101B and Women’s Studies M101B.) Lecture, four hours. Requisite: English Composition 3 or 3H. Survey of lesbian and gay literature in English since 1969, year of Stonewall Riots in New York City, commonly recognized as beginning of modern lesbian and gay culture. Works by such authors as Adrienne Rich, Jane Rule, Maureen Duffy, Brigid Brophy, Larry Kramer, Bertha Harris, Edmund White, Rita Mae Brown, Alan Hollinghurst, and Emma Donahue. P/NP or letter grading.

M101C. Special Topics in Lesbian and Gay Literature. (5) (Same as English M101C and Women’s Studies M101C.) Lecture, four hours. Enforced requisites: English Composition 3 or 3H. Variable specialized studies course in lesbian and gay literature. Topics focus on particular problem or issue in terms of its relationship to lesbian and gay culture and writing. May be repeated for credit. P/NP or letter grading.

M114. Introduction to Lesbian, Gay, Bisexual, and Transgender Studies. (5) (Same as Women’s Studies M114.) Lecture, three hours; discussion, one hour. Introduction to history, politics, culture, and scientific study of lesbians, gay men, bisexuals, and transgendered people; examination of sexuality and gender as categories for investigation; interdisciplinary theories and research on minority sexualities and genders. P/NP or letter grading.

The course is open to all students, regardless of sexual orientation or gender identity. It aims to provide a comprehensive understanding of the history, culture, and politics of lesbian, gay, bisexual, and transgender communities. The course covers topics such as the history of the modern gay liberation movement, the construction of sexual and gender identities, and the impact of social, political, and legal factors on the lives of LGBTQ+ individuals. Students are expected to engage in critical thinking, active listening, and respectful debate. The course is designed to foster an inclusive and supportive learning environment where students can explore their own identities and perspectives.
M115. Topics in Study of Sexual and Gender Orientation. (4) (Same as Women’s Studies M115.) Lecture/discussion, three hours. Requisite: course M114 or Women’s Studies 10. Studies in arts, humanities, social sciences, and/or life sciences on aspects of sexual orientation, gender identity, and lesbian, gay, and/or bisexual issues; variable topics may include cultural representations, historical and political change, life and health experiences, and queer or transgender theories; multiethnic and cross-cultural emphases. May be repeated for credit. Letter grading.

M118. Queering American History. (4) (Same as Women’s Studies M118.) Lecture, four hours. History of sexual and gender minorities in the U.S. Topics include changing norms, romantic friendships, medical discourse, liberation politics, post-Stonewall culture, AIDS, transgender movement, queer theory and politics, P/NP or letter grading.

M133. Chicana Lesbian Literature. (4) (Same as Chicana and Chicano Studies M133 and Women’s Studies M133.) Lecture, three hours. Exploration of intersection of radical First and Third World feminist politics, lesbian sexuality and its relationship to Chicana identity, representation of lesbianism in Chicana literature, meaning of femicide in Chicana lesbian lives, and impact of Chicana lesbian theory on Chicana/Chicano studies. Letter grading.

M134. Cultural Construction of Gender and Sexuality: Homosexualities. (4) (Same as Anthropology M134 and Honors Collegium M129.) Seminar, three hours. Comparative analysis of role of environment, history, and culture in structuring of patterns of same-sex erotic behavior in Asia, Africa, Middle East, Pacific, Caribbean, and aboriginal America. P/NP or letter grading.

M137. Gay and Lesbian Perspectives in Pop Music. (5) (Same as Music History M137.) Lecture, four hours; discussion, one hour. Survey of English-language popular music in the 20th century, with focus on lesbians, gay men, and members of other sexual minorities as creators, performers, and audience members. Letter grading.

M147A. Psychology of Lesbian Experience. (4) (Same as Psychology M147A and Women’s Studies M147A.) Lecture, two hours; discussion, one hour. Requisite: course M114 or Psychology 10 or Women’s Studies 10. Designed for juniors/seniors. Review of research and theory in psychology and women’s studies to examine various aspects of lesbian experience, impact of heterosexism/stigma, gender role socialization, minority status of women and lesbians, identity development within a multicultural society, changes in psychological theories about lesbians in sociohistorical context. P/NP or letter grading.

150. Speaking Out: Public Speaking on Lesbian, Gay, Bisexual, and Transgender Issues. (1) Discussion, two hours. Interdisciplinary course designed to teach leadership and public speaking skills on lesbian, gay, bisexual, and transgender issues. Sexual identity development, personal growth, and lesbian, gay, bisexual, and transgender history intersect with public speaking and leadership skills. Topics include sexual identities, family, leadership, and public speaking performance. P/NP or letter grading.

M167. Contested Sexualities. (4) (Same as Women’s Studies M167.) Lecture; three hours; discussion, one hour. Sociological perspectives on formation, control, and resistance of lesbian, gay, bisexual, and transgendered people. Variable topics include identity and community; age, class, gender, and racial diversity; and analysis of contemporary issues affecting contested sexualities. Letter grading.

187. Selected Topics in Lesbian, Gay, Bisexual, and Transgender Studies. (4) Lecture, four hours; discussion, three hours. Study of selected topics in lesbian, gay, bisexual, and transgender studies. Consult Schedule of Classes for topics and instructors. May be repeated for credit with consent of instructor. P/NP or letter grading.

194. Research Group or Internship Seminars: Lesbian, Gay, Bisexual, and Transgender Studies. (2) Seminar, two hours. Preparation: completion of four courses toward minor. Requisite: course M114. Corequisite: course 193. Designed for seniors who are doing internship in lesbian, gay, bisexual, or transgender organization. Discussion of organization theoretical and political issues in context of internship and relation of those issues to ideas explored in minor courses already taken. May be repeated for credit. P/NP grading.

195. Community or Corporate Internships in Lesbian, Gay, Bisexual, and Transgender Studies. (2 to 4) Tutorial, one hour. Requisite: course M114. Limited to seniors. Internship in supervised setting in lesbian, gay, bisexual, or transgender community organization. Students maintain regular basis with instructor and provide periodic reports of their experience. May be repeated for credit. Individual contract with supervising faculty member required. P/NP or letter grading.

LIFE SCIENCES
College of Letters and Science
UCLA
2305 Life Sciences
Box 951606
Los Angeles, CA 90095-1606
(310) 825-6614
http://www.lscore.ucla.edu

Scope and Objectives
Students who wish to study life sciences have a choice of eight majors, all of which lead to a Bachelor of Science degree: Biology, Ecology, Behavior, and Evolution, and Marine Biology (Ecology and Evolutionary Biology Department), Microbiology, Immunology, and Molecular Genetics (Microbiology, Immunology, and Molecular Genetics Department), Molecular, Cell, and Developmental Biology (Molecular, Cell, and Developmental Biology Department), Neuroscience (Neuroscience Interdepartmental Program), Physiological Science (Physiological Science Department), and Psychobiology (Psychology Department). This choice reflects the diversity of undergraduate instruction in life sciences at UCLA. Despite this diversity, all of these majors require a common core of introductory courses that forms the foundation for any study of life sciences and that is required for more advanced courses in each major. The common core includes courses in chemistry, physics, and mathematics, as well as introductory courses in evolution and biodiversity, cellular and organismal biology, molecular biology, and genetics. During the first two years, students may also gain experience in a research laboratory through the Student Research Program. For more information on each major, see the individual departmental listings in this section of the catalog. For additional information on the life sciences core curriculum, see http://www.lscore.ucla.edu.

Students considering one of the life sciences majors are encouraged to declare a major as early as possible, even in their first year. In this way, they may be identified by the life sciences advising offices and be offered more immediate curricular and other information. Because the core curriculum prepares them for any of the eight majors, they may take advantage of this early flexibility to switch to another life sciences major at any time during their progression through the core curriculum.

Note: The Marine Biology and Psychobiology majors may require some courses in addition to the life sciences core curriculum as part of the preparation. Consult the course requirements for both majors.

Undergraduate Study
Life Sciences Core Curriculum
Required: Life Sciences 1, 2, 3, 4; Chemistry and Biochemistry 14A, 14B, 14BL, 14C, 14CL, and 14D, or 20A, 20B, 20L, 30A, 30AL, 30B, and 30BL; Mathematics 3A, 3B, and 3C, or 31A, 31B, and 32A; Physics 1A, 1B, 1C, 4AL, and 4BL, or 6A, 6B, and 6C.

Each core curriculum course must be passed with a grade of C- or better, and all courses must be completed with an overall grade-point average of 2.0 or better. Students receiving a grade of D or F in two core curriculum courses, either in separate courses or repetitions of the same course, are subject to dismissal from the major.

Transfer Students
Transfer applicants with 90 or more units must complete the following introductory courses prior to admission to UCLA: one year of general biology with laboratory for majors, preferably equivalent to Life Sciences 1 and 2, one year of calculus, one year of general chemistry with laboratory for majors, and one semester of organic chemistry with laboratory. A second semester of organic chemistry or one year of calculus-based physics is strongly recommended but not required for admission.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

Undergraduate Research Consortium in Functional Genomics
The Undergraduate Research Consortium in Functional Genomics (URCFG) offers a sequence of laboratory-intensive courses de-
signed for undergraduate students committed to pursuing research. The innovative partnership between UCLA and the Howard Hughes Medical Institute (HHMI) was formed through a major award to Professor Utpal Banerjee. The HHMI Professors Program seeks to engage leading scientists in transmitting the excitement and values of scientific research to under-graduate education. The goal of the UR-CFG is to emphasize the importance for academia and industry of research in the fields of medicine and biotechnology.

Sponsored by the Life Sciences Core, the UR-CFG provides undergraduates from any UCLA major with the opportunity to learn biological research techniques early in their educational careers and within a structured institutional environment. Undergraduates devote between one and four terms to the study of biological research in genetics, bioinformatics, and functional genomics. The training emphasizes research concepts in basic science such as the model organism and in advanced research techniques such as electron microscopy.

Students participate in one structured lower division course — Life Sciences 10H — which is limited to 30 students per term and is offered every term. After satisfactorily completing course 10H and with instructor consent, students may participate in up to three terms of upper division research in genetics, genomics, and genomics. The upper division courses — Life Sciences 100HA, 100HB, 100HC — do not involve preexisting laboratory experiments. Syllabi for the courses are instead based on individual research projects whose outcomes students discover through the course of their studies. It is anticipated that only about one third of the students who complete course 10H will subsequently enroll in course 100HA, and students are advised that they can benefit significantly from course 10H alone.

Each course must be taken for a letter grade. Under special circumstances, one course may be waived for students who have prior research experience in fields covered by the courses. Students who complete the required courses receive a certificate of merit indicating their completion of the consortium.

To participate, students must be accepted into the Undergraduate Research Consortium in Functional Genomics. Interested students should contact the UR-CFG coordinator in the Molecular, Cell, and Developmental Biology Student Affairs Office, 212B Life Sciences, (310) 825-7109, for information regarding admission and an application. Applications are due no later than Friday of the fourth week of the term prior to the term in which students plan to enroll in course 10H.

Life Sciences
Lower Division Courses

1. Evolution, Ecology, and Biodiversity. (5) Lecture: three hours; one required lab; one field trip. Introduction to principles and mechanisms of evolution by natural selection; population, behavioral, and community ecology; and biodiversity, including major taxa and their evolutionary ecology; and phylo-

genetic relationships. P/NP or letter grading.

2. Cells, Tissues, and Organs. (5) Lecture, three hours; discussion/lab, three hours (alternate weeks). Enforced requisite: Chemistry 1A or 2A. Introduction to basic principles of cell structure, organiza-
tion of cells into tissues and organs, and principles of cellular systems. Letter grading.

3. Introduction to Molecular Biology. (5) Lecture, three hours; discussion/lab, three hours (alternate weeks). Enforced requisite: course 2, and Chemistry 14C or 30A. Introduction to basic principles of biochemistry and molecular biology. Letter grading.

3H. Introduction to Molecular Biology (Honors). (5) Lecture, two and one-half hours; discussion, 90 minutes; movie section, two and one-half hours. Enforced requisite: course 2, and Chemistry 14C or 30A. Honors course parallel to course 3, but at a more advanced level. Letter grading.

10H. Research Training in Genes, Genetics, and Genomics. (6) Lecture, 90 minutes; laboratory, six hours; computer laboratory, 90 minutes. Limited to 30 students. Basic training in biological research, including techniques in genetics, model organism, bioinfor-
matics, functional genomics, eukaryotic cell, and microbiology. P/NP grading.

Part of Undergraduate Research Consortium in Func-
tional Genomics sponsored by Howard Hughes Medi-
cal Institute Professors Program. Letter grading.

15. Life: Concepts and Issues. (5) Lecture, three hours; discussion, two hours. Introduction to important concepts and issues in the field for non-life sci-
ences majors. Topics include chemistry of life, genet-
ics, physiology, evolution, and ecology — all explored in lecture and debate, with a writing component. P/ NP or letter grading.

71SL. Classroom Practices in Elementary School Science. (2) Seminar, 90 minutes; fieldwork, three hours. Introduction for prospective science teachers to field of elementary education and teaching and learning of science in elementary school classrooms. Pairs of students are placed in local elementary school classrooms to observe, participate, and assist mentor teachers in instruction. Discussion of learning in middle school culture, cognitive development of students at this level, and best means to teach appropriate science concepts at this level. P/NP grading.

73SL. High School Science. (2) Seminar, 90 min-
utes; service learning fieldwork, three hours. Enforced requisite: courses 71SL, 72SL. Introduction for pro-
spective science teachers to field of secondary edu-
cation and teaching and learning of science in high school classrooms. Pairs of students are placed in local high school classrooms to observe, participate, and assist mentor teachers in instruction. Discussion of learning in high school culture, cognitive development of students at this level, and best means to teach appro-
priate science concepts at this level. P/NP grading.

97. Variable Topics in Life Sciences. (1 to 4) Semi-
nar, two to four hours. Current issues in research and/or development in life sciences. Consult Schedule of Classes for topics and instructors. May be repeated only for credit with consent of instructor. P/NP or let-
ter grading.

98X. PEERS Collaborative Learning Workshops for Life Sciences Majors. (1) Laboratory, three hours. Corequisite: associated undergraduate lecture course in life sciences. Development of intuition and problem-solving skills in collaborative learning envi-
ronment. May be repeated three times, but only 1 unit may be applied toward graduation. P/NP grading.

Upper Division Courses

100HA-100HB-100HC. Advanced Research in Genes, Genetics, and Genomics. (4-4-4) Lecture, two hours; laboratory, 10 hours. Requisite: course 10H. Course 100HA is requisite to 100HB, which is requisite to 100HC. Designed for undergraduates who are committed to pursuing research. Advanced re-
search training in genetics, cell and developmental bi-
ology, bioinformatics, functional genomics. Tech-
niques include electron microscopy, other light mi-
croscope techniques, immunohistochemistry. Part of Undergraduate Research Consortium in Functional Genomics sponsored by Howard Hughes Medical In-
stitute Professors Program. Letter grading.

130. Science Classroom Observation and Participa-
tion. (1) Seminar, one hour. Preparation: compre-
sion of three mathematics and/or science courses at level required of science majors. Observation, partici-
patation, and assisting in science classes at elementa-
y, middle, and secondary schools. May be repeated for credit. P/NP grading.

187A-187B-187C. Research Experience in Life Sciences. (4-4-4) Seminar, three hours; laboratory, six hours. Requisite: course 3. Course 187A is requi-
site to 187B, which is requisite to 187C. Students work together as research group to analyze and se-
quence DNA as part of microbial genome sequencing project. May not be repeated for credit. Letter grading.

192A. Undergraduate Practicum in Life Sciences. (4) Seminar, two hours. Requisite: course 2 or 3. Training and supervised practicum in laboratory set-
ting for advanced undergraduate students in courses related to life sciences. Students work on oral present-
tation skills and assist in preparation and presentation of materials and development of programs under guidance of faculty members. May be repeated once for credit. Letter grading.

192B. Undergraduate Practicum in Life Sciences. (4) Seminar, two hours. Requisite: course 2 or 3. Lim-
ited to sophomores/juniors/seniors. Training and su-
 pervised practicum for advanced undergraduate stu-
dents in courses related to life sciences. Students work on oral presentation skills and assist in prepara-
tion and presentation of materials and development of programs under guidance of faculty members. Letter grading.

199. Directed Research or Senior Project in Life Sciences. (2) Seminar, two hours. Enforced requisite: course 3. Limited to juniors/seniors. Supervised indi-
vidual research or investigation under guidance of faculty mentor. May be repeated for credit. Individual contract re-
quired. P/NP or letter grading.
Graduate Course
375. Teaching Apprentice Practicum. (1 to 4) Seminar to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

Philippe Schlenker, Ph.D.
Carson T. Schütze, Ph.D.

Assistant Professors
Peter J. Hallman, Ph.D., in Residence
Megha Sundara, Ph.D.
Katrina D. Thompson, Ph.D., in Residence
Colin C. Wilson, Ph.D.
Kie Ross Zuraw, Ph.D.

Adjunct Assistant Professor
Michael R. Martí, Ph.D.

Scope and Objectives
The goal of linguistics is the enrichment of knowledge about the nature, grammar, and history of human language. Linguistics is a theoretical discipline, akin to philosophy, anthropology, and cognitive psychology. It is important for prospective students to understand that studying linguistics is not a matter of learning to speak many languages. Linguistics courses draw examples from the grammars of a wide variety of languages, and the more languages linguists know about in depth (as distinct from possessing fluency in the use of them), the more likely they are to discover universal properties. It is also possible to pursue these universal aspects of human language through the intensive in-depth study of a single language. This accounts for the high proportion of examples from English and familiar European languages found in linguistics courses and research publications.

The core areas of linguistic theory are phonology (with its roots in phonetics), morphology, syntax, and semantics. A grammar is a system of rules that characterize the phonology, morphology, syntax, and semantics of a natural language. The properties of grammars are the central focus of linguistic theory.

Because language is central to all humanistic disciplines, as well as to several social sciences areas, it is studied from many points of view. Linguistics itself cannot be said to recognize a single optimal approach to the subject. Hence, the courses provide a variety of approaches that reflect the diversity of the field.

The Linguistics Department has consistently been ranked among the very best linguistics departments in the country. It offers programs leading to the Bachelor of Arts, Master of Arts, and Ph.D. degrees.

Undergraduate Study
The majors described below are of three types: (1) a major that concentrates entirely on general linguistics, (2) several majors that combine the basic courses of the general program with a language concentration or other related fields, and (3) a major that concentrates entirely on an African language area. The combined majors in conjunction with instructional certification programs are especially appropriate for students who have nonuniversity teaching careers as goals, and the African major is for students with specific African interests.

A 2.0 grade-point average in linguistics courses is required for all Linguistics Department majors.

Linguistics B.A.

The B.A. degree program is designed for students with an exceptional interest in and aptitude for the study of languages and linguistics. It enables undergraduates to gain substantial familiarity with several languages and types of linguistic structure and to become conversant with the historical study of language and formal theories of linguistics.

Preparation for the Major
Required: Linguistics 20; two of the following: Philosophy 31, Psychology 10 or 100A, one cultural anthropology course; completion of the equivalent of the sixth term of one foreign language and the third term of a second foreign language.

Students who complete an advanced language course are considered to have completed the equivalent of whatever courses are requisite to that one (e.g., if students complete French 100, they have automatically satisfied the requirement of the sixth term of work in one language). Students are required to complete at least the equivalent of the third term in a language other than those in the Romance, Slavic, or Germanic families. This requirement may be satisfied either as part of or in addition to the language requirement described in the preceding paragraph.

Transfer Students
Transfer applicants to the Linguistics major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one introduction to linguistics course, two courses from symbolic logic, introductory psychology or psychological statistics, or cultural anthropology, and two years of one foreign language and one year of a second foreign language (at least one year must be in a language other than those in the Romance, Slavic, or Germanic families).

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Eleven upper division or graduate courses, including Linguistics 103, 110, 120A, 120B, 130 or 132, and two courses from 125, 165A, 165B (students may substitute courses 200A and 200B for 165A and 165B respectively if they receive grades of A in 120A and 120B respectively and have consent of instructor). Both courses 165A and 165B, or 200A and 200B, are recommended for students planning linguistics graduate work. The remaining four courses are electives, three of which must be linguistics courses (no more than one course from 197, 198A, and 199 may be applied toward the major). The other course may be in linguistics or in another field as follows: Anthropology 143, Classics 180, English 121, 122, Philosophy 127A, 127B, 172, Psychology 120A, 124E, 133C, or an upper division course in a foreign language beyond the sixth term. Nonlinguistics courses not on the list may be used as electives only in consultation with an adviser.

Linguistics 198A and 198B, or 199, are recommended for students planning to pursue graduate work in linguistics, since they provide an opportunity to engage in independent research and to write a paper that can be submitted to graduate admissions committees. To enroll in the courses, students must consult with the department’s senior essay and honors counselor.

Linguistics and Anthropology B.A.

Preparation for the Major
Required: Linguistics 20, completion of the equivalent of the sixth term of one foreign language and the third term of a second foreign
language (at least three terms must be in a language other than those in the Romance, Slavic, and Germanic families). Anthropology 33 is strongly recommended, when offered.

Transfer Students
Transfer applicants to the Linguistics and Anthropology major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one introduction to linguistics course and two years of one foreign language and one year of a second foreign language (at least one year must be in a language other than those in the Romance, Slavic, or Germanic families). One cultural and communication course is strongly recommended.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Linguistics 103, 110, 120A, 120B, 165A or 165B (or 200A or 200B with a grade of A in 120A or 120B respectively and consent of instructor), one upper division elective in linguistics; for the classical Japanese track: Japanese 100A, 100B, CM122, 140A, 140B, 140C, C149; for the modern Japanese track: Japanese 100A, 100B, 100C, M120, CM122, CM123 or CM127, 130B; for the classical Chinese track: Chinese 110A, 110B, 110C, four courses from 140A through 140D, 165, 187; for the modern Chinese track: Chinese 100A, 100B, 100C, 101A, 101B, 130A, 130B; for the Korean track: Korean 100A, 100B, 100C, CM120, three courses from 101A, 101B, 101C, CM127, 130A, 130B.

Linguistics and Computer Science B.A.
Preparation for the Major
Required: Linguistics 20, Mathematics 31A, 31B, Philosophy 31, Program in Computing 10A, 10B, 10C, 30, completion of the sixth term in one foreign language or the third term in each of two foreign languages. Mathematics 61 is recommended.

Transfer Students
Transfer applicants to the Linguistics and Computer Science major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one introduction to linguistics course, two calculus courses, one symbolic logic course, four computer programming courses, and two years of one foreign language or one year in each of two foreign languages. One discrete structures course is recommended.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Twelve upper division courses as follows: Linguistics 103, 110, 120A, 120B, 165A or 165B (or 200A or 200B with a grade of A in 120A or 120B respectively and consent of instructor), one upper division elective in linguistics, English 121, 122 (or Applied Linguistics and Teaching English as a Second Language C116), 140A, and three electives from 141A, 141B, 142A, 142B, 143, the 150 series (one course only), the 160 series (one course only), the 170 series (one course only).

Linguistics and French B.A.
Preparation for the Major
Required: Linguistics 20, French 1, 2, 3, 4, 5, 6, 12, 15, completion of the equivalent of the third term of a second foreign language.

Transfer Students
Transfer applicants to the Linguistics and French major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of French, one introduction to linguistics course, one French literature course, one French diction course, and one year of a second foreign language.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Twelve upper division courses as follows: Linguistics 103, 110, 120A, 120B, 165A or 165B (or 200A or 200B with a grade of A in 120A or 120B respectively and consent of instructor), one upper division elective in linguistics, French 100, 101, 102, 105, 107, and one elective upper division French literature course.

Linguistics and Italian B.A.
Preparation for the Major
Required: Linguistics 20, Italian 1, 2, 3, 4, 5, 6, Latin 1, 2, 3, one cultural anthropology course.

Transfer Students
Transfer applicants to the Linguistics and Italian major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of Italian, one year of Latin, one introduction to linguistics course, and one cultural anthropology course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.
The Major

**Required:** Twelve upper division courses as follows: Linguistics 103, 110, 120A, 120B, 165A or 165B (or 200A or 200B with a grade of A in 120A or 120B respectively and consent of instructor), two upper division electives in linguistics, Italian 102A, 180, and three upper division electives in Italian.

**Linguistics and Philosophy B.A.**

**Preparation for the Major**

**Required:** Linguistics 20, Philosophy 31, 32, and two courses from 1, 6, 7, 21, completion of the equivalent of the sixth term of one foreign language and the third term of a second foreign language.

**Transfer Students**

Transfer applicants to the Linguistics and Philosophy major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one introduction to linguistics course, two symbolic logic courses and two courses from Western philosophy, political philosophy, philosophy of mind, or skepticism and rationality, and two years of one foreign language and one year of a second foreign language.

Refer to the [UCLA Transfer Admission Guide](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

The Major

**Required:** Eleven upper division courses (six in linguistics and five in psychology) as follows: Linguistics 103, 120A, 120B, 130, 132, and one upper division elective in linguistics (multiple-listed courses may not be applied). Linguistics C135 or 165A or 165B (or 200A or 200B with a grade of A in 120A or 120B respectively and consent of instructor) is strongly recommended. Also required are Psychology 120A, 121, 133B, and two electives to be selected from 115, 116, M117C, 118, M119L, 124A, 124B, 124C, 124E, 130, 133C, 133E, 133F, 186A, 186B.

**Linguistics and Scandinavian Languages B.A.**

**Preparation for the Major**

**Required:** Linguistics 20, Scandinavian 1, 2, 3, 4, and 5, or 11, 12, 13, 14, and 15, or 21, 22, 23, 24, and 25, completion of the equivalent of the third term of a second foreign language.

**Transfer Students**

Transfer applicants to the Linguistics and Scandinavian Languages major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of either Swedish, Norwegian, or Danish, one introduction to linguistics course, and one year of a second foreign language.

Refer to the [UCLA Transfer Admission Guide](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

The Major

**Required:** Twelve upper division courses as follows: Linguistics 103, 110, 120A, 120B, 165A or 165B (or 200A or 200B with a grade of A in 120A or 120B respectively and consent of instructor), one additional upper division course in linguistics, Spanish 100A, 100B, 115 or M118A, two courses from 119A, 119B, 119C, and one additional upper division Spanish course.

**African Languages B.A.**

**Preparation for the Major**

**Required:** Linguistics 20, nine courses from African Languages 1A through 42C and 197 (six in one language and three in another).

**Transfer Students**

Transfer applicants to the African Languages major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one introduction to linguistics course and two years of one language and one year of one other language.

Refer to the [UCLA Transfer Admission Guide](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

The Major

**Required:** A minimum of 13 upper division courses, including three courses in an African language; African Languages M187, Linguistics 103; two courses from Film and Television 106C, French 121, Theater 102E, World Arts and Cultures 134, or one or more special 4-unit African Languages 197 tutorials focusing on literature in an African language; three courses from English 114, Ethnomusicology C136A, C136B, History 121A, 121B, 121C, 122A, 122B, 123A, 123B, 124A, 124B, Linguistics 110, 120A, 120B or 127, C140, M146, 170, Political Science 151A, 151B, 151C, Linguistics 165A or 165B (or 200A or 200B with a grade of A in 120A or 120B respectively and consent of instructor) and completion of the sixth term in one of the following non-African languages are strongly recommended: Afrikaans, Arabic, Dutch, French, German, Portuguese.
Honors Program

Honors in linguistics are awarded to those students who have a grade-point average of 3.6 or better in their junior and senior years and who have received a grade of A in Linguistics 198A and 198B or in 199. Qualified students may be proposed by any member of the faculty to the faculty as a whole for the award of highest honors on the basis of a piece of research in linguistics completed at UCLA.

Computing Specialization

Students in any of the linguistics majors (except Linguistics and Computer Science) may select a specialization in Computing by (1) satisfying all the requirements for a bachelor's degree in the specified major and (2) completing Program in Computing 10A, 10B, 10C, 60, Linguistics C180, 185A. Students graduate with a bachelor's degree in their major and a specialization in Computing.

Linguistics Minor

The Linguistics minor is designed for students where training in linguistic analysis could be an enhancement to their major programs and to students who are interested in language(s) but do not have time in their undergraduate programs to pursue mulitquarter language sequences. In addition, the minor provides students with a way to design "custom" joint degrees with linguistics where the Linguistics Department does not have an existing joint degree program combining linguistics and another field.

To enter the minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Course (5 units): Linguistics 20.

Required Upper Division Courses (27 to 30 units): Six courses, which must include Linguistics 103, 120A, 120B, two elective courses selected from 104 through 185B, and an additional elective linguistics course, which may be upper or lower division.

Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Linguistics offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Linguistics.

African Languages

Lower Division Courses

1A-1B-1C. Elementary Swahili. (4-4-4) Lecture, five hours. Course 1A is enforced requisite to 1B, which is enforced requisite to 1C. Major language of East Africa. P/NP or letter grading.
2A-2B-2C. Intermediate Swahili. (4-4-4) Lecture, four hours. Enforced requisite: course 1C. Course 2A is enforced requisite to 2B, which is enforced requisite to 2C. P/NP or letter grading.
4. Conversational Swahili. (1) Seminar, one hour. Enforced requisites: courses 1A, 1B. Practice in Swahili conversation on topics of general interest, including east African current events, for Swahili students at intermediate level. May be repeated for credit. P/NP grading.
5. Building Careers through Knowledge of Africa. (1) Lecture, one hour. Guest lecturers, representing diverse careers such as academia, business, arts, nonprofits, and religious work, speak about study of Africa and careers they have pursued after studying about Africa in college and/or graduate school. P/NP grading.
7A-7B-7C. Elementary Zulu. (4-4-4) Lecture, five hours. Course 7A is enforced requisite to 7B, which is enforced requisite to 7C. Most widely spoken of the Nguni languages of South Africa, mutually intelligible with other members of this group. P/NP or letter grading.
8A-8B-8C. Intermediate Zulu. (4-4-4) Lecture, four hours. Enforced requisite: course 7C. Course 8A is enforced requisite to 8B, which is enforced requisite to 8C. P/NP or letter grading.
11A-11B-11C. Elementary Yoruba. (4-4-4) Lecture, five hours. Course 11A is enforced requisite to 11B, which is enforced requisite to 11C. Major language of western Nigeria. P/NP or letter grading.
12A-12B-12C. Intermediate Yoruba. (4-4-4) Lecture, four hours. Enforced requisite: course 11C. Course 12A is enforced requisite to 12B, which is enforced requisite to 12C. P/NP or letter grading.
17. Intensive Elementary Zulu. (12) Lecture, 20 hours (eight weeks). Intensive instruction (equivalent to courses 7A, 7B, 7C) in Zulu, most widely spoken of the Nguni languages of South Africa, mutually intelligible with other members of this group. Letter grading.
18. Intensive Intermediate Zulu. (12) Lecture, 20 hours (eight weeks). Enforced requisite: course 7C or 17. Intensive instruction (equivalent to courses 8A, 8B, 8C) in Zulu, most widely spoken of the Nguni languages of South Africa, mutually intelligible with other members of this group. Letter grading.
27. Intensive Elementary Xhosa. (12) Seminar, 20 hours. Basic communication skills and intensive instruction in Xhosa, with emphasis on listening and speaking. Use of various instructional media, including textbook, CD-ROMS, interactive Web-based materials, and videos. P/NP or letter grading.
29. Intensive Elementary Igbo. (12) Seminar, 20 hours. Basic communication skills and intensive instruction in Igbo, with emphasis on listening and speaking. Use of various instructional media, including textbook and audio/video materials. P/NP or letter grading.
31A-31B-31C. Elementary Bambara. (4-4-4) Lecture, five hours. Course 31A is enforced requisite to 31B, which is enforced requisite to 31C. Major language of Mali, also widely spoken in adjacent parts of West Africa; includes Maninka (Malinké), Dyula, and other mutually intelligible dialects. P/NP or letter grading.
32A-32B-32C. Intermediate Bambara. (4-4-4) Lecture, four hours. Enforced requisite: course 31C. Course 32A is enforced requisite to 32B, which is enforced requisite to 32C. P/NP or letter grading.
41A-41B-41C. Elementary Hausa. (4-4-4) Lecture, five hours. Course 41A is enforced requisite to 41B, which is enforced requisite to 41C. Major language of northern Nigeria and adjacent areas. P/NP or letter grading.
42A-42B-42C. Intermediate Hausa. (4-4-4) Lecture, four hours. Enforced requisite: course 41C. Course 42A is enforced requisite to 42B, which is enforced requisite to 42C. P/NP or letter grading.
51A-51B-51C. Elementary Amharic. (4-4-4) Lecture, five hours (15 hours for intensive course). Course 51A is enforced requisite to 51B, which is enforced requisite to 51C. Major language of Ethiopia. P/NP (undergraduates), S/U (graduates), or letter grading.
52A-52B-52C. Intermediate Amharic. (4-4-4) Lecture, five hours (15 hours for intensive course). Enforced requisite: course 51C. Course 52A is enforced requisite to 52B, which is enforced requisite to 52C. P/NP (undergraduates), S/U (graduates), or letter grading.
61A-61B-61C. Elementary Wolof. (4-4-4) Lecture, five hours. Course 61A is enforced requisite to 61B, which is enforced requisite to 61C. Major language of Senegambia. P/NP or letter grading.
62A-62B-62C. Intermediate Wolof. (4-4-4) Lecture, four hours. Enforced requisite: course 61C. Course 62A is enforced requisite to 62B, which is enforced requisite to 62C. P/NP or letter grading.
Upper Division Courses

103A-103B-103C. Advanced Swahili. (4-4-4) Lecture, four hours. Requisite: course 2C. Course 103A is requisite to 103B, which is requisite to 103C. Readings in Swahili literature and the contemporary press. Discussions mainly in Swahili. P/NP or letter grading.

109A-109B-109C. Advanced Zulu. (4-4-4) Lecture, five hours. Requisite: course 8C. Course 109A is requisite to 109B, which is requisite to 109C. Readings in Zulu literature and the contemporary press. Discussions mainly in Zulu. P/NP or letter grading.

123A-123B-123C. Advanced Yoruba. (4-4-4) Lecture, four hours. Requisite: course 12C. Course 123A is requisite to 123B, which is requisite to 123C. Readings in Yoruba literature and the contemporary press. Discussions mainly in Yoruba. P/NP or letter grading.

133A-133B-133C. Advanced Bambara. (4-4-4) Lecture, four hours. Requisite: course 32C. Course 133A is requisite to 133B, which is requisite to 133C. Readings in Bambara literature and the contemporary press. Discussions mainly in Bambara. P/NP or letter grading.

143A-143B-143C. Advanced Hausa. (4-4-4) Lecture, four hours. Requisite: course 42C. Course 143A is requisite to 143B, which is requisite to 143C. Readings in Hausa literature and the contemporary press. Discussions mainly in Hausa. P/NP or letter grading.

150A-150B. African Literature in English Translation. (4-4) Lecture, four hours. Narrative and didactic prose and poetry of sub-Saharan Africa and written prose and poetry of South Africa, P/NP or letter grading.

153A-153B-153C. Advanced Amharic. (4-4-4) Lecture, five hours (15 hours for intensive course). Requisite: course 52C. Course 153A is requisite to 153B, which is requisite to 153C. Readings in Amharic literature and the contemporary press. Discussions mainly in Amharic. P/NP (undergraduates), S/U (graduates), or letter grading.

171. Language in South Africa: Histories, Cultures, Politics. (4) Lecture, three hours. Recommended requisite: course 7A. Knowledge of African languages not required. Introduction to South Africa centered around language, using variety of disciplinary perspectives as lenses to examine variegated landscape of South Africa's languages. What does South Africa's multilingual past and present tell us about culture and politics? To what extent does language inform volatile debates about race, sexuality, economics, and healthcare? Why does language of those debates matter? In keeping with multilingual dynamics of South African society, course is based on multiple forms of information and requires multiple levels of interaction. P/NP or letter grading.

172. Languages and Cultures of Nigeria. (4) Lecture, two hours; discussion, one hour. Recommended requisite: course 11A, 25, 29, or 41A. Knowledge of African languages not required. Introduction to Nigeria centered around language. How does language shape ethnic identities in Nigeria (one of Africa's most multilingual nations) and Nigerian diasporas? Analysis of historical, cultural, political, and linguistic circumstances to allow students to assess different arenas of language interaction such as contemporary politics, religion, literature, and politics. Knowledge of English is requisite to 153C. Readings in Amharic literatures and cinema, and the contemporary press. Discussions mainly in Hausa, Igbo, Lingala, Luganda, and Xhosa. May be repeated for credit. Letter grading.

Graduate Courses

596. Directed Studies. (1 to 8) Tutorial, to be arranged. Directed individual study or research. Four units may be applied toward M.A. course requirements. May be repeated for credit. S/U grading.

Linguistics

Lower Division Courses

1. Introduction to Study of Language. (5) Lecture, three hours; discussion, one hour. Survey, for general undergraduates, of what is known about human language; unique nature of human language, its structure, its universality, and its diversity; language in its social and cultural setting; language in relation to other aspects of human inquiry and knowledge. P/NP or letter grading.

2. Language in the U.S. (5) Lecture, four hours; discussion, one hour. Survey of languages of the U.S. (American Indian languages, oldest immigrant languages, ethnic and regional varieties of English, and newest arrivals languages) and social and political aspects of American language use. P/NP or letter grading.

4. Language and Evolution. (5) Lecture, four hours; discussion, one hour. Basic concepts and tools of evolutionary theory and linguistics relevant to how organisms with linguistic abilities could evolve, and how particular languages, as cultural artifacts, survive and change so rapidly. P/NP or letter grading.

5. Languages of World. (5) Lecture, four hours; discussion, one hour. Introduction to linguistic diversity of world and to such core areas of linguistics as study of sound production and processing (acoustics and phonology), word formation (morphology), and sentence formation (syntax). Structural characteristics of world's languages and methods of classifying languages into families and types. Detailed discussion of representative languages with audiovisual illustrations to acquaint students with distinctive features of several major language families. Discussion of such linguistic concepts as pidgins and creoles, unaffiliated languages, language contact, and language endangerment, together with related sociopolitical issues. P/NP or letter grading.

197. Individual Studies in African Languages. (1 to 6) Tutorial, four hours. Limited to juniors/seniors. Individual intensive study at advanced level or supervised research on needs of individual students, in any language or group of languages for which appropriate facilities are available. Scheduled meetings to be arranged between faculty member and student. May be repeated for credit. Individual contract required. P/NP or letter grading.

Upper Division Courses

103. Introduction to General Phonetics. (5) Lecture, four hours; discussion, one hour. Requisite: course 20. Phonetics of variety of languages and phonetic phenomena that occur in languages of world. Extensive practice in perception and production of such phenomena. P/NP or letter grading.

105. Morphology. (5) Lecture, four hours; discussion, one hour. Enforced requisite: course 20. In linguistics, morphology is study of word structure. Morphological theory seeks to answer questions such as how should words and their component parts (roots, prefixes, suffixes, vowel changes) be classified cross-linguistically? how do speakers store, produce, and process complex words (words with affixes, compounds)? do speakers know how to produce correct word forms even when they have not previously heard them and how do speakers know that particular words are well-formed or ill-formed? is there principled distinction in traditional division between inflection and derivation? how can we best account for variation in forms that are same (e.g., root in keep/kept even though vowels are different)? can we formulate crosslinguistic generalizations about word structure? P/NP or letter grading.

110. Introduction to Historical Linguistics. (5) Lecture, four hours; discussion, one hour. Requisites: courses 20, 103, 120A. Methods and theories appropriate to historical study of language, such as comparative method and method of internal reconstruction. Sound change, grammatical change, semantic change. P/NP or letter grading.
114. American Indian Linguistics. (5) Lecture, four hours; discussion, one hour. Strongly recommended preparation: course 20. Survey of linguistic, areal, and typological classifications of American Indian languages; writing systems for American Indian languages; American Indian languages in social and historical context. One or more languages may be investigated in detail. P/NP or letter grading.

M116. Introduction to Japanese Linguistics. (4) (Same as Japanese C125.) Lecture, three hours; discussion, one hour. Preparation: Exempt or subject to Japanese 3 or Japanese placement test. Introduction to Japanese grammar and sociolinguistics through reading, discussion, and problem solving in phonology, syntax, semantics, and sociolinguistics. Letter grading.

120B. Syntax I. (5) Lecture, four hours; discussion, one hour. Requires: course 20. Course 120A is not required. Descriptive analysis of morphological and syntactic structures in natural languages; emphasis on insight into nature of such structures rather than linguistic formalism. P/NP or letter grading.

125. Semantics. (5) Lecture, four hours; discussion, one hour. Requires: course 120 or 200. Credit cannot be received for both courses 125 and 200. Further study of theoretical and descriptive claims about the nature of meaning. P/NP or letter grading.

127. Syntactic Typology and Universals. (5) Lecture, four hours; discussion, one hour. Requires: course 20. Study of essential similarities and differences among languages in grammatical devices they use to signal the following kinds of concepts: relations between concepts, tense and aspect, negation, complementation, existential and quantificational characterization, causation, illustration, reflexivization, relativization, attribution (adjectives), time (tense and aspect), and backgrounding (subordination). Data from a range of languages presented and analyzed. P/NP or letter grading.

C128A-C128B. Romance Syntax: French. (4-4) Lecture, four hours. Preparation: some knowledge of French (or a Romance language). Requires: course 120B. Course C128A is required to C128B. Aspects of structure of French language, with emphasis on properties of construction not found in English. Concurrently scheduled with courses CM228A-CM228B. P/NP or letter grading.

130. Language Development. (5) Lecture, four hours; discussion, one hour. Requires: courses 20, 120A, 120B. Survey of research and theoretical perspectives on language development in children. Discussion and examination of child language data from English and other languages. Emphasis on universals of language development. Topics include infant speech perception and production, development of phonology, morphology, syntax, and word meaning. P/NP or letter grading.

132. Language Processing. (5) (Formerly numbered C132.) Lecture, four hours; laboratory, one hour. Requires: courses 20, 120A, 120B. Central issues in language comprehension and production, with emphasis on how theories in linguistics inform processing models. Topics include word understanding (with emphasis on spoken language), parsing, anaphora and inferring, speech error models of sentence production, and computation of syntactic structure during production. P/NP or letter grading.

C135. Neurolinguistics. (5) Lecture, four hours; discussion, one hour. Requires: courses 1 or 20, and 130. Examination of relationship between brain, language, and linguistic theory, with evidence presented from atypical language development and language disorders. Discussion of neurolinguistic and social aspects of bilingualism, including covariation of language and society. Lecture.

C140. Bilingualism and Second Language Acquisition. (5) Lecture, four hours; discussion, one hour. Requires: courses 120A, 120B, 130. Introduction to study of childhood bilingualism and adult and child second language (L2) acquisition, with focus on understanding nature of L2 grammar and grammatical processes underlying L2/bilingual acquisition. Discussion of role of language-learning history in the development of bilingualism. Concurrently scheduled with course C244. P/NP or letter grading.

C146. Language in Culture. (5) (Same as Anthropology M146.) Lecture, three hours; discussion, one hour. Requires: course 200 or Anthropology 33. Study of language as aspect of culture; relation of habitual thought and behavior to language; and language and classification of experience. Holistic approach to study of language, with emphasis on relationship of linguistic anthropology to fields of biological, cultural, and social anthropology, as well as archaeology.

M150. Introduction to Indo-European Linguistics. (5) (Same as Indo-European Studies M150.) Lecture, four hours. Recommended requires: course 1 or 20. Indo-European languages (ancient and modern), including their relationships, chief characteristics, writing systems, and sociolinguistic contexts; nature of reconstructed Indo-European proto-language and proto-culture. One or more Indo-European languages may be surveyed. Concurrently scheduled with course C150. Letter grading.

160. Field Methods. (6) Discussion, four hours; individual or group sessions, one to two hours. Requires: courses 103, 120A, 120B. Analysis of a language unknown to members of class from data elicited from a native speaker of L1. P/NP or letter grading.

165A. Phonology II. (5) Lecture, four hours; discussion, one hour. Requires: course 120A (undergraduate with grade of A in course 120A may replace course 165A with 200A, with consent of instructor). Further study in phonology and analysis: autosegmental theory, syllable structure, metrical theory, interface of phonology and grammar. P/NP or letter grading.

165B. Syntax II. (5) Lecture, four hours; discussion, one hour. Requires: course 120B. Recommended for students who plan to do graduate work in linguistics. Form of grammars, word formation, formal and sub-universal in syntax, relation between syntax and semantics. P/NP or letter grading.

175. Linguistic Change in English. (5) Lecture, four hours. Requires: courses 110, 120A, 120B. Prerequisites of linguistic change exemplified through detailed study of historical English pronunciation, lexicon, and syntax. P/NP or letter grading.

M177. Structure of Korean. (4) (Same as Korean CM120.) Lecture, three hours. Recommended preparation: two years of Korean, or one year of Korean and some knowledge of linguistics. Discussion of major syntactic, semantic, and pragmatic characteristics of Korean in light of linguistic universals, with brief introduction to formation, typological features, and phonological structure of Korean. Letter grading.

185A. Computational Linguistics I. (5) (Formerly numbered C185A.) Lecture, four hours; laboratory, one hour. Requires: courses 120B, C180, Program in Computing 10B. Recommended: course 165B or 206B, Program in Computing 60. Survey of recent work on natural language processing, including basic syntactic parsing strategies, with brief glimpses of semantic representation, reasoning, and response generation. P/NP or letter grading.

185B. Computational Linguistics II. (5) (Formerly numbered C185B.) Lecture, four hours; laboratory, one hour. Requires: course 185A. Extensions of basic language processing techniques to natural language processing. Recent models of syntactic, semantic, and discourse analysis, with particular attention to their linguistic sophistication and psychological plausibility. P/NP or letter grading.

191A. Variable Topics Research Seminars: Linguistics. (2 or 4) Seminar, three hours. Requires: course 1 or 20. Research seminar on selected topics. Reading, discussion, and development of culminating project. May be repeated for credit with topic change. P/NP or letter grading.

191B. Variable Topics Research Seminars: Linguistics. (2 or 4) Seminar, three hours. Research seminar on selected topics. Reading, discussion, and development of culminating project. May be repeated for credit with topic change. P/NP or letter grading.

197. Individual Studies in Linguistics. (2 to 4) Tutorial, four hours. Requires: course 1 or 20. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assignments and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.
198A. Honors Research in Linguistics I. (4) Tutorial, to be arranged. Preparation: 3.5 grade-point average. Requisite or corequisite: course 165A (or 200A) or 165B (or 200B). laboratory, one hour. Recommended: completion of both courses 165A and 165B (or 200A and 200B) before or during term in which course 198A is taken. Limited to juniors/seniors. Development of honors thesis or comprehensive research project on linguistic topic selected by student under direct supervision of faculty member. Consult professor in charge to enroll. May be repeated for credit. Individual contract required. Letter grading.

198B. Honors Research in Linguistics II. (2) Tutorial, to be arranged. Requisite: course 198A. Limited to juniors/seniors. In theory of consonant systems or comprehensive research project begun in course 198A under direct supervision of faculty member. Consult professor in charge to enroll. May be repeated for credit. Individual contract required. Letter grading.

199. Directed Research or Senior Project in Linguistics. (4) Tutorial, to be arranged. Limited to seniors. Supervised individual research or investigation of linguistic topic selected by student under direct supervision of a graduate student or comprehensive research project begun in course 198A under direct supervision of faculty member. Consult professor in charge to enroll. May be repeated for credit. Individual contract required. Letter grading.

Graduate Courses

200A. Phonological Theory I. (4) Preparation: graduate linguistics student or grade of A in course 120A or equivalent course in phonology. Courses 200A and 201 form two-course survey of current research in phonological theory. Interaction of phonology with morphology and syntax, syllable structure, stress.

200B. Syntactic Theory I. (4) Preparation: graduate linguistics student or grade of A in course 120B or equivalent course in syntax. In-depth introduction to selected topics in constituent structure. Syntactic structures, categories. Requisites: courses 120A, 120B.

200E. Mathematical Structures in Language II. (5) Formerly numbered C209A. Lecture, four hours; laboratory, one hour. Survey of recent work on natural language processing, including basic syntactic parsing strategies, with brief glimpses of semantic representation, reasoning, and response generation. S/U or letter grading.

200F. Computational Linguistics I. (5) Formerly numbered C209B. Lecture; four hours; laboratory, one hour. Preparation: basic knowledge of semantics. Requisite: course 185A or 209A. Study of algorithms to compute and reason with meanings of sentences and texts. Phenomena such as anaphor resolution, presupposition projection, and tracking time, objects, and space to be covered. S/U or letter grading.

201A. Phonological Theory II. (4) Requisite: course 200A. Continuation of course 200A. Second course in two-course survey of current research in phonological theory. Topics include autosegmentalism (tone, tiers, segment structure), feature theory, underspecification, prosodic morphology.

201B. Phono logical Theory III. (4) Requisite: course 201A. Preliminaries to speech analysis. Functional anatomy of vocal organs; fundamental principles of acoustics and of acoustic theory of speech production; issues in perception of speech; nature and design of feature systems for phonetic and phonological analysis.

204A. Experimental Phonetics. (4) Formerly numbered 204.) Lecture, three hours. Requisite: course 103. Use of laboratory equipment to investigate articulatory, acoustic, and perceptual properties of speech. Topics include experimental design and statistics; theoretical basis of acoustic structure of speech sounds; computer-based speech processing, analysis, and modeling; perceptual and acoustic evaluation of synthetic speech. S/U or letter grading.

204B. Speech Production. (4) Lecture, three hours; laboratory, one hour. Requisite: course 104 or 204A. Survey of topics in speech research, especially related to phonetic processing. Topics include physiology of vocal tract and models of speech production and articulatory/auditory relations. Emphasis on use of laboratory methods such as aerodynamic transducers, electroglottography, static and electric palatography, electromagnetic articulography, and imaging techniques. S/U or letter grading.

206. Syntactic Theory II. (4) Requisite: course 200B. In-depth introduction to selected topics in theory of movement processes and topics selected from following areas: WH-movement and related rules, subcategorization and other constraints on movement; ECP and related conditions on distribution of empty categories; resumptive pronoun constructions; parametric variation in movement constructions; LH WH-movement; filters; reconstruction; parasitic gaps; barriers theory; control theory; null subject parameter.

209A. Mathematical Linguistics I. (5) Formerly numbered C209A. Lecture, four hours; laboratory, one hour. Survey of recent work on natural language processing, including basic syntactic parsing strategies, with brief glimpses of semantic representation, reasoning, and response generation. S/U or letter grading.

209B. Computational Linguistics II. (5) Formerly numbered C209B. Lecture, four hours; laboratory, one hour. Requisite: course 209A. Extensions of formal language processing techniques to natural language processing. Recent models of syntactic, semantic, and discourse analysis, with particular attention to their linguistic sophistication and psychological plausibility. S/U or letter grading.

209C. Computational Semantics. (4) Lecture, four hours. Preparation: basic knowledge of semantics. Requisite: course 185A or 209A. Study of algorithms to compute and reason with meanings of sentences and texts. Phenomena such as anaphor resolution, presupposition projection, and tracking time, objects, and space to be covered. S/U or letter grading.

210A. Field Methods I. (4) Lecture, four hours. Preparation: grade of B or better in course 103 or in examination on practical phonetics. Requisites: courses 200A, 200B. Analysis of a language unknown to members of class from data elicited from a native speaker of the language. Term papers to be relatively full descriptive sketches of the language. May be repeated for credit with topic change. S/U or letter grading.

210B. Field Methods II. (4) Lecture, four hours. Requisite: course 210A in preceding term. Because different languages are investigated in different years, course 210B can only be taken as direct continuation of 210A in same year. When there are multiple sections, continuation must be in same section. May be repeated for credit with topic change. S/U or letter grading.

211. Intonation. (4) Formerly numbered C211.) Lecture, two hours. Recommended requisite: course 204A. Survey of intonational theory for English and other languages with particular focus on phonological models of intonation. Laboratory equipment used for recording and analyzing intonation, and students learn to transcribe intonational elements. Letter grading.

212. Learning the Theory of Grammar. (4) Requisites: courses C180 or C208. Survey of some of most significant results on capabilities of learners, given precise assumptions about their memory, time, and computational power, and precise assumptions about information provided by the environment.

213A. Grammatical Development. (4) Requisites: courses 200A, 200B. Recommended: course 130 or 233. Survey of theoretical perspectives and contemporary empirical research in neuro logical and cognitive bases for language, language development, and language breakdown.

214. Survey of Current Syntactic Theories. (4) Requisite: course 206. Survey of several current syntactic theories, compared with one another and with theory discussed in course 206, from point of view of theories' relative descriptive and explanatory power.

215. Syntactic Typology. (2 or 4) Lecture, four hours. Requisite: course 200B. Current results in word-order universals; genetic classification of world's languages; cross-language properties of specific construction types, including relative clauses, passives, positive and negative coreference systems, agreement systems, deixis systems, and types of sentence complements. S/U or letter grading.

216. Syntactic Theory III. (4) Lecture, four hours. Requisite: course 206. Selected topics on syntactic theories of anaphora and quantification from the following areas: typology of binding categories (pronouns, anaphors, etc.); theory of local conditions in quantifier theory; parametric variation in binding; quantifier movement; existential quantification and unselective binding; strong and weak crossover; superiority; scope interactions; complex quantifier structures.

217. Experimental Phonology. (4) Lecture, four hours. Requisite: course 200A. Survey of experimental work that bears on claims about speakers' knowledge of phonology, including theories of lexicon, relation between perception and phonology, and universal markedness relations. Letter grading.

218. Mathematical Structures in Language II. (4) Lecture, four hours. Requisite: course C180 or C208. In-depth study of generalized quantifier theory; selected topics from descriptive set theory, formal syntax, partial orders and lattices, formal language theory, variable binding operators. May be repeated for credit with consent of instructor. S/U or letter grading.

220. Linguistic Areas. (4) Requisites: courses 120A, and 120B or 127. Recommended: courses 165A or 200A, 165B or 200B. Analysis and classification of languages spoken in a particular area (e.g., Africa, the Balkans, South Asia, Southeast Asia, Australia, Aboriginal North America, Aboriginal South America, Far East, etc.). May be repeated for credit with topic change.

225. Linguistic Structures. (4) Lecture, four hours. Requisites: courses 120A, and 120B or 127. Recommended: courses 165A or 200A, 165B or 200B. Phonological and grammatical structure of a selected language and its genetic relationships to others of its family. May be repeated for credit with topic change. S/U or letter grading.

CM232A-CM232B. Romance Syntax: French. (4-4) (Same as Romance Linguistics M204A-M204B) Lecture, four hours. Preparation: some knowledge of French (or a Romance language). Requisite: course 120B. Course CM228A is requisite to CM228B. Aspects of structure of French language, with emphasis on properties of construction not found in English. Concurrently scheduled with courses C128A-C128B. S/U or letter grading.

230. History of Linguistics. (4) Requisites: courses 120A, 120B, or 200A. Examinations of history of linguistics. Different course offerings may deal with different areas of linguistics (e.g., phonology, syntax) or with different historical periods. May be repeated for credit with topic change.

232. Language Processing. (5) (Formerly numbered C232.) Lecture, four hours; laboratory, one hour. Central issues in language comprehension and production, emphasis on how theories in linguistics inform processing models. Topics include word understanding (with emphasis on spoken language), parsing, anaphora and inference, speech error models of sentence production, and computation of syntactic structure during production. S/U or letter grading.

C235. Neurolinguistics. (5) Lecture, four hours; discussion, one hour. Requisites: courses 1 or 20, and 130. Examinations of the relationship between brain, language, and linguistic theory, with evidence presented from atypical language development and language disorders in the mature brain. Topics include methodologies to investigate normal and atypical hemispheric specialization for language and children and adults with acquired and/or congenital language disorders. Concurrently scheduled with course C135. Graduate students expected to read more advanced neurolinguistic literature and produce research papers of greater depth. S/U or letter grading.

236. Computational Phonology. (4) Lecture, four hours. Introduction to computational models of phonology and phonological acquisition. Topics include finite state machines, probabilistic automata, over-constrained models, dynamic programming methods. Letter grading.

237. Linguistic Methods Laboratory. (4) Laboratory—four hours. Variable content, with topics such as computer implementation of linguistic models, corpus studies, experimental methods for linguistic data collection, statistical analysis of results. May be repeated for credit. Letter grading. M238. Analyzing Historical Texts. (4) (Same as History M262C.) Seminar, four hours. Designed for graduate students. Analysis of linguistic structure and ethnohistorical context of legal and other documents written by missionaries, scribes and translators. Topics include paleographic technique and text analysis software. May be repeated for credit. S/U grading.

C244. Bilingualism and Second Language Acquisition. (5) Lecture, four hours; discussion, one hour. Requisites: courses 200A, 200B. Introduction to study of childhood bilingualism and adult second language (L2) acquisition, with focus on understanding nature of L2 grammar and grammatical processes underlying L2/bilingual acquisition. Discussion of neurolinguistic and social aspects of bilingualism. Concurrently scheduled with course C140. Graduate students expected to read more advanced literature, do in-class presentations, and submit graduate-level term paper. S/U or letter grading.

M246C. Topics in Linguistic Anthropology. (4) (Same as Anthropology M241.) Problems in relations of language, culture, and society. May be repeated for credit.

251A. Topics in Phonetics and Phonology. (4) Lecture, four hours. Requisite: course 200A. Course 201, 203, or 204 may be required. Specialized topics in phonetics and phonology. Meets with course 251B. May be repeated for credit.

251B. Topics in Phonetics and Phonology. (2) Lecture, four hours. Requisite: course 200A. Course 201, 203, or 204 may be required. Specialized topics in phonetics and phonology. Meets with course 251A. May be repeated for credit.

252A. Topics in Syntax and Semantics. (4) Lecture, four hours. Requisite: course 200B. Course 206, 207, 214, 215, or 216 may be required. Specialized topics in syntax and semantics. Meets with course 252B. May be repeated for credit.

252B. Topics in Syntax and Semantics. (4) Lecture, four hours. Requisite: course 200B. Course 206, 207, 214, 215, or 216 may be required. Specialized topics in syntax and semantics. May not be applied toward M.A. or Ph.D. degree requirements. Meets with course 252A. May be repeated for credit. S/U grading.

253A. Topics in Language Variation. (4) Requisite: course 110. Course 202 may be required. Specialized topics in language variation. Meets with course 253B. May be repeated for credit.

253B. Topics in Language Variation. (2) Requisite: course 110. Course 202 may be required. Specialized topics in language variation. May not be applied toward M.A. or Ph.D. degree requirements. Meets with course 253A. May be repeated for credit. S/U grading.

254A. Topics in Linguistics. (4) Seminar, four hours. Requisites: courses 200A, 200B. Course 201, 202, 203, 204, 205, 206, 207, 208, 209A, 209B, 212, 213A, 213C, 214, 215, 216, or 218 may be required. Individual proseminars on topics such as child language, sociolinguistics, neurolinguistics, computational linguistics, psycholinguistics, etc. May be repeated once for credit. Meets with course 254A. In Progress grading (credit to be given only on completion of course 254B).

254B. Topics in Linguistics. (2) Seminar, two hours. Requisite: course 254A. Individual proseminars on topics such as child language, sociolinguistics, neurolinguistics, computational linguistics, psycholinguistics, etc. May not be applied toward M.A. or Ph.D. degree requirements when taken for 2 units. May be repeated for credit. S/U grading.

256B. Topics in Phonetics and Phonology: Proseminar. (2) Seminar, two hours. Requisite: course 256A. May be repeated once for credit. Letter grading.

257A. Topics in Syntax and Semantics II: Proseminar. (4) Seminar, four hours. Requisite: course 200B. Course 206, 207, 214, 215, or 216 may be required. Specialized topics in syntax and semantics. May be repeated once for credit. In Progress grading (credit to be given only on completion of course 257B).

258A. Topics in Language Variation II: Proseminar. (4) Seminar, four hours. Requisite: course 258A. Specialized topics in language variation. May be repeated once for credit. Letter grading.

259A. Topics in Linguistics II: Proseminar. (4) Seminar, four hours. Requisites: courses 200A, 200B. Course 201, 202, 203, 204, 205, 206, 207, 208, 209A, 209B, 212, 213A, 214, 215, 216, or 218 may be required. Individual proseminars on topics such as child language, sociolinguistics, neurolinguistics, computational linguistics, psycholinguistics, etc. May be repeated once for credit. Meets with course 254A. In Progress grading (credit to be given only on completion of course 254B).

259B. Topics in Linguistics II: Proseminar. (2) Seminar, two hours. Requisite: course 259A. Individual proseminars on topics such as child language, sociolinguistics, history of linguistic theory, neurolinguistics, languages of world, psycholinguistics, etc. May be repeated once for credit. Letter grading.

260A-260B-260C. Seminars: Phonetics. (2 or 4 each) Seminar, three hours. Each course may be taken independently for credit and may not be applied toward M.A. or Ph.D. degree requirements when taken for 2 units. May be repeated for credit. S/U grading.

261A-261B-261C. Seminars: Phonology. (2 or 4 each) Seminar, three hours. Each course may be taken independently for credit and may not be applied toward M.A. or Ph.D. degree requirements when taken for 2 units. May be repeated for credit. S/U grading.

262A-262B-262C. Seminars: Syntax and Semantics. (2 or 4 each) Seminar, three hours. Each course may be taken independently for credit and may not be applied toward M.A. or Ph.D. degree requirements when taken for 2 units. May be repeated for credit. S/U grading.

263A-263B-263C. Seminars: Language Variation. (2 or 4 each) Seminar, three hours. Each course may be taken independently for credit. May not be applied toward M.A. or Ph.D. degree requirements when taken for 2 units. May be repeated for credit. S/U grading.

264A-264B-264C. Seminars: Special Topics in Linguistic Theory. (2 or 4 each) Seminar, three hours. Special topics may include child language, neurolinguistics, psycholinguistics, sociolinguistics, etc. Each course may be taken independently for credit. May not be applied toward M.A. or Ph.D. degree requirements when taken for 2 units. May be repeated for credit. S/U grading.

265A-265B-265C. American Indian Linguistics Seminar. (1 or 4 each) Seminar, two hours; fieldwork, four hours. Presentation of research on American Indian languages. Each course may be taken independently for credit. May not be applied toward M.A. or Ph.D. degree requirements when taken for 1 unit. May be repeated for credit. S/U grading.

276. Linguistics Colloquium. (No credit) Designed for graduate students. Same as course 275, but taken without credit by students not presenting a colloquium. S/U grading.
18A-18B-18C. Elementary Quechua. (4-4-4) (Formerly numbered Indigenous Languages of the Americas 18A-18B-18C.) Lecture, five hours. Course 18A is enforced prerequisite to 18B, which is enforced prerequisite to 18C. Language of Incas and present-day Quechua language, as spoken in Andean South America. P/NP or letter grading.

Upper Division Courses

119A-119B-119C. Advanced Quechua. (4-4-4) (Formerly numbered Indigenous Languages of the Americas 119A-119B-119C.) Lecture, five hours. Requisite: course 18C. Course 119A is requisite to 119B, which is requisite to 119C. Readings in Quechua. Dialectal and stylistic variation. Discussions mainly in Quechua. P/NP or letter grading.

191. Variable Topics Research Seminars: Indigenous Languages. (2 or 4) Seminar, three hours. Requisites: seminars on selected topics on various indigenous languages. Reading, discussion, and development of culminating project. May be repeated for credit with topic change. P/NP or letter grading.

Graduate Course

596. Directed Studies in Quechua. (1 to 8) (Formerly numbered Indigenous Languages of the Americas 596.) Tutorial, to be arranged. Requisites: courses 119A, 119B, 119C. Directed individual study or research in Quechua. Four units may be applied toward M.A. course requirements. May be repeated for credit. S/U grading.

Management

John E. Anderson Graduate School of Management

UCLA

110 Westwood Plaza, Suite F407

Box 351481

Los Angeles, CA 90095-1481

(310) 825-7982

fax: (310) 206-9830

Antonio E. Bernardo, Ph.D., Chair

Professors

David Abolydi, Ph.D.
Reza H. Ahmadi, Ph.D.
Shilomo Benartzi, Ph.D.
Antonio E. Bernardo, Ph.D.
Sushil Bhalchhandani, Ph.D.
Bart J. Bronnenberg, Ph.D.
Randolph E. Bucklin, Ph.D. (Peter W. Mullin Professor of Management)
Bhagwan Chowdhry, Ph.D.
Charles J. Corbett, Ph.D.
Samuel A. Culbert, Ph.D.
Michael R. Darby, Ph.D. (Warren C. Cordner Professor of Money and Financial Markets)
Sebastian Edwards, Ph.D. (Henry Ford II Professor of International Management)
Christopher L. Erickson, Ph.D.
Eric G. Flamholz, Ph.D.
Stuart A. Gabriel, Ph.D. (Arden Realty Professor at the Ziman Real Estate Center)
Arthur M. Geoffron, Ph.D.
Martin Greenberger, Ph.D. (IBM Professor of Computers and Information Systems)
Mark S. Grinblatt, Ph.D. (J. Clayburn La Force Endowed Professor of Management)
Dominique M. Hanssens, Ph.D. (Bud Knapp Professor)
Carla Hayne, Ph.D.
John S. Hughes, Ph.D. (Ernst and Young Professor of Accounting)
Sanford M. Jacoby, Ph.D. (Howard Noble Professor of Management)
Uday S. Kamkar, Ph.D. (Los Angeles Times Professor of Management Strategy and Policy)
Barbara S. Lawrence, Ph.D.
Edward E. Leamer, Ph.D. (Chauncey J. Medbery Professor of Management)
David Lewin, Ph.D. (Neil Jacoby Professor of Management)
Marvin B. Lieberman, Ph.D.
Bennet P. Lientz, Ph.D.
Steven A. Lippman, Ph.D. (George Robbins Professor of Management)
Francis A. Longstaff, Ph.D. (Allstate Professor of Insurance and Finance)
John W. Mamer, Ph.D.
Kevin F. McCardle, Ph.D.
John J. McDonough, D.B.A.
Bill McKevel, Ph.D.
Bruce L. Miller, Ph.D.
Daniel J.B. Mitchell, Ph.D. (Ho-Su Wu Professor of Management)
Donald G. Morrison, Ph.D. (William E. Leonhard Professor of Management)
Judy D. Oliver, Ph.D. (John E. Anderson Professor of Management)
William G. Ouchi, Ph.D. (Sanford and Betty Sigoloff Professor of Corporate Renewal)
Anthony P. Raia, Ph.D.
Richard W. Roll, Ph.D. (Japan Alumni Professor of International Finance)
Richard P. Rumelt, D.B.A. (Harry and Elsa Kunin Professor of Business and Society)
Rakesh K. Sarin, Ph.D. (Paine Professor of Management)
Hans Schollhammer, D.B.A.
Eduardo S. Schwartz, Ph.D. (California Professor of Real Estate and Land Economics)
Carol A. Scott, Ph.D.
Avinadivar Subrahmanyan, Ph.D. (Goldyne and Irwin Hearsh Professor of Money and Banking)
E. Burton Swanson, Ph.D.
Christopher S. Tang, Ph.D. (Edward W. Carter Professor of Business Administration)
Walter N. Torous, Ph.D. (Lee and Seymour Graff Endowed Professor)
Brett M. Trueman, Ph.D.
J. Fred Weston, Ph.D. (Warren C. Cordner Professor Emeritus of Money and Financial Markets)
Harold M. Williams, J.D.
Bruce G. Willisson, M.B.A.

Professors Emeriti

Theodore A. Anderson, Ph.D.
Robert B. Andrews, Ph.D.
Michael J. Brennan, Ph.D. (Goldyne and Irwin Hearsh Professor Emeritus of Money and Banking)
William F. Brown, Ph.D.
John W. Buckley, Ph.D.
Lee G. Cooper, Ph.D.
Bradford Cornell, Ph.D.
José de la Torre, D.B.A.
David K. Eiteman, Ph.D.
Donald Erikenkotter, Ph.D.
Glenn W. Graves, Ph.D.
Alfred E. Hofflander, Ph.D.

William P. Pierskalla, Ph.D.
Edward E. Leamer, Ph.D.
Fred C. Mittelbach, M.A.
R. Clay Sprowls, Ph.D.
George A. Steiner, Ph.D.
James G. Wilson, Ph.D. (James A. Collins Professor Emeritus of Management)

Associate Professors

Andrew S. Ainslie, Ph.D.
Anand V. Bodapati, Ph.D.

Quechua

Lower Division Courses

17. Intensive Elementary Quechua. (12) (Formerly numbered Indigenous Languages of the Americas 17.) Lecture, 15 hours; laboratory, five hours. Intensive course equivalent to courses 18A, 18B, 18C. Language of Incas and its present-day dialects, as spoken in Andean South America. Offered in summer only. Letter grading.
The school limits the number of courses taken by undergraduate students to 11.

Undergraduate Study

Accounting Minor

The Accounting minor provides students with a comprehensive accounting background; admission is competitive and based on overall UCLA grade-point average, grade-point average in preadmission courses, and the grades in Management 1A and 1B. Decisions on admission to the minor are made by the Anderson School Accounting Area. Applications are accepted in Fall, Winter, and Spring Quarters. Nontransfer students must apply after completing two academic quarters (excluding Summer Sessions) at UCLA.

To enter the minor, students must (1) have a minimum cumulative UCLA grade-point average of 3.2, (2) complete all required preadmission courses with a minimum grade course grade-point average of 3.2, and (3) receive grades of B or better in Management 1A and 1B. Repetition of one more than one preadmission course or of any preadmission course more than once results in automatic denial of admission to the minor. Satisfying these requirements does not guarantee admission to the program, as only a limited number of students are admitted each year. For further information, see http://www.anderson.ucla.edu/x315.xml.

Required Preadmission Courses (31 units minimum): Economics 1, 2, 41 or Statistics 10 or 11, Management 1A and 1B (former course 100 taken at UCLA may be substituted), Mathematics 3A or 31A, 3B or 31B or 31E, one Writing II course. If Management 1A and 1B are not taken at UCLA, students must complete courses 120A and 122.

Required Upper Division Courses (36 units): Management 120A, 120B, 122, 127A, and three courses from 108, 123, 124, 126, 127B, 130A.

Transfer credit for any of the above courses is subject to department approval and is considered only for non-management courses. Only one upper division course repeat is allowed. Each minor course must be taken for a letter grade; all management courses must be completed at UCLA with grades of C or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The John E. Anderson Graduate School of Management offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Management, the Master of Business Administration (M.B.A.) degree, and the Master of Financial Engineering (M.F.E.) degree. The school also offers the Executive M.B.A. Program (EMBA) and the M.B.A. for the Fully Employed (FEMBA).

Management

Lower Division Courses

1A-1B. Principles of Accounting. (4-4) Lecture, three hours discussion, one hour. Not open to freshmen. P/NP or letter grading. 1A. Introduction to financial accounting principles, including preparation and analysis of financial transactions and financial statement elements and recording of asset-related transactions, including cash, receivables, marketable securities, inventories, and long-lived assets. Current liabilities. 1B. Requisite: course 1A. Completion of balance sheet with emphasis on debt and equity, including in-depth introduction to time value of money concepts. Introduction to partnership and individual income tax accounting.

88. Lower Division Seminar: Special Topics in Management. (1 to 4) Seminar, three hours; outside study, nine hours. Requisite: satisfaction of Entry-Level Writing requirement. Variable topics seminar that examines specific issues or problems and ways that professionals in management approach study of them. Students define, prepare, and present their own research projects with guidance of professional school faculty member. Letter grading.

Upper Division Courses

107. Business Communications. (4) Process and discipline of effective spoken presentations. Examination and application of classical and contemporary thinking on substance, structure, and delivery of messages. Elements of graphic presentation of data and presentation technology. Students design and deliver informative and persuasive presentations on key management issues. Critique of all efforts; certain efforts to be videotaped for review. P/NP or letter grading.

120A. Intermediate Financial Accounting I. (5)
Lecture, four hours. Requisite: course 100 or former course 1B. Intermediate-level course in theory and practice of financial accounting. Underlying concepts of asset valuation, income measurement, measurement and reporting of current and long-term assets, including cash and marketable securities, inventories, plant assets and depreciation, and intangibles. P/NP or letter grading.

120B. Intermediate Financial Accounting II. (5)

122. Management Accounting. (4)
Lecture, three hours. Requisite: course 100 (or former course 1B), one statistics course. Nature, objectives, and procedures of cost accounting and control; job costing and process costing; accounting for manufacturing overhead; cost budgets; joint-product costing; distribution cost; standard costs; differential cost analysis; profit-volume relationships and break-even analysis. P/NP or letter grading.

123. Auditing. (4)
Lecture, three hours. Requisite: course 120B. Specialized study of procedures used in verification of financial statements and related information, including ethical, legal, and other professional issues. Auditing of a complete set of financial statements. P/NP or letter grading.

124. Advanced Accounting. (4)
Lecture, three hours. Requisite: course 120B. Comprehensive study of procedures used in verification of financial statements and related information, including ethical, legal, and other professional issues. Auditing of a complete set of financial statements. P/NP or letter grading.

125. Special Applications in Accounting. (4)
Requisite: course 120B. Recommended: course 122. Designed for seniors. Use of “Strategic Management,” a computer program that simulates experience on a senior management team. Under real and sometimes adverse economic conditions, teams must make strategic and tactical decisions, evaluate performance results, and compete for key resources, market share, and business opportunities. Emphasis on theories of return on equity, product life cycles, product line margin analysis, issuing debt versus equity, and other topics that allow students to apply accounting principles learned in previous courses. P/NP or letter grading.

126. Financial Statement Analysis. (4)
Lecture, four hours. Requisite: course 120B. Comprehensive study of concepts and procedures used to interpret and analyze balance sheets, income statements, and state-ment of cash flows. Calculation and interpretation of financial ratios and credit analysis. Valuation theory using both discounted cash flows and residual income model. P/NP or letter grading.

127A. Tax Principles and Policy. (4)
Lecture, three hours. Requisite: course 100 or former course 1B. Study of fundamental concepts of taxation as determined by individuals and other entities in analyzing business, investment, employment, and personal deci-sions. Special emphasis on role of tax rules in capi-tal transactions and decision making. P/NP or letter grading.

127B. Corporate and Partnership Taxation. (4)
Lecture, three hours. Requisite: course 100 or former course 1B. Recommended: course 127A. Study of tax issues arising in forming, maintaining, and terminating of corporations and partnerships. Special emphasis on closely held enterprises, including S corporations. P/NP or letter grading.

127C. International Taxation. (4)
Lecture, three hours. Recommended requisite: course 127A. Study of two principle areas of international taxation from U.S. regulatory perspective: taxation of American cit-izens and companies conducting business in interna-tional arena (outbound transactions) and taxation of foreign nationals and companies who invest or con-duct business in the U.S. (inbound transactions). P/NP or letter grading.

128. Special Topics in Accounting. (4)

130A. Basic Managerial Finance. (4)
Lecture, three hours. Requisites: course 100 (or former course 1B), one statistics course. Study of financial decision mak-ing by business firms, with emphasis on applications of economic and accounting principles in financial analysis, planning, and control. Extensive use of problems and cases to illustrate analytical techniques employed in decision making. P/NP or letter grading.

130B. Advanced Managerial Finance. (4)
Lecture, three hours. Requisites: course 100 (or former course 1B), one statistics course. Analysis of capital budgeting and working capital management. Re-view of long-term financing through security markets and lease contracts. Management of financial risk us-ing options, futures, and forward contracts. Study of merger and acquisition processes and reorganization under bankruptcy laws. P/NP or letter grading.

133. Investment Principles and Policies. (4)
Lecture, three hours. Requisite: course 130A. Principles underlying investment policy; salient characteristics of governmental and corporate securi-ties; policies of investment companies and investing institutions; relation of investment policy to money markets and business fluctuations; security price-making forces; construction of personal investment programs.

140. Elements of Production and Operations Re-search. (4)

150. Elements of Industrial Relations. (4)
Princi-ples and methods of effectively utilizing human re-sources in organizations. Relationship between so-cial, economic, and other environmental factors and current problems in industrial relations.

175. Elements of Real Estate and Urban Land Economics. (4)
Examination of business decision making relating to real estate and urban land development processes, including real estate market functions and land uses. Emphasis on decision making as it relates to ap-praising, building, financing, managing, marketing, and using urban property.

CM176. Frontiers in Biotechnology. (4)
(Same as Microbiology CM133.) Lecture, three hours; enforced office time, one hour (to provide specialized training for undergraduate students in project research and written presentation). Requisites: Chemistry 153A and 153B, or Life Sciences 3 and 4, with grades of B or better. Integration of science and business in bio-tech-nology. Convergence with pharmaceutical, agricul-tural, and other key industries, therapeutics, crop im-provement, devices, and other industry sectors. Aca-demic research leading to thought leadership and funding of companies that turn research breakthroughs into marketable products. Stages of product discovery and development. Staged financing and growth: private offerings, public offerings, deals, collaborations, outsourcing. Intellectual property, regulation, pricing, profits, risks, public perception. Building value, exit strategies, mergers and acquisitions. Concurrently scheduled with course CM276. Letter grading.

180. Special Topics in Management. (4)
(Formerly numbered 188.) Lecture, four hours. Topics of special interest to undergraduate students. Specific subjects may vary each term depending on particular interest of instructors or students. May be repeated for credit. P/NP or letter grading.

182. Leadership Principles and Practice. (4)
Knowledge and skills leading to effectiveness in inter-personal relations. Understanding oneself as a leader and others as individuals and members of working groups. Understanding of group process, including group leadership. Lectures and “sensitivity training” laboratory.

195. Community or Corporate Internships in Manage-ment. (2 to 4) Tutorial, to be arranged. Limited to juniors/seniors. Internship in supervised setting in community agency or business. Students meet on regular basis with instructor and provide periodic re-port of their experience. May be repeated for maximum of 8 units. Individual contract with supervising faculty member required. P/NP or letter grading.

199. Directed Research in Management. (2 to 8)
Tutorial, to be arranged. Limited to juniors/seniors. Supervised individual research or investigation of selected research topic under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

200. Advanced Microeconomics. (4)
Seminar, three hours. Requisite: course 405. Economist’s approach to organization and competitive interaction. Topics include game theory, threat credibility, incentive contracts, information advantages, and entry de-terrence.

201A. Business Forecasting: Turning Numbers into Knowledge. (4)
Discussion, three hours. Preparation: familiarity with linear regression. Examination of one approach to analytical thinking — forcing numerical and textual data into carefully formulated alternative models. Data studied include macroeco-nomic variables (growth, inflation, unemployment, in-terest rates, and exchange rates), industry data, and firm data. Letter grading.

201B. Econometrics and Business Forecasting. (4)
Lecture, three hours. Study of standard topics in applied econometric modeling. Emphasis on assumptions underlying classical normal linear re-gression model, special problems in application, and interpretation of results. Practical applications exten-sively developed in student projects.

202A. Regulation. (4)

203A. Economics of Decision. (4) Discussion, three hours. Preparation: Statistics 100A. Topics include Poisson process, basic decision theory, and examples of single-person decision theory and introduction to non-cooperative game theory. Examination in some detail of von Neumann/Morgenstern expected utility theory. Other topics may include: expected utility theory and departures from expected utility behavior. S/U or letter grading.

205B. Comparative Market Structure and Compe- tion. (4) Discussion, three hours. Comparative study of public policies toward competition, market structures, and competitive practices in key industries in selected countries.

207. Resource Administration of Nonmarket Activities. Seminar, three hours. Preparation: course 405. Examination of behavior of managers in profit vs. not-for-profit sectors to determine critical variables that explain observed differences in behavior. Use of methodology of microeconomics, particularly utility maximization.

208. Public Services and Private Functions. (4) Requisites: courses 405, 406. Sources and uses of federal, state, and local revenues and their impact on public and private resource allocation. Examination of proper roles of government and private sector in financing and provision of public goods and services.

M209. Elements of Economic Organization. (2 to 6) Seminar/Lecture, three hours. Preparation: familiarly with basic vocabulary and concepts, including basic principles of accounting and valuation. Advanced course in business organization. Examination of structure of business transactions and allocations of control, risk, and return. Topics include venture capital investments, debt and loan agreements, employment agreements, distribution and marketing agreements (including franchising), motion picture production/fianance/distribution agreements, and joint ventures. Assigned reading and focus on documents that incorporate terms of business transactions of deals. S/U or letter grading.

210A. Mathematical Programming. (4) Discussion, three hours. Preparation: linear algebra. Comprehensive development of theory and computational methods of linear programming, with applications to a variety of analytic problems.

210B. Applied Stochastic Processes. (4) Discussion, three hours. Preparation: probability theory at level of Electrical Engineering 131A or Mathematics 170A or 171A. Topics include Poisson processes, renewal theory, Markov chains, and Markov decision processes, with emphasis on problem formulation, decision making, and characterization of optimal policies. Applications include traditional operations research topics (inventory, queueing, maintenance, reliability), as well as several in microeconomics (search and research and development). S/U or letter grading.

210C. Network Flows and Integer Programming. (4) Discussion, three hours. Preparation: linear programming. Survey of course to (1) foundations for modern advanced study of graphs, network flow models, and integer programming models and their applications, (2) establish connections between these technical foundations and real problems drawn from many areas, and (3) apply professional skills needed to apply these tools. S/U or letter grading.

211A. Nonlinear Mathematical Programming. (4) Discussion, three hours. Requisites: course 210A, Mathematics 32A. Theory, methods, and applications of optimization for situations where models must be nonlinear, with special emphasis on case of “conventional.” Topics include classical approaches to optimization, theory of optimality and duality, main computational approaches, and survey of currently available computer software. S/U or letter grading.

211B. Large-Scale Mathematical Programming. (4) Discussion, three hours. Requisite: course 210A. Theory, methods, and applications of optimization for situations where models are large and have special structure, as is often the case in real applications. Focus on ways of exploiting special structures with combinatorial methods. Examination of multidimensional pursuit of computational tractability. S/U or letter grading.

212A. Decision Sciences Models I. (4) Lecture, four hours. Requisites: course 407, Mathematics 31B. Broad survey of decision science models of decision sciences, including solution methods and applications management. Solution methods include linear programming, network optimization, integer programming, nonlinear programming. Applications include corporate planning, finance, marketing, production and operations management, distribution, and project management. S/U or letter grading.

212B. Decision Sciences Models II. (4) Lecture, four hours. Requisites: courses 402, 407. Broad survey of nonlinear, time-staged, and probabilistic models for managerial decision making. Application areas include finance, marketing, facilities design, production, and energy systems. S/U or letter grading.

213A. Intermediate Probability and Statistics. (4) Discussion, three hours. Preparation: working knowledge of differential and integral calculus of several variables, basic probability theory, and univariate mathematical statistics. Introduction to probability theory and hypothesis testing as applied to management. SAS programs used in this course and its sequels. S/U or letter grading.

213B. Statistical Methods in Management. (4) Discussion, three hours. Requisite: course 202A. Introduction to parameter and interval estimation, simple and multiple linear regression and correlation, fixed, random, and mixed effects analysis of variance models and nonparametric statistics, all as applied to management studies. S/U or letter grading.

213C. Introduction to Multivariate Analysis. (4) Discussion, three hours. Preparation: working knowledge of differential and integral calculus of several variables, basic probability theory, and univariate mathematical statistics. Introduction to use of multivariate models in management research to organize and represent information; interpretation of coefficients from multivariate exploratory models (e.g., principal axes and factor analysis models); survey of multivariate statistical procedures (e.g., multiple discrimination analysis, multivariate analysis of variance, canonical correlation, and confirmatory factor models). S/U or letter grading.

215. Negotiations Analysis. (4) Discussion, three hours. Series of negotiation exercises to foster development of strategies and decision making. Use of economic and game-theoretic concepts in brief to gain insight and develop framework for finding the broad negotiation principles applicable. S/U or letter grading.

216A. Simulation of Modeling and Analysis. (4) Discussion, three hours. Preparation: probability theory, mathematical statistics, analytical modeling. Development of computer simulation models for management decision making under specified conditions. Emphasis on simulation methodology such as design, validation, operating procedures, and interpretation of results. Application areas include finance, marketing, and production. S/U or letter grading.

217A. Decision Analysis. (4) Lecture, three hours. Requisite: course 402. Managerial decision making occurs in presence of uncertainty which can be about events over which no individual has any control or it can be about what other individuals will do. Framework provided for structuring and analyzing such decisions, with application of framework to such scenarios as product development, litigation, business of transaction and bidding. S/U or letter grading.

217B. Game Theory. (4) Discussion, three hours. Requisites: courses 402, 405. Theory of games plays increasingly important role as source of clear language and concepts for analysis of policy problems in economic organizations, and for analysis of interpretation and application of ideas to variety of practical issues in management and public policy, and in practical questions of ethics, fairness, and bargaining. S/U or letter grading.

218A. Selected Topics in Decisions, Operations, and Technology Management. (1 to 4) Discussion, three hours. Newly developing topics of interest to Ph.D. students. Topics may include decision making and optimal maintenance theory, large-scale distribution/ inventory systems, and Markovian decision processes under uncertainty. May be repeated for credit. S/U or letter grading.

224. Topics in Business Law. (4) Lecture, three hours. Requisite: course 403. Topics-oriented course covering wide range of current legal issues that confront entrepreneurs and corporate managers. Topics include venture capital, business formation and integration, contracts, property rights, product marketing, employment, creditor claims, and bankruptcy. S/U or letter grading.

229A. Special Topics in Accounting. (4) Lecture, three hours. Designed for Ph.D. students. Examination in depth of problems or issues of current concern in accounting, such as application of information economics and principal-agent model to accounting. Designed for Ph.D. students. Introduction to empirical accounting literature, focusing on role that accounting information plays in formation of capital market prices.

229X-229Y. Accounting Workshops. (1-1-2) Discussion, two hours. Designed for Ph.D. students. Intended to develop ability to critically evaluate research in fields relevant to study of accounting. Papers presented in colloquium format by leading scholars in accounting. Active participation and intellectual interchange encouraged through discussion of papers during colloquium. May be repeated for credit. S/U grading.

230. Theory of Finance. (4) Lecture, three hours. Requisite: course 408. Primary focus on valuation of corporate securities under uncertainty. Capital asset pricing model presented rigorously and compared with more recent theories of asset pricing such as arbitrage pricing theory and option pricing model, using empirical evidence. Secondary focus on analysis of problems in corporate finance such as optimal financing of the corporation and the market for corporate control. S/U or letter grading.

231A. Topics in Corporate Finance. (4) Lecture, three hours. Requisites: courses 230 (or 430), 408. Identifying and solving financial problems through use of cases. Application of financial theory and financial techniques to business problems, using written reports and classroom discussion. S/U or letter grading.

231B. Nonprofit Sector Financial Policy. (4) Lecture, three hours. Requisites: courses 408, 430. Identifying and solving financial problems for all types of nonprofit organizations, with attention to funds accounting, budgeting and control, investment decisions, and management of working capital. May be repeated for credit. S/U grading.

231C. Corporate Valuation. (4) Lecture, three hours. Requisites: courses 408, 430, 434. Lectures, discussions, and student presentations. Issues and analytical tools relevant for valuing projects, divisions, and corporations. Theories of cash flow valuation (DCF) and relative valuation using market multiples. Theories of practice to value different projects, including IPO, mergers and acquisitions, divestitures, and private firms. Exploration of how real options affect investment decisions and how they can be identified and valued. Letter grading.

231D. Takeovers, Restructuring, and Corporate Governance. (4) Lecture, three hours. Requisites: courses 230 or 430, 434. Corporate control transactions take place; role of market for corporate control in leading to economic restructuring and shifts in resource allocation by corporations. Empirical evidence on economic and capital market reactions to control transactions and to defensive measures by management. Focus on interaction of strategic planning, firm-value maximization, and investment decisions in the life cycle of growth of firm. S/U or letter grading.

231E. Managing Finance and Financing Emerging Enterprises. (4) Lecture, three hours. Requisites: courses 230 (or 430), 434. Designed for second-year graduate students. Focus on financial, control, and investment issues confronting rapidly growing companies in entrepreneurial settings. Consideration and selection of financing vehicles that may be appropriate to securing organizations’ money requirements. S/U or letter grading.

232B. Fixed-Income Markets. (4) Lecture, three hours. Requisites: courses 230 (or 430), 408. Introduction to fixed-income markets: institutional arrangements in primary and secondary markets; description and analysis of various bond instruments; security valuation; fixed-income portfolio management; use of derivative instruments and dynamic investment strategies; asset securitization. S/U or letter grading.

232E. Market and Credit Risk Management. (4) Lecture, three hours. Requisites: courses 408, 430. Discussion of regulatory environment for both market and credit risk management, data necessary to manage these risks, tools for risk management, types of securities and techniques for hedging market and credit risks, performance measurement of risk management systems, and other types of risks that affect risk management, such as operational risk, liquidity risk, commodity risk, weather risk, and market risk. Letter grading.

232F. Behavioral Finance. (4) Lecture, three hours. Requisites: courses 408, 430. Introduction to and explanation of evidence of anomalous return behavior found in U.S. equities markets. Presentation of some paradigms of stock price movements that are rooted in studies from psychology and explanation of trading activity in equity markets. Introduction to some psychological biases that researchers suspect are inherent to investors. Employment of some results from psychology literature to explain irrationalities encountered in finance literature. Presentation of latest evidence on why individual traders trade and how institutional and individual investors form their portfolios. Letter grading.

233C. Behavioral Finance. (4) Lecture, three hours. Requisites: courses 230 (or 430), 408. Theory and practice of financial institutions and stock exchange. Main topics include deposit insurance and regulation, international banking, market microstructure, and investment banking. S/U or letter grading.

234A. International Financial Markets. (4) Lecture, three hours. Requisites: courses 230 (or 430), 408. Conceptual understanding of foreign exchange market, Eurocurrency market, international bond market, and equity markets in various countries. Emphasis on underlying economic principles, although where relevant, institutional features helpful in understanding structure and operations of markets to be dealt with in detail. S/U or letter grading.

234B. Financial Management of Multinational Corporations. (4) Lecture, three hours. Requisites: courses 230 (or 430), 408. Financial management of multinational firms from perspective of financial vice president or other financial office within company. Topics include measuring foreign exchange risk, managing that risk with both contractual and operating strategies, foreign investment decisions, capital budgeting and cost of capital, international perspective, political risk, working capital management, and performance evaluation and control. S/U or letter grading.

235. Venture Capital and Private Equity. (4) Lecture, three hours. Requisites: courses 408, 430. Use of cases to study entrepreneurial finance and venture capital. Analysis of issues faced by entrepreneurs who are setting up new firms, as well as decisions of private equity partnership managers and investors. How transactions are structured and why investors and entrepreneurs choose certain contractual arrangements. Development of understanding for institutional context of private equity finance. Time also devoted to emerging buisnesses. S/U or letter grading.

237A. Fundamentals of Corporate Finance and Accounting. (4) Lecture, three hours. Limited to Master of Financial Engineering Program students. Examination of financial statements and tax liabilities of firms. Introduction to key issues facing corporate financial decision makers, including making capital budgeting and investment decisions, designing capital structure of firms, minimizing agency costs and costs of financial distress, role of financial innovation, capital markets, and valuation of real options embedded in investment projects such as option to expand, contract, and shut down operations temporarily. S/U or letter grading.

237B. Theory of Investment under Uncertainty. (4) Lecture, three hours. Primarily designed for Ph.D. students, but well-prepared master's students may find course useful in their career preparation. Foundations of theory of exchange developed as introduction to theoretical literature on pricing of capital assets. S/U or letter grading.

239A. Theory of Exchanges under Uncertainty. (4) Lecture, three hours. Primarily designed for Ph.D. students, but well-prepared master's students may find course useful in their career preparation. Foundations of theory of firm capitalization and investment decisions, with special attention to questions of exchange and allocative efficiency. S/U or letter grading.

239C. Ph.D. Seminar: Corporate Finance. (4) Seminar, three hours. Designed for Ph.D. students. Advanced topics in corporate finance theory and empirical research. May be repeated for credit with instructor change. S/U or letter grading.

239D. Ph.D. Seminar: Corporate Finance. (4) Seminar, three hours. Designed for Ph.D. students. Advanced topics in corporate finance theory and empirical research. May be repeated for credit with instructor change. S/U or letter grading.

240A. Managing Service Operations. (4) Discussion, three hours. Requisite: course 410. Design, management, improvement, and measurement of service and loyalty initiatives in variety of industries and organizations, with emphasis on understanding service and loyalty opportunities, their operating problems, and successful resolution. Extensive employment of cases. S/U or letter grading.
240D. Operations Strategy: Theory and Practice. (4) Discussion, three hours. Requisite: course 410. Definition and scope of operations strategy; integrated framework for assessing the crucial fit between operations strategies and corporation's strategic positioning. Cases used to illustrate strategic issues in both manufacturing and nonmanufacturing settings. Objectives include: (1) strategy aspect of course, to provide students with skill in identifying operationally appropriate business processes and metrics required to fulfill enterprise's strategic position; S/U or letter grading.

240E. Managing Entrepreneurial Operations. (4) Lecture, three hours. Requisite: course 410. Designed for second-year graduate students. Exploration of operating issues involved in managing entrepreneurial enterprises. Integrative course, building on methodologies, principles, and concepts provided in requisite and functional and strategic core courses. Use of extensive readings and case studies to develop skills in philosophical basis for applying managerial concepts to entrepreneurial operations. S/U or letter grading.

240F. Supply Chain Management. (4) Lecture, three hours. Requisite: course 410. Business environment today is characterized by globalization, operations-intense competition, rapid technological change, and short product life cycles. Consequently, firms can no longer afford to operate in isolation. In many industries competition is coming from firms who can supply a chain level. Provides understanding of strategic, tactical, and operational issues in supply chain management, with generous attention to emerging digital economy. S/U or letter grading.

241A. Technology Management. (4) Lecture, three hours. Requisites: courses 410, 411A, 411B. Management of high-technology firm, including acquisition, creation, and utilization of technology and knowledge assets. Research and product development, product and process technologies, technology regimes, high-technology markets, competition, and technology strategies. Case examples from sectors such as computing, telecommunications, e-business, medical devices, nanotechnology, advanced transportation systems, and energy. S/U or letter grading.

242A. Models for Operations Planning, Scheduling, and Control. (4) Discussion, three hours. Designed for Ph.D. students. Examination of ways in which environmental issues interact with main functional areas of business: finance, marketing, strategy, operations, accounting. Introduction to background of environmental issues, with business aspects. Specific topics vary from year to year, but course details what every manager should know about environmental issues in business. S/U or letter grading.

246A. Business and Environment. (4) Lecture, three hours. Overview of ways in which environmental issues interact with main functional areas of business: finance, marketing, strategy, operations. Topics include development and training; human resource and workforce issues; roles and management systems of the U.S. exploration of present policies and trends in the U.S. Exploration of current policies and trends in potential future developments. S/U or letter grading.

247B. Role of Management in Artistic Decision Making. (4) Descriptive study of criteria for decision making in artistic institutions, including role of insti- tution in society, economic environment of the arts, and artistic value systems of arts organizations. S/U or letter grading.

248A. Strategic Management in the Entertainment Industry. (4) Discussion, three hours. Requisites: courses 403, 405, 406, 408, 420. Examination of financial and strategic aspects of transactions and company management in the entertainment industry. Cases and topics include organizational behavior and decision making in creative companies; trends in industry structure and profit trends; accounting issues; institutional and private motion in pictures; theatrical distribution, international and ancillary markets (pay TV, videocassettes, syndication).

248B. Special Topics in Arts Management. (4) Examination of current issues in management of artistic organizations. Relevant combinations of lectures, discussions, case studies, and team research projects.

250A. Labor Relations: Process and Law. (4) (Same as Public Policy M232.) Lecture, three hours. Designed for graduate students. Consideration, at advanced level, of collective bargaining process, labor management agreement, administration of the contract, law of labor/management relations, union structure and goals, and influence of external labor markets on labor relations. S/U or letter grading.

250B. Human Resource Management: Process and Law. (4) Requisite: course M250A. Systematic exposure to theoretical and empirical literature concerning administrative and legal aspects of human resource management. Topics include processes of managing human resources and impact of governmental policies on employer/employee relations.

250C. Behavioral Foundations of Human Resource Management. (4) Requisite: course 250B. Topics include development, designed for managers as well as personnel specialists. Organized at three related but distinct levels of analysis: (1) day-to-day utilization of people as organizational resources to achieve optimal productivity, satisfaction, retention, and development; (2) personnel management function or system that performs specialized human resource functions; and (3) issues facing top management which involve management of human resources, including strategic planning for human resources, union-management relations, and design of corporate culture.

252. Systems of Employee/Management Participation. (4) Designed to provide understanding of systems of employee/management participation around the world (apart from traditional collective bargaining systems). Specific concepts such as worker participation in decision making, industrial democracy, joint consultation, workers' councils, profit sharing.

253. International Political Economy. (4) Lecture, three hours. Examination of political, legal, and social institutions to demonstrate varieties of modern capital- ism and business/government relations around the world. Analysis of major domestic policy options that nations are pursuing in response to economic globalization and introduction to international coalitions being formed as result of globalization, including NAF- TA, and to nongovernmental organizations created to deal with special problems such as global environmental crisis. Letter grading.

254. Pay and Rewards in Organizations. (4) Lecture, three hours. Systematic treatment of pay (com- pensation) and rewards in organizations, with emphasis on design, implementation, and outcomes of organi- zational pay and reward systems and practices that are shaped by strategic, labor market, and motivation- al considerations. Specific topics include variable compensation (e.g., bonus, profit-sharing, stock own- ership, and stock option plans) and noncompensation reward and compensation costs and effectiveness of performance evaluation systems and in entrepreneurial and public organizations; fringe benefits; executive compensation; and interna- tional and comparative compensation/reward practic- es. S/U or letter grading.
257. Human Resource Management in Creative and Nonprofit Sectors. (4) Designed for graduate students. Analysis of human resource management theory and practices in industries where primary product or output is creative or intellectual (e.g., arts, entertainment, education, high technology, and journalism). Consideration of incorporation of work design, employee influence, systems, and business strategies in human resource management. S/U or letter grading.

258. Selected Topics in Industrial Relations. (1 to 4) Designed for Ph.D. students. Examination in depth of problems or issues of current concern in industrial relations. Emphasis on contributions to theory, research, and methodology. Of special interest to advanced Ph.D. candidates, academic staff, or distinguished visiting faculty. May be repeated for credit.

259A. Individuals and Groups in Human Systems. (4) Lecture, three hours. Requisite for graduate students. Doctoral-level survey of research literature dealing with interpersonal dynamics, groups, and aspects of culture in work organizations, with emphasis on theory and research. Current research in psychology, anthropology, and small group studies. Variety of methods represented, including clinical and cross-cultural approaches. S/U or letter grading.

259B. Advanced Studies in Human Resource Management. (4) Lecture, three hours. Designed for graduate students. Doctoral-level survey of research literature assessing how organizations utilize human resources to enhance individual, group, and organizational effectiveness. Current theory and research in psychology, anthropology, organization behavior, and economics, including topics such as careers, participation, negotiations, and technology/work systems. S/U or letter grading.

M259C. Labor Markets and Public Policy. (4) (Same as Public Policy CM230.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Survey of major topics in economic analysis of labor markets and public policies toward labor market. Topics include labor force trends and measurement, compensation determination, productivity, internal labor markets, human capital, union wage effects, unemployment, and minority and female labor-market experience. S/U or letter grading.

261B. Global Marketing Management. (4) Lecture, three hours. Requisites: courses 411A, 411B. Analysis of opportunities, distinctive characteristics, and emerging trends in foreign markets, including exploration of alternative methods and strategies for entering foreign markets; organizational planning and control; impact of social, cultural, economic, and political differences; and problems of adapting American marketing concepts and methods. Letter grading.

263A. Consumer Behavior. (4) Lecture, three hours. Requisites: courses 411A, 411B. Study of nature and determinants of consumer behavior. Emphasis on influence of sociopsychological factors such as personality, small groups, demographic variables, social class, and culture on formation of consumers’ attitudes, consumption, and purchasing behavior. S/U or letter grading.

264A. Market Research. (4) Lecture, three hours. Requisites: courses 411A, 411B. Designed for prospective users of research results rather than for specialists in research. Marketing research is aid to management decision making. Development of problem analysis skills, providing knowledge of concepts and methods of marketing research, with increased sensitivity to limitations of marketing data. Letter grading.

264B. Marketing Models and Market Response Analysis. (4) Lecture, three hours. Requisites: courses 411A, 411B. Advanced topics in marketing research, with emphasis on quantitative tools to aid marketing decision making. Topics include demand and market share forecasting, conjoint analysis, market segmentation and cluster analysis, brand positioning and competitive market structures, and assessing market response to price, advertising, promotion, distribution, and sales force. Letter grading.

265. Brand Management. (4) (Formerly numbered 265A.) Lecture, three hours. Requisites: courses 411A, 411B. Introduction to considerations in development, implementation, and management of brands. Discussion of challenges to creating and maintaining strong brands. Topics include building brand knowledge and identity, marketing mix and brands, brand architectures, and brand equity. Letter grading.

266A. New Product Development. (4) Lecture, three hours. Requisites: courses 411A, 411B. Examination of new product development (NPD) process with objective of learning key tools and methods and applying them to case studies, exercises, and course project. Products include software, threads, quan
tifiable rational attributes, appeal due to emotional characteristics, and cost/technology/competitive tradeoffs. NPD process also investigated through five key phases: ideation, concept generation and selection, detailed design, prototyping and testing, and ramp-up and product launch. Coverage of mass customization, parallel prototyping, cost reduction, and creativity. Letter grading.

266B. Advertising and Marketing Communications. (4) Lecture, three hours. Requisites: courses 411A, 411B. Detailed review of use of communication tools in marketing. Critical review of advertising and promotional policies from developmental and executional perspectives. Discussion of other forms of marketing communications, with goal of helping students develop integrated communication strategies. Letter grading.

268. Selected Topics in Marketing. (4) Lecture, three hours. Requisites: courses 411A, 411B. Study of selected areas of marketing knowledge and thought. Specific subjects vary each term depending on particular interests of instructor and students. Individual projects and reports. May be repeated for credit. S/U or letter grading.

269A. Theory in Marketing. (4) Serves as mechanism to introduce students to development of marketing thought. Issues pertaining to general topic of theory development and testing. Prepares students for conducting theoretically grounded research in marketing.

269B. Research in Marketing Management. (4) Discussion, three hours. Designed for Ph.D. students. Study of research issues within marketing management decisions. Recent research in areas of strategic marketing, market segmentation, new product development and introduction, pricing strategies, channel policy, promotion, and sales force management examined critically. Review of both quantitative and behavioral approaches to studying these issues.

269C. Quantitative Research in Marketing. (4) Discussion, three hours. Designed for Ph.D. students in management and related fields. Students are assumed to have good background in marketing principles and to be familiar with probability, statistics, mathematical programming, and econometrics. Review of a range of quantitative models as applied in marketing research. S/U or letter grading.

269D. Behavioral Research in Marketing. (4) Designed for Ph.D. students who are conducting research in consumer behavior or related areas. Empirical research in consumer behavior surveyed and critically evaluated from theoretical as well as practical perspectives.

269E. Special Research Topics in Marketing. (4) Designed for Ph.D. students. Advanced selected topics in marketing, with emphasis on thorough examination of one or two topics in current research and theory. May be repeated for credit.

269X-269Y. Workshops: Marketing. (1-1-2) Discussion, three hours. Designed for Ph.D. students. Required of all students during first two years of their Ph.D. work. Series of workshops led by visiting scholars in marketing and related disciplines who make presentations to marketing faculty and Ph.D. students. Active participation and intellectual interchange that helps students gain richer perspective on field of marketing. In Progress (269X, 269Y) and S/U or letter (269Z) grading.

270C. Application Frontiers in Information Systems. (4) Lecture, three hours. Requisite: course 404. Exploration of new state-of-the-art applications in information systems, such as in electronic commerce. Assessment of industrial opportunities and impacts. Topics vary from term to term. May be repeated for credit. S/U or letter grading.

271C. Emergent Technologies in Information Systems. (4) Discussion, three hours. Requisite: course 404. Special topics in new and emergent technologies such as multimedia, digital imaging, object-oriented software, heterogeneous databases, and parallel processing. Assessment of industrial opportunities and impacts. Topics vary from term to term. May be repeated for credit. S/U or letter grading.

274A. Special Topics in Information Systems. (4) Discussion, three hours. Designed primarily for Ph.D. students. Examination in depth of problems or issues of current concern in information systems theory and practice. Topics vary from term to term. May be repeated for credit. S/U or letter grading.

274C-274Y/274Z. Current Research in Information Systems. (1-12) Discussion, two hours. Designed for Ph.D. students. Year-long sequence associated with Information Systems Colloquium Series. Regularly scheduled presentations of current research and state-of-the-art developments in information systems field. Study and discussion of research presented. May be repeated for credit. S/U or letter grading.

CM276. Frontiers in Biotechnology. (4) Same as Microbiology CM233.) Lecture, three hours. Requisites: Chemistry 153A and 153B, or Life Sciences 3 and 4, with grades of B or better. Integration of science and technology. Convergences with pharmaceutical, agricultural, and other key industries, therapeutics, crop improvement, devices, and other industry sectors. Academic research leading to licensing and founding of companies that turn research breakthroughs into marketable products. Stages of product discovery and development. Staged financing and growth: private offerings, public offerings, deals, collaborations, and mergers and acquisitions. Concurrency scheduled with course CM176. S/U or letter grading.

M277A-277B. Real Estate Finance Law. (3 to 6 each) (Formerly numbered M278C.) (Same as Law M278C.) Requisite: course 404. Emphasis on work-oriented legal environment. Analyzing real estate law and transactions. Field of study is ever-increasing in importance. S/U or letter grading.

277B. Real Estate Securitization: Debt. (4) Lecture, three hours. Requisites: courses 230 (or 430), 408. Analysis of money, capital, and mortgage markets to determine potential availability and costs of mortgage money sources. Evaluation of various sources of funds to determine factors influencing decisions to make mortgage loans. Examination of all types of lending instruments, particularly mortgage instruments, and mortgage-based securiti- ties for their impacts on real estate investment decisions. S/U or letter grading.

279A. Cases in Real Estate Investments. (4) Lecture, three hours. Requisites: courses 408, 430. Development of understanding of principal issues involved with real estate investment and finance. Topics include real estate financial analysis and valuation in variety of contexts (single family, residential, commercial, industrial, shopping center, and hotel properties), real estate taxation, real estate law, development process, securitization, REITs, and leasing and workout of troubled properties. S/U or letter grading.

279B. Entrepreneurial Real Estate Development. (4) Lecture, three hours. Requisites: courses 408, 430. Introduction to various aspects of real estate development from perspectives of entrepreneur and investor. Coverage of key developments, including single family, multifamily, hotel, office, retail, and industrial. Industry guest speakers to help reinforce principles taught. Real estate development simulation and group presentations to panel of investors included. S/U or letter grading.

280A. Studies, Research Philosophies, and Methodology in Human Systems. (4) Discussion, three hours. Designed for Ph.D. students. Survey of seminal studies in human systems, including individual, group, and intergroup behavior, and organization behavior. Consideration of objectivist and subjectivist philosophies of science and their implications for related methodologies, including experimentation, field studies, case approaches, and a range of analytic and descriptive procedures in data collection. Emphasis on existing literature, philosophy of science, and concepts. May be repeated for credit. S/U or letter grading.

280B. Personal and Professional Development. (4) Discussion, three hours. Designed for Ph.D. students. Provides setting where students may explore their own professional values and approaches in process of testing and learning values and standards in applied behavioral sciences and human systems development. S/U or letter grading.

280C. Research Design in Human Systems Studies. (4) Discussion, three hours. Conceived for Ph.D. students. Process of designing studies of human systems, including choice of research topics. Actively involves students in preparation of research proposals for research opportunities. May be repeated for credit. S/U or letter grading.

281A. Sociotechnical Systems. (4) Designed for graduate students. Introduction to systems concepts and theories of work organizations. Emphasis on human behavior in organizations, as well as managerial implications of individual, group, and social behavior. Special attention to knowledge about satisfaction, motivation, and productivity in organizations.

281B. People in Organizations. (4) Designed for graduate students. Introduction to different philosophical perspectives for understanding human behavior. Theories and concepts important for understanding human behavior in organizations, as well as managerial implications of individual, group, and social behavior. Special attention to knowledge about satisfaction, motivation, and productivity in organizations.

282. Task Group Processes. (4) Lecture, three hours. Requisite: course 281A or 281B. Structures, processes, and interrelations of work groups in sociotechnical systems. Emphasis on understanding how group activities interrelate with physical/technical environment. Imparts practical knowledge of task group functioning through class exercises and field observations. Consideration of team concepts and project group design. S/U or letter grading.

284A. Organization Design. (4) Lecture, three hours. Requisite: course 281A or 281B. Survey of organizational design theories and methods, including bureaucratic, participative, and cognitive models. Development of specific microdesign of jobs to macrodesign of total organizational systems. Special emphasis on sociotechnical and differentiation/integration models. S/U or letter grading.

284B. Organization Development. (4) Lecture, three hours. Designed for graduate students. Analysis of effects of organizational and managerial practices on individual self-fulfillment and systems effectiveness. Theories of organization change and action/research methods in organization development. Theory merged with practice through seminar discussions of field observations. S/U or letter grading.

284C. Managing Entrepreneurial Organizations. (4) Lecture, three hours. Issues involved in developing and managing entrepreneurial organizations. Topics include organizational growth, managerial tools, strategic planning, organizational design, management development, control systems, leadership, and cultural management. Examination of transitions that individuals must make as organizations grow. S/U or letter grading.

285A. Leadership, Motivation, and Power. (4) Discussion, three hours. Designed for graduate students. Theoretical and practical approaches to influencing and motivating people. Relative effectiveness of various leadership styles, different motivation theories, and power and influence from the employee’s point of view. Use of experience-based learning methods to aid diagnosis and understanding of one’s own influence styles. S/U or letter grading.

285B. Managerial Interpersonal Communication. (4) Discussion, three hours. Designed for graduate students. Interpersonal and personality factors affecting managerial communications. Styles and modes of communication in one-to-one, group, and large-systems settings. Opportunities offered to deepen understanding of one’s own communication styles and skills, considering verbal, nonverbal perceptual, and cross-cultural aspects. S/U or letter grading.

286. Negotiations Behavior. (4) Discussion, three hours. Presentation of theoretical principles and concepts from psychology, sociology, and economics through lectures and readings, with focus primarily on integrative and distributive negotiation strategies, role-playing, and experiential learning (i.e., negotiations simulations). Participants learn not only to enhance their individual abilities in dyadic and group situations, but also to analyze contexts most effective for application of these skills. S/U or letter grading.
287. Groups and Their Facilitation. (4) Discussion, three hours. Development of cognitive and experiential understanding of dynamics of small group training and its facilitation. Includes "sensitivities" basic group counseling, self-help groups, small groups, and committees in managerial decision making. Analysis of relevant theory, research findings, and case studies. S/U or letter grading.

288A. Selected Topics in Behavioral Science. (4) Discussion, three hours. Designed for graduate students. Theories of human behavior fundamental to study of individuals, group, organizational, and cultural behavior. Exploration in depth of selected theoretical positions, extending and consolidating behavioral science knowledge and application. May be repeated for credit. S/U or letter grading.

288B. Current Issues in Sociotechnical Systems and Organization Design. (4) Discussion, three hours. Designed for graduate students. Current topics in analysis and design of organizations as sociotechnical systems engaged with various technologies and environments, emphasizing design approaches emanating primarily from Europe, the Orient, and the U.S. In-depth comparisons of selected job and organizational designed cases. May be repeated for credit. S/U or letter grading.

288C. Selected Topics in Human Systems Studies and Organizational Behavior. (4) Discussion, three hours. Designed for graduate students. Psychological and social aspects of human systems at organizational level and their relationship to individual behavior and performance in organizations. Theoretical models, empirical findings, and applications of such topics as attitudes and values, cognitive and perceptual processes, behavioral conflict, and individual change processes. May be repeated for credit. S/U or letter grading.

288D. Current Issues in Human Systems Change and Development through Consulting. (4) Discussion, three hours. Current topics in philosophy, art, and technology of improving organizations and increasing managerial effectiveness through consulting interventions. In-depth treatment of consultant entry and exit, diagnosing, process consultation, consciousness raising, team building, and values. Relevance to development of effective M.B.A. field-study teams. S/U or letter grading.

288E. Proseminar: Behavioral and Organizational Sciences Colloquium. (4) Discussion, three hours. Designed for graduate students. Series of presentations by scholars and practitioners in behavioral and organizational sciences, with focus on integrative themes or challenges, designed to provide dialogue among students and faculty on significant topics, controversies, and leading-edge ideas. May be offered in one or successive terms and may be repeated for credit. S/U or letter grading.

M292A. Research and Development Policy. (4) Same as Public Policy M280A. Lecture, three hours. Examination of research and development as process and as element of goal-oriented organization. Factors affecting invention and innovation; transfer of technology; organizational and behavioral considerations; coupling of science, technology, and organizational goals; assessing of and forecasting technological futures. S/U or letter grading.

M292B. Growth, Science, and Technology. (4) Same as Public Policy M282B. Lecture, three hours. Economic growth and technological change. Role of advances in science and technology, and actions of maximizing innovators and factors impinging on their behavior. How technological breakthroughs (or discontinuities) can form new industries or transform nature of and population of firms in existing industries. S/U or letter grading.

292C. Comprehensive Planning in Public Sector. (4) Evolving modes of planning under complexity, with particular emphasis on public sector. Development of policy through standard setting, bargaining, and regulating governing relationships; reality and value judgments; social and technical dimensions of alternatives; and social and technological forecasting.

293A. Political Environment of American Business. (4) Lecture, three hours. Examination of certain criticisms made by the American political system. Designed to provide clearer understanding of patterns and issues of interest, especially as they influence business enterprises.

293C. Ethical Considerations in Business. (4) Lecture, three hours. Examination of a range of ethical considerations in business decisions involving the individual, corporation, society, and international business. Analysis of cases for classroom presentation and discussion.

295B. Small Business Management. (4) Exploration of special small business enterprises. Emphasis on identification and analysis of characteristic operating problems of small firms and application of appropriate methods or techniques for their solution.

295C. Corporate Entrepreneurship. (4) Inquiry into nature of entrepreneurship and effective implementation of entrepreneurial strategies in large industrial enterprises. Emphasis primarily on managerial effects aimed at identification, development, and exploitation of technical and organizational innovations, management of new product or process developments, and effective new venture management in a corporate context.

296A. International Business Management. (4) Discussion, three hours. Identification, analysis, and resolution of managerial issues of policy and action within context of a multinational corporation, with emphasis on problems of adaptation to different socioeconomic, cultural, legal, political, and economic environmental characteristics of cultural and organizational relationships, and coordination and control in multinational firms. S/U or letter grading.

296B. International Comparative Management Research. (4) Designed for Ph.D. students. In-depth study of theory and research pertaining to international business and comparative management. Emphasis on recent research developments and methodological issues. Imparts knowledge on design and conduct of international comparative management research.

297A. Comparative and International Management. (4) Comparative study of practice of management in selected foreign countries, as affected by their social environments and development of management theory. S/U or letter grading.

297C. International Business Law. (4) Requisites: courses 296A, 296A. Legal environments in which international business operates; overseas business relationships and organizations; antitrust, taxation, transfer of capital, and technology regulations; patent, trademark, and copyright safeguards; arbitration of international business disputes; expropriation of foreign investments; international business and government relations.

297D. International Business Negotiations. (4) Requisites: course 296A. Exploration of international business negotiations of multinational enterprises with governmental agencies and foreign-based firms on a wide range of issues, such as establishment/dis-solution of joint ventures, extent of foreign ownership/management control, terms/conditions for technology transfer, investment incentives.

297E. Business and Economics in Emerging Markets. (4) Lecture, three hours. Requisites: course 205A or 405. Analysis of economic, political, demographic, and sociocultural conditions in developing countries as they affect the business environment. Process of economic growth, market-oriented reforms, and creation of domestic capital markets. Inflation and stabilization programs, identification of business risks and opportunities, as well as tools needed to manage firms under these conditions. S/U or letter grading.

298A. Special Topics in Management Theory. (4) Designed for Ph.D. students. Examination in depth of problems or issues of current concern in management theory. Emphasis on recent contributions to theory, research, and methodology. Of special interest to advanced Ph.D. candidates, academic staff, or distinguished visiting faculty. May be repeated for credit.

298B. Special Topics in International and Comparative Management. (4) Designed for Ph.D. students. Examination in depth of problems or issues of current concern in sociotechnical systems. Emphasis on recent contributions to theory, research, and methodology. Of special interest to advanced Ph.D. candidates, academic staff, or distinguished visiting faculty. May be repeated for credit.

298C. Special Topics in Sociotechnical Systems. (4) Designed for Ph.D. students. Examination in depth of problems or issues of current concern in sociotechnical systems. Emphasis on recent contributions to theory, research, and methodology. Of special interest to advanced Ph.D. candidates, academic staff, or distinguished visiting faculty. May be repeated for credit.

298D. Special Topics in Management. (1 to 4) Lecture, three hours. Designed for graduate students. In-depth examination of problems or issues of current concern in management, with numerous topics offered each year. May be repeated for credit. S/U or letter grading.

M298E. Seminar: Neuroeconomics. (4) Same as Psychology M267.) Seminar, three hours. Limited to graduate students. Analysis and discussion of recent research on cognitive and neural bases of decision making. S/U or letter grading.

298X-298Y-298Z. Management Strategy and Policy Workshops. (1-1-2) Discussion, three hours. Designed for Ph.D. students. Development in depth of strategy and policy workshops to develop ability to critically evaluate research in fields relevant to study of management strategy and policy. Papers presented in colloquium format by leading scholars in management strategy and policy. Active participation and intellectual interchange encouraged through discussion of papers in sessions prior to workshop, as well as during colloquium. May be repeated for credit. S/U grading.

299R. Research Methods in Management. (4) Discussion, three hours. Designed for Ph.D. students. Provides feedback and evaluation of papers prepared for research requirement. Quarterly meetings to discuss elements of research competencies. Doctoral Office. Students must enroll the term in which they are submitting their research paper. May be repeated for credit. S/U grading.
401. Operations Technology Management. (4) Lecture, three hours. Requisites: courses 402, 403, 405. Principles and decision analysis related to effective utilization of factors of production in manufacturing and nonmanufacturing activities for both intermittent and continuous systems. Production organizations, analytical models and methods, facilities design, and design of control systems for production operations. Letter grading.

411B. Marketing Management II. (4) Lecture, three hours. Requisite: course 411A. Examination of analytical tools to gauge market attractiveness and to allocate resources to elements of marketing mix. Topics include market sizing based on diffusion of innovation and trial-and-repeat processes, customer preference measurement and market segmentation techniques, and optimal model to present market across products and customers. Letter grading.

421. Management of Organizations. (4) Lecture. three hours. Preparation: completion of first-year core program. Integrative approach to theory and practice of management in complex organizations, emphasizing managerial roles in designing organizational structures, creating/maintaining planning, control, information, incentive systems, different patterns of human interaction such structures and systems tend to produce.

413A. Personal Computing for Managers. (4) Lecture, three hours. Designed for graduate students. Introduction to fundamental financial accounting methods and procedures, with emphasis on financial statements. Provides basis for firm understanding of “language of business”—accounting. Letter grading.

423. Managerial Model Building. (4) Lecture, three hours. Requisite: course 402. Introduction to uses of analytical methods for making strategic, tactical, and operational decisions arising from accounting, finance, marketing, and production, with focus on three key areas in problem solving: formal problem definition, computer model formulation, alternative evaluation. Letter grading.

444A-444B. Applied Management Research: Two-Quarter Plan. (4-4) Fieldwork, four hours. Must be taken in second year (or its equivalent for part-time students). Supervised study of an organization, including establishment of client/consultant relationships, identification of problems or strategic questions, design of study, collection and analysis of data, development and reporting of implementable recommendations. In Progress (444A) and S/U or letter (444B) grading.

445. Applied Management Research. (8) Fieldwork, eight hours. Must be taken in second year (or its equivalent for part-time students). Supervised study of an organization, including establishment of client/consultant relationships, identification of problems or strategic questions, design of study, collection and analysis of data, development and reporting of implementable recommendations. Letter grading.

451. Fieldwork in Organizational Development. (2 to 12) Fieldwork, to be arranged. Requisite: course 284B. Supervised practical fieldwork in organizational development of large or consulting firm, or community, including field experience in business consulting and other forms of technical assistance for business firms and management in ethnic communities; seminars and other shared learning experiences in transmitting business administration technology to the urban ghetto.

453. Fieldwork in Arts Management. (4 to 12) Supervised field experience in business consulting and other forms of technical assistance for business firms and management in ethnic communities; seminars and other shared learning experiences in transmitting business administration technology to the urban ghetto.

455E. International Exchange Program. (2 to 16) Lecture, to be arranged. Preparation: completion of two terms of M.B.A. program. Supervised, nonpaid practical experience or fieldwork in an organization as an intern or fellow. Execution of assignment(s) pursuant to a defined program of study which may include formal coursework. May not be repeated for credit. S/U grading.

455E. International Exchange Program. (2 to 16) Lecture, to be arranged. Preparation: completion of two terms of M.B.A. program. Supervised, nonpaid practical experience or fieldwork in an organization as an intern or fellow. Execution of assignment(s) pursuant to a defined program of study which may include formal coursework. May not be repeated for credit. S/U grading.

457. Fieldwork in Investment Management. (4) Discussion, three hours. Use of academic theories learned in a practical experience by managing a portfolio started with donated funds. Mirrors situations experienced by typical money management firms and includes investment strategy, asset allocation, security analysis, and organizational issues. S/U or letter grading.

461A. Leadership Foundations I. (2) (Formerly numbered 461.) Lecture, two hours. Discussion, 10 hours. Students attend to four M.B.A.-level courses at institutions with exchange agreements with Anderson School. Some courses may be taught in local language. Use of readings, cases, decision simulations, and discussions to explore areas of charting job and career progress, working with others, and shaping work culture. S/U or letter grading.
461B. Leadership Foundations II. (1) Lecture, one hour. Limited to Executive M.B.A. Program students. Continuation of course 461A, with focus on development of self-assessment and self-reflection skills. Facilitation of self-evaluation of leadership strengths and weaknesses, with emphasis on individual problem solving and decision making and team design and development. Readings, cases, decision simulations, peer coaching, and discussions. In Progress grading (credit to be given only on completion of course 461C).

461C. Leadership Foundations II. (1) Lecture, one hour. Limited to Executive M.B.A. Program students. Continuation of course 461B. Further exploration of leadership strengths and weaknesses, with emphasis on individual peer coaching, conflict management, individual goal setting, and goal achievement. Readings, cases, decision simulations, peer coaching, and discussions. S/U grading.

461D. Leadership Foundations III. (1) Lecture, one hour. Limited to Executive M.B.A. Program students. Continuation of course 461C. Facilitation of self-evaluation of leadership strengths and weaknesses, with emphasis on career development, social networks, and organizational change. Readings, cases, decision simulations, peer coaching, and discussions. S/U grading.

466A. Financial Policy for Managers. (4) Lecture, four hours. Limited to Executive M.B.A. Program students. Examination of interdependencies with decision making under uncertainty for corporate financial management, portfolio investment decisions, financial institutions, and international financial management. Focus on learning sound theoretical tools and applying them in casework. S/U or letter grading.

469. Management of Human Resources. (4) Limited to Executive M.B.A. Program students. Introduction to major areas of human resource management — personnel management, labor economics, labor law, and labor relations — accomplished by examining some major concepts, theories, and research related to each of these topic areas, as well as some practical problems for managers posed by each.

470A. Introduction to Field Study. (2) Lecture, two hours. Limited to Executive M.B.A. Program students. Methods of organizational and strategic analysis to determine relationship of organization with its environment. In Progress grading (credit to be given only on completion of course 470C).

470B. Field Study. (2) Fieldwork, two hours. Limited to Executive M.B.A. Program students. Preparation of strategic overview of selected company entailing collection and analysis of primary and secondary data, including but not limited to corporate executives, corporate financial and marketing data, industry reports, and customer and competitor interviews and/or surveys. In Progress grading (credit to be given only on completion of course 470C).

470C. Field Study. (2) Lecture, two hours. Limited to Executive M.B.A. Program students. Further research and analysis of one strategic issue facing selected company and identified in course 470B. Presentation of final reports and evaluation of student efforts by corporate personnel. S/U or letter grading.

470D. Seminar: Policy Analysis. (2) Seminar, two hours. Limited to Executive M.B.A. Program students. Site visit to selected company, presentation of final reports, and evaluation of student efforts by corporate personnel. S/U or letter grading.

471A-471B. Management Practicum. (2-2) Lecture, three hours. Two-term individual or group (three to five students) project on global strategic issues designed to allow students to employ and enhance concepts learned in classroom. In Progress (471A) and letter (471B) grading.

472A. Marketing Strategy and Policy. (4) Formerly numbered 472A. Lecture, four hours. Limited to Executive M.B.A. Program students. Strategic marketing decisions, including development of marketing objectives and strategies, and implementation of these strategies through pricing, channel, promotion, and new product decisions. S/U or letter grading.

Mark S. Goorsky, Ph.D., Chair
Vidvuds Ozolins, Ph.D., Vice Chair
Jenn-Ming Yang, Ph.D., Vice Chair

Professors
Russell E. Cailfisch, Ph.D.
Bruce S. Dunn, Ph.D. (Nippon Sheet Glass Company Professor of Materials Science)
Nasir M. Ghoniem, Ph.D.
Mark S. Goorsky, Ph.D.
Vijay Gupta, Ph.D.
H. Thomas Hahn, Ph.D. (Raytheon Company Professor of Manufacturing Engineering)
Richard B. Kaner, Ph.D.
Qibing Pei, Ph.D.
King-Ning Tu, Ph.D.
Ya-Hong Xie, Ph.D.
Jenn-Ming Yang, Ph.D.
Yang Yang, Ph.D.

Professors Emeriti
Alan J. Ardel, Ph.D.
David L. Douglass, Ph.D.
William Klement, Jr., Ph.D.
John D. Mackenzie, Ph.D. (Nippon Sheet Glass Company Emeritus Professor of Materials Science)
Kanji Cho, Ph.D.
Aly H. Shabaik, Ph.D.
George H. Sines, Ph.D.
Christian N.J. Wagner, Dr.rer.nat.
Alfred S. Yue, Ph.D.

Associate Professors
Vidvuds Ozolins, Ph.D.
Benjamin M. Wu, D.D.S., Ph.D.

Assistant Professors
Yu Huang, Ph.D.
Ioanna Kakoulli, D.Phil.
Suneel Kodambaka, Ph.D.

Adjunct Professors
Eric P. Bescher, Ph.D.
Harry Patton Gillis, Ph.D.
John J. Gilman, Ph.D.
Marek A. Przybyla, Ph.D.

Scope and Objectives

At the heart of materials science is an understanding of the microstructure of solids. "Microstructure" is used broadly in reference to solids viewed at the subatomic (electronic) and atomic levels, and the nature of the defects at these levels. The microstructure of solids at various levels profoundly influences the mechanical, electronic, chemical, and biological properties of solids. The phenomenological and mechanistic relationships between microstructure and the macroscopic properties of solids are, in essence, what materials science is all about.

Materials engineering builds on the foundation of materials science and is concerned with the design, fabrication, and optimal selection of engineering materials that must simultaneously fulfill dimensional, property, quality control, and economic requirements. The department also has a program in electronic materials that provides a broad-based background in materials science, with opportunity to specialize in the study of those materials used for electronic and optoelectronic applications. The program incorporates several courses in electrical engineering in addition to those in the materials science curriculum.

The undergraduate program leads to the Bachelor of Science degree in Materials Engineering. Students are introduced to the basic principles of metallurgy and ceramic and polymer science as part of the department's Materials Engineering major. A joint major field, Chemistry/Materials Science, is offered to students enrolled in the Department of Chemistry and Biochemistry (College of Letters and Science).

The graduate program allows for specialization in one of the following fields: ceramics and ceramic processing, electronic and optical materials, and structural materials.

Department Mission

The Department of Materials Science and Engineering faculty members, students, and alumni foster a collegial atmosphere to produce (1) highly qualified students through an educational program that cultivates excellence, (2) novel and highly innovative research that advances basic and applied knowledge in materials, and (3) effective interactions with the external community through educational outreach, industrial collaborations, and service activities.

Undergraduate Program Objectives

The Materials Engineering major at UCLA prepares undergraduate students for employment or advanced studies with industry, the national laboratories, state and federal agencies, and academia. To meet the needs of these constituencies, the objectives of the undergraduate program are to produce graduates who (1) possess a solid foundation in materials science and engineering, with emphasis on the fundamental scientific and engineering principles that govern the microstructure, properties, processing, and performance of all classes of engineering materials, (2) understand materials processes and the application of general natural science and engineering principles to the analysis and design of materials systems of current and/or future importance to society, (3) have strong skills in independent learning, analysis, and problem solving, with special emphasis on design of engineering materials and processes, communication, and an ability to work in teams, and (4) understand and are aware of the broad issues relevant to materials, including professional and ethical responsibilities, impact of materials engineering on society and environment, contemporary issues, and need for lifelong learning.

Undergraduate Study

Materials Engineering B.S.

The ABET-accredited materials engineering program is designed for students who wish to pursue a professional career in the materials field and desire a broad understanding of the relationship between microstructure and properties of materials. Metals, ceramics, and polymers, as well as the design, fabrication, and testing of metallic and other materials such as...
Materials Engineering Option

Preparation for the Major

Required: Chemistry and Biochemistry 20A, 20B, 20L; Computer Science 31 (or another programming course approved by the Faculty Executive Committee); Materials Science and Engineering 10, 90L; Mathematics 31A, 31B, 32A, 32B, 33A, 33B; Physics 1A, 1B, 1C (or Electrical Engineering 1).

The Major

Required: Chemical Engineering 102A (or Mechanical and Aerospace Engineering 105A), Civil and Environmental Engineering 101 (or Mechanical and Aerospace Engineering 101), 108, Electrical Engineering 100, Materials Science and Engineering 104, 110, 110L, 120, 130, 131, 131L, 132, 140, 143A, 150, 160, Mechanical and Aerospace Engineering 181A or 182A; two laboratory courses (4 units) from Materials Science and Engineering 121L, 141L, 143L, 161L; three technical breadth courses (12 units) selected from an approved list available in the Office of Academic and Student Affairs; and three major field elective courses (12 units) from Chemical Engineering C114, Civil and Environmental Engineering 130, 135A, Electrical Engineering 2, 123A, 123B, 124, Materials Science and Engineering 111, 121, 122, 151, 161, 162, Mechanical and Aerospace Engineering 156A, 166C, plus at least one elective course (4 units) from Chemistry and Biochemistry 30A, 30AL, Electrical Engineering 131A, Materials Science and Engineering 170, 171, Mathematics 170A, or Statistics 100A.

For information on University and general education requirements, see the College of Letters and Science section earlier in this catalog.

Electronic Materials Option

Preparation for the Major

Required: Chemistry and Biochemistry 20A, 20B, 20L; Computer Science 31 (or another programming course approved by the Faculty Executive Committee); Electrical Engineering 10; Materials Science and Engineering 10, 90L; Mathematics 31A, 31B, 32A, 32B, 33A, 33B; Physics 1A, 1B, 1C (or Electrical Engineering 1).

The Major

Required: Chemical Engineering 102A (or Mechanical and Aerospace Engineering 105A), Electrical Engineering 101, 121B, Materials Science and Engineering 104, 110, 110L, 120 (or Electrical Engineering 2), 121, 121L, 122, 130, 131, 131L, 140, Mechanical and Aerospace Engineering 101, and 181A or 182A; four courses (16 units) from Electrical Engineering 123A, 123B, Materials Science and Engineering 132, 150, 160; 4 laboratory units from Electrical Engineering 172L, Materials Science and Engineering 141L, 161L, 199; three technical breadth courses (12 units) selected from an approved list available in the Office of Academic and Student Affairs; and one major field elective course (4 units) from Electrical Engineering 110, 124, 131A, 172, Materials Science and Engineering 111, 143A, 162.

For information on University and general education requirements, see the College and Schools section earlier in this catalog.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Materials Science and Engineering offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Materials Science and Engineering.

Materials Science and Engineering

Lower Division Courses

10. Freshman Seminar: New Materials. (1) Seminar, one hour; outside study, two hours. Preparation: high school chemistry and physics. Not open to students with credit for course 104 or former course 14. Introduction to basic concepts of materials science and new materials vital to advanced technology. Microstructural analysis and various material properties discussed in conjunction with such applications as biomedical sensors, pollution control, and microelectronics. Letter grading.

90L. Physical Measurement in Materials Engineering. (2) Laboratory, four hours; outside study, two hours. Various physical measurement methods used in materials science and engineering. Mechanical, thermal, electrical, magnetic, and optical techniques. Letter grading.

Upper Division Courses

104. Science of Engineering Materials. (4) (Formerly numbered 14.) Lecture, three hours; discussion, one hour; outside study, eight hours. Requisites: Chemistry 20A, 20B, 20L, Physics 1A, 1B. General introduction to different types of materials used in engineering designs: metals, ceramics, plastics, and composites, relationship between structure (crystals and microstructure) and properties of technological materials. Illustration of their fundamental differences and their applications in engineering. Letter grading.

M105. Principles of Nanoscience and Nanotechnology. (4) (Same as Engineering M101.) Lecture, four hours; discussion, one hour; outside study, seven hours. Enforced requisites: Chemistry 20, and Electrical Engineering 1 or Physics 1C. Introduction to underlying science encompassing structure, properties, and fabrication of technologically important nanoscale systems. New phenomena that emerge in very small systems (typically with feature sizes below few hundred nanometers) explained using basic concepts from physics and chemistry. Chemical, optical, and electronic properties, electron transport, structural stability, self-assembly, templated assembly and applications of various nanostructures such as quantum dots, nanoparticles, quantum wires, quantum wells and multilayers, carbon nanotubes. Letter grading.

110. Introduction to Materials Characterization A (Crystal Structure, Nanostructures, and X-Ray Scattering). (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisite: course 104. Modern methods of materials characterization; fundamentals of crystallography, properties of X rays, X-ray scattering; powder method, Laue method; determination of crystal structures; phase diagram determination; high-resolution X-ray diffraction methods; X-ray spectroscopy; design of materials characterization procedures. Letter grading.

110L. Introduction to Materials Characterization A Laboratory. (2) Laboratory, four hours; outside study, two hours. Requisite: course 104. Experimental techniques and analysis of materials through X-ray scattering; powder, single crystal structure determination, high-resolution X-ray diffraction methods, and special projects. Letter grading.

111. Introduction to Materials Characterization B (Electron Microscopy). (4) Lecture, three hours; laboratory, two hours; outside study, seven hours. Requisites: courses 104, 110. Characterization of microstructure, microchemistry and microstructure of materials; transmission electron microscopy; reciprocal lattice, electron diffraction, stereographic projections, defect observation of defects in crystals, replicas; scanning electron microscopy: emissive and reflective modes; chemical analysis; electron optics of both instruments. Letter grading.

C112. Introduction to Archaeological Materials Science: Scientific Methodologies, Techniques, and Interpretation. (4) Lecture, three hours; laboratory, two hours. Recommended requisite: course 110. Several basic scientific techniques employed for examination of materials and cultural artifacts to answer questions of anthropological significance and their state of preservation. Theoretical and hands-on instruction to provide fundamentals of imaging and analytical techniques, examination and analysis protocols, sample preparation techniques, and methods of scientific analysis and interpretation for study of organics and inorganics. Introduction to electrical, optical, and magnetic properties of solids. Free electron model, introduction to band theory and Schrödinger wave equation. Crystal bonding and lattice vibrations. Mechanics and characterization of electrical conductivity, optical absorption, magnetic behavior, dielectric properties, and p-n junctions. Letter grading.

121. Materials Science of Semiconductors. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisites: courses 104, 110 (or Chemistry 113A). Introduction to electrical, optical, and magnetic properties of elemental and compound semiconductors. Electrical and optical properties, defect chemistry, and doping. Electronic materials analysis and characterization, including electrical, optical, and ion-beam techniques. Heterostructures, band-gap engineering, development of new materials for optoelectronic applications. Letter grading.

121L. Materials Science of Semiconductors Laboratory. (2) Lecture, 30 minutes; discussion, 30 minutes; laboratory, two hours; outside study, three hours. Corequisite: course 121. Experiments conducted on materials characterization, including measurements of contact resistance, dielectric constant, and thin film biaxial modulus and CTE. Letter grading.

122. Principles of Electronic Materials Processing. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisite: course 120. Description of basic semiconductor materials for device processing; preparation and characterization of silicon, III-V compounds, and films. Discussion of principles of CVD, MOCVD, LPE, and MBE; metals and dielectrics. Letter grading.
10. Phase Relations in Solids. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisites: course 104, and Chemical Engineering 102A or Mechanical and Aerospace Engineering 105A. Summary of thermodynamic laws, equilibrium criteria, solution thermodynamics, mass-action law, binary and ternary phase diagrams, glass transitions, and phase diagrams. Letter grading.

12. Structure and Properties of Metallic Alloys. (4) Lecture, four hours; outside study, eight hours. Requisite: course 131. Physical metallurgy of steels, light-metal alloys (Al and Ti), and superalloys. Extensive laboratory work in preparation and examination of metallic samples under microscope, as well as lectures on technology of metallic works of art. Practical instruction in metallographic microscopy. Exploration of phase and stability diagrams of common alloying systems and environments and analytical techniques appropriate for examination and characterization of metallic artifacts. Concurrently scheduled with course CM233. Letter grading.

130. Materials Selection and Engineering Design. (4) (Formerly numbered 190.) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisites: courses 132, 150, 160. Explicit guidance among materials for design and engineering. Properties and applications of steels, nonferrous alloys, polymeric, ceramic, and composite materials. Metals selection, treatment, and serviceability emphasized as part of successful design project. Letter grading.

140L Computer Methods and Instrumentation in Materials Science. (2) Formerly numbered 191L.) Laboratory, four hours. Preparation: knowledge of BASIC or C or assembly language. Limited to junior/senior Materials Science and Engineering majors. Interface and control techniques, real-time data acquisition and processing, computer-aided testing. Letter grading.

143A. Mechanical Behavior of Materials. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisites: course 104, Mechanical and Aerospace Engineering 101. Plastic flow of metals under simple and combined loading, strain rate and temperature effects, dislocations, fracture, microstructural effects, mechanical and thermal treatment of steel for engineering applications. Letter grading.

143L. Mechanical Behavior Laboratory. (2) Laboratory, four hours. Requisites: courses 10L, 143A (may be taken concurrently). Methods of characterizing mechanical behavior of various materials; elastic and plastic deformation, fracture toughness, fatigue, creep, and wear. Letter grading.

150. Introduction to Polymers. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Polymerization mechanisms, molecular weight and distribution, chemical structure and bonding, structure crystallinity and morphology and their effects on physical properties. Glassy polymers, springy polymers, elastomers, adhesives. Fiber forming polymers, polymer processing technology, plastication. Letter grading.

152. Processing of Ceramics and Glasses. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisites: courses 104, 130. Introduction to ceramics and glasses being used as important materials of engineering, processing techniques, and unique properties. Examples of design and control of properties of glass, ceramic, and plastic specific applications in engineering. Letter grading.

153. Processing of Ceramics and Glasses. (4) Lecture, four hours; discussion, one hour. Requisite: course 151. Study of principles of fabrication of ceramics and glasses for structural applications, optics, and electronics. Processing operations, including modern techniques of powder synthesis, greenware forming, sintering, glass melting. Microstructure properties and relations to mechanical behavior. Fracture analysis and design with ceramics. Letter grading.

152L. Electronic Ceramics. (4) Lecture, four hours; outside study, eight hours. Requisites: course 104, Electrical Engineering 1 (or Physics 1C). Utilization of ceramics in microelectronics; thick film and thin film resistors, capacitors, and substrates; design and processing of electronic ceramics and packaging; magnetic materials and devices and electro-optic devices; optical wave guide applications and designs. Letter grading.

170. Engaging Elements of Communication: Oral Communication. (2) Lecture, one hour; discussion, one hour; outside study, four hours. Comprehensive oral presentation and communication skills provided by building on strengths of individual personal styles in creation of positive interpersonal relations. Skill set prepares students for different types of academic and professional presentations for wide range of audiences. Learning environment is highly supportive and interactive as it helps students creatively develop and greatly expand effectiveness of their communication and presentation skills. Letter grading.

171. Engaging Elements of Communication: Writing for Technical Community. (2) Lecture, one hour; discussion, one hour; outside study, four hours. Comprehensive technical writing skills on subjects specific to field of materials science and engineering. Students write term paper in selected subject field of materials science and engineering from given set of journal publications. Instruction leads students through several crucial steps, including brainstorming, choosing title, coming up with outline, concise writing of abstract, conclusion, and final polishing. Other subjects include writing style, word choices, and grammar. Letter grading.

180. Directed Research in Materials Science and Engineering. (2 to 8) Tutorial, to be arranged. Limited to juniors/seniors. Supervised research or investigation under guidance of faculty mentor. Culminating paper or project required. Occasional field trips may be arranged. May be repeated for credit with departmental approval. Individual contract required; enrollment petitions available in Office of Academic and Student Affairs. Letter grading.

Graduate Courses

211. Electron Microscopy. (4) (Formerly numbered 244.) Lecture, four hours; outside study, eight hours. Requisite: course 111. Essential features of electron microscopy, geometry of electron diffraction, kinematical and dynamical theories of electron diffraction, including anomalous absorption, applications of theory to defects in crystals. Moiré fringes, direct lattice resolu- tions, Lorentz microscopy, laboratory applications of contrast theory. Letter grading.
CM212. Introduction to Archaeological Materials Science: Scientific Methodologies, Techniques, and Interpretation. (4) (Same as Conservation M212.) Lecture, laboratory, two hours. Recommended requisite: course 110. Several basic scientific techniques employed for examination of archeological and cultural artifacts to answer questions of authenticity, provenance and their state of preservation. Theoretical and hands-on instruction to provide fundamentals of imaging and analytical techniques, experimental protocols, sample preparation techniques, and methods of scientific analysis and interpretation for study of organic and inorganic materials. Concurrently scheduled with course C112. Letter grading.

M213. Deterioration and Conservation of In Situ Archaeological and Cultural Materials. (4) (Same as Conservation M236.) Seminar, two hours; laboratory, three hours. Designed for graduate conservation students. Causes and effects of deterioration of archeological sites and archaeological mosaics and mosaics. Examination of degradation processes of porous materials, causes and sources of deterioration of buildings and archaeological sites, methodologies for environmental monitoring and preventive measures, and appropriate conservation materials for remedial treatments. Letter grading.

M215. Materials and Techniques of Archaeological Wall Paintings, Rock Art, and Mosaics. (4) (Same as Art History M203F and Conservation M250.) Seminar, two hours; laboratory, three hours. Designed for graduate conservation and art history students. Study of techniques and materials used for rock art and ancient wall paintings. Hands-on experience in replicating ancient paintings and pigment preparation (synthesis) based on scientific data and ancient treatments. Letter grading.

M216. Science of Conservation Materials and Methods I (4) (Same as Conservation M216.) Seminar, one hour; laboratory, three hours. Recommended requisite: course 113. Introduction to physical, chemical, and mechanical properties of conservation materials (employed for preservation of archaeological and cultural materials) and their aging characteristics. Science and application methods of traditional organic and inorganic systems and introduction of novel technology based on biomimernalization processes and nanostructured materials. Letter grading.

221. Science of Electronic Materials. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 120, 130, 131. Thermodynamics and kinetics that affect semiconductor growth and device processing. Particular emphasis on fundamentals of growth (bulk and epitaxial), heteroepitaxy, implantation, oxidation. Letter grading.

223. Materials Science of Thin Films. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 120, 131. Fabrication, structure, and property correlations of thin films used in microelectronics for data and information processing. Topics include film deposition, interfacial properties, stress and strain, electromigration, phase change and kinetics, reliability. Letter grading.

224. Deposition Technologies and Their Applications. (4) Lecture, three hours; outside study, nine hours. Designed for graduate engineering students. Deposition methods used in high-technology applications. Theory and experimental details of physical vapor deposition (PVD), chemical vapor deposition (CVD), plasma-assisted vapor deposition processes, plasma spray, electrodeposition. Applications in semiconductor, chemical, optical, mechanical, and metalurgical industries. Letter grading.

226. Si-CMOS Technology: Selected Topics in Materials Science. (4) (Same as Conservation M422B.) Lecture, two hours; laboratory, 90 minutes. Review of thin films, semiconductor growth, and materials science concepts. Processes of extraction, alloying, surface passivation, mechanical coatings, corrosion, microstructure of ancient and historic metals. extensive laboratory work in preparation and examination of metallic samples under microscope, as well as lectures on technology of metallic works of art. Practical instruction in metallographic microscopy. Exploration of phase and stability diagrams of common alloying systems and environments and analytical techniques appropriate for examination and characterization of metallic artifacts. Concurrently scheduled with course C113. Letter grading.

243A. Fracture of Structural Materials. (4) Lecture, four hours; laboratory, two hours; outside study, four hours. Requisite: course 143A. Engineering and scientific aspects of crack nucleation, slow crack growth, and unstable fracture. Fracture mechanics, dislocation models, fatigue, fracture in reactive environments, alloy development, fracture-safe design. Letter grading.

270. Computer Simulations of Materials. (4) Lecture, four hours; outside study, eight hours. Introduction to modern methods of material modeling in materials science. Topics include basic statistical mechanics, classical molecular dynamics, and Monte Carlo methods, with emphasis on understanding basic ideas and learning to run, and analyze computer simulations of materials. Use of examples from current literature to show how these methods can be used to study interesting phenomena in modern materials science. Hands-on computer experi-ments. Letter grading.

272. Theory of Nanomaterials. (4) Lecture, four hours; outside study, eight hours. Strongly recom-mended requisite: course 200. Introduction to proper-ties and applications of nanoscale materials, with empha-sis on understanding of basic principles that dis-tinguish nanostructures (with feature size below 100 nm) from more common microstructured materials. Explanation of new phenomena that emerge only in very small systems, using simple concepts from quantum mechanics and thermodynamics. Topics include structure and electronic properties of quantum dots, wires, nanotubes, and multilayers, self-assem-bly on surfaces and in liquid solutions, mechanical properties of nanostructured metamaterials, molecu-lar electronics, spin-based electronics, and proposed realizations of quantum computing. Discussion of cur-rent and future directions of the rapidly growing field using examples from modern scientific literature. Let-ter grading.

CM280. Introduction to Biomaterials. (4) (Same as Biomedical Engineering CM280.) Lecture, three hours; discussion, two hours; outside study, seven hours. Requisites: course 104, or Chemistry 20A, 20B, and 20L. Engineering materials used in medi-cine and dentistry for repair and/or restoration of dam-aged natural tissues. Topics include relationships be-tween material properties, suitability to task, surface chemistry, processing and treatment methods, and biocompatibility. Concurrently scheduled with course CM180. Letter grading.
296. Seminar: Advanced Topics in Materials Science and Engineering. (2 to 4) Seminar, to be arranged. Limited to graduate materials science and engineering students. Seminars may be organized in advanced technical fields. If appropriate, field trips may be arranged. May be repeated with topic change. Letter grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

596. Directed Individual or Tutorial Studies. (2 to 8) Tutorial, to be arranged. Limited to graduate materials science and engineering students. Petition forms to request enrollment may be obtained from assistant dean, Graduate Studies. Supervised investigation of advanced technical problems. S/U grading.

597A. Preparation for M.S. Comprehensive Examination. (2 to 12) Tutorial, to be arranged. Limited to graduate materials science and engineering students. Reading and preparation for M.S. comprehensive examination. S/U grading.

597C. Preparation for Ph.D. Oral Qualifying Examination. (2 to 16) Tutorial, to be arranged. Limited to graduate materials science and engineering students. Preparation for oral qualifying examination, including preliminary research on dissertation. S/U grading.

599. Research for and Preparation of Ph.D. Dissertation. (2 to 16) Tutorial, to be arranged. Limited to graduate materials science and engineering students. Usually taken after students have been advanced to candidacy. S/U grading.

Robert F . Brown, Ph.D.

Scope and Objectives
Gauss has called mathematics the “Queen of the Sciences.” It has provided powerful intellectual tools that have made possible tremendous advances in modern science and technology. The Department of Mathematics provides courses of study that introduce students to the fundamentals of mathematics and allow them to master the most important parts of the subject, both pure and applied. It leads doctoral students to the frontiers of mathematical research, where they can begin to push back those frontiers.

Undergraduate Study
Admission
Students entering UCLA directly from high school who declare one of the five mathematics majors offered by the department at the time they apply for admission are automatically admitted to that major.

UCLA students who wish to enter one of the mathematics majors must have a minimum grade of C– in each preparation for the major course completed and a combined grade-point average of at least 2.0 in those courses. Grades in any completed major courses must also average at least 2.0. Students with 60 or more units of credit must have completed at
least 12 units of calculus to enter any of the mathematics majors.

Transfer students must have a minimum grade of C in the equivalent of each preparation for the major course completed. Those transferring with 60 or more quarter units of credit must have completed at least 12 quarter units of calculus to enter any of the Mathematics Department majors.

Preliminary Examination in Mathematics

If students wish to enroll in Mathematics 1, 3A, or 31A, they must pass the Mathematics Diagnostic Test.

The examination may be taken at any one of several times, including all sessions of the summer Orientation Program. It is also given several times during the academic year. For specific dates and test locations, refer to the Schedule of Classes or the departmental website at http://www.math.ucla.edu/ugrad/diagnostic.shtml, or contact the Mathematics Student Services Office, 6356 Math Sciences.

Advanced Placement in Calculus

Students who have taken the Advanced Placement (AP) Calculus AB Test and obtained a score of 5 receive 4 units of credit and Mathematics 31A equivalency; those with a score of 4 receive 4 units of calculus and analytic geometry credit. They may petition for 31A equivalency, or they may take course 31A at UCLA, although they must still satisfy the course requisites (Mathematics Diagnostic Test). Students who take the BC Test and obtain a score of 5 receive 8 units of credit and Mathematics 31A, 31B equivalency; those with a score of 4 receive 4 units of credit and Mathematics 31A equivalency. They may petition for 31A, 31B equivalency, or they may take courses 31A, 31B at UCLA, although they must still satisfy the course requisites (Mathematics Diagnostic Test). Students receiving a score of 4 or lower must have completed at least 12 quarter units of calculus and 12 quarter units of analytic geometry credit.

Credit Limitations

Credit is given for at most one course in each of the following groups: (1) 3A, 31A; (2) 3B, 31B, 31E; (3) 3C, 32A; (4) 110A, 117.

Courses from only one of the following statistics sequences may be applied toward any mathematics major: (1) Statistics 100A (or Mathematics 170A), 100B, 100C or (2) Statistics 110A, 110B.

Mathematics 170A and Statistics 100A are not open for credit to students with credit for Electrical Engineering 131A.

Mathematics 2 and Statistics 10 are not open for credit to students with credit for any course from Mathematics 110A through 199.

Mathematics 132 is not open for credit to students with credit for Physics 132.

Mathematics 151A and 151B are not open for credit to students with credit for Electrical Engineering 103.

Students may not take or repeat a mathematics course for credit if it is a requisite for a more advanced course for which they already have credit. This applies in particular to the repetition of courses(e.g., if students wish to repeat Mathematics 31B, they must do so before completing course 32A).

Students may not receive credit for both a course and the honors version of that course (e.g., they may not receive credit for both Mathematics 131A and 131AH).

Mathematics Upper Division Courses

Mathematics 151A, 131A, 132, 142, 151A, 164, and 180 are offered each term. The remaining upper division courses are usually offered once or twice each year. The tentative class schedule for the forthcoming academic year is posted in the Student Services Office in February.

Program in Computing Courses

Program in Computing 1 is designed for students who wish a broad, general introduction to the topic of computers and computation, but who have no prior experience in computing. Courses 10A, 10B, and 10C provide an extensive introduction to programming, using the C++ language. Courses 15, 20A, 20B, 20C, 30, 40A, 40B, and 60 are of interest to Letters and Science majors who are completing a specialization in Computing or who are planning to take upper division coursework in computer science. These students should seek the advice of their major department.

Undergraduate Majors

The department offers five majors: Mathematics, Applied Mathematics, Mathematics of Computation, Mathematics/Applied Science, and Mathematics for Teaching. The department also participates in the Mathematics/Economics Interdepartmental Program, which offers a Mathematics/Economics major, and in the Mathematics/Atmospheric and Oceanic Sciences Interdepartmental Program, which offers a Mathematics/Atmospheric and Oceanic Sciences major.

The Mathematics major is designed for students whose basic interest is mathematics; the Applied Mathematics major for those interested in the classical relationship between mathematics, the physical sciences, and engineering; the Mathematics of Computation major for individuals interested in the mathematical theory and the applications of computing; the Mathematics/Applied Science major for those with substantial interest in the applications of mathematics to a particular outside field of interest; and the Mathematics for Teaching major for students planning to teach mathematics at the high school level. As part of the Mathematics/Applied Science major, the department offers programs for students interested in the fields of actuarial science, management/accounting, mathematics/history of science, and medical and life sciences.

Each course taken to fulfill any of the requirements for any of the mathematics majors must be taken for a letter grade.

Mathematics B.S.

Preparation for the Major

Required: Mathematics 31A, 31B, 32A, 32B, 33A, 33B, Physics 1A, 1B, Program in Computing 10A, and two courses from Chemistry and Biochemistry 20A, 20B, Economics 11, Life Sciences 1, Philosophy 31, 32, Physics 1B, 1C, 6B, 6C. Each course must be passed with a minimum grade of C–, and students must have a minimum overall grade-point average of 2.0 for the courses.

Transfer Students

Transfer applicants to the Mathematics major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of calculus for majors, one calculus-based physics (mechanics) course, one C++ programming course, and two courses from general chemistry for majors, economics, symbolic logic, and calculus-based physics.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Required: Mathematics 110A, 110B, 115A, 120A, 131A, 131B, 132, and at least five elective courses from 106 through 199 and Statistics 100A through 102C. The 12 courses must be passed with a minimum grade of C–, and students must have a minimum overall grade-point average of 2.0.

Applied Mathematics B.S.

Preparation for the Major

Required: Mathematics 31A, 31B, 32A, 32B, 33A, 33B, Physics 1A, 1B, Program in Computing 10A, and one course from Chemistry and Biochemistry 20A, 20B, Physics 1C. Each course must be passed with a minimum grade of C–, and students must have a minimum overall grade-point average of 2.0 for the courses.

Transfer Students

Transfer applicants to the Applied Mathematics major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of calculus for majors, two calculus-based physics courses, one C++ programming course, and one course from general chemistry for majors or calculus-based physics.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/
The Mathematics/Applied Science major is designed for students with a substantial interest in mathematics and its applications to a particular field. It is an individual major in that students, in consultation with a faculty adviser, design their own program. They may also select one of the established programs: actuarial plan, management/accounting plan, mathematics/history of science plan, or medical and life sciences plan. In the past, Mathematics/Applied Science majors have combined the study of mathematics with fields such as atmospheric and oceanic sciences, biochemistry, biology, chemistry, economics, geography, physics, psychology, and statistics.

Students interested in designing an individual program should meet with the undergraduate adviser, 6356 Math Sciences, during their sophomore year. A proposed program is drawn up, then forwarded to the mathematics/applied science curriculum committee for approval. All programs must include the following preparation for the major and major courses.

**Preparation for the Major**

Required: Mathematics 31A, 31B, 32A, 32B, 33A, 33B, 61, Physics 1A, 1B, Program in Computing 10A, 10B, 10C, and one course from Chemistry and Biochemistry 20A, 20B, Physics 1C. Each course must be passed with a minimum grade of C–, and students must have a minimum overall grade-point average of 2.0 for the courses.

**Transfer Students**

Transfer applicants to the Mathematics of Computation major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of calculus for majors, one discrete structures course, two calculus-based physics courses, three programming courses, and one course from general chemistry for majors or calculus-based physics.

Refer to the UCLA Transfer Admission Guide at [http://www.admissions.ucla.edu/prospect/adm_tr.htm](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

**The Major**

Required: Eleven Mathematics Department courses, including Mathematics 115A, 131A, 131B or 132, 151A, 151B, and six courses from 106 through 199 and Statistics 100A through 101C; three upper division computer science courses (12 units). The 14 courses must be passed with a minimum overall grade-point average of 2.0.

Mathematics/History of Science B.S.

The Mathematics/History of Science major is intended primarily for students planning to teach mathematics at the high school level. It provides exposure to a broad range of mathematical topics, especially those appropriate for the
students planning to pursue graduate studies in mathematics or related fields are encouraged to enter the Mathematics, Applied Mathematics, or Mathematics of Computation major.

Preparation for the Major
Required: Mathematics 31A, 31B, 32A, 32B, 33A, 33B, 61, Physics 1A or 6A, Program in Computing 10A, and two courses from Chemistry and Biochemistry 20A, 20B, Physics 1B, 1C, 6B, 6C, Program in Computing 10B through 97. Each course must be passed with a minimum grade of C–, and students must have a minimum overall grade-point average of 2.0 for the courses.

Transfer Students
Transfer applicants to the General Mathematics major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of calculus for majors, one discrete structures course, one C++ programming course, and three courses from calculus-based physics, general chemistry for majors, and computing.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Mathematics 105A, 105B, 105C, 106, 110A or 117, 115A, 120A or 123, 131A, 170A or Statistics 100A, Statistics 100B, one course from Mathematics 110B through 191H or Statistics 100C, one course from Mathematics 131B through 136, one course from 142 through 167.

Honors
Honors Courses
The department offers a lower division honors sequence in calculus and upper division honors sequences in algebra and analysis. The sequences are intended for students (not necessarily mathematics majors) who desire a broad, comprehensive introduction to these topics.

Honors Program
Students majoring in Mathematics, Applied Mathematics, and Mathematics of Computation who wish to graduate with departmental honors should apply for admission to the honors program in the Student Services Office. They may apply any time after completing four courses from the calculus sequence or from upper division mathematics courses with an overall grade-point average of 3.6 or better. The program entails taking a specified sequence of courses as part of the major requirements, completing an approved seminar offered by the Mathematics Department or submitting an original research project, and earning an overall GPA of at least 3.6 in approved upper division and graduate mathematics courses.

Students completing the program are awarded honors at graduation; if they demonstrate exceptional achievement (i.e., at least a 3.8 GPA in upper division mathematics courses taken for the major), they are awarded highest honors. Consult the department for further information.

Computing Specialization
Majors in Mathematics, Applied Mathematics, Mathematics/ Applied Science, or Mathematics for Teaching may select a specialization in Computing by (1) satisfying all the requirements for a bachelor’s degree in the specified major and (2) completing Mathematics 61 or 113, Program in Computing 10A, 10B, two courses from 10C, 15, 20A, 20B, 30, 40A, 60, and at least two courses from Mathematics 149 through 159, with a minimum grade of C– in each course and a combined grade-point average of at least 2.0. Students must petition for admission to this program and are advised to do so after they complete Program in Computing 10B (petitions should be filed in the Student Services Office). Students graduate with a bachelor’s degree in their major and a specialization in Computing.

Subject Matter Preparation Program for Single Subject Credential in Mathematics
Students interested in obtaining a single subject secondary school credential in mathematics should consult with a departmental counselor regarding the requirements for a waiver from the Mathematics California Subject Exam in Mathematics II (CSET), which is required by the California Commission on Teacher Credentialing. Students must meet with a departmental counselor as early in their undergraduate careers as possible because the program does require additional courses beyond the major requirements. For additional information on teaching credential requirements, consult the Department of Education at (310) 825-8328.

Mathematics Minor
The Mathematics minor is designed to provide students with the opportunity to widen their background and general comprehension of the role of mathematics in various disciplines.

To enter the minor, students must have an overall grade-point average of 2.0 or better and meet with the undergraduate mathematics advisor in the Student Services Office, 6356 Math Sciences.

Required Lower Division Courses (12 units):
Mathematics 32A, 33A, 33B.

Required Upper Division Courses (20 units): At least five courses (20 units) selected from Mathematics 106 through 199.

Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmqrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of Mathematics offers the Masters of Arts in Teaching (M.A.T.) degree and Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Mathematics.

Mathematics
Lower Division Courses

3A. Calculus for Life Sciences Students. (4) Lecture, three hours; discussion, one hour. Preparation: three and one-half years of high school mathematics (including trigonometry). Requisite: successful completion of Mathematics Diagnostic Test (score of 36 or better) or course 1 with a grade of C– or better. Not open for credit to students with credit in another calculus sequence. Techniques and applications of differential calculus. P/NP or letter grading.

3B. Calculus for Life Sciences Students. (4) Lecture, three hours; discussion, one hour. Requisite: course 3A with a grade of C– or better. Not open for credit to students with credit in another calculus sequence. Techniques and applications of integral calculus, introduction to differential equations and multivariable differential calculus. P/NP or letter grading.

3C. Probability for Life Sciences Students. (4) Lecture, three hours; discussion, one hour. Requisite: course 3B with grade of C– or better. Elementary probability, probability distributions, random variables, and limit theorems. P/NP or letter grading.

31A. Differential and Integral Calculus. (4) Lecture, three hours; discussion, one hour. Preparation: at least two and one-half years of high school mathematics (including some coordinate geometry and trigonometry). Requisite: successful completion of Mathematics Diagnostic Test or course 1 with a grade of C– or better. Differential calculus and applications; introduction to integration. P/NP or letter grading.

31AX. Workshop in Differential Calculus. (1) Discussion, one hour. Corequisite: course 31A. Supplementary techniques and applications for solving problems in differential calculus. Limits of investigation set by individual instructor. P/NP grading.

31B. Integration and Infinite Series. (4) Lecture, three hours; discussion, one hour. Requisite: course 31A with a grade of C– or better. Transcendental functions; methods and applications of integration; sequences and series. P/NP or letter grading.

31BH. Integration and Infinite Series (Honors). (4) Lecture, three hours; discussion, one hour. Honors course parallel to course 31B. P/NP or letter grading.
Mathematics / 433

Algebra, Number Theory, and Logic

110A-110B. Algebra. (4-4) Lecture, three hours; discussion, one hour. P/NP or letter grading. 110A. Requisite: course 115A. Not open for credit to students with credit for course 117. Ring of integers, integral domains, fields, polynomial domains, unique factorization. 110B. Requisite: course 110A or 117. Groups, structure of finite groups.

110AH-110BH. Algebra (Honors). (4-4) Lecture, three hours; discussion, one hour. Requisites: courses 110A, 110B. Field extensions, Galois theory, applications to geometric constructions, and solvability by radicals.

111. Theory of Numbers. (4) Lecture, three hours; discussion, one hour. Requisites: courses 110A or 117, 115A. Divisibility, congruences, Diophantine analysis, selected topics in theory of primes, algebraic number theory, Diophantine equations.

114C. Computability Theory. (Formerly numbered 114A.) Lecture, three hours; discussion, one hour. Requisite: course 110A or 131A or Philosophy 135. Effectively calculable, Turing computable, and recursive functions; Church/Turing thesis. Normal form theorem; universal functions; unsolvability and undecidability results. Recursive and recursively enumerable sets; relative recursiveness, polynomial-time computability. Arithmetical hierarchy. P/NP or letter grading.

114L. Mathematical Logic. (Formerly numbered 114B.) Lecture, three hours; discussion, one hour. Requisite: course 110A or 131A or Philosophy 135. Introduction to mathematical logic, aiming primarily at completeness and incompleteness theorems of Gödel. Propositional and predicate logic; syntax and semantics; formal deduction; completeness, compactness, and Lowenheim/Skolem theorems. Formal number theory: nonstandard models; Gödel incompleteness theorem. P/NP or letter grading.

M114S. Introduction to Set Theory. (4) (Formerly numbered M112.) (Same as Philosophy M134.) Lecture, three hours; discussion, one hour. Requisite: course 110A or 131A or Philosophy 135. Axiomatic set theory as framework for mathematical concepts; relations and functions, numbers, cardinality, axiom of choice, transfinite numbers. P/NP or letter grading.

115A-115B. Linear Algebra. (5-4) P/NP or letter grading. 115A. Lecture, three hours; discussion, two hours. Requisite: course 33A. Techniques of proof, abstract vector spaces, linear transformations, matrices; determinants; inner product spaces; eigenvalues and eigenvectors; symmetric, orthogonal, and unitary matrices; dual spaces, adjoints; C*-algebras; spectral theorem; universal enveloping algebra.

115A-115B. Linear Algebra. (5-4) P/NP or letter grading. 115A. Lecture, three hours; discussion, two hours. Requisite: course 33A. Techniques of proof, abstract vector spaces, linear transformations, matrices; determinants; inner product spaces; eigenvalues and eigenvectors; symmetric, orthogonal, and unitary matrices; dual spaces, adjoints; C*-algebras; spectral theorem; universal enveloping algebra.

115AH. Linear Algebra (Honors). (5) Lecture, three hours; discussion, two hours. Requisite: course 33A. Honors course parallel to course 115A. P/NP or letter grading.

115X-115BX. Workshops in Linear Algebra. (1-1) Discussion, one hour. Corequisite for course 115AX: course 115A; for course 115BX: course 115B. Supplementary techniques and applications for solving problems in linear algebra. Limits of investigation set by individual instructor. P/NP grading.

115HX. Workshop in Linear Algebra (Honors). (1) Discussion, one hour. Corequisite: course 115AH. Honors course parallel to course 115AX. P/NP grading.
116. Mathematical Cryptology. (4) Lecture, three hours; discussion, one hour. Requisite: course 115A. Not open for credit to students with credit for Program in Computing 130. Introduction to mathematical cryp-
tology using methods of number theory, algebra, probability. Topics include symmetric and public-key cryptosystems, one-way functions, signatures, key exchange, groups, primes, pseudoprimes, primality tests, quadratic reciprocity, factoring, rho method, RSA, discrete logs. P/NP or letter grading.

117. Algebra for Applications. (4) Lecture, three hours; discussion, one hour. Requisite: course 115A. Not open for credit to students with credit for course 110A. Integers, congruences; fields, applications of finite fields; polynomials; permutations, introduction to groups.

Geometry and Topology

120A-120B. Differential Geometry. (4-4) Lecture, three hours; discussion, one hour. Requisites: courses 32B, 33B, 115A, 131A. Curves in 3-space, Frenet for-
mulas, surfaces in 3-space, normal curvature, Gauss-
ian curvature, congruence of curves and surfaces, in-
trinsic geometry of surfaces, isometries, geodesics, Gauss/Bonnet theorem, letter grades.

121. Introduction to Topology. (4) Requisite: course 131A. Metric and topological spaces, completeness, compactness, connectedness, functions, continuity, homeomorphisms, topological properties.

123. Foundations of Geometry. (4) Lecture, three hours; discussion, one hour. Requisite: course 115A. Axioms and models, Euclidean geometry, Hilbert axioms, neutral (absolute) geometry, hyperbolic geometry, Poincaré model, independence of parallel postulate.

Analysis

131A-131B. Analysis. (4-4) Lecture, three hours; discussion, one hour. 131A. Requisites: courses 32B, 33B. Rigorous introduction to foundations of real anal-
ysis; real numbers, point set topology in Euclidean space, functions, continuity. 131B. Requisites: cours-

131A-131BH. Analysis (Honors). (4-4) Lecture, three hours; discussion, one hour. Honors sequence parallel to courses 131A, 131B.

131AX. Analysis Techniques. (1) Lecture, one hour. Requisite: course 32B. Corequisite: course 131A. Re-
view of elementary techniques of mathematics and their applications to topics in analysis, such as geo-
metric and algebraic constructions, least upper bound axiom, etc. P/NP grading.

131C. Topics in Analysis. (4) Lecture, three hours; discussion, one hour. Requisites: courses 131A, 131B. Advanced topics in analysis, such as Lebesgue integral, integration on manifolds, harmonic analysis. Content varies from year to year. May be repeated for credit by petition.

132. Complex Analysis for Applications. (4) Le-
ture, three hours; discussion, one hour. Requisites: courses 32B, 33B. Introduction to basic formulas and calculation procedures of complex analysis of one variable relevant to applications. Topics include Cauchy/Riemann equations, Cauchy integral formula, power series expansion, contour integrals, residue calculus.

133. Introduction to Fourier Analysis. (4) Lecture, three hours; discussion, one hour. Requisites: courses 33A, 33B, 131A. Fourier series, Fourier transform in one and several variables, finite Fourier transform, Applications, in particular, to solving differential equa-

134. Linear and Nonlinear Systems of Differential Equations. (4) Lecture, three hours; discussion, one hour. Requisites: courses 33B, 115A. Dynamical sys-
tems analysis of nonlinear systems of differential equa-
tions. One- and two- dimensional flows. Fixed points, limit cycles, and stability analysis. Bifurcations and normal forms. Elementary geometrical and topo-
ological results. Applications to problems in biology, chemistry, physics, and other fields. P/NP or letter grading.

135. Ordinary Differential Equations. (4) Formerly numbered 135B. Lecture, three hours; discussion, one hour. Requisites: courses 33A, 33B. Selected topics in differential equations. Laplace transforms, existence and uniqueness theorems, Fourier series, separation of variable solutions to partial differential equations, Sturm-Liouville theory, calculus of varia-
tions, two-point boundary value problems, Green’s functions. P/NP or letter grading.

136. Partial Differential Equations. (4) Lecture, three hours; discussion, one hour. Requisites: courses 33A, 33B. Linear partial differential equations, boundary and initial value problems; wave equation, heat equation, and Laplace equation; separation of variables, eigenfunction expansions; selected topics, as method of characteristics for nonlinear equations.

Applied Mathematics

142. Mathematical Modeling. (4) Lecture, three hours; discussion, one hour. Requisites: courses 32B, 33B. Introduction to fundamental principles and spirit of applied mathematics. Emphasis on manner in which mathematical models are constructed for phys-
ical problems. Illustrations from many fields of en-
deavor, such as physical sciences, biology, econom-
ics, and traffic dynamics.

143. Analytic Mechanics. (4) Lecture, three hours; discussion, one hour. Requisites: courses 32B, 33B. Foundations of Newtonian mechanics, kinematics and dynamics of a rigid body, variational principles and Lagrange equations; calculus of variations, vari-
able mass; related topics in applied mathematics.

146. Methods of Applied Mathematics. (4) Le-
ture, three hours; discussion, one hour. Requisites: courses 32B, 33B. Integral equations, Green’s func-
tion, and calculus of variations. Selected applications from control theory, optics, dynamical systems, and other engineering problems.

149. Mathematics of Computer Graphics. (4) Le-
ture, three hours; discussion, one hour. Requisites: course 115A, and Program in Computing 10A or equivalent knowledge in either Pas-
cal or C language. Study of homogeneous coordi-
nates, projective transformations, interpolating and approximating curves, representation of surfaces, and other mathematical topics useful for comput-
gerics.

151A-151B. Applied Numerical Methods. (4-
4) Lecture, three hours; discussion, one hour. Introduc-
tion to numerical methods with emphasis on algo-
rithms, analysis of algorithms, and computer imple-
proximation theory, approximate solutions of linear equa-
tions, solution of nonlinear systems, two- and bound-
ary value problems, optimization.

153. Numerical Methods for Partial Differential Equations. (4) Lecture, three hours; discussion, one hour. Requisites: courses 32B, 33B, 115A, Program in Computing 10A. Imaging ge-

157. Software Techniques for Scientific Computa-
tion. (4) Lecture, three hours; discussion, one hour. Requisites: course 151A, Program in Computing 10C. Software structures, concepts, and conventions that support object-oriented programming. Identification of class structure, problem partitioning, and abstraction. Design and implementation of computer applications requiring scientific computation, visualization, and GUI components. Interlanguage interfacing. P/NP or letter grading.

157X. Workshop in Software Techniques for Sci-
entific Computation. (1) Discussion, one hour. Corequisite: course 157. Supplementary techniques and applications for solving problems in scientific computing. Limits of investigation set by individual in-
structor. P/NP grading.

164. Optimization. (4) Lecture, three hours; discus-
sion, one hour. Requisite: course 115A. Not open for credit to students with credit for Electrical Engineering 136. Fundamentals of optimization. Linear program-
making: basic solutions, simplex method, duality theory. Unconstrained optimization, Newton method for mini-
mization. Nonlinear programming, optimality condi-
tions for constrained problems. Additional topics from linear and nonlinear programming. P/NP or letter grading.

167. Mathematical Game Theory. (4) Lecture, three hours; discussion, one hour. Requisite: course 115A. Quantitative modeling of strategic interaction. Topics include extensive and normal form games, back-
ground probability, lotteries, mixed strategies, pure and mixed Nash equilibria and refinements, bargain-
ing; emphasis on economic examples. Optional topics include repeated games and evolutionary game theo-
ry. P/NP or letter grading.

Probability

170A. Probability Theory. (4) Lecture, three hours; discussion, one hour. Requisite: course 32B. Not open for credit to students with credit for Electrical Engineering 131A or Statistics 100A. Probability distributions, random variables and vectors, expectation. P/NP or letter grading.

170B. Probability Theory. (4) Lecture, three hours; discussion, one hour. Requisite: course 170A or Sta-
tistics 100A. Combinatorial probability, normal approx-
imation, laws of large numbers, Poisson process,
random walks. P/NP or letter grading.

171. Stochastic Processes. (4) Lecture, three hours; discussion, one hour. Requisite: course 170A or Statistics 100A. Discrete Markov chains, continu-
ous-time Markov chains, renewal theory. P/NP or let-
ter grading.

172A-172B. Actuarial Mathematics. (4-4) Lecture, four hours. Letter grading. 172A. Requisite: course 170A or Statistics 100A, 110A. Annuities, amortiza-
tion, life annuities, pension applications. 172B. Requi-
site: course 172A. Multiple life functions, applications to life insurance, pensions, and health insurance.

174. Mathematics of Finance. (4) Formerly num-
bered 181L. Lecture, three hours; discussion, one hour. Enforced requisites: courses 33A, 170A (or Statistics 110A), Economics 11. Modeling, mathematics, and computation for financial securities. Price of risk. Ran-
dom walk models for stocks and interest rates. No-ar-
bitrage theory for pricing derivative securities; Black/
Scholes theory. European and American options. Mon-
te Carlo, trees, finite difference methods. P/NP or letter grading.
Discrete Mathematics

120. Combinatorics. (4) (Formerly numbered 113.) Lecture, three hours; discussion, one hour. Enforced requisites: courses 32B, 33B. Permutations and combinations, counting principles, recurrence relations and generating functions, combinatorial designs, graphs and trees, with applications including games of complete information. Combinatorial existence theorems. Ramsey theorem. P/NP or letter grading.

184. Topics in Combinatorics. (4) Lecture, three hours; discussion, one hour. Requisites: courses 61 or (180), 115A. Introduction to combinatorics, including several independent topics selected to illustrate various techniques to obtain combinatorial results. Gems of modern combinatorics to be showcased. May be repeated for credit. P/NP or letter grading.

Special Studies

191. Variable Topics Research Seminars: Mathematics. (4) Seminar, three hours. Variable topics research course in mathematics that covers material not covered in regular mathematics upper division curriculum. Reading, discussion, and development of culminating project. May be repeated for credit with topic and/or instructor change. P/NP or letter grading.

191H. Honors Research Seminars: Mathematics. (4) Seminar, three hours. Participating seminar on advanced topics in mathematics. Content varies from year to year. May be repeated for credit with petition. P/ NP or letter grading.

195. Community Internships in Mathematics Education. (4) Tutorial, to be arranged. Limited to juniors/seniors. Internship to be supervised by Center for Community Learning and Mathematics Department. Students meet on regular basis with instructor, providing periodic reports of their experience, have assigned readings on mathematics education, and complete final paper. May not be repeated and may not be applied to major requirements. Individual contract with supervising faculty member required. P/NP grading.

197. Individual Studies in Mathematics. (2 to 4) Tutorial, three hours per week per unit. Limited to juniors/seniors. At discretion of chair and subject to availability of staff, individual intensive study of topics suitable for undergraduate course credit but not specifically offered as separate courses. Scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery subject matter required. May be repeated for maximum of 12 units, but no more than one 197 or 199 course may be applied toward upper division courses required for majors offered by Mathematics Department. Individual contract required. P/NP or letter grading.

199. Directed Research or Senior Project in Mathematics. (2 to 4) Tutorial, three hours per week per unit. Limited to juniors/seniors. Supervised individual research under guidance of faculty mentor. Scheduled meetings to be arranged between faculty member and student. Culminating report required. May be repeated for maximum of 12 units, but no more than one 197 or 199 course may be applied toward upper division courses required for majors offered by Mathematics Department. Individual contract required. P/NP or letter grading.

Graduate Courses

Teacher Preparation

201A-201B-201C. Topics in Algebra and Analysis. (4-4-4) Preparation: bachelor's degree in mathematics. Designed for mathematics education program students. Important ideas of algebra, geometry, and calculus leading effectively from elementary to modern mathematics. Approaches to number system, point sets, geometric interpretations of algebra and analysis, integration, differentiation, series and analytic functions. May not be applied toward M.A. degree requirements.

202A-202B. Mathematical Models and Applications. (4-4) Preparation: bachelor's degree in mathematics. Designed for mathematics education program students. Development of mathematical theories describing various empirical situations. Basic characterizing postulates; development of a logical structure of theory. Modern topics such as operations research, linear programming, game theory, learning models, models in social and life sciences. May not be applied toward M.A. degree requirements.

Number Theory

205A-205B-205C. Number Theory. (4-4-4) Lecture, three hours. Requisites: courses 210A, 246A. Algebraic number theory, including ideal theory, valuations, local fields, cyclotomic fields. Introduction to class-field theory, analytic number theory, L-functions and class number formulas, and modular forms. S/U or letter grading.

M209A. Cryptography. (4) (Same as Computer Science M283A-M283B.) Lecture, four hours; outside study, eight hours. Introduction to theory of cryptography, stressing rigorous definitions and proofs of security. Topics include notions of hardness, one-way functions, trapdoor functions, pseudorandom generators, pseudorandom functions and pseudorandom permutations, semantic security, public-key and private-key encryption, secret-sharing, message authentication, digital signatures, zero knowledge proofs, zero-knowledge proofs, collision-resistant hash functions, commitment protocols, key-agreement, contract signing, and two-party secure computation with static security. Letter grading.

M209B. Cryptographic Protocols. (4) (Same as Computer Science M283B.) Lecture, four hours. Requisite: course M209A. Consideration of advanced cryptographic protocol design and analysis. Topics include noninteractive zero-knowledge proofs; zero-knowledge arguments; concurrent and non-black-box zero-knowledge; IP=PSPACE proof, stronger notions of security for public-key encryption, including chosen-ciphertext security; public multiparty computation; dealing with dynamic adversary, nonmalleability and composability of secure protocols; software protection; threshold cryptography; identity-based cryptography; privacy protection against man-in-the-middle attacks; voting protocols; iden- tification protocols; digital cash schemes; lower bounds on use of cryptographic primitives, software obfuscation. May be repeated for credit with topic change. Letter grading.

Algebra

210A-210B-210C. Algebra. (4-4-4) Requisites: courses 110A, 110B, 110C. Students with credit for courses 110B and/or 110C cannot receive M.A. degree credit for courses 210A and/or 110C. Group theory, including theorems of Sylow and Jordan/Holder/Schreier; rings and ideals, factorization theory in inte- gral domains, modules over principal ideal rings, Ga- los theory of fields, multilinear algebra, structure of algebra.

211. Structure of Rings. (4) Requisite: course 210A. Radical, irreducible modules and primitive rings, and algebras with minimum condition.

212. Homological Algebra. (4) Requisite: course 210A. Modules over a ring, homomorphs and ten- sor products of modules, functors and derived func- tors, homological dimension of rings and modules.

213A-213B. Theory of Groups. (4-4) Requisite: course 210A. Topics include representation theory, transfer theory, infinite Abelian groups, free products and presentations of groups, solvable and nilpotent groups, classical groups, algebraic groups.

214A-214B. Introduction to Algebraic Geometry. (4) Requisite: course 210A. Basic definitions and first properties of algebraic varieties in affine and projective space: irreducibility, dimension, singular and smooth points. More advanced topics, such as sheaves and their cohomology, contruction to the the- ory of Riemann surfaces, as time permits.

216. Further Topics in Algebraic Geometry. (4) Requisites: courses 214A, 214B. Closer examination of areas of current research in algebraic geometry. Variable content may include algebraic surfaces, Abe- lian varieties, invariant theory, Hodge theory, or geo- metry over finite fields. May be repeated for credit by petition.

M217. Geometry and Physics. (4) (Same as Phys- ics M236.) Lecture, three hours. Interdisciplinary course on topics at interface between physics quan- tum fields and superstrings and mathematics of differ- ential and algebraic geometry. Topics include super- symmetry, Seiberg/Witten theory, conformal field the- ory, Calabi/Yau manifolds, mirror symmetry and duality, integrable systems.

Logic and Foundations

220A-220B-220C. Mathematical Logic and Set Theory. (4-4-4) Lecture, three hours. Requisite: course M112. Model theory: compactness theorem; Lowenheim/Skolem theorems; definability; ultraproducts; preservation theorems. Models. Recursion function theory: function of Church; recur- sively enumerable sets; hierarchies; degrees. Formal proofs: completeness; first order theories; undecidable and undecidable theories; quantifier elimi- nation. Set theory: Zermelo/Fraenkel and von Neu- mann/Gödel axioms; cardinal and ordinal numbers; continuum hypothesis; constructible sets; independ- ence results and forcing. S/U or letter grading.
222A-222B. Lattice Theory and Algebraic Systems. (4-4) Lecture, three hours. Requisite: course 210A. Partially ordered sets, lattices, distributivity, modularity; completeness, interaction with combinatorics, topology, and logic; algebraic systems, congruence lattices, subdirect decomposition, congruence laws, equational bases, applications to lattices.

223C. Topics in Computability Theory. (4) Lecture, three hours. Requisites: courses 220A, 220B. Classical and effective results on Borel and projective sets; infinite games of perfect information and principle of determinacy; consequences of determinacy, including periodicity, structure theory of pointclasses, and partition properties. Topics vary from year to year. May be repeated for credit with consent of instructor. S/U or letter grading.

223D. Topics in Descriptive Set Theory. (4) Lecture, three hours. Requisites: courses 220A, 220B. Classical and effective results on Borel and projective sets; infinite games of perfect information and principle of determinacy; consequences of determinacy, including periodicity, structure theory of pointclasses, and partition properties. Topics vary from year to year. May be repeated for credit with consent of instructor. S/U or letter grading.

223M. Topics in Model Theory. (4) (Formerly numbered 223A.) Lecture, three hours. Requisites: courses 220A, 220B. Ultraproducts, preservation theorems, interpolation theorems, saturated models, omitting types, categoricity, two cardinal theorems, cardinal languages, and applied model theory. Topics vary from year to year. May be repeated for credit with consent of instructor. S/U or letter grading.

223S. Topics in Set Theory. (4) (Formerly numbered 223B.) Lecture, three hours. Requisites: courses 220A, 220B, 220C. Differentiated manifolds, almost flat manifolds, closed geodesics, manifolds of positive scalar curvature, manifolds of constant curvature. Topics vary from year to year. May be repeated for credit by petition.

225A. Differentiable Manifolds. (4) Lecture, three hours. Requisites: courses 226A, 226B. Classical and effective results on Borel and projective sets; infinite games of perfect information and principle of determinacy; consequences of determinacy, including periodicity, structure theory of pointclasses, and partition properties. Topics vary from year to year. May be repeated for credit with consent of instructor. S/U or letter grading.

225C. Further Topics in Geometry and Topology. (4) Lecture, three hours. Requisites: courses 225A, 225B. Topics may include cohomology (singular, cellular, de Rham), duality theorems, de Rham theorem, degree theory, cup products, higher homotopy groups, transversality theory, Morse theory, Riemannian metric.

226A-226B-226C. Differential Geometry. (4-4-4) Lecture, three hours. Requisite: course 225A. Manifold theory; connections, curvature, torsion, and parallelism. Riemannian manifolds; completeness, submanifolds, geodesics, conjugate points, variational methods, Myers theorem, nonpositive curvature. Further topics such as pinched manifolds, integral geometry, Kahler manifolds, symmetric spaces.

234. Topics in Differential Geometry. (4) Lecture, three hours. Requisites: courses 226A, 226B. Classical and effective results on Borel and projective sets; infinite games of perfect information and principle of determinacy; consequences of determinacy, including periodicity, structure theory of pointclasses, and partition properties. Topics vary from year to year. May be repeated for credit with consent of instructor. S/U or letter grading.

236. Topics in Geometric Topology. (4) Lecture, three hours. Requisites: courses 225A, 225B. Deformation spaces, surgery theory, group actions, dimension theory, infinite dimensional topology. Topics vary from year to year. May be repeated for credit by petition.

237. Topics in Algebraic Topology. (4) Lecture, three hours. Requisites: courses 227A, 227B. Fixed-point theory, fiber spaces and classifying spaces, characteristic classes, generalized homology and cohomology theories. Topics vary from year to year. May be repeated for credit by petition.

240. Methods of Set Theory. (4-4) Preparation: first-year analysis courses. Topics include qualitative theory of differential equations, bifurcation theory, and Hamiltonian systems. Other topics, including hyperbolic theory and quasiperiodic dynamics; ergodic theory; low-dimensional dynamics. S/U or letter grading.

245A-245B. Topics in Complex Analysis. (4-4) Lecture, three hours. Requisites: courses 245A, 245B, 246A, 246B. Potential theory, subharmonic functions, harmonic measure; Hardy spaces; entire functions; univalent functions; Riemann surfaces; extremal length, variational methods, quasi-conformal mappings. Topics vary from year to year. S/U or letter grading.

245B. Distribution on Rn and Tn. Principal values; other operations defined on distributions. Fourier series. Convolution; examples of singular integrals. Tempered distributions and Fourier transform theory on Rn. Distributions with compact or one-sided supports and their complex Fourier transforms.

246A. Distribution on Rn and Tn. Principal values; other operations defined on distributions. Fourier series. Convolution; examples of singular integrals. Tempered distributions and Fourier transform theory on Rn. Distributions with compact or one-sided supports and their complex Fourier transforms.

250C. Advanced Topics in Ordinary Differential Equations. (4) Requisites: courses 250A, 250B. Selected topics, such as spectral theory or ordinary differential operators, nonlinear boundary value problems, celestial mechanics, approximation of solutions, and Volterra equations.

251B-251C. Topics in Partial Differential Equations. (4-4) In-depth introduction to topics of current interest in partial differential equations or their applications.

252A-252B. Topics in Complex Analysis. (4-4) Lecture, three hours. Requisites: courses 245A, 245B, 246A, 246B, 246C. Potential theory, subharmonic functions, harmonic measure; Hardy spaces; entire functions; univalent functions; Riemann surfaces; extremal length, variational methods, quasi-conformal mappings. Topics vary from year to year. S/U or letter grading.

254A-254B. Topics in Real Analysis. (4-4) Requisites: courses 245A, 245B, 246A, 246B, 246C. Selected topics in analysis and its applications to geometry and differential equations. Topics vary from year to year. May be repeated for credit by petition.

Applied Mathematics

260. Introduction to Applied Mathematics. (4)
Requisite: course 142. Construction, analysis, and interpretation of mathematical models of problems which arise outside of mathematics.

M281. Game Theory. (4) (Same as Economics M214B and Political Science M206A.) Lecture, three hours. Designed for graduate economics, mathematicians, and political science students. Bargaining theory, the core, the value, other tuition concepts. Applications to oligopoly, general exchange and production economies, and allocation of joint costs. S/U or letter grading.

266D-266E. Applied Differential Equations. (4-4) Requisites: courses 266A, 266B, 266C. Advanced topics in linear and nonlinear partial differential equations, with emphasis on energy estimates, numerical methods, and applications to fluid mechanics. Additional topics include dispersive waves, systems with multiple time scales, and applications to fluid mechanics.

271A. Tensor Analysis. (4) Requisite: course 131A. Algebra and calculus of tensors on n-dimensional manifolds. Curvature, geodesics, coordinate and coordinate-free methods. Covariant differentiation. Green/Stokes theorem for differential forms. Applications to topics such as continuum and particle mechanics.

274B-274C. Perturbation Methods. (4-4) Lecture, three hours. Requisite: course 266A. Boundary layer theory, matched asymptotic expansions, WKBJ theory. Problems with several time scales; Poincaré method, averaging techniques, multiple-scale analysis. Application to eigenvalue problems, nonlinear oscillations, wave propagation, and bifurcation problems. Examples from various fields of science and engineering.

Probability and Statistics

275A-275B. Probability Theory. (4-4) Requisite: course 245A or 265A. Connection between probability theory and real analysis. Weak and strong laws of large numbers, central limit theorem, conditioning, ergodic theory, martingale theory.

Special Studies

285A-285L. Seminars. (4 each) Seminar, three hours. No more than two 285 courses may be applied toward M.A. degree requirements except by prior consent of graduate vice chair. Topics in various branches of mathematics and their applications by means of lectures and informal conferences with staff members. S/U or letter grading.

285A. History and Development of Mathematics.

285B. Number Theory.

285C. Algebra.

285D. Logic.

285E. Geometry.

285F. Topology.

285G. Analysis.

285H. Differential Equations.

285I. Functional Analysis.

285K. Probability.

285L. Dynamical Systems.

Program in Computing

Lower Division Courses

1. Introduction to Computers and Computing. (4) Lecture, three hours; laboratory, one hour. Not open for credit to students with credit for course 1S or 10A; may not be taken concurrently with course 1S or 10A. Fundamentals of computers and computing; editors, spreadsheets, file manager; machine organization and computer hardware; Internet; software applications. P/NP or letter grading.

1. Introduction to Programming. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 10A. Abstract data types and their implementation using C++; algorithmic and procedural problem solving; program design and development; basic data types, control structures and functions; functional arrays and pointers; introduction to classes for programmer-defined data types. P/NP or letter grading.

10B. Intermediate Programming. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 10A. Advanced data types and data structures supporting implementation of the C++ class mechanism; dynamic data structures, including linked lists, stacks, queues, trees, and hash tables, applications; object-oriented programming and software reuse; recursion, algorithms for sorting and searching. P/NP or letter grading.

10C. Advanced Programming. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 10A. More advanced algorithms and data structures supporting advanced features of C++; such as inheritance and virtual functions; graph algorithms. P/NP or letter grading.

15. Introduction to LISP and Symbolic Computation. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 10A. Introduction to symbolic computation using Lisp programming language. Basics: list structures, recursion, function abstraction. Advanced topics: knowledge representation, higher-order functions, problem-solving algorithms and heuristics. P/NP or letter grading.

20A. Principles of Java Language with Applications. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 10A. Introduction to Java computer language. Classes and interface hierarchies; graphical components and graphical user interfaces; streams; multithreading; event and exception handling. Issues in class design and design of interactive Web pages. P/NP or letter grading.

20B. Advanced Aspects of Java Language with Applications. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 20A. Further aspects of use of classes, graph components, exception handling, multithreading, and multimedia. Additional topics may include networking, servlets, database connectivity, and Java Beans. P/NP or letter grading.

20C. Seminar: Enterprise Computing with Java. (5) Lecture, three hours; discussion, two hours; laboratory, five hours. Enforced requisite: course 20B. Overview of Enterprise Java APIs: remote method invocation, database access with SQL, servlets, and JSP. Issues in implementation of server-side Java applications. Use of Java in conjunction with XML, individual or group projects and presentations. P/NP or letter grading.

40A. Introduction to Programming for Internet. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 10A. Recommended: course 10B. Introduction to core technologies of Internet, with focus on client-side Web programming. Fundamental protocols, static Web pages, Perl language, Common Gateway Interface, XML. P/NP or letter grading.

40B. Advanced Topics in Programming for Internet. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 40A. Study of advanced topics in Web programming, with focus on server-side technologies. P/NP or letter grading.

97. Special Topics in Programming. (1 to 4) Lecture, one to three hours; discussion, zero to one hour. Enforced requisite: course 10A. Advanced topics in programming not covered in regular program in computing courses. May be repeated for credit with topic change. P/NP or letter grading.

Upper Division Courses

110. Parallel and Distributed Computing. (5) Lecture, three hours; discussion, two hours; laboratory, eight hours. Enforced requisite: course 10B or equivalent familiarity with programming in C or C++ language. Introduction to programming of parallel computers. Shared and distributed memory parallel architectures; currently available parallel machines; parallel algorithms and program development; estimation of algorithmic performance; distributed computing. Selected advanced topics.

130. Cryptography. (4) Lecture, three hours; discussion, one hour; laboratory, three hours. Enforced requisite: course 10B, Mathematics 115A. Design and analysis of cryptosystems for confidentiality and authentication. Classical cryptosystems and their security; modern private-key cryptosystems and applications, public-key cryptography and applications; generating prime numbers, factoring integers, discrete logarithms, digital signatures, perfect secrecy. P/NP or letter grading.

187. Advanced Variable Topics in Programming. (4) Lecture, three hours; discussion, one hour. Variable topics in programming and mathematics of programming not covered in regular program in computing courses. May be repeated for credit with topic change. P/NP or letter grading.
**Graduate Courses**

285C-285L. Seminars. (4 each) Considered equivalent to Mathematics 285A through 285L for purposes of degree requirements. Topics in various computational fields by means of lectures and informal conferences with staff members. S/U or letter grading: 

*285C.* Computational Algebra.

*285L.* Computational Statistics.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

Robert G. Fovell, Ph.D. (Atmospheric and Oceanic Sciences)

Nathaniel Grossman, Ph.D. (Mathematics)

Ronald J. Miech, Ph.D. (Mathematics)

J. David Neelin, Ph.D. (Atmospheric and Oceanic Sciences)

---

**Scope and Objectives**

The Mathematics/Atmospheric and Oceanic Sciences B.S. degree program is designed for students who have an interest in and talent for both subjects. Students completing the major are well-qualified for graduate study in the most demanding graduate programs in atmospheric sciences, oceanic sciences, or applied mathematics. Postgraduate training leads to employment at a professional level in academia, government, or private enterprise. Opportunities outside academia include environmental agencies, consulting companies, and governmental agencies such as NASA, National Oceanic and Atmospheric Administration (NOAA), National Center for Atmospheric Research (NCAR), Department of Energy (DOE), and the military; the Air Force and Navy in particular.

Graduates of the program are employed by private and public weather products firms, consulting companies, public utilities, and as science teachers at the elementary and secondary levels.

---

**Undergraduate Study**

**Mathematics/Atmospheric and Oceanic Sciences B.S.**

**Preparation for the Major**

*Required:* Mathematics 31A, 31B, 32A, 32B, 33A, 33B, Physics 1A, 1B, 1C, Program in Computing 10A, and two courses selected from Atmospheric and Oceanic Sciences 1, 2, 3, 5, Physics 4AL and 4BL are recommended but not required. Chemistry and Biochemistry 14A and 14B (or 20A and 20B) may also be required, depending on atmospheric and oceanic sciences upper division course selection. Each course must be taken for a letter grade and must be passed with a grade of C- or better, and students must have a minimum overall grade-point average of 2.0 for the courses.

**Transfer Students**

Transfer applicants to the Mathematics/Atmospheric and Oceanic Sciences B.S. degree program must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of calculus for majors, physics courses equivalent to Physics 1A, 1B, and 1C, and one C++ programming course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

**The Major**

*Required:* Six mathematics courses, including Mathematics 115A, 131A, 134, and three elective courses selected from 115B, 131B, 135, 136, 142, 151A, 151B, 170A, 170B, one of which must be 115B, 131B, 151B, or 170B; six atmospheric and oceanic sciences courses, including three core courses selected from Atmospheric and Oceanic Sciences 101, 102, 103, 104, M105, and three elective courses selected from the five listed above (if not taken to satisfy the core requirement) or from C110, C115, M120, 125, 130, 145, C160, C170, 180, CM185.

One senior project/thesis course, Atmospheric and Oceanic Sciences 199, taken for a minimum of 2 units, is also required. An individual project or thesis to be selected with the assistance of the program advisers and a faculty mentor must be completed.

No more than one course may be applied toward both this major and a major or minor in another department or program.

---

**Mathematics/Economics B.S.**

**Preparation for the Major**

*Required:* Mathematics 31A, 31B, 32A, 32B, 33A, 33B, Economics 1, 2, 11, Program in Computing 10A. Each course must be passed with a minimum grade of C-; and students must have a minimum overall grade-point average of 2.0 for the courses.

**Transfer Students**

Transfer applicants to the Mathematics/Economics B.S. major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two years of calculus for majors, one introduction to discrete structures course, two principles of economics courses, one microeconomic theory course, and one C++ programming course.

Scope and Objectives

The Department of Mechanical and Aerospace Engineering offers curricula in aerospace engineering and mechanical engineering at both the undergraduate and graduate levels. The scope of the departmental research and teaching program is broad, encompassing dynamics, fluid mechanics, heat and mass transfer, manufacturing and design, nanoelectromechanical and microelectromechanical systems, structural and solid mechanics, and systems and control. The applications of mechanical and aerospace engineering are quite diverse, including aircraft, spacecraft, automobiles, energy and propulsion systems, robotics, machinery, manufacturing and materials processing, microelectronics, biological systems, and more.

At the undergraduate level, the department offers accredited programs leading to B.S. degrees in Aerospace Engineering and in Mechanical Engineering. At the graduate level, the department offers programs leading to M.S. and Ph.D. degrees in Mechanical Engineering and in Aerospace Engineering. An M.S. in Manufacturing Engineering is also offered.

Department Mission

The mission of the Mechanical and Aerospace Engineering Department is to educate the nation’s future leaders in the science and art of mechanical and aerospace engineering. Further, the department seeks to expand the frontiers of engineering science and to encourage technological innovation while fostering academic excellence and scholarly learning in a collegial environment.

Undergraduate Program Objectives

In consultation with its constituents, the Mechanical and Aerospace Engineering Department has set its educational objectives as follows: (1) to teach students how to apply their rigorous undergraduate education to creatively solve technical problems facing society and (2) to prepare them for successful and productive careers or graduate studies in mechanical or aerospace or other engineering fields and/or further studies in other fields such as medicine, business, and law.

Undergraduate Study

Aerospace Engineering B.S.

The ABET-accredited aerospace engineering program is concerned with the design and construction of various types of fixed-wing and rotary-wing (helicopters) aircraft used for air transportation and national defense. It is also concerned with the design and construction of...
spacecraft, the exploration and utilization of space, and related technological fields.

Aerospace engineering is characterized by a very high level of technology. The aerospace engineer is likely to operate at the forefront of scientific discoveries, often stimulating these discoveries and providing the inspiration for the creation of new scientific concepts. Meeting these demands requires the imaginative use of many disciplines, including fluid mechanics and aerodynamics, structural mechanics, materials and aeroelasticity, dynamics, control and guidance, propulsion, and energy conversion.

Preparation for the Major

Required: Chemistry and Biochemistry 20A, 20B, 20L; Computer Science 31; Mathematics 31A, 31B, 32A, 32B, 33A, 33B; Physics 1A, 1B, 1C, 4AL, 4BL.

The Major

Required: Mechanical and Aerospace Engineering 101, 102, 103, 105A, 107, 107L, 131A or 133A, 156A, 157, 162A, 162B, 162M, 171A, 182A, 183; two departmental breadth courses (Electrical Engineering 100 and Materials Science and Engineering 104) — if one or both of these courses are taken as part of the technical breadth requirement, students must select a replacement upper division course or courses that may be any technical course from within the school — except for Mechanical and Aerospace Engineering 156A — or, by petition, from outside the school); three technical breadth courses (12 units) selected from an approved list available in the Office of Academic and Student Affairs; and two major field elective courses (8 units) from Mechanical and Aerospace Engineering 121AL, C132A, 133AL, 134, 135, 136, CM140, 150A, 150B, 150C, 150P, 150R, 153A, 155, 157A, 161A, 161B, 162C, 163A, 166C, M168, 169A, 171B, 172, 174, CM180, CM180L, 181A, 182B, 182C, 184, 185, 186.

For information on University and general education requirements, see the College and Schools section earlier in this catalog.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnnet.ucla.edu/gasa/library/pgmrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Mechanical and Aerospace Engineering offers the Master of Science (M.S.) degree in Manufacturing Engineering, Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Aerospace Engineering, and Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Mechanical Engineering.

Mechanical and Aerospace Engineering

Lower Division Courses

10. Introduction to Mechanical and Aerospace Engineering (2) Lecture, two hours. Overview of fluid mechanics, heat and mass transfer, manufacturing and design, microelectromechanical systems, structural and solid mechanics, systems dynamics and control. Careers in mechanical and aerospace engineering industry. P/NP grading.

20. Programming with Numerical Methods Applications (4) Lecture, three hours; discussion, two hours; outside study, seven hours. Requisites: Mathematics 31A, 31B, 31C. Introduction to programming with MATLAB. Applications to numerical methods used in engineering. Letter grading.

94. Introduction to Computer-Aided Design and Drafting (4) Lecture, two hours; laboratory, four hours. Fundamentals of computer graphics and two- and three-dimensional modeling on computer-aided design and drafting systems. Students use one or more online computer systems to design and display various objects. Letter grading.

Upper Division Courses

102. Dynamics of Particles and Rigid Bodies (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: course 101; Mathematics 33A, Physics 1A. Fundamental concepts of Newtonian mechanics, kinematics and kinetics of particles and rigid bodies in two and three dimensions. Impulse-momentum and work-energy relationships. Applications. Letter grading.

103. Elementary Fluid Mechanics (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: Mathematics 32B, 33A, Physics 1B. Introductory course dealing with application of principles of mechanics to flow of compressible and incompressible fluids. Letter grading.

105A. Introduction to Engineering Thermodynamics (4) (Formerly numbered M105A.) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: Chemistry 20B, Mathematics 32B. Phenomenological thermodynamics. Concepts of equilibrium, temperature, and reversibility. First law and concept of energy; second law and concept of entropy. Equations of state and thermodynamic properties. Engineering applications of these principles in analysis and design of closed and open systems. Letter grading.

105D. Transport Phenomena (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: courses 103, 105A, Mathematics 32B, 33B. Transport phenomena; heat conduction, mass species diffusion, convective heat and mass transfer, and radiation. Engineering applications in thermal and environmental control. Letter grading.

107. Introduction to Modeling and Analysis of Dynamic Systems (3) Lecture, three hours; discussion, one hour; outside study, four hours. Requisites: course 102, Computer Science 31. Corequisite: course 107L. Introduction to modeling of physical systems, including mechanical, fluid, thermal, and electrical systems. Linear differential equations. Description of these systems with coverage of superposition, convolution, frequency response, first- and second-order system transient response analysis, and numerical solution. Nonlinear differential equation descriptions with discussion of equilibrium and small signal linearization, large signal response, and numerical solution. Block diagram representation and response of interconnections of systems. Letter grading.
107L. Dynamic Systems Laboratory. (Laboratory, eight hours; outside study, four hours. Requisites: courses 102, 31C, 31D. Analysis of dynamic behavior of physical systems by computer simulation and hands-on experiments. Computer-based data acquisition, time and frequency domain modeling and analysis of mechanical, electrical, thermal, and fluid lumped parameter systems. Letter grading.)

131A. Intermediate Heat Transfer. (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: courses 141A, 143A. Global energy use and supply, electrical power generation, fossil fuel and nuclear power plants, renewable energy such as hydropower, biomass, geothermal, solar, wind, and ocean, fuel cells, transportation, energy conversion, air and water pollution, global warming. Letter grading.

CM140. Introduction to Biomechanics. (Same as Biomedical Engineering CM140.) Lecture, four hours; discussion, one hour; outside study, six hours. Requisites: courses 101, 102, 156A. Introduction to mechanical functions of human body; skeletal adaptations to optimize load transfer, mobility, and function. Dynamics and kinematics. Fluid mechanics applications. Heat and mass transfer. Power generation. Laboratory simulations and tests. Concurrently scheduled with course CM240. Letter grading.

150B. Aerodynamics. (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: courses 103, 150A. Advanced aspects of potential flow theory. Incompressible flow around thin airfoils and (lift and moment coefficients) and wings (lift, induced drag). Gas dynamics: oblique shocks, Prandtl/Meyer expansion. Linearized subsonic and supersonic flow around thin airfoils and wings. Wave drag. Transonic and supersonic. Letter grading.

150D. Fluid Dynamics of Biological Systems. (4) Lecture, four hours; outside study, eight hours. Requisite: course 103. Mechanics of aquatic locomotion; insect and bird flight aerodynamics; pulsatile flow in circulatory, respiratory, and genitourinary systems. Letter grading.

150P. Aircraft Propulsion Systems. (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: courses 103, 105A. Thermodynamic properties of gases. Gas dynamics, aircraft design, component performance, component matching, advanced aircraft engine topics. Letter grading.

150R. Rocket Propulsion Systems. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisites: courses 103, 105A. Rocket propulsion concepts, including chemical rockets (liquid, gas, and solid propellants); hybrid rocket engines, electric (ion, plasma) rockets, nuclear rockets, and solar-powered vehicles. Current issues in launch vehicle technology. Letter grading.

153A. Engineering Thermodynamics. (4) Lecture, four hours; discussion, one hour; outside study, six hours. Requisites: courses 131A, 133A. Global energy use and supply, electrical power generation, fossil fuel and nuclear power plants, renewable energy such as hydropower, biomass, geothermal, solar, wind, and ocean, fuel cells, transportation, energy conversion, air and water pollution, global warming. Letter grading.

155. Intermediate Dynamics. (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisite: course 102. Axions of Newtonian mechanics, generalized coordinates, Lagrange equation, variational principles, central force motion; kinematics and dynamics of rigid bodies. Euler equations, motion of rotating bodies, oscillatory motion, normal coordinates, orthogonality relations. Letter grading.

155A. Advanced Strength of Materials. (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: courses 101, 182A. Not open to students with credit for course 166A. Concepts of stress and strain, critical stress, fracture, empirical stress-strain laws, and fracture toughness. Letter grading.

157A. Fluid Mechanics and Aerodynamics Laboratory. (Laboratory, eight hours; outside study, eight hours. Requisites: courses 103, 105A, 105D, Electrical Engineering 100. Methods of measurement of basic quantities and performance of basic experiments in heat transfer, fluid mechanics, structures, and thermodynamics. Primary sensors, transducers, recording equipment, signal processing, and data analysis. Letter grading.

157B. Fluid Mechanics and Aerodynamics Laboratory. (Laboratory, eight hours; outside study, eight hours. Requisites: courses 103, 105A, 105D, Electrical Engineering 100. Methods of measurement of basic quantities and performance of basic experiments in heat transfer, fluid mechanics, structures, and thermodynamics. Primary sensors, transducers, recording equipment, signal processing, and data analysis. Performance of experiments to enhance understanding of basic physical principles and characteristics of structures/systems of relevance to aerospace engineering. Letter grading.

161A. Introduction to Astronautics. (4) Lecture, four hours; discussion, two hours; outside study, six hours. Requisite: course 102. Recommended: course 182A. Space environments of Earth, trajectories and orbits, space station and satellite structures and materials, loads and vibrations. Thermal control of spacecraft. Letter grading.

161B. Introduction to Space Technology. (4) Lecture, four hours; discussion, one hour; outside study, seven hours. Recommended preparation: courses 102, 105D, 150P. Propulsion requirements for typical space missions, thermochrometry of propellants, internal ballistics, regenerative cooling, liquid propellant feed systems, POGO instability. Electric propulsion, Multistage rockets, separation dynamics. Stability of structures and stability of rocket and missile flight. Letter grading.
161C. Spacecraft Design. (4) Lecture; four hours; outside study, eight hours. Requisite: course 161B. Coverage of preliminary design, by students, of small spacecraft carrying lightweight scientific payload with modest requirements for electric power, lifetime, and attitude stability. Students work in groups of three or four, with each student responsible primarily for one subsystem, and submit written and oral reports with whole-class grading. Letter grading.

161D. Space Technology Hardware Design. (4) Lecture; two hours; laboratory; three hours; outside study, seven hours. Recommended requisite or corequisite: spacecraft design, by students, of hardware with applications to space technology. Designs are then built by HSSEAS professional machine shop and tested by students. New project carried out each year. Letter grading.

162B. Mechanical Product Design. (4) Lecture; two hours; laboratory; four hours; outside study, six hours. Requisites: courses 104, 156A, 162A, 183A or Civil Engineering 130. Emphasis on design and laboratory (design) course involving modern design theory and methodology for development of mechanical products. Economics, marketing, manufacturability, quality, and patentability considerations taught and applied to hands-on design project. Letter grading.

162C. Electromechanical System Design Laboratory. (4) Lecture; one hour; laboratory; eight hours; outside study, three hours. Requisite: course 162B. Laboratory and design course consisting of design, development, construction, and testing of complex mechanical and electromechanical systems. Assembly of machine is instrumented and monitored for operational characteristics. Letter grading.

162M. Senior Mechanical Engineering Design. (4) Lecture; one hour; laboratory; six hours; outside study, five hours. Requisites: courses 107, 107L, 131A or 133A, 162B, 171A. Must be taken in last two technical years of students’ programs. Analytical course of large engineering system. Design factors include functionality, efficiency, economy, safety, reliability, aesthetics, and social impact. Final report of engineering specifications and drawings to be presented by design teams. Letter grading.

163A. Introduction to Computer-Controlled Machines. (4) Lecture; four hours; discussion, one hour; outside study, two hours. Requisite or corequisite: course 171A. Modeling of computer-controlled machines, including electrical and electronic elements, mechanical elements, actuators, sensors, and overall electromechanical systems. Motion and command generation, servo-controller design, and computer/machine interfacing. Letter grading.

163A. Analysis of Flight Structures. (4) Lecture; four hours; discussion, two hours; outside study, six hours. Requisites: courses 101, 182A. Not open to students with credit for course 156A. Introduction to two-dimensional elasticity, stress-strain laws, yield and fatigue; bending of beams; torsion of beams; warping; torsion of thin-walled cross sections: shear flow, shear-lag; combined bending torsion of thin-walled, stiffened structures used in aerospace vehicles; elements of plate theory; buckling of columns. Letter grading.

166C. Design of Composite Structures. (4) Lecture; four hours; discussion; two hours; outside study, six hours. Requisites: course 156A or 166A. History of composites; stress-strain relations for composite materials; bending and extension of symmetric laminates, failure analysis, design examples and design studies, buckling of composite components, nonsymmetric laminate analysis, micromechanics of composites. Letter grading.

166D. Introduction to Finite Element Methods. (4) Formerly numbered 166B. (Same as Civil Engineering M156D.) Lecture; four hours; outside study, seven hours. Requisite: course 156A or 166A or Civil Engineering 130. Introduction to basic concepts of finite element methods (FEM) and applications to structural and solid mechanics analysis; weighted residual, least squares, and Ritz approximation methods; shape functions; convergence properties; solution strategies; numerical heat flow and elasticity; numerical integration. Practical use of FEM software; geometric and analytical modeling; preprocessing and postprocessing techniques; term projects with computers. Letter grading.

171A. Introduction to Feedback and Control Systems: Dynamic Systems Control I. (4) Lecture; four hours; discussion, two hours; outside study, six hours. Requisite: course 107, 107L, or 181A or 182A. Introduction to feedback principles, control systems design, and system stability. Modeling of physical systems in engineering and other fields; transform methods; vector and matrix operations; Bode, and root-locus methods; compensation; computer-aided analysis and design. Letter grading.

172. Control System Design Laboratory. (4) Laboratory; eight hours; outside study; four hours. Requisite: course 171B. Introduction to random processes, Alge–design techniques for control of mechanical systems. Successful controller design requires students to formulate performance measures for control problem, explore trade-offs among these measures, and develop uncertainty descriptions for design models. Exploration of issues concerning model uncertainty and sensor/actuator placement. Students implement control designs on flexible structures, rate gyroscopes, and inverted pendulum. Detailed reports required. Letter grading.

174. Probability and Its Applications to Risk, Reliability, and Quality Control. (4) Lecture; four hours; discussion; two hours; outside study, six hours. Introduction to probability theory; random variables, distributions, functions of random variables, models of failure of components, reliability, redundancy, complex systems analysis, reliability growth analysis, statistical quality control by variables and by attributes, acceptance sampling. Letter grading.

CM180. Introduction to Micromachining and Microelectromechanical Systems (MEMS). (4) Formerly numbered M180.) (Same as Biomedical Engineering CM150 and Electrical Engineering CM150.) Lecture; four hours; discussion; one hour; outside study, seven hours. Recommended: Introductory chemistry and physics; Physics 1A, 1B, 1C, 4A, 4B, 4L; Corequisite: course CM180L. Introduction to micromachining technologies and microelectromechanical systems (MEMS). Methods for micromachining how these methods are used to produce variety of MEMS, including microstructures, microsensors, and microactuators. Students design microfabrication processes capable of achieving desired MEMS device. Concurrently scheduled with course CM280A. Letter grading.

CM180L. Introduction to Micromachining and Microelectromechanical Systems (MEMS) Laboratory. (2) (Formerly numbered M180L.) Lecture; four hours; outside study, twenty hours. Recommended: chemistry 20A, 20L, Physics 1A, 1B, 1C, 4A, 4L, 4BL. Corequisite: course CM180. Hands-on introduction to micromachining and microelectromechanical systems (MEMS) laboratory. Methods of microman- chine and how these methods are used to produce variety of MEMS, including microstructures, microsensors, and microactuators. Students go through process of fabricating MEMS device. Concurrently scheduled with course CM280L. Letter grading.

181A. Digital Analysis and Transforms. (4) Lecture; four hours; outside study, eight hours. Requisite: course 182A. Complex variables, analytic functions, conformal mappings, contour integrals, singularities, residues, Cauchy integrals; Laplace transforms: properties, convolution, inversion; Fourier transforms: properties, convolution, FFT, applications in dynamics, vibrations, structures, and heat conduction. Letter grading.

184. Introduction to Geometry Modeling. (4) Lecture; four hours; laboratory; four hours; outside study, four hours. Requisites: course 94, Computer Science 31. Fundamentals in geometric modeling, parametric spaces, blending functions, conics, splines and Bezier curve, coordinate transformations, algebraic and geometric form of surfaces, analysis of properties of surfaces, hands-on experience with CAD/CAM systems design and implementation. Letter grading.

C187L. Nanoscale Fabrication, Characterization, and Biodetection Laboratory. (4) Lecture, two hours; laboratory, two hours; outside study, eight hours. Multidisciplinary course that introduces laboratory techniques of nanoscale fabrication, characterization, and biodetection. Basic physical, chemical, and biological principles related to these techniques, top-down and bottom-up (self-assembly) nanofabrication, nanorobotics, FEM, SEM, etc., and optical and electrochemical biosensors. Students encouraged to create their own ideas in self-designed experiments. Concurrently scheduled with course C287L. Letter grading.

188. Special Courses in Mechanical and Aerospace Engineering. (2 to 4) Lecture, two to four hours; outside study, four to eight hours. Special topics in mechanical and aerospace engineering for un- dergraduate students. Taught on experimental or temporary basis, such as those taught by resident and visiting faculty members. May be repeated once for credit with topic or instructor change. P/NP or letter grading.

194. Research Group Seminars: Mechanical and Aerospace Engineering. (2 to 4) Seminar, two hours. Designed for undergraduate students who are part of research group. Discussion of research methods and current literature in field. Student presentation of projects in research specialty. May be repeated for credit. P/NP or letter grading.

199. Directed Research in Mechanical and Aerospace Engineering. (2 to 4) Lecture, to be arranged. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit with school approval. Individual contract required; enrollment petitions available in Office of Academic and Student Affairs. Letter grading.

Graduate Courses

231B. Radiation Heat Transfer. (4) Lecture, four hours; outside study, eight hours. Requisite: course 105D. Radiative properties of materials and radiative energy transfer. Emphasis on fundamental concepts, including energy levels and electromagnetic waves as well as analytical methods for calculating radiative properties and radiation transfer in absorbing, emitting, and scattering media. Applications cover laser-materi- al interactions in addition to traditional areas such as combustion and thermal insulation. Letter grading.

231C. Phase Change Heat Transfer and Two-Phase Flow. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 131A, 150A. Two-phase flow; boiling, and condensation. General theory; constitutive equations for two-phase flow. Phenomenological theories of boiling and condensation, including forced flow effects. Letter grading.

231G. Microporous Energy Transport. (4) Lecture, four hours; outside study, eight hours. Requisite: course 105D. Heat carriers (photons, electronics, phonons, molecules) and their energy characteristics, statistical properties of heat carriers, scattering and propagation of heat carriers, Boltzmann transport equations, derivation of classical laws from Boltzmann transport equations, derivation from classical laws at small scale. Letter grading.

235A. Nuclear Reactor Theory. (4) Lecture, four hours; outside study, eight hours. Requisite: course 182A. Underlying physics and mathematics of nuclear reactor (fission) core design. Diffusion theory, reactor kinetics, slowing down and thermalization, multigroup methods, introduction to transport theory. Letter grading.

237A. Nuclear Reactor Theory. (4) Lecture, four hours; outside study, eight hours. Requisite: course 182A. Underlying physics and mathematics of nuclear reactor (fission) core design. Diffusion theory, reactor kinetics, slowing down and thermalization, multigroup methods, introduction to transport theory. Letter grading.

239B. Seminar: Current Topics in Transport Phenom- ena. (2 to 4) Seminar, two to four hours; outside study, four to eight hours. Designed for graduate me- chanical and aerospace engineering students. Le- ctures, discussions, student presentations, and proj- ects in areas of current interest in transport phenome- na. May be repeated for credit. SU grading.

239F. Special Topics in Transport Phenomena. (2 to 4) Lecture, two to four hours; outside study, four to eight hours. Designed for graduate mechanical and aerospace engineering students. Advanced and cur- rent study of one or more aspects of heat and mass transfer, such as turbulence, stability and transition, buoyancy effects, variational methods, and measure- ment techniques. May be repeated for credit with top- ic change. SU grading.

239G. Special Topics in Nuclear Engineering. (2 to 4) Lecture, two to four hours; outside study, four to eight hours. Designed for graduate mechanical and aerospace engineering students. Advanced study in areas current interest in nuclear engineering, such as reactor safety, risk-benefit trade-offs, nuclear ma- terials, and reactor design. May be repeated for credit with topic change. SU grading.

239H. Special Topics in Fusion Physics, Engineer- ing, and Technology. (2 to 4) Seminar, two to four hours; outside study, four to eight hours. Designed for graduate mechanical and aerospace engineering stu- dents. Advanced treatment of subjects selected from research areas in fusion science and engineering, such as instabilities in burning plasmas, alternate fu- sion confinement concepts, inertial confinement fu- sion, fusion-fission hybrid systems, and fusion reactor safety. May be repeated for credit with topic change. SU grading.

CM240. Introduction to Biomechanics. (4) (Same as Biomedical Engineering CM240.) Lecture, four hours; discussion, two hours; outside study, six hours. Requisites: courses 101, 102, 156A. Introduction to mechanical functions of human body; skeletal adapta- tions to optimize load transfer, mobility, and function. Dynamics and kinematics. Fluid mechanics applications. Heat and mass transfer. Power generation. Labor- atory simulations and tests. Concurrently scheduled with course CM140. Letter grading.

250A. Foundations of Fluid Dynamics. (4) Lecture, four hours; outside study, eight hours. Requisite: course 150A. Corequisite: course 182B. Development and application of fundamental fluid me- chanics at graduate level, with emphasis on incompressible flow. Flow kinematics, basic equations, con- stitutive relations, exact solutions on the Navier/ Stokes equations, vorticity, decomposition of flow fields, potential flow. Letter grading.

250B. Viscous and Turbulent Flows. (4) Lecture, four hours; outside study, eight hours. Requisite: course 150A. Fundamental principles of fluid dynam- ics applied to study of flows of real fluids. Mechanism of fluid motion discussed in order of advancing Reynolds number; wakes, boundary layers, instability, transi- tion and turbulent shear flows. Letter grading.

250C. Compressible Flows. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 150A, 150B. Effects of compressibility in viscous and inviscid flows. Steady and unsteady inviscid subsonic and supersonic flows; method of characteristics; small dis- turbance theories (linearized and hypersonic); shock dynamics. Letter grading.

250F. Hypersonic and High-Temperature Gas Dy- namics. (4) Lecture, four hours; outside study, eight hours. Recommended requisite: course 250C. Molec- ular and chemical description of equilibrium and non- equilibrium hypersonic and high-temperature gas flows, chemical thermodynamics and statistical ther- modynamics for calculation gas properties, equilibri- um flows of real gases, vibrational and chemical rate processes, nonequilibrium flows of real gases, and computational fluid dynamics methods for nonequilib- rium hypersonic flows. Letter grading.

252A. Stability of Fluid Motion. (4) Lecture, four hours; outside study, eight hours. Requisite: course 150A. Mechanisms by which laminar flows can become unstable, origin of turbulence of secondary motions. Linear stability theory; thermal, centrifugal, and shear instabilities; boundary layer instability. Nonlinear aspects: sufficient criteria for stability, subcritical instabilities, supercritical states, transition to turbulence. Letter grading.

252B. Turbulence. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 250A, 250B. Characteristic forms of turbulent flows, conservation and transport equations, statistical description of turbulent flows, scales of turbulent motion, simple turbulent flows, free-shear flows, wall-bounded flows, turbulence modeling, numerical simulations of turbulent flows, and turbulence control. Letter grading.

252D. Combustion Rate Processes. (4) Lecture, four hours; outside study, eight hours. Requisite: course 252C. Basic concepts in chemical kinetics: molecular collisions, distribution functions and averaging, semiphenomenological models and ab initio potential surfaces, trajectory calculations, statistical reaction rate theories. Practical examples of large-scale chain mechanisms from combustion chemistry of several elements, etc. Letter grading.

253A. Advanced Engineering Acoustics. (4) Lecture, four hours; outside study, eight hours. Advanced studies in engineering acoustics, including three-dimensional wave propagation; propagation in bounded media; Ray acoustics; attenuation mechanisms in fluids. Letter grading.

254A. Special Topics in Aerodynamics. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 150A, 150B, 152A, 152B, 182A. Special topics of current interest in advanced aerodynamics. Examples include transonic flow, hypersonic flow, sonic booms, and unsteady aerodynamics. Letter grading.

255A. Advanced Dynamics of Structures. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 155, 169A. Variational principles and Lagrange equations. Kinematics and dynamics of rigid bodies; procession and nutation of spinning bodies. Letter grading.

255B. Mathematical Methods in Dynamics. (4) Lecture, four hours; outside study, eight hours. Requisite: course 255A. Concepts of stability; state-space interpretation; stability determination by simulation, linearization, and Lyapunov direct method; the Hamiltonian as a Lyapunov function; nonautonomous systems; averaging and perturbation methods of nonlinear analysis; parametric excitation and nonautonomous resonance. Application to mechanical systems. Letter grading.

255A. Linear Elasticity. (4) (Same as Civil Engineering M230A.) Lecture, four hours; outside study, eight hours. Requisite: course 156A or 166A. Linear elastostatics. Cartesian tensors; infinitesimal strain tensor; Cauchy stress tensor; strain energy; equilibrium equations; linear constitutive relations; plane elastostatic problems, holes, corners, inclusions, cracks; three-dimensional theories of Kelvin, Boussinesq, and Cerruti. Introduction to boundary integral equa- tion method. Letter grading.

255B. Nonlinear Elasticity. (4) (Same as Civil Engineering M230B.) Lecture, four hours; outside study, eight hours. Requisite: course 156A. Kinetics and constitutive relations of deformation, material and spatial coordinates, deformation gradient tensor, nonlinear and linear strain tensors, strain displacement relations; balance laws, Cauchy and Piola stresses, Cauchy equations of motion and stress-strain relations; non-dimensionalization, elasticity, hyperelasticity, thermoelastictiy; linearization of field equations; solution of selected problems. Letter grading.

256F. Analytical Fracture Mechanics. (4) Lecture, four hours; outside study, eight hours. Requisite: course 255A. Review of modern fracture mechanics, elementary stress analyses; analytical and numerical methods for calculation of crack to stress intensity factors; engineering applications in stiffened structures, pressure vessels, plates, and shells. Letter grading.

258A. Nanomechanics and Micromechanics. (4) Lecture, four hours; outside study, eight hours. Requisite: course 256A. Analytical and computational modeling methods to describe mechanics of materials at scales ranging from atomistic through microstructure or transitional and up to continuum. Discussion of atomistic simulation methods (e.g., molecular dynamics, Langevin dynamics, and kinetic Monte Carlo) and their applications at nanoscale. Developments and applications of dislocation dynamics and statistical mechanics methods in areas of nanostructure and micromechanics of heterogeneous polycrystalline materials, material instabilities, and failure phenomena. Presentation of technical applications of these emerging modeling techniques to surfaces and interfaces, grain boundaries, dislocations and defects, surface growth, quantum dots, nanotubes, nanocushions, thin films (e.g., optical thermal barrier coatings and ultrathin nanolayer materials), nano-identification, smart (active) materials, nanobending and microring, and torsion. Letter grading.

259A. Seminar: Advanced Topics in Fluid Mechanics. (4) Seminar, four hours; outside study, eight hours. Advanced study of topics in fluid mechanics, with intensive student participation involving assignments in research problems leading to term paper or oral presentation (possible help from guest lecturers). Letter grading.

259B. Seminar: Advanced Topics in Solid Mechanics. (4) Seminar, four hours; outside study, eight hours. Advanced study in various fields of solid mechanics on topics which may vary from term to term. Topics include dynamics, elasticity, plasticity, and stability of solids. Letter grading.

260. Current Topics in Mechanical Engineering. (2 to 4) Seminar, two to four hours; outside study, four to eight hours. Designed for graduate mechanical and aerospace engineering students. Lectures, discussions, and student presentations and projects in areas of current interest in mechanical engineering. May be repeated for credit. S/U grading.

262. Mechanics of Intelligent Material Systems. (4) Lecture, four hours; outside study, eight hours. Recommended requisites: courses 163A, 294. Theory of motion control for modern computer-controlled machines; multiaxis computer-controlled machines; machine kinematics and dynamics; multiaxis motion coordination; coordinated motion with desired speed and acceleration; jerk analysis; motion command generation; theory of compliant interpolators; motion trajectory design and analysis; geometry-speed-sampling time relationships. Letter grading.

263B. Spacecraft Dynamics. (4) Lecture, four hours; outside study, eight hours. Requisite: course 261A. Flying vehicle theory for modern space vehicles including classical lamination theory, shear lag theory, composite cylinder analysis of light composite shells, and homogenization techniques as they apply to active materials. Active systems design, inch-worm, and biomorph. Letter grading.

263C. Mechanics and Trajectory Planning of Industrial Robots. (4) Lecture, four hours; outside study, eight hours. Requisite: course 163A. Theory and implementation of robotic systems design considerations. Kinematic structural modeling, trajectory planning, and system dynamics. Differential motion and static forces. Individual student study projects. Letter grading.

263D. Advanced Robotics. (4) Lecture, four hours; outside study, eight hours. Recommended prepa- ration: courses 155, 171A, 263C. Motion planning and control of articulated dynamic systems: nonlinear joint control, experiments in joint control and multiaxis coordination, multidof body dynamics, trajectory planning, motion optimization, dynamic performance and mani- festation, 3D object redynamics, motion planning of manipulators in space, obstacle avoidance. Letter grading.

269B. Advanced Dynamics of Structures. (4) Lecture, four hours; outside study, eight hours. Requisite: course M269A. Analysis of linear and nonlinear responses of structures to earthquakes, dynamic loads, and self-induced vibrations. Letter grading.
269D. Aeroelastic Effects in Structures. (4) Lecture, four hours; outside study, eight hours. Requisite: course M269A. Presentation of field of aeroelasticity from unified viewpoint applicable to flight structures, suspension bridges, buildings, and other structures. Derivation of aeroelastic operators and unsteady airloads from governing variational principles. Flow induced instabilities and response of structural systems. Letter grading.

M270A. Linear Dynamic Systems. (4) (Same as Chemical Engineering M280A and Electrical Engineering M240A.) Lecture, four hours; outside study, eight hours. Requisite: course 171A or Electrical Engineering 141. State-space description of linear time-invariant (LTI) and time-varying (LTV) systems in continuous and discrete time. Linear algebra concepts such as eigenvalues and eigenvectors, singular values, Cayley/Hamilton theorem, Jordan form; solution of state equations; stability, controllability, observability, realism, and minimality. Stabilization design via state feedback and observers; separation principle. Connections with transfer function techniques. Letter grading.

270B. Linear Optimal Control. (4) Lecture, four hours; outside study, eight hours. Requisite: course M270A or Electrical Engineering M240A. Existence and uniqueness of solutions to linear quadratic (LQ) optimal control problems for continuous-time and discrete-time linear and time-varying systems and infinite horizon problems; Hamiltonian systems and optimal control; algebraic and differential Riccati equations; implications of controllability, stabilizability, observability, and detectability solutions. Letter grading.

M270C. Optimal Control. (4) (Same as Chemical Engineering M286OC and Electrical Engineering M240C.) Lecture, four hours; outside study, eight hours. Requisite: course 270B. Applications of variational methods, Pontryagin maximum principle, Hamilton/Jacobi/Beltrami equation (dynamic programming) to optimal control of dynamic systems modeled by nonlinear ordinary differential equations. Letter grading.

271B. Stochastic Estimation. (4) Lecture, four hours; outside study, eight hours. Requisite: course 271A. Linearity properties of optimal projection lemma, Bayesian filtering theory, conditional mean and risk estimators. Letter grading.

271D. Seminar: Special Topics in Dynamic Systems Control. (4) Seminar, four hours; outside study, eight hours. Seminar on current research topics in dynamical systems modeling, control, and applications. Topics selected from process control, differential games, estimation, adaptive filtering, industrial and aerospace applications, etc. Letter grading.

273A. Robust Control System Analysis and Design. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 171A, M270A. Graduate-level introduction to analysis and design of multi-variable control systems. Multivariable loop-shaping, performance requirements, model uncertainty representations, and robustness covered in detail from frequency domain perspective and its application to controller synthesis. Letter grading.

275A. System Identification. (4) Lecture, four hours; outside study, eight hours. Methods for identification of linear systems with emphasis on identification of discrete-time (digital) models of sampled-data systems. Coverage of conversion to continuous-time models. Models identified include transfer functions and state-space models. Discussion of applications in mechanical and aero-space engineering, including identification of flexible structures, microelectromechanical systems (MEMS) devices, and acoustic ducts. Letter grading.

CM280A. Introduction to Micromachining and Microelectromechanical Systems (MEMS). (4) Formerly numbered M280B. (Same as Biomedical Engineering CM250A and Electrical Engineering CM250A.) Lecture, four hours; discussion, one hour; outside study, seven hours. Requisites: Chemistry 20A, 20L, Physics 1A, 1B, 1C, 4A, 4BL. Corequisite: course CM286. Introduction to micromachining technologies and microelectromechanical systems (MEMS). Methods of micromachining and how these methods can be used to produce variety of MEMS, including microelectromechanical devices, and micro actuators. Students design microfabrication processes capable of achieving desired MEMS device. Concurrently scheduled with course CM180. Letter grading.

M280B. Microelectromechanical Systems (MEMS) Fabrication. (4) (Same as Biomedical Engineering M250B and Electrical Engineering M250B.) Lecture, three hours; discussion, one hour; outside study, eight hours. Enforced requisite: course CM180 or CM280A. Advanced discussion of micromachining processes used to construct MEMS. Coverage of many lithographic, deposition, and etching processes, as well as their combination in process integration. Materials issues associated with microelectronics, contraction, mechanical properties, and residual/intrinsic stress. Letter grading.

CM280L. Introduction to Micromachining and Microelectromechanical Systems (MEMS) Laboratory. (2) (Formerly numbered 280L.) (Same as Biomedical Engineering CM250L and Electrical Engineering CM250L.) Lecture, one hour; laboratory, four hours; outside study, one hour. Requisites: Chemistry 20A, 20L, Physics 1A, 1B, 1C, 4A, 4BL. Corequisite: course CM280A. Hands-on introduction to micromachining technologies and microelectromechanical systems (MEMS) laboratory. Methods of micromachining and how these methods can be used to produce variety of MEMS, including microstructures, microsensors, and microactuators. Students go through process of fabricating MEMS device. Concurrently scheduled with course CM180L. Letter grading.

281. Microsciences. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 131A, 150A. Basic science issues in micro domain. Topics include: micro fluid science, microscale heat transfer, mechanical behavior of microstructures, as well as dynamics and control of micro devices. Letter grading.

M282. Microelectromechanical Systems (MEMS) Device Physics and Design. (4) (Same as Biomedical Engineering M252 and Electrical Engineering M252.) Lecture, four hours; outside study, eight hours. Introduction to MEMS design. Design methods, design rules, sensing and actuation mechanisms, micromachining, and microactuators. Designing MEMS to be produced with both founry and nonfoundry processes. Computer-aided design for MEMS. Design project required. Letter grading.

283. Experimental Mechanics for Microelectromechanical Systems (MEMS). (4) Lecture, four hours; outside study, eight hours. Methods, techniques, and philosophies being used to characterize microelectromechanical systems for engineering applications. Material characterization, mechanical/structural properties, mechanical characterization. Topics include fundamentals of crystallography, anisotropic material properties, and mechanical properties of membranes (fracture/fracture/fatigue) as they relate to microscale. Considerable emphasis on emerging experimental approaches to assess design-relevant mechanical properties of microscale devices. Letter grading.

285. Interfacial Phenomena. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 103, 105A, 105D, 182A. Introduction to fundamental physical phenomena occurring at interfaces and application of their knowledge to engineering problems. Fundamental concepts of interfacial phenomena, including surface tension, surfactants, interfacial thermodynamics, interfacial forces, interfacial hydrodynamics, and dynamics of triple line. Presentation of various applications, including wetting, change of phase (boiling and condensation), forms and emulsions, microelectromechanical systems, and biological systems. Letter grading.

287. Nanoscience and Technology. (4) (Same as Electrical Engineering M257.) Lecture, four hours; outside study, eight hours. Introduction to fundamentals of nanoscale science and technology. Basic physical principles, quantum mechanics, chemical bonding and nanostructures, top-down and bottom-up (self-assembly) nanofabrication; nanocharacterization; nanomaterials, nanoelectronics, and nanobiotechnology. Introduction to nanotechnology and techniques in nano areas to understand scientific principles behind nanotechnology and inspire students to create new ideas in multidisciplinary nano areas. Letter grading.
295A. Computer-Aided Manufacturing. (4) Lecture, four hours; outside study, eight hours. Requisites: Materials Science 104. Synthesis and engineering of laser microscopic fabrication of advanced materials, including semiconductors, metals, and insulators. Topics include fundamentals in laser interactions with advanced materials, transport issues (therma, mass, chemical, carrier, etc.) in laser microfabrication, state-of-art optics and instrumentation for laser microfabrication, applications such as rapid prototyping, surface modifications (physical/chemical), micromachines for three-dimensional MEMS (microelectromechanical systems) and data storage, up-to-date research activities. Student term projects. Letter grading.

295B. Damage and Failure of Materials in Mechanical Design. (4) Lecture, four hours; outside study, eight hours. Requisites: course 131A, 183. Thermodynamics, heat and mass transfer, principles of material processing: phase equilibria and transitions, transport mechanisms of heat and mass, moving interfaces and heat sources, natural convection, nucleation and growth of microstructure, etc. Applications with chemical vapor deposition, infiltration, etc. Letter grading.

298. Seminar: Engineering. (2 to 4) Seminar, to be arranged. Limited to graduate mechanical and aerospace engineering students. Seminars may be organized in advanced technical fields. If appropriate, field trips may be arranged. May be repeated with topic change. Letter grading.

M299A. Seminar: Systems, Dynamics, and Control Topics. (2) (Same as Chemical Engineering M297 and Electrical Engineering M246S.) Seminar, two hours; outside study, six hours. Limited to graduate engineering students. Presentations of research topics by leading experts from fields of systems, dynamics, and control. Students who work in these fields present their papers and results. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Teaching Assistant Training Seminar. (2) Seminar, two hours; outside study, four hours. Preparatory: appointment as teaching assistant in department. Seminar on communication of mechanical and aerospace engineering principles, concepts, and methods; teaching assistant preparation, organization, and presentation of material, including use of visual aids; grading, advising, and rapport with students. S/U grading.

566. Directed Individual or Tutorial Studies. (2 to 8) Tutorial, to be arranged. Limited to graduate mechanical and aerospace engineering students. Petition forms to request enrollment may be obtained from assistant dean, Graduate Studies. Supervised investigation of advanced technical problems. S/U grading.

597A. Preparation for M.S. Comprehensive Examination. (2 to 12) Tutorial, to be arranged. Limited to graduate mechanical and aerospace engineering students. Reading and preparation for comprehensive examination. S/U grading.

597B. Preparation for Ph.D. Preliminary Examinations. (2 to 16) Tutorial, to be arranged. Limited to graduate mechanical and aerospace engineering students. S/U grading.

597C. Preparation for Ph.D. Oral Qualifying Examination. (2 to 16) Tutorial, to be arranged. Limited to graduate mechanical and aerospace engineering students. Supervised investigation of advanced technical problems. S/U grading.

599. Research for and Preparation of M.S. Thesis. (2 to 12) Tutorial, to be arranged. Limited to graduate mechanical and aerospace engineering students. Supervised independent research for M.S. candidates, including thesis prospectus. S/U grading.

C287L. Nanoscale Fabrication, Characterization, and Biodetection Laboratory. (4) Lecture, two hours; laboratory, two hours; outside study, eight hours. Laboratory course that introduces laboratory techniques of nanoscale fabrication, characterization, and biodetection. Basic physical, chemical, and biological principles related to these techniques, top-down methods (in situ imaging, etch characterization, etc.) and bottom-up (layer-by-layer) nanofabrication, nanocharacterization (AEM, SEM, etc.), and optical and electrochemical biosensors. Students encourage each other's own ideas in self-designed experiments. Concurrently scheduled with course C187L. Letter grading.

288. Laser Microfabrication. (4) Lecture, four hours; outside study, eight hours. Requisites: Materials Science 104. Preparation, design, and engineering of laser microfabrication, state-of-art optics and instrumentation for laser microfabrication, applications such as rapid prototyping, surface modifications (physical/chemical), micromachines for three-dimensional MEMS (microelectromechanical systems) and data storage, up-to-date research activities. Student term projects. Letter grading.

294. Computational Geometry for Design and Manufacturing. (4) Lecture, four hours; outside study, eight hours. Requisite: course 184. Computational geometry and manufacturing, with special emphasis on curve and surface theory, geometric modeling of curves and surfaces, B-splines and NURBS, composite curves and surfaces, computing methods for surface design and manufacture, and current research topics in computational geometry for CAD/CAM systems. Letter grading.

295A. Computer-Aided Manufacturing. (4) Formerly numbered 295L. Lecture, four hours; outside study, eight hours. Requisite: course 184. Computation of points and control of computer-aided manufacturing, including natural and computerized design and manufacture of advanced materials, including semiconductors, metals, and insulators. Topics include fundamentals in laser interactions with advanced materials, transport issues (therma, mass, chemical, carrier, etc.) in laser microfabrication, state-of-art optics and instrumentation for laser microfabrication, applications such as rapid prototyping, surface modifications (physical/chemical), micromachines for three-dimensional MEMS (microelectromechanical systems) and data storage, up-to-date research activities. Student term projects. Letter grading.

295B. Internet-Based Collaborative Design. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 94, 184. Exploration of advanced state-of-the-art concepts in Internet-based collaborative design, including software environments to connect designers over Internet, networked variable media graphing, and modeling of flexible manufacturing systems. Decision making in quality engineering. Letter grading.

294. Computational Geometry for Design and Manufacturing. (4) Lecture, four hours; outside study, eight hours. Requisite: course 184. Computation of points and control of computer-aided manufacturing, including natural and computerized design and manufacture of advanced materials, including semiconductors, metals, and insulators. Topics include fundamentals in laser interactions with advanced materials, transport issues (therma, mass, chemical, carrier, etc.) in laser microfabrication, state-of-art optics and instrumentation for laser microfabrication, applications such as rapid prototyping, surface modifications (physical/chemical), micromachines for three-dimensional MEMS (microelectromechanical systems) and data storage, up-to-date research activities. Student term projects. Letter grading.

295B. Internet-Based Collaborative Design. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 94, 184. Exploration of advanced state-of-the-art concepts in Internet-based collaborative design, including software environments to connect designers over Internet, networked variable media graphing, and modeling of flexible manufacturing systems. Decision making in quality engineering. Letter grading.

295A. Computer-Aided Manufacturing. (4) Formerly numbered 295L. Lecture, four hours; outside study, eight hours. Requisite: course 184. Computation of points and control of computer-aided manufacturing, including natural and computerized design and manufacture of advanced materials, including semiconductors, metals, and insulators. Topics include fundamentals in laser interactions with advanced materials, transport issues (therma, mass, chemical, carrier, etc.) in laser microfabrication, state-of-art optics and instrumentation for laser microfabrication, applications such as rapid prototyping, surface modifications (physical/chemical), micromachines for three-dimensional MEMS (microelectromechanical systems) and data storage, up-to-date research activities. Student term projects. Letter grading.

295B. Internet-Based Collaborative Design. (4) Lecture, four hours; outside study, eight hours. Requisites: courses 94, 184. Exploration of advanced state-of-the-art concepts in Internet-based collaborative design, including software environments to connect designers over Internet, networked variable media graphing, and modeling of flexible manufacturing systems. Decision making in quality engineering. Letter grading.
Graduate Courses

M215. Interdepartmental Course: Tropical Medicine. (2) (Same as Pathology M215 and Pediatrics M215.) Lecture, two and one-half hours. Preparation: basic courses in microbiology and parasitology of infectious diseases in School of Medicine or Public Health. Study of current knowledge about diseases prevalent in tropical and subtropical environments. Topics include East tropical diseases, with coverage of problems in nutrition and exotic noninfectious diseases. Syllabus supplements topics covered in classroom. S/U grading.

M256. Interdisciplinary Response to Infectious Disease Emergencies: Medicine Perspective. (4) Lecture, three hours; discussion, one hour. Designed to instill in professional students ideas of common emergency health problems and coordinated response with special attention to bioterrorism. Examination of tools to help students prevent, detect, and intervene in infectious disease emergencies. Interdisciplinary sessions also attended by students in Schools of Dentistry, Law, Medicine, Nursing, and Social Welfare. S/U grading.

M260A-M260B. Methodology in Clinical Research I, II. (4-4) (Same as Biostatistics M260A-M260B.) Lecture, four hours. Recommended preparation: M.D., Ph.D., or dental degree. Requisites: Biostatistics 170A, 265A. Course M260A is requisite to M260B. Presentation of principles and practices of major disciplines underlying clinical research methodology, such as biostatistics, epidemiology, pharmacokinetics. S/U or letter grading.

M260C. Methodology in Clinical Research III. (4) (Same as Biostatistics M260C.) Discussion, four hours. Recommended preparation: M.D., Ph.D., or dental degree. Presentation of principles and practices of major disciplines underlying clinical research methodology, such as biostatistics, epidemiology, pharmacokinetics. S/U or letter grading.

M261. Ethics in Patient-Oriented Research. (2) (Same as Biostatistics M261.) Lecture, two hours; discussion, two hours. Discussion of current issues in responsible conduct of clinical research, including reporting of research, basis for authorship, issues in genetic research, principles and practice of research on humans, conflicts of interest, Institutional Review Board (IRB), and related topics. S/U or letter grading.

M263. Clinical Pharmacology. (2) (Same as Biomathematics M263 and Psychiatry M263.) Lecture, two hours. Preparation: completion of professional health sciences degree (M.D., D.D.S., D.N.Sc., or Ph.D.). Overview of principles of clinical pharmacology, especially as they relate to clinical and translational medicine and to advances in contemporary medicine such as targeting, gene therapy, and genomics. Letter grading.

M270C. Advanced Modeling Methodology for Dynamic Biomedical Systems. (4) (Same as Biomedical Engineering M270A and Computer Science M270A.) Lecture, four hours; outside study, eight hours. Requisites: Electrical Engineering 141 or 142 or Mathematics 115A or Mechanical and Aerospace Engineering 171A. Development of dynamic systems modeling methodology for physiological, biomedical, pharmacological, chemical, and related systems. Control system, multicompartamental, noncompartmental, and input/output models, linear and nonlinear. Emphasis on model applications, limitations, and relevance in biomedical sciences and other limited data environments. Problem solving in PC laboratory. Letter grading.

M270D. Optimal Parameter Estimation and Experiment Design for Biomedical Systems. (4) (Same as Biostatistics M270, Biomedical Engineering M270B, and Computer Science M270B.) Lecture, four hours; outside study, eight hours. Requisite: course M270D. Estimation methodology and model parameter estimation algorithms for fitting dynamic system models to biomedical data. Model discrimination methods. Theory and algorithms for designing optimal experiments for developing and quantifying models, with special focus on optimal sampling schedule design for kinetic models. Exploration of PC software for model building and optimal experiment design via applications in physiology and pharmacology. Letter grading.

M292. Winter Study Abroad. (1-7) Open to undergraduate students majoring in Microbiology, Immunology, and Molecular Genetics. Includes bacteriology, virology, immunology, genetics, molecular biology, and the study of single cells. The science has its roots in the fundamental human needs of health, nutrition, and environmental control, and it provides opportunities for study in the basic biological fields of genetics and cellular and molecular biology. Undergraduate students majoring in Microbiology, Immunology, and Molecular Genetics prepare for careers in biomedical research, medicine, dentistry, or other health professions, bio-

Scope and Objectives

Microbiology at UCLA is a diverse science that includes bacteriology, virology, immunology, genetics, molecular biology, and the study of single cells. The science has its roots in the fundamental human needs of health, nutrition, and environmental control, and it provides opportunities for study in the basic biological fields of genetics and cellular and molecular biology. Undergraduate students majoring in Microbiology, Immunology, and Molecular Genetics prepare for careers in biomedical research, medicine, dentistry, or other health professions, bio-

technology and genetic engineering, industrial microbiology, agricultural or environmental sciences, public health, and law or bioethics, among others. The courses presented by the department lead to a Bachelor of Science degree and depend heavily on preparation in the biological sciences, chemistry, physics, and mathematics.

The graduate program emphasizes the areas of molecular genetics, cell biology, immunology, cell and virus structure and morphogenesis, animal virology, general bacteriology and physiology, host/pathogen relationships, medical microbiology, microbial genetics, and recombinant DNA research. Students are prepared for creative research careers in all of these fields. The objective of the department is to provide breadth in microbiology, immunology, and molecular genetics at the undergraduate level and depth and training in independent study and research for graduate students.

Undergraduate Study

Microbiology, Immunology, and Molecular Genetics B.S.

Premicrobiology, Immunology, and Molecular Genetics Major

While students are completing the preparation courses for the major, they are classified as Premicrobiology, Immunology, and Molecular Genetics majors.

Preparation for the Major

Life Sciences Core Curriculum

Required: Life Sciences 1, 2, 3, 4; Chemistry and Biochemistry 14A, 14B, 14BL, 14C, 14CL, and 14D, or 20A, 20B, 20L, 30A, 30AL, 30B, and 30BL; Mathematics 3A, 3B, and 3C, or 31A, 31B, and 32A; Physics 1A, 1B, 1C, 4A, and 4BL, or 6A, 6B, and 6C.

Each core curriculum course must be passed with a grade of C– or better, and all courses must be completed with an overall grade-point average of 2.0 or better. Students receiving a grade of D or F in two core curriculum courses, either in separate courses or repetitions of the same course, are subject to dismissal from the major.

Transfer Students

Transfer applicants to the Microbiology, Immunology, and Molecular Genetics major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one year of general biology with laboratory for majors, preferably equivalent to Life Sciences 1 and 2, one year of calculus, one year of general chemistry with laboratory for majors, and one semester of organic chemistry with laboratory. A second semester of organic chemistry or one year of calculus-based physics is strongly recommended but not required for admission.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/admin_tr.htm for up-to-date information regarding transfer selection for admission.

Students intending to major in Microbiology, Immunology, and Molecular Genetics may seek counseling and petition to enter the major in the Student Affairs Office, 1602A Molecular Sciences.

The Major

Required: Chemistry and Biochemistry 153A, Microbiology, Immunology, and Molecular Genetics 101, 101L, 185A; two laboratory courses from Chemistry and Biochemistry 153L, Microbiology, Immunology, and Molecular Genetics 102L, C120, 198C, 199B; one course from Microbiology, Immunology, and Molecular Genetics 102, 106, 159; and at least six upper division elective courses (22 units minimum) selected from the departmental list (available in the Student Affairs Office and at http://www.migm.ucla.edu). Sixteen of the 22 elective units must be departmental courses not already taken to fulfill a requirement.

Each major course must be taken for a letter grade of C– or better, with a minimum overall 2.0 grade-point average in the major.

Honors Program

Overall grade-point averages of 3.2 and 3.5 in the preparation for the major and major respectively are required to apply for departmental honors. In addition students must have junior standing and the sponsorship of a faculty adviser from the department. The core of the program consists of Microbiology, Immunology, and Molecular Genetics 198A, 198B, and 198C research, culminating in a thesis. If the thesis is accepted by the honors committee and students complete all major requirements with a GPA of at least 3.5, they are awarded the bachelor’s degree with departmental honors. The department also offers an honors seminar course each Winter Quarter that is required for the honors program. For further information, contact the Student Affairs Office, 1602A Molecular Sciences.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasa/library/pgmqrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Microbiology, Immunology, and Molecular Genetics offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Microbiology, Immunology, and Molecular Genetics.

Microbiology, Immunology, and Molecular Genetics

Lower Division Courses

6. Introduction to Microbiology. (4) Lecture, three hours; discussion, one hour. Recommended preparation: course 101 or Life Sciences 2. Not open for credit to students with credit for course 101 or Life Sciences 2. Designed for nontechnical students; introduction to biology of microorganisms (bacteria, viruses, protozoa, algae, fungi), their significance as model systems for understanding fundamental cellular processes, and their role in human affairs. P/NP or letter grading.

7. Developments in Biotechnology. (4) Lecture, three hours; demonstration/laboratory, one hour. Recommended preparation: course 6 or Life Sciences 2. Not open for credit to students with credit for course 101 or Life Sciences 3. Survey of recent developments in biotechnology, with emphasis on single-celled organisms. Review of basic principles of microbiology as they apply to biotechnology and examination of wide variety of topics, including alternate energy sources, pollution, cleanup, genetic fingerprinting, genetic engineering, and agricultural and food microbiology. P/NP or letter grading.

12. Biological Threats to Society: Bioterrorism and Emerging Infections. (4) Lecture, four hours. Examination of biological threats to American society. Coverage of biological weapons going back to first attempts to use microbes or toxins as weapons, and of emerging infections. Introduction to basic biology to understand infectious disease. P/NP or letter grading.

Upper Division Courses

102. Introductory Virology. (4) Lecture, three hours; discussion, one hour. Requisites: Life Sciences 3 and 4, with grades of C– or better. Recommended corequisites: course 202L, Biological properties of bacteria and animal viruses, replication, methods of detection, interactions with host cells and multicellular hosts. Letter grading.

103L. Laboratory Methods in Modern Microbiology and Immunology. (5) Lecture, two hours; laboratory, six hours. Requisites: Life Sciences 3, 4. Recommended requisite or corequisite: course 101. Practical exposure to modern laboratory methods and analytical techniques that are common to many disciplines, including bacteriology, virology, immunology, parasitology, genetics, genomics, and bioinformatics. Active use and application of scientific method while working collaboratively on interdisciplinary experiments and projects. Students should leave with ability to draw analogies between disciplines and choose most appropriate method to analyze problems within context of new topics. Letter grading.

212. Advanced Techniques in Microbiology. (4) Lecture, one hour; laboratory, six hours. Requisite: course 101L or 102L, with a grade of C or better. Introduction to current recombinant techniques. Experiments include PCR, cloning, and other recombinant techniques. DNA binding recombinant protein is purified from Escherichia coli and its ability to bind to DNA studied using gelshift assay. Introduction to protein/protein interaction using yeast two-hybrid system and to tissue culture techniques and transfection and expression of genes for human light and heavy chain antibody. Concurrently scheduled with course C220. Letter grading.

156. Human Genetics. (4) (Same as Human Genetics CM156 and Molecular, Cell, and Developmental Biology CM156.) Lecture, two hours; discussion, one hour. Requisites: Life Sciences 3, 4. Strongly recommended: Molecular, Cell, and Developmental Biology 100 or C139 or M140. Application of genetic principles in human populations, with emphasis on cytogenetics, biochemical genetics, population genetics, and family studies. Lectures and readings in literature, with focus on current questions in fields of medical and human genetics and methodologies appropriate to answer such questions. Concurrently scheduled with course CM256. Letter grading.

195. Advanced Molecular Genetics. (5) (Formerly numbered C159.) Lecture, three hours; discussion, two hours. Requisites: Chemistry 153A, Life Sciences 4. Integrated conceptual analysis of classical and modern molecular genetics of microbes, with coverage of key papers from elucidation of genetics code to present. Essential elements of experimental design, analysis of results, and scientific logic. Letter grading.

168. Molecular Parasitology. (4) (Formerly numbered C168.) Lecture, three hours; discussion, one hour. Requisites: Life Sciences 3, 4. Survey of parasite protozoa, not only as organisms that can attack man, but also as model systems for analysis of basic biological phenomena such as gene regulation, development, cell-cell interactions, molecular evolution, and novel biochemical pathways. Letter grading.

C174. Advanced Topics in Molecular Parasitology. (2) Lecture, two hours. Requisites: course C168, Life Sciences 3, 4. Examination of recent advances in molecular biology of parasites and host/parasite relationship. Specific topics include parasite development, antigenic variation in trypanosomes, RNA editing, prospects for parasitic vaccines. Concurrently scheduled with course C274. Letter grading.

185A. Immunology. (5) Lecture, three hours; discussion, 90 minutes. Requisites: Life Sciences 3, 4. Recommended prerequisites or corequisites: Chemistry 153A, 153L, Molecular, Cell, and Developmental Biology 100 or C139 or M140. Not open for credit to students with credit for course 261. Introduction to experimental immunobiology and immunochrometry; cellular and molecular aspects of humoral and cellular immune reactions. Letter grading.

191H. Honors Research Seminars: Microbiology, Immunology, and Molecular Genetics. (2) Seminar, two hours. Requisite or corequisite: course 198A or 198C. Letter grading.

193A. Journal Club Seminars: Microbiology, Immunology, and Molecular Genetics. (1) Formerly numbered E193D, Seminar, one hour. Limited to undergraduate students. Discussion of current literature, with focus on thesis topics/areas that students are working on as part of departmental honors requirements. One-hour presentation of student thesis research and current literature associated with it required. May be repeated for credit. Letter grading.

193B. Journal Club Seminars: Microbiology, Immunology, and Molecular Genetics. (1) Seminar, one hour. Limited to undergraduate students. Discussion of readings selected from current literature in microbiology, immunology, and molecular genetics field. P/NP grading.

194A. Research Group Seminars: Microbiology, Immunology, and Molecular Genetics. (1) Formerly numbered 194.) Seminar, one hour. Designed for undergraduate students who are part of research group in department faculty laboratory. Discussion of research methods and current literature in field of or relevant to research of faculty members or students. May be repeated for credit. P/NP grading.

C220. Advanced Techniques in Microbiology. (4) Lecture, one hour; laboratory, six hours. Requisite: course 101L or 102L, with a grade of C or better. Introduction to current recombinant techniques. Experiments include PCR, cloning, and other recombinant techniques. DNA binding recombinant protein is purified from Escherichia coli and its ability to bind to DNA studied using gelshift assay. Introduction to protein/protein interaction using yeast two-hybrid system and to tissue culture techniques and transfection and expression of genes for human light and heavy chain antibody. Concurrently scheduled with course C210. Letter grading.
CM222. Mouse Molecular Genetics. (2) (Same as Human Genetics CM222.) Lecture, two hours. Requisites: course CM156, Life Sciences 3, 4. Emphasis on use of mouse as a research tool to study fundamental biological questions. Topics include mouse genome and functional genomics, mutation and cloning of disease genes, transgenic and knock-out mice, and their application to developmental biology, stem cell biology, neurobiology, and modeling human genetic disorders. Reading materials include original papers and reviews. Concurrently scheduled with course CM122. S/U or letter grading.

M229. Molecular Mechanisms of Host/Pathogen Interaction. (4) (Same as Pathology M229.) Lecture, two hours; discussion, two hours. Requisite: Biologi cal Sciences CM156, or equivalent. The course approaches microbiological interactions with eukaryotic host cells that result in disease or pathogen survival. Topics include pathogenesis of common viruses, bacteria, fungi, and parasites, basis of toxic infection, cellular damage, and immune suppression of microbial tissue damage. Letter grading.

CM233. Frontiers in Biotechnology. (4) (Formerly numbered C233.) (Same as Management CM276.) Lecture, two hours; discussion, two hours; laboratory, one hour. Requisites: Chemistry 133A or 133B, or Life Sciences 3 and 4, with grades of B or better. Integration of science and business in biotechnology. Coevolution with pharmaceutical, agricultural, and other key industries, therapeutics, crop improvement, devices, and other industry sectors. Academic research leading to licensing and founding of companies that turn research breakthroughs into marketable products. Stages of product discovery and development. Staged financing and growth: private offerings, public offerings, deals, collaborations, outsourcing. Intellectual property, regulation, pricing, profits, risks, public perception. Building value, exit strategies, mergers and acquisitions. Concurrently scheduled with course CM133. S/U or letter grading.

C234. Ethics and Accountability in Biomedical Research. Two hours. Design for graduate students and undergraduates who have credit for life sciences or biomedical individual studies 199 course. Responsibilities and ethical conduct of investigators in group research. Current standards. Overview of current research on ethics in biotechnology and other systems. Self-assessment and ethical analysis. Letter grading.

M240. Cytokines and Reproductive Biology. (2) (Same as Molecular, Cell, and Developmental Biology M240.) Lecture, 90 minutes; discussion, one hour. Overview of cytokines in research and in other immune system molecules in reproductive biology. S/U or letter grading.

242. Seminar: Microbial Molecular Genetics. (2) Seminar, two hours. Student and instructor presentations and critical discussion of newly emerging concepts in prokaryotic and eukaryotic molecular genetics. Emphasis on nature of the gene and control of gene expression. May be repeated for credit. S/U or letter grading.

244. Research Ethics Seminar. (2) Seminar, two hours. Designed for students supported by UCLA Predoctoral Training Program in Genetic Mechanisms and required of all trainees in two of their three years of support. Examination of prominent cases of scientific fraud through analysis and formal discussion. Faculty and students from School of Law may be invited to participate. S/U grading.

250. Seminar: Microbial Metabolism. (2) Seminar, two hours. Discussion and student presentations of recent work in areas of genetic regulation and physiology of bacterial metabolism. S/U or letter grading.

CM256. Human Genetics. (4) (Same as Human Genetics CM256 and Molecular, Cell, and Developmental Biology CM256.) Lecture, three hours; discussion, two hours. Requisites: Life Sciences 3, 4. Strongly recommended: Molecular, Cell, and Developmental Biology 100 or C139 or M140. Application of genetic principles in human populations, with emphasis on control of human genetics, biochemical genetics, population genetics, and family studies. Lectures and readings in literature, with focus on current questions in fields of medical and human genetics and methodologies appropriate to answer such questions. Concurrently scheduled with course CM156. Independent research project required of graduate students. Letter grading.

261. Molecular and Cellular Immunology. (4) (Formerly numbered M261.) Lecture, four hours. Requisite: Biological Chemistry CM253. Strongly recommended corequisite: course 298. Comprehensive course for graduate students and selected undergraduate students covering fundamentals and recent advances in molecular and cellular immunology. Lectures supplemented by course 298 seminar, with focus on reading and analysis of primary research articles. Oral presentation required. S/U or letter grading.

262A-262B-262C. Seminars: Current Topics in Immunobiology of Cancer. (2-2-2) Seminar, two hours. Designed for graduate students (or undergraduate students with consent of instructor). Review of recent literature in immunobiology, biology, and biochemistry of cancer, with emphasis on fundamental studies involving cell-mediated immunity, humoral response, tumor specific antigens, and new techniques. Discussion of reports on scientific meetings. Each course may be repeated for credit. S/U or letter grading.

270. Seminar: Molecular Virology. (2) Seminar, two hours. Designed for graduate students. Discussion and student presentations of recent work in molecular virology, including viral gene expression and function. S/U grading.

274. Advanced Topics in Molecular Parasitology. (2) Lecture, two hours. Requisites: course C268, Life Sciences 3, 4. Examination of recent advances in molecular biology of parasites and host-parasite relationship. Specific topics include parasite development, antigenic variation in trypanosomes, RNA editing, prospects for parasitic vaccines. Concurrently scheduled with course C174. Letter grading.

296. Seminar: Research Topics in Microbiology, Immunology, and Molecular Genetics. (1 to 4) Seminar, two hours; research, one hour. Limited to departmental graduate students. Advanced study and analysis of current topics in microbiology, immunology, and molecular genetics. Discussion of current research and literature in research specialty of faculty member teaching course. S/U grading.

298. Current Topics in Microbiology, Immunology, and Molecular Genetics. (2) Seminar, two hours. Strongly recommended corequisite: course 261. Presentation of student oral critiques and participation in discussions on assigned topics. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice period in teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Preparation for Teaching Microbiology in Higher Education. (2) Seminar/discussion/laboratory, two hours. Designed for graduate students. Study of problems and methodologies in teaching microbiology, including workshops, seminars, preparation, teaching, and peer observation. S/U or letter grading.

Michael G. Morony, Ph.D. (History)
Steven D. Nelson, Ph.D. (Art History)
Willemina Z. Wendrich, Ph.D. (Near Eastern Languages and Cultures)

## Scope and Objectives

The major and minor in Middle Eastern and North African Studies (MENAS) offer in-depth knowledge and specialized study of this geographic region, its peoples, and its cultures from the end of antiquity to the present. The program also explores the role and influence of this rich cultural heritage around the world. A strong foundation in history is complemented by a wide selection of courses from art history, geography, Near Eastern languages and cultures, political science, and sociology.

The graduate major in this discipline is called Islamic Studies. For details, see the program by that name earlier in this section.

### Undergraduate Study

#### Middle Eastern and North African Studies B.A.

**Preparation for the Major**

*Required:* The first-year course in Arabic, Armenian, Hebrew, Persian, or Turkish, or the equivalent level of proficiency as determined by admission into a second-year language course (other languages may be substituted by petition); History 9D; and three lower division courses (at least 12 units) with Middle Eastern or North African content selected from Anthropology 8, 9, Comparative Literature 1A, 1B, 1C, 1D, Economics 1, 2, Ethnomusicology 20B, 91L, 91N, Geography 3, History 20, 21, 22, Near Eastern Languages 50A, 50B, 50C, Political Science 20, 50, Sociology 1. Other
courses may be substituted by petition, but only with advance approval.

To enter the major, students must be in good academic standing (minimum overall 2.0 grade-point average), have completed 45 units and the requirements for the Preparation for admission. To enter the minor, students must have an overall grade-point average of 2.0 or better, have completed 45 units, and file a petition with the academic counselor, 10357 Bunche Hall.

Transfer Students
Transfer applicants to the Middle Eastern and North African Studies major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one course in Middle Eastern and North African history and three additional courses with relevant content (eligibility of courses to be determined at the introductory counseling meeting).

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: At least 11 upper division courses as follows: (1) three courses at the intermediate or advanced level or the equivalent in the Middle Eastern language taken in lower division, or the equivalent level of proficiency as determined by a departmentally administered examination, (2) History 105A, 105B, 105C, and (3) five elective courses, including courses in three different departments and two courses in a single department, to be selected from Anthropology 176, Art History 104A, 104B, C104C, 105E, Economics 110, 111, 112, 120, Ethnomusicology 161L and 161N (both must be taken to equal one 4-unit course), French 121, 160, Geography 135, 187, History, 108A, 116A, 116B, 164B, 164C, or 167A must be included) and two courses with specific Middle Eastern or North African content. Courses must be selected from Anthropology 176, Art History 104A, 104B, C104C, 105E, Economics 110, 111, 112, 120, Ethnomusicology 161L and 161N. Other courses may be substituted by petition, but only with advance approval.

No more than 8 to 10 units (two courses) may be applied toward both this major and a major or minor in another department or program. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Middle Eastern and North African Studies Minor
The Middle Eastern and North African Studies minor allows students to select from a broad range of courses in various departments to develop professional and methodological skills with area expertise. The minor enables students with an interest in the region to add dimension to their programs.

To enter the minor, students must have an overall grade-point average of 2.0 or better, have completed 45 units, and file a petition and seek counseling with the academic counselor, 10357 Bunche Hall.

Required Lower Division Courses (8 units): History 9D and one course selected from Anthropology 8, 9, Comparative Literature 1A, 1B, 1C, 1D, Economics 1, 2, Ethnomusicology 20B, 91L, 91N, Geography 3, History 20, 21, 22, Near Eastern Languages 50A, 50B, 50C, Political Science 20, 50, Sociology 1.

Other courses may be substituted by petition, but only with advance approval.

No more than 8 to 10 units (two courses) may be applied toward both this minor and a major or minor in another department or program. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.
Scope and Objectives

The Department of Molecular and Medical Pharmacology has basic and clinical components in which students have opportunities to develop intellectually and experimentally in basic biological sciences placed in the context of human disease. The department conducts integrative teaching and research programs that begin with molecular interactions and extend to studies of diseases and their treatment in humans. Departmental investigators study the biochemistry and pharmacology of drugs, gene expression and its regulation, signal transduction processes, cell-to-cell communication, viral replication and pathogenesis, autoimmune disease, neuronal development and plasticity, and integrated organ functions using techniques of chemistry and structural biology, DNA microarrays, molecular and cell biology, transgenic and chimeric mice, and cellular and organ imaging. Organic synthesis, genetic engineering, and imaging techniques such as confocal fluorescent and cryoelectron microscopy, autoradiography, and positron emission tomography (PET) are extensively employed. The imaging techniques are available in the Crump Institute for Molecular Imaging, Ahmanson Biological Imaging Clinic, and UCLA-DOE Laboratory of Structural Biology and Molecular Medicine, which are affiliated with the department.

Graduate Degrees

The Department of Molecular and Medical Pharmacology offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Molecular and Medical Pharmacology.

The department also offers two M.D./Ph.D. programs concurrently with the School of Medicine. One is the Medical Scientist Training Program (MSTP) in which candidates are medical students that have been accepted into MSTP by the School of Medicine in order to qualify. The second is the Specialty Training and Advanced Research (STAR) Program in which candidates are post-M.D. housestaff (interns, residents, or fellows) who have been accepted into the STAR Program by its selection committee in order to qualify.

The department, together with the Division of Laboratory Animal Medicine, offers Ph.D. or postdoctoral training combined with residency training for veterinarians (with D.V.M. or D.V.M./Ph.D. degrees) in the Veterinary Investigator in Scientific Training and Advancement (VISTA) program.

Note: There is no degree program in pharmacy at UCLA.

Molecular and Medical Pharmacology

Upper Division Courses

M110A. Drugs: Mechanisms, Uses, and Misuse. (4) (Same as Molecular Toxicology M110A.) Lecture, four hours (seven weeks); discussion, four hours (three weeks). Requisites: Life Sciences 2, 3. Course M110A is requisite to 110B. Introduction to pharmacology and toxicology for undergraduate students, emphasizing drug development and mechanisms of action of drugs and toxic agents. Letter grading.

110B. Drugs: Mechanisms, Uses, and Misuse. (4) Lecture, four hours (seven weeks); discussion, four hours (three weeks). Requisites: course M110A. Life Sciences 2, 3. Introduction to pharmacology for undergraduate students, emphasizing principles underlying mechanism of action of drugs, their development, control, rational use, and misuse. Letter grading.

199. Directed Research in Molecular and Medical Pharmacology. (2 to 8) Tutorial, three hours per week per unit. Limited to juniors/seniors. Supervised individual research under guidance of faculty mentor. Special studies in pharmacology, including either reading assignments or laboratory work or both, designed for proper training of students. CULMINATING PAPER OR PROJECT REQUIRED. MAY BE REPEATED FOR CREDIT. INDIVIDUAL CONTRACT REQUIRED. P/NP OR LETTER GRADE.

Graduate Courses

200. Introduction to Laboratory Research. (4 to 8) Laboratory, eight to 16 or 20 hours. Individual projects in laboratory research for beginning graduate students. At end of first term, students submit to their supervisor reports covering research performed. Pharmacology graduate students must take this course three times during their first two years in residence. S/U or letter grading.

203. Medical Pharmacology. (2) Lecture, zero to two hours; discussion, zero to two hours. Requisites: courses 211A, 211B. Series of lectures and case presentations designed to illustrate principles of pharmacology in a clinical context, and solution of practical therapeutics by reference to pharmacokinetics, mechanisms of action, and disposition of drugs. S/U or letter grading.

M205A. Introduction to Chemistry of Biology. (3) (Formerly numbered M205.) (Same as Chemistry M205A.) Lecture, three hours. Chemical biology teaching language and techniques of biology. Structure of biological molecules, kinetics and thermodynamics of biological systems, catalysis and electron transfer, genomics, proteomics, and metabolomics. S/U or letter grading.

M205B. Issues on Chemistry/Biology Interface. (2) (Same as Chemistry M205B.) Seminar, one hour. Requisite: course M205A. Selected talks and papers presented by training faculty on solving problems and utilizing tools in chemistry and molecular biology on chemistry/biology interface (CBI). S/U grading.

211A-211B. Principles of Pharmacology. (4-2) Lecture, three to eight hours; discussion, zero to nine hours. Preparation: mammalian physiology, biochemistry. Systematic considerations governing interaction between drugs and biological systems and of principal groups of drugs used in therapeutics. Particular attention on modes of action, pharmacokinetics, and disposition to provide a scientific basis for their rational use in medicine. S/U or letter grading.

M234C. Laboratory in Toxicological Methods. (2) (Same as Environmental Health Sciences M234 and Molecular Toxicology M234.) Lecture, one hour; laboratory, four to five hours. Survey of experimental techniques used in study of toxic substances. Experiment conducted within known toxin to demonstrate its effects at molecular, cellular, and tissue levels. Presentation of principles of techniques and methods of data analysis at discussion session prior to laboratory. Letter grading.

237. Research Frontiers in Cellular and Molecular Pharmacology. (8) Lecture, 10 hours; laboratory, 30 hours total. Detailed examination of principles of pharmacology and mechanisms of drug action at organismal, tissue, cellular, and molecular levels, with emphasis on receptors, receptor/effector coupling, neurotransmitters, cardiovascular pharmacology, autonomic and central nervous system pharmacology. S/U or letter grading.

M241. Introduction to Chemical Pharmacology and Toxicology. (6) (Same as Molecular Toxicology M241.) Lecture, six hours. Preparation: organic and biological chemistry. Designed for molecular and medical pharmacology students. Introduction to general principles of pharmacology. Role of chemical properties of drugs in their distribution, metabolism, excretion, and modes of action. S/U or letter grading.

M248. Introduction to Biological Imaging. (4) (Same as Biomedical Engineering M248 and Biomedical Physics M248.) Lecture, three hours; laboratory, one hour; outside study, seven hours. Exploration of role of biological imaging in modern biology and medicine, including imaging physics, instrumentation, image processing, and applications of imaging for range of modalities. Practical techniques provided through series of imaging laboratories. Letter grading.

251. Seminar: Pharmacology. (2) Seminar presented by students, faculty, and guest lecturers on a variety of topics. S/U grading.
Molecular Biology

Molecular Biology Graduation Program

Interdepartmental Program

Sabeela Merchant, Ph.D., Chair

Faculty Advisory Committee

Peter J. Bradley, Ph.D. (Microbiology, Immunology, and Molecular Genetics)
Michael F. Carey, Ph.D. (Biological Chemistry)
Guillaume F. Charifreux, Ph.D. (Chemistry and Biochemistry)
Jau-Nian Chen, Ph.D. (Molecular, Cell, and Developmental Biology)
Albert J. Courey, Ph.D. (Chemistry and Biochemistry)
Christopher T. Denny, M.D. (Pediatrics)
Sabeela Merchant, Ph.D. (Chemistry and Biochemistry)
Peter Tontonoz, M.D., Ph.D. (Pathology and Laboratory Medicine)
Geraldine A. Weinmaster, Ph.D. (Biological Chemistry)

Scope and Objectives

The Ph.D. in Molecular Biology is offered under the supervision of an interdepartmental committee. The Molecular Biology Institute serves this committee and the various departments concerned in support of faculty research and teaching associated with the Ph.D. program. Staff members are from participating departments and from the Molecular Biology Institute. Areas for study include cell biology; developmental biology and neurobiology; nucleic acid biochemistry; gene regulation; immunobiology; microbiology/virology and pathogenesis; molecular evolution and paleobiology; oncogenes and signal transduction; plant molecular biology; protein and enzyme structure and function; genomics; bioinformatics; and structural biology.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgdmgrinintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree

The Molecular Biology Program offers the Doctor of Philosophy (Ph.D.) degree in Molecular Biology.

Molecular Biology Graduate Course

298. Current Topics in Molecular Biology. (2) Student presentation/seminar, two hours. Students present oral critiques and participate in discussions on assigned topics. S/U grading.

Kenneth A. Feldman, Ph.D.
Richard B. Flavell, Ph.D.

Adjunct Assistant Professor

Roger I. Pennell, Ph.D.
Scope and Objectives
The revolution in modern biology that began with the elucidation of the structure of DNA by Watson and Crick in the 1950s has had a profound effect not only on biological research, but on the way biology is taught as a subject. The field of biology spawned by this discovery, generally called molecular biology, has provided an entirely new framework within which to approach questions in cell and developmental biology. The specializations, both technical and conceptual, demanded by this field have led to the growth of molecular biology and its related disciplines into an essentially separate branch of scientific inquiry.

Students who complete the requirements for the Bachelor of Science degree in Molecular, Cell, and Developmental Biology are exceptionally well prepared to pursue careers in cellular and subcellular biological research, biomedical research, or medicine or allied health fields. The degree combines essential background studies in mathematics, chemistry, and physics with a general introduction to all of the biological subjects, as well as in-depth exposure to key topics in molecular, cell, and developmental biology. The Ph.D. degree provides opportunity for advanced concentrated study and requires independent and innovative research that ultimately results in publishable dissertation materials.

Undergraduate Study
Molecular, Cell, and Developmental Biology B.S.

The Bachelor of Science degree in Molecular, Cell, and Developmental Biology (MCDDB) is designed especially for students who intend to go on to postgraduate work in biology or medicine and for students aiming for entry-level positions in biotechnology-related fields. Students are exposed to basic biological and molecular concepts underlying recent technical advances in molecular, cell, and developmental biology of animals and plants. Areas of emphasis include cell biology, immunology, molecular biology, plant biology, developmental biology, and neurobiology, among others.

Preparation for the Major
Life Sciences Core Curriculum

Required: Life Sciences 1, 2, 3, 4; Chemistry and Biochemistry 14A, 14B, 14BL, 14C, 14CL, and 14D, or 20A, 20B, 20L, 30A, 30AL, 30B, and 30BL; Mathematics 3A, 3B, and 3C, or 31A, 31B, and 32A; Physics 1A, 1B, 1C, 4AL, and 4BL, or 6A, 6B, and 6C.

Each core curriculum course must be passed with a grade of C– or better, and all courses must be completed with an overall grade-point average of 2.0 or better. Students receiving grades below C– in two core curriculum courses, either in separate courses or repetitions of the same course, are subject to dismissal from the major.

Transfer Students
Transfer applicants to the Molecular, Cell, and Developmental Biology major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one year of general biology with laboratory for majors, preferably equivalent to Life Sciences 1 and 2, one year of calculus, one year of general chemistry with laboratory for majors, and one semester of organic chemistry with laboratory. A second semester of organic chemistry or one year of calculus-based physics is strongly recommended but not required for admission.

Transfer students must refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Required Courses: Chemistry and Biochemistry 153A, 153L, Molecular, Cell, and Developmental Biology M140 or 165A, 104, 138 or C141, 144 or 165B. Credit for a maximum of two upper division developmental biology courses may be applied toward the major requirements — the first as a required course and the second as elective units. Due to content overlap, students with credit for both courses 165A and 165B cannot receive major credit for course M140.

Electives: At least 20 upper division elective units, of which at least 10 must be in courses offered by the department. Any upper division departmental course, except Molecular, Cell, and Developmental Biology 100, 190A, 190B, 190C, 192A, 192B, 193, 194A, 194B, or 199, is acceptable. The following courses outside the department may be taken to satisfy a maximum of 10 units in this category: Biological Chemistry CM153G, Biomathematics 160 or Biostatistics 100A or Statistics 100A, Chemistry and Biochemistry 153C, 156, C159A, C159B, CM160A, Ecology and Evolutionary Biology 110, 121, 146, 162, Human Genetics C144, Life Sciences 100HA or 100HB or 100HC, Microbiology, Immunology, and Molecular Genetics 101, 102, 106, 159, 168, C174, 185A, Physiological Science C126, 166.

Laboratory: At least 4 units of upper division laboratory experience selected from Chemistry and Biochemistry 154, Ecology and Evolutionary Biology M158, 162, Life Sciences 100HA or 100HB or 100HC, 187A, Microbiology, Immunology, and Molecular Genetics 101 and 101L (both courses must be taken), 102 and 102L (both courses must be taken), Molecular, Cell, and Developmental Biology 120L, 155, 198A through 198D, 199, 199A through 199D, Physiological Science 166.

A maximum of 12 units of Molecular, Cell, and Developmental Biology 198A through 198D or 199A through 199D and no more than one course from 199 may be applied toward the major. Credit for 199 courses from other departments may not be applied except by petition.

Any single course may be applied toward only one category within the major (e.g., course C141 may be applied toward the required or elective category but not toward both).

Each course applied toward requirements for preparation for the major and the major must be taken for a letter grade. Majors must earn a C– or better in each preparation for the major course, and at least a 2.0 (C) overall average in all courses applied toward the major.

Honors Program

Admission

The honors program provides exceptional Molecular, Cell, and Developmental Biology and Plant Biotechnology majors with the opportunity to do research culminating in an honors thesis. Junior and senior majors who have completed all university-level coursework, including all preparation courses and requirements for the major with an overall grade-point average of 3.0 or better and a 3.5 GPA or better in the required major courses, may apply for admission to the honors program. Students must have the sponsorship of an approved faculty adviser.

For further information and application forms, students should consult the Student Affairs Office, 2128 Life Sciences, early in their educational planning. Completed applications should be submitted at least two weeks prior to the term in which students plan to begin the honors program.

Requirements

The core of the program consists of at least one approved undergraduate seminar course from Molecular, Cell, and Developmental Biology 191 and three research courses (12 units minimum) from 198A, 198B, and 198C, culminating in a thesis.

To qualify for graduation with honors, students must satisfactorily complete all requirements for the honors program and the major and obtain at least an overall 3.0 grade-point average and a 3.5 GPA or better in coursework required for the major. On recommendation by the faculty sponsor and with approval of the thesis by the departmental honors committee, students are awarded no honors, departmental honors, or highest departmental honors.

At the discretion of the departmental honors committee, students who have (1) a GPA of 3.6 or better, both overall and in the major and (2) demonstrated exceptional accomplishment on the research thesis are awarded highest departmental honors.

Computing Specialization

Majors in Molecular, Cell, and Developmental Biology may select a specialization in Computing by (1) satisfying all the requirements for a bachelor’s degree in the major, (2) completing Program in Computing 10A, 10B, 10C, 30, and 60, and (3) completing one course from Computer Science CM186B or Ecology and Evolu-
tionary Biology C159. A grade of C− or better is required in each course, with a combined grade- point average in the specialization of at least 2.0. Students must petition for admission to the program and are advised to do so after completing Program in Computing 10B (petitions should be filed in the Student Affairs Office). Students graduate with a bachelor's degree in their major and a specialization in Computing.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gsaaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Molecular, Cell, and Developmental Biology offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Molecular, Cell, and Developmental Biology.

Molecular, Cell, and Developmental Biology

Lower Division Courses

40. AIDS and Other Sexually Transmitted Diseases. (5) Lecture, five and one-half hours; experimental service learning, 30 minutes. Introduction to interdisciplinary debate surrounding personal and societal response to AIDS and other sexually transmitted diseases. P/NP or letter grading.

50. Stem Cell Biology, Politics, and Ethics: Teasing Apart Issues. (5) Lecture, three and one-half hours; discussion, 90 minutes. Development of biology of various types of human stem cells. Important functional differences between embryonic, hematopoietic, and adult stem cells, as well as differences in their biomedical potentials. Discussion of history of debate surrounding embryonic stem cells as various social, ethical, political, and economic aspects of stem cell research. P/NP or letter grading.

60. Biomedical Ethics. (5) Lecture, three hours; discussion, one hour. Examination of importance of ethics in research and exploration of how and why bioethics is relevant to reproductive screening, policy formulation, public regulation, and law. Provides foundation in traditional ethics, consideration of sub-categories of bioethics, neuroethics, and eugenics, and how to apply ethics to contemporary issues in research and technology. P/NP or letter grading.

70. Genetic Engineering and Society. (4) Lecture, three hours; discussion, one hour. Designed for nonmajors. Not open to students with credit for Life Sciences 3 or 4. Basic principles of genetic engineering. Overview of genetic engineering techniques and relationship of genetic engineering to medicine, agriculture, and society. Emphasis on specific genetic engineering applications to generate discussions on its use in society. Letter grading.

80. Green World: Plant Biology for Now and Future. (5) Lecture, two and one-half hours; laboratory, two hours. Designed for nonmajors. Basic principles of plant biology and introduction to techniques for manipulating plants for improved agriculture, sources of renewable clean energy, reclamation of deforested and nutritionally depleted soils, and biological factories to produce biodegradable plastics, antibodies, and other commodities. Underexploited agriculture crops also featured. P/NP or letter grading.

M97X. PEERS Forum: Pathways in Science. (1) Formerly numbered 97A. (Same as Chemistry M97X.) Lecture, one hour. Limited to students in Program for Excellence in Education and Research in Sciences (PEERS). Series of lectures and workshops to acquaint students with practice of science, opportunities available to participate in research as undergraduates, and careers available to graduates with science degrees. May be repeated twice, but only 1 unit may be applied toward graduation. P/NP grading.

Upper Division Courses

100. Introduction to Cell Biology. (5) Lecture, three hours; discussion, one hour. Enforced requisites: Life Sciences 3, 4. Enforced corequisite: Chemistry 153A. Not open for credit to Molecular, Cell, and Developmental Biology majors or to students with credit for courses M140 or M165A. Analysis of cell organization, structure, and function at molecular level. Cell membrane and organelles, membrane transport, cellular signaling, cytoskeleton and cell movement, intracellular trafficking, cell energetics. Letter grading.

104. Cell and Molecular Biology Laboratory. (5) Lecture, two hours; discussion, one hour; laboratory, eight hours. Enforced requisites: Life Sciences 3, 4. Limited to departmental majors. Introduction to methods in molecular biology include purification, manipulation, and analysis of DNA, RNA, and protein. Emphasis on computer science analysis and use of current literature. May not be repeated for credit. Letter grading.

120. Introduction to Plant Biology. (4) Lecture, three hours; discussion, two hours. Requisites: Life Sciences 3, 4. Introduction to plant biology as well as to concepts and techniques in molecular biology and genetics. Letter grading.

120L. Introduction to Plant Biology Laboratory. (4) Laboratory, four hours. Enforced requisites: Life Sciences 3, 4. Enforced corequisite: course 120. Introductory plant biology and genetics has hands-on experience doing experiments and making their own observations about plant biology. Letter grading.

141. Molecular Basis of Plant Differentiation and Development. (5) Lecture, three hours; discussion, one hour. Requisites: Life Sciences 1, 3, 4. In-depth study of basic processes of growth differentiation and development in plants and molecular mechanisms underlying these processes. Discussion of variety of plant systems, with focus on developing critical understanding of current experimental basis of research in this field. Concurrently scheduled with course C239. Letter grading.

143. Developmental Biology: Genetic Control of Organogenesis. (5) Lecture, three hours; discussion, one hour. Requisites: courses 138, 139, 140, Life Sciences 3, 4. Cellular and molecular basis of animal embryology, with primary emphasis on vertebrate organ development, but including pertinent material from Drosophila and other invertebrate model organisms. Letter grading.

144. Molecular Biology of Viruses. (2) Lecture, three hours; discussion, one hour. Requisites: Life Sciences 3, 4. Not open for credit to students with credit for Chemistry 135B or Ecology and Evolutionary Biology 121. Structure of genes and chromosomes, prokaryotic and eukaryotic replication and transcription; repair and recombination; RNA processing. Letter grading.

C150. Plant Chemical and Molecular Communication. (4) Lecture, three hours; discussion, one hour. Preparation: completion of life sciences core curriculum. Introductory course in chemical ecology and how natural compounds affect gene expression. Emphasis on role of natural compounds in plant/microbe, plant/ plant, and plant/arthropod interactions; synopsis of principles of plant defense mechanisms and responses to microbial infections. Concurrently scheduled with course C250. P/NP or letter grading.

CM156. Human Genetics. (4) (Same as Human Genetics CM156 and Microbiology CM156.) Lecture, three hours; discussion, three hours; laboratory, three hours. Requisites: Life Sciences 3, 4. Strongly recommended: course 100 or C139 or M140. Application of genetic principles in human populations, with emphasis on cytogenetics, biochemical genetics, population genetics, and family studies. Lectures and readings in literature, with focus on current questions in fields of medical and human genetics and methodologies appropriate to answer such questions. Concurrently scheduled with course CM256. Letter grading.

CM160. Biological Catalysis. (4) (Same as Chemistry CM160.) Lecture, four hours. Requisites: course 100 or C139 or M140, Chemistry 110A, 153A, 153B, Life Sciences 3. Reaction mechanisms in molecular biology; experimental approaches for study of enzymes, including kinetics, isotopic labeling, stereochemistry, chemical genetics, population genetics, and family studies. Lecture and discussion. Letter grading.

165A. Biology of Cells. (5) Lecture, three hours; discussion, one hour. Requisites: Chemistry 14D or 30B, Life Sciences 3. Molecular basis of cellular structure and function, with focus on each individual cellular organelle, as well as interaction of cells with extracellular environment and with other cells. Material presented in context of experimental questions and answers to incorporate concept of scientific method and recent advances in cell biology research. Exposure to discussions to recent scientific articles that directly relate to information examined in lectures. Letter grading.
165B. Molecular Biology of Cell Nucleus. (5) Lecture, three hours; discussion, two hours. Requisites: course 165A, Chemistry 143D or 208B, Life Sciences 3, 4, 4B, or 144B, 165B, or Molecular, Cell, and Developmental Biology CM174A. Molecules model of eukaryotic cell nucleus, with focus on structure, organization, replication, and repair of eukaryotic genome; eukaryotic gene expression, including transcription, translation, and transport; cell cycle and cancer. Study of advanced specialized topics to allow integrated approach to molecular cell biology. Material presented in context of experimental questions and answers to incorporate concept of scientific method and recent advances in cell biology research. Exposure in discussions to current literature that directly relates to information examined in lectures. Letter grading.

168. Stem Cell Biology. (5) Lecture, three hours; discussion, one hour. Enforced requisites: courses 138, 165A. Strongly recommended: courses 143, 165B (or Microbiology C132). State-of-art education of embryonic and adult stem cells and how these pluripotent/multipotent cells can be used to treat congenital defects, diseases, or injury in humans. Review of current knowledge of human and mouse embryonic stem cells and how they develop into various tissue types. Discussion of adult stem cells in hematopoietic, nervous, and other organ systems to provide examples of tissue-specific stem cells and their impact in humans. Examples of various individual organisms as examples of how model organisms have helped to discover fundamental principles in stem cell biology. How advances in cell and molecular biology and tissue engineering can be applied to use of stem cells in regenerative medicine. Ethical and legal issues related to stem cell research. Letter grading.

171. Principles of Neurobiology. (4) Lecture, three hours; discussion, one hour. Enforced requisite: Life Sciences 3. Strongly recommended: course 100 or 140 or 165A. Not open for credit to students with credit for course M175A (or Neuroscience M101A, Psychological Science M180A, or Psychology M117A). Lecture, three hours; discussion, two hours. Requisites: course 165A, Molecular biology of neurons and nerve tissues; ion conductances responsible for generating membrane potentials, action potentials, and synaptic potentials; properties of synaptic generating membrane potentials, action potentials, and synaptic potentials; properties of synaptic generating membrane potentials, action potentials, and synaptic potentials. Study of advanced specialized topics to allow integrated approach to molecular cell biology. Material presented in context of experimental questions and answers to incorporate concept of scientific method and recent advances in cell biology research. Exposure in discussions to current literature that directly relates to information examined in lectures. Letter grading.

172. Genomics and Bioinformatics. (5) Lecture, three hours; discussion, one hour. Requisite: course 144 B or 165B or Microbiology C132. Genomics is study of complete repertoire of molecules in cells. Topics include human and yeast genomes and genetic approaches to study of function of individual genes, fundamental bioinformatics algorithms used to study relationships between nucleotide and protein sequences and reconstruction of their evolution, use of microarray technologies to measure changes in gene expression, analysis of microarray data including clustering and promoter analysis, proteomics topics including protein expression and interactions, epigenetic study of DNA methylation and chromatin modification, and systems biology, or computational approaches to analyze genomic data to gain more complete understanding of cellular biology. Letter grading.

C174A. Molecular Evolution. (2) Lecture, two hours. Requisites: courses 100 or C139 or M140, 144, Life Sciences 4. Current developments in field of molecular evolution. Constructing evolutionary trees at molecular level; falsification of hypotheses using sequencing data. Letter grading.

M175A. Cellular and Systems Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisites: Chemistry 144C (or taken concurrently), Life Sciences 2, Physics 1B or 1BH or 6B or 6BH. Not open for credit to students with credit for Psychology 111A. For Psychological Science majors only, grade of C– or better is required to proceed into Psychological Science 111B. Cellular neurophysiology, membrane potential, action potentials, and synaptic transmission. Sensory systems and motor systems; how assemblies of neurons process complex information and control movement. P/NC or letter grading.

M175B. Molecular and Developmental Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisites: course M175A (or Neuroscience M101A or Psychological Science M180A or Psychology M117A) or Psychological Science 111A or Psychology 115, Life Sciences 3. Molecular biology of channels and receptors; focus on voltage dependent channels and neurotransmitter receptors. Molecular biology of supramolecular mechanisms: synaptic transmission, axonal transport of vesicles. Classical experiments and modern molecular approaches in developmental neurobiology. P/NC or letter grading.

M175C. Behavioral and Cognitive Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisite: course M175A (or Neuroscience M101A or Psychological Science M180A or Psychology M117A) or Psychological Science 111A or Psychology 115. Neural mechanisms underlying motivation, learning, and cognition. P/NC or letter grading.

M181. Biological Bases of Psychiatric Disorders. (4) (Formerly numbered M191.) (Same as Neuroscience M130, Psychological Science M181, Psychiatry M175A, and Psychological Science M175A.) Lecture, four hours; discussion, two hours. Requisite: course M175A (or Neuroscience M101A or Psychological Science M180A or Psychology M117A) or Psychological Science 111A or Psychology 115. Understanding of brain systems underlying psychiatric symptoms and neurological disorders, including schizophrenia, depression, bipolar disorder, obsessive-compulsive disorder. Providing understanding of brain dysfunctions that contribute to disorders and rationales for pharmacological treatments. P/NC or letter grading.

190A-190B-190C. Joint Research Colloquia. (1-1-1) Seminar, one hour. Limited to Corequizes: Molecular, Cellular, and Developmental Biology majors. Designed to bring together students undertaking supervised tutorial research in model systems in joint laboratory settings. May be repeated for credit. Limited to juniors/seniors. Not open for credit to students with credit for Physiological Science 111A or Psychology M117A (or Neuroscience M101A). Introduction to basic principles of neurobiology, and cognition. P/NP or letter grading.

199A or 199B or 199C. Journal Club Seminars: Molecular, Cellular, and Developmental Biology. (1) Seminar, two hours. Recommended for junior/senior department majors. Designed for students with strong commitment to pursue graduate studies in molecular, biochemical, physiological, and biomedical fields. Weekly variable topics course with reading, discussion, and presentations of papers selected from current literature. May be repeated once for credit. P/NC or letter grading.

192A. Undergraduate Practicum in Molecular, Cellular, and Developmental Biology. (4) Seminar, three hours. Offered in Spring semester. Limited to Corequizes: Molecular, Cellular, and Developmental Biology majors. Training and supervised practicum for advanced undergraduate students. Students assist in preparation of materials and development of innovative programs under guidance of faculty members in small course settings. Intended for students with strong commitment to pursue graduate studies in molecular, biochemical, physiological, and biomedical fields. Weekly variable topics course with reading, discussion, and presentations of papers selected from current literature. May be repeated once for credit. P/NC or letter grading.

192B. Undergraduate Practicum: CityLab. (2) Seminar, two hours. Limited to juniors/seniors in any life sciences major. CityLab training and supervised practicum for advanced undergraduate students. Students assist in preparation of materials and development of innovative programs under guidance of faculty members in small course settings. May not be applied toward course requirements for Molecular, Cellular, and Developmental Biology majors. Training and supervised practicum for advanced undergraduate students. Students assist in preparation of materials and development of innovative programs under guidance of faculty members in small course settings. Limited to juniors/seniors. Designed to bring together students undertaking supervised tutorial research in model systems in joint laboratory settings. May be repeated for credit. Limited to juniors/seniors. May be repeated once for credit. P/NC or letter grading.

193. Journal Club Seminars: Molecular, Cellular, and Developmental Biology. (1) Seminar, two hours. Corequisites: course 198A or 198B or 199A or 199B or 199A or 199B or 199C. Limited to juniors/seniors. May be repeated once for credit. P/NC or letter grading.

194A. Research Group Seminars: Molecular, Cellular, and Developmental Biology. (1) Seminar, two hours. Corequisite: course 198A or 198B or 199A or 199B or 199A or 199B or 199C. Limited to juniors/seniors. Involvement in laboratory’s weekly research group meeting to encourage student participation in research and to stimulate progress in specific research areas. Discussion of use of specific research methods and current literature in field of or of research of faculty members or students. May be repeated for credit. P/NC or letter grading.
194B. Research Group Seminars: Current Topics in Biomedical Sciences. (2) Seminar, two hours. Limited to juniors/seniors in research traineeships or those who plan to pursue graduate study in molecular, biochemical, physiological, or biomedical fields. Weekly presentation and discussion of paper selected from current literature. May be repeated for credit.

198A-198D. Honors Research in Molecular, Cell, and Developmental Biology. (4 each) Tutorial, 16 hours. Requisite: course 104. Limited to junior/senior Molecular, Cell, and Developmental Biology majors. Development and completion of comprehensive research project and honors thesis under direct supervision of approved faculty advisor. Concurrently scheduled with course 138. Preparation of abstract and final manuscript. Credit will be awarded for completed thesis. Required of student designated as Biology H. May be repeated for credit. Letter grading.

199. Special Studies Directed Research in Molecular, Cell, and Developmental Biology. (2 to 4) Tutorial, six to 12 hours. Submission of written proposal to department for approval by appropriate term deadline. Proposal to be developed in consultation with instructor, outlining research study to be undertaken. Requisite: Life Sciences 104. Life Sciences 3, 4. Limited to juniors/senior departments. May enroll only with permission of department faculty advisor. Supervised individual research under guidance of faculty mentor. Studies to involve laboratory research, not literature surveys or library research. At end of term culminating paper describing progress of project and signed by student and instructor must be presented to department. May be repeated for credit. Individual contract required. Letter grading.

199A-199D. Directed Research in Molecular, Cell, and Developmental Biology. (2 to 4 each) Tutorial, 12 hours. Preparation: minimum 3.0 grade-point average in major. Requisites: course 104, Life Sciences 3, 4. Course 199A is requisite to 199B, which is requisite to 199C, which is requisite to 199D. Limited to juniors/senior departments. May enroll with sponsorship from department faculty members or preapproved outside faculty members. Other junior/senior life sciences majors may enroll only with permission of department faculty advisor. Supervised individual research under guidance of faculty mentor. Studies may enroll only with approval for research projects in laboratories with department faculty advisors. May be repeated for credit. Individual contract required. In Progress (199A) and letter (199B) grading. Students may elect to enroll in additional research courses through courses 199C and 199D (letter grading). Report on progress must be presented to department each term 199A through 199D course is taken.

Graduate Courses

CM220. Cell, Developmental, and Molecular Neurobiology. (6) (Same as Neuroscience M202B and Neuroscience M201) Lecture, six hours. Fundamentals of topics concerning cellular, developmental, and molecular neurobiology, including intracellular signaling, cell-cell communication, neurogenesis and migration, synaptic formation and elimination, programmed neuronal death, and neurotrophic factors. Concurrently scheduled with course C139. Letter grading.

C222A. Molecular Evolution. (2) Lecture, two hours. Requisites: courses 100 or C139 or M140, Life Sciences 4. Current developments in field of molecular evolution and selection at molecular level; formal testing of evolutionary hypotheses using sequencing data. Original research proposal required. Letter grading.

CM233C. Molecular Basis of Vascular Biology. (4) Lecture, two hours. Requisites: Life Sciences 3, 4. Developmental and pathophysiological aspects of vascular biology. Presentation and discussion of key questions of vascular biology with molecular approaches. Major emphasis on experimental approaches and current research in field. Introduction to several model systems along with presentation of specific topic. Basic information provided as to how this knowledge is obtained in laboratory. Experimental approaches and model organisms. Letter grading.

CM234. Structural Molecular Biology Laboratory. (4) (Same as Chemistry CM234) Laboratory, 10 hours. Corequisites: course CM230B. Methods in structural molecular biology, including experiments utilizing single crystal X-ray diffraction, low angle X-ray diffraction, neutron diffraction, electron microscopy, optical filters, and computer filtering; three-dimensional reconstruction from electron micrographs, and model building. S/U or letter grading.

CM235. Structural Molecular Biology Laboratory, (2) (Same as Chemistry CM235) Laboratory, 10 hours. Corequisites: course CM230B. Methods in structural molecular biology, including experiments utilizing single crystal X-ray diffraction, low angle X-ray diffraction, neutron diffraction, electron microscopy, optical filters, and computer filtering; three-dimensional reconstruction from electron micrographs, and model building. S/U or letter grading.

CM236. Genetic Control of Development. (4) Lecture, four hours. Requisites: course CM223A. Student oral presentation and written analysis of primary research articles in cell biology. Letter grading.

CM239. Molecular Basis of Plant Differentiation and Development. (5) Lecture, three hours; discussion, one hour. Requisites: Life Sciences 3, 110A, 153A, 156. In-depth study of basic processes of growth differentiation and development in plants and molecular mechanisms underlying these processes. Discussion of variety of plant systems, with focus on developing critical understanding of current experimental basis of research in this field. Concurrently scheduled with course C141. Letter grading.

M240. Cytokines and Reproductive Biology. (2) (Same as Microbiology M240.) Lecture, 90 minutes; discussion, one hour. Overview of current progress on research in cytokines and other immune system molecules in reproductive biology. S/U or letter grading.

242. Topics in Neurobiology. (4) Lecture, three hours. Requisites: course 171. Selected current problems in neurobiology discussed in depth, with emphasis on analysis of original papers. May be repeated for credit. Letter grading.

C250. Plant Chemical and Molecular Communications. (4) Lecture, three hours; discussion, one hour. Designed for graduate students. Introductory course in chemical and molecular communication and evolution of communication. Emphasis on role of major compounds in plant/microbe, plant/plant, and plant/herbivore interactions; synopsis of principles of plant defense mechanisms and hormonal inclusions. Concurrently scheduled with course C150. S/U or letter grading.

254. Seminar: Plant Morphogenesis. (2) Seminar, two hours. S/U or letter grading.

255. RNA Editing. (4) Lecture, two hours; discussion, one hour. Preparation: knowledge of molecular biology and molecular genetics. Discussion of diverse set of novel RNA modification phenomena known as RNA editing. Topics include U insertion/deletion type of editing in trypanosome mitochondria, C to U substitution editing in apom mRNA and plant mitochondria, C insertion editing in Physarum mitochondria, etc. Discussion of mechanism, function, and evolution of these phenomena. S/U grading.
CM256. Human Genetics. (4) Same as Human Genetics CM256 and Microbiology CM256. Lecture, three hours; discussion, two hours. Requisites: Life Sciences 3, 4. Strongly recommended: course 1100 or C139 or M140. Application of genetic principles in human populations, with emphasis on cytogenetics, biochemical genetics, population genetics, and family studies. Lectures and readings in literature, with focus on current questions in fields of medical and human genetics and methodologies appropriate to answer such questions. Concurrently scheduled with course CM156. Independent research project required of graduate students. Letter grading.

266A-266B-266C. Seminars: Development, Stem Cells, and Disease Mechanisms. (2-2-2) (Formerly numbered M266A-M266B-M266C). Seminar, two hours. Enforced requisites: course 138 or 143, Life Sciences 3, 4. Limited to graduate students. Advanced course based on research papers on fundamental cellular mechanisms governing development and disease. Disease results from genetically determined or acquired deficits in cell and molecular processes; analysis of these processes in context of normal development indicates ways of dealing with corresponding disease. S/U grading.

M272. Stem Cell Biology and Regenerative Medicine. (4) Same as Pathology M272. Lecture, two hours; discussion, two hours. Designed for graduate students. Presentation of current knowledge of embryonic and adult stem cells and factors that regulate their growth and development. Major emphasis on how advances in cell and molecular biology and tissue engineering can be applied to use of stem cells in regenerative medicine. Bioethical and legal issues related to stem cell research. S/U or letter grading.

276. Seminar: Molecular Genetics. (2) Seminar, two hours. Topics vary each term. S/U or letter grading.

278. Seminar: Molecular Genetics of Development. (2) Seminar, two hours. Designed for graduate students. Topics vary from year to year, with focus on establishment of position and pattern during embryogenesis by interaction of signal transduction systems and transcription factors. S/U or letter grading.

283. Seminar: Topics in Cell Biology. (2) Seminar, two hours. Discussion of various topics on biology of eukaryotic cells. Topics vary from year to year and include bioenergetics, motility, organelle DNA, membrane structure, function, oncogenic transformation, nuclear organization and function. S/U or letter grading.

284. Seminar: Structural Macromolecules. (2) Seminar, one hour; discussion, three hours. Presentation and discussion of current topics in extracellular active structural macromolecules -- their synthesis, structure, and roles in cell and developmental biology. Letter grading.

286. Seminar: Plant Development. (2) Seminar, one hour; discussion, two hours. Preparation: one plant physiology course and at least one advanced undergraduate or graduate plant development or biochemistry course. Seminar on specific topics in plant development. Content varies each term. S/U grading.

289. Current Topics in Plant Molecular Biology. (2) Discussion, one hour. Recent research developments in field of plant molecular biology. Opportunities for graduate students to discuss individual research work. S/U grading.

295. Seminar: Molecular, Cell, and Developmental Biology. (2) Seminar, two hours. In-depth surveys of recent developments in molecular, cell, and developmental biology research. Reading and presentation of primary research articles to learn to critically evaluate research papers and to organize and present seminars on specific research topics. S/U or letter grading.

296. Advanced Topics in Molecular, Cellular, and Developmental Biology. (2) Discussion, three hours. Advanced study and analysis of current topics in cell, molecular, and developmental biology. Discussion of current research and literature in research specialty of faculty member teaching course. S/U grading.

297. Advances in Molecular Analysis of Plant Development and Plant/Microbe Interactions. (2) Discussion, two hours. Recent advances in plant molecular biology, with emphasis on control of gene expression both during plant development and in plant/microbe interactions. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty -- responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Preparation for Teaching Molecular, Cell, and Developmental Biology in Higher Education. (2) Seminar, two hours. Designed for graduate students. Study of problems and methodologies in teaching molecular, cell, and developmental biology, including workshops, seminars, apprentice teaching, and peer observation. S/U grading.

597. Preparation for M.A. Comprehensive Examination or Ph.D. Qualifying Examinations. (2 to 12) Tutorial, to be arranged. May not be applied toward M.A. or Ph.D. course requirements. S/U grading.

James G. Tidball, Ph.D., Chair
Faculty Advisory Committee
Mark A. Frye, Ph.D. (Physiological Science)
David L. Glanzman, Ph.D. (Neurobiology, Physiological Science)
Thomas J. O’Dell, Ph.D. (Physiology)
James G. Tidball, Ph.D. (Pathology and Laboratory Medicine, Physiological Science)
Yueh-Wen Wang, Ph.D. (Anesthesiology, Physiology)
Nancy L. Wayne, Ph.D. (Physiology)

Scope and Objectives
Physicalcy is the study of the functional processes that collectively constitute life. The studies usually employ quantitative analyses of normal life processes, of pathological defects in normal life processes, of model systems to clarify and test basic physiological principles, and of functional specializations of organisms that have evolved under the influence of differing selective forces. Thus, physiology contributes importantly to advances in knowledge both in the basic biological sciences and in biomedical sciences and provides an essential foundation for the practice of medicine.

The primary objective of the interdepartmental Molecular, Cellular, and Integrative Physiology Program is to train a new generation of physiologists who apply modern knowledge in molecular and cellular biology and systems physiology to important questions in organismic function. Students learn to conceptualize physiological questions across several levels of organization and to understand how research strategies incorporating each of the levels of analysis can be formulated. This approach to physiology education is responsive to the need for physiologists who can intellectually and technically span disciplines related to physiology that are typically separated.

Coursework consists of formal instruction in the most current information in molecular biology, cell biology, and the molecular and cellular foundations of physiology. In addition, students identify an area of emphasis in biophysics, cellular and molecular biology, or integrative/comparative physiology in which additional studies are pursued. The heart of the program, however, is the research that leads to the dissertation, which is performed under the guidance of a faculty mentor. The program faculty includes more than 60 professors in the David Geffen School of Medicine and College of Letters and Science. Collectively they have been recently ranked by the National Research Council in the top five in the U.S. for their quality as an academic faculty.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree
The Molecular, Cellular, and Integrative Physiology Program offers the Doctor of Philosophy (Ph.D.) degree in Molecular, Cellular, and Integrative Physiology.
Molecular, Cellular, and Integrative Physiology

Graduate Courses

M200G. Biology of Learning and Memory. (4) (Same as Neurobiology M200G, Neuroscience M220, and Psychology M208.) Lecture, four hours. Molecular, cellular, circuit, systems, neuroanatomy, theory, and models of learning and memory. Cross-disciplinary focus on learning and memory to provide integrative view of subject that emphasizes emerging findings that take advantage of novel groundbreaking models. Letter grading.

M215. Molecular and Cellular Foundations of Physiology. (5) (Same as Physiological Science M215.) Lecture, three hours; discussion, two hours. Application of molecular and cellular approaches to systems level questions. Basic foundation for study of major physiological systems, with emphasis on levels of organization from molecular to macroscopic. Letter grading.

249. Seminar: Pathogenic Mechanisms in Muscle Disease. (2) Seminar, two hours. Recent advances have been made in genetic identification of molecular basis of muscle disease, and some mechanisms involved have been elucidated. Focus on muscle diseases in which substantial mechanistic information has been obtained, including particular cellular locations and diseases associated with those locations. Topics include Duchenne muscular dystrophy, congenital muscular dystrophy, limb girdle dystrophy, Ullrich myopathy, and other forms of genetically inherited muscle disease. S/U grading.

290A-290B-290C. Tutorials. (4-4-4) Tutorial, two hours. Discussion, analysis, and critique of original research literature. Letter grading. 290A. Cellular and Molecular Physiology. 290B. Biophysics. 290C. Integrative and Comparative Physiology.

296. Research Seminar. (2) Seminar, to be arranged. Review of literature, discussion of original research, and analysis of current topics in molecular, cellular, and integrative physiology. May not be applied toward Ph.D. course requirements. May be repeated for credit. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May not be applied toward Ph.D. course requirements. May be repeated for credit. S/U grading.

596. Directed Individual Study or Research. (2 to 10) Tutorial, to be arranged. May be repeated for credit. S/U or letter grading.

597. Preparation for Ph.D. Qualifying Examinations. (2 to 10) Tutorial, to be arranged. May not be applied toward Ph.D. course requirements. May be repeated for credit. S/U grading.

599. Research for Ph.D. Dissertation. (2 to 10) Tutorial, to be arranged. May not be applied toward Ph.D. course requirements. May be repeated for credit. S/U grading.

Oliver Hankinson, Ph.D., Chair
Faculty Advisory Committee
Michael D. Collins, Ph.D. (Environmental Health Sciences)
Curtis D. Eckert, Ph.D. (Environmental Health Sciences)
Jon M. Fukuto, Ph.D. (Molecular and Medical Pharmacology)
Hilary A. Godwin, Ph.D. (Environmental Health Sciences)
Oliver Hankinson, Ph.D. (Pathology and Laboratory Medicine)
Robert H. Schiesist, Ph.D. (Pathology and Laboratory Medicine)

Scope and Objectives
Faculty from a variety of departments and schools at UCLA, including Biological Chemistry, Chemistry and Biochemistry, Environmental Health Sciences, Epidemiology, Medicine, Molecular and Medical Pharmacology, and Pathology and Laboratory Medicine, have joined forces to create an interdisciplinary Ph.D. program in Molecular Toxicology, which is administered through the School of Public Health.

Specialties within the program include, but are not limited to, neurotoxicology, immunotoxicology, reproductive and developmental toxicology, genetic toxicity, toxicokinetics and metabolism, genetics and molecular biology, carcinogenesis, and environmental toxicology. There is a particular emphasis on mechanisms of toxicity, since it is now widely accepted that understanding mechanisms will provide the means for accurately determining risk.

New chemicals have been the basis for most of the technological developments during the past century, and there is no question that society has reaped enormous benefits from the creation and growth of the chemical industry. However, major health and environmental problems have also been the legacy of the synthesis of new chemical species. The discipline of toxicology, which seeks to characterize and elucidate the mechanisms of the problems related to exposure of chemical agents, has also developed from a purely descriptive to a mechanistic science whose objective is to understand the basis of toxic action, predict the toxicity of new chemical entities, and protect organisms from them. Toxicology has used the basic disciplines of chemistry, biochemistry, and cell biology to advance understanding of toxicological phenomena, and the growth of the sophistication of toxicology has paralleled the increase in knowledge derived from the basic chemical and biological sciences.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaal/library/pgmqrntro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree
The Molecular Toxicology Program offers the Doctor of Philosophy (Ph.D.) degree in Molecular Toxicology.

Molecular Toxicology

Upper Division Courses

M110A. Drugs: Mechanisms, Uses, and Misuse. (4) (Same as Pharmacology M110A.) Lecture, four hours (seven weeks); discussion, four hours (three weeks). Requisites: Life Sciences 2, 3. Introduction to pharmacology and toxicology for undergraduate students, emphasizing drug development and mechanisms of action of drugs and toxic agents. Letter grading.

197. Individual Studies in Molecular Toxicology. (2 to 6) (Formerly numbered 199.) Tutorial, four hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

211A-211B-211C. Molecular Toxicology Seminars. (1-1-1) Seminar, one hour twice per month. Seminar series which alternately features outside speakers and members of UCLA molecular toxicology community (students, postdoctoral fellows, and faculty) and deals with topics relevant to molecular toxicology. In Progress (211A, 211B) and S/U (211C) grading.

M241. Introduction to Chemical Pharmacology and Toxicology. (6) (Same as Pharmacology M241.) Lecture, six hours. Preparation: organic and biological chemistry. Designed for molecular and medical pharmacology students. Introduction to general principles of pharmacology. Role of chemical properties of drugs in their distribution, metabolism, excretion, and modes of action. S/U or letter grading.

M242. Toxicodynamics. (4) (Same as Environmental Health Sciences M242.) Lecture, two hours; discussion, two hours. Requisite: Environmental Health Sciences 240. Examination of biochemical, cellular, and molecular mechanisms by which chemicals induce toxicity in wide spectrum of organ systems and in number of pathological conditions. Letter grading.

M245. Laboratory in Toxicological Methods. (2) (Same as Environmental Health Sciences M245 and Pharmacology M234C.) Lecture, one hour; laboratory, four to five hours. Survey of experimental techniques used in study of toxic substances. Experiments conducted within known toxic to demonstrate its effects at molecular, cellular, and tissue levels. Presentation of principles of techniques and methods of data analysis at discussion session prior to laboratory. Letter grading.

Scope and Objectives

The Moving Image Archive Studies M.A. is an interdepartmental degree program offered jointly by the Department of Information Studies in the Graduate School of Education and Information Studies and the cinema and media studies faculty of the Department of Film, Television, and Digital Media in the School of Theater, Film, and Television. The program is an intensive, specialized two-year course of study consisting of graduate seminars, directed studies, and an extensive practicum program, as well as special topic screenings, guest lectures, and technical demonstrations. The program is also affiliated with the UCLA Film and Television Archive.

The goal of the program is not merely training, but a broad education grounded in historical, critical, and theoretical study. The subject matter encompasses the aesthetics and history of film and television, the cultural responsibilities of selection and curatorship, access and programming for the public, collection management, cataloging and documentation, and technical aspects of preservation and restoration. Seminars and practica are taught by a combination of UCLA faculty members, academic scholars, top-level preservationists, and other archive specialists.

The program recognizes that traditional models of archival work have been redefined in recent years to emphasize moving image preservation as an ongoing process of activities along a continuum that includes curatorship, laboratory preservation, storage management, cataloging, and access. The program encourages familiarity with all these closely related archival functions and provides opportunities for specialization within them.

A key goal is to link theory with practice. The program embraces hands-on practica in archives, libraries, studios, and laboratories in the Los Angeles area, as well as nationally and internationally.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmqrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree

The Moving Image Archive Studies Program offers the Master of Arts (M.A.) degree in Moving Image Archive Studies.

Moving Image Archive Studies

Graduate Courses

200. Moving Image Archiving: History, Philosophy, Practice. (4) Seminar, four hours. Introduction to historical development of moving image archives. Critical analysis of archival policies regarding collection development, access, exhibition, cataloging, preservation, and restoration. Introduction to principle models and methodologies of moving image archive practices from 1938 establishment of International Federation of Film Archives to the present, addressing practices such as collection development of classical, national, regional, and nonmainstream materials (small gauge formats, independent and amateur productions, new media); changing role of technology in preservation and restoration; ethics of moving image restoration; cataloging standards and documentation; critical, theoretical, and practical distinctions between different types of restoration. S/U or letter grading.

210. Moving Image Preservation and Restoration. (6) Seminar, four hours. Critical analysis of distinct models for archival preservation and restoration of moving image media. Examination and evaluation of current preservation standards for storage and duplication. Discussion of critical preservation problems such as nitrate deterioration, color fading, vinegar syndrome, and irreparable formats. Exploration of case studies of specific restoration projects through critical before and after studies, with focus on crucial ethical issues embedded within each technical and aesthetic decision facing restorers. Of special interest is question of whether it is possible and appropriate to speak of particular schools and/or philosophies of restoration. Range of key issues addressed, such as identification of original versus subsequent and multiple versions and theoretical and practical distinctions between different types of restoration. S/U or letter grading.

220. Archaeology of Media. (4) Seminar, four hours. History of moving image technologies. Examination of relationships between technological evolution and forms of moving image expression. Lectures combined with extensive presentations of full range of analog, video, and digital image types to train students to develop discerning eye required for professionals working in 21st-century moving image archive. In addition to study of specific technological developments such as new gauges, formats, color processes, aspect ratios, film stocks, and projection systems, exploration of larger economic and industrial forces behind them. Study of aesthetic consequences of specific production and exhibition innovations by examining different types of images, genres, and narratives that accompany and influence passage of new technologies. S/U or letter grading.

230. Moving Image Cataloging. (4) Seminar, four hours. Introduction to methodologies and standards specific to moving image cataloging. Discussion and debate of continued application of Library of Congress subject headings and genres to cataloged moving image materials. Exposure to variety of indexing languages used today within online environments and practical training in application of cataloging principles to motion pictures and television programs. Survey of general theories and alternate documentation practices at work within field as well as specific cataloging rules established by FIAF for local and national moving image archives. Discussion of important issues of public access, exploring various indexing methods and protocols for making collection-related information available through secondary and nonsystematic channels such as subject guides, collection profiles, Websites, stand-alone databases, and exhibition catalogs. Letter grading.
Preparation for the Major

Required (for all concentrations except music education): Music 20A, 20B, 20C, with grades of C or better; 12 units from courses 60A through 65; two years (12 units) of performance organizations (courses C90A through C90N); Music History 26A, 26B, 26C. Students taking string, woodwind, brass, or percussion lessons must select from Music C90E, C90F, C90G, C90M (Fall Quarter only), or C90N; students taking vocal lessons must select from C90A, C90D, or C90L; students taking keyboard or guitar lessons may choose from C90A through C90N. Students must participate in a minimum of two different organizations over the course of their stay at UCLA. In addition, they are required to take one college year — or at least one course at level three — of French, German, Italian, or Spanish, which may be used to fulfill the school language requirement.

Music Education: Music 20A, 20B, 20C, with grades of C or better; 12 units from courses 60A through 65; three years (18 units) of performance organizations (courses C90A through C90G and C90M Fall Quarter only); Music History 26A, 26B, 26C; Ethnomusicology 20A or 20B or 20C. In addition, students are required to take one college year — or at least one course at level three — of French, German, Italian, or Spanish, which may be used to fulfill the school language requirement.

The Major

Required (for all concentrations): Music 120A, 120B, 120C, with grades of C or better, Music History 126A, 126B, 126C, and courses selected from one of the concentrations listed below.

Composition: A minimum of 41 upper division units, including Music 104A or 104B, 106A, 106B, 116, 123A, 123B, 123C, 124A or 124B or 124C, C176, and at least 8 elective units selected from courses 104A or 104B (if not already taken), 117, 118A, 118B, additional terms of 123A, 123B, 123C, 124A or 124B or 124C (if not already taken), 197, Ethnomusicology 117, C136A, C136B, 146, C156A, C156B, 157, 158A, 158B, 158C, 160, 170, 181. A senior recital, to include at least 30 minutes of original music, is also required (except by petition only).

Music Education: A minimum of 37 upper division units, including Music 100A, 100B, 100C, 110, 111A, 111B, 114A, 114B, 114C, 114D and 114F or 119, 114E, 114G through 114I, 115, 117 or 118A, and three courses from 160A through 165. A senior recital is required.

Performance: Twelve units in performance instruction from Music 160A through 165 (including junior and senior recital requirements); 4 units of chamber ensembles (Music C175); 4 units of elective courses from 106B, 116, 117, 118A, 118B, 119, Music History 130, 135A, 135B, 135C, 191A through 191G, Ethnomusicology M108A, 108B, 120A, 120B, 121, 170; and one upper division elective course in music. During each term in which students take

## Scope and Objectives

Students interested in a concentration in music history and literature should consider the majors in Music History and Musicology offered through the College of Letters and Science; those interested in a concentration in world music should consider the major in Ethnomusicology offered through the School of the Arts and Architecture.

The four-year Bachelor of Arts curriculum in Music is a classically oriented, balanced program of practical, theoretical, and historical studies, with related performance and academic studies in non-Western music. The major, designed for students who want to combine fine musicianship with academic excellence, is based on a core curriculum of theory, history, analysis, and individual and group performance. Given in the context of a liberal education, this provides a foundation for an academic or professional career and affords valuable cultural background.

At the graduate level, specialized studies leading to the degrees of Master of Arts and Doctor of Philosophy are offered in composition; specialized studies leading to the degrees of Master of Music and Doctor of Musical Arts are offered in all classical solo instruments, voice, and conducting.

### Undergraduate Study

#### Music B.A.

**Admission**

All applicants for admission and change of major are required to pass an audition in their principal performing medium.
private lessons, they must participate in a performance organization for a letter grade. Students taking string, woodwind, brass, or percussion lessons must select from Music C90E, 90F, C90G, 90M (Fall Quarter only), or 90N; students taking vocal lessons must select from C90A, 90D, or 90L; students taking keyboard or guitar lessons may choose from C90A through 90N.

**Theory:** Six courses selected in consultation with a faculty adviser.

**Graduate Study**

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasla/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

**Graduate Degrees**

The Department of Music offers the Master of Music (M.M.) degree, Doctor of Musical Arts (D.M.A.) degree, and Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Music.

**Music Lower Division Courses**

1A-1B. Fundamentals of Music. (4-4) Lecture, three hours; discussion, two hours. Designed for nonmusic majors. P/NP or letter grading. 1A. Introduction to elements of music; pitch and rhythm symbols, meter and time signatures, notation, scales, intervals, and chord structure. 1B. Requisite: course 1A. Diatonic harmony; four-part writing, including inversions, seventh chords, secondary dominants, and modulation; organization of melody and accompaniment; simple analysis; sight-singing and ear training.

4A-4B-4C. Basic Musicianship. (2-2-2) Laboratory, three hours. Class instruction in elementary ear training and keyboard skills.

5. Beginning Voice Class. (2) Studio, four hours; outside practice and preparation, two hours. Not open to voice majors. Correct singing techniques, including vocal mechanism, posture and breathing, musical warm-ups, optimal vocal production, diction, and performance delivery to be put into practice in classroom study, vocal exercises, and performances. Final recital with piano accompanies required. May be repeated for maximum of 12 units with a grade of C in each course. Letter grading.

7. Understanding Movie Music. (4) Lecture, four hours; outside study, eight hours. Musical experience helpful, but not required. Brief historical survey of film music, with strong emphasis on recent developments: Japanese animation, advertising, and MTV, as well as computer tools and digital scoring methods. Designed to inspire and inform those interested in movie music. Offered in summer only. P/NP or letter grading.

8G. Graduate Piano Sight-Reading. (2) Limited to graduate students. Designed to help entering graduate students remedy entrance deficiencies, to be cleared by examination. May be repeated. SU grading.

10. Computer-Assisted Sight-Singing Laboratory. (2) Lecture, two hours; laboratory, one hour. Requisite: course 1A. Individualized, self-instructional approach to development of sight-singing skills through use of a music computer, keyboard instrument, and linear program learning.

15. Art of Listening. (5) Lecture, three hours; discussion, one hour; outside study, 11 hours. Acquisition of listening skills through direct interaction with live performance, performers, and composers. Relations of listening to theoretical, analytical, historical, and cultural frameworks. Music as aesthetic experience and cultural practice. P/NP or letter grading.

16. **Hollywood Musical and American Dream.** (4) Lecture, three hours; discussion, one hour. Examination of composers, writers, and film school whose creative efforts changed how world came to view American life as seen through Hollywood musicals. P/NP or letter grading.

20A. Music Theory I. (4) Lecture, two hours; discussion, six hours. Preparation: passing score on departmental examination. Theory: species counterpoint through fifth species; description of triads and inversions. Musicianship: interval recognition; fixed-do solfeggio, diatonic and chromatic dictation of diatonic melodies; two-part dictation of small-crowns, note-against-note melodies; simple rhythmic dictation; use of treble clef and bass clef.

20B. Music Theory II. (4) Lecture, four hours; discussion, four hours. Requisite: course 20A with a grade of C or better. Theory: diatonic harmony secondary dominants and diminished seventh chords; modulation and related key areas; writing of four-part chorales; style composition in baroque dance forms; introduction to figured bass notation. Musicianship: harmonic dictation, including secondary dominants and diminished seventh chords, but not modulations; more advanced two-part dictation; chromatic one-part dictation; more advanced sight-singing; keyboard (three-part open score in homophonic textures, introduction to tonality.

20C. Music Theory III. (4) Lecture, four hours; discussion, four hours. Requisite: course 20B with a grade of C or better. Theory: chromatic harmony including development of tonality, 1800 to 1850; appropriate analysis and style composition. Musicianship: advanced sight-singing; two-part contrapuntal dictation; keyboard harmony (harmonic sequences in major and minor keys); reading in open score of four-homophonic parts.

60A-65. Undergraduate Instruction in Performance. (2-2) Lecture, one hour. Limited to Music majors (all freshmen/sophomore majors, and junior/senior majors not in performance specialization). Individual instruction. Students must perform in one practicum during academic year. Grades are assigned by applied instructor in Fall and Winter Quarters and by jury examination in Spring Quarter. May be repeated for credit. P/NP or letter grading. 60A. Voci. 60B. Viola. 60C. Cello. 60D. String Bass. 60E. Harp. 60F. Classical Guitar. 60G. Viola da gamba. 60K. Lute; 61A. Flute; 61B. Oboe. 61C. Clarinet. 61D. Bassoon; 51E. Saxophone. 62A. Trumpet. 62B. French Horn; 62C. Trombone; 62D. Tuba. 63. Percussion. 64A. Piano. 64B. Organ. 64C. Harpsichord. 65. Voice.

80A. Beginning Keyboard. (2) Laboratory, five hours; preparation/practice, seven hours. Simple keyboard skills together with basic aspects of music theory and its practical application to keyboard: sight-reading tonalities; melodic dictation, simple compositions, and improvisations. Offered in summer only. P/NP or letter grading.

80B. Beginning Guitar Class. (4) Laboratory, five hours; preparation/practice, seven hours. Introduction to guitar techniques, accompanying, and arranging for the instrument, coverage of note reading and tablature. Offered in summer only. P/NP or letter grading.

C90A. UCLA Chorale. (2) Activity, four hours. Preparation: audition. Select mixed ensemble of 50 to 60 voices performing choral music appropriate for a concert ensemble. May be repeated for credit without limitation. May be concurrently scheduled with course C480. P/NP or letter grading.

90B. Collegiate Chorus. (2) Nonaudition mixed chorus of 50 to 150 voices performing medium and concert-length choral works from baroque to the present. Collegiate chorus performs only as part of "Choral Union," a large chorus made up of all of the choral ensembles. May be repeated for credit without limitation. P/NP or letter grading.

90C. Chamber Singers. (2) Activity, three hours. Preparation: audition. Select mixed ensemble of 16 to 20 voices performing chamber choral music of all periods, with emphasis on Renaissance and baroque music. May be repeated for credit without limitation. P/NP or letter grading.

90D. Opera Workshop. (2) Activity, six hours. Preparation: audition. Rehearsal and performance of scenes and complete operas, as well as repertoire, stage movement, and foreign language direction coaching. May be repeated for credit without limitation. P/NP or letter grading.

C90E. Symphony Orchestra. (2) Activity, four hours. Preparation: audition. Group performance of symphonic literature, as well as orchestral accompaniment for opera, musicals, and rock ensembles. May be repeated for credit without limitation. May be concurrently scheduled with course C481. P/NP or letter grading.

C90G. Wind Ensemble. (2) Activity, four hours. Preparation: audition. Group performance of concert music for wind ensemble. May be repeated for credit without limitation. May be concurrently scheduled with course C482. P/NP or letter grading.

90L. Music Theater Workshop. (2) Activity, six hours. Preparation: audition. Rehearsal and performance of scenes and complete musical theater productions, including repertoire and stage movement coaching. May be repeated for credit without limitation. P/NP or letter grading.

90M. Marching and Varsity Bands. (2) Activity, four hours. Preparation: audition. Group performance of special band arrangements for football and basketball games as well as special events. May be repeated for credit without limitation. P/NP or letter grading.

90N. Jazz Ensemble. (2) Activity, three hours. Preparation: audition. Group performance of jazz and popular music in ensembles of 20 to 30 instruments. May be repeated for credit without limitation. P/NP or letter grading.

90P. Alexander Technique. (2) Activity, two hours; outside preparation and practice, four hours. Limited to Music majors. Introduction to principles of Alexander technique. Study of musician’s postural attitude at the instrument. Designed to help instrumentalists and vocalists prevent injuries and performance anxiety. May be repeated with consent of instructor. P/NP grading.

90Q. Piano/Keyboard Accompanying. (2) Activity, four hours; outside study, two hours. Collaboration with large ensembles, instrumentalists, and/or vocalists in role of accompanists. Performance includes, but is not limited to, lessons, rehearsals, special studio performance projects, master classes, concerts, auditions, and recitals. May be repeated for credit without limitation. P/NP or letter grading.

90R. Guitar Accompanying. (2) Activity, four hours; outside study, two hours. Collaboration with instrumentalists and/or vocalists in role of accompanists. Performance includes, but is not limited to, lessons, rehearsals, special studio performance projects, master classes, concerts, auditions, and recitals. May be repeated for credit without limitation. P/NP or letter grading.
Upper Division Courses

100A-100B-100C. Music in American Education. (4-4-4) Lecture; four hours; laboratory; one hour. Requisites: courses 20A, 20B, 20C, 116, 120A, 120B, 120C. Music History 26A, 26B, 26C. Critical study and analysis of periodic, organization, curricula, and literature of music programs for elementary and secondary schools in American education. Each course may be taken independently for credit. Letter grading. 100A. General Music; 100B. Choral Music; 100C. Instrumental Music.

104A. Modal Counterpoint. (3) Lecture, three hours. Requisite: course 120C (accelerated section). In-depth exploration of styles and techniques of counterpoint of 15th and 16th centuries through writing and analysis of important forms of the period, including species, canon, free counterpoint, cantus firmus, point of imitation, fugue, etc. Letter grading.

104B. Special Topics in Counterpoint. (3) Lecture, three hours. Requisite: course 120C (accelerated section). In-depth exploration of polyphonic styles and textures since 1750, with emphasis on late 19th- and 20th-century modes of expression, through writing and analysis. Letter grading.

106A. Orchestration I. (4) Discussion, three hours. Requisites: courses 120C (accelerated section), 123C. Ranges and characteristics of instruments, with exercises in scoring. P/NP or letter grading.

106B. Orchestration II. (4) Discussion, three hours. Requisites: courses 106A, 120C (accelerated section), 123C. Scoring and analysis for ensembles and full orchestra. P/NP or letter grading.

110. Learning Approaches in Music Education. (4) Lecture; two hours; activity; two hours; outside study, eight hours. Introduction to concepts and skills central to teaching music. Exploration of three modes of music teaching: learning through notation, oral transmission, and imitation. Study of improvisation and communal composition using clarinet and guitar. Evaluation of experiences in context of major learning theories. Letter grading.

111A. Technology in Music Education I. (1) Laboratory, three hours. Requisite or corequisite: course 20A. Provides music educators with tools and knowledge necessary to use appropriate computer hardware and software for purposes of music sequencing, arranging, and scoring, with emphasis on applications that are appropriate for use in public and/or private schools for levels K-12 and higher education. Activities include familiarization with computer systems and software, computer-assisted music notation and publication, and development of basic sequencing techniques. Letter grading.

111B. Technology in Music Education II. (1) Laboratory, three hours. Requisite: course 111A. Introduction to instructional uses of computers in music classrooms, with emphasis on practical information necessary to develop and implement microcomputers in schools, including training in arranging, multimedia production, and classroom instruction techniques. Additional topics include teacher-based administration of functions (grading, communica- tions, research, databases, financial management). Letter grading.

114A-114Y. Study of Instrumental and Vocal Techniques. (1 each) Formally numbered 114A-114Y.) Studio, three hours; assignments. Requisites: course 20A. Applied studies in basic performance techniques and tutorial materials. Each of courses 114A through 114Y may be repeated once for credit. Letter grading. 114A. High String: 10th Stringings; 114C. Flute; 114D. Double Reeds; 114E. Trumpet and Trombone; 114F. Horn and Tuba; 114G. Snare Drum; 114H. Other Percussion; 114I. Voice.

116. Introduction to Conducting. (2) Lecture, three hours. Requisites: courses 20A, 20B, 20C, 120A. Fundamentals of conducting, including basic skills, techniques, analysis, and repertoire.

117. Study and Conducting of Instrumental and Choral Literature. (2) Lecture, three hours. Requisite: course 116. Study and practice of conducting both instrumental and choral repertoire. In addition to further development of conducting gestures, focus on score study techniques, rehearsal techniques, style, and interpretation as applied to choral and instrumental repertoire.

118A-118B. Advanced Study and Conducting of Choral and Instrumental Literature. (2-2) Lecture, one hour; laboratory, two hours. Requisites: courses 116, 117. Detailed study of musical styles, performance practices, and rehearsal techniques. Each course may be repeated once for credit. 118A. Choral; 118B. Instrumental.

119. Vocal Techniques for Music Education. (2) Laboratory, three hours; outside study, three hours. Introduction to art of teaching voice, including anato- my of singing instrument, biomechanics of singing, di- agnosis and correction of faults, health and care of voice, and instrumental techniques. Letter grading.

120A. Music Theory IV. (4) Lecture, four hours; discussion, four hours. Preparation: passing score on departmental first-year examination. Requisites: courses 20C with a grade of C (2.0) or better. Theory: baroque counterpoint including chorale prelude; two-part invention; exposition and first modulation of a three-part invention; canon; principles of analysis; in- vention, canons, and fugues. Musicianship: sight-singing of extended chromatic melodies; advanced harmonic dictation (diatonic and chromatic); keyboard harmonization of modulating melodies; elementary score reading.

120B. Music Theory V. (4) Lecture, four hours; discussion, four hours. Requisite: course 120A with a grade of C (2.0) or better. Theory: advanced chromat- ic harmony including development of harmony from 1850; analytical position. Musicianship: advanced score reading; advanced harmonic dictation; preparation for departmental examination. 120C. Music Theory VI. (4) Lecture, four hours; discussion, two hours; listening, two hours. Requisite: course 120B with a grade of C (2.0) or better. 20th- century harmonic language, including nonfunctional harmony, polytonality, free atonality, serialism, and minimalism.

121. Special Topics in 20th-Century Music. (4) Lecture, three hours. Requisites: courses 20A, 20B, 20C, 120A, 120B, 120C. In-depth study of certain as- pects of 20th-century music ranging from individual composers and schools to ideological or stylistic con- cerns. May be repeated once for credit.

C122. Speculative Music Theory. (4) Discussion, three hours. Requisites: courses 20A, 20B, 20C, 120A, 120B, 120C. Techniques of tonal coherence studied through analysis and compositional exercises in styles of given periods. May be repeated once for credit. May be concurrently scheduled with course C222.

123A-123B. Composition. (4-4-4) Lecture, three hours. Requisites: courses 20A, 20B, 20C, 120A, 120B, 120C. Course 123A is requisite to 123B, which is requisite to 123C. Designed for composition students. Vocal and instrumental composition in the smaller forms, including style composition and 20th-century techniques. Each course may be repeated once for credit, but first year must be taken in sequence.

124A. Scoring for Symphony Orchestra. (4) Discussion, three hours. Requisites: courses 106B, 120C (accelerated section), 123C. Practical applications in scoring for symphony orchestra. Preparation and pro- duction of parts and full scores. At least one reading by UCLA Philharmonia Orchestra scheduled. Letter grading.

124B. Scoring for Wind Ensemble. (4) Discussion, three hours. Requisites: courses 106B, 120C (accelerated section), 123C. Practical applications in scoring for large wind ensembles. Preparation and pro- duction of score and parts. May include percussion. At least one reading by UCLA Chorale or other choral group scheduled. Letter grading.

M131. Development of Latin Jazz. (4) Same as Ethnomusicology M131.) Lecture, four hours; discussion, one hour. Survey of historical and stylistic develop- ment of musical style referred to today as “Latin jazz.” P/NP or letter grading.

136A-136B-136C. Historical Survey of Music Theater. (4-4-4) Lecture, four hours; discussion, one hour. Historical survey of major works from music theater, tracing development of the art form from its Euro- pean beginning to the American music theater of to- day. P/NP or letter grading. 136A. Early Forms to 1900; 136B. 1900 to 1945; 136C. 1945 to 1975.

160A-165. Undergraduate Instruction in Performance for the Performance Specialist. (2 each) Studio, one hour. Limited to junior/senior Music ma- jors who have been accepted by audition into perfor- mance specialization. Individual instruction. Students must perform in noon concert once during their junior year and must present full recital in their senior year. Grades are assigned by applied instructor in Fall and Winter Quarters and by jury examination in Spring Quarter. May be repeated for credit. P/NP or letter grading. 160A. Violin; 160B. Viola; 160C. Cello; 160D. String Bass; 160E. Harp; 160F. Classical Gui- tar; 160G. Viola da gamba; 160K. Lute; 161A. Flute; 161B. Oboe; 161C. Clarinet; 161D. Bassoon; 161E. Saxophone; 162A. Trumpet; 162B. French Horn; 162C. Trombone; 162D. Tuba; 163. Percussion; 164A. Piano; 164B. Organ; 164C. Harpsichord; 165. Voice.

C167. Selected Topics in Keyboard Literature. (4) Lecture, three hours. Corequisite: course 164A or 164B or 164C. In-depth study of selected topics in keyboard literature, concentrating on problems of per- formance through analysis, historical and compara- tive studies, and actual performances by participants. May be concurrently scheduled with course C267.

174. Vocal Diction. (2) (Formerly numbered 174A- 174B-174C.) Lecture, two hours; outside study, four hours. Designed for Music majors. Sounds of lan- guage as applied to singing, including use of Interna- tional Phonetic Alphabet, translation of art song texts, and application to student’s current vocal repertoire. Background in each language encouraged. P/NP or letter grading.

C175. Chamber Ensembles. (2) Preparation: audion. Students must be at advanced level of their instru- ment to participate. Applied study of performance prac- tices of literature appropriate to the ensemble. Students may enroll in two sections per term; total of 12 units may be applied toward degree. May be concurrently scheduled with course C485. P/NP or let- ter grading.
C176. Electronic Music Composition. (4) Lecture, three hours; laboratory, three hours. Preparation: advanced experience and accomplishment in serious composition (art music), two years of music theory. Limited to music composition majors. Exercises in electroacoustic orchestration, meta-pitch composition, notation software (Sibelius), sequencing and film scoring software (Logic), text collages (ProTools), and final project. May be concurrently scheduled with course C225. P/NP or letter grading.

CM182. Music Industry. (4) (Same as Ethnomusical-logy CM182 and Music History CM186.) Lecture, four hours; outside study, eight hours. Limited to Ethnomus-icology, Music, and Music History majors. Examination of influence of music industry on way music is created, performed, listened to, evaluated, and used today. Historical approach taken, beginning with music published in 18th century and continuing through development of audio recordings to MTV and popular music today. Concurrently scheduled with course CM282. Letter grading.

C185. Historical and Philosophical Foundations of Music Education. (4) Lecture, three hours. Preparation: completion of undergraduate music education specialization, four years of music education in the U.S. according to established schools of thought. May be concurrently scheduled with course C225.

195. Community or Corporate Internships in Mu-sic. (2 to 4 Tutorial, six hours. Limited to juniors/se-niors. Internship in supervised setting in community agency or business. Students meet on regular basis with supervising instructor and submit periodic re-ports of their work experiences. May be repeated for maximum of 8 units. Individual contract with supervis-ing faculty member required. P/NP grading.

197. Individual Studies in Music. (2 or 4) Tutorial, one hour. Preparation: 3.0 grade-point average. Limit-ed to seniors. Individual intensive study in music, with scheduled meetings to be arranged between faculty member and student. Tangible evidence of mastery of subject matter (research project) required. May be re-peated for maximum of 8 units. Individual contract re-quired. P/NP or letter grading.

Graduate Courses

M201. Repertory and Analysis. (2) (Same as Musi-cology M201.) Seminar, two hours. Requisite or corequisite: Musicology 200A. Exploration of defined repertory groups and analysis. Specific top-ics vary. May be repeated for credit. S/U grading.

202. Analysis for Performers. (4) Lecture, three hours; outside study, nine hours. Designed for graduate students. Survey of analytical techniques and app-roaches required for professional performers, includ-ing phrase structure, harmonic rhythm and prolonga-tion, small and large forms, theories of musical coer-ence, and understanding of styles. Letter grading.

204. Music Bibliography for Performers. (4) Lec-ture, three hours; outside study, nine hours. Designed for graduate music performance students. Survey of general bibliographic techniques in music, with em-phasis on materials for performing musicians. Letter grading.

C222. Speculative Music Theory. (4) Discussion, three hours. Designed for graduate music students. Techniques of tonal analysis and study of counterpoint in cog analy-sis and compositional exercises in styles of given peri-ods. May be repeated once for credit. May be con-textually scheduled with course C122.

C225. Historical and Philosophical Foundations of Music Education. (4) Lecture, three hours. De-signed for graduate students. Development of music education in the U.S. according to established schools of thought. May be concurrently scheduled with course C185. Additional assignments, as well as evidence of greater depth of study, required of gradu-ate students.

C226. Electronic Music Composition. (4) Lecture, three hours; laboratory, three hours. Preparation: ad-vanced experience and accomplishment in serious composition (art music), two years of music theory. Designed for graduate students. Limited enrollment. Exercises in electroacoustic orchestration, meta-pitch composition, notation software (Sibelius), sequencing and film scoring software (Logic), text collages (ProTools), and final project. May be concurrently scheduled with course C176. S/U or letter grading.

251. Seminar: Orchestration. (4) (Formerly num-bered 251A) Seminar, three hours. Advanced or-chestration for large ensembles; analysis of orchestral literature. Letter grading.

252. Seminar: Composition. (4) (Formerly num-bered 252A) Seminar, three hours. Compositional projects for varying acoustic instrumental and vocal ensembles. Students expected to perform their com-positions from sketches at piano or present notation files of work-in-progress with playback file, where ap-propriate. Performance of completed works in gradu-ate composition concerts by UCLA student perform-ers. S/U or letter grading.

253. Seminar: Special Topics in Composition and Theory. (4) (Formerly numbered 251B) Seminar, three hours. Intensive exploration of specialized as-pects of composition. May be repeated for credit. S/U or letter grading.

254. Advanced Music Analysis: Pre-Tonal Music. (4) Seminar, three hours. Designed to provide gradu-ation composition students with in-depth exposure to complex and rich works of late Middle Ages through dawn of baroque era. Exploration of analytical tech-niques and methods not commonly used in analysis of works of tonal and post-tonal periods, and ap-proaches to musical structures used by composers before modern tonal harmonic syntax had fully devel-oped. Letter grading.

260A. Seminar: Composition for Motion Pictures and Television. (6) Seminar, three hours; laboratory, three hours. Practical experience in composing for commercial movies. Difference between underscore and source music and discussion of surrealistic effect with dreamy, repressive, dream, sequences, or montages. Study of three principal areas of filmmak-ing — preproduction, production (shooting), and post-production. Examples from classic movies and dis-cussion of their scores. Composition of actual cues for acoustic instruments coordinated to picture to be term project. Separate cues involve dialogue, melo-drama, comedy, chase, memory montage, and ten-tion. Letter grading.

260B. Seminar: Composition for Motion Pictures and Television. (6) Seminar, three hours; laboratory, three hours. Focus on one original theme score for television episode or original student film. Discussion of recent television shows. Composition of one original title song and short cues to someone else’s song required. Term assignment involves stu-dent orchestra recording to picture, designed to ap-proximate actual conditions of completing professional Hollywood assignment, from spotting to scoring. Letter grading.

261A-261F. Problems in Performance Practices. (4 each) Seminar, three hours; outside study, nine hours. Limited to graduate performance students. Inves-tigation of primary source readings in perfor-mance practices as related to period; analytical re-ports and practical applications in class demonstra-tions. May be repeated for credit. Letter grading.

261A. Medieval; 261B. Renaissance; 261C. Baroque; 261D. Classical; 261E. Romantic; 261F. Contem-porary.

C267. Selected Topics in Keyboard Literature. (4) Lecture, three hours. Corequisite: course 464A or 464B or 464C. In-depth study of selected topics in keyboard literature, preparation for perfor-mance through analysis, historical and compara-tive studies, and actual performances by participants. May be concurrently scheduled with course C167.

270A-270G. Seminars: Music Education. (6 each) Seminar, three hours. May be repeated for credit. 270A. History; 270B. Non-Western Musics; 270C. Curriculum Innovations; 270D. Tests and Measure-ments; 270E. Choral Literature; 270F. Instrumental Literature; 270G. General Topics.

271. Music and Electronic Technology. (4) (Lec-ture, four hours; media laboratory, one hour. De-signed for graduate music performance students. Sur-vey of music and its place in emerging digital world of the arts, including training in arranging and multime-dia production.

CM282. Music Industry. (4) (Same as Ethnomusical-ogy CM282 and Musicology CM288.) Lecture, four hours; outside study, eight hours. Limited to Ethnomu-sicology, Music, and Musicology majors. Examination of influence of music industry on way music is creat-ed, performed, listened to, evaluated, and used today. Historical approach taken, beginning with music pub-lished in 18th century and continuing through develop-ment of audio recordings to MTV and popular mu-sic today. Concurrently scheduled with course C225. Letter grading.

290. Composition Forum. (2) Seminar, two hours. Weekly forum to present professional composers of range of mediums, including large ensemble vocal and/or instrumental works, chamber music, electronic music, and filmmusic, as guest lecturers. Letter grading.

330. Introduction to Orff Schulwerk. (2) Lecture, two hours; discussion, five hours; laboratory, 15 hours. In-tended for teachers of music, church musicians, and music therapists who have had little or no previous ex-perience with Orff Schulwerk. Introduction to Orff Schulwerk, including history, philosophy, and teaching processes of this approach to music instruction for children. Offered in summer only. S/U or letter grading.

S331A-S331B-S331C. Orff Schulwerk Training Courses. (4-4-4) Lecture, ten hours; discussion, five hours; laboratory, 15 hours. Requisite: course 330. Course S331A is requisite to S331B, which is requi-site to S331C. In-depth courses in teaching of Orff Schulwerk approach to music instruction for children. Students who successfully complete each course are eligible for Orff Schulwerk certification by the American Orff Schulwerk Association. Offered in summer only. S/U or letter grading. S331A. Level I (Begin-ning), S331B. Level II (Intermediate); S331C. Level III (Advanced).
S341. Conducting for High School and College Band/Wind Ensemble Teachers. (2) Lecture, 25 hours. Comprehensive view of current trends in band/wind ensemble programs, including nonverbal communication, conducting, and rehearsal techniques. Study of new and recently published literature and discussions of administration of a band/wind ensemble program. May be repeated for credit without limitation. Offered in summer only. S/U or letter grading.

S342. Contemporary Marching Band. (1) Lecture, 12 hours. Innovative approaches to marching band programs for high school and college teachers, including creative approaches to charging and drill design and use of microcomputers. May be repeated for credit without limitation. Offered in summer only. S/U or letter grading.

S343. Effective and Creative String Teaching. (2) Lecture, 24 hours. Comprehensive course for teachers of string classes and string orchestras at elementary, junior high, and high school levels. Topics include development of instructional techniques for violins, viola, cello, and bass; critical examination of current pedagogical materials; and reading sessions of recently published music for string orchestra. May be repeated for credit without limitation. Offered in summer only. S/U or letter grading.

S343L. Effective and Creative String Teaching Laboratory. (1) Laboratory, 12 hours. Exploration of string orchestra, ensemble, and chamber music literature appropriate for junior high, high, and college schools. Examination of this literature in reading and discussion sessions. May be repeated for credit without limitation. Offered in summer only. S/U or letter grading.

S345. Symphony on Art of Choral Music. (2) Lecture, 25 hours. Symposium for college, high school, and junior high school choral directors on development of practical techniques for solving real challenges in choral conducting. Topics include innovative choral methods, choral conducting, vocal pedagogy, voice classification, and survey of standard and current choral literature. Offered in summer only. S/U or letter grading.

350A. Introduction to Computer-Assisted Instruction of Music. (2) Lecture, three hours; laboratory, two hours. Introduction to instructional uses of computers in music classroom, with emphasis on practical information necessary to intelligently purchase and implement microcomputers in schools. Courseware to be experienced and reviewed, jargon defined and illustrated, and practical hands-on experience obtained. May be repeated for credit without limitation. Offered in summer only. S/U or letter grading.

350B. Exploration of MIDI Computer Resources: Keyboards and Synthesizers. (2) Lecture, two hours; laboratory, three hours. Creative use of MIDI-based synthesizers under computer control. Exploration of available hardware resources allied with various software sequencing packages. Use of software for computer-based music printing. Hands-on experience. May be repeated for credit without limitation. Offered in summer only. S/U or letter grading.

371. Marching Band in Secondary Education. (2) Study of contemporary marching band as a component of the music curriculum in secondary education, including current approaches, practices, and problems associated with the marching band, as well as historical perspective. S/U or letter grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

401. New Music Forum. (2) Tutorial/laboratory. Preparation: one year of graduate study in music at UCLA. Interactive course in preparation and performance of a premiere work composed for a graduate performer or performers by a graduate composer at UCLA.

469. Instrumental Pedagogy. (4) Lecture, three hours; discussion, one hour; Preparation: advanced proficiency in voice. Designed for graduate music students. Study of art of teaching a musical instrument, including discussions of philosophy of teaching, learning process itself, and teaching of musical interpretation. Individualized study of various considerations, such as physical/technical aspects and pedagogical repertoire, peculiar to teaching student's primary instrument. Letter grading.

470. Opera Studio for Graduate Students. (4) Laboratory, six hours. Designed for graduate students. Performance techniques and repertoire for graduate students in opera.

471. Vocal Pedagogy. (4) Lecture, three hours; discussion, one hour; Preparation: advanced proficiency in voice. Designed for graduate music students. Study of teaching techniques for voice, including thorough investigation of the vocal mechanism and its use, plus study of noted teachers of the past and present. Further emphasis on practical teaching experience in class.

472. Master Class in Opera. (6) Studio, three hours; outside study, 15 hours. Limited to graduate performance students. Intensive study and preparation of opera literature. May be repeated for credit. S/U or letter grading.

475. Master Class in Conducting. (6) Studio, three hours; outside study, 15 hours. Limited to graduate performance students. Intensive study and preparation of musical literature in specialized field of conducting. May be repeated for credit. S/U or letter grading.

480. UCLA Chorale. (2) Activity, four hours. Preparation; audition. Designed for M.M. and D.M.A. students. Select mixed ensemble of 50 to 60 voices performing choral music appropriate for a concert choral ensemble, with emphasis on music after 1700. May be repeated for credit without limitation. May be concurrently scheduled with course C90A.

481. Symphony Orchestra. (2) Activity, four hours. Preparation: audition. Group performance of symphonic literature, as well as orchestral accompaniment for operatic and major choral works. May be repeated for credit without limitation. May be concurrently scheduled with course C90E. S/U or letter grading.

482. Wind Ensemble. (2) Activity, four hours. Preparation: audition. Designed for M.M. and D.M.A. students. Group performance of concert literature for wind ensemble. May be repeated for credit without limitation. May be concurrently scheduled with course C90G.

485. Chamber Ensembles. (2) Preparation: audition. Students must be at advanced level of their instrument to participate. Applied study of performance practices of literature appropriate to the ensemble. Students may enroll in two sections per term; total of 12 units may be applied toward degree requirements. May be concurrently scheduled with course C175. S/U or letter grading.

495. Introductory Practicum for Teaching Apprentices in Music. (2) Eight weekly two-hour seminar sessions, plus intensive training session during Fall Quarter registration week. Preparation: appointment as teaching assistant in Music Department. Required of all new teaching apprentices. Special course dealing with problems and practices of teaching music at college level. May not be applied toward degree requirements. S/U grading.

496. Technology Seminar. (2) Seminar, two hours; laboratory, one hour; outside study, three hours. Introductory to departmental and campuswide technology resources, exploration of applications of technology in education, and development of means of using technology to assess and document teaching competence. S/U grading.

596A. Directed Individual Studies in Orchestration and Composition. (2, 4, or 6) Tutorial, to be arranged. Only 4 units may be applied toward M.A. or M.M. degree requirements. May be repeated for credit. S/U or letter grading.

596B. Directed Individual Studies in Music Education. (2, 4, or 6) Tutorial, to be arranged. Only 4 units may be applied toward M.A. or M.M. degree requirements. May be repeated for credit. S/U or letter grading.

596C. Directed Individual Studies in Performance Practices. (2 to 12) Tutorial, to be arranged. Only 4 units may be applied toward M.A. or M.M. degree requirements. May be repeated for credit. S/U or letter grading.

597. Preparation for Master's Comprehensive Examination or Ph.D. Qualifying Examinations. (2 or 4) Tutorial, to be arranged. S/U grading.

598. Guidance of M.A. Thesis. (4, 8, or 12) Tutorial, to be arranged. Only 4 units may be applied toward degree requirements. May be repeated for credit. S/U grading.

599. Guidance of Ph.D. or D.M.A. Dissertation. (4, 8, or 12) Tutorial, to be arranged. May be repeated for credit. S/U grading.

Raymond L. Knapp, Ph.D., Chair
Timothy D. Taylor, Ph.D., Vice Chair

Professors
Raymond L. Knapp, Ph.D.
Susan K. McClary, Ph.D.
Timothy D. Taylor, Ph.D.
Robert Waisler, Ph.D., D.M.A.

Professors Emeriti
Murray C. Bradshaw, Ph.D.
Malcolm S. Cole, Ph.D.
Frank A. D'Acco, Ph.D.
Emerson L. Gollner, Ph.D.
Richard A. Hudson, Ph.D.
Robert M. Stevenson, Ph.D.

Associate Professors
Robert W. Fink, Ph.D.
Elisabeth C. Le Guin, Ph.D.
Tamara J.M. Levitz, Ph.D.
Mitchell B. Morris, Ph.D.
Assistant Professors
Olivia A. Bloechl, Ph.D.
Elizabeth Randelli Upton, Ph.D.

Scope and Objectives
The Department of Musicology provides students with a broad understanding of the history of music. Courses cover virtually every period, style, and genre, including jazz and other popular musics.

Music history appeals to undergraduate students with musical backgrounds whose interests and principal career goals lie in areas other than professional performance. The undergraduate program prepares students for graduate programs in music and related fields and offers training within the broader context of the humanities.

The graduate program offers courses leading to the M.A. and Ph.D. degrees. It is designed to equip students to pursue careers not only in teaching but also in other areas that require bibliographical skills and training in research methodologies. The department provides teaching and research assistantships each year for qualified students.

Undergraduate Study
Music History B.A.
Admission
The Music History program assumes that students have some musical background before entering UCLA. Although auditions are not required, prospective majors should be sufficiently competent on an instrument or in voice to participate in a performance group, as required by the program.

Preparation for the Major
Required: Music 20A, 20B, 20C, Music History 26A, 26B, 26C, 88, and 6 units (three terms) of performance organizations selected from Ethnomusicology 91A through 91Z, Music C90A through C90M, or Music History 28A through 28C. Enrollment in Music 20A requires a minimum score on the Music Theory Placement Examination administered by the Music Department or successful completion of Music 3 (or a comparable year-long college-level music theory sequence). Students with limited musician- ship skills may find it useful to enroll in Music 4A, 4B, 4C concurrently with Music 20A, 20B, 20C. Transfer applicants may petition to waive courses 20A, 20B, 20C if they have completed equivalent work prior to enrolling at UCLA.

Transfer Students
Transfer applicants to the Music History major with 90 or more units must complete the following courses prior to admission to UCLA: one year of music theory and one year of music history and analysis. Experience in music performance is strongly recommended. Transfer students are required to take Music History 26A, 26B, 26C at UCLA but are exempt from course 88.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Music 120A, 120B, 120C, Music History 126A, 126B, 126C, 190 (concurrent with either 198 or 199), 193C, 193D; two courses from Music History 191A through 191G; one course from 160 through 185; one additional 4- to 6-unit upper division course; and one upper division ethnomusicology course (4 to 5 units). Students not pursuing departmental honors must take course 199 (2 units) in Fall Quarter of their senior year. Students may petition to substitute theory or analysis courses in ethnomusicology or music history for one or more of Music 120A, 120B, 120C, as appropriate. Students may enroll in lessons from the Music Department, if instructors are available.

Each course applied toward the major must be taken for a letter grade (courses offered only on a P/NP grading basis are acceptable).

Honors Program
The honors program is designed for Music History majors who wish to carry out an extended independent research project that culminates in a departmental honors thesis of approximately 30 pages. The program gives qualified students the opportunity to work closely with individual professors on an in-depth supervised research and writing project.

All junior and senior Music History majors who have completed a minimum of four upper division music history courses with a departmental grade-point average of 3.7 or better and an overall GPA of 3.0 or better are eligible to apply. Normally, the thesis must be completed during Fall Quarter of the senior year.

To qualify for graduation with departmental honors, students must (1) complete all requirements for the major, (2) have a cumulative grade-point average of 3.7 or better in upper division courses in the department and an overall GPA of 3.0 or better, and (3) complete at least one quarter of Music History 198 with a grade of A– or better on the resulting thesis.

To qualify for graduation with departmental highest honors, students must (1) complete all requirements for the major, (2) have a cumulative GPA of 3.9 or better in upper division courses in the department and an overall GPA of 3.65 or better, and (3) complete at least one quarter of Music History 198 with a grade of A or better on the resulting thesis.

Music History Minor
The Music History minor provides undergraduates with an overview of music history and the study of music. Students may select from a wide variety of undergraduate courses that range through the history of European and American music.

To enter the minor, students must have an overall grade-point average of 2.0 or better and file a petition with the department in 2443 Schoenberg Music Building. For further information, contact the department at (310) 206-5187.

Required Lower Division Courses (10 units):
Two courses with grades of C or better.

Required Upper Division Courses (18 to 22 units):
Music History 193A, 193B, one course from 160 through 185 (6 units), and two additional 4- to 6-unit upper division courses.

No more than two courses may be applied toward both this minor and a major or minor in another department or program.

Each minor course must be taken for a letter grade (courses offered only on a P/NP grading basis are acceptable), with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of Musicology offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Musicology.

Music History
Lower Division Courses
2. The Beatles. (5) Lecture, four hours; discussion, one hour. Survey of music of Western classical tradition, with emphasis on historical context, musical meanings, and creation of the tradition itself. P/NP or letter grading.
3. History of Rock and Roll. (5) Lecture, four hours. Examination of life and music of the Beatles within social and historical context of the 1960s. P/NP or letter grading.
4. The Beatles. (5) Lecture, four hours. Examination of life and music of the Beatles within social and historical context of the 1960s. P/NP or letter grading.
5. History of Rock and Roll. (5) Lecture, four hours. Analysis of forms, practices, and meanings of rock and roll music, broadly conceived, from its origin to the present. Emphasis on how this music has reflected and influenced changes in sexual, racial, and class identities and attitudes. Letter grading.
6GA-6GB. Musicianship for Musicology Graduate Students. (2-2) Seminar/laboratory, three hours. Designed to help entering graduate students remedy entrance deficiencies. S/U grading.
7. Film and Music. (5) Lecture, four hours; film viewing, two hours. History of music and cinema, particularly ways music is used to produce meanings in conjunction with visual image. P/NP or letter grading.
65. Blues in American Music. (5) (Formerly numbered 22.) Lecture, four hours. History of blues, both as specific genre and as range of techniques and approaches that have been at center of American music and culture, from 19th-century roots to present. Ex- ploration of commonly accepted blues mainstream exemplified by figures like Bessie Smith, Robert John- son, and B.B. King, but also central role blues has played in jazz, folk, country, gospel, rock, soul, and rap. While following evolution of music through 20th century, examination of how blues has served as met- aphor for African American culture as it permeates American traditions. P/NP or letter grading.

70. Beethoven. (5) (Formerly numbered 34.) Lecture, four hours. Designed for undergraduate stu- dents. Life and works of Ludwig van Beethoven. P/NP or letter grading.

72. Sacred Music. (5) (Formerly numbered 139.) Lecture, four hours; discussion, one hour. Study of form and analysis of Western church music. P/NP or letter grading.

75. History of Jazz. (5) (Formerly numbered 150.) Lecture, four hours; discussion, one hour. History and analysis of various jazz styles, from early 19th-centu- ry forerunners to the present, with emphasis on social meanings of musical practices. Letter grading.

88. Sophomore Seminars: Music History. (2) Sem- inar, two hours. Designed for sophomore Music Histo- ry majors or students interested in pursuing Music History major. Introduction to music history as aca- demic discipline, with particular emphasis on musicologi- y at UCLA. Study of music and its history and con- sideration of theoretical issues central to musicology as it is practiced today, including gender and sexuality, music and politics, race, popular music studies, and jazz studies. Letter grading.

Upper Division Courses

126A-126B-126C. History and Analysis of Music II. (5-5-5) Lecture, four hours; laboratory, one hour. Req- uisites: course 26C. Music 20A, 20B, 20C. Course 126A is requisite to 126B, which is requisite to 126C. Students must receive a grade of C– or better to proceed to next course in sequence. His- tory and literature of music from ancient world to 1815, with emphasis on analysis of representative works of each style period. Materials selected illustrate history of style and changing techniques of com- position. Letter grading.

60. American Musical. (5) (Formerly numbered 45.) Lecture, four hours; discussion, 90 minutes. Survey of American musical in the 20th century, beginning with its roots in operaetta, vaudeville, and Gilbert and Sulli- van, and focusing on its connections to politics, tech- nology, film, opera, and variety of popular musical styles, including Tin Pan Alley, jazz, and rock. P/NP or letter grading.

62. Mozart. (5) (Formerly numbered 132.) Lecture, four hours; discussion, one hour. Designed for stu- dents who do not read music. Life, works, and mythol- ogy of Wolfgang Amadeus Mozart, in context of both his age and our own. P/NP or letter grading.

63. Bach. (5) (Formerly numbered 133.) Lecture, four hours; discussion, one hour. Designed for undergradu- ate students. Life and works of Johann Sebastian Bach. P/NP or letter grading.

64. Motown and Soul: African American Popular Music of 1960s. (5) Lecture, four hours; discussion, one hour. Survey of African American music in post-World War II African American popular music, with special atten- tion to musical achievements of Motown Records, Stax, and other rhythm and blues, funk, and soul music centers of production. Limited to students who do not read music and wish to examine the ways of musical forms and cultural issues of the 1960s, including Civil Rights Movement, counterculture, black national- ism, capitalism, and separatism, and larger dimen- sions of African American experience as mediated through groove-based music. P/NP or letter grading.

88. Sophomore Seminars: Music History. (2) Sem- inar, two hours. Designed for music history majors or students interested in pursuing music history major. Introduction to music history as aca- demic discipline, with particular emphasis on musicologi- y at UCLA. Study of music and its history and con- sideration of theoretical issues central to musicology as it is practiced today, including gender and sexuality, music and politics, race, popular music studies, and jazz studies. Letter grading.

126A-126B-126C. History and Analysis of Music II. (5-5-5) Lecture, four hours; laboratory, one hour. Req- uisites: course 26C. Music 20A, 20B, 20C. Course 126A is requisite to 126B, which is requisite to 126C. Students must receive a grade of C– or better to proceed to next course in sequence. His- tory and literature of music from ancient world to 1815, with emphasis on analysis of representative works of each style period. Materials selected illustrate history of style and changing techniques of com- position. Letter grading.

M136. Music and Gender. (5) (Same as Women’s Studies M136.) Lecture, four hours; discussion, one hour. Analysis of gender ideologies in several musical cultures; representations of gender, the body, and sexuality by both male and female musicians; contrib- utions of women to Western art and popular musics; methods in feminist and gay/lesbian theory and criti- cism. Letter grading.

M137. Gay and Lesbian Perspectives in Pop Mu- sic. (5) (Same as Lesbian, Gay, Bisexual, and Trans- gender Studies M137.) Lecture, four hours in discussion, one hour. Survey of English-language popular music in the 20th century, with focus on lesbians, gay men, and members of other sexual minorities as creators, per- formers, and audience members. Letter grading.

140. Music, Media, and Consumer Society. (4) Lecture, four hours. Consideration of impact of re- cording technologies (gramophone, tape recorder, Walkman, sampler, broadcast media (radio, television, MTV, Internet), and global capitalism (record la- bels, advertising, Muzak) on way we consume and are consumed by music. How music functions and makes sense to musicians, audiences, behind-the-scenes, and in semiotic fabric of everyday life. Letter grading.

166. Blues in American Music. (4) Lecture, four hours; discussion, one hour. Enforced corequisite: attendance, but not enrollment, in course 72 lecture. Introduction to some ways that music has been held to embody, sup- port, and enact sacredness, including experience of both home (skull sense of transcendental, work of liturgy, and intersections of music, politics, and religion. Letter grading.

CM186. Music Industry. (4) (Same as Ethnomusi- cology CM182 and Music CM182.) Lecture, four hours; outside study, eight hours. Limited to Ethnomusico- logy, Music, and Music History majors. Examination of influence of music industry on music; how the industry is created, performed, listened to, evaluated, and used today. Historical approach taken, beginning with music pub- lished in 18th century and continuing through develop- ment of audio recordings to MTV and popular mu- sic today. Concurrently scheduled with course CM288. Letter grading.
188. Topics in Music History. (4) Lecture, three hours; laboratory, one hour. Variable topics selected from several outstanding composers in Western art music. Consent of Schedule of Classes for topics to be offered. May be repeated for credit. Letter grading.

190. Research Colloquia in Music History. (1) Seminar, one hour. Designed for senior Music History majors. Students designed to bring together students under-taking supervised tutorial research in seminar setting with one or more faculty members to share their work with their peers, as well as act as interlocutors for other course members. Students expected to present their work and to discuss and help critique works of others at similar stage of development. P/NP grading.

193A. Music History Journal Club Seminars for Minors. (2) Seminar, two hours. Limited to Junior/se- nior Music History minors. Overview of music history as academic discipline to introduce students to read- ings and lectures on current topics in field. Study of music and its history under number of guises, includ- ing historical study of music, addressing both re- search methodologies and historical narratives. Theo- retical issues central to musicology as it is practiced at UCLA and elsewhere, including gender and sexual- ity, music and politics, race, popular music studies, and jazz studies. P/NP grading.

193B. Music History Performance Seminars for Minors. (2) Seminar, two hours. Limited to senior Mu- sic History minors. Overview of how music historians engage with issues of musical performance. Consider- ation of how historical concerns, theoretical issues, and methodologies can inform music as practice, espe- cially as it is performed, recorded, listened to, danced to, and otherwise "consumed." P/NP grading.

193C. Music History Journal Club Seminars for Majors. (2) Seminar, two hours. Limited to Music His- tory majors. Introduction to discipline through discus- sion of readings and lectures on current topics in field, with focus especially on its practice at UCLA, and ad- dressing research methodologies and development of bibliographic control. Normally taken in junior year. P/ NP grading.

193D. Music History Performance/Analysis Semi- nars for Majors. (2) Seminar, two hours. Recom- mended requisite: course 193C. Limited to Music His- tory majors. Introduction to how music historians en- gage with issues of musical performance, and of how historical concerns, theoretical issues, and methodol- ogies can inform music as practice, especially as it is performed, recorded, listened to, danced to, and oth- erwise consumed. Continued attention to issues of bibliographic control. Normally taken in senior year. P/ NP grading.

197. Individual Studies in Music History. (2 to 4) Tutorial, two hours. Limited to juniors/seniors. Individ- ual intensive study, with scheduled meetings to be ar- ranged between faculty member and student. As- signed reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

198. Honors Research in Music History. (2 to 4) Tutorial, two hours. Preparation: completion of mini- mum of four upper division music history courses with departmental grade-point average of 3.5 or better and overall GPA of 3.0. Limited to junior/senior Music His- tory majors. One- to two-term independent research study project under supervision of appropriate faculty member, culminating in department honors thesis of approximately 25 pages. May be repeated for credit. Individual contract required. P/NP or letter grading.

199. Directed Research in Music History. (2 to 4) Tutorial, two hours. Preparation: completion of mini- mum of four upper division music history courses with departmental grade-point average of 3.0 or better and overall GPA of 3.0. Limited to junior/senior Music History majors. Supervised individual research under guidance of faculty mentor. Culminating paper or project required. May be repeated for maximum of 12 units. Individual contract required. P/NP or letter grading.

Musicology

Graduate Courses

200B. Historiography and Cultural Theory. (6) Seminar, three hours. Designed for graduate musicol- ogy, ethnomusicology, and music studies. Critical examination of methodologies and procedures that inform historical study of music, with emphasis on impact of recent cultural theory. Letter grading.

200C. Analysis and Criticism. (6) Seminar, three hours. Designed for graduate musicology, ethnomusi- cology, and music studies. Introduction to recent de- velopments in field of musicology, with focus on prob- lems of how music operates as cultural practice and how musical meanings can most effectively be ana- lyzed. Letter grading.

M201. Repertory and Analysis. (2) (Formerly num- bered 201.) (Same as Music M201.) Seminar, two hours. Requisite or corequisite: course 200A. Explo- ration of defined repertory through readings and anal- ysis. Specific topics vary. May be repeated for credit. S/U grading.

210. Medieval Notation. (4) Seminar, three hours. Vocal and instrumental notation; paleography of peri- od. S/U or letter grading.

211. Renaissance Notation. (4) Seminar, three hours. Vocal and instrumental notation; paleography of period. S/U or letter grading.

220. Divine Love in 17th-Century Music. (4) Semi- nar, three hours. Designed for graduate students. During 17th-century Counter-Reformation, many art- ists drew on concepts of divine love and mystical ec- stasy to instill personal devotion among religious practitioners. Examination of often profoundly erotic music composed for spiritual purposes within this cul- tural context. Letter grading.

222. Music of Guillaume Dufay. (4) Seminar, three hours. Designed for graduate musicology students. Through study of Dufay's life and music, students be- come familiar with those scholarly methods specific- ally pertinent for study of early music in general and Du- fay's music in particular and extend their analysis and interpretation of Dufay's music and 15th-century mus- ical culture. Letter grading. Specific topics vary from year to year. May be repeated for credit. Meets with corresponding course from 260A through 265G series currently offered in both courses not allowed. Letter grading. 220A. Medi- eval; 220B. Renaissance; 220C. Baroque; 220D. Classical; 220E. Romantic; 220F. 20th Century; 220G. Variable Topics.
261A-261F. Performance Practices. (4 each) Seminar, three hours. Designed for graduate students. Investigation of primary source readings in performance practices as related to period: analytical reports and practical applications in class demonstrations. May be repeated for credit. Letter grading. 261A. Medieval; 261B. Renaissance; 261C. Baroque; 261D. Classical; 261E. Romantic; 261F. Contemporary.

262. Contemporary Popular Music Studies. (4) Seminar, three hours. Designed for graduate students. Critical exploration of methodologies of interdisciplinary field of popular music studies. Analysis of how music, lyrics, and visual images produce meanings within contexts shaped by mass mediation, capitalism, and political realities of gender, class, and race.

264. Seminar: Topics in Musicology. (6) Seminar, three hours. Designed for graduate students. Specific topics vary from term to term. May be repeated for credit.

265A-265G. Seminars: Historical Musicology. (2 each) (Formerly numbered 265A-265F) Seminar, three hours. Requisite or corequisite: course 2004. Specific topics vary from year to year. May not be applied toward M.A. or Ph.D. degree requirements. May be repeated for credit. Meets with corresponding course from 260A through 260G series; concurrent enrollment in both courses not allowed. S/U grading. 265A. Medieval; 265B. Renaissance; 265C. Baroque; 265D. Classical; 265E. Romantic; 265F. 20th Century; 265G. Variable Topics. CM288. Music Industry. (4) Same as Ethnomusicology CM288 and Music CM282. Lecture, four hours; outside study, eight hours. Limited to Ethnomusicology, Music, and Musicology majors. Examination of influence of music industry on way music is created, performed, listened to, evaluated, and used today. Historical approach taken, beginning with music published in 18th century and continuing through developments of audio recordings to MTV and popular music today. Concurrently scheduled with course CM186. Letter grading.

295. Research Topics in Musicology. (2 to 4) Seminar, two to four hours. Preparation: consultation with instructor. Designed for musicology graduate students. Advanced study and analysis of current topics in musicology. Discussion of current research and literature in research specialty of faculty member teaching course. May be repeated for credit. S/U grading.

296. Seminar: Research Methods. (2) Seminar, two hours. Limited to second-year musicology graduate students and students with master's degrees. Development of advanced knowledge and bibliographic control in three historically separate areas of musicological specialization. May be repeated for credit. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Introductory Practicum for Teaching Apprentices in Musicology. (2) Eight weekly two-hour seminar sessions, plus intensive training session during Fall Quarter registration week. Preparation: appointment as teaching apprentice in Music or Musicology Department. Required of all new teaching apprentices. Special course dealing with problems and practices of teaching music at college level. May not be applied toward degree requirements. S/U grading.

569. Directed Individual Study. (2, 4, or 6) Tutorial, to be arranged. Limited to graduate students. S/U or letter grading.

579. Preparation for M.A. Comprehensive Examination or Ph.D. Qualifying Examinations. (2 or 4) Preparation: completion of all M.A. or Ph.D. course and language requirements. Limited to graduate students. S/U grading.

Michael Fishbein, Ph.D.
Latteh E. Hagigi, M.A.
Anahid Keshishian, Ph.D.

Adjunct Assistant Professor
David G. Hirsch, M.A.

Scope and Objectives

The mission of the Department of Near Eastern Languages and Cultures is the discovery, interpretation, dissemination, and preservation of human values created over a period of five or more thousand years in an area that was the cradle of all civilization.

The department offers instruction in the major modern and ancient languages of the Near East: Akkadian, ancient Egyptian, Arabic, Armenian, Berber, Coptic, Hebrew, Persian, and Turkish. To meet increasing demands for a knowledge of this area and its past and present, it treats each language in a wide perspective — as a means of communication, as a vehicle of a cultural heritage, as a research tool for the area, and as an object of research itself.

Undergraduate majors may be taken in Ancient Near Eastern Civilizations, Arabic, Hebrew, Iranian, and Jewish Studies. M.A. and Ph.D. programs are offered in ancient Near Eastern Civilizations, Arabic, Armenian, Hebrew, Iranian, Semitics, and Turkish.

Courses in the department prepare students for careers in government, foreign trade, teaching abroad, journalism abroad, archaeology, and further academic work involving the area.

Undergraduate Study

The department offers the Bachelor of Arts degree in five fields: (1) Ancient Near Eastern Civilizations, (2) Arabic, (3) Hebrew, (4) Iranian Studies, and (5) Jewish Studies. In each of these fields students must meet the requisites and take the courses prescribed. Their adviser assists in selecting a plan of study developed around their interests.

Students may combine their major with one in another department (double major) to enhance their educational opportunities. Due to the number of additional courses required, they are advised to consider this option early in their academic career and in consultation with program advisers in both majors.

Ancient Near Eastern Civilizations B.A.

There are four options for a major in Ancient Near Eastern Civilizations: (1) Mesopotamia, (2) Egypt, (3) Near Eastern archaeology and cultures, and (4) biblical studies.

Preparation for the Major

Requisite for all options: Near Eastern Languages 50A; requires for options 1, 2, and 3: German 1, 2, 3 (French 1, 2, 3 may be substituted); requires for option 4: Hebrew 1A, 1B, 1C. Majors in all four fields are encouraged to continue their language study beyond the requisite levels.

Transfer Students

Transfer applicants to the Ancient Near Eastern Civilizations major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one civilization course for all options, one year of German or French for the options in Mesopotamia, Egypt, and Near Eastern archaeology and cultures, and one year of Hebrew for the biblical studies option.
The Major
Majors in all four options are required to take 14 upper division courses selected in consultation with the program adviser.

Majors selecting option 1 (Mesopotamia) are required to take 14 courses as follows: four language courses (Semitics 140A, 140B, 141, 142) and two literature and history courses (Ancient Near East M104, 150A). The remaining eight courses are to be selected from Ancient Near East M103A, M103B, 130, 140A, 140B, 140C, 145, 150B, 150C, 160, 161, 162, 163, 164A, 164B, 164C, 170, Iranian 169, Jewish Studies M150A. One course must be in research methodology (such as Anthropology C115R, 130, 150, English 140A, or Linguistics 110) taken preferably in another department with the consent of the adviser.

Majors selecting option 2 (Egypt) are required to take 14 courses as follows: four language courses (Ancient Near East 120A, 120B, 120C, 121A) and three literature and history courses (Ancient Near East M103A, M103B, 150B). The remaining seven courses are to be selected from Ancient Near East M104, 121B, 121C, 123A, 123B, 124, 130, 150A, 150B, 150C, 160, 161, 162, 163, 164A, 164B, 164C, 170, Art History M101A, M101B, Iranian 169, Jewish Studies M150A, M182A. One course must be in research methodology (such as Anthropology C115R, 130, 150, English 140A, or Linguistics 110) taken preferably in another department with the consent of the adviser.

Study Abroad
Students are encouraged to spend time abroad either to (1) study with an education abroad program or (2) work on a UCLA-affiliated archaeological excavation in the broader Middle East. For information on studying abroad, contact the Education Abroad Program, B300 Murphy Hall, (310) 825-4995; for UCLA-affiliated excavations, contact the departmental student affairs officer at (310) 825-4165.

Arabic B.A.
Preparation for the Major
Required: Arabic 1A, 1B, 1C.
Transfer Students
Transfer applicants to the Arabic major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one year of Arabic.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

Iranian Studies B.A.
Students majoring in Iranian Studies may combine the major with specialization in other fields to enhance their career opportunities. Due to the number of additional courses required, they are advised to consider this option early in their academic career.

Preparation for the Major
Required: Persian 1A, 1B, 1C, or equivalent.
Transfer Students
Transfer applicants to the Iranian Studies major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one year of Persian.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

Jewish Studies B.A.
Students must select one of five tracks: (1) Jewish history, (2) Jewish religions, (3) Jewish literature and culture, (4) American Jewish literature and culture, or (5) Israeli studies.

Preparation for the Major
Required: Jewish Studies 10.
Transfer Students
Transfer applicants to the Jewish Studies major with 90 or more units must complete the following introductory course prior to admission to UCLA: one social, cultural, and religious institutions of Judaism course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Majors in all five tracks are required to take 14 upper division courses selected in consultation with the program adviser, including seven required core courses, five courses within the selected track, and two electives to be chosen.
Studies 142, 151B, 175, M182B, M184D, 197, the core courses for the major: Hebrew 111A, required to complete Hebrew 103A, 103B, 103C, for the Israeli studies track, students are re- 140A, 140B, M151A, 177, M182F , M184C, duced but not required. Students are encouraged to take a research tutorial within Jewish Studies 197 or 199. A maximum of two 197 or 199 courses (8 units total) may be applied toward the major. A course may be applied toward only one cate- gory within the major (i.e., core requirement, track requirement, or electives). No more than 20 units may be applied toward both the Jew- ish Studies major and a major or minor in another department or program. For the Jewish history track, students are re- quired to complete the remaining two courses from Jewish Studies M182A, M182B, M182C, M184B and three courses from the following list, in addition to the core courses for the ma- jor: Ancient Near East 162, History M182D, 183A, 183B, 186A, 191A, 197, Jewish Studies 140A, 140B, 170, M182D, M182E, M182F, M184D, 197, 199. For the Jewish religion track, students are re- quired to complete Jewish Studies 150B and four of the following courses, in addition to the core courses for the major: Ancient Near East 162, English 108A, 108C, 199, Hebrew 120, 125, 130, History 186A, Jewish Studies 130, 135, M150A, M151A, 155, 170, M182A, M182B, M187, 197, 199. For the Jewish literature and culture track, stu- dents are required to complete Hebrew 103A, 103B, 103C, and two of the following courses, in addition to the core courses for the major: English 103, 108A, 108C, 182C, German 112, Hebrew 111A, 111B, 111C, 120, 125, 130, 140, Iranian 131, Jewish Studies 135, 143, M150A, 150B, M151A, 151B, 155, 170, 175, 177, M187, 197, 199. For the American Jewish studies track, students are required to complete Sociology 159 and four of the following courses, in addition to the core courses for the major: English 103, 182C, 199, History 197, Jewish Studies 135, 140A, 140B, M151A, 177, M182F , M184C, 199, Yiddish 101A, 101B, 101C, 102A, 102B, 104. For the Israeli studies track, students are re- quired to complete Hebrew 103A, 103B, 103C, and two of the following courses, in addition to the core courses for the major: Hebrew 111A, 111B, 111C, C140, History 183B, 197, Jewish Studies 142, 151B, 175, M182B, M184D, 197, 199, Political Science 121A, 132A, M132B, 139, 164, 199. **Study in Israel** Students are encouraged to spend up to one year in Israel either to (1) study with an educa- tion abroad program or (2) study at an Israeli university. For information on studying in Israel, contact the Education Abroad Program, B300 Murphy Hall, (310) 825-4889. **Arabic and Islamic Studies Minor** The Arabic and Islamic Studies minor is de- signed for students who wish to augment their major program with a group of related courses that provide a systematic introduction to the study of Arabic language and literature and Is- lam. To enter the minor, students must have an overall grade-point average of 2.0 or better, have completed Arabic 1A, 1B, 1C, or the equivalent as determined by the department, and file a petition in 378 Humanities Building, (310) 825-4165. **Required Upper Division Courses (28 units):** Seven courses in Arabic or Islamics; 199 courses may not be applied. With approval of the undergraduate adviser, two of the seven courses may be taken outside the department. Courses recommended as electives for the ma- jor in Arabic (Art History 104A, Geography 187, History 105A, 105B, 105C, 106A, 108B, Political Science 132A, M132B, 157) may be applied. Other courses may be applied as extra-depart- mental courses with approval of the adviser. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the mi- nor is indicated on the transcript and diploma. **Armenian Studies Minor** The Armenian Studies minor is designed for students who wish to augment their major pro- gram with a group of courses that provide a systematic introduction to the study of Arme- nian culture. To enter the minor, students must have an overall grade-point average of 2.0 or better, have completed Armenian 101A, 101B, 101C, or the equivalent as determined by the depart- ment, and file a petition in 378 Humanities Building, (310) 825-4165. **Required Upper Division Courses (28 units):** Seven courses from the Armenian section of the department; 199 courses may not be applied. At least one course from each of the three disciplines of language, literature, and history must be selected. Eligible language courses begin in the fourth quarter of study (i.e., course 102A for Western Armenian, course 105A for Eastern Armenian). With ap- proval of the undergraduate adviser, two of the seven courses may be taken outside the de- partment. Ordinarily, the following courses may be applied: History 107A through 107E, 200S, 201S, 211A, 211B, 212, Indo-European Stud- ies M150. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the mi- nor is indicated on the transcript and diploma. **Hebrew and Jewish Studies Minor** To enter the Hebrew and Jewish Studies minor, students must have an overall grade-point av- erage of 2.0 or better, have completed Hebrew 1A, 1B, 1C, or the equivalent as determined by the department, and file a petition in 378 Hu- manities Building, (310) 825-4165. **Required Upper Division Courses (28 units):** Seven courses from the Hebrew or Jewish studies section of the department; 199 courses may not be applied. With approval of the under- graduate adviser and based on course con- tent, two of the seven courses may be taken outside the department. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the mi- nor is indicated on the transcript and diploma. **Near Eastern Languages and Cultures Minor** The Near Eastern Languages and Cultures mi- nor is designed for students who wish to aug- ment their major program in the College of Let- ters and Science with a group of related courses from various linguistic, literary, archaeo- logical, and historical disciplines of the Near East, from ancient Egypt, Mesopotamia, and biblical studies to the modern Arabic, Arme- nian, Iranian, Jewish, and Turkish world. To enter the minor, students must have an overall grade-point average of 2.0 or better and file a petition in 378 Humanities Building, (310) 825-4165. **Required Upper Division Courses (28 units):** Seven courses selected in consultation with an academic adviser from any of the courses of- fered by the department; 199 courses may not be applied. With approval of the undergraduate adviser, two of the seven courses may be taken outside the department, provided the content of the courses bears a direct relation to the culture of the Near East. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the mi- nor is indicated on the transcript and diploma. **Graduate Study** Official, specific degree requirements are de- tailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/ gasaal/library/pgmqrintro.htm. In many cases, more detailed guidelines may be outlined in an-
nouncements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of Near Eastern Languages and Cultures offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Near Eastern Languages and Cultures.

Ancient Near East
(Akkadian, Aramaic, Phoenician, and Ugaritic are listed under Semitics.)

Lower Division Course

10W. Jerusalem: Holy City. (5) Lecture, three hours; discussion, one hour. Enforced requisite: English Composition 3 or 3H or English as a Second Language 36. Survey of religious, political, and cultural history of Jerusalem over three millennia as symbolic focus of three faiths: Judaism, Christianity, and Islam. Transformation of sacred space as reflected by literary and archaeological evidence through examination of testimony of artifacts, architecture, and iconography in relation to written word. Study of creation of mythic Jerusalem through event and experience. Satifies Writing II requirement. Letter grading.

Upper Division Courses

M103A-M103B. Ancient Egyptian Civilization. (4-4) (Same as History M103A-M103B.) Lecture, three hours; discussion, one hour (when scheduled). Course M103A is not requisite to M103B. Designed for juniors/seniors. Political and cultural institutions of ancient Egypt and ideas on which they were based. P/NP or letter grading.

M104. History of Ancient Mesopotamia and Syria. Lecture, three hours. Survey of history of Mesopotamia from the beginning of the early dynastic period (3500 B.C.E.) to the fall of Babylonia (605 B.C.E.). Designed to introduce students to Mesopotamian history and culture; to acquaint them with key archaeological periods and sites; and to acquaint them with Mesopotamian thought and society. Required for students planning to take junior seminar in M105A. P/NP or letter grading.
230. Seminar: Ancient Syria/Palestine. (4) Seminar, three hours. Examination of selected topics on political, social, and intellectual history of ancient Israel. Exploration of how historical, social, and political contexts shaped and influenced interpretation and use of biblical texts. May be repeated for credit. S/U or letter grading.

240A-240B-240C. Seminars: Sumerian Language and Literature. (4-4-4) Seminar, two hours. Readings from various Sumerian periods and literary genres; selected problems in linguistic or stylistic analysis and literary history. S/U or letter grading.

M250. Seminar: Ancient Mesopotamia. (4) Same as History M207. Seminar, three hours. Selected topics on political, social, and intellectual history of ancient Mesopotamia. May be repeated for credit. S/U or letter grading.

250X. Seminar: Ancient Mesopotamia. (1) Seminar, three hours. Selected topics on political, social, and intellectual history of ancient Mesopotamia. Course for students who participate regularly in class meetings but without homework required in course M250. May be repeated for credit. S/U or letter grading.

260. Seminar: Ancient Near Eastern Archaeology. (2 to 4) Seminar, two hours. May be repeated for credit. S/U or letter grading.

261. Practical Field Archaeology. (2 to 8) Fieldwork, two hours. Participation in archaeological excavations or other archaeological research in Near East under staff supervision. May be repeated for credit. S/U or letter grading.

262. Seminar: Object Archaeology. (4) Seminar, two hours; laboratory, one hour. Selected topics in analysis and interpretation of Near Eastern archaeological finds in museum collections. Students work with objects in collections of Los Angeles County Museum of Art. S/U or letter grading.

263. Seminar: Egyptian Monuments. (4) Seminar, two hours. Selected monuments and sites in area of Luxor (Ancient Thebes), architecture and decoration of temples and tombs; structure and occupation of settlements. May be repeated. S/U or letter grading.

M265. Depositional History and Stratigraphic Analysis. (4) (Same as Archaeology M265.) Lecture, two hours. Theoretical understanding of depositional processes ("laws") which lead to site formation and of stratigraphic procedures to be used in recovery of embedded cultural materials. Study of issues covered in literature, with specific test cases from actual excavations and site reports. Coverage of theoretical implications of such disciplines as surveying and pedology with help of specialists. S/U or letter grading.

C266. Egyptian Archaeology. (4) Seminar, three hours. Hours. Requisite: one course from M103A, M103B, 130, or on Near Eastern Languages 50A. Opportunity to research aspects of topics in ancient Egyptian archaeology. Topics vary each year. May be repeated for credit. Concurrently scheduled with course C165. S/U or letter grading.

565. Directed Individual Study. (2 to 8) Tutorial, to be arranged. May be repeated for credit. S/U or letter grading.

130. Classical Arabic Texts. (4) Lecture, four hours. Requisite: course 103C. Readings from medieval literary texts, with grammatical and syntactical analysis. May be repeated for credit. Letter grading.

142. Arabic Media. (4) Lecture, four hours. Requ isite: course 103A. Development of facility with lan guage of Arabic press and broadcasting. Activities include monitoring current materials via internet; transcribing, translating, and summarizing; writing original reports in Arabic; and oral presentations and discussions. May be repeated for credit. P/NP or letter grading.

150. Classical Arabic Literature in English. (4) Lecture, three hours. Readings in English; knowledge of Arabic not required. Culture of Arabic-speaking peoples through their literature. Texts range from pre-Islamic to early modern, works of history and anthropology, to place these writings in social context. P/NP or letter grading.

151. Modern Arabic Literature in English. (4) Lecture, three hours. Readings of selected texts covering basic literary trends from middle of 19th century to present. Letter grading.

155. Al-Andalus: Literature of Islamic Spain. (4) Lecture, three hours. Study of literature of Islamic Spain to learn about interaction of Arabic and Western and Arabic and Jewish cultures and to recognize Islamic culture as vital force in European life and letters. P/NP or letter grading.

180. Linguistic Analysis of Arabic. (4) Lecture, four hours. Requisite: course 102C. Linguistic description of Arabic in both its modern standard and dialect forms. Introduction to linguistic analysis of Arabic phonology, morphology, and syntax and to linguists' approaches to specific problems posed by Arabic grammar and dialectology. Letter grading.

181. Translating Arabic. (4) Seminar, three hours. Preparation: advanced proficiency in English and Arabic (at least three years of Arabic instruction or equiv alent). Open to both native and nonnative speakers of English and Arabic. Training of students in methodolo gy of translation from Arabic into English, with focus on producing accurate and readable English versions of Arabic texts from various fields. Close reading and written translation of Arabic texts, with review of linguistic and cultural difficulties that arise in course of translation. Texts may include classical Arabic literature (religion, historiography), modern writing (litera ture, media), and spoken Arabic (television, radio), based on student interest. Letter grading.

188FL. Special Studies: Readings in Arabic. (1) Seminar, one hour. Requisite: course 102C. Students must be concurrently enrolled in affiliated main course. Primary readings and advanced training in Arabic. Additional work in Arabic to enrich and augment work assigned in main course, including reading, writing, and other exercises in Arabic. May be repeated for credit. P/NP or letter grading.

197. Individual Studies in Arabic. (2 to 4) Tutorial, one hour. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

199. Directed Research or Senior Project in Arabic. (2 to 4) Tutorial, one hour. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.
Graduate Courses

200. Seminar: Islamic Texts. (4) Seminar, three hours. Doctrines and hermeneutics of various schools of thought in Islam, with selected readings from major works. May be repeated for maximum of 24 units. S/U or letter grading.

M231. Tutorial in Judeo-Arabic. (4) Same as Hebrew M231. Requisite: course 102C, Hebrew 102C. Reading of Judeo-Arabic texts by Maimonides (medieval religion, medicine, philosophy) and more recent texts in Judeo-Arabic dialects of Iraq and Egypt, all with comments on grammar and deviations from norms of classical Arabic. S/U or letter grading.

240. Seminar: Arab Historians and Geographers. (4) Seminar, three hours. Selected readings from works of major historians, geographers, and travelers. May be repeated for maximum of 24 units. S/U or letter grading.

Upper Division Course

M101B. Egyptian Art and Archaeology of Middle and New Kingdoms. (4) (Same as Art History H101B.) Lecture, three hours. Requisite: Art History 50. Study of architecture, sculpture, painting, and minor arts during Middle and New Kingdoms. P/NP or letter grading.
Graduate Courses

210A-210B-210C. Introduction to Ottoman. (4-4-4) Lecture, three hours. Introduction to literary language of Ottoman Empire from its foundation in the 14th century to its overthrow in the 20th century. For students of history, literature, and religion of the Balkans, Near East, and Central Asia. Topics include Arabic script as applied to Ottoman; Arabic and Persian elements in grammar and vocabulary. Readings of historical and literary texts.

230A-230B-230C. Historical and Comparative Survey of Turkish Languages. (4-4-4) Lecture, three hours. Requisites: course 180. Extinct and living Turkic languages. History of Turkic: developments in phonemic, grammatical, and lexical systems from the 8th to 20th century. Structural analysis of Turkic languages on phonemic levels.

235A-235B, Middle Turkic: Karakhanid, Khorazmi-an, Mamluk-Kipchak, and Old Anatolian. (4-4) Lecture, three hours. Requisite: course 180. Survey of Middle Turkic documents. Textual and linguistic analysis of Middle Turkic texts from various literary genres.

240A-240B-240C. Advanced Ottoman. (4-4-4) Lecture, three hours. Requisites: courses 210A, 210B, 210C. Emphasis on different genres of Ottoman writing, letters as well as various types of state documents in elaborate high style of classical Ottoman period (15th to 19th century). Selections are read in manuscript to prepare students to read works in form in which they are likely to encounter them in their research.

250A-250B-250C. Islamic Texts in Chaghatay. (4-4-4) Lecture, three hours. Requisites: courses 220A, 220B, 220C. Philological and linguistic survey of basic Islamic source material written in Chaghatay literary language. Reading and discussion of Chaghatay texts on Islamic topics.

280A-280B. Seminars: Modern Turkish Literature. (4-4) Seminar, two hours. Requisite: course 220B. Specific issues and trends in development of Turkish literature from middle of 19th century to the present.

290A-290B-290C. Seminars: Classical Turkic Literature — Ottoman, Chaghatay, and Azeri. (4-4) Seminar, two hours. Requisites: courses 210A, 210B, and 210C, and/or 220A, 220B, and 220C. Survey of Islamic literatures of the Turks from various literary and linguistic characteristics.

597. Directed Individual Study. (2 to 8) Tutorial, to be arranged. May be repeated for credit. S/U or letter grading.

Scope and Objectives

The Department of Neurobiology offers advanced training leading to the Ph.D. degree. Graduates can anticipate an academic career at the college or university level or as a basic science researcher at a research institute or biotechnology company. In accord with this the department strives to produce graduates soundly qualified both for teaching at the college or university level or as a basic science researcher for advanced independent research training in the areas of cellular and systems neuroscience. The overall objective of the Ph.D. program is to provide a strong theoretical and practical foundation in the area of cellular and systems neuroscience, with the goal to develop a better understanding of normal and pathological brain function and behavior. The graduate program provides a basis and advanced instruction in the fundamentals of neuroscience, advanced independent research training in the areas of cellular, structural, and systems neuroscience, and teaching experience in undergraduate, graduate, and professional (dental and medical) courses in neuroscience. The program is targeted toward highly qualified and

Scope and Objectives

The Department of Neurobiology offers advanced training leading to the Ph.D. degree. Graduates can anticipate an academic career at the college or university level or as a basic science researcher at a research institute or biotechnology company. In accord with this the department strives to produce graduates soundly qualified both for teaching at the college or university level and for the conduct of original research in neuroscience.

The overall objective of the Ph.D. program is to provide a strong theoretical and practical foundation in the area of cellular and systems neuroscience, with the goal to develop a better understanding of normal and pathological brain function and behavior. The graduate program provides a basis and advanced instruction in the fundamentals of neuroscience, advanced independent research training in the areas of cellular, structural, and systems neuroscience, and teaching experience in undergraduate, graduate, and professional (dental and medical) courses in neuroscience. The program is targeted toward highly qualified and
self-motivated doctoral students who take advantage of a flexible curriculum characterized by extensive informal and formal interactions with faculty in small groups and on an individual tutorial basis. The curriculum is structured to allow students extensive opportunities for critical examination of contemporary neuroscience literature and research and for the development of oral and written communication skills.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Neurobiology offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Neurobiology.

Medical History

Upper Division Courses

107A-107B. Historical Development of Medical Sciences. (4-4) Lecture, three hours. Major contributions of medicine and medical personalities from earliest times. P/NP or letter grading. 107A. Contributions of medicine and medical personalities from earliest times through 1650. 107B. Subject in the period from 1650 through the 19th century. Illustrated lectures, class discussion, and required readings from selected texts.

M169. History of Neurosciences. (4) (Same as Medical History M169.) Lecture, one hour; discussion, two hours. Development of neurosciences, especially neuroanatomy and neurophysiology, from Enlightenment era through latter 20th century. Emphasis on fundamental nerve functions, cell communication, and technological, conceptual, and cultural influences that have shaped understanding of brain and nervous system. P/NP or letter grading.

197. Individual Studies in Neurology. (2 to 4) Tutorial, to be arranged. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned readings and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

199. Directed Research in Neurobiology. (2 to 8) Tutorial, to be arranged. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Studies in any area related to course subject areas appropriate for training of particular students, which includes reading assignments or laboratory work leading to final oral or written report. May be repeated for maximum of 16 units. Individual contract required. P/NP or letter grading.

Graduate Courses

M200A. Synapses, Cells, and Circuits. (4) (Same as Neuroscience M204.) Lecture, three hours; laboratory, two hours. Cells, synaptic functions, cell communication, cellular, and structural organization of nervous system. Specific topic areas include neuronal ultrastructure, cellular neurobiology, neuroanatomy, neural circuitry, and imaging. Letter grading.

M200B. Cell, Developmental, and Molecular Neurobiology. (6) (Same as Molecular, Cell, and Developmental Biology CM220 and Neuroscience M201.) Lecture, six hours. Fundamental topics concerning cellular, developmental, and molecular neurobiology, including intracellular signaling, cell-cell communication, neurogenesis and migration, synapse formation and elimination, programmed neuronal death, and neurotrophic factors. Letter grading.

M200C. Sensory Systems Neurobiology. (4) (Same as Neuroscience M221.) Lecture, two hours; discussion, two hours. Fundamental topics in sensory systems neurobiology, including sensory transduction, taste and olfaction, audition, vision, and somatosensory system. Letter grading.

200D. Motor Systems Neurobiology. (4) Lecture, four hours. Fundamental topics in motor systems neurobiology, including muscle, motor units, and motoneuron pools, spinal motor control, reflexes, locus motion, basal ganglia, cerebellum, and eye movements. Letter grading.

200E. Regulatory, Behavioral, and Cognitive Neuroscience. (6) Lecture, two hours; discussion, two hours; laboratory, two hours. Topics include hypothalamus, cardiovascular system, breathing, food intake and metabolism, water intake and body fluids, neuroendocrine systems, circadian timing, sleep and dreaming, psychosexual development, motivation, reward and addiction, cognitive development, object, face, and spatial recognition, learning and memory, language and communication, and thinking and problem solving. Letter grading.

M200F. Cellular Neurophysiology. (4) (Same as Neuroscience M202 and Physiology M202.) Lecture, three hours; discussion, two hours. Requirements: Molecular, Cell, and Developmental Biology 171 or Physiology 166, and Physiology 111A or M180A or Physics 6B. Advanced course in cellular physiology of neurons, action and movement potentials, chemosensory and chemosensory, gates, ion pumps and neuronal homeostasis, synaptic receptors, drug-receptor interactions, transmitter release, modulation of messengers, and sensory transduction. Letter grading.

M200G. Biology of Learning and Memory. (4) (Same as Molecular, Cellular, and Integrative Physiology M200G, Neuroscience M220, and Psychology M238.) Lecture, four hours; laboratory, two hours. Requirements: Molecular, Cell, and Developmental Biology, neuroanatomy, theory, and models of learning and memory. Cross-disciplinary focus on learning and memory to provide integrative view of subject that emphasizes emerging findings that take advantage of novel groundbreaking models. Letter grading.

211. Cellular Basis of Learned Behavior. (2) Lecture/discussion, one two-hour session; laboratory, to be arranged. Preparation: microscopic anatomy, mammalian physiology. Study of psychological, physiological, and biochemical models of cerebral processes in alerting, learning, focusing attention, and memory. S/U or letter grading.

220. Structural Neurobiology. (2) Lecture, two hours; discussion, two hours; laboratory, two hours. Requirements: to recognize structure of chemical, electrical, and mixed synapses as determined by imaging methods such as electron tomography. Comprehensive review of current principles governing synaptic transmission and balanced account of some of most topical areas of field, such as hemifusion, kiss and run, and fast exocytosis. Laboratory sessions review methods for preparing samples through in-depth analysis of imaging strategies. Computer laboratory sessions allow demonstration of data processing and interpretation. Three round table discussions provide forum for further inspiration as well as tackling any questions or difficulties that may arise from laboratories and lectures. S/U grading.

M227. Neuroendocrinology of Reproduction. (4) (Same as Physiological Science M227.) Lecture, three hours; discussion, one hour; Preparation: undergraduate life sciences and chemistry courses. Structural, functional, and developmental aspects of neuroendocrine and reproductive organs, with emphasis on feedback regulatory mechanisms between neuroendocrine and reproductive organs, with emphasis on hypothalamic-pituitary and gonadal functions and on functional integration of neuroendocrine-reproductive axis at cellular and molecular levels. Letter grading.

M229. Oral Embryology and Histology. (4) (Same as Oral Biology M203.) Lecture, four hours. Lectures and laboratory instruction in development and histological structure of facial region and oral and peri-oral organs and tissues. Letter grading.

M234. Seminar: Developmental Neuroendocrinology. (2) (Same as Oral Biology M234.) Seminar, two hours. Designed for graduate students. Psychological and physiological processes intertwine, and one important aspect of psychoneuroimmunological research is characterization of mechanisms that underlie these interactions. Examination of current literature on neuroimmune interaction from a developmental perspective. S/U grading.

(310) 206-6584
fax: (310) 267-2477
http://www.neurology.ucla.edu

Scope and Objectives

Neurology is the medical science dealing with the normal and diseased nervous system. Neurological disorders are often associated with significant disability, morbidity, and mortality. Their higher incidence in association with greater longevity of the population, increased awareness, improved diagnostic methods, and other factors place neurological disorders among the major medical problems today. The Department of Neurology and the Reed Neurological Research Center provide means for a coordinated basic science and clinical research approach to neurological disorders, patient care, and neurological education.

The department instructs medical students throughout the four years. Emphasis in the first year is on basic aspects of neuroanatomy, chemistry, and physiology; in the second year, neurological history taking and neurological examination of afflicted patients are stressed. The third year consists of a clerkship, and the fourth year provides electives in neurology, including an advanced clinical clerkship.

Graduate students and postdoctoral candidates are trained in both the basic and clinical laboratories.

For further details on the Department of Neurology and a listing of the courses offered, see http://www.neurology.ucla.edu.

Neurology

Upper Division Course

199. Directed Research in Neurology. (2 to 8) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Scott H. Chandler, Ph.D., Chair

Faculty Advisory Committee
Scott H. Chandler, Ph.D. (Physiological Science)
Carlos V. Grijalva, Ph.D. (Psychology)
Patricia E. Phelps, Ph.D. (Physiological Science)
Joseph B. Watson, Ph.D., in Residence (Psychiatry and Biobehavioral Sciences)

Scope and Objectives

Neuroscience seeks to understand the brain in health and in disease. Topics of fundamental interest include perception, cognition, learning, memory, motor control, and regulation of body function. The undergraduate interdepartmental program seeks to explore the principles and concepts of this broad range of nervous system function at many levels of analysis, including molecular, cellular, synaptic, network, computational, and behavioral.

Area 2C: One molecular, cell, and developmental neuroscience course from Molecular, Cell, and Developmental Biology C139, Neuroscience M130, M145, M148, 191C, Physiological Science C126, M145, 146, 147, M148

Group 3: One research-related course from the following: Neuroscience 101L (one term) or 199 (two terms) or 198A and 198B (one term in each course) or Psychology M181A and M181B with approval of the neuroscience curriculum committee before start of project; one term in each course). All majors who elect to do two terms (one term applies toward Group 3 and one toward Group 4) of Neuroscience 198A and 198B or 199 or Psychology M181A and M181B must do one term of Neuroscience 99 in the same laboratory. In addition, they must submit a poster to the neuroscience undergraduate poster session or the curriculum committee prior to graduation.

Group 4: Two additional elective courses from the Group 2 or 3 list or from Neurobiology/ Medical History M169 or Physiological Science 135. Students who select two terms of Neuroscience 198A and 198B or 199 or Psychology M181A and M181B must select only one additional elective to satisfy Group 4

Psychology 115 cannot be substituted for Neuroscience M101A; however, Physiological Science 111A can be substituted.

No more than eight courses may be from any one department. A maximum of 8 units of Neuroscience 198 or 199 (in any combination) may be applied toward the major. Each required and elective course must be taken for a letter grade, and a C average must be maintained in all upper division courses taken for the major.

Honors Program
The honors program provides exceptional Neuroscience majors with the opportunity to do research culminating in an honors thesis. Majors who have completed all preparation courses with a grade-point average of 3.0 or better and an overall GPA of 3.2 or better may apply for admission to the honors program. Applications and program requirements are available in the Neuroscience Undergraduate Office and at http://www.neurosci.ucla.edu. Students must submit the application before beginning their upper division honors requirements. After completion of all requirements and with the recommendation of the faculty sponsor and a second reader of the thesis, the chair confers honors at graduation.

Neuroscience Minor
The Neuroscience minor is designed to allow students in other majors an opportunity to explore the interdisciplinary field of neuroscience in a structured and rigorous way, while pursuing a major field of study in another discipline at the same time.

To enter the minor, students must have an overall grade-point average of 2.0 or better and a 2.5 GPA in the requisite courses for Neuroscience M101A and M101B.

Nonscience majors wishing to minor in Neuroscience should be aware that preparation courses in chemistry, life sciences, and physics are requisites to the upper division course requirements.

Required Upper Division Courses (approximately 31 units): Neuroscience M101A, M101B, M101C (5 units each) and four elective courses selected from 102 and from Groups 2, 3, and 4 as listed under the Neuroscience major.

No more than two courses may be applied toward both this minor and a major or minor in another department or program. Each minor course must be taken for a letter grade, with an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Neuroscience
See the Neuroscience Interdepartmental Graduate Program for the graduate course offerings.

Lower Division Course
10. Brain Made Simple: Neuroscience for the 21st Century. (4) Lecture, four hours. Preparation: high school background in either biology or chemistry. Not open for credit to students with credit for course M101A. General overview and introduction to most exciting and fundamental topics encompassing field of neuroscience. P/NP or letter grading.

Upper Division Courses
M101A-M101B-M101C. Neuroscience: From Molecules to Mind. (5-5-5) (Same as Molecular, Cell, and Developmental Biology M175A-M175B-M175C, Physiological Science M180A-M180B-M180C, and Psychology M117A-M117B-M117C.) Lecture, four hours; discussion, 90 minutes. P/NP or letter grading: M101A. Cellular and Systems Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisites: Chemistry 14C or 30A (14C may be taken concurrently), Life Sciences 2, Physics 1B or 1BH or 6B or 6BH. Not open for credit to students with credit for Physiology Science 111A. General overview and introduction to most exciting and fundamental topics encompassing field of neuroscience. P/NP or letter grading.

M101B. Molecular and Developmental Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisites: course M101A (or Molecular, Cell, and Developmental Biology M175A or Physiological Science M180A or Psychology M117A) or Physiological Science 111A or Psychology 115. Life Sciences 3, 4. Molecular biology of channels and receptors: focus on voltage-dependent channels and neurotransmitter receptors. Molecular biology of supramolecular mechanisms: synaptic transmission, axonal transport, cytoskeleton, and muscle. Classical experiments and modern molecular approaches in developmental neurobiology. P/NP or letter grading.

M101C. Behavioral and Cognitive Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisite: course M101A (or Molecular, Cell, and Developmental Biology M175A or Physiological Science M180A or Psychology M117A) or Physiological Science 111A or Psychology 115. Neural mechanisms underlying motivation, learning, and cognition. P/NP or letter grading.

101L. Neuroscience Laboratory. (4) Lecture, two hours; laboratory, three hours. Requisites: courses M101A, M101B (M101B may be taken concurrently). Not open for credit to students with credit for Psychology 116. Introduction to laboratory methods in neuroscience. Laboratory exercises range from molecular and cellular to behavioral. Hands-on experience with important methodology and experimental approaches in neuroscience.

M119L. Human Neuropsychology. (4) (Same as Psychology M119L.) Lecture, three hours. Recommended requisites: courses M101A and M101C (or Psychology 115), Psychology 120A or 120B. Designed for juniors/seniors. Survey of experimental and clinical human neuropsychology; neural basis of higher cognitive functions. P/NP or letter grading.

M119N. The Visual System. (4) (Same as Psychology M119N.) Lecture, three hours. Requisite: course M101A or Molecular, Cell, and Developmental Biology 171 or Physiological Science 111A or Psychology 115. The ability to image and analyze the visual world is a truly remarkable feat. Coverage of anatomy and physiology of visual processing from the retina to visual cortex through lectures, extensive reading, and discussions.

M130. Biological Bases of Psychiatric Disorders. (4) (Same as Molecular, Cell, and Developmental Biology M181, Physiological Science M181, Psychiatry M181, and Psychology M117J.) Lecture, three hours. Requisite: course M101A (or Molecular, Cell, and Developmental Biology M175A or Physiological Science M180A or Psychology M117A or Physiological Science 111A or Psychology 115. Underlying brain systems involved in psychiatric symptoms and neurological disorders, including schizophrenia, depression, bipolar disorder, obsessive-compulsive disorder. Provides basic understanding of brain dysfunctions that contribute to disorders and rationales for pharmacological treatments. P/NP or letter grading.

M145. Neural Mechanisms Controlling Movement. (5) (Same as Physiological Science M145.) Lecture, four hours. Requisite: course M101A or Physiological Science 111A or M180A. Examination of central nervous system organization required for production of complex movements such as locomotion, mastication, and swallowing. Letter grading.
M148. Neuronal Signaling in Brain. (4) (Same as Physiological Science M148.) Lecture; three hours; discussion one hour. Requisites: courses M101A (or Physiological Science M101A) and M101B (or Physiological Science M180B or Chemistry 153A). Consideration of brain function, with focus on cellular physiology and functional neuroanatomy. Topics include neuronal morphogenesis and synaptic transmission and function of specific neuronal circuits in auditory pathway, basal ganglia, cerebellum, hippocampus, and neocortex.

C172. Neuroimaging and Brain Mapping. (4) Lecture, three hours. Requisite: course M101A (or Molecular, Cell, and Developmental Biology M175A or Physiological Science M180A or Psychology M117A) or Molecular, Cell, and Developmental Biology 171 or Physiological Science 111A or Psychology 115. Strongly recommended: course 102. Theory, methods, applications, assumptions, and limitations of neuroimaging. Techniques, biological questions, and results. Brain structure, brain function, and their relationship discussed with regard to imaging. Concurrently scheduled with course CM272. Letter grading.

C177. Drugs of Abuse from Neurobiology to Policy and Education. (4) Lecture, four hours. Enforced requisite: course M101A. Course ranges from synapse to society. Provides intensive didactic on current neuroscientific basis for understanding substance abuse and addiction. Focuses on relevant topics such as epidemiology, co-occurring disorders, treatment options, prevention, and public policies, with emphasis on communication of course materials to general public. Concurrently scheduled with course CM277. Letter grading.

178. Human Electroencephalography and Evoked Potentials in Research and Clinical Diagnosis. (4) Seminar, four hours. Enforced requisite: course M101A. Not open for credit to students for credit for course 191A, seminar 2. Emphasis on human electroencephalogram (EEG) and various forms of sensory-evoked potentials. Introduction to human EEG and mental paradigms that allow for recording of different brain signals from brainstem to cortex. Letter grading.

180. Genetic, Molecular, and Genomic Approach- es to Neural Development and Disease. (4) Seminar, three hours. Enforced requisites: courses M101A, M101B. Not open for credit to students with credit for course 191C, seminar 1. In-depth study of genetic, molecular, and genomic approaches to studying nervous system development and disease. Overview of current technologies used to generate mouse models for genetic and phenotypic analysis. Review of techniques for studying development and disease. Integrative genomic approaches for identifying and characterizing gene(s) involved in these processes. Emphasis on mouse models, but other model organisms considered as well. Letter grading.

181. Cellular and Molecular Mechanisms of Learn- ing and Memory. (4) Seminar, four hours. Enforced requisite: course M101A. Not open for credit to students with credit for course 191C, seminar 2. Cellular models of learning. Genetic and molecular approaches to learning and memory. Learning and memory deficits in neuropsychiatric diseases. LTP and LTD models. Letter grading.

191A-191B-191C. Variable Topics Research Semi- nars: Neuroscience. (4-4-4) Seminar, three hours. Topics on one or more aspects of neuroscience. Reading, discussion, and development of culminating project. May be applied as elective only in specific area of group 2. Each course may be repeated once for credit. P/NP or letter grading. 191A. Behavioral and Cognitive Neuroscience. Requisite: course M101A or Physiological Science 111A. 191B. Systems and Integrative Neuroscience. Requisite: course M101A or Physiological Science 111A. 191C. Molecular, Cellular, and Developmental Neuroscience. Enforced requisite: course M101B.

191H. Honors Seminars: Neuroscience. (4) Seminar, four hours. Preparation: one statistics course (Statistics 10 or equivalent). Limited to neuroscience honors program students. Introduction in principles of scientific method, ethics, and written and oral communication; critique of current journal articles and research projects. Presentation of individual research. May not be applied toward elective requirements for major. Must be taken during Winter Quarter of aademic year that students enroll in courses 198A and 198B. Letter grading.

192. Practicum in Neuroanatomy for Undergradu- ate Assistants. (2) Seminar, three hours; laboratory, one hour. Requisites: courses M101A and 102, with grades of A. Limited to senior Neuroscience majors. Trained and supervised practicum in neuroanatomy and neurohistology for undergraduate assistants. Students assist faculty members and graduate teaching assistants in laboratory only. May not be applied toward elective requirements and may not be repeated for credit. P/NP or letter grading.

195. Community or Corporate Internships in Neu- roscience. (4) Tutorial, one hour; fieldwork, eight hours. Limited to juniors/seniors. Internship course to be supervised by Center for Community Learning, internship supervisor, and faculty adviser. Consult Undergraduate Advising Office for more information. Students meet on regular basis with internship supervisor and provide periodic reports of their experience. May not be applied toward major requirements. May be repeated twice for credit. Individual contract with supervising faculty member required. P/ NP grading.

198A. Honors Research in Neuroscience. (4) Tuto- rial, 12 hours minimum. Requisites: courses 99, M101A. Limited to neuroscience honors program students. Directed independent research involving extensive reading and development of honors thesis or comprehensive project under direct supervision of faculty member. For departmental honors, students must also take course 191H. Maximum of 8 units of courses 198A, 198B, and 199 may be applied toward major. Individual contract required. In Progress grading (credit to be given only on completion of course 198B).

198B. Honors Research in Neuroscience. (4) Tuto- rial, 12 hours minimum in laboratory. Requisite: course 198A. Continued reading and research that culminate in honors thesis under direct supervision of faculty member. For departmental honors, students must also take course 191H. Maximum of 8 units of courses 198A, 198B, 199 may be applied toward major. Individual contract required. Letter grading.

199A. Directed Research in Neuroscience. (4) (Formerly numbered 199.) Tutorial, 12 hours minimum. Enforced requisites: courses 99, M101A. Limited to junior/senior Neuroscience majors and minors with grades of B (3.0) or better. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. Maximum of 8 units of course 198A, 198B, 199A, 199B may be applied toward major. Individual contract required. In Progress grading (credit to be given only on completion of course 199B).

199B. Directed Research in Neuroscience. (4) Tu- torial, 12 hours minimum. Enforced requisite: course 199A. Limited to junior/senior Neuroscience majors and minors with grades of B (3.0) or better. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. Maximum of 8 units of courses 198A, 198B, 199A, 199B may be applied toward major. Individual contract required. Letter grading.

199C. Continued Directed Research in Neurosci- ence. (4) Tutorial, 12 hours minimum in laboratory. Enforced requisite: course 198B or 199B. Limited to junior/senior Neuroscience majors and minors with grades of B (3.0) or better. Continued supervised research and study that culminate in report under direct supervision of faculty mentor. May not be applied toward major. May be repeated for credit. Individual contract required. Letter grading.

Scope and Objectives
The interdepartmental Neuroscience Ph.D. Program prepares students for careers in neuroscience research and education. The hallmark of the program is an integrated approach.
to study of the nervous system, using the multi-level analytical tools of molecular, cellular, systems, and/or behavioral biology, as well as quantitative approaches from the fields of mathematics, physics, and engineering. Students working at one or two analytical levels nevertheless learn to appreciate the methods and advantages of other levels of analysis. Emphasis is both on mechanisms of neural function and the biological basis of disease. Students select a research mentor from the list of all neuroscience faculty at UCLA.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasla/library/pgmrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree

The Neuroscience Program offers the Doctor of Philosophy (Ph.D.) degree in Neuroscience.

Neuroscience

Graduate Courses

M201. Cell, Developmental, and Molecular Neurobiology. (6) (Same as Molecular, Cell, and Developmental Biology CM202.) Lecture, six hours. Fundamental topics concerning cellular, developmental, and molecular neurobiology, including intracellular signaling, cell-cell communication, neurogenesis and migration, synapse formation and elimination, programmed neuronal death, and neurotropic factors. Letter grading.

M202. Cellular Neurophysiology. (4) (Same as Neurobiology M200F and Physiological Science M200F.) Lecture, three hours; discussion, two hours. Requisites: Molecular, Cell, and Developmental Biology 171 or Physiological Science 168, and Physiological Science 111A or 118A or Physics 6B. Advanced course in cellular neurobiology of neurons. Action and membrane potentials, channels and channel blockers, gates, ion pumps and neuronal homeostasis, synaptic receptors, drug-receptor interactions, transmitter release, modulation by second messengers, and sensory transduction. Letter grading.

M203. Neuroanatomy: Structure and Function of Nervous System. (4) (Same as Biomedical Engineering M202S.) Lecture, three hours; discussion/ laboratory, three hours. Anatomy of central and peripheral nervous system at cellular histological and regional systems level, with emphasis on contemporary experimental approaches to morphological study of nervous system in discussions of circuitry and neurochemical anatomy of major brain regions. Consideration of representative vertebrate and invertebrate nervous systems. Letter grading.

M204. Synapses, Cells, and Circuits. (4) (Same as Neurobiology M202A.) Lecture, three hours; laboratory, two hours. Fundamental topics concerning subcellular, cellular, and structural organization of nervous system. Lecture covers include pathways and synaptic ultrastructure, cellular neurobiology, neuroanatomy, neural circuitry, and imaging. Letter grading.

205. Systems Neuroscience. (4) Lecture/discussion, four hours. Introduction to fundamentals of systems neuroscience, with emphasis on integration of molecular mechanisms, cellular processes, anatomical circuits, and behavioral analysis to understand function of neural systems. Letter grading.

M206. Neuroengineering. (4) (Same as Biomedical Engineering M256 and Electrical Engineering M255.) Lecture, three hours; laboratory, six hours; out-of-class study, five hours. Requisites: Mathematics 32A, Physics 1B or 6B. Introduction to principles and technologies of bioelectricity and neural signal recording, processing, and stimulation. Topics include bioelectricity, electrophysiology (action potentials, local field potentials, EEG, ECOG), intracellular and extracellular recording, microelectrode technology, neural signal processing (neural signal frequency bands, filtering, spike detection, spike sorting, stimulation artifact removal), brain-computer interfaces, deep-brain stimulation, and prosthetics. Letter grading.

207. Integrity of Scientific Investigation: Education, Research, and Career Implications. (2) Discussion, two hours. Designed for graduate students. Debate on topics related to ethical conduct of scientific investigation, with emphasis on critical thinking. Topics include scientific misconduct, mentoring, data ownership, peer review, use of animals and humans in biomedical research, conflicts of interest, technology, and scientific integrity. S/U grading.

M220. Biology of Learning and Memory. (4) (Same as Molecular, Cellular, and Integrative Physiology M200G, Neurobiology M200G, and Psychology M203B.) Lecture, four hours. Molecular, cellular, circuit, systems, neuroanatomy, theory, and models of learning and memory. Cross-disciplinary focus on learning and memory to provide integrative view of subject that emphasizes emerging findings that take advantage of novel groundbreaking models. Letter grading.

M221. Sensory Systems Neuroscience. (4) (Same as Neurobiology M200C.) Lecture, two hours; discussions, two hours. A survey of sensory systems neuroscience, including sensory transduction, taste and olfaction, audition, vision, and somatosensory system. Letter grading.

M230. Molecular and Cellular Mechanisms of Neural Integration. (5) (Same as Physiological Science M210 and Physiology M210.) Lecture, four hours; discussion, one hour. Requisite: course M202A. Introduction to mechanisms of synaptic processing. Selected problems of current interest, including regulation and modulation of transmitter release, molecular biology and physiology of receptors, cellular basis of integration in sensory perception and learning, neural nets and oscillators, and molecular events in development and sexual differentiation. Letter grading.

M233. Mechanisms and Relief of Pain. (2) (Same as Oral Biology M204.) Advanced treatment of neuroanatomical, neurophysiological, and biochemical basis of pain perception. Topics include classical pain theories, pain receptors and pathways, endogenous mechanisms of pain modulation, and pharmacological basis for treatment of pain disorders.

240. Phenotypic Measurement of Complex Traits. (4) Lecture, three hours. Preparation: background in human genetics helpful. Integrative approach to understanding gene to behavior pathway, including examination of levels of phenotype expression across systems (cell, brain, organism), across species (invertebrate, fly, mouse, human), and throughout development across varying environmental milieus. Using examples from human disorders such as schizophrenia and Alzheimer’s disease, linking of these diverse approaches in genetic research that map our integrative system of understanding basis of complex human behavior. Emphasis on basic understanding of methods used at each level of phenotype analysis, along with major resources that can be accessed to gain insight into gene-behavioral link. S/U or letter grading.

255. Functional Organization of Behavior. (2) Lecture, two hours. Changes in neuronal properties supporting changes in learned behavior. Different types of learning, role of neurotransmitters and second messengers in changing ion channels of neurons to support associative learning versus long-term potential of neurotransmission. S/U or letter grading.

M263. Neurological Mechanisms Controlling Rhythmic Movements. (4) (Same as Physiological Science M263.) Requisite: Physiological Science M145. Advanced topics on brain mechanisms responsible for controlling cyclic and stereotypic movements such as mastication and locomotion. Emphasis on cellular neurophsyiology and interaction between neuronal networks. Introduction to primary literature and techniques used in these areas. Students expected to critically evaluate data and conclusions drawn.

M273. Neural Basis of Memory. (4) (Same as Psychiatry M273.) Lecture, two hours; discussion, one hour. Anatomical, physiological, and neurological phenomena of memory arise. Discussion of invertebrate memory, cortical conditioning, hippocampus and declarative memory, and frontal lobes and primary memory.

274. Computational Neuroscience. (4) Lecture, 90 minutes; discussion, 90 minutes. Requisites: courses M201, M202. Systematic introduction to computational neuroscience and hands-on experience in neural simulations. Computational models at synapical, neuronal, and network levels. Sensory, motor, memory, and attentional systems and some higher cognitive functions, including language and consciousness. S/U or letter grading.

Courtney H. Lyder, N.D., G.N.P., F.A.A.N.
Adeline M. Nyamathi, A.N.P., Ph.D., F.A.A.N. (Audrienne H. Moseley Professor of Community Health Research)
Linda R. Phillips, R.N., Ph.D., F.G.S.A., F.A.A.N. (Audrienne H. Moseley Professor of Nursing)
Linda P. Sarna, R.N., D.N.Sc., F.A.A.N.

Mary A. Woo, R.N., D.N.Sc., F.A.A.N.
Professors Emeriti
Nancy L.R. Anderson, R.N., Ph.D., N.P.-C., A.O.C.N., F.A.A.N.
Lina K. Badr, R.N., D.N.Sc., P.N.P.-C., F.A.A.N.
Olive Y. Burner, R.N., Ph.D.
Betty L. Chang, R.N., D.N.Sc., F.N.P.-C., F.A.A.N.
Barbara A. Davis, R.N., Ed.D.
Kathleen Dracup, R.N., Ph.D., F.A.A.N.
Jacquelyn H. Flaskerud, R.N., Ph.D., F.A.A.N.
Charles E. Lewis, M.D., Sc.D.
Donna K. McNeese-Smith, R.N., Ed.D., C.N.A.
Sharon J. Feeder, R.N., Ph.D., F.A.A.N.
Maria W. Serafyanian, Ph.D.
Gwen M. Van Servellen, R.N., Ph.D., F.A.A.N.
Donna F. Ver Steeg, R.N., Ph.D., F.A.A.N.
Donna L. Vredenbo, Ph.D.
Frances M. Wiley, R.N., M.N.

Associate Professors
Jill P. Berg, R.N., Ph.D.
Margaret A. Compton, R.N., Ph.D., F.A.A.N.
Karen H. Gylys, R.N., Ph.D.
Mary Sue V. Heilemann, R.N., Ph.D.
Janet C. Mentes, R.N., Ph.D., G.N.P.
Wendie A. Robbins, R.N., Ph.D., F.N.P., F.A.A.N. (Audrienne H. Moseley Professor of Biological Nursing Science)
Dorothy J. Wiley, R.N., Ph.D.

Assistant Professors
Barbara Bates-Jensen, R.N., Ph.D.
Jo-Ann O. Eastwood, R.N., Ph.D.
Lorraine S. Evangelista, R.N., Ph.D.
Leah Fitzgerald, R.N., Ph.D., C.F.N.P.
Marie N. Fongwa, R.N., Ph.D.
Angela L. Hudson, R.N., Ph.D., F.N.P.
Eufemia Jacob, R.N., Ph.D.
Linda Searle Leach, R.N., Ph.D., C.N.A.A.
Paul M. Macey, Ph.D., in Anesthesiology
Sally L. Malinski, R.N., Ph.D.
Aurelia M. O’Connell, R.N., Ph.D., A.C.N.P., B.C.,
C.C.R.N.
Carol L. Pavlisch, R.N., Ph.D.
Vaida V. Upeniukas, R.N., Ph.D.
D. Lynn Woods, R.N., Ph.D., G.N.P., F.A.A.N.
Kynna N. Wright, R.N., Ph.D., M.S.N., M.P.H., C.P.N.P.

Lecturers
Jody Adams-Renteria, R.N., M.N., F.N.P.
Theresa L. Brors, R.N., M.S., F.N.P.
Nilofer Makherji Caigilt, R.N., M.S.N., N.P.
Mary M. Canobbio, R.N., M.N., F.A.A.N.
Lori A. Cutter, R.N., M.N., C.F.N.P.
Maggie Dewan-Smith, R.N., M.S., N.P.
Mirasoal Fajardo, R.N., Ph.N., C.P.N.P.
Jan M. Fredrickson, R.N., M.N., C.P.N.P.
Mary E. Kingston, R.N., M.N., C.P.H.O.
Young Kee Markham, R.N., M.N., G.N.P.-C.
Marguerite McCormick, R.N., M.S.N., A.C.N.P.
Nancy E. McGrath, R.N., M.N., C.P.N.P.
Josephine D. Ortiz, R.N., M.S.N., F.N.P.
Deborah A. Rice, R.N., M.N., F.N.P.
Joan Schleper, R.N., M.S.N., G.N.P.

Adjunct Professors
Mary P. Cadogan, R.N., Dr.P.H., G.N.P.
Anna Gawinski, R.N., D.N.Sc., C.S., A.C.N.P.,
C.C.R.N., F.A.A.N.

Adjunct Associate Professor
Colleen K. Keenan, R.N., Ph.D., W.H.C.N.P.

Scope and Objectives
A strong scientific basis underlies the teaching of nursing practice, leadership, and research. Related clinical experiences are arranged within the UCLA Medical Center, its affiliates, other major medical centers, or in selected community sites. At the generic bachelor’s level, nurses are prepared as generalists with special skills in pri-
mary, secondary, and tertiary prevention and care within a population-based context, leadership, and evidence-based practice. A program designed for associate degree or diploma nurses provides an opportunity to learn about community-based nursing care while providing a foundation for entering the advanced practice nurse master's degree program. At the master's level, nurses are prepared as generalists in hospital-based care or for advanced nursing practice as nurse practitioners, clinical specialists, or administrators in a variety of settings and specialized areas of healthcare. The Ph.D. program prepares scholars who do original research, generate new theories, and build the scientific basis for professional nursing practice. Research is both basic and applied.

**Undergraduate Study**

**Nursing B.S.**

Two undergraduate programs are offered: Nursing B.S. (Generic/Prelicensure) for non-nurses and Nursing B.S. (R.N. to B.S./Postlicensure) for registered nurses.

**Generic/Prelicensure**

The focus of the generic/prelicensure program is on the preparation of nurse generalists with special skills in primary, secondary, and tertiary prevention and care within an individual- and population-based context while developing the basics for a strong leadership role. Students learn the art and science of nursing using the latest research findings to guide their practice.

**Admission**

The School of Nursing strives to attract a culturally and ethnically diverse student population. Admission is designed for freshman students and transfer students at the junior level beginning Fall Quarter 2008. Freshman applicants are expected to fulfill the University of California admission requirements. Transfer applicants are expected to fulfill the Intersegmental General Education Transfer Curriculum (IGETC). Students must have a grade of C or better (C– grades are not acceptable) in each course. The curriculum at UCLA must be completed with a grade of C or better (C– grades are not acceptable).

**R.N. to B.S./Postlicensure**

The focus of the R.N. to B.S./postlicensure program is on community-based nursing care and cultural and human diversity. The curriculum is designed to assist registered nurses in gaining new knowledge needed for professional nursing in a changing society and to build on their earlier associate degree or diploma education. The program also provides a bridge for students who may wish to prepare for advanced practice study at the graduate level.

Emphasis is placed, throughout the curriculum, on concepts related to (1) contributing to the visibility of academic health centers through responsiveness to community needs, (2) improving the role of public (community) health care through community outreach, home-based health services, and population-based health promotion.

**Admission**

The School of Nursing strives to attract a culturally and ethnically diverse student population. Admission, beginning in the junior year, requires licensure as a registered nurse and a minimum of one year of full-time experience as an R.N. within the past five years, completion of requisite courses, scholarship, and attainment of a passing score on four Excelsior College Examinations. Students must have a grade of C or better in each course and an overall grade-point average of 3.0 or better prior to admission.

**Preparation for the Major**

**Required:** Chemistry and Biochemistry 14A, 14B, 14C, Communication Studies 1 or 10, Life Sciences 2, 3, 4, Microbiology, Immunology, and Molecular Genetics 6, Nursing 10, 20, 50, 54A, 54B, Physiological Science 3, 13, Psychology 10.

**Transfer Students**

Transfer applicants to the Nursing major with 90 or more units must complete the following introductory courses prior to admission to UCLA: communications, genetics, human anatomy, human physiology, inorganic and organic chemistry, cells, tissues, and organs, molecular biology, and psychology.

**The Major**

**Required:** Biostatistics 100A, Molecular and Medical Pharmacology M110A, Nursing 115, 150A, 150B, 152, 153, C155, C160, 161, C162, 163, 164, C165, 166, 167, 168, 169, 171C, 171D, 173, 174. Transfer students must also complete Nursing 10, 20, 50, 54A, and 54B. Students are encouraged to pursue a minor in a related field.

The curriculum at UCLA must be completed with a minimum overall grade-point average of 2.0 (C) or better in all courses taken while a student in the School of Nursing.

Each required nursing course in the school must be completed with a grade of C or better (C– grades are not acceptable).

Three recommendation forms and a written statement of purpose are also required. Diverse life experiences, including previous employment, volunteer work, and community service that reflect leadership, responsibility, multicultural involvement, multilingual abilities, and other unusual skills and knowledge are evaluated for all applicants. Consideration is also given to students who are socially, economically, and educationally disadvantaged. Completed applications should reflect clearly identified career goals and documentation of potential for nursing practice.

**Preparation for the Major**

**Required:** Completion of each University and school requirement course with a grade of C or better (C– grades are not acceptable) prior to admission as follows: human anatomy (one course), sociocultural anthropology (one course), humanities (one or more courses), introductory or general microbiology with laboratory (one course), introductory physics (one course or one year of high school physics with laboratory with a grade of B or better), human physiology (one course), introductory psychology (one course), introductory sociology (one course).

**The Major**

**Required:** Completion of 76 to 85 units of lower and upper division coursework, including Biostatistics 100A, Chemistry and Biochemistry 14A, 14B, 14C, Epidemiology 100, Life Sciences 2, 3, Nursing 102, 170, 171A through 171D, 172, 173, 174, 200, 220, and one or more courses from 213A, 214F, 216F, 219A, 232F, and three 4- or 3-unit electives related to nursing to be selected with consent of the adviser, depending on student interest and area of concentration.

The curriculum at UCLA must be completed with a minimum overall grade-point average of 2.0 (C) or better in all courses taken while a student in the School of Nursing.

Each required nursing course in the school must be completed with a grade of C or better (C– grades are not acceptable).

**Graduate Study**

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnèt.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.
Graduate Degrees
The School of Nursing offers the Master of Science in Nursing (M.S.N.) degree and the Doctor of Philosophy (Ph.D.) degree in Nursing. A concurrent degree program (Nursing M.S.N./Management M.B.A.) is also offered.

Nursing
Lower Division Courses
10. Introduction to Nursing and Social Justice I. (2) Lecture, two hours. Within context of history of nursing, introduction to practice of nurses, including role of advocacy. Discussion of effective use of self as professional in relation to ethics, cultural competence, and human diversity. Introduction to ethical principles (justice, autonomy, veracity, beneficence, confidentiality) and professional values (altruism, autonomy, human dignity, integrity, and social justice) in relation to nursing practice throughout history in health/illness and end-of-life contexts. Letter grading.
20. Introduction to Nursing and Social Justice II. (2) Lecture, two hours. An advanced discussion on history of nursing, with focus on role of contemporary nurses in relation to ethics and social justice. Analysis of ethical principles (justice, autonomy, veracity, beneficence, confidentiality) and professional values (altruism, autonomy, human dignity, integrity, and social justice) in relation to nursing practice throughout history in health/illness and end-of-life contexts. Evaluation of social, cultural, legal, and political forces in relation to paternalism for professional nurses working with diverse patient populations in the 21st century. Letter grading.
50. Fundamentals of Epidemiology. (4) Lecture, three hours; laboratory, three hours. Epidemiology focuses on distribution and determinants of health-related states or events in specified populations. Fundamentally, epidemiology seeks to control health problems in communities and institutions. Letter grading.
54A. Pathophysiology I. (2) Lecture, two hours. Preparation: human physiology course taken within past five years. Designed to provide students with basic understanding of pathophysiological changes that occur within and between individuals. Understanding these alterations is basic to providing quality nursing care. Discussion of system variations across lifespan. Letter grading.
54B. Pathophysiology II. (2) Lecture, two hours. Requisite: course 54A. Designed to provide students with understanding of pathophysiological changes that occur within internal environment of individuals. Presence of dysfunction or disease of selected systems provided as rationale for nursing diagnosis and therapeutic interventions. Letter grading.

Upper Division Courses
102. Professional Nursing in Culturally Diverse Communities. (5) Lecture, four hours; community experience, three hours. Introductory course to assist registered nurses in transition to professional nursing in context of complex and dynamic healthcare system. Analyses include individual and population-based approaches to healthcare in dynamic multicultural communities. Letter grading.
105. Human Physiology. (4) Lecture, three hours; discussion, one hour. Designed for nursing students. Lecture and discussion, with emphasis on a correlating approach to anatomy and physiology of human body. P/NP or letter grading.

150A. Fundamentals of Professional Nursing. (4) Formerly numbered 150.) Lecture. Four hours. Introduction to practice of professional nursing as theory-based goal-directed method for assisting patients to meet basic human needs at various levels of health continua. Concepts of communication, interdisciplinarity, decision-making, collaborative and interpersonal relationships, and clinical decision-making skills essential to practice of professional nursing. Essentials of nutrition. Characteristics and roles of professional nursing. Development of professional role in providing care to individuals and their families to screen, diagnose, and treat illness at earliest possible time to prevent disability or premature mortality. Examination of knowledge of populations within context of family, social and community systems, and interdisciplinary healthcare systems. Emphasis on differences in developmental stages in response to screening for early and late signs and symptoms of illness in ambulatory and acute care settings, community agencies, rehabilitation units, outpatient specialty clinics and surgical units, and home and community settings. Concurrently scheduled with course C260. Letter grading.
156. Informatics. (2) Lecture, one hour; discussion, three hours. State-of-art view of information systems of import to nursing and healthcare delivery systems, including contemporary methods such as database searching, management, and simple analysis of data. Introduction to knowledge and skills pertaining to development and use of electronic health records in contemporary healthcare systems. Analysis of influence of overarching ethical, political, and social influences on information systems developed for personal and public healthcare delivery in the U.S. Concurrently scheduled with course C256. Letter grading.
157. Research Utilization. (2) Lecture, two hours. Preparation of entry-level nurse clinicians for evaluation of research from variety of disciplines that have relevance for nursing practice. Topics include critiquing research reports and focusing on re-search utilization, with emphasis on quality of study designs; reproducibility, validity, and generalizability of findings; and practicality of implementing particular findings as part of introduction to systematic approach to gathering and evaluating bodies of literature and examining feasibility of research findings for application of evidence-based findings to clinical practice. Examination of standard research concepts in depth; control of variables, data analysis, interpretation of results, and research application in clinical settings. Interrelationship of theoretical frameworks, design, sample, instruments, and data analysis. Letter grading.
158. Culture, Illness, and Healing. (4) Same as Anthropology M168.) Lecture, four hours. Medical anthropologists are organized exploration of ways in which health, illness, and medical practices are socially and culturally mediated. Topics include comparing illness experiences, understandings about health and illness, patterns of care seeking, therapeutic practices, and medical institutions; and the different social and cultural settings, including our own. P/NP or letter grading.
160. Secondary Prevention. (4) Lecture, two hours. Requisite: course 152. Corequisite: course 161. Screening and early detection of illness to prevent chronic or acutely deteriorating illness. Expanding on concepts of health and human development and using aspects of assessment and decision making role in providing care to individuals and their families to screen, diagnose, and treat illness at earliest possible time to prevent disability or premature mortality. Examination of knowledge of populations within context of family, social and community systems, and interdisciplinary healthcare systems. Emphasis on differences in developmental stages in response to screening for early and late signs and symptoms of illness in ambulatory and acute care settings, community agencies, rehabilitation units, outpatient specialty clinics and surgical units, and home and community settings. Concurrently scheduled with course C260. Letter grading.
162. Tertiary Prevention and Care I. (7) Lecture, seven hours. Requisites: courses C160, 161. Corequisite: course 163. First course in two-course sequence. Examination of pathophysiological and psychosocial aspects of assessment and management for selected acute and emergent problems of patients/clients across lifespan, with emphasis on social, cultural, and developmental influences. Building on prior knowledge and experience, integration of basic knowledge of pathophysiology, diagnostics, pharmacology, therapeutic interventions, and communication concepts as applied to care of child-bearing families and medical and surgical clients across lifespan (pediatrics to geriatrics). Discussion of application of nursing process, evidenced-based practice, and problem solving. Concurrently scheduled with course C262. Letter grading.
165. Tertiary Prevention and Care II. (7) Lecture, seven hours. Requisites: courses C162, 163. Corequisite: course 166. Second course in two-course sequence. Examination of pathophysiological and psychosocial aspects of assessment and management for selected acute and emergent problems of patients/clients across lifespan, with emphasis on social, cultural, and developmental influences. Building on prior knowledge and experience, integration of basic knowledge of pathophysiology, diagnostics, pharmacology, therapeutic interventions, and communication concepts as applied to care of medical and surgical clients across lifespan (pediatrics to geriatrics). Discussion of application of nursing process, research, problem solving, and critical thinking. Concurrently scheduled with course C265. Letter grading.

167. Clinical Internship. (12) Clinical, 36 hours. Requisites: courses C165, 166. Supervised practicum experience within setting of multidimensional team, with focus on application of theory in clinical interpretation of assessment findings for use of care planning, implementing, and evaluating course of care for patients, both as individuals and cohorts. Mid-level assessment, health maintenance, and management of symptomatology across lifespan. Letter grading.

168. Advanced Leadership and Role Integration. (4) Lecture, four hours. Leadership and management theories and models, resource allocation and management, delegation, conflict resolution, legal implications and practice, managed care, evaluation of practice, continuous quality improvement, accreditation process for healthcare systems, and contemporary issues in workplace. Emphasis on integration of all professional role behaviors, application of research, and leadership-management of care as transition is made from student role to that of practicing professional nurse. Preparation for National Council Licensure Examination (NCLEX-PN). Letter grading.

170. Issues in Providing Healthcare to Culturally Diverse Populations. (4) (Formerly numbered 196.) Lecture, three hours; discussion, one hour. Open to nonnursing students with consent of instructor. Theoretical and practice design to provide base for understanding issues of providing healthcare to culturally diverse populations, with emphasis on strategies to facilitate intercultural/intercultural communication and intergroup/intragroup dynamics in healthcare settings. P/NP or letter grading.

171A. Community Health Nursing. (3) Lecture, three hours. Enforced requisite: course 102. Theoretical content focuses on population-based nursing concepts as they apply to health promotion and disease prevention among individuals, families, and small aggregates within communities. Letter grading.

171B. Community Health Nursing. (3) Clinical, nine hours. Corequisite: course 171A. Clinical concentration in community health nursing practice in multicultural community health nursing settings, including clinics, maternal and child healthcare agencies, shelters for homeless and health centers, occupational health centers, childcare agencies, and schools. Community health nursing practice focuses on community as context for health promotion and disease prevention among individuals, families, and community groups with awareness of psychosocial/physical environment. Letter grading.

171C. Public Health Nursing. (3) Lecture, three hours. Requisites: courses 171A, 171B. Theoretical content focuses on population-based approach to public health nursing in relation to health promotion and disease prevention at level of communities, other large population aggregates, and systems. Letter grading.

171D. Public Health Nursing. (3) Clinical, nine hours. Corequisite: course 171C. Clinical concentration in population-based public health nursing in culturally diverse settings, including health departments, health policy institutions, and public service agencies. Public health nursing practice activities focus on health promotion and disease prevention at level of community aggregates, whole populations, and systems, both domestically and internationally. P/NP grading.

172. Nursing Management. (3) Lecture, two hours; field study, three hours. Requisite: course 102. Management focus on observation of working groups. Acquisition of basic knowledge of management concepts and skills as practiced in organizational structures and community healthcare settings. Letter grading.

173. Introduction to Research. (4) Lecture, four hours. Introduction to planning research project based on simple questions. Specific content of research activities analyzed: specific aims and study purposes, variable definition, sample selection, data collection tools, data analyses, and ethical conduct in research studies. Critique of research reports. P/NP or letter grading.

174. Physical Assessment. (4) Lecture, three hours; laboratory, three hours. Designed to provide in-depth review and synthesis of physical assessment skills and knowledge covering lifespan. Individual study, use of audiovisual aids, physical assessment skills practice in laboratory, and required text are mandatory. Letter grading.

179. Individual Studies in Nursing. (2 to 4) Tutorial, one hour. Limited to junior/senior Nursing majors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

201. Health-Related Quality of Life. (2) Lecture, two hours. Theoretical foundations of health-related quality of life in relation to study of health and disease processes. Analysis of meaning, dimensions, predictors, measures, ethical dilemmas, cultural diversity issues, and biobehavioral foundations of health-related quality of life. Letter grading.

202. Philosophy of Nursing Science. (4) Lecture, four hours. Exploration of concepts of importance related to history of philosophy, history of science, and philosophy of science as context for study of philosophies of nursing science. Theoretical tenets and genealogies of thought that underlie key theoretical concepts in nursing science and domains of nursing (person, environment, health, and nursing). Letter grading.

203. History of Nursing Thought. (2) Lecture, two hours. Historical perspective on conceptual foundation and contextual forces which influenced development of discipline of nursing. Examination of nursing's historical influence on socio-political environment. Letter grading.

204. Research Design and Critique. (4) Lecture, 90 minutes; discussion, 90 minutes. Requisite: course 173 or equivalent upper division basic research methodology course. Complex research designs and analysis of multiple variables, and research utilization. Emphasis on techniques for control of variables, data analysis, and interpretation of results. Analysis in depth of interrelationship of theoretical frameworks, design, sample selection, data collection instruments, and data analysis techniques. Content discussed in terms of clinical nursing research problems and how these apply to clinical settings. Letter grading.

205A. Introduction to Qualitative Methods in Research. (Formerly numbered 235.) Lecture, four hours. Requisite: course 202. Introduction to qualitative research design in nursing science. Examination of major methodologies that guide qualitative research in relation to various strategies for data collection (interviews, participant observation, focus groups), data analysis, and data interpretation. Scientific rigor and ethical concerns for research with human participants critically examined. Letter grading.
210B. Interdependence of Theory and Research Questions in Nursing Science. (4) Formerly numbered 247.) Lecture, four hours. With focus on state of science in nursing research, analysis of critical interdependence of philosophical assumptions, theoretical conceptualizations of phenomena for study, and formation of research questions for guiding nursing knowledge development. Emphasis on trajectory of entire programs of research for phenomena of interest to nursing science in areas of biologic, biobehavioral, health services, and vulnerable populations. Letter grading.

210C. Nursing Intervention and Program Research. (4) Lecture, four hours. State of science of nursing intervention and program initiative research. Critical review of research supporting interventions and programs to enhance nursing practice and quality of care for individuals and families across lifespan. Examination of philosophical assumptions as well as analytical processes for evaluating effectiveness of interventions and programs. Consideration of research interventions and programs from perspective of biologic, biobehavioral, health services, and vulnerable populations research strands. Letter grading.

211. Theoretical Foundations of Women's Health Care During Reproductive Years. (4) Lecture, three hours; discussion, one hour. Theory and research on assessment and management of women's health issues during reproductive years. Clinical topics include gynecology, family planning, pregnancy, and postpartum care, with emphasis on health promotion of women during reproductive years in primary care settings. Letter grading.

212. Health-Related Family Theory. (2) Lecture, two hours. Overview of conceptual frameworks related to contemporary family structure and functioning, with particular emphasis on health. Family is defined broadly to include families, consider-ation of cross-cultural views of families as well. Identification of limitations of current theory and research related to family study and applicability of current knowledge to the problems encountered in care of families. Letter grading.

213A. Occupational Health Nursing Role and The-ory. (4) Lecture, four hours. Introduction to multidisci-plinary occupational health environment, including work setting, occupational health nurses scope and standards of practice, and legal and regulatory issues that affect occupational health nursing. Letter grading.

215F. Human Responses to Cancer. (4) Lecture, three hours; selected field experiences. Requisite: course 214F. Application of cancer-related theory/re-search to clinical practice, with emphasis on assess-ment and intervention of nursing issues in re-sponse to cancer and cancer treatment. Focus on is-sues affecting nursing care in prevention, screening, diagnosis, treatment, symptom management, rehabilita-tion, and quality of life related to responses to major cancers. Letter grading.

217F. Human Responses to Critical Illness. (4) Lecture, three hours; discussion, one hour. Requisite: course 216F. Builds on pathophysiologic concepts and nursing management of acutely and critically ill adults presented in course 216F. Emphasis on syn-thesis of research, theory, and experiential knowledge and skills to provide advanced preparation for acute care advanced practice nurses. Letter grading.

218B. Nursing Administration Theory. (4) Lecture, four hours. Requisite: course 218A. Focus on synthe-sizing organizational and management theories in re-lated to strategic planning and management, chang-ing care delivery systems, human and financial re-source management, decision making, management information systems, professional practice, and meet-ing accreditation and legal standards. Letter grading.

218C. Nursing Administration Theory. (4) Lecture, four hours. Requisite: course 218B. Project manage-ment, organizational communication, governance, de-velopment and change, diverse relationships within organizations, risk management, liability, and ethics of administration decision making. Emphasis on is-sues affecting local, national, and international health-care management. Letter grading.

219A. Essentials of Accounting and Budgeting in Healthcare Organizations. (4) Lecture, four hours. Theories of management, organization, and adminis-tration presented in relation to techniques of account-ing, budgeting, finance, and healthcare economics. Focus on definition of terms and concepts, followed by practical applications within variety of healthcare settings. Letter grading.

220. Theories of Instruction and Learning in Nurs-ing. (3) Lecture, two hours. Theories of learning, cur-riculum and program development, and principles and techniques of evaluation. Emphasis on practical role of advanced practice nurse in variety of settings and with diverse cultural and socioeconomic groups. Opportunities provided for skill development in use of computer-based information systems and development of instructional aids. Letter grading.

M221. Qualitative Research Design and Methodology for Indigenous Communities. (5) (Same as American Indian Studies M202 and Health Services M202.) Seminar, three hours. Introduction to some key theoretical themes in American Indian studies and exploration of methods that can be used to incor-porate them in research on American Indian cultures, sociocultural enactments, and other issues. Quantitative methods (design, appropriate use), emphasis on qualitative research methods, ethics, and special con-siderations in conducting research in American Indian country. Design of research and exploration of feasi-bility of researching topics. Letter grading.

222. Immunosuppression and Patient Care. (2) Lecture, two hours. Research related to immunosuppression, its causes, clinical manifestations, and modi-fiers. Special emphasis on physiologic and pathophysiologic mechanisms of immunosuppression as a basis for information used in patient education and clinical decisions, and supportive treatments and modifiers. Letter grading.

225A. Advanced Pharmacology I. (3) (Formerly numbered 225.) Lecture, two hours. Course 225A is en-forced requisite to 225B. Basic pharmacological principles in addition to clinical knowledge and skills necessary for care of clients/patients with stable acute or chronic conditions. Focus on major drug classes and their mechanisms of action, pharmacokinetics, adverse effects, and clinical uses. Letter grading.

225B. Advanced Pharmacology II. (2) Lecture, two hours. Enforced requisite: course 225A. Knowledge of and skills in pharmacology necessary for care of clients/patients with stable acute or chronic conditions. Letter grading.

226. Seminar: Aging Research. (2) Seminar, two hours. Preparation: completion of first-year course-work. Discussion and conceptualization of geronto-logical nursing concepts within context of specialty ar- eas of research (acute care, oncology, occupational health, and gerontological nursing). Provides opportu-nity for students to integrate gerontological nursing concepts into their evolving dissertation research and to examine state of scientific art and science. Core faculty from all specialty areas participate in dis-cussions. SU grading.
227. Ethnogeriatric Nursing. (4) Lecture, three hours. Requisite: course 209. Identification of unique content related to minority aging using Giger and Dav-vidhizar Transcultural Assessment Model. Examination of transcultural nursing viewed as culturally com- petent practice that is both client centered and re-search focused. Exploration of difference between Eurocentric lens and ethnocentric and transcultural diversity in varied healthcare settings. Study de-signs for conducting research, issues surrounding in-formed consent of minority elders, and data collection techniques, including critique and use of data collec-tion instruments used in community and long-term care settings, behavioral observations, interviews, and surveys. Letter grading.

228. Research Methods for Aging Populations. (4) Lecture, three hours. Requisites: courses 204, 205A, 207. Corequisite: course 208. In-depth examination of issues related to conducting research with elders in variety of healthcare settings. Study designs for con-ducting research on current and long-term care settings, issues surrounding informed consent, plan-ning for mortality and morbidity, data collection tech-niques for frail elders, including use of assessment tools used in community and long-term care settings; behavioral observations, interviews, and surveys; and statistical analysis techniques related to missing data, longitudinal data analysis, clustering, and repeated measures. Letter grading.

229. Biologic/Psychologic Interface in Health and Illness. (2) Lecture, two hours. Interaction of physiologic, behavioral, and psychosocial factors in illness, and theory and research underlying these factors, in-cluding differential influence of gender, ethnicity, and culture. Letter grading.

230A-230B. Advanced Pathophysiology I, II. (2-2) (Formerly numbered 230A, 230B.) Lecture, two hours. Requi-site: course 230 taken within the last three years. Course 230A is requisite to 230B. In-depth ex-amination of pathophysiologic processes that un-derlie human illness and disease, with detailed study of these in major body systems. Analysis of manifesta-tions of and responses to processes of cellular and hu-man-levels. Letter grading.

231. Special Topics in Cellular Physiology. (2) Lecture, four hours. Focus on cellular and molecular pathology at extracellular, system, and hu-man levels. Analysis of manifes-tations of and responses to processes of cellular and hu-man-levels. Letter grading.

232. Research Methods for Aging Populations. (4) Lecture, three hours. Requisites: courses 204, 205A, 207. Corequisite: course 208. In-depth examination of issues related to conducting research with elders in variety of healthcare settings. Study designs for con-ducting research on current and long-term care settings, issues surrounding informed consent, plan-ning for mortality and morbidity, data collection tech-niques for frail elders, including use of assessment tools used in community and long-term care settings; behavioral observations, interviews, and surveys; and statistical analysis techniques related to missing data, longitudinal data analysis, clustering, and repeated measures. Letter grading.

236. Essential Theoretical Foundations of Primary Care of Children. (4) Lecture, four hours. Requisite: course 236A. Focus on understanding integration of these modalities in nursing practice. Letter grading.

237. Biobehavioral Foundations of Neuropsychiatric Assessment. (4) Lecture, four hours. Biologic and behavioral research from variety of disciplines, including nursing, for application of neuropsychiatric assessment and diagnosis. Exploration of pathophysiology related to cognitive, addictive, and affective disorders, with emphasis on developing behavioral therapy approaches. Letter grading.

238. Theoretical Foundations of Biobehavioral Nursing Care. (2) Lecture, two hours. Concepts and principles of working with individuals and groups using psychotherapeutic nursing practices. Discus-sion of evolution of these modalities in nursing prac-tice, as well as theory and research evidence under-lying treatment of individuals with cognitive and affective disorders. Letter grading.

240. Biobehavioral Foundations of Neuropsychiatric Assessment. (4) Lecture, four hours. Biologic and behavioral research from variety of disciplines, including nursing, for application of neuropsychiatric assessment and diagnosis. Exploration of pathophysiology related to cognitive, addictive, and affective disorders, with emphasis on developing behavioral therapy approaches. Letter grading.

241. Biobehavioral Foundations of Neuropsychiatric Assessment. (4) Lecture, two hours. Biologic and behavioral research from variety of disciplines, including nursing, for application of neuropsychiatric assessment and diagnosis. Exploration of pathophysiology related to cognitive, addictive, and affective disorders, with emphasis on developing behavioral therapy approaches. Letter grading.

242. Biobehavioral Foundations of Neuropsychiatric Assessment. (4) Lecture, four hours. Biologic and behavioral research from variety of disciplines, including nursing, for application of neuropsychiatric assessment and diagnosis. Exploration of pathophysiology related to cognitive, addictive, and affective disorders, with emphasis on developing behavioral therapy approaches. Letter grading.
252. Health Promotion/Risk Reduction Systems: Population Level. (5) Lecture, four hours; fieldwork, three hours. Introduction to primary, secondary, and tertiary preventive measures to health and wellness across lifespan, using population-based approach to nursing care of diverse populations. Priorities in reproductive health, including issues related to childbearing and parenting; well-child care, school-age health, and chronic illness prevention strategies for young- and middle-aged adults; priorities associated with aging, including chronic illness among both older independent and frail adults. Analysis of influence of overarching political, societal, and governmental systems within the U.S. Letter grading.

254A. Theoretical Foundations of Master’s Entry Clinical Nurse Role Fundamentals Laboratory. (1) Laboratory, three hours. Focus on application to clinical practice settings that include culturally diverse populations. Discussion of case management, outcomes coordination, leadership, risk anticipation, information technology, and search utilization of MECN role as it relates to patient/client sphere of influence. Letter grading.

254B. Theoretical Foundations of Master’s Entry Clinical Nurse Role Fundamentals Laboratory. (1) Laboratory, three hours. Focus on application to clinical practice settings that include culturally diverse populations. Discussion of case management, outcomes coordination, leadership, risk anticipation, information technology, and research utilization of master’s entry clinical nurse (MECN) role as it relates to patient/client sphere of influence. Letter grading.

256. Informatics. (2) Lecture, one hour; discussion, three hours. State-of-art view of information systems of import to nursing and healthcare delivery systems, including contemporary topics such as database searching, management, and simple analysis of data. Introduction to knowledge and skills pertaining to development and use of electronic health records in contemporary healthcare systems. Analysis of influence of overarching ethical, political, and social influences on information systems developed for personal and public healthcare delivery in the U.S. Concurrently scheduled with course C155. Letter grading.

259. Systems (Hospital Unit): Individual Level. (4) Lecture, four hours. Requisite: course 267. Discussion of use of systems theory approach in providing patient-centered and value-added care. Functioning within systems, individual healthcare practitioners learn to use critical thinking and decision making to coordinate and deliver quality and cost-effective care. Development of understanding of different modes of organizing nursing care within unit environment, managing care within multidisciplinary team framework, and promoting effective teamwork that enhances patient outcomes, improves staff vitality, and reduces costs. Emphasis on concepts related to system theory, problem solving and decision making, nursing care delivery models, delegation, and team strategies. Letter grading.

260. Secondary Prevention. (4) Lecture, four hours. Requisite: course 252. Corequisites: course 225A. Screening and early detection of illness to prevent chronic or acutely deteriorating illness. Expanding on concepts of health and human development and using nursing process, application of nursing role in providing care to individuals and their families to screen, diagnose, and treat illness at earliest possible time to prevent disability or premature mortality. Examination of health problems of individuals within context of family, social and community systems, and interdisciplinary healthcare systems. Emphasis on differences in developmental stages in response to screening for early and late signs and symptoms of illness in ambulatory and acute care settings, community agencies, rehabilitation units, outpatient specialty clinics and surgical units, and home and community settings. Concurrently scheduled with course C160. Letter grading.

262. Tertiary Prevention and Care I. (7) Lecture, seven hours. Requisites: courses C260, 461. First course in two-course sequence. Examination of pathophysiological and psychosocial aspects of assessment and management for selected acute and emergent problems of patients/clients across lifespan, with emphasis on social, cultural, and developmental influences. Building on prior knowledge and experience, integration of basic knowledge of pathophysiology, diagnostics, pharmacology, therapeutic interventions, and communication concepts as applied to care of child-bearing families and medical and surgical clients across lifespan (pediatrics to geriatrics). Discussion of application of nursing process, evidenced-based practice, and problem solving. Concurrently scheduled with course C162. Letter grading.

264. Professional Issues in Nursing. (3) Lecture, three hours. Requisite: course 418A or 438A or 439A. Assessment of organizational, legal, ethical, and healthcare policy issues in relation to delivery of healthcare services by advanced practice nurses in evolving healthcare systems. Letter grading.

265. Tertiary Prevention and Care II. (7) Lecture, seven hours. Requisites: courses C262, 463. Corequisites: courses 464, 465. Second course in two-course sequence. Examination of pathophysiological and psychosocial aspects of assessment and management for selected acute and emergent problems of patients/clients across lifespan, with emphasis on social, cultural, and developmental influences. Building on prior knowledge and experience, integration of basic knowledge of pathophysiology, diagnostics, pharmacology, therapeutic interventions, and communication concepts as applied to care of child-bearing families and medical and surgical clients across lifespan (pediatrics to geriatrics). Discussion of application of nursing process, research, problem solving, and critical thinking. Concurrently scheduled with course C165. Letter grading.

266. Healthcare Systems/Organizations. (4) Lecture, four hours. Development of understanding of ways healthcare is organized and delivered. Discussion of totality of healthcare systems, including establishment of public and private healthcare plans and delivery systems, development of managed care systems, common characteristics shared by HMOs/PPOs, and impact of managed care on nursing. Delivery of patient care in managed care systems and on continuum of healthcare. Application of basic economic elements and financial concepts to nursing and healthcare organizations. Letter grading.

267. Healthcare Policy. (3) Lecture, three hours. Requisite: course 266. Analysis of healthcare policies and how they impact clinical practice and healthcare delivery. Discussion of healthcare policy-making, specifically how to formulate healthcare policy, how to affect political process, and stakeholder involvement in policy formulation and implementation. Development of understanding of increasing levels of public, governmental, and third-party participation in and scrutiny of shape and direction of healthcare systems. Examination of healthcare bills and their effect on nursing. Concepts associated with escalating healthcare costs and cost containment efforts instituted by private and government sectors, as well as by individual healthcare institutions. Letter grading.

268. Community Health Sciences
295B-295C. Nursing Science Seminars. (1-1) Seminar, one hour. Requisite: course 295A. Introduction to grant writing, with focus on preparing applications for National Health Research Award. Discussion of requirements of various extramural and specialty organization funding sources, and evaluation criteria identified. Role of external funding to facilitate doctoral and postdoctoral research, research activities, and professional development. S/U grading.

M298. Interdisciplinary Response to Infectious Disease Emergencies: Nursing Perspective. (4) (Formerly numbered 298B) Lecture, three hours; discussion, one hour. Designed to instill in professional students ideas of common emergency health problems and coordinated response, with specific attention to bioterrorism, Examination of tools to help students prevent, detect, and intervene in infectious disease emergencies. Interdisciplinary sessions also attended by students in Schools of Dentistry, Medicine, and Public Health during weeks two through five. Letter grading.

299A. Nursing Research Seminar. (2) Seminar, two hours. Seminar to assist students who are beginning careers in scientific research to understand issues of responsible and ethical research and protection of research subjects. S/U grading.

299B-299C. Nursing Research/Laboratory Experiences. (4-4) Seminar/discussion, one hour; research/laboratory, three hours. Requisites: courses 202, 203. Seminar to assist students in research/laboratory experiences to assist students to prepare for careers as scientists, with focus on research methodology and mentorship. S/U grading.

39D. Nursing Education Seminar. (2) Seminar, two hours; discussion, one to two hours. Requisites: courses 206, 207, 208, 220. Seminar to assist students to prepare for careers in academic settings, with focus on teaching. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

418A. Nursing Administration Practicum. (3 or 4) Clinic practicum, eight or 11 hours; clinic conference, one hour. Requisites: courses 219A, 219B. Synthesis, evaluation, and practical application of organizational theory in practice setting, with emphasis on content presented in course 218A, including organizational structure, processes, and outcomes. Letter grading.

418B. Nursing Administration Practicum. (3 or 4) Clinic practicum, eight or 11 hours; clinical conference, one hour. Requisites: courses 218A, 418A. Experience in organizational setting for synthesizing content from course 218B, including strategic planning and management, care delivery systems, resource management, decision making, management information systems, professional practice, and meeting accreditation and legal standards. Letter grading.

418C. Nursing Administration Practicum. (3 or 4) Clinic practicum, eight or 11 hours; clinical conference, one hour. Requisites: courses 219B, 418B. Experience in organizational setting for synthesizing and evaluating content from course 218C, including processes of project management, organizational communication, governance, development and change, diverse relationships within organization, risk management, liability, and ethics of administration decision making. Letter grading.

418D. Nursing Administration Residency. (12) Clinic practicum, 33 credits; clinical conference, one hour. Requisites: courses 218C, 418C. Experience in organization setting as students assume leadership role in planning, managing, and evaluating administrative process of content from course 218D, including assessing community healthcare needs, marketing, media, and political action and healthcare policy. Letter grading.

438D. Pediatric Primary Care: Residency. (8) Clinic practicum, 24 hours. Requisites: courses 238C, 428D. Development of expanded skills in assessment, planning, and evaluating care of children. Research, theory, and clinical knowledge analyzed, integrated, and applied to care of children and families with actual or potential health problems. Letter grading.

439B. Advanced Practice Nursing: Clinical Practicum. (4) Clinic practicum, 12 hours. Corequisite: course 239B. Continuation of course 439A for advanced practice nurses, with emphasis on nursing management of acute and chronic health problems in selected populations. Developmental needs of clients in relation to family, social, and cultural structures. Letter grading.

439C. Advanced Practice Nursing: Clinical Practicum. (6) Clinic practicum, 18 hours. Corequisite: course 239C. Continuing development of advanced practice profession course for advanced practice nurses, with focus on nursing assessment and intervention in common illness-associated symptoms and complex patient/family presentations. Analysis, evaluation, and integration of current theory and research to provide basis for development of interventions and treatment for acute and chronic problems across lifespan. Letter grading.

440. Advanced Assessment and Clinical Diagnosis Practicum. (2) Laboratory/clinic practicum, six hours. Practice foundations for advanced physical assessment and clinical diagnostic reasoning. Students conduct individualized patient- and symptom-focused assessments of children and families who present with diverse clinical problems representative of diverse client populations. Emphasis on comprehensive and integrated critical analysis of symptom and focused history data, physical examination, selected laboratory data, and clinical diagnoses. Letter grading.

441. Neuropsychiatric Subspecialty Clinical Seminar. (1 to 2) Clinical seminar, one hour; self-study, two hours. Requisites: courses 241F, 242F. Designed for advanced practice nurses in any nurse practitioner specialty. Neuropsychiatric assessment, treatment, and case presentations in selected populations with addictive, affective, and cognitive dysfunctions in relation to neurophysiology and pathology as it relates to family, social, and cultural structures. S/U grading.

450. Advanced Practice Nursing: Clinical Elective Independent Study. (2 to 8) Clinic practicum, eight hours. Clinical elective designed to enhance skills and competencies in student-selected advanced practice specialty or related practice dimension, with emphasis on application and integration and evidence-based practice knowledge. S/U grading.

Ophthalmology
David Geffen School of Medicine
UCLA
2-142 Jules Stein Eye Institute
Box 957000
Los Angeles CA 90095-7000
(310) 825-5053
http://www.jsei.org

Scope and Objectives
Ophthalmology is the medical science that encompasses knowledge concerning the eyes and the visual system. Derived from many basic and clinical fields, this knowledge must be synthesized by the physician and applied to the prevention, diagnosis, medical management, and surgical therapy of ocular disease.

In response to the steadily increasing incidence and growing importance of ocular disorders, the Department of Ophthalmology and the Jules Stein Eye Institute (including the Doris Stein Eye Research Center) are closely coordinated to form a comprehensive center for research in the sciences related to vision, for the care of patients with disease of the eyes and related structures, and for education in the broad field of ophthalmology.

The Department of Ophthalmology provides instruction to medical students during the second, third, and fourth years. Through lectures, demonstrations, discussions, and the opportunity to observe patients and review data on cases with a variety of ocular conditions, students gain knowledge and experience in ophthalmology.

For further details on the Department of Obstetrics and Gynecology, see http://www.uclaobgyn.com.

Upper Division Course
199. Directed Research in Obstetrics and Gynecology. (2 to 8)
Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Cun-Yu Wang, Ph.D., D.D.S., Chair
Francesco Chiappei, Ph.D., Vice Chair

Professors
Carol A. Bibb, Ph.D., D.D.S.
Francesco Chiappei, Ph.D.
Robert H. Chiu, Ph.D.
Diana Messadi, D.D.S., Ph.D.
Wenyuan Shi, Ph.D.
Igor Spigelman, Ph.D.
Sotirios Tetrads, Ph.D., D.D.S.
Lawrence E. Wolinsky, D.M.D., Ph.D.
Cun-Yu Wang, Ph.D., D.D.S.

Associate Professors
Anahid Jewett, M.P.H., Ph.D.
Kenneth T. Miyasaki, D.D.S., M.S., Ph.D.

Assistant Professors
Bradley Henson, D.D.S., Ph.D., in Residence
Clarice Law, D.M.D., M.S.
Jeanne Nervina, Ph.D., D.M.D., M.S.

Adjunct Associate Professors
Shen Hu, Ph.D.
Shen Pang, Ph.D.
Ki-Hyuk Shin, Ph.D., M.S.
Craig D. Woods, D.M.D.

Adjunct Assistant Professors
Yong Kim, Ph.D.
Renate Lux, Ph.D.
Jun Song, Ph.D., M.D., M.S.
Ting-Ting Wu, Ph.D.

Scope and Objectives
Oral biology is the area of knowledge that deals with the development, structure, and function of the oral tissues and their interrelationships with other organ systems in normal and disease states. It is a multidisciplinary field that includes cell biology, morphology, molecular biology, biochemistry, neuroscience, immunology, microbiology, and virology. The objective of the graduate program is to provide students with a sound foundation in these areas in order to pursue an academic or research career.
Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasasa/library/pgmgrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Section of Oral Biology in the School of Dentistry offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Oral Biology. A combined D.D.S./Oral Biology M.S or Ph.D. or advanced certificate training/Oral Biology M.S. or Ph.D. is also offered.

Oral Biology

Graduate Courses

201A-201B-201C. Advanced Oral Biology. (3-2-3) Lecture, one hour; three hours laboratory.

201A. Ontogeny. (3) Lecture, three hours. Evolutionary perspective of cellular development from simple molecules that were formed during the first billion years of the Earth to development of cells, tissues, and organs of invertebrates and vertebrates. Development of vertebrate feeding apparatus from a comparative anatomical and physiological point of view, followed by embryogenesis of orofacial and dental structures of humans.

201B. Homeostasis in Oral Systems. (2) Lecture, two hours. Normal regulatory functions of various oral systems. Topics include mechanisms of salivary secretion and nonspecific salivary protective mechanisms; integrative action of oral sensory systems such as touch, pain, and taste; normal control of movements in jaw and face.

201C. Pathobiology. (3) Lecture, three hours. Molecular basis for pathogenic processes in tissues of the oral cavity. Topics include microbially mediated de-mineralization of hard tissues, soft tissue infections, carcinogenesis, colonization of mucosal substrates by opportunists, etc. S/U or letter grading.

M203. Oral Embryology and Histology. (4) (Same as Neurobiology M229.) Lecture, four hours. Lectures and laboratory instruction in development and histological structure of facial region and oral and peri-oral organs and tissues. S/U grading.

M204. Mechanisms and Relief of Pain. (2) (Same as Neuroscience M233.) Advanced treatment of neuroanatomical, neurophysiological, and biochemical bases of pain perception. Topics include classical pain theories, pain receptors and pathways, endogenous mechanisms of pain modulation, and pharmacological basis for treatment of pain disorders.

205A. Methodology in Research Design and Data Analysis. (2) (Formerly numbered 205.) Lecture, two hours. Designed for graduate oral biology students. Integration of didactic lectures in descriptive and inferential statistics and in research design (emphasis on experimental design), presentations of statistical software, and open discussion of specific needs of oral biology students when they design their research. Letter grading.

206. Current Topics in Oral Immunology. (2) Lecture, two hours. Preparation: basic immunology. Discussion and analysis of current research dealing with immunological issues related to oral health, including HIV, opportunistic oral infections, periodontal pathologies, oral immunopathology, caries immunology, endodontic immunology, etc. Letter grading.

209. Scientific Ethics. (2) Lecture, one hour; laboratory, one hour. Required course in scientific ethics for graduate students in Oral Biology M.S. and Ph.D. programs and for NRSA trainees in School of Dentistry.

211. Biology of the Temporomandibular Joint. (2) Anatomy, histology, physiology, and biomechanics of the temporomandibular joint (TMJ) and related musculature. Pain mechanisms, sensorimotor integration, and motor mechanisms in TMJ function, and current methods of TMJ imaging.

212. Proseminar: Oral Biology Research. (2) Seminar, one hour. Introductory course for graduate M.S. students. Guest seminars on topics of research in oral biology (pain pathways, immunology, bone biology, microbiology, cancer, and salivary genomics), followed by discussions led by course chair. Letter grading.

215A. Fundamentals of Immunology. (2) (Formerly numbered 215.) Lecture, two hours. Basic cellular and molecular mechanisms involved in responses mediated by immune effectors, with emphasis on immunopathology involved in autoimmune, cancer, and immunodeficiency syndromes. Letter grading.

226. Craniofacial Growth and Development. (2) (Formerly numbered 226A.) Lecture, two hours. Preparation: strong background in histology and embryology. Students acquire, from scientific literature discussed in lecture/seminar format, advanced knowledge of relevant aspects of human biology as they apply to classic and current concepts of principles governing growth and development of craniofacial region. Students required to present seminars on assigned topics that aid their understanding and analysis of course content that has application to their specific and professional fields. Letter grading.

227. Dental Embryology and Histology. (2) Description and interpretation of important stages in development of the oral apparatus and histological features of its component tissues. Critique of scientific literature relevant to course content and analysis of current state of knowledge about selected features of the orofacial apparatus which are of significance to clinical dental specialists.

228. Dental Pharmacology and Therapeutics. (2) Lecture, three hours. Survey of pharmacology, with particular emphasis on how drugs interact with dentistry. General principles of drug action and drug effects on autonomic and central nervous systems.

229A. Culture, Ethnicity, and Health: Implications for Oral Biology and Medicine. (2) Seminar, one hour discussion, one hour. Examination of sociocultural, biological, and linguistic anthropology to understand factors that influence health and well-being, experience and distribution of illness, prevention and treatment of sickness, healing processes, social relations of therapy management, and cultural import and utilization of pluralistic medical systems. Theory, perspectives, and methods from clinical medicine, public health, epidemiology, demography, and social sciences. Letter grading.

229B. Anthropological Perspectives on Global Health: Implications for Oral Biology and Medicine. (2) Seminar, one hour discussion, one hour. Examination of sociocultural, biological, and linguistic anthropology to understand factors that influence health and well-being, experience and distribution of illness, prevention and treatment of sickness, healing processes, social relations of therapy management, and cultural importance and utilization of pluralistic medical systems. Theory, perspectives, and methods from clinical medicine, public health, epidemiology, demography, and social sciences. Letter grading.

M234. Sensorimotor Developmental Neuroimmunology. (2) Lecture, two hours. Preparation: basic immunology. Designed for graduate students. Psychological and physiological processes intertwine, and one important aspect of psychoneuroimmunological research is characterization of mechanisms that underlie these interactions. Examination of current literature on neuromimicry interaction from a developmental perspective. S/U or letter grading.

M256. Interdisciplinary Response to Infectious Disease Emergencies: Dentistry Perspective. (4) Lecture, three hours; discussion, one hour. Designed to instill in professional students ideas of common emergency health problems and coordinated response, with specific attention to bioterrorism. Examination of tools to help students detect, prevent, and intervene in infectious disease emergencies. Interdisciplinary sessions also attended by students in Schools of Medicine, Nursing, and Public Health during weeks two through five. Letter grading.

273. Research in Clinical Immunology and Lymphology. (2) Lecture, one hour; discussion, one hour. Forum for discussion of cutting-edge topics in immunology and lymphology from clinical perspective. Emphasis on immune surveillance and lymphatic drainage of oral pathologies associated with AIDS and other diseases.

275. Molecular and Cell Biology for Oral Biology Graduate Students. (3) Lecture, two hours; literature review, one hour. Advanced course on prokaryotic and eukaryotic molecular and cell biology, with emphasis on applications in dental research.

596. Directed Individual Study or Research. (2 to 8) Tutorial, to be arranged. S/U or letter grading.

Chair

Gerald A.M. Finerman, M.D.

Scope and Objectives

The medical student program in orthopaedic surgery is designed to provide experience in understanding the diagnosis and management of disorders of the musculoskeletal system. Through a combination of didactic instruction and supervised clinical experience, students acquire the clinical skills of history taking and physical examination of the musculoskeletal system. Diagnosis and orthopaedic management of bone and soft tissue trauma, skeletal development defects, tumor, spinal disorders, hand and foot disorders, and arthritis are primary objectives. Third-year students work in ambulatory clinics and on inpatient services during their core surgical clerkship. Fourth-year electives provide the opportunity for in-depth experience on rotations at the Reagan UCLA Medical Center and affiliated institutions and emphasize subspecialties such as joint re-
Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaalibrary/ggmrintr.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Pathology and Laboratory Medicine offers Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Cellular and Molecular Pathology.

Pathology and Laboratory Medicine

Upper Division Course

199. Directed Research in Orthopaedic Surgery. (2 to 8) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Scope and Objectives

Pathology is the branch of medicine concerned with the causes and development of disease. The goal of the cellular and molecular pathology (CMP) graduate program is to provide students with the knowledge to integrate findings at the molecular, cellular, and systemic levels to understand the causes and progression of disease.

Coursework is designed so that students gain an in-depth knowledge of cell and molecular biology, genetics, and disease mechanisms. Didactic instruction is complemented by participation in seminars and training in the design and execution of original laboratory research. As a result, graduates obtain the expertise to translate and answer questions defined in the clinical area to the laboratory bench and vice versa.
M255. Mapping and Mining Human Genome. (3) (Formerly numbered 255.) (Same as Human Genetics M255.) Lecture, three hours. Basic molecular genetic and cytogenetic techniques of gene mapping. Selective regions of human genomic map scrutinized in detail, particularly gene families and clusters of genes that have remained linked from mouse to human. Discussion of localizations of disease genes. S/U or letter grading.

256. Seminar: Viral Oncology. (2) Seminar, two hours. Advanced research seminar designed to consider current developments in field. Selection of current subjects and publications dealing with tumor viruses, oncogenesis, development, and cellular regulation. S/U or letter grading.

M257. Introduction to Toxicology. (4) (Same as Pharmacology M257.) Requisite: Pharmacology M241. Biochemical and systemic toxicology, basic mechanisms of toxicology, and interaction of toxic agents with specific organ systems.

M258. Pathologic Changes in Toxicology. (4) (Same as Pharmacology M258.) Designed to give students experience in learning normal histology of tissues which are major targets of toxins and the range of pathologic changes that occur in these tissues (liver, bladder, lung, kidney, nervous system, and vascular system).

260. Immunopathology. (4) Lecture, two hours; discussion, one hour; laboratory, one hour. Requisite: Microbiology 261. Advanced information for graduate and advanced undergraduate students regarding immune system anatomy, lymphocytic development, acute and chronic inflammation, hypersensitivity, and autoimmunity. Letter grading.

270. Basic and Clinical Aspects of Developmental Hematology. (4) Lecture, two hours. Graduate- and postgraduate-level course that covers broad range of topics in both basic and clinical aspects of development and hematologic disorders. Pediatric hematologic disorders provide important paradigm to study other developmental systems. Subjects include hematopoiesis, basic stem cell biology, angiogenesis, alternative models to study developmental hematologic disorders (zebrafish and Drosophila), basic physiology of normal and abnormal red cells, platelets, and white cells, leukemogenesis and novel therapeutics to treat leukemia, basic and clinical stem cell transplantation, state-of-the-art methods in developmental hematologic (genomics, proteomics, and gene therapy, design of clinical trials, and biomathematical modeling and statistics in developmental hematologic). Letter grading.

M272. Stem Cell Biology and Regenerative Medicine. (4) (Same as Molecular, Cell, and Developmental Biology M272.) Lecture, two hours; discussion, two hours. Designed for graduate students. Presentation of current knowledge of embryonic and adult stem cells and factors that regulate their growth and development. Major emphasis on how advances in cell and molecular biology and tissue engineering can be applied to use of stem cells in regenerative medicine. Bioethical and legal issues related to stem cell research. S/U or letter grading.

296. Research Topics in Pathology. (1 to 2) Research group meeting, one to two hours. Limited to departmental graduate students. Advanced study and analysis of current topics in pathology. Discussion of current research and literature in research specialty of faculty member teaching course. May be repeated for credit. S/U grading.

PEDIATRICS

Chairs
Edward R.B. McCabe, M.D., Ph.D. (Mattel Executive Endowed Professor of Pediatrics), Executive Chair
Sherin Devaskar, M.D., Executive Vice Chair
Judit E. Brill, M.D., Vice Chair, Clinical Affairs
Thomas S. Kitzmiller, M.D., Ph.D. (Jack H. Skirball Professor of Pediatric Cardiology), Vice Chair, Academic Affairs
Lee T. Miller, M.D., Vice Chair, Medical Education
Kathleen M. Sakamoto, M.D., Vice Chair, Translational Research
Richard Findlay, M.D., Internim Chair, King/Harbor
Adam J. Jonas, M.D., Chair, Harbor-UCLA
Mohammed Malekzadeh, M.D., Chair, Olive View-UCLA
Charles F. Simmons, Jr., M.D., Chair, Cedars-Sinai

Scope and Objectives

The Department of Pediatrics encompasses four teaching hospitals: Mattel Children's Hospital UCLA and Olive View-UCLA, Harbor-UCLA, and Cedars-Sinai Medical Centers. The clinical program and teaching activities of the UCLA Medical Center are integrated with the Olive View-UCLA Medical Center. In the fundamentals of clinical medicine course, medical students receive detailed instruction in the techniques of the clinical examination of pediatric patients.

The required six-week clinical clerkship in pediatrics can be taken in any of four programs (Mattel/Olive View-UCLA, Cedars-Sinai, Harbor-UCLA, Kaiser Los Angeles). In-depth electives in the Department of Pediatrics are listed in the School of Medicine Handbook of Clinical Courses, as are the advanced clinical clerkships.

For further details on the Department of Pediatrics and a listing of the courses offered, see http://www.mattel.ucla.edu/index.htm.

Pediatrics

Upper Division Course

199. Directed Research in Pediatrics. (2 to 8) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Course

M215. Interdepartmental Course: Tropical Medicine. (2) (Same as Medicine M215 and Pathology M215.) Lecture, two and one-half hours. Preparation: basic courses in microbiology and parasitology of infectious diseases in School of Medicine or Public Health. Study of current knowledge about diseases prevalent in tropical areas of the world. Major emphasis on infectious diseases, with coverage of problems in nutrition and exotic noninfectious diseases. Syllabus supplements topics covered in classroom. S/U grading.

Undergraduate Study

Philosophy B.A.

Preparation for the Major

Required: Four lower division courses, including Philosophy 7 or 21, 22, 31, and one other philosophy course.

Transfer Students

Transfer applicants to the Philosophy major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: one philosophy of mind or skepticism and rationality course, one ethical theory course, one symbolic logic course, and one additional philosophy course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Required: Thirteen upper division (100 series) or graduate (200 series) philosophy courses (52 units), including Philosophy 100A, 100B, 100C. Seven of the 13 courses must be distributed among the groups into which the undergraduate and graduate courses are divided, in the following manner: two courses in each of three of the groups and one course in the remaining group.

Courses listed under Special Studies may be applied toward the major but not toward a group requirement. A maximum of 8 units of course 199 may be applied toward the major but not toward a group requirement. Courses 100A, 100B, 100C may not be applied toward any group requirement. No course used to satisfy the major or preparation requirements may be taken on a P/NP basis.

Students intending to do graduate work in philosophy should consult both the graduate and undergraduate advisers.

Honors Program

Admission

To be admitted to the honors program, students must have taken at least three upper division philosophy lecture or seminar courses at UCLA with an overall grade-point average of 3.7.

Requirements

To be awarded honors in philosophy at graduation, Philosophy majors must (1) have a 3.7 grade-point average in UCLA philosophy courses and a 3.7 GPA in upper division UCLA philosophy courses; (2) satisfy the honors directed study requirement by taking Philosophy 198A and 198B in conjunction (usually, but not necessarily concurrently) with two different regular upper division philosophy courses supervised by the instructors of those courses; and (3) receive a grade of A– or better in any course applied toward satisfaction of the honors requirement.

Students may substitute Philosophy 191 for either course 198A or 198B or, alternatively, may complete up to two philosophy graduate seminars in lieu of courses 198A and/or 198B. For an undergraduate or graduate seminar to be applied toward the honors directed study requirement, the consent of both the seminar instructor and the faculty honors adviser is required. Students may also substitute up to one 4-unit Philosophy 198C or 199 course in which they produce a substantial paper that represents an original piece of research or its equivalent.

Exceptional work done to satisfy the honors requirement may be submitted to the department chair for consideration for highest honors.

Philosophy Minor

To enter the Philosophy minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Courses (8 units): Philosophy 7 or 21, and 22 or 31.

Required Upper Division Courses (24 units): Five courses, including at least one from each of three of the four groups into which the undergraduate and graduate courses are divided (Philosophy 100A, 100B, 100C apply toward Group I); one additional upper or lower division philosophy course.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaal/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Philosophy offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Philosophy. A concurrent degree program (Philosophy Ph.D./Law J.D.) is also offered.

Philosophy

Lower Division Courses

1. Beginnings of Western Philosophy. (5) Lecture, three hours; discussion, one hour. Origins of Greek cosmology and philosophy, beginnings of systematic thought and scientific investigation concerning such questions as origin and nature of the material world, concept of laws of nature, possibility and extent of knowledge. Concentration on pre-Socratic philosophers, particularly Anaximander, Heraclitus, the Pythagoreans, Parmenides, Empedocles, and Greek atomists, during first two thirds of course and on Socrates and some earlier works of Plato in last few weeks. P/NP or letter grading.

2. Introduction to Philosophy of Religion. (4) Lecture, three hours; discussion, one hour. Introductory study of such topics as nature and grounds of religious belief, relation between religion and ethics, nature and existence of God, problem of evil, and what can be learned from religious experience.

3. Historical Introduction to Philosophy. (5) Lecture, three hours; discussion, two hours. Historical introduction to Western philosophy based on classical texts dealing with major problems, related thematically and studied in chronological order: properties of rational argument, existence of God, problem of knowledge, nature of causality, relation between mind and body, possibility of justice, and others. P/NP or letter grading.

4. Philosophical Analysis of Contemporary Moral Issues. (5) Lecture, three hours; discussion, one hour. Critical study of principles and arguments advanced in discussion of current moral issues. Possible topics include revolutionary violence, rules of warfare, sexual morality, rights of privacy, punishment, nuclear warfare and deterrence, abortion and mercy killing, experimentation with human subjects, rights of women. P/NP or letter grading.
5. Philosophy in Literature. (5) Lecture, three hours; discussion, one hour. Philosophical inquiry into such themes as freedom, responsibility, guilt, love, self-knowledge, and meaning of life through examination of great literary works in Western tradition. P/NP or letter grading.

6. Introduction to Political Philosophy. (5) Lecture, three hours; discussion, one hour. Study of some classical or contemporary works in political philosophy. Questions that may be discussed include: What is justice? Why obey the law? Which form of government is best? How much personal freedom should be allowed in society? P/NP or letter grading.

7. Introduction to Philosophy of Mind. (5) Lecture, three hours; discussion, one hour. Introductory study of philosophical issues about nature of the mind and its relation to the body, including materialism, functionalism, behaviorism, determinism and free will, nature of psychological knowledge. P/NP or letter grading.

8. Introduction to Philosophy of Science. (5) Lecture, three hours; discussion, one hour. Study of select- ed problems concerning the character and reliability of scientific understanding, such as nature of scientific the- ory and explanation, reality of theoretical entities, induc- tive confirmation of hypotheses, and occurrence of re- alistic relativism. May be repeated at the same level with consent of instructor.

9. Principles of Critical Reasoning. (4) Nature of arguments: how to analyze them and assess sound- ness of the reasoning they represent. Common falla- cies that often occur in arguments discussed in light of what counts as a good deductive or inductive infer- ence. Other topics include use of language in argu- mentation to arouse emotions as contrasted with con- veying thoughts, logic of scientific experiments and hypothesis-testing in general, and some general ideas about probability and its application in making normative decisions (e.g., betting).

21. Skepticism and Rationality. (4) Lecture, three hours; discussion, one hour. Can we know anything with certainty? How can we justify our beliefs? Introduction to study of these and related questions through works of some great philosophers of modern period, such as Descartes, Hume, Leibniz, or Berkeley.

22. Introduction to Ethical Theory. (5) Lecture, three hours; discussion, one hour. Not open for credit to students with credit for course 22W. Recommended or required for many upper division courses in Group III. Systematic introduction to ethical theory, in- cluding discussion of egoism, utilitarianism, justice, responsibility, meaning of ethical terms, relativism, etc. P/NP or letter grading.

22W. Introduction to Ethical Theory. (5) Lecture, three hours; discussion, one hour. Enforced requisite: English Composition 3 or 3H or English as a Second Language 96. Limited to freshmen/transfer students. Not open for credit to students with credit for course 22W. Introduction to major ethical theories in Western thought. Examination of works of Plato, Aristotle, Hume, Kant, and Mill. Topics include ideas of virtue, obligation, egoism, relativism, and foundations of morals. Four papers required. Satisfies Writing II require- ment. Letter grading.

31. Logic, First Course. (4) Lecture, three hours; discussion, one hour. Recommended for students who plan to pursue more advanced studies in logic. Elements of symbolic logic, sentential and quantifica- tional; forms of reasoning and structure of language.

97. Freshman Forum. (1) One of the following topics: consult Schedule of Classes or Department Announce- ments for topics to be offered in a specific term. May be repeated for credit with consent of instructor.

Upper Division Courses

100A. History of Greek Philosophy. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Survey of origins of Greek meta- physics from pre-Socratics through Plato and Aristotle.

100B. Medieval and Early Modern Philosophy. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Strongly recommended requisite: course 100A. Survey of development and transformation of Greek metaphysics and epistemology within the framework of philosophy and the formation from medieval to early modern period. Special empha- sis on Augustine, Anselm, Aquinas, and Descartes.

100C. History of Modern Philosophy, 1650 to 1800. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Strongly recom- mended requisite: course 100B. Courses 100A, 100B, and 100C should be taken in immediately suc- cessive terms if possible. Survey of development of metaphysics and theory of knowledge from 1650 to 1800, including Locke and/or Berkeley, Malebranche and/or Leibniz, and culminating in Hume and Kant. Topics may include views of these (and perhaps oth- er) philosophers on mind and body, causality, existence of God, skepticism, empiricism, limits of human knowledge, and philosophical foundations of modern science.

Group I: History of Philosophy

M101A. Plato — Earlier Dialogues. (4) Same as Classics M146A.) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Study of selected topics in early and middle dialogues of Plato. P/NP or letter grading.

M101B. Plato — Later Dialogues. (4) Same as Classics M146B.) Lecture, three hours; discussion, one hour. Preparation: course M101A. Study of selected topics in middle and later dialogues of Plato. P/NP or letter grading.

M102. Aristotle. (4) Same as Classics M147T.) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Study of selected works of Ar- istotle. P/NP or letter grading.

M103A. Ancient Greek and Roman Philosophy. (4) Same as Classics M145A.) Lecture, three hours. Study of some major Greek and Roman philosophical texts, including those of pre-Socratics, Plato, Aristotle, and Hellenistic philosophers, with emphasis on histor- ical and cultural setting of texts, their literary form, in- terrelations, and contribution to discussion of basic philosophical issues. P/NP or letter grading.

M103B. Later Ancient Greek Philosophy. (4) Same as Classics M145B.) Lecture, three hours. Preparation: one course from 1, 100A, M101B, M102, or M103A. Study of some major texts in Greek philosop- hy of Hellenistic and Roman periods. Readings vary and include works by Stoics, skeptics, philosophers of science, Neoplatonists, etc. P/NP or letter grading.

104. Topics in Islamic Philosophy. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Development of Islamic philoso- phy in its great age (from Kindo to Averroes, 850 to 1200), considered in connection with Muslim theology and mysticism.

106. Later Medieval Philosophy. (4) Preparation: one philosophy course. Metaphysics, theory of knowl- edge, and theology of Aquinas, Duns Scotus, and Ockham, with less full discussion of other authors from the 13th through early 15th century. Selected texts read in English translation.

107. Topics in Medieval Philosophy. (4) Preparation: one philosophy course. Recommended requisite: courses 105 or 106. Study of philosophy and theo- logy of one medieval philosopher such as Augustine, Anselm, Abelard, Aquinas, Scotus, or Ockham, or study of a single area such as logic or theory of knowledge in several medieval philosophers. Topic announced each term. May be repeated for credit with consent of instructor.

C108. Hobbes. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Hob- bes' political philosophy, especially Leviathan, with at- tention to its relevance to contemporary political phi- losophy. May be concurrently scheduled with course C206. P/NP or letter grading.

C109. Descartes. (4) Lecture, four hours. Requisites: course 21 or two philosophy courses. Study of works of Descartes, with discussion of issues such as prob- lem of skepticism, foundations of knowledge, exis- tence of God, relation between mind and body, and connection between science and metaphysics. May be concurrently scheduled with course C209. P/NP or letter grading.

C110. Spinoza. (4) Lecture, three hours; discussion, one hour. Requisite: course 21. Study of philosophy of Spinoza. May be included with course C210, in which case there is weekly discus- sion meeting, plus fewer readings and shorter papers for undergraduates. Limited to 30 students when con- currently scheduled. P/NP or letter grading.

C111. Leibniz. (4) Lecture, three hours; discussion, one hour. Requisite: course 21. Study of philosophy of Leibniz. May be concurrently scheduled with course C211, in which case there is weekly discus- sion meeting, plus fewer readings and shorter papers for undergraduates. Limited to 30 students when con- currently scheduled. P/NP or letter grading.

C112. Locke and Berkeley. (4) Lecture, four hours. Preparation: one philosophy course. Study of philosop- hy of Locke and Berkeley, with emphasis in some cases on one or the other. Limited to 30 students when concurrently scheduled with course C212. P/NP or letter grading.

C114. Hume. (4) Lecture, four hours. Preparation: one philosophy course. Selected topics from meta- physical, epistemological, and ethical writings of Hume. Limited to 40 students when concurrently scheduled with course C214. P/NP or letter grading.

C115. Kant. (4) (Formerly numbered 115.) Lecture, three hours; discussion, one hour. Requisite: course 21 or 22. Study of Kant's views on related topics in three major works of philosophy. May be repeated for credit with consent of instructor. Concurrently scheduled with course C215. P/NP or letter grading.

116. 19th-Century Philosophy. (4) Lecture, three hours; discussion, one hour. Preparation: one philos- ophy course. Selected topics in 19th-century thought.

117. Late 19th- and Early 20th-Century Philoso- phy. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Selected topics in work of one or more of the following philosophers: Bol- zano, Frege, Husserl, Meinong, G. Moore, early Rus- sell, and Wittgenstein. May be repeated for credit with consent of instructor.

C118. Kierkegaard. (4) Preparation: one philosophy course. Philosophical study of some major works of Kierkegaard, with emphasis on interpretation of the texts.

C119. Topics in Modern Philosophy. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Selected topics in one or more philosophies of early modern period, or study in sin- gle area such as theory of knowledge or metaphysics in several philosophies. May be repeated for credit with consent of instructor. Concurrently scheduled with course C219. P/NP or letter grading.
Group II: Logic, Semantics, and Philosophy of Science

124. Philosophy of Science: Historical. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Historical introduction to philosophy of science. Several general topics discussed in context of actual episodes in development of natural sciences. May be repeated for credit with consent of instructor.

125. Philosophy of Science: Contemporary. (4) Lecture, three hours; discussion, one hour. Requisite: course 31 or 124. Introduction to contemporary philosophy of science, focusing on problems of central importance. May be repeated for credit with consent of instructor.

126. Philosophy of Science: Social Sciences. (4) Lecture, three hours; discussion, one hour. Preparation: two philosophy courses. Discussion of topics in philosophy of social sciences (e.g., methods of social sciences in relation to social sciences, value-bias in social inquiry, concept formation, theory construction, explanation and prediction, nature of social laws).

127A. Philosophy of Language. (4) Lecture, three hours; discussion, one hour. Requisite: course 31. Syntax, semantics, conceptual semantics of truth, sense and denotation, synonymy and analyticity, modalities and tenses, indirect discourse, indexical terms, semantical paradoxes. May be repeated for credit with consent of instructor. P/NP or letter grading.

127B. Philosophy of Language. (4) Lecture, three hours; discussion, one hour. Requisite: course 31. Course 127A is not requisite to 127B. Selected topics similar to those considered in course 127A, but at more advanced and technical level. May be repeated for credit with consent of instructor. P/NP or letter grading.

128A. Philosophy of Mathematics. (4) Lecture, four hours. Requisites: courses 31, 32, and preferably one additional logic course. Philosophy of mathematics: logicism of Frege and Russell, arithmetic reduced to logic; ramified type theory and impredicative definition (Russell, Poincaré, early Weyl). P/NP or letter grading.

129. Philosophy of Psychology. (4) Lecture, three hours; discussion, one hour. Preparation: one 4-unit psychology course, one philosophy course. Selected philosophical issues arising from psychological theories. Relevance of psychology to questions of thinking and meaning; relations between semantical theory and learning theory; psychological aspects of theory of syntax; behaviorism, functionalism, and alternative physiological theories.

130. Philosophy of Space and Time. (4) Lecture, three hours; discussion, one hour. Preparation: two philosophy courses or one philosophy course and one physics course. Selected philosophical problems concerning nature of space and time. Philosophical implications of space-time theories, such as those of Newton and Einstein. Topics may include nature of geometry, conventionalism, absolutism versus relationalism views of space and time, philosophical implications of relativity theory.

131. Science and Metaphysics. (4) Lecture, four hours. Preparation: two philosophy courses. Recommended: some background in basic calculus and physics. Intensive study of one or two metaphysical topics on which results of modern science have been thought to bear. Topics may include nature of causation, reality and direction of time, time-travel, backward causation, realism, determinism, subjective view of space, etc. May be repeated for credit with consent of instructor. P/NP or letter grading.

132. Philosophy of Biology. (4) Lecture, four hours. Preparation: two philosophy courses. Intensive study of one or two current topics in philosophy of biology, which may include structure of evolutionary theory, fitness, taxonomy, reductionism, concept of biological species, and biological explanation. P/NP or letter grading.

133. Topics in Logic and Semantics. (4) Lecture, four hours. Requisite: course 32. Possible topics include formal theories, definitions, alternative theories of descriptions, many-valued logics, deviant logics. P/NP or letter grading.

134. Introduction to Set Theory. (4) Lecture, four hours. Requisite: Mathematics 114S. Lecture, three hours; discussion, one hour. Requisites: Mathematics 110A or 113A. Axiomatic set theory as framework for mathematical concepts; relations and functions, numbers, cardinality, axiom of choice, transfinite numbers. P/NP or letter grading.

136. Modal Logic. (4) Lecture, four hours. Requisite: course 31. First course in two-term sequence (also see course 176). Topics include various normal modal systems, derivability within the systems, Kripke-style semantics and generalizations, Lemmon/Scott completeness, incompleteness in tense and modal logic, quantificational extensions. Letter grading.

Group III: Ethics and Value Theory

150. Society and Morals. (4) Lecture, three hours; discussion, one hour. Requisite: course 22. Critical study of philosophical positions and arguments advanced in discussion of current moral and social issues. Topics similar to those in course 4, but familiarity with some basic philosophical concepts and methods presupposed. May be repeated for credit with consent of instructor.

151A-C151B-151C. History of Ethics. (4-4-4) Lecture, three hours; discussion, one hour. Requisite: two philosophy courses. First course in two-term sequence (also see course 176). Topics include various moral and philosophical concepts, definitions, alternative theories of descriptions, many-valued logics, deviant logics. P/NP or letter grading.

151A. Selected Classics in Ancient Ethical Theories: Plato, Aristotle, C151B. Modern. Intensive study of Kant's ethical theory. May be repeated for credit with consent of instructor. May be concurrently scheduled with course C245; C151C. Selected Classics of Medieval Ethics.

153A. Topics in Ethical Theory: Normative Ethics. (4) Lecture, three hours; discussion, one hour. Requisite: course 22. Study of selected topics in normative ethical theory. Topics may include human rights, virtues and vices, principles of culpability and praiseworthiness. May be repeated for credit with consent of instructor. P/NP or letter grading.

153B. Topics in Ethical Theory: Metaethics. (4) Formerly numbered 153B.) Lecture, three hours; discussion, one hour. Requisite: course 22. Study and analysis of basic concepts, selected problems, and contemporary issues in metaethics. Topics may include analysis of moral language, justification of moral beliefs, moral realism, skepticism, free will, moral motivation, etc. May be repeated for credit with consent of instructor. May be concurrently scheduled with course C253B. P/NP or letter grading.

154. Topics in Value Theory: Rationality and Action. (4) Lecture, four hours. Requisite: course 6 or 7 or 22. Selected topics concerning normative issues in practical rationality or philosophy of action. Topics may include moral and practical dilemmas, nature of reasons for action, rationality of morality, prudence, weakness of will, freedom of will, and decision theory. May be repeated for credit with consent of instructor. P/NP or letter grading.

154B. Topics in Value Theory: Moral Responsibility. (4) Lecture, four hours. Requisite: course 6 or 7 or 22. Examination of philosophical problems surrounding moral responsibility and free will, using contemporary or classical readings. May be repeated for credit with consent of instructor. P/NP or letter grading.

155. Medical Ethics. (4) Lecture, three hours; discussion, one hour. Examination of philosophical issues raised by problems of medical ethics, such as abortion, euthanasia, and medical experimentation. P/NP or letter grading.

C156. Topics in Political Philosophy. (4) Lecture, three hours; discussion, one hour. Requisite: two philosophy courses. May be repeated for credit with consent of instructor. C157A. History of Political Philosophy. (4-4) Lecture, three hours; discussion, one hour. Preparation: two philosophy courses. May be repeated for credit with consent of instructor. C157A. Reading and discussion of classic works in earlier political theory, especially those by Hobbes, Locke, Hume, and Rousseau. C157B. Reading and discussion of classic works in later political theory, especially those by Kant, Hegel, and Marx.

161. Topics in Aesthetic Theory. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Philosophical theories about nature and importance of art and art criticism, aesthetic experience, and aesthetic values. May be repeated for credit with consent of instructor.

166. Philosophy of Law. (4) Lecture, three hours; discussion, one hour. Preparation: one philosophy course. Examination, through study of recent philosophical writings, of such topics as nature of law, relationship of law and ethics, relationship of law and politics, philosophy of punishment, and obligation to obey the law. P/NP or letter grading.

Group IV: Metaphysics and Epistemology

170. Philosophy of Mind. (4) Lecture, three hours; discussion, one hour. Preparation: two relevant philosophy courses. Analysis of various problems concerning nature of mind and mental phenomena, such as relation between mind and body, and our knowledge of other minds. May be repeated once for credit with consent of instructor.

172. Philosophy of Language and Communication. (4) Lecture, three hours; discussion, one hour. Preparation: two relevant philosophy or linguistics courses. Theories of meaning and communication; how words refer to things; limits of meaningfulness; analysis of speech acts; relation of everyday language to scientific discovery. P/NP or letter grading.

174. Topics in Theory of Knowledge. (4) Lecture, three hours; discussion, one hour. Requisite: course 182 or 183. Intensive investigation of one or two selected topics or works in theory of knowledge, such as a priori knowledge, problem of induction, memory, knowledge as justified true belief. Topics announced each term. May be repeated for credit with consent of instructor. P/NP or letter grading.

175. Topics in Philosophy of Religion. (4) Lecture, three hours; discussion, one hour. Requisite: course 21 or 22. Intensive investigation of one or two topics or works in philosophy of religion, such as attributes of God, arguments for or against existence of God, or relation between religion and ethics. Topics announced each term. May be repeated for credit with consent of instructor.

176. Metaphysics of Modality. (4) Requisites: courses 31, 32. Highly recommended: course 136. Second course in two-term sequence (also see course 136). Metaphysical foundations of modal logic and philosophical basis of model theory of modal logic. What is possible with modality in modal logic? What is its connection to doctrines of (1) “Haecceitism” and (2) “Aristotelian Essentialism”? P/NP or letter grading.
177A. Existentialism. (4) Lecture, three hours; dis-
cussion, one hour. Preparation: one philosophy
course. Analysis of methods, problems, and views of
some of the following: Kierkegaard, Nietzsche, Heide-
gger, Jaspers, Sartre, Marcel, and Camus. Possible
topics include metaphysical foundations, nature of
mind, freedom, problem of self, other people, ethics,
existential psychology, the realm of politics, the
anthropology of sex in the modern world, and
connections of sexuality with political power.

177B. Historical Studies in Existentialism. (4)
Preparation: one philosophy course. Study of central
philosophical texts of one of the following: Nietzsche,
Heidegger, Jaspers, Buber, Sartre, or Camus. Em-
phasis on explication and interpretation of the texts.
May be repeated for credit with consent of instructor.

178. Phenomenology. (4) Lecture, three hours;
discussion, one hour. Preparation: two philosophy cours-
es. Introduction to phenomenological method of ap-
proaching philosophical problems via works of some of
the following: Brentano, Husserl, Heidegger, Schel-
er, Sartre, Merleau-Ponty, Ricoeur. Topics include on-
tology, epistemology, and particularly philosophy of
mind.

179. Asian Philosophy. (4) Lecture, three hours;
discussion, one hour. Examination of central concepts
and arguments in Buddhist and Chinese philosophy.
Appropriate parallels to social concepts in Western
tradition. May be repeated for credit with consent of
department. P/NP or letter grading.

180. Philosophy of Action. (4) Lecture, four hours.
Preparation: one philosophy course. Study of various
positions, possibility and necessity, universals and
answers provided by alternative systems (e.g., phenom-
nology, epistemology, and particularly philosophy of
mind).

181. Variables. (4) Seminar, one hour. Discussion,
one hour. Preparation: course 21. Analysis of basic
metaphysical questions; nature of physical world, of
minds, and of universals; and answers provided by
alternative systems (e.g., phenomenology, materialism, dualism). P/NP or letter grading.

182. Theory of Knowledge. (4) Lecture, four hours;
discussion, one hour. Preparation: course 21. Analysis
of concept of empirical knowledge. May be repeated
for credit with consent of instructor. P/NP or letter grading.

183. Space and Time. (4) Lecture, three hours;
discussion, one hour. Preparation: course 21. Analysis
of space and time in physics, mathematics, and philoso-
phy. May be repeated for credit with consent of
instructor. P/NP or letter grading.

184. Time and Space. (4) Lecture, three hours;
discussion, one hour. Preparation: course 21. Analysis
of space and time in physics, mathematics, and philoso-
phy. May be repeated for credit with consent of
instructor. P/NP or letter grading.

185. Major Philosophers of 20th Century. (4) Le-
course, three hours; discussion, one hour. Preparation:
two philosophy courses. Study of writings of one or
more major modern philosophers (e.g., Russell,
Moore, Wittgenstein, Carnap, Quine). May be repeated
for credit with consent of instructor. P/NP or letter grading.

186. Special Studies M187. Philosophical Analysis of Issues in Femi-
nist Theory. (4) (Formerly numbered M192.) (Same
as Women's Studies M110C.) Lecture, three hours.
Preparation for Women's Studies majors: Women's Studies
10; for other students: one philosophy course.
Examination in depth of different theoretical positions
on gender and women as they have been applied to
study of philosophy. Emphasis on theoretical contribu-
tions made by new scholarship on women in philoso-
phy. Critical study of concepts and principles that
arise in discussion of women's rights and liberation.
Philosophical approach to feminist theories. May be
repeated for credit with consent of instructor. Letter
grading.
24. Philosophy of Physics. (4) Seminar, three hours. Selected philosophical topics related to physical theory, depending on interests and background of participants, including space and time; observation in quantum mechanics; foundations of statistical mechanics. May be repeated for credit with consent of instructor. S/U or letter grading.

25. Probability and Inductive Logic. (4) Lecture, three hours. Requisite: course M134 or Mathematics M112. Topics may include interpretations of probability, Bayesian and non-Bayesian confirmation theory, paradoxes, ideas on induction, coherence, and conditioning. S/U or letter grading.

26. Topics in Mathematical Logic. (4) Lecture, four hours. Content varies from term to term. May be repeated for credit with consent of instructor. S/U or letter grading.

27. Philosophy of Social Science. (4) Lecture, four hours. Examination of philosophical problems concerning concepts and methods used in social sciences. Topics may include relation between social processes and individual psychology, logic of explanation in social sciences, determinism and spontaneity in history, interpretation of cultures radially different from one's own. Students with primary interest and advanced preparation in social sciences encouraged to enroll. May be repeated for credit with consent of instructor. S/U or letter grading.

231. Seminar: Logic. (4) Seminar, four hours. May be repeated for credit with consent of instructor. S/U or letter grading.

232. Philosophy of Science. (4) Seminar, three hours. Topics may include logic of sense and denotation, modal logic, logic of demonstratives, epistemic logic, intensional logic of Principia Mathematica, possible worlds semantics. May be repeated for credit with consent of instructor. S/U or letter grading.

233. Seminar: Philosophy of Physics. (4) Seminar, four hours. May be repeated for credit with consent of instructor. S/U or letter grading.

Group IV. Metaphysics and Epistemology

271. Seminar: Topics in Metaphysics and Epistemology. (4) Seminar, three hours. May be repeated for credit with consent of instructor. S/U or letter grading.

275. Human Action. (4) Preparation: two upper division philosophy courses. Examination of theories, concepts, and problems concerning human actions. Topics may include analysis of intentional actions; determinism and freedom; nature of explanations of intentional actions. May be repeated for credit with consent of instructor. S/U or letter grading.

280. 20th-Century Continental Philosophy. (4) Seminar, three hours. Selected topics in 20th-century continental European philosophy. May be repeated for credit with consent of instructor. S/U or letter grading.

281. Seminar: Philosophy of Mind. (4) Seminar, three hours. May be repeated for credit with consent of instructor. S/U or letter grading.

282. Seminar: Metaphysics. (4) Seminar, three hours. May be repeated for credit with consent of instructor. S/U or letter grading.

283. Seminar: Theory of Knowledge. (4) Seminar, three hours. May be repeated for credit with consent of instructor. S/U or letter grading.

284. Seminar: Philosophy of Perception. (4) Seminar, three hours. May be repeated for credit with consent of instructor. S/U or letter grading.

285. Philosophy of Psychoanalysis. (4) Seminar, three hours. Examination of topics such as nature and validity of psychoanalytic explanations and interpretations, psychoanalysis and language, metapsychological concepts such as the unconscious, ego, id, super-ego, defense mechanisms, and psychoanalytic conception of human nature. S/U or letter grading.

286. Philosophy of Psychology. (4) Seminar, four hours. Relevance of computer simulation to accounts of thinking and meaning; relations between semantic theory and learning theory; psychological aspects of theory of syntax, behaviorism, functionalism, and alternatives; physiology and psychology. S/U or letter grading.

287. Seminar: Philosophy of Language. (4) Seminar, three hours. May be repeated for credit with consent of instructor. S/U or letter grading.

288. Seminar: Wittgenstein. (4) Seminar, three hours. May be repeated for credit with consent of instructor. S/U or letter grading.

289. Seminar: Philosophy of Religion. (4) Seminar, four hours. May be repeated for credit with consent of instructor. S/U or letter grading.

Special Studies

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprentice under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Teaching College Philosophy. (2 to 4) Seminar, to be arranged. Seminars, workshops, and apprentice teaching. Selected topics, including evaluation scales, various teaching strategies and their effects, and other topics in college teaching. May be repeated for credit. S/U grading.

501. Cooperative Program. (2 to 8) Preparation: consent of UCLA graduate dean, host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.

596. Directed Individual Studies. (2 to 12) Tutorial, to be arranged. Properly qualified graduate students who wish to pursue one problem through reading or advanced study may do so if their proposed project is acceptable to one staff member. May be repeated for credit. S/U or letter grading.

PHYSICS AND ASTRONOMY

College of Letters and Science

Steven R. Furlanetto, Ph.D.
Pietro Musumeci, Ph.D.
Christoph Niemann, Ph.D.
Brian C. Regan, Ph.D.
Yaroslav Tserkonyjak, Ph.D.
Vladimir V. Vassiliou, Ph.D.

Adjunct Professors
Viktor Decyk, Ph.D.
Phillip Pritchett, Ph.D.

Scope and Objectives
Since the time of the ancient Greeks, a natural affinity has existed between astronomy and physics, and the intellectual development of the two disciplines has often proceeded synergistically. Newton’s discovery of the laws of mechanics and universal gravitation not only explained motion on Earth, but brought the heavens and Earth into a single quantitative framework in which both are governed by the same laws. The revolutionary discoveries of twentieth-century physics — quantum mechanics and nuclear physics — were rapidly adopted by astronomers to interpret the spec- troscopic observations of the stars and to construct accurate models of stellar structure. Einstein’s general theory of relativity predicted the expansion of the universe and that most awe- some compaction of matter — the black hole.

Today astronomers study the accretion of matter onto supermassive black holes in quasars and search the most distant regions of the universe to learn about the exotic physical conditions that existed when the universe’s expansion was only fractions of a second old. By measuring the gravitational interactions on distance scales from galaxies to the vast superclusters of galaxies, astronomers have concluded that most of the universe’s matter is dark or nonluminous; physicists have speculated that this dark matter may consist of yet undiscovered exotic particles that are predicted by the most advanced theories of elementary particle physics.

Department of Physics and Astronomy faculty members and students are able to study the universe in the holistic manner which is de- manded by the breadth of these two disci- plines.

Undergraduate Study
The Department of Physics and Astronomy of- fers a choice of four undergraduate majors: the B.S. degree program in Astrophysics, the B.S. degree program in Biophysics, the B.S. degree program in Physics, and the B.A. degree program in Physics. Each course taken to fulfill any of the requirements for the majors must be taken for a letter grade.

Astronomy Courses
The department offers general courses to all University students, including those who are not science oriented.

Astronomy 3 is the fundamental one-term course for students who do not major in physical sciences and should be taken in the first or second year.

Astronomy 4, 5, and 6 develop the topics cov- ered in course 3 to somewhat greater depths but are still aimed at nonscience majors. Course 4 discusses stellar and supermassive black holes; course 5 concentrates on the prob- lem of life in the universe; course 6 discusses the structure and evolution of the universe.

Astronomy 81 and 82 are general survey courses recommended for science majors in their second year. They systematically intro- duce astrophysics and require a good back- ground in physics and mathematics (at least two terms of the Physics 1 series and two terms of the Mathematics 31 and 32 series). Students of junior and senior standing in Phys- ics or related sciences are invited to select any of these courses: Astronomy 115, 117, 127, 140, 180.

Physics Courses
Students who wish to use physics to satisfy part of the general education requirements in the physical sciences and who have no mathe- matics background beyond the high school mathematics required for admission to UCLA may take Physics 10.

Physics 1Q is intended for entering freshman Physics majors and other interested students. Although it is not a required course or a part of or requisite to any general physics sequence of courses, its purpose is to indicate the nature of current research problems in physics on a level intended to be attractive to entering students with a good high school science and mathe- matics background.

Physics 1A, 1B, and 1C, or 1AH, 1BH, and 1CH form sequences of courses in general physics for majors in Physics.

The department takes into account prior prep- aration in physics. If students feel their back- ground would permit acceleration, they may be exempted from one course in the 1A, 1B, 1C sequence by taking the final examination with a class at the end of any term. This serves as a placement examination. A satisfactory score on one or both parts of the College Board Ad- vanced Placement Physics C Test may also serve as a placement examination, but place- ment is not automatic. Students should discuss such possibilities with their departmental ad- viser.

Physics 6A, 6B, 6C form a one-year sequence of courses in basic physics for students in the biological and health sciences.

Physics 10 is a one-term, nonlaboratory course that surveys the whole field of physics. Any two or more courses from Physics 1A, 6A, and 10 are limited to 6 units credit.

Astrophysics B.S.
Preparation for the Major
Required: Astronomy 81, 82; Physics 1A or 1AH, 1B or 1BH, 1C or 1CH, 4AL, 4BL, 17, 18L; Mathematics 31A, 31B, 32A, 32B, 33A, 33B; Program in Computing 10A or demon-
strated ability to program. Systematic study of astrophysics should begin with Astronomy 81 and 82, taken in the second year. Recommended: Chemistry and Biochemistry 20A.

Transfer Students
Transfer applicants to the Astrophysics major with 90 or more units must complete as many of the following introductory courses as possible prior to admission to UCLA: two astrophysics courses, two years of calculus, one and one half years of calculus-based physics with laboratory for majors, and one programming course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Honors Program
Senior majors in Astrophysics with a 3.5 grade-point average in all astronomy, mathematics, and physics courses are eligible for the honors program in astrophysics. In addition to completing all courses required for the major, students must complete two terms of Astronomy 199. To receive honors and highest honors at graduation, the grade-point average must remain at 3.5 and 3.75 or better, respectively, and work in course 199 must reflect original research and be accepted by the departmental honors committee.

Biophysics B.S.
The goal of the Biophysics major is to provide students with the undergraduate background to enable them to enter very good graduate programs in biophysics, molecular biology, and physics. As the molecular biophysics field emerges as an important and rapidly developing area of scientific research and knowledge, the major is designed to provide both the scientific/technical training and the immersion in physics and molecular biology necessary to enable students to understand and integrate these fields intellectually and to have the opportunity to become leaders in bringing the anlytic and experimental techniques of both fields to bear on the complicated behavior of microbiological macromolecular systems.

Preparation for the Major
Required: Physics 1A or 1AH, 1B or 1BH, 1C or 1CH, 4AL, 4BL, 17, 87; Chemistry and Biochemistry 20A, 20B, 30A, 30B; Life Sciences 2, 3 or 3H, 4; Mathematics 31A, 31B, 32A, 32B, 33A. Recommended: Life Sciences 1, Mathematics 33B, Physics 18L.

Transfer Students
Transfer applicants to the Biophysics major with 90 or more units must have completed the following introductory courses prior to admission to UCLA: two years of calculus, one and one half years of calculus-based physics with laboratory for majors, one year of general biology with laboratory for majors, and one year of general chemistry with laboratory for majors.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Physics 105A, 110A, 110B, 115A, 115B, 131, M180G, 191; Chemistry and Biochemistry 110A, 155A; Molecular, Cell, and Developmental Biology 100, 104. Recommended: Molecular, Cell, and Developmental Biology 171, Physics 108, 117, 140B, C185, guided research in chemistry and biochemistry, molecular, cell, and developmental biology, or physics. An overall 2.0 grade-point average in all upper division courses is required.

Physics B.S.
The Physics B.S. major should be taken if students intend to continue toward the Ph.D. in Physics.

Preparation for the Major
Required: Physics 1A or 1AH, 1B or 1BH, 1C or 1CH, 4AL, 4BL, 17, 18L; Chemistry and Biochemistry 20A; Mathematics 31A, 31B, 32A, 32B, 33A, 33B. A detailed brochure on the major is available from the Undergraduate Office, 1-707A Physics and Astronomy Building.

Transfer Students
Transfer applicants to the Physics B.S. major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of calculus, one and one half years of calculus-based physics with laboratory for majors, and one general chemistry course for majors.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Physics 105A, 105B, 110A, 110B, 112, 115A, 115B, 115C, 131. The remainder of the course of study consists of a plan, to be worked out by students in consultation with their designated departmental adviser, that details which courses they take to complete the degree. There are four overall requirements: (1) the plan must be worked out five terms before students expect to graduate; (2) the plan must include at least two courses from the Physics 180 series, which should be taken in the senior year; (3) there must be at least three additional upper division courses in the plan, preferably selected from Physics 108, 114, 117, M122, 123, 124, 126, 132, 140A, 140B; (4) there must be written rationale for the plan. Except for the Physics 180 laboratories, the courses need not be in the Physics and Astronomy Department. However, it is expected that the courses fit into a coherent structure. It is important that the structure and rationale are thought out carefully, as the plan must be endorsed by the designated adviser and be approved by the departmental academic affairs committee. Preapproved plans of study are available from the undergraduate advisers. A C average is required in all courses taken to satisfy the major requirements.

Students preparing for graduate school should take additional courses in physics and mathematics. Physics 108, 114, 117, M122, 123, 124, 126, 132, 140A, and 140B are recommended.

Honors Programs
The department offers three honors programs leading to graduation with honors or highest honors in physics. Students are eligible after completing the preparation for the major and four upper division physics courses with an overall grade-point average of 3.0 and a 3.5 GPA in upper division physics and mathematics courses. Contact the Undergraduate Office for a complete description of the programs and an application.

Physics B.A.
The Physics B.A. major is intended to provide a strong background in physics, yet allow students flexibility to study other fields as well. It should be of particular interest to students who want to double major or who want to teach science. Students who intend to continue work toward the Ph.D. in Physics are advised to work for the B.S. in Physics as described earlier.

Preparation for the Major
Required: Physics 1A or 1AH, 1B or 1BH, 1C or 1CH, 4AL, 4BL, 17, 18L; Chemistry and Biochemistry 20A; Mathematics 31A, 31B, 32A, 32B, 33A, 33B. A detailed brochure on the major is available from the Undergraduate Office, 1-707A Physics and Astronomy Building.

Transfer Students
Transfer applicants to the Physics B.A. major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of calculus, one and one half years of calculus-based physics with laboratory for majors, and one general chemistry course for majors.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Physics 105A, 105B, 110A, 110B, 112, 115A, 115B, 115C, 131. The remainder of the course of study consists of a plan, to be worked out by students in consultation with their designated departmental adviser, that details which courses they take to complete the degree. There are four overall requirements: (1) the plan must be worked out five terms before students expect to graduate; (2) the plan must include at least two courses from the Physics 180 series, which should be taken in the senior year; (3) there must be at least three additional upper division courses in the plan, preferably selected from Physics 108, 114, 117, M122, 123, 124, 126, 132, 140A, 140B; (4) there must be written rationale for the plan. Except for the Physics 180 laboratories, the courses need not be in the Physics and Astronomy Department. However, it is expected that the courses fit into a coherent structure. Preapproved plans of study are available from the undergraduate advisers. A C average is required in all courses taken to satisfy the major requirements.

Students preparing for graduate school should take additional courses in physics and mathematics. Physics 108, 114, 117, M122, 123, 124, 126, 132, 140A, and 140B are recommended.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate
Astronomy

Lower Division Courses

3. Nature of Universe. (5) Lecture, three hours; discussion, two hours. Not open to students with credit for or currently enrolled in course 61 or 62 or former course 3H. No special mathematical preparation required beyond that necessary for admission to UCLA in freshman standing. Course for general UCLA students, normally not intending to major in physical sciences, who desire an introduction to ideas in astronomy and what has been learned of nature of universe, including recent discoveries and developments. P/NP or letter grading.

4. Black Holes and Cosmic Catastrophes. (4) Lecture, three hours; discussion, one hour. Essentially nonmathematical course for general UCLA students that discusses black holes and related cosmic catastrophes. White dwarfs, neutron stars, and black holes are compact objects formed in violent events that terminate lives of stars and are associated with some of most energetic and explosive phenomena in astrophysics: planetary nebulae and novae (white dwarfs), supernovae, pulsars, galactic X-ray sources, and gamma-ray bursts. Supermassive black holes form in nucleus of young galaxies, and gravitational accretion of matter onto black holes powers most energetic objects in universe — quasars. Universe was born in ultimate cosmic explosion — Big Bang — that may have derived its energy from quantum mechanical vacuum. P/NP or letter grading.

5. Life in the Universe. (4) Lecture, four hours; discussion, one hour. Preparation: prior introduction to astrophysics. Life on Earth and prospects for life elsewhere in context of evolution of universe from simple to complex. Development of life from astronomical and biochemical but includes some chemistry, geology, and physics. Selected topics treated in some depth, but with little or no formal mathematics. P/NP or letter grading.

7. Astronomy and Media. (4) Lecture, three hours; discussion, one hour; laboratory, one hour. Designed to help nonmajors develop skills to continually learn about science through media. Detailed study of research currently in media, including meteor impacts, greenhouse effect, NASA, cosmology, and extraterrestrial life. Investigation of forces that influence science reporting. P/NP or letter grading.

Upper Division Courses

115. Statistical Mechanics and Its Application to Astrophysics. (4) Lecture, three hours; discussion, one hour. Requisites: Mathematics 32B, 33A, 33B, Physics 1A, 1B, and 1C (or 1AH, 1BH, and 1CH). Particles and systems, classical and quantum. Equations of statistical mechanics and application to stellar atmospheres, stellar interiors, and interstellar medium. P/NP or letter grading.

180. Astrophysics Laboratory. (4) Lecture, two hours; laboratory, four hours. Designed for juniors/ seniors in Astrophysics, Physics, or related field. Lectures cover statistical methods in astrophysics, one- and two-dimensional random processes, and numerical methods. Laboratory experiments involve radio astronomy, interferometry, narrow-band solar imaging, and visual photometry. Emphasis on use of computers for automatic collection of data and for processing two-dimensional astronomical images. P/NP or letter grading.

Graduate Courses

81. Astrophysics I: Stars and Nebulae. (4) Lecture, three hours; discussion, one hour. Requisites: Mathematics 31A, 31B, and Physics 1A or 1AH. Open to qualified sophomores and upper division students. Survey of our knowledge about stars: their distances, masses, luminosities, temperatures, and interrelations between these parameters. Methods and importance for astrophysics. Variable stars. Planetary and gaseous nebulae. P/NP or letter grading.

82. Astrophysics II: Stellar Evolution, Galaxies, and Cosmology. (4) Lecture, three hours; discussion, one hour. Requisites: Mathematics 31A, 31B, and Physics 1A or 1AH. Recommended: course 81, Physics 1B and 1C (or 1BH and 1CH). Open to qualified sophomore and upper division students. Basic principles of stellar structure and evolution. Black holes, white dwarfs, novae, supernovae, neutron stars, and black holes. Pulsars and galactic X-ray sources. Milky Way galaxy and interstellar medium. Extragalactic astronomy, galaxy clustering, active galactic nuclei, and quasars. Introduction to cosmology: Hubble law, thermal history of Big Bang, and earliest moments of universe. P/NP or letter grading.

88A-88Z. Lower Division Seminars. (2 each) Lectures, four hours; discussion, one hour. Limited to freshmen. Variable topics; consult Schedule of Classes for topics to be offered in specific term. P/NP or letter grading.

88A. Cosmic Evolution. (2) Seminar, two hours. Limited to freshmen. Variable topics; consult Schedule of Classes for topics to be offered in specific term. P/NP or letter grading.

115. Statistical Mechanics and Its Application to Astrophysics. (4) Lecture, three hours; discussion, one hour. Requisite: Mathematics 32B, 33A, 33B, Physics 1A, 1B, and 1C (or 1AH, 1BH, and 1CH). Particles and systems, classical and quantum. Equations of statistical mechanics and application to stellar atmospheres, stellar interiors, and interstellar medium. P/NP or letter grading.

197. Individual Studies in Astronomy. (2 to 4) Tutorial, three hours per week per unit. Limited to seniors/juniors with overall 3.0 grade-point average. Entry-level research apprenticeship for upper division students under guidance of faculty mentor. May be repeated for credit. Individual contract required. P/ NP grading.

198. Honors Research in Astrophysics. (2 to 4) Tutorial, two hours. Limited to seniors/juniors with overall 3.0 grade-point average. Development and completion of honors thesis or comprehensive research project under direct supervision of faculty member. May be repeated for credit. Individual contract required. Letter grading.

199. Directed Research or Senior Project in Astronomy. (2 to 4) Tutorial, two hours. Limited to junior/senior Astrophysics and Physics majors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper required. May be repeated for credit. Individual contract required. P/ NP grading.

198. Honors Research in Astrophysics. (2 to 4) Tutorial, two hours. Limited to seniors/juniors with overall 3.0 grade-point average. Development and completion of honors thesis or comprehensive research project under direct supervision of faculty member. May be repeated for credit. Individual contract required. Letter grading.

275. Cosmology. (4) Lecture, three hours. Galaxy properties; kinematics, mass, morphology, stellar populations; stellar orbits and spiral structure; galaxy formation; galaxy clusters, collisions, and mergers; observations and theory of quasars and active galactic nuclei. Letter grading.

277A-277B. Astronomy Research Project. (6-6) Tutorial, to be arranged. Designed for second-year graduate astronomy students. Two-term research project planned in conjunction with faculty advisor on any suitable research topic in astronomy or astrophysics, culminating in written report at end of second term. S/ U (277A) and letter (277B) grading.

278. Special Topics in Astronomy. (2 or 4) Seminar, to be arranged. Informal course with seminar format, focusing on one of a set of specific topics in astronomy. S/U (2-unit course) or letter (4-unit course) grading.

279. Seminar: Current Astronomical Research. (2) Seminar, one hour. Astronomy and astrophysics colloquium with lectures on current research by local and visiting researchers. S/U grading.

281. Quantum Mechanics for Astrophysics. (4) Lecture, four hours. Designed for departmental graduate students. Quantum mechanical topics in areas of interest for astrophysics applications. Hydrogen atom, radiative transitions, complex atoms, molecular spectroscopy including electronic, vibrational, and rotational transitions, nuclear reaction theory. Letter grading.

M285. Origin and Evolution of Solar System. (4) (Same as Earth and Space Sciences M285.) Lecture, four hours. Dynamical problems of solar system; chemical evolution, meteorite, meteors, and solar atmosphere; nucleosynthesis; solar origin, evolution, and termination; solar nebula, hydromagnetic processes, formation of planets and satellite systems. Content varies from year to year. May be repeated for credit. S/U grading.

296. Research Topics in Astronomy. (2) Discussion, two hours. Advanced study and analysis of current topics in astronomy. Discussion of current research and literature in research specialty of faculty member teaching course. May be repeated for credit. S/U grading.

M297. Research Tutorial: Astroparticle Physics. (2 or 4) (Same as Physics M297.) Tutorial, one hour; discussion, two hours. Required of each graduate student doing research in this field. Seminar and discussion by faculty, postdoctoral fellows, and graduate students on topics of current interest in astroparticle physics. May be repeated for credit. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

596A. Directed Individual Studies. (4 to 10) Tutorial, to be arranged. May be repeated at discretion of department. S/U grading.

596L. Advanced Study and Research at Lick Observatory. (4 to 12) Tutorial, to be arranged. Designed for graduate students who require observational experience, as well as those working on observational problems for their thesis. May be repeated at discretion of department. S/U grading.

597. Ph.D. Research and Writing. (10 to 12) Tutorial, to be arranged. May be repeated at discretion of department. S/U grading.

Physics
Lower Division Courses

1A. Physics for Scientists and Engineers: Mechanics. (5) Lecture/demonstration, four hours; discussion, one hour. Recommended prerequisite: high school physics, one year of high school calculus or Mathematics 31A and 31B. Enforced prerequisite: Mathematics 31A. Recommended corequisite: Mathematics 31B. Enforced prerequisite: Mathematics 32A. Motion, Newton laws, work, energy, linear and angular momentum, rotation, equilibrium, gravitation. P/NP or letter grading.

1AH. Physics for Scientists and Engineers: Mechanics (Honors). (5) Lecture/demonstration, four hours; discussion, one hour. Enforced prerequisite: course 1A. Mathematics 31B. Enforced prerequisite: Mathematics 31B. Recommended corequisite: Mathematics 32A. Enriched preparation for upper division physics courses. Same material as course 1A but in greater depth; recommended for Physics majors and other students desiring such coverage. P/NP or letter grading.

1BH. Physics for Scientists and Engineers: Oscillations, Waves, Electric and Magnetic Fields (Honors). (5) Lecture/demonstration, four hours; discussion, one hour. Enforced prerequisite: course 1AH or 1A. Mathematics 31B. Enforced prerequisite: Mathematics 32A. Recommended corequisite: Mathematics 32B. Enriched preparation for upper division physics courses. Same material as course 1B but in greater depth; recommended for Physics majors and other students desiring such coverage. P/NP or letter grading.

1CH. Physics for Scientists and Engineers: Electrodynamic, Optics, and Special Relativity. (5) Lecture/demonstration, four hours; discussion, one hour. Enforced prerequisites: courses 1A, 1B, Mathematics 32A. Enforced prerequisite: Mathematics 32B. Recommended corequisite: Mathematics 33A. Enforce top preparation for upper division physics courses. Same material as course 1C but in greater depth; recommended for Physics majors and other students desiring such coverage. P/NP or letter grading.

1Q. Contemporary Physics. (2) Review of current problems in physics, with emphasis on those being studied at UCLA. Significance of the problems and their historical context. P/NP or letter grading.

4AL. Physics Laboratory for Scientists and Engineers: Mechanics. (2) Lecture, three hours. Enforced prerequisite: course 1A or 1AH. Enforced corequisite: course 1B or 18B. Experiments on measuring gravity, accelerated motion, kinetic and potential energy, impulse and momentum, damped and driven oscillators, resonance and vibrating strings. Computer data reduction and analysis. Introduction to error analysis, including distributions and least-squares fitting procedures. Letter grading.

4BL. Physics Laboratory for Scientists and Engineers: Electricity and Magnetism. (2) Laboratory, three hours. Enforced prerequisite: course 1A or 1AH. Enforced corequisite: course 1B or 18B. Experiments on electric forces, fields, and potentials. Magnetic fields. Linear and nonlinear devices. Resistors, capacitors, and inductors. Modern circuits. Geometrical and physical optics. Letter grading.

6A. Physics for Life Sciences Majors: Mechanics. (5) Lecture, three hours; discussion, one hour; laboratory, two hours. Enforced prerequisites: Mathematics 3A, 3B. Enforced prerequisite: Mathematics 3C. Not open for credit to students with credit for course 6AH. Motion, Newton laws, energy, linear and angular momentum, rotation, equilibrium, gravitation, biological applications. P/NP or letter grading.

6AH. Physics for Life Sciences Majors: Statics and Dynamics (Honors). (5) Lecture, three hours; discussion, one hour; laboratory, two hours. Enforced prerequisites: Mathematics 3A, 3B. Enforced prerequisite: Mathematics 3C. Not open for credit to students with credit for course 6A. Statics and dynamics of forces, energy, and momentum, with applications to biological and biochemical systems. Physics of states of matter (solids, liquids, and gases) and of surfaces and interfaces as they apply to biological organisms. P/NP or letter grading.

6B. Physics for Life Sciences Majors: Waves, Electricity, and Magnetism. (5) Lecture, three hours; discussion, one hour; laboratory, two hours. Enforced prerequisite: course 6A or 6AH. Not open for credit to students with credit for course 6B. Mechanical waves, sound, electricity and magnetism, electromagnetic waves, biological applications. P/NP or letter grading.

6B. Physics for Life Sciences Majors: Waves, Electricity, and Magnetism. (5) Lecture, three hours; discussion, one hour; laboratory, two hours. Enforced prerequisite: course 6A or 6AH. Not open for credit to students with credit for course 6B. Sound and electromagnetic waves, interference, diffusion, radioactivity, and hydrodynamics, with applications to biological and biochemical systems. P/NP or letter grading.

6CH. Physics for Life Sciences Majors: Light, Fluids, Thermodynamics, Modern Physics. (5) Lecture, three hours; discussion, one hour; laboratory, two hours. Enforced prerequisite: course 6B. Not open for credit to students with credit for course 6CH. Geometrical and physical optics, fluid statics and dynamics, thermodynamics. Selected topics from foundations of quantum mechanics; atoms, nuclear and particle physics; relativity; medical detectors, biological applications. P/NP or letter grading.

6CH. Physics for Life Sciences Majors: Light, Fluids, Thermodynamics, Modern Physics. (5) Lecture, three hours; discussion, one hour; laboratory, two hours. Enforced prerequisite: course 6B. Not open for credit to students with credit for course 6CH. Geometrical and physical optics, fluid statics and dynamics, thermodynamics. Selected topics from foundations of quantum mechanics; atoms, nuclear and particle physics; relativity; medical detectors, biological applications. P/NP or letter grading.
10. Physics. (4) Lecture; three hours; discussion, one hour. Not open for credit to students with credit for course 1A, 1AH, 6A, or 6AH. Special mathe-matical preparation beyond the necessary for admission to University in freshman standing not required. Topics include planetary motion, Newton laws, gravitation, electricity and magnetism, wave motion, light, sound, and heat, relativity, quantum mechanics, atoms, and subatomic particles. As time permits, development of physical ideas placed in cultural and historical perspective. P/NP or letter grading.

17. Elements of Quantum Mechanics and Statistical Mechanics. (4) Lecture; three hours; discussion, one hour. Enforced requisite: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), Mathematics 32A, 32B. Enforced corequisite: Mathematics 33A. Photons, photoelectric effect, uncertainty principle Bohr atom, Schrödinger equation, hydrogen atom, Gaussian and Poisson distributions, temperature, entropy, Maxwell Boltzmann distribution, kinetic theory of gases, laws of thermodynamics, black body radiation. P/NP or letter grading.

18L. Modern Physics Laboratory. (4) Lecture, one hour; laboratory, six hours. Enforced requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), 4AL, 4BL, 17. Experiments on radioactivity, scattering, Planck constant, superconductivity, superfluidity. Letter grading.

87. Introduction to Biophysics. (Formerly numbered M88.) Seminar, three hours. Enforced requisites: courses 1A, 1B, and 1C, or 1AH, 1BH, and 1CH, 6A, 6B, and 6C, Chemistry 20A, 20B. Life Sciences 1, 3, Mathematics 3A, 3B, and 3C, or 31A, 31B, and 32A. Specific examples of diverse biological design such as scaling of metabolic activity, bone and muscle mass, cell size, cell membranes and pumps, heart and blood circulation, swim bladders, insect vision, magnetic bacteria, etc., studied quantitatively using elementary mathematics and physical principles. P/NP or letter grading.

88. Lower Division Seminar: Current Topics in Physics. (2) Limited to freshmen/sophomores. Intensive exploration of a particular theme or topic based on current research. Consult Schedule of Classes for topics to be offered in a specific term. P/NP or letter grading.

98X. PEERS Collaborative Learning Workshops for Life Sciences Majors. (1) Formerly numbered 96A.) Laboratory, three hours. Corequisite: associat-ed undergraduate lecture course in physics for life sciences majors. Development of problem-solving skills and intuition in collaborative learning environment. May be repeated three times, but only one unit may be applied toward graduation. P/NP grading.

98XB. PEERS Collaborative Learning Workshops for Physical Sciences and Engineering Majors. (1) Formerly numbered 91A.) Laboratory, three hours. Corequisite: associated undergraduate lecture course in physics for physical sciences and engineer-ing majors. Development of problem-solving skills and intuition in collaborative learning environment. May be repeated three times, but only one unit may be applied toward graduation. P/NP grading.

Upper Division Courses

105A. Analytic Mechanics. (4) Lecture; three hours; discussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), Mathematics 32B, 33A. Corequisite: Mathematics 33B. Newtonian mechanics and conservation laws, gravitational potent-ials, calculus of variations, Lagrangian and Hamiltonian mechanics, central force motion, linear and non-linear oscillations. P/NP or letter grading.

105B. Analytic Mechanics. (4) Lecture; three hours; discussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), 105A. Relativity with four vectors, noninertial reference frames, dynamics of rigid bodies, coupled oscillators, normal modes of oscilla-tion, vibrating strings, and wave propagation. P/NP or letter grading.

108. Optical Physics. (4) Lecture; three hours; discussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH). 108. Interaction of light with matter, linear and non-linear optics, lasers, light, wave propagation, polariza-tion, scattering, interference, optical and magnetic effects. Additional topics of fundamental or current interest. P/NP or letter grading.

110A. Electricity and Magnetism. (4) Lecture; three hours; discussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), 131, Mathematics 32B, 33A, 33B. Electrodynamics and magnetostatics. P/NP or letter grading.

110B. Electricity and Magnetism. (4) Lecture; three hours; discussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), 131, Mathematics 32B, 33A, 33B. Faraday law and Maxwell equations. Propagation of electromagnetic radiation. Multipole radiation and radiation from an accelerated charge. Special theory of relativity. P/NP or letter grading.

112. Thermodynamics. (4) Lecture; three hours; discussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), Mathematics 32B, 33A, 33B. Application of thermodynamics, including first, second, and third laws. Statistical mechanical point of view and its relation to thermodynamics. Some simple applications. P/NP or letter grading.

114. Mechanics of Wave Motion and Sound. (4) Lecture; three hours; discussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), 105A, 105B, Mathematics 32A, 33A, 33B. Vibrating systems and wave propagation in gases, liquids, and solids, including elements of hydrodynamics and elasticity. Applications in acoustics, solid-state physics, architectural acous-tics. P/NP or letter grading.

116. Electronics. (4) Lecture; three hours; labora-tory, three hours. Alternating current circuits, transmis-sion line circuits, transistor and IC circuits to generate, modify, and detect electrical signals, introduction to digital circuits, analysis of noise and methods to re-duce its influence in electrical measurements.

117. Electronics for Physics Measurement. (4) Lecture; three hours; laboratory, two hours. Requi-sites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), Mathematics 32A, 32B. Hands-on experi-mental course to develop understanding of design principles in modern electronics for physics measure-ments. Discussion of current and digital electronics from practical viewpoint, followed by examina-tion of typical circuits for scientific instrumentation and study of methods of computer data acquisition and signal processing. P/NP or letter grading.

M122. Introduction to Plasma Electronics. (4) (Same as Electrical Engineering M185.) Lecture, three hours; discussion, one hour. Enforced requisite: course 115C. Introduction to plasma physics. Thermodynamics, electric circuits, plasma sources, wave propagation, generation of coherent radia-tion and particle beams, and renewable energy sources. Letter grading.

123. Atomic Structure. (4) Lecture; three hours; dis-cussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), Mathematics 32B, 33A, 33B. Corequisite: course 115C. Theory of atomic structure. Interaction of radiation with matter. P/NP or letter grading.

124. Nuclear Physics. (4) Lecture; three hours; dis-cussion, one hour. Requisites: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), Mathematics 32B, 33A, 33B. Corequisite: course 115C. Nuclear properties, nuclear forces, nuclear structure, nuclear decays, and nuclear reactions. P/NP or letter grading.

126. Elementary Particle Physics. (4) Lecture; three hours; discussion, one hour. Enforced requisite: courses 1A, 1B, and 1C (or 1AH, 1BH, and 1CH), Mathematics 32B, 33A, 33B. Corequisite: course 115C. Introduction to physics of elementary particles. The four basic inter-actions: strong, electromagnetic, weak, and gravita-tional. Properties of baryons, mesons, quarks, and leptons; conservation laws, symmetries and broken symmetries; the Standard Model; experimental tech-niques; new physics at the new accelerators. P/NP or letter grading.

128. Cosmology and Particle Astrophysics. (4) Lecture; three hours; discussion, one hour. Requi-sites: courses 115A, 115B, 126. Introduction to cos-mology and high-energy particle astrophysics, based on latest developments of both experiment and theo-ry. Special emphasis on unified picture of universe that emerges from particle physics, astronomy, and cosmology. Extensive discussion of unsolved prob-lems and future prospects to help students determine their opportunities in future. Letter grading.

131. Mathematical Methods of Physics. (4) Lecture; three hours; discussion, one hour. Enforced requisite: course 115C. Introduction to cos-mology and high-energy particle astrophysics, based on latest developments of both experiment and theo-ry. Special emphasis on unified picture of universe that emerges from particle physics, astronomy, and cosmology. Extensive discussion of unsolved prob-lems and future prospects to help students determine their opportunities in future. Letter grading.

140A. Introduction to Solid-State Physics. (4) Lecture; three hours; discussion, one hour. Enforced requisite: course 112. 140A. Introduction to solid theoretical concepts of solid-state physics with applications. Cryst-al symmetry; cohesive energy; diffraction of electron, neutron, and electromagnetic waves in a lattice; recip-rocal lattice; phonons and their interactions; free elec-tron theory of metals; energy bands. Letter grading.

181. Variable Topics Research Seminars: Physics and Astronomy. (4) Seminar, three hours. Participating research seminars in physics and astronomy. Reading, discussion, and development of culminating project. Content varies from year to year. May be repeated for credit. P/NP or letter grading.

191. Undergraduate Practicum in Physics. (2 to 4) Seminar, three hours. Limited to juniors/seniors. Training and supervised practicum for advanced undergraduate students. Students assist in preparation of materials and development of innovative programs with guidance of faculty members in small course settings. May be repeated for credit. P/NP or letter grading.

193. Journal Club Seminars: Physics. (2) Seminar, one hour. Limited to undergraduate students. Seminars are linked to speaker-series seminars offered by department on weekly basis. Supplemental reading from literature on speaker’s topic, as well as active participation and discussion to understand what kind of questions modern-day physicists actually ask and how they go about answering them. May be repeated for credit. P/NP grading.

194. Research Group Seminars: Physics and Astronomy. (1) Research group meeting, one hour. Designed for undergraduate students who are part of research groups/laboratories or core search of faculty members or students with regard to understanding methodology in field and laboratory equipment. May be repeated for credit. P/NP grading.

196. Research Advanced Study. (2 to 4) Tutorial, three hours per week per unit. Limited to juniors/seniors with overall 3.0 grade-point average. Entry-level research apprenticeship for upper division students under guidance of faculty mentor. May be repeated for credit. Individual contract required. P/NP grading.

197. Individual Studies in Physics. (2 to 4) Tutorial, to be arranged. Limited to juniors/seniors. Individual intensive study with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

199. Directed Research or Senior Project in Physics. (2 to 4) Tutorial, two hours. Limited to juniors/seniors. Supervised research or investigation under guidance of faculty mentor. Culuminating paper required. May be repeated for credit. Individual contract required. Letter grading.

230. Classical Mechanics. (4) Lecture, three hours. Requisites: courses 221A, 221B. Rotation and other symmetry operations. 231. Introduction to the Strong Interaction. (4) Evidence concerning the strong interaction, particularly as exemplified in nuclear/nucleon and pion/nucleon systems. Isospin, scattering matrix, density matrix and polarization, properties of pions, one pion exchange potential, phase shift analysis.

244A. Advanced Electromagnetics. (4) Propagation of waves in elastic and fluid media. Reflection, refraction, diffraction, and scattering of waves in fluids. Attenuation, waveguides and resonators; simple radiating systems.

M370B. Integrated Science Instruction Methods. (4) (Same as Chemistry M370B and Earth and Space Sciences M370B.) Lecture, two hours; discussion, one hour; laboratory, one hour. Requisite: course M370A or Chemistry M370A or Earth and Space Sciences M370A. Application of learning theory to science instruction and classroom management, including use of technology, collaborative learning, laboratory safety, ethical issues, field experiences, and professional development. S/U or letter grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Teaching College Physics. (2) Seminar/discussion (five or more one-hour meetings during term, plus intensive training week at beginning of Fall Quarter). Required of all new teaching assistants. Special course for teaching assistants designed to deal with problems and techniques of teaching college physics. Ideas and techniques learned are applied and evaluated in the sections of each teaching assistant. May be repeated for credit. S/U grading.

596. Directed Individual Studies. (2 to 12) Tutorial, to be arranged. May be repeated for credit. S/U grading.

597. Preparation for Master's Comprehensive Examination or Ph.D. Qualifying Examinations. (4) Tutorial, to be arranged. May be repeated twice for credit. S/U grading.

598. Master's Thesis Research and Writing. (4) Tutorial, to be arranged. May be repeated twice for credit. S/U or letter grading.

599. Ph.D. Research and Writing. (4 to 12) Tutorial, to be arranged. May be repeated for maximum of 18 units. S/U grading.

Scope and Objectives
The cornerstone of the physiological science curriculum is vertebrate physiology, with emphases on integrative functions. The research and educational programs focus on integrative physiology at several levels of organization from molecules to living organisms, microscopic structures to macroscopic organization, and cellular properties to organ functions. Students receive comprehensive instruction in all areas of physiological science, while elective courses reflect faculty research expertise, including developmental neurobiology, gene regulation/neural development, cellular neurobiology, molecular neurobiology, neuromuscular physiology, neuroendocrine physiology, cardiovascular physiology, diet and degenerative disease, auditory and visual behavior, biomechanics of rehabilitative medicine, muscle cell biology, inflammatory cell biology, vascular biology, cardiac electrophysiology, neuromotor control, and social control of neuronal plasticity.

Applicants interested in pursuing graduate study may apply directly to the interdepartmental Molecular, Cellular, and Integrative Physiology Ph.D. Program (http://www.mcpip.ucla.edu) or the interdepartmental Neuroscience Ph.D. Program (http://www.neuroscience.ucla.edu).

The Major
Required: Physiological Science 107, 111A (or M180A), 111B, 111C, 111L, Chemistry and Biochemistry 153A, 153L.

A total of four upper division physiological science electives (16 units) is required. Either three units of course 199 and one letter-graded unit of course 193 OR four units of course 198 may be applied toward the elective requirement. Courses 189HC, 191H, 192, 195, 196, and 199 may be applied toward the elective requirement. One graduate course at the 200 level may be applied toward the elective requirement by petition.

Each required and elective course must be taken for a letter grade, and a C average must be maintained in all upper division courses taken for the major. Additionally, a grade of C– or better in each of the core courses (Physiological Science 107, 111A or M180A, 111B, 111C, 111L, Chemistry and Biochemistry 153A, 153L) is required to enroll in the next course in the series.

Honors Program
The honors program provides exceptional students with the opportunity for individual research culminating in an honors thesis. Requirements for admission include a 3.0 overall grade-point average and a 3.2 GPA in the life sciences core curriculum. After completion of all requirements and with the recommendation of the faculty adviser, the undergraduate affairs committee confers departmental honors at graduation.
Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/graduate.html. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree
The Department of Physiological Science offers the Master of Science (M.S.) degree in Physiological Science.

Physiological Science
Lower Division Courses
3. Introduction to Human Physiology. (5) Lecture, three hours; laboratory, two hours. Not open to Physiological Science majors. Courses 3 and 5 may be taken independently, concurrently, or in either sequence. Understanding of human body, its organization from molecular to cellular and tissues and organs, and how components function in integrated manner to permit life as we know it. P/NP or letter grading.

5. Issues in Human Physiology: Diet and Exercise. (5) Lecture, three hours; discussion, 30 minutes; laboratory, 90 minutes. Not open to Physiological Science majors. Basic introduction to principles of human biology, with special emphasis on roles that exercise and nutrition play in health, and prevention and management of such illnesses as hypertension, diabetes, and heart disease. P/NP or letter grading.

13. Introduction to Human Anatomy. (5) Lecture, four hours; laboratory, five hours. Not open to Physiological Science majors. Structural survey of human body, including integumentary, nervous, respiratory, digestive, and genitourinary systems. Laboratory includes examination of human cadaver specimens. Letter grading.

90. Introduction to Physiological Science. (2) Lecture, one hour; discussion, one hour. Limited to freshmen/sophomores. Introduction to current topics in physiological science by a team of departmental faculty members. P/NP grading.

Upper Division Courses
100. Experimental Statistics. (4) Formerly numbered C100.) Lecture, four hours. Introduction to statistics with focus on computer simulation instead of formulas. Bootstrap and Monte Carlo methods used to analyze physiological data. P/NP or letter grading.

CM102. Basic Human Biology for Biomedical Engineers I. (4) (Same as Biomedical Engineering CM102.) Lecture, three hours; laboratory, two hours. Preparation: human molecular biology, biochemistry, and cell biology. Credit can be given for Physiological Science majors. Broad overview of basic biological activities and organization of human body in system (organ) to system basis, with particular emphasis on molecular basis. Modeling/simulation of functional aspect of biological system included. Actual demonstration of biomedical instruments, as well as visits to biomedical facilities. Concurrently scheduled with course CM204. Letter grading.

CM103. Basic Human Biology for Biomedical Engineers II. (4) (Same as Biomedical Engineering CM103.) Lecture, three hours; laboratory, two hours. Preparation: human molecular biology, biochemistry, and cell biology. Credit can be given for Physiological Science majors. Molecular-level understanding of human anatomy and physiology in selected organ systems (e.g., cardiovascular, endocrine, immune, urinary, reproductive). System-specific modeling/simulations (immune regulation, wound healing, muscle mechanics and energetics, acid-base balance, excretion). Functional basis of biomedical instrumentation (dialysis, artificial skin, pathogen detection, ultrasound, birth-control drug delivery). Concurrently scheduled with course CM203. Letter grading.

107. Systems Anatomy. (5) Lecture, four hours; laboratory, three hours; tutorial, two hours. Requisites: Life Sciences 2, Physics 1A or 6A or 6AH. Students must receive a grade of C– or better to proceed to next course in series. Systems anatomy organized primarily on human anatomy. Topics include cardiovascular, respiratory, nervous, and skeletal-muscular systems, with introduction to biomechanical principles. Letter grading.

111A-111B-111C. Foundations in Physiological Science. (6-6-5) Lecture, four hours; laboratory, two hours. Letter grading. Requisites: course 107, Chemistry 14C or 50A, Life Sciences 1, 2, 3, 4, Physics 1B or 6B or 6AH or 109B. Students must receive a grade of C– or better to proceed to next course in series. Introduction to principles of neurophysiology: cellular and systems, including factors controlling membrane excitability, neuronal circuits, sensorimotor regulation, special senses, cortical functions, and neuronal plasticity. 111B. Requisites: courses 111A and 114D or 114B. Students must receive a grade of C– or better to proceed to next course in series. Principles of muscular, cardio-vascular, and pulmonary physiology. 111C. Requisites: course 111B or Chemistry 153A, continued in terms of changes in cell biology and function, and systems organization required for production of complex movements such as locomotion, mastication, and swallowing. Letter grading.

116. Principles of Nervous System Development. (4) Lecture, four hours; research demonstration, one hour. Requisites: courses 110A or 111A. Examination of development of cerebral, cranial nerves, the nervous system organized for production of complex movements such as locomotion, mastication, and swallowing. Letter grading.

117. Physiological Science Laboratory. (3) Laboratory, four hours. Requisites: courses 111A, 111B, 111C (111C may be taken concurrently). Required of Physiological Science majors. Designed to illustrate physiological principles studied in courses 111A, 111B, 111C. Letter grading.

C126. Biological Clocks. (4) Lecture, three hours; discussion, one hour. Requisites: courses 111A, 111B, and 111C, or courses M180A, M180B, and M180C. Most organisms, exhibiting daily rhythms in physiology and behavior. In many cases these rhythms are generated from within organisms and are called circadian rhythms. Biological basis of these daily rhythms or circadian oscillations. Exploration of molecular, cellular, and system-level organization of these timing systems. Temporal role of these variations in maintaining homeostatic mechanisms of body and impact on nervous system. Concurrently scheduled with course C226. Letter grading.

133. Exercise Physiology. (5) Lecture, three hours; laboratory, two hours. Requisite: course 111B. Physiological responses and adaptations to acute and chronic exercise. Letter grading.

134. Advanced Exercise Endocrinology and Metabolism. (4) Lecture, four hours. Requisite or corequisite: course 111C. Effects of exercise training, physical inactivity, and aging on various hormone axes and their physiological consequences. Hormonal perturbations that occur in various disease states associated with activity levels, including diabetes, obesity, and sarcopenia. Effects of hormone therapy on physiological function. Letter grading.

135. Dynamical Systems Modeling of Physiological Processes. (5) Formerly numbered C135.) Lecture, four hours; laboratory, two hours. Examination of art of modeling and evaluating dynamical models of physiological systems and of dynamical principles inherent in physiological systems. Letter grading.

138. Neuromuscular Physiology and Adaptation. (4) Required of course CM12A. Cellu- lar responses to acute and chronic exercise and environ- mental states of neuromuscular system.

C144. Neural Control of Physiological Systems. (5) Lecture, four hours. Requisite: course 111B or M180B. Role of central nervous system in control of respiration, circulation, sexual function, and bladder control. Material for each section to be developed by combination of lecture and open discussion. Concurrently scheduled with course CM204. Letter grading.

M145. Neural Mechanisms Controlling Movement. (5) Same as Neuroscience M145.) Lecture, four hours. Requisite: course 111A or M180A or Neuro- sciences M110A. Examination of neural mechanisms of the nervous system organization required for production of complex movements such as locomotion, mastication, and swallowing. Letter grading.

146. Principles of Nervous System Development. (4) Lecture, four hours; research demonstration, one hour. Requisite: course 111A or M180A. Changes in central nervous system that accompany learning, with emphasis on cellular mechanisms. Letter grading.

M148. Neuronal Signaling in Brain. (4) (Same as Neuroscience M148.) Lecture, three hours; discussion, one hour. Requisites: courses 111A (or M180A or Neuroscience M101A), M180B (or Neuroscience M101B or Chemistry 14D) and 114D. Consideration with a focus on cellular physiology and functional neuroanatomy. Topics include neuronal excitability and synaptic transmission and function of specific neuronal circuits in auditory pathway, basal ganglia, limbic system, hip- pocampus, and neocortex. Letter grading.

149. Mechanisms of Major Human Diseases. (4) Lecture, three hours. Integration of principles gained through basic science curriculum with presently under- stood mechanisms of selected human diseases. Progressive development of these diseases presented in terms of changes in cell biology and function, and changes in regulation of intercellular interactions. Letter grading.

153. Dissection Anatomy. (4) Lecture, two hours; laboratory, six hours. Requisite: course 111B. Departmental application required. Study and dissection of upper and lower extremities of human cadavers; dissection of thorax and abdomen limited to musculature and neurovascular supply.

154. Cellular Communication and Regulation of Physiological Processes. (4) Lecture, three hours. Limited to juniors/seniors. Signal transduction concepts, with focus on role of receptors, G proteins, and intracellular messengers such as cyclic AMP and calcium. Integration of these concepts with variety of physiological processes, including stimulus-secretion coupling, vascular smooth muscle contraction, and role of growth factors in cell proliferation. Contemporary scientific research articles used as basis for material presented. Students required to present journal article for discussion. Letter grading.

155. Development and Structure of Musculoskeletal System. (4) Requisite: course 111B. Development, histology, cell biology, and biochemistry of musculoskeletal soft tissues. Integration of knowledge of muscle and connective tissue structure and function on each of these levels to understand organization and physiological function of intact system. Letter grading.

M158, Cell Biology. (5) (Same as Ecology and Evolutionary Biology M158.) Lecture, three hours; laboratory, six hours. Requisites: Chemistry 1A, 1B, and 14BL, or 20A, 20B, 20L, and 30A/L, Life Sciences 1, 2, 3, 4. Cell biology of vertebrates, with emphasis on correlation of structure and function at molecular, organellar, and cellular levels. Letter grading.

156. Comparative Animal Physiology. (4) Lecture, three hours; discussion, one hour. Requisites: Life Sciences 1, 2, 3, 2. Physiological response and function at molecular, cellular, system, and whole organism levels of variety of animals to range of environmental conditions. Major topics include neural and muscular structure and function, hormones, gas exchange, energetics, and thermoregulation. Examination of wide variety of vertebrates and invertebrates to understand how animals solve physiological challenges presented by physical environment. Letter grading.

157. Physiology of Nutrition. (4) Lecture, four hours. Limited to senior Physiological Science majors. Topics include physiological adaptation to starvation and physiological oxidants/antioxidants; vitamins, minerals, chemicals, and their relationship to common chronic diseases and physiology of fuel utilization during aerobic and anaerobic exercise. Letter grading.

M168. Ideas and Experiments in History of Physiology. (4) (Same as Neurobiology M168L.) Lecture, three hours. Interaction of concepts and experimental techniques in physiology from the early 19th to latter 20th centuries, including heat and circulation, hormones, nutrition and vitamins, brain, spinal cord, and peripheral nervous system, as well as development of physiology as scientific discipline. Discussion of weekly readings and presentations by students. Letter grading.

173. Anatomy and Physiology of Sense Organs. (4) (Formerly numbered M173.) Lecture, three hours; discussion to courses 111A and 111B (or Molecular, Cell, and Developmental Biology 171) or M180A and M180B (or Molecular, Cell, and Developmental Biology M175A and M175B). Structure and function of sense organs. Adoption of quantitative and comparative approach to provide insight into evolution of sense organs in both invertebrates and vertebrates. Letter grading.

177. Neuroethology. (5) Lecture, four hours; discussion, one hour. Requisite: course 111A. Physical properties of neural tissues and neuronal mechanisms underlying their generation. Topics include classical neuroethological models: acoustic and visual communication in vertebrates, sound localization in owls, electrosensing and electrocommunication in electric fish, and neurobiology of birdsong. Letter grading.

M180A. Cellular and Systems Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisite: Chemistry 14C or 30A (14C may be taken concurrently), Life Sciences 2, Physics 1B or 1BH or 6B or 6BH. Not open for credit to students with credit for Physiological Science 111A. For physiological science majors only, a grade of C– or better is required to proceed to Physiological Science 111B. Cellular neurophysiology, membrane potential, action potentials, and their function in different systems and motor systems; study of neurons and other nervous system pathways. Complex information and control movement. P/NP or letter grading.

M180B. Molecular and Developmental Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisites: course 111A or M180A (or Molecular, Cell, and Developmental Biology M175A or Neuroscience M101A or Psychology M117A) or Psychology 115. Life Sciences 3.6. Strategies of neurons and receptors: focus on voltage dependent channels and neurotransmitter receptors. Molecular biology of supramolecular mechanisms of neuronal transmission, axonal transport, cytoskeleton, and muscle. Classical experiments and modern molecular approaches in developmental neurobiology. P/NP or letter grading.

M180C. Behavioral and Cognitive Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requisites: course 111A or M180A (or Molecular, Cell, and Developmental Biology M175A or Neuroscience M101A or Psychology M117A) or Psychology 115. Life Sciences 3.6. Strategies of neurons and receptors: focus on voltage dependent channels and neurotransmitter receptors. Molecular biology of supramolecular mechanisms of neuronal transmission, axonal transport, cytoskeleton, and muscle. Classical experiments and modern molecular approaches in developmental neurobiology. P/NP or letter grading.

M181. Biological Bases of Psychiatric Disorders. (4) (Same as Molecular, Cell, and Developmental Biology M181, Neuroscience M130, Psychiatry M181, and Psychology M181B.) Lecture, three hours; discussion, two hours. Requisites: course 111A or M180A (or Molecular, Cell, and Developmental Biology M175A or Neuroscience M101A or Psychology M117A) or Psychology 115. Underlying brain systems involved in psychiatric and neurological disorders, including schizophrenia, depression, bipolar disorder, obsessive/compulsive disorder. Provides basic understanding of brain dysfunctions that contribute to disorders and rationales for pharmacological treatments. P/NP or letter grading.

191H. Honors Seminars: Current Topics in Physiology. (4) (Formerly numbered 195H.) Seminar, four hours. Requisites: course 198B. Open to undergraduate honours program students. Continued reading and research that culminate in final honors thesis. May be repeated for credit. Individual contract required. Letter grading.

192. Practicum in Systems Anatomy for Undergraduate Assistants. (3) Seminar, two hours; additional laboratory, three hours. Laboratory classes. Only 3 units of course 198 may be applied toward undergraduate requirements. Requisite: course 107. Limited to juniors/seniors. Training and supervised practicum in systems anatomy for undergraduate assistants. Consult Undergraduate Office for further information. May not be applied toward requirements for and may not be repeated for credit. Departmental application required. P/NP or letter grading.

194. Research Group Seminars: Physiological Science. (2) Seminar, two hours. Required of undergraduate students in research traineeships such as MARC and UC Leads programs. Discussion of research methods and current literature in field or of research of faculty members or students. May be repeated for credit. Letter grading.

195. Field Studies in Physiological Science. (4) Tutorial, one hour; fieldwork, eight hours. Limited to seniors. Supervised field studies in special careers related to physiological science. May not be repeated for credit and may not be counted toward elective requirements for major. Individual contract with supervising faculty member required. P/NP grading.

196. Research Apprenticeship in Physiological Science. (2 to 4) Tutorial, three hours per week per unit; limited to juniors/seniors. Entry-level research apprenticeship for upper division students under guidance of faculty mentor. May be repeated for credit. Consultant department. Individual contract required. P/NP grading.

198A. Honors Research in Physiological Science. (4) Tutorial, 12 hours. Requisites: courses 111A, 111B. Corequisite: course 193. Limited to junior/senior physiological science honors program students. Directed independent research for departmental honors with faculty member, involving definition of research topic and extensive reading and research in field of proposed honors thesis. May be repeated for credit. Individual contract required. P/NP grading.

198C. Advanced Studies for Honors Research in Physiological Science. (5) Tutorial, 12 hours. Requisite: course 198B. Corequisite: course 193. Limited to junior/senior physiological science honors program students. Additional course to provide further research opportunities for departmental honors students. Development and completion of honors thesis or comprehensive research project under direct supervision of faculty member. May be repeated for credit. Individual contract required. Letter grading.

199. Directed Research or Senior Project in Physiological Science. (2 to 4) Tutorial, 12 hours. Requisites: courses 111A, 111B. Corequisite: course 193. Limited to Physiological Science majors with advanced junior standing and 3.0 grade-point average in major, or seniors. Supervised individual research under guidance of faculty mentor. Culfminating paper or project required. Course application must be submitted to chairman of department at least a week before week of classes. Only 3 units of course 199 may be applied toward elective requirements for major. May be repeated for credit. Individual contract required. P/NP or letter grading.
Graduate Courses

M200. Advanced Experimental Statistics. (4) (Formerly number CM200.) (Same as Biostatistics M220.) Lecture, four hours. Introduction to statistics with focus on computer simulation instead of formulae. Bootstrap and Monte Carlo methods used to analyze physiological data. Letter grading.

M202. Cellular Neurophysiology. (4) (Same as Neurobiology M200F and Neuroscience M202.) Lecture, three hours; discussion, two hours. Required. Requisites: course 111A or M180A, CM 48, and course 166 or Molecular, Cell, and Developmental Biology 171. Advanced course in cellular physiology of neurons. Action and membrane potentials, channels and channel blockers, gates, ion pumps and neuronal homeostasis, synaptic receptors, drug-receptor interactions, transmitter release, modulation by second messengers, and sensory transduction. Letter grading.

CM203. Basic Human Biology for Biomedical Engineers II. (4) (Same as Biomedical Engineering CM203,) Lecture, three hours; laboratory, two hours. Preparation: human molecular biology, biochemistry, and cell biology. Not open for credit to Physiological Science majors. Preparation of cellular-level understanding of human anatomy and physiology in selected organ systems (digestive, skin, musculoskeletal, endocrine, immune, urinary, reproductive). System-specific modeling and simulation, volumetric or biomechanical, muscle mechanics and energetics, acid-base balance, excretion. Functional basis of biomedical instrumentation (diagnosis, artificial skin, pathogen detectors, ultrasonic, and drug delivery). Concurrently scheduled with course CM103. Letter grading.

CM204. Basic Human Biology for Biomedical Engineers I. (4) (Same as Biomedical Engineering CM202,) Lecture, three hours; laboratory, two hours. Preparation: human molecular biology, biochemistry, and cell biology. Not open for credit to Physiological Science majors. Broad overview of basic biological activities and organization of human body in system (organ) and cellular terms. Preparation: with particular emphasis on molecular basis. Modeling/simulation of functional aspect of biological system included. Actual demonstration of biomedical instruments, as well as visits to biomedical facilities. Concurrently scheduled with course CM102. Letter grading.

M210. Molecular and Cellular Mechanisms of Neural Integration. (5) (Same as Neuroscience M230 and Molecular, Cellular, and Integrative Physiology M215.) Lecture, three hours; discussion, four hours. Preparation: two-hour discussion, one hour. Required: Neuroscience M202. Introduction to mechanisms of synaptic processing. Selected problems of current interest, including regulation and modulation of transmitter molecule, molecular biology and physiology of receptors, cellular basis of integration in sensory perception and learning, neural nets and oscillators, and molecular events in development and sexual differentiation. Letter grading.

211. Exercise Cardiovascular Physiology. (4) Attention to cardiovascular adaptations to acute exercise as well as adaptations associated with regular exercise training.

M215. Molecular and Cellular Foundations of Physiology. (5) (Formerly number 215.) (Same as Molecular, Cellular, and Integrative Physiology M215,) Lecture, three hours; discussion, two hours. Application of molecular and cellular approaches to systems level questions. Basic foundation for study of major physiological systems, with emphasis on levels of organization from molecular to macroscopic. Letter grading.

C226. Biological Clocks. (4) Lecture, three hours; discussion, one hour. Required: courses 111A, 111B, and 111C, and M180A, M180B, and M180C. Most organisms, including humans, exhibit daily rhythms in physiology and behavior. In many cases these rhythms are under control from within the organism and are called circadian rhythms. Biological basis of these daily rhythms or circadian oscillations. Exploration of molecular, cellular, and system-level organization of these daily rhythms. Temporal and spatial variation in maintenance of homeostatic mechanisms of body and impact on nervous system. Concurrently scheduled with course C126. Letter grading.

M227. Neuroendocrinology of Reproduction. (4) (Same as Neuroscience M227.) Lecture, three hours; discussion, two hours. Preparation: two-hour preparation, unit from within physiological sciences and are called circadian rhythms. Biological basis of these daily rhythms or circadian oscillations. Exploration of molecular, cellular, and system-level organization of these daily rhythms. Temporal and spatial variation in maintenance of homeostatic mechanisms of body and impact on nervous system. Concurrently scheduled with course C126. Letter grading.

M260. Neuromuscular Factors in Movement Regulation. (4) (Same as Neuroscience M260.) Required: concurrent one-semester introductory course in regulation of muscle fiber properties and importance of these properties in neural strategies of movement regulation. S/U or letter grading.

M263. Neuronal Mechanisms Controlling Rhythm Movements. (4) (Same as Neuroscience M263.) Required: course M145. Advanced topics on brainstem mechanisms responsible for controlling cyclic and stereotypic movements such as mastication and locomotion. Emphasis on cell/neurophysiology and interaction between neuronal networks. Introduction to primary literature and techniques used in these areas. Students expected to critically evaluate data and conclusions drawn.

270A-270B-270C. Modern Concepts in Physiolog.- (4-4-4) Lecture, two hours; discussion, two hours. Study and evaluation of primary research literature. Study of foundations of modern techniques in physiological research, analysis of research design. Letter grading.

270A. Modern Concepts in Physiology I. (4) (Same as Neuroscience CM270 and Psychology M213.) Lecture, three hours. Required: course 201. Preparation: four-hour combination of lecture and open discussion. Concurrently scheduled with course 111B. Letter grading.

244. Neural Control of Physiological Systems. (5) Lecture, four hours. Required: course 111B or M180B. Role of central nervous system in control of respiratory, circulation, sexual function, and bladder control. Material for each section to be developed by combination of lecture and open discussion. Concurrently scheduled with course C144. Letter grading.

245. Neural Mechanisms Controlling Movement. (5) Lecture, four hours. Required: course 111A or M180A or Neuroscience M101A. Examination of central nervous system organization required for production of complex movements such as locomotion, mastication, and swallowing. Letter grading.

250A. Muscle Dynamics. (4) Lecture, four hours. Integrated study of electrical and dynamic parameters of muscle-action, including topics in length-tension and force-frequency analysis, critical analysis of electromyographic and digital computer techniques. Letter grading.

M259A-M259B-M259C. Seminars: Cellular Neurobiology and Behavior. (2 to 4 each) Seminars, two to four hours. Preparation: two-hour seminar presentation required for 2 units; seminar paper and 4-hour seminar presentation required for 4 units. S/U or letter grading.

M293A-293B-293C. Seminars: Musculoskeletal Function and Adaptation. (2 to 4 each) Requisites: courses 138, M260. Selected topics on muscular determinants of movement, metabolic aspects of exercise, and mechanics of connective tissue. Students required to present two-hour seminar. Letter grading.

292. Evolution and Development of Auditory System. (2 or 4) Seminar, two hours. Discussion of specific topics related to evolution, embryology, morphogenesis, cytofication, and onset of function of auditory system, with special attention to centrifugal pathologies. Preparation: primary literature sources as well as current methodological approaches. Two-hour seminar presentation required for 2 units; seminar paper and two-hour seminar presentation required for 4 units. S/U or letter grading.

M295A-M295B-M295C. Seminars: Cellular Neurobiology and Behavior. (2 to 4 each) Seminars, two to four hours. Preparation: two-hour seminar presentation required for 2 units; seminar paper and 4-hour seminar presentation required for 4 units. S/U or letter grading.

M290. Seminar: Comparative Physiology. (2) (Same as Ecology and Evolutionary Biology M290,) Seminar, two and one-half hours. Discussion of specific topics in comparative physiology of animals. Topics vary from year to year, with emphasis on systems physiology, neuroendocrinology, or behavioral physiology. S/U or letter grading.

291A-291B-291C. Seminars: Cardiac Function and Adaptation. (2 to 4 each) Seminar, two to four hours. Selected topics on cardiovascular function and adaptation. Students required to present two-hour seminar. Letter grading.

292. Evolution and Development of Auditory System. (2 or 4) Seminar, two hours. Discussion of specific topics related to evolution, embryology, morphogenesis, cytofication, and onset of function of auditory system, with special attention to centrifugal pathologies. Preparation: primary literature sources as well as current methodological approaches. Two-hour seminar presentation required for 2 units; seminar paper and two-hour seminar presentation required for 4 units. S/U or letter grading.

294. Recent Advances in Neurophysiology. (1) Seminar, one hour. Required: Life Sciences 2 or undergraduate degree in science. Critical examination and discussion of recent data and publications that focus on synaptic function. Student presentations, readings, and participation in discussions required. S/U grading.

M295A-M295B-M295C. Seminars: Cellular Neurobiology and Behavior. (2 to 4 each) Seminars, two to four hours. Preparation: two-hour seminar presentation required for 2 units; seminar paper and 4-hour seminar presentation required for 4 units. S/U or letter grading.
Physiology

Scope and Objectives

Physiology is the science of the functional activities of the human body. This covers a wide range, including observations on humans and experiments on animals and model systems in order to understand principles. Physiology is the science most directly relevant to human medicine in all its specialties and to understanding all environmental factors affecting human life. It is also a pure science of great challenge because of the complexity of its problems and its extensive interaction with mathematical, physical, biochemical, and engineering sciences, as well as with other branches of biology.

Within the prescribed curriculum, students may specialize in cellular and molecular physiology, theoretical and mathematical physiology, and organ systems and integrative phenomena, including neuroscience and behavioral physiology.

In the last survey conducted by the Conference Board of the Associated Research Councils, UCLA’s Physiology Department was judged fourth best in the nation in terms of the quality of its faculty. The department offers postdoctoral training in research and welcomes students interested in articulated M.D./Ph.D. programs. Applicants interested in pursuing graduate study may apply directly to the interdepartmental Molecular, Cellular, and Integrative Physiology Ph.D. Program. See http://www.micip.ucla.edu or UCLA ACCESS to Programs in Molecular, Cellular, and Integrative Life Sciences at http://www.uclaccess.ucla.edu.

Physiology

Upper Division Courses

100. Elements of Human Physiology. (6) Designed for first-year dental students. Major organic body functions. With special supplementation, a suitable introduction to the field for graduate students for whom the 201A, 201B course sequence is too extensive.

199. Directed Research in Physiology. (2 to 4) Tutorial, to be arranged. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

M210. Molecular and Cellular Mechanisms of Neural Integration. (5) (Same as Neuroscience M230 and Biological Science M210.) Lecture, four hours; discussion, one hour. Requisite: Neuroscience M202. Introduction to mechanisms of synaptic processing. Selected problems of current interest, including regulation and modulation of transmitter release, molecular biology and physiology of receptors, cellular basis of integration in sensory perception and learning, neural nets and oscillators, and molecular events in development and sexual differentiation. Letter grading.

220. Methods in Cell Physiology. (6) Linear circuit analysis, including admittance, transfer admittance, transfer function, and filters using transform methods. Application of these concepts to electronic analog circuits in lectures and laboratory, with emphasis on operational amplifiers. Applications to electrophysiology include microelectrode amplifiers, voltage clamp and patch clamp techniques, with circuit analysis and noise considerations. Digital electronics cover logic gates, sequential circuits, and A/D and D/A conversion, with introduction to sampling theory.

221. Cell Physiology: Excitability. (6) Requisite: course 220. In-depth coverage of general properties of excitable cells, linear cable properties, nonlinear conductance changes, and generation and propagation of the nerve impulse. Voltage gaging and gating currents, as well as relationship between macrosopic conductance and single channel properties discussed in analytical detail using original publications.

M223. Membrane Molecular Biology. (4) (Same as Biological Chemistry M223.) Lecture, two hours; discussion, two hours. Requisite: Biological Chemistry CM253. Advanced course in molecular aspects of membrane physiology and biochemistry covering lipids and physical chemistry of biological membranes; membrane biogenesis and targeting of proteins to membranes; pumps, carriers, and channels; receptors and transmembrane signaling. S/U or letter grading.

298. Current Topics in Physiology. (2 to 4) Lecture, one hour; discussion, one hour. Designed for graduate students. Students read primary literature in a specified area and conduct or participate in discussions on these papers. May be repeated for credit. S/U or letter grading.

299. Directed Individual Study or Research. (2 to 12) Tutorial, to be arranged. S/U grading.

596. Directed Preparatory Examination or Ph.D. Qualifying Examinations. (2 to 12) Tutorial, to be arranged. S/U grading.

Chairs

Kenneth D. Phillipson, Ph.D., Chair
Thomas J. O’Dei, Ph.D., Executive Vice Chair
John McD. Tormey, M.D., Vice Chair, Instruction
May be earned in the process of completing political and public organizations. The program may be individually tailored to meet the changing character of the relations between citizens and governments, and the values and criteria by which the quality of political life is judged. The program should be individually focused to serve the needs of the liberal arts major, the student seeking preparation for graduate work in political science, public administration, law, and other professional fields, and the student preparing for specialized roles in political and public organizations.

The graduate program leads to the Ph.D. degree in Political Science (a master's degree may be earned in the process of completing Ph.D. requirements). It is designed to give students a strong foundation in the discipline while enabling them to acquire additional skills for advancing their professional careers.

Undergraduate Study

Political Science B.A.

Prepolitical Science Major

All students intending to major in Political Science must enroll as Prepolitical Science majors. After completion of preparation for the major courses, they need to petition to enter the major in the Undergraduate Office, 4269A Bunche Hall.

Preparation for the Major

Required: Four lower division courses from Political Science 10, 20, 30, 40, 50. These lower division courses are requisites to upper division courses and are required in those fields designated as the concentration or distribution fields. Students must also take Political Science 6 or 6R. Students who concentrate in Fields I, II, III, or IV may substitute Statistics 10 or 12 for course 6 or 6R.

Students must complete all premajor courses with a 2.0 grade-point average by the time they attain 135 units. Admission to the major is granted only after successful completion of all lower division requirements.

Transfer Students

Transfer applicants to the Political Science major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one statistics course and four courses from political theory, world politics, game theory, American politics, or comparative politics.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Required: Ten upper division courses (40 units) selected from Political Science 104A through 199, each taken for a letter grade. Students are also required to complete four upper division courses (16 units) in one or two of the following social sciences: anthropology, communication studies (only Communication Studies 160), economics, geography, history, management (only Management 150), psychology (except Psychology 115, 116), sociology. Each course must be taken for a letter grade. Students are required to maintain a 2.0 overall grade-point average in all upper division political science courses.

Upper division political science courses are organized into five fields: (I) political theory, (II) international relations, (III) American politics, (IV) comparative politics, and (V) methods and models.

In fulfilling the requirement of 10 upper division political science courses, students must satisfy the following:

1. A concentration in one field by completing the lower division course and at least four upper division courses in that field
2. A distribution of the lower division course and two upper division courses in each of two other fields (four upper division courses)
3. Two additional elective courses in political science to comprise the total of 10

Field Concentration Requirements

The lower division course is requisite to upper division courses in those fields designated as the concentration field and the two distribution fields for majors. Specific requirements for the field concentration are as follows:

I. Political Theory: Political Science 10 and any four courses in Field I

II. International Relations: Course 20 and any four courses in Field II. Courses 118 and 151C may also be applied toward concentration or distribution in Field II

III. American Politics: Course 40 and any four courses in Field III. Courses 114A through M114D, M115A, 120A, and 121A may also be applied toward concentration or distribution in Field III

IV. Comparative Politics: Course 50 and any four courses in Field IV. Courses 118, 124C, 128A, 128B, 131, 132A, M132B, and 135 may also be applied toward concentration or distribution in Field IV

V. Methods and Models: Courses 6 or 6R (Statistics 10 and related courses may not be substituted), 30, and any four courses from 104A, 104B, M105, M106, 124A, M142D, 149 (collective action; congress, institutions, and collective choice; legislative strategy), 153B, 156D, 166, 169 (political economy of development), 170A, 191B (international negotiation)

Scope and Objectives

The undergraduate major in Political Science aims to provide understanding of basic political processes and institutions as these operate in different national and cultural contexts. It also covers the interaction between national states, the changing character of the relations between citizens and governments, and the values and criteria by which the quality of political life is judged. The program should be individually focused to serve the needs of the liberal arts major, the student seeking preparation for graduate work in political science, public administration, law, and other professional fields, and the student preparing for specialized roles in political and public organizations.

Each term the department offers a series of seminars (Political Science 191A through 191E) in each field. The requisites are two upper division courses in the field in which the
Political Science

Lower Division Courses

6. Introduction to Data Analysis. (5) Lecture, three or four hours; discussion, one hour (when scheduled). Not open for credit to students with credit for course 6R. Introduction to collection and analysis of political data, with emphasis on application of statistical reasoning to study of relationships among political variables. Use of computer as aid in analyzing data from various fields of political science, among them comparative politics, international relations, American politics, and public administration. P/NP or letter grading.

6R. Introduction to Data Analysis — Research Version. (5) Lecture, three or four hours; discussion, one hour (when scheduled). Corequisite: course 50R. Not open for credit to students with credit for course 6. Introduction to collection and analysis of political data, with emphasis on application of statistical reasoning to study of relationships among political variables. Use of computer as aid in analyzing data from comparative politics. P/NP or letter grading.

10. Introduction to Political Theory. (5) Lecture, three hours; discussion, one hour. Exposition and analysis of selected political theorists and concepts from Plato to the present. P/NP or letter grading.

20. World Politics. (5) Lecture, three hours; discussion, one hour. Required of all students concentrating in Field II. Introduction to problems of world politics. P/NP or letter grading.

30. Politics and Strategy. (5) Lecture, three or four hours; discussion, one hour (when scheduled). Introduction to study of strategic interaction in political applications. Use of game theory and other formal modeling strategies to understand politics. P/NP or letter grading.

40. Introduction to American Politics. (5) Lecture, three hours; discussion, one hour. Basic institutions and processes of democratic politics. Treatment of themes such as constitutionalism, representation, participation, and leadership coupled with particular emphasis on the American case. P/NP or letter grading.

50. Introduction to Comparative Politics. (5) Lecture, three hours; discussion, one hour. Not open for credit to students with credit for course 50R. Comparative study of constitutional principles, governmental institutions, and political processes in selected countries. P/NP or letter grading.

50R. Introduction to Comparative Politics — Research Version. (5) Lecture, three hours; discussion, one hour (when scheduled). Corequisite: course 50R. Not open for credit to students with credit for course 50. Comparative study of constitutional principles, governmental institutions, and political processes in selected countries, with emphasis on presentation and evaluation of quantitative evidence. P/NP or letter grading.

88A-88D. Lower Division Seminars, (4 each) Seminar, three hours. Limited to freshmen/sophomores. Opportunity to enhance writing, verbal, and reasoning skills. General introduction to a subfield of a major area, or intensive exploration of a particular theme or topic. Variable topics; consult Schedule of Classes for topics to be offered in a specific term. May not be repeated for credit except by students who receive a grade of C- or D, or F. P/NP or letter grading. 88A. Political Theory; 88B. International Relations; 88C. Politics; 88D. Comparative Politics.

Field I: Political Theory

M111A-111B-111C. History of Political Thought. (4-4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Exposition and critical analysis of major political philosophers and schools. P/NP or letter grading.

M111A. Ancient and Medieval Political Theory from Plato to Machiavelli. (Same as Classics M121.); 111B. Early Modern Political Theory from Hobbes to Bentham; 111C. Late Modern and Contemporary Political Theory from Hegel to the Present.

112A. Democratic Theory. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Critical analysis of selected major authors, issues, and arguments in contemporary democratic theory.

M112B. Invention of Democracy. (5) (Same as Classics M125B.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Democracy was invented in ancient Greece. Political form grounded on equality before law, citizenship, and freedom, it came into existence as struggle by “demos,” people, aware of its excellence and proud of its power, “kratos.” It became only regime capable of including all members of community while disregarding wealth, status, and diverging interests. Examination of history and theory of ancient democracy. P/NP or letter grading.

Upper Division Courses

104A-104B. Introduction to Survey Research. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 6. Designed for juniors/seniors. Courses in fundamentals of survey research as a method. 104A. Sampling theory and methods, writing of questions, questionnaire construction, and interviewing. Attitudes, attitude measurement, and attitude change. Participation in formulation of research problem. 104B. Requisite: course 104A. Conducting a survey, development of survey questionnaire, designing a sample, collecting interview data, maintaining quality control, and coding interview data for machine tabulation. Performance of computer-aided analysis of some part of data and submission of written report of that research.

M105. Economic Models of Public Choice. (4) (Same as Economics M135.) Lecture, three or four hours; discussion, one hour (when scheduled). Preparation: any lower division political science course. Enforced requisite: Economics 11. Designed for juniors/seniors. Analysis of methods and consequenc- es of arriving at collective decisions through political mechanisms. Topics include free-rider problems, voting and majority choice, demand revelation, and political bargaining.

M107. Women and Politics. (4) (Same as Women’s Studies M117.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Introduction to rapidly growing body of empirical and theoretical scholarship on women and politics in both national and international contexts. Topics may include women’s movement in the U.S. and globally; women’s electoral participation; representation of women in Congress and legislatures worldwide; women as heads of government and state; feminist critiques of political science; women and human rights; ERA; struggle for suffrage; mothers as political actors; women and the military; women, development, and globalization. May be applied toward Field I, III, or IV. P/NP or letter grading.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdn.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Political Science offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Political Science.
113A. Problems in 20th-Century Political Theory. (4) (Formerly numbered 113J.) Lecture, three or four hours; discussion, one hour (when scheduled). Designated for juniors/seniors. Study and interpretation of political theorists who have focused their analyses on social and political problems of the 20th century. P/NP or letter grading.

113B. Politics, Theory, and Film. (4) Seminar, four hours. Recommended requisite: course 10. Designed for juniors/seniors. Intense and individualized examination of politically significant films with respect to central issues in political theory such as power and truth in light of relevant political theorists. P/NP or letter grading.

114A-114B. American Political Thought. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: course 115A. P/NP or letter grading. 114A. Exposition and critical analysis of American political thinkers from the Puritan period to 1865. 114B. Exposition and critical analysis of American political thinkers from 1865 to the present.

M114C. African American Political Thought. (4) (Same as Afro-American Studies M114C.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Analysis of black radicalism in mid-20th century, with special attention to contribution of Malcolm X and black nationalism to African American liberation movement. P/NP or letter grading.

M114D. African American Freedom Narratives. (4) (Same as Afro-American Studies M114D.) Lecture, three or four hours; discussion, one hour (when scheduled). Historical, psychological, and thematic interpretation of selected narratives and storytelling in African American culture and politics. P/NP or letter grading.

M114E. Malcolm X and Black Liberation. (4) (Same as Afro-American Studies M114E.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Analysis of black radicalism in mid-20th century, with special attention to contribution of Malcolm X and black nationalism to African American liberation movement. P/NP or letter grading.

M115A. Ethics and Governance. (4) (Formerly numbered 115A.) (Same as Public Policy M1122.) Lecture, three or four hours; discussion, one hour (when scheduled). Designated for seniors. Study of applied ethics and governance, taking case-based approach, mixing normative and positive perspectives. Is action X morally right or wrong? How do people reason about whether action X is morally right or wrong? How do governance structures influence how people reason about whether action X is morally right or wrong? How can we design governance structures that encourage people to act ethically, contribute to public goods, and lead productive and fulfilled lives? May be applied toward Field I or II. P/NP or letter grading.

M115B. Political Ethics. (4) (Same as Public Policy CM126.) Lecture, three or four hours; discussion, one hour (when scheduled). Course 115A is not requisite to M115B. Designed for juniors/seniors. Study of major issues in morality, or lack thereof, of political life. Coverage of both readings in moral and political theory and real-world events such as Watergate, terrorism, civil rights politics, and presidential campaigns. Topics include basic ethical theory, role-relative ethics, Machiavellian amorality, democratic responsibility and representation, ethics of compromise, “dirty hands” problems, international ethics. Letter grading.

M115C. Citizenship and Public Service. (4) (Formerly numbered 115C.) (Same as Civic Engagement M115.) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: course 10. Designed for juniors/seniors. Study of ways in which political thinkers have conceived of ideas of citizenship and public service, how these ideas have changed over time, and frameworks for thinking about citizenship in era of markets and globalization. P/NP or letter grading.

M116A. Marxism. (4) (Formerly numbered 116.) Lecture, three or four hours; discussion, one hour (when scheduled). Designated for juniors/seniors. Critical analysis of concepts, nature, and development of Marxist political theory. P/NP or letter grading.

M116B. Continental Political Thought. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designated for juniors/seniors. Development of law and legal systems; consideration of fundamental legal concepts; contributions and influence of modern schools of legal philosophy in relation to law and government. Letter grading.

M117. Jurisprudence. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Development of law and legal systems; consideration of fundamental legal concepts; contributions and influence of modern schools of legal philosophy in relation to law and government. Letter grading.

M118. Political Violence. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Examination of one or several different uses of violence in revolutionary process: demonstrations, mass uprisings, coup d’etat, assassination, and terrorism. May be applied toward Field II or IV.

119. Special Studies in Political Theory. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Preparation: one course in Field I. Required: course 10. Designed for juniors/seniors. Intensive examination of one or more special problems appropriate to the student’s major. Designed for students offered in regular basis, with topics announced in preceding term. Courses 119, 139, 149, 169, and 179 may be applied no more than twice toward field concentration requirement. No more than three of these courses may be applied toward major. P/NP or letter grading.

M119A. Modern Receptions of Ancient Political Thought. (4) (Same as Classics M124.) Lecture, three hours. Designed for juniors/seniors. Study of how Western culture has conceived and reinterpreted political thought of ancient Greeks and Romans. Topics include examination of influential case(s) of modern reception of classical antiquity. P/NP or letter grading.

Field II: International Relations

120A. Foreign Relations of the U.S. (4). (Formerly numbered 120.) Lecture, three or four hours; discussion, one hour (when scheduled). Designated for juniors/seniors. Survey of factors and forces entering into formation and implementation of American foreign policy, with special emphasis on contemporary problems. P/NP or letter grading.

120B. World Politics and U.S. Foreign Policy after September 11. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Video lectures by leading scholars as well as live lectures and discussion on complex problems such as terrorism, nuclear proliferation, and Arab-Israeli conflict. P/NP or letter grading.

M120C. U.S. Intelligence Agencies in Theory and Practice. (4) (Same as Public Policy M118.) Lecture, three hours; discussion, one hour. Limited to juniors or seniors. Examination of U.S. intelligence agencies from Cold War to present. Particularly in light of 9/11 and Iraq, how are operations more important and less understood. Course separates fact from fiction, comparing how intelligence agencies are portrayed in popular entertainment to how they operate in practice. Fundamentals of Intelligence collection (satellites to spies) and analytic tradecraft; key challenges such as role of ethics in intelligence; performance of U.S. intelligence agencies during Cold War and war on terrorism to adapt and resist new forms of terrorism. Application of general concepts to specific case studies of Cuban missile crisis, 2003 Iraq war, and September 11, 2001, terrorist attacks. Letter grading.

121A. Studies in Formulation of American Foreign Policy. (4) (Formerly numbered 121.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Study of development of American foreign policy with respect to individual cases. Consult Schedule of Classes for topics to be offered in specific term. P/NP or letter grading.

M121A. Nuclear Decision-Making in U.S. Foreign Policy. (4) (Same as Public Policy CM117.) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisites: courses 120, 137A, and 137C. In-depth examination of U.S. foreign policy-making. Assessment of competing theories of international relations and application to specific case studies. Weekly role plays of foreign policymakers and final crisis simulation exercise. Letter grading.

122A. World Order. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Required: course 20. Designed for juniors/seniors. Study of problems of international system seen as community capable of cooperation and development. P/NP or letter grading.

M122B. Global Environment and World Politics. (4) (Same as Environment M161.) Lecture, three or four hours; discussion, one hour (when scheduled). Required: course 20. Recommended requisite: courses 120, 137A, 137C. In-depth examination of U.S. foreign policy-making. Assessment of competing theories of international relations and application to specific case studies. Weekly role plays of foreign policymakers and final crisis simulation exercise. Letter grading.

124A. International Political Economy. (4) (Formerly numbered 124.) Lecture, three or four hours; discussion, one hour (when scheduled). Required: course 20. Designed for juniors/seniors. Study of political aspects of international economic issues. P/NP or letter grading.

124B. Comparative Foreign Economic Policy. (4) (Formerly numbered 125.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Examination of foreign trade, monetary, and investment policies of U.S., Japan, France, and Federal Republic of Germany since 1945. P/NP or letter grading.

124C. Politics of Latin American Economic Development. (4) (Formerly numbered 130.) Lecture, three or four hours; discussion, one hour (when scheduled). Required: course 20. Designed for juniors/seniors. Interaction of international and domestic factors in political and economic evolution of Latin America. P/NP or letter grading.

125A. Arms Control and International Security. (4) (Formerly numbered 125B.) Lecture, three or four hours; discussion, one hour (when scheduled). Designated for juniors/seniors. Arms control in context of international security in nuclear age. Nuclear arms race; relationship between deterrence doctrines and nuclear war; roles of technology and ideology; nuclear proliferation; outer space. P/NP or letter grading.

M125B. U.S. National Security Policy. (4) (Same as Public Policy CM123.) Lecture, three hours; outside study and laboratory hours. Limited to juniors. Survey of contemporary U.S. national security challenges and how policymakers develop strategies to address them. Exploration of Cold War legacy, development of American national security doctrine, and U.S. foreign policymaking process from 1945 to present. Examination of broad spectrum of issues confronting today’s foreign policy leaders, from threats to vital U.S. interests (WMD proliferation, foreign remittances to regional security and economic challenges (Iraq, China), to humanitarian intervention and nation-building (Darfur, Afghanistan)). Designed for seniors. Students present oral essays and deliver oral presentations on how to handle six current national security mini-cases. Provides overview of current challenges and honing student analytic skills to examine these challenges from strategic policy perspective. Letter grading.
126. Peace and War. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 20. Designed for juniors/seniors. Theory and research on causes of war and peace, and policies of other countries, particularly the U.S., as they relate to Japan.

127A-127B. Atlantic Area in World Politics. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Western Europe and the special relations of the United Kingdom, West Germany, France, Italy, and other European members of NATO, in regard to European security in context of the Atlantic Alliance. 127B. U.S. and Europe. Relationship between the U.S. and Western European members of the Atlantic Alliance, in context of U.S./Soviet relations.

128A. U.S./Soviet Relations. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of relations between the U.S. and the former Soviet Union from Revolutions of 1917 to collapse of the U.S.S.R. in 1991.

128B. International Relations of Post-Communist Russia. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisites: courses 20, 128A. Designed for juniors/seniors. Survey of foreign policy of post-Communist Russia, with special emphasis on its relations with the former Communist states of East Central Europe, China, and the Commonwealth of Independent States.

129. Diplomacy and War. (4) (Not same as course 129 prior to 1988-89 or course 132B.) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 20 or 137A. Designed for juniors/seniors. Analysis of role of diplomacy in great power politics, history of diplomatic institutions, advantages of public and private diplomacy, bilateral and multilateral settings, and theory and practice of deterrence and coercion. P/NP or letter grading.

131. Latin American International Relations. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 20. Designed for juniors/seniors. Major problems of Latin American international relations and organization in recent decades.

132A-132B. International Relations of Middle East. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading. 132A. Requisite: course 20. Contemporary regional issues and conflicts, with particular attention to inter-Arab politics, Arab-Israeli conflict, and Persian Gulf area. 132B. (Formerly numbered 132) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

133. International Relations of Sub-Saharan Africa. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Contemporary regional issues and conflicts; foreign policies of African states; role of external powers.

134. Foreign Policy Decision Making and Tools of Statecraft. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 120A. Designed for juniors/seniors. Contrasts purposive and process models of individual and group decision making, import of normative and situational factors on foreign policy decision making. Implications for policy choice of tools of statecraft (i.e., threats/promises, military/economic/diplomacy). P/NP or letter grading.

135. International Relations of China. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 20. Designed for juniors/seniors. Relations of China with its neighbors and the other powers, with emphasis on contemporary interests and policies of China vis-à-vis the U.S. and Soviet Union.

136. International Relations of Japan. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 20. Designed for juniors/seniors. Foreign policies of Japan and interests and policies of other countries, particularly the U.S., as they relate to Japan.

137A-137B. International Relations Theory. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. 137A. Examination of various theoretical approaches to international relations. P/NP or letter grading. 137B. Alternative approaches to analysis of international politics and their application to historical and contemporary issues.

138A. International Politics, 1815 to 1914. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Classic period of European great power politics, beginning with peace settlement at end of Napoleonic wars and ending with coming of World War I. P/NP or letter grading.

138B. International Politics, 1914 to the Present. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. First World War, failure of peace settlement, origins of Second World War, Cold War, and post-Cold War period. P/NP or letter grading.

139. Special Studies in International Relations. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisites: two courses in Field II, or course 20 and one course in Field II. Designed for juniors/seniors. Intensive examination of one or more special topics in international relations. Sections offered on regular basis, with topics announced in preceding term. Courses 119, 139, 149, 169, or 179 may be applied toward field course requirement. No more than three of these courses may be applied toward major. P/NP or letter grading.

139B. Nuclear Weapons: Critical Decisions. (4) (Same as Environment M165, Honors Collegium M119, and Public Policy M116.) Lecture, three hours. Examination of critical decisions regarding nuclear weapons, starting with President Roosevelt's decision to build atomic bomb and ending with current policies on containing nuclear proliferation and on avoiding nuclear catastrophe. Letter grading.

Field III: American Politics

140A-140B-140C. National Institutions. (4-4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. 140A. Congress. Study of those factors which affect character of the legislative process and capacity of representative institutions to govern in contemporary society. 140B. The Presidency. Study of nature and problems of presidential leadership, emphasis on domestic policy, public opinion, interest groups, and party system on the presidency and national policy-making. 140C. Supreme Court. Introduction to American constitutional development and role of Supreme Court as interpreter of the U.S. Constitution. Reading of Supreme Court cases as well as various historical and current commentaries.

141A-141B. Electoral Politics. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

141B. Public Opinion and Voting Behavior. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Study of relation of political attitudes and public opinion on elections, relationship of political attitudes to the vote decision, and influence of public opinion on public policy formulation. P/NP or letter grading.

141C. Political Behavior Analysis. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisites: courses 6, 40, 141B. Designed for juniors/seniors. Advanced course on quantitative methods in study of political behavior, especially in relation to voting patterns, political participation, and techniques of political action. Students conduct computer analyses of issues related to course 141B and similar courses. P/NP or letter grading.

141D. Mass Media and Elections. (4) (Same as Communication Studies M101.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Assessment of manner in which Americans' political beliefs, choices, and actions are influenced by mass media presentations, particularly during election campaigns. Topics include processes of political attitude formation and change, different types of media "effects," and role of the media in the American political process. P/NP or letter grading.

141E. Elections, Media, and Strategy. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 30. Designed for juniors/seniors. Analysis of the role of news media, including game-theoretic analysis, Downs spatial model of elections, valence characteristics in elections, campaign finance, endogeneity problems in social science, liberal bias in media organization of news industry, and effects of media on voter decisions. May be applied toward Field III or V. P/NP or letter grading.

142A-142B-142C. Political Parties and Interest Groups. (4-4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. 142A. Political Parties. Organization and activities of political parties in the U.S. Attention to historical development of the parties, nature of party change, campaign functions and electoral role of the parties, membership problems and party activists, political parties and policy formulation practices. 142B. Politics of Interest Groups. Systematic investigation of role of political interest groups in governmental process, with attention to internal organization, leadership, and politics of such groups to goals and functions of various types of groups and to strategy and tactics of influence. 142C. Government and Labor. Labor force and nature of trade union; regulation of labor relations; problems to encourage full employment and to mitigate unemployment; protective labor legislation.

142D. Understanding Public Issue Life Cycle. (4) (Formerly numbered 142D) (Same as Public Policy M127.) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended preparation: courses 10, 40, and one course from Economics 1, 2, 5, 11, 100, or 101. Examination of how public issue life cycle is shaped by (1) economic and political incentives of various actors — business, news media, mass public, organized interests, Congress, the president, regulatory agencies, and courts and (2) ideology, cognitive biases, and ethical reasoning. P/NP or letter grading.

143A-143B-143C. Subnational Government. (4-4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading. 143A. Local Government. Requisite: course 40. Examination of governments of states of federal union as major sources of public policy in the U.S., with the city as principal topic. 143B. Government of American Cities. Requisite: course 40. Intensive analysis of contemporary urban governance in the U.S. Emphasis on such student participatory activities as fieldwork, research, and gaming of urban politics and policy problems.

143C. Politics of Global Los Angeles in 21st Century — Globalization, Democracy, and Citizenship in Southern California Region. Study of political transformation of Southern California region. Major themes include (1) globalization, restructuring, and regional development, (2) citizenship, democracy, and regional governance, (3) effects of globalization processes on contemporary local politics, (4) effectiveness of political structures and electoral politics.
144A-M144B. Ethnic Politics. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors.

144A. Conflict and Adaptation. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Preparation: one 140-level course or one upper division course on race or ethnicity from history, psychology, or sociology. Requisite: course 40. Designed for juniors/seniors. Introduction to political economy of racial domination in the U.S., concentrating on study of Mexican origin communities. Emphasis on identifying and explaining historical and political interaction between class, race, and power by studying interaction between state policies and practices, class and racial stratification systems, and cultural codes and modes of ideological discourse in each historical period. Letter grading.

M144B. African American Politics. (4) (Same as Afro-American Studies M144.) Lecture, three or four hours; discussion, one hour (when scheduled). Preparation: one 140-level course or one upper division course on race or ethnicity from history, psychology, or sociology. Requisite: course 40. Course 144A is not requisite to M144B. Designed for juniors/seniors. Emphasis on dynamics of race politics in U.S., touching on conditions facing racial and ethnic groups, with black Americans being primary case for analysis. Three primary objectives: (1) to provide descriptive information of political, and economic conditions of black community, (2) to analyze important political issues facing black Americans, (3) to sharpen students' analytical skills. P/NP or letter grading.

145A-145E. Public Law and Judicial Process. (4 each) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. P/NP or letter grading:

145A. Anglo-American Legal System. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Evolution of English common law courts and their legal system, with emphasis on development of basic concepts of law which were received from that system in U.S. and remain relevant today. P/NP or letter grading.

145C. Constitutional Law — Civil Liberties. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Protection of civil and political rights and liberties under constitution. P/NP or letter grading.

145D. Jurisprudence and Bureaucracy. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Legal controls of administration action. Substantive and procedural limits on administrative discretion imposed by legislation, executive and judicial agencies, and sources of legal powers of administrative bodies within these limits. P/NP or letter grading.

145E. Constitutional Law — Rights of Accused. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Constitutional rights of persons suspected, accused, and convicted of crimes, with attention to how protections have changed through history. P/NP or letter grading.

146A-146F. Organization Theory, Public Policy, and Administration. (4 each) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Processes of policy formulation and implementation. Exploration of emergence and performance of government bureaucracies and their role in American political process. P/NP or letter grading.

146B. Bureaucracy and Public Management. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Nature of bureaucracy in modern government, with emphasis on the U.S.; explanation of why government agencies behave as they do. Focus on development of political rules for evaluation of commonly proposed solutions for these problems. Examples from schools, armies, welfare bureaus, and intelligence services, among others. P/NP or letter grading.

146C. Governing the Bureaucracy in the U.S. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Relationship between elected officials and administrators in the U.S., especially efforts of elected and appointed officials to monitor and control behavior of those in “permanent government” (career bureaucrats). P/NP or letter grading.

146D. Theories of Organization and Decision Making. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Preparation: familiarity with American political system. General overview of theories, concepts, and analytical tools at center of developmental inquiry. P/NP or letter grading.

146E. Constitutional Law — Civil Liberties. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Examination of theoretical framework for propositions about the nature of bureaucracies, with emphasis on ideologies, values, behavioral patterns, and concepts of organization. P/NP or letter grading.

146F. National Policy Development and Implementation. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Investigation of complex process of policy development and implementation in the U.S., including roles of federal, state, and local agencies as well as private organizations. Subsections offered on particular policy areas, with topics announced in preceding term. P/NP or letter grading.

146G. Social Life of Information. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Examination of information which moves from those who have it to those who need it. Information flows in groups, organizations, and mass public. Analysis of how decision-making structures groups. How flow of information influences group and organizational performance. How mass media create a “public life issue cycle.” P/NP or letter grading.

147A-147B-147C. American Political Development. (4-4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. P/NP or letter grading.

147A. Overview. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Introduction to historical development of American politics and ideas and institutions that drive durable change over time. Examination of theories, concepts, and analytical tools at center of developmental inquiry. P/NP or letter grading.

147B. Period Inquiry. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Examination of one period in American political history. Critical features fostering stability and change. Discussion of contributions to structure and content of contemporary American political life. Founding of the Republic, Reconstruction, Progressive Era, New Deal, and Cold War. Consult Schedule of Classes for topics to be offered in specific term. P/NP or letter grading.

147C. Institutional Development. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 40. Designed for juniors/seniors. Examination of one American political institution and its development over time, or interaction of American politics and some aspect of culture and society. Assessment of broader political environment of politics, including elements of constraints, incentives, and change. Possible topics include party development, Constitution, business regulation, and politics and religion. P/NP or letter grading.

149. Special Topics in American Government and Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisites: course 40, two courses in Field III. Designed for juniors/seniors. Intensive examination of one or more problems appropriate to American politics. Sections offered on regular basis, with topics announced in preceding term. Courses 119, 139, 149, 169, and 179 may be applied no more than twice toward field concentration requirement. No more than three of these courses may be applied toward major. P/NP or letter grading.

Also see course 117

Field IV: Comparative Politics

151A-151B-151C. African Politics. (4-4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

151A. Government and Politics of Africa. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Comparative study of government and politics in contemporary Africa, with special attention to state/society relations, interaction of politics and economic development, political institutions, and conflict and conflict resolution. Letter grading.

151B. Political Economy of Africa. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Examination of interactions of economic and political factors in African development, with special attention to contemporary African politics, with special attention to state/society relations, interaction of politics and economic development, political institutions, and conflict and conflict resolution. Letter grading.

151C. Special Topics in African Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Consult Schedule of Classes for topics to be offered in a specific term. Letter grading.

152A-152B-152C. Government and Politics of West European Countries. (4-4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Constitutional and political structure and development of one or more states in Europe, especially Britain, France, or Germany, with particular attention to contemporary problems. P/NP or letter grading. 152A. Britain. 152B. France; 152C. Germany.

153A-153B. Comparative Government and Politics of Western Europe. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

153A. West European Government and Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Consultation of constitutions and political structure of West European states, with particular attention to contemporary problems. P/NP or letter grading.

153B. Game-Theoretic Approach to West European Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Course 135A is not requisite to 153B. Designed for juniors/seniors. Uses of elementary game theory to investigate post-World War II Western European politics. Social and political forces, and political institutions. Particular emphasis on study of three West European countries — United Kingdom, France, and Federal Republic of Germany. Consideration of current problems and comparisons with the U.S. P/NP or letter grading.
154A. Government and Politics in Latin America. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Comparative study of governmental and political development, organization, and practices. 154A. States of Middle America; 154B. States of South America. Requisite: course 50. Designed for juniors/seniors.

154C. Black Experience in Latin America and Caribbean. (4) (Same as Afro-American Studies M154C.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Culture, history, politics, and identity of African Americans in Spanish and Lusophone Caribbean, South America, and Central America. Exploration of issues of identity in context of Afro/Latino migration to U.S. P/NP or letter grading.

155. Advanced Pluralist Democracies. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Main features and basic problems of economically advanced democracies, analyzed in comparative framework, topic by topic. Emphasis on cross-Atlantic comparisons, not only political but also sociological.

156A-156D. Government and Politics of Post-Communist States. (4 each) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. P/NP or letter grading.

156A. Russia. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Intensive study of institutions and political development in Russia, with special attention to legacy of the Soviet Union. P/NP or letter grading.

156B. Eastern Europe. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of institutions and political processes in selected post-Communist states of Eastern Europe. P/NP or letter grading.

156C. Post-Soviet States. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Focus on interaction between transitions to democracy and to the market in selected post-Communist countries, with emphasis on development of general theories of political and economic reform. P/NP or letter grading.

157. Government and Politics in the Middle East. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Focus on interaction between transitions to democracy and to the market in selected post-Communist countries, with emphasis on development of general theories of political and economic reform. P/NP or letter grading.

158. Southeast Asian Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of political environment in major Southeast Asian states. Use of comparative analysis to address major problems confronting region, including democratization, economics, war, democracy, and security threats. Letter grading.

159A-159B. Government and Politics of China. (4-4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Survey of modern Chinese politics from decline of Manchus, development of national consciousness, and rise of communist revolutionary nationalism to death of Mao Zedong, with emphasis on socioeconomics and political foundations of political dynamics of revolution in modern China.

159B. China in Age of Reform. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Political economy approach to achieving rapid development, analysis of why some countries are rich and others are poor, with special attention to evidence about how governments and political institutions affect economic development. May be applied toward either Field IV or V. Letter grading.

161. Islam and Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Comparative study of major institutional structures such as presidentialism vs. parliamentarism, unicameralism vs. bicameralism, two-party vs. multiparty systems, federal vs. unitary systems, plurality vs. proportional electoral systems, etc. Method of analysis is rational choice (political actors are assumed to optimize their results given institutional constraints and action of other actors). Result is that institutions affect political outcomes in systematic ways. P/NP or letter grading.

166. Comparative Analysis of Government Institutions. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: course 50. Designed for juniors/seniors. Comparative study of major institutional structures such as presidentialism vs. parliamentarism, unicameralism vs. bicameralism, two-party vs. multiparty systems, federal vs. unitary systems, plurality vs. proportional electoral systems, etc. Method of analysis is rational choice (political actors are assumed to optimize their results given institutional constraints and action of other actors). Result is that institutions affect political outcomes in systematic ways. P/NP or letter grading.

167A. Ideology and Development in World Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: course 50. Designed for juniors/seniors. Comparative study of major ideological movements, with emphasis on theories, movements, and strategies of Islamic activism. P/NP or letter grading.

167B. Comparative Development and Administration. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: course 50. Designed for juniors/seniors. Comparative study of major institutional structures such as presidentialism vs. parliamentarism, unicameralism vs. bicameralism, two-party vs. multiparty systems, federal vs. unitary systems, plurality vs. proportional electoral systems, etc. Method of analysis is rational choice (political actors are assumed to optimize their results given institutional constraints and action of other actors). Result is that institutions affect political outcomes in systematic ways. P/NP or letter grading.

167C. Political Economy of Development. (4) (Same as International Development Studies M167C.) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: course 50. Designed for juniors/seniors. Economic policy approach to puzzle of why some countries are rich and others are poor and why, among latter, some have been able to achieve rapid rates of economic growth and others have not. Explanation and review of logic behind most important arguments that have been advanced to account for differences across countries in rates and levels of economic development. May be applied toward either Field IV or V. Letter grading.

167D. Political Institutions and Economic Development. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: course 6 or 6R. Designed for juniors/seniors. Data analytic approach to question: why do some countries are rich and others are poor, with special attention to evidence about how governments and political institutions affect economic development. May be applied toward either Field IV or V. Letter grading.

168. Comparative Political Analysis. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended requisite: two courses in Field IV, or course 50 and one course in Field IV. Designed for juniors/seniors. Major approaches to study of comparative politics. Concepts and methodology of comparative analysis. Letter grading.

169. Special Studies in Comparative Politics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Preparation: two courses in Field IV. Recommended prerequisite: Political Science course 150 and one course in Field IV. Designed for juniors/seniors. Intensive examination of one or more special problems appropriate to comparative politics. Sections offered on regular basis, with topics announced in preceding term. Courses 119, 139, 149, 169, and 179 may be applied no more than twice toward field concentration requirement. No more than three of these courses may be applied toward major. P/NP or letter grading.

Field V: Methods and Models

170A. Studies in Statistical Analysis of Political Data. (4) (Formerly numbered 102.) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended prerequisite: course 6 or 6R. Designed for juniors/seniors. Use of statistical methods to interpret data and test theories from various fields in political science and use of quantitative evidence in construction of convincing and truthful arguments related to world events. Credit may be applied toward either Field IV or V. P/NP or letter grading.

171A. Applied Formal Models: Collective Action and Social Movements. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended prerequisite: course 30. Designed for juniors/seniors. How do social and political movements convince people to participate? Consideration of various theoretical perspectives, including game-theoretic, social network, structural, and “identity” approaches, illustrated by case studies. May be applied toward Field III, IV, or V. P/NP or letter grading.

171B. Collective Choice and Majority Rule. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended prerequisite: course 30. Designed for juniors/seniors. How do different rules of counting and casting votes affect political decisions? When can voting rules be manipulated by leaders and voters? Examples from legislative, electoral, and judicial politics. May be applied toward Field III or V. P/NP or letter grading.

171C. Legislative Strategy. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended prerequisite: course 30. Designed for juniors/seniors. How do politicians get policy changes passed by legislatures, city councils, and other voting bodies? Applications of game-theoretic reasoning to common strategies and tactics in legislative settings. May be applied toward Field III or V. P/NP or letter grading.

171D. Negotiation. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended prerequisite: course 30. Designed for juniors/seniors. Study of negotiation and bargaining in different contexts. Experiential exercises with emphasis on various aspects of negotiation, including coalition formation, honesty, and role of agents. May be applied toward Field II or V. P/NP or letter grading.

172. Strategy and Conflict. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Enforced prerequisite: course 30. Designed for juniors/seniors. Intermediate topics in game theory applied to political problems, with special attention to strategic consequences of incomplete information and information asymmetries. P/NP or letter grading.
179. Special Topics in Methods and Models. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Requisite: course 30. Designed for juniors/seniors. Intensive examination of one or more special problems related to methods and models in political science. Sections offered on regular basis, with topics announced in preceding term. Courses 119, 139, 149, 169, and 179 may be applied no more than twice toward field concentration requirement. No more than three of these courses may be applied toward major. P/NP or letter grading.

Special Studies

190. Research Colloquia in Political Science. (1) Seminar, one hour. Designed to bring together students undertaking supervised tutorial research in seminar setting with one or more faculty members to discuss their own work or related work in discipline. Led by one supervising faculty member. May be repeated for credit. P/NP grading.

190H. Honors Research Colloquia in Political Science. (1) Seminar, one hour. Designed to bring together students writing departmental honors theses in seminar setting with one or more faculty members to discuss their thesis work in progress. Led by one supervising faculty member. P/NP grading.

191A-191E. Variable Topics Research Seminars for Majors. (4. each) Seminar, three hours. Preparation: two upper division courses in field in which seminar is offered. Limited to junior/senior Political Science majors with 3.25 grade-point average in upper division political science courses. Consult Schedule of Classes for topics to be offered in specific term. Reading, discussion, and development of culminating project. May be applied toward distribution or concentration requirement. May be repeated for credit. P/NP or letter grading. 191A, Political Theory; 191B, International Relations; 191C, Political Theory; 191D, Political Economics; 191E, Methods and Models.

M191DC. CAPP Washington, DC, Research Seminars. (8) (Same as History M191DC and Sociology M191DC.) Seminar, three hours; laboratory, 24 hours. Limited to CAPP Program students. Seminars for undergraduate students in Center for American Politics and Public Policy program in Washington, DC. Focus on development and execution of original empirical research based on experiences from Washington, DC-based field placements. Study of variety of qualitative methods (observation, interviewing, etc.), with comparison to quantitative analysis. Examination of features of solid and significant research; intensive writing. Letter grading.

191H. Research Design Seminar for Honors Thesis. (4) Seminar, four hours. Preparation: one course in C191 series, 3.5 grade-point average in upper division political science courses, eligibility for Letters and Science honors. Required of all students who wish to write honors thesis. Students define their research topic, select suitable research method, determine appropriate sources of information, prepare research proposal, find thesis director, begin their research, and submit progress reports or preliminary drafts. Class sessions emphasize critical and constructive discussions of students’ topics, methods, and problems in research, as well as general consideration of political science research topics and methods of content or continuing interest. May be repeated for credit. Letter grading.

193. Journal Club Seminars: Political Science. (1) Seminar, two hours. Limited to undergraduate students. Discussion of readings selected from current literature of field. Consult Schedule of Classes for topics to be offered in specific term. May be repeated for credit. P/NP grading.

194. Research Group Seminars: Political Science. (2) Seminar, three hours. Designed for undergraduate students who are part of research group. Discussion of research methods and current literature in field of research of faculty members or students. May be repeated for credit. P/NP grading.

M194DC. CAPP Washington, DC, Research Seminars. (4) (Same as History M194DC and Sociology M194DC.) Seminar, limited to CAPP Program students in Winter Quarter. Seminars for undergraduate students in Center for American Politics and Public Policy program in Washington, DC. Focus on development and execution of original empirical research based on experiences from Washington, DC-based field placements. Study of variety of qualitative methods (observation, interviewing, etc.), with comparison to quantitative analysis. Examination of features of solid and significant research; intensive writing. Letter grading.

195. Community or Corporate Internships in Political Science. (2 or 4) Tutorial, to be arranged. Preparation: two upper division courses in field of interest. Limited to juniors/seniors. Supervised jointly by Center for Community Learning and undergraduate study committees. Further supervision to be provided by organization for which student is doing internship. Students meet on regular basis with instructor and provide periodic reports of their experience. May be repeated for maximum of 16 units. No more than 8 units may be applied toward major: units applied must be taken for letter grade. May not be applied toward concentration or distribution requirements. Individual contract with supervising faculty member required. P/NP or letter grading.

M195DC. CAPP Washington, DC, Internships. (4) (Same as History M195DC and Sociology M195DC.) Tutorial, four hours. Limited to junior/senior CAPP Program students. Internships in Washington, DC, through Center for American Politics and Public Policy. Students meet on regular basis with instructor and provide periodic reports of their experience. Individual contract with supervising faculty member required. P/NP or letter grading.

198. Honors Research in Political Science. (1 to 4) Formerly numbered 198A.) Tutorial, two hours. Requisite: course 191H. Limited to juniors/seniors. Development and execution of honors or comprehensive research project under direct supervision of faculty member. May be repeated for credit. Individual contract required. Letter grading.

199. Directed Research in Political Science. (2 to 8) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper or project required. May be repeated for maximum of 16 units. Individual contract required. P/NP or letter grading.

Graduate Courses

Formal Theory and Quantitative Methods

200AL. Statistical Methods Laboratory I. (4) Laboratory, three hours. Corequisite: course 200A. Letter grading.

200D. Quantitative Methods in Politics. (4) Seminar, three hours. Preparation: knowledge of calculus and matrix algebra. Recommended requisite: course 200A. Designed to build foundations set in course 200C. Focus on logical and mathematical structure underlying some statistical methods that are frequently used in political science. Emphasis on understanding structure of the models rather than on gaining added experience using them to analyze data. Applied data analysis. Letter grading.

200E. Advanced Topics in Quantitative Methods. (4) Formerly numbered 199DC. Seminar, three hours. Topics vary each year and have included instrumental variables principal components and scaling, models of selection, models of duration, ecological inference, and hierarchical models. Student-led presentations on relevant statistical theory and applications. Monte Carlo simulations and replications of well-known studies used to demonstrate how various models work and how they are applied in practice. S/U or letter grading.

201A. Introduction to Formal Political Analysis. (4) Seminar, three hours. Survey of formal political theory to enhance literacy and provide analytical tools without presupposing technical or mathematical training. Model building, collective goods, unanimity and the social contract, voting rules, paradoxes and impossibility theorems, stability, individual liberty and decentralization, strategic manipulation representation, voting theory.

201B. Theory of Collective Choice. (4) Seminar, three hours. Recommended preparation for political science students: course 201A. Open to any student of political economy. Investigation of models with ability for deductive reasoning. Introduction to abstraction, deductive study of voting systems and other collective-choice processes. Axiomatic method applied to politics and political economy, concept of rationality, and agenda control, choice-set or solution concepts.

203A. Economic Theory and Methods for Political Science I. (4) Discussion, three hours. Preparation: knowledge of elementary calculus. Introduction to techniques of economic analysis and survey of major topics in formal political economy. Investigation of models of regulation, trade protection, collective bargaining, and economic growth as time paths.

203B. Economic Theory and Methods for Political Science II. (4) Discussion, three hours. Requisite: course 203A. Continuing survey of microeconomic techniques used in formal political science, with focus on market failures and on modeling individual choice in nonmarket situations. Specific topics include externalities, public goods and allocation mechanisms, collective action, spatial models, structure-induced equilibrium, and information asymmetries.

204. Game Theory in Politics. (4) Seminar, three hours. Survey of game theory with emphasis on utilizing mathematical models to understand political and economic phenomena. Applications concern political participation, public goods, legislatures, industrial regulation, bureaucracies, interest groups, and party competition. Designed to help students become informed consumers of game-theoretical literature in political science.

M208A. Game Theory. (4) (Same as Economics M214B and Mathematics M261.) Lecture, three hours. Designed for graduate economics, mathematics, and political science students. Bargaining theory, the core, the value, other solution concepts. Applications to oligopoly, general exchange and production economics, and allocation of joint costs. S/U or letter grading.
Political Theory

210A-210B. Introduction to Political Theory. (4-4) Lecture, three hours. Exploration of major texts and issues in political theory. 210A. Classical and Medieval Formulations from Plato to Aquinas; 210B. Early Modern Period from Machiavelli through the Enlightenment.

214. Political Theory in Transnational Context. (4) Seminar, three hours; discussion, one hour (when scheduled). Critical analysis of selected text from postcolonial, spatial, feminist, postmodern, and post-structuralist theories that assess impact of processes of globalization on such major concepts and problems of traditional social and political theory as sovereignty, citizenship, rights, community, representation, and democracies. S/U or letter grading.

215. Liberalism and Its Critics. (4) Seminar, three hours; discussion, one hour (when scheduled). Examination of works of one or more major contemporary liberal theorists (Locke, Hobbes, Hume, Butler, Kant, Rawls, Nozick, etc.). In light of alternatives which have been proposed to the liberal position (communitarianism, post structuralism, group rights theories, etc.). S/U or letter grading.

216. Toleration, Pluralism, and Diversity. (4) (Same as Public Policy M248.) Seminar, three hours. Prior experience in political or legal theory helpful. Exploration of both abstract concepts of toleration and contemporary disputes. S/U or letter grading.

217. Selected Texts in Political Theory. (4) (Formerly numbered 217.) Seminar, three hours. Critical examination of major texts in political theory, with particular attention to their philosophical system, their relations to contemporary political and intellectual currents, and importance of system for present-day political analysis. S/U or letter grading.

218. Selected Topics in Political Theory. (4) (Formerly numbered 218.) Seminar, three hours. Critical examination of major problem in political theory. S/U or letter grading.

International Relations

220A. International Relations Core Seminar I. (4) (Formerly numbered 220.) Seminar, three hours. Introduction to international relations theory: main schools of thought, methods of analysis, and research styles. Letter grading.

220B. International Relations Core Seminar II. (4) (Formerly numbered 221.) Seminar, three hours. Enforced requisite: course 220A. Further analysis of academic work in international relations and introduction to design of research project in this area. Letter grading.

220C. International Relations Research Seminar. (4) Seminar, three hours; tutorial meetings, to be arranged. Survey of major solution concepts to graduate economics and political science students. Survey and applications of major solution concepts to problems relevant to research in international relations. S/U or letter grading.

223. Politics and Strategies of Modern War. (4) (Formerly numbered 222.) Seminar, three hours. A systematic study of the strategic interaction of players, including the study of non-cooperative and cooperative games. S/U or letter grading.

225. American Foreign Policy. (4) Discussion, three hours. Discussion of major American foreign policies, including those of recent years. S/U or letter grading.

226. Making of American Foreign Policy. (4) (Formerly numbered 237.) Seminar, three hours. Enlargement of foreign policy analysis to include foreign policy-making at various institutional levels; application to a case study. S/U or letter grading.

227. Foreign Policy Process. (4) (Formerly numbered 227.) Seminar, three hours. Requisites: courses 120A, 220A, 220B. Political science and policy science approaches to the foreign policy process; application to a case study. S/U or letter grading.

230. Contending Perspectives on International Political Economy. (4) Discussion, three hours. Survey of various theoretical approaches to international political economy.

231. International Political Economy I. (4) Seminar, three hours. Interaction between international trade and investment, and domestic political economy of both industrialized and industrializing societies. S/U or letter grading.

232. International Political Economy II. (4) Seminar, three hours. Designed to develop Ph.D. students' skills in setting up and solving simple institutional design, political economy, and international trade problems; comparison of models, as well as two-level game models of domestic politics and international conflict and cooperation, with emphasis on applications in international political economy and comparative politics. S/U or letter grading.

233A-233B-233C. Political Economy Workshops (4-4-4). Discussion, two hours. Preparation. Pre- and post- completion of major field examinations. Workshops for students writing or preparing to write dissertations. Reading and discussion of research in progress presented by UCLA faculty, visiting scholars, and advanced graduate students. Research paper of publishable quality required. S/U or letter grading.

234A-234B-234C. Workshops: National Security, Foreign Policy, and International Relations (0-0-12). Discussion, two hours. Preparation. Pre- and post- completion of major field examinations. Course 234A is a prerequisite to course 234B. Course 234B is a prerequisite to 234C. Courses must be taken in sequence. Workshops for students preparing for or working on dissertations. Reading and discussion of research in progress presented by UCLA faculty, visiting scholars, and advanced graduate students. Major research paper required. In Progress (234A, 234B) and letter (234C) grading.

235. Selected Topics in International Relations. (4) (Formerly numbered 229.) Seminar, three hours. S/U or letter grading.

Comparative Politics

240A-240B. Seminars: Comparative Politics. (4-4) Seminar, three hours. Course 240A is a prerequisite to 240B. Letter grading. 240A. Survey of ideas and approaches that have been historically important in field of comparative politics, with selection of theories and methodologies that have comprised field over time. S/U or letter grading.

240B. Survey of contemporary research approaches and problems in field of comparative politics, with a range of theories and methodologies used by practitioners in the field.

244. Latin American Politics. (4) (Formerly numbered 244.) Seminar, three hours. Survey of contemporary research approaches and problems in Latin American politics. S/U or letter grading.

245. Middle Eastern Politics. (4) (Formerly numbered 245.) Seminar, three hours. Survey of contemporary research approaches and problems in Middle Eastern politics. S/U or letter grading.

246A. Western European Politics. (4) (Formerly numbered 246A.) Seminar, three hours. Survey of contemporary research approaches and problems in Western European politics. S/U or letter grading.

246B. Political Development of Modern Europe. (4) Seminar, three hours; discussion, one hour (when scheduled). Principal phases of political development from high feudalism to the present, together with theories of causation.

247A. Evolution of Soviet and Russian Politics. (4) Seminar, three hours; discussion, one hour (when scheduled). Discussion seminar surveying political evolution of Soviet Union and its transformation.

247B. Domestic Context of Russian Foreign Policy. (4) Seminar, three hours. Examination of domestic social, political, bureaucratic, and organizational sources of Russian foreign and strategic policy. S/U or letter grading.

248. South Asian Politics. (4) (Formerly numbered 248.) Seminar, three hours. Survey of contemporary research approaches and problems in South Asian politics. S/U or letter grading.

251. Political Economy of Economic Reform. (4) Discussion, three hours. Some familiarity with economics helpful. Principal political and economic arguments for economic reform and consideration of political issues that arise from this process. Letter grading.

252. Parties and Party Systems. (4) Seminar, three hours; discussion, one hour (when scheduled). Theories and practices of political parties, party systems, and elections in comparative perspective.

253. Political Change in Communist Systems. (4) Discussion, three hours. Examination of political context and consequences of regime change in Communist systems; theories of post-Leninist political pluralization and convergence.

254A-254B. Institutions and Comparative Politics. (4-4) Seminar, three hours; discussion, one hour (when scheduled).
254A. Comparative Institutional Analysis. (4) Seminar, three hours; discussion, one hour (when scheduled). Use of advances of rational choice theory and new institutionalism to compare and analyze major institutional structures, including presidentialism vs. parliamentarism, unicameralism vs. bicameralism, two-party vs. multi-party systems, cadre vs. mass parties, and plurality vs. proportional electoral systems.

254B. Political Institutions, Delegation, and Policy-Making. (4) Seminar, three hours; discussion, one hour (when scheduled). Analysis of political foundations of policy-making. Conquest of special interest groups, majoritarian socialism, and proportional democratic institutions as a series of delegations, from voters to elected officials, within parties and legislatures, and from elected politicians to unelected bureaucrats. Examination of implications of different institutional designs for how those delegations are made and controlled.

256. External Sources of Domestic Politics. (4) Discussion, three hours. Theoretical and historical studies of impact of war and trade on domestic cleavages, policy, and institutions. S/U or letter grading.

257. Lab. and Field Class Politics. (4) Discussion, three hours. Questions and topics on comparative labor and working-class politics. S/U or letter grading.

American Politics

M261A. Proseminar: Political Psychology. (4) (Same as History M336A and Psychology M228A.) Seminar, three hours. Introduction to political psychology: psychobiography, personality and politics, mass attitudes, group conflict, political communication, and elite decision making.

261B. Mass Attitudes and Political Behavior. (4) (Formerly numbered C261B.) Seminar, three hours. Requisite: course 141B or 260A. Analysis of development and changes of political attitudes in mass publics and their relationship to voting, protest, and violence. S/U or letter grading.

261C. Political Communication. (4) Discussion, three hours. Broad survey of research bearing on role of mass media in political participation in the mass media. Topics include theories of persuasion, evolution of "media effects" research, reporting and advertising as determinants of election outcomes, adversarial versus de-

M261D. Seminar: Political Psychology. (4) (Same as Psychology M228B.) Discussion, three hours. Requisite: course M261A or Psychology 220A. Examination of political behavior, political socialization, ra-

262. Political Parties. (4) (Formerly numbered C262.) Seminar, three hours. Critical examination of literature on party systems and organization. Special attention to political functions, electoral campaigns, and party cadre. S/U or letter grading.

264. Politics and Society. (4) (Formerly numbered C284.) Seminar, three hours. Application of selected classical and contemporary sociological theories to politics. S/U or letter grading.

265. Politics and Economy. (4) Discussion, three hours. Analysis of theoretical and practical relationship-

266. Group Theories of Politics. (4) Discussion, three hours. Critical appraisal of "group theory" ap-

Information on clinical practicums which are offered in conjunction with other educational institutions and UCLA departments may be obtained from the department office.

University of California, Los Angeles
Department of Psychiatry and Biobehavioral Sciences

M180. Contemporary Problems in Developmental Disabilities. (4) (Formerly numbered M180A.) (Same as Psychology M180.) Seminar, three hours. Corequisite: course M181A. Limited to Developmental Disabilities Program students. Examination of broad spectrum of issues related to mental retardation, intelligence and IQ, genetics, neurobiology, and other developmental disabilities. P/NP or letter grading.

Scope and Objectives
The Department of Psychiatry and Biobehavioral Sciences offers interdisciplinary courses related to the mental health professions of the biobehavioral sciences in addition to its programs for psychiatry interns and residents and for medical students.

Enrollment in department courses is limited to registered UCLA students, students registered in programs officially affiliated with UCLA, and students enrolled concurrently through UCLA Extension. Students who meet these requirements, but who are not affiliated with a departmental training program, must also meet required course requirements determined by specific educational programs.

Clinical Psychology Internship
The department offers a 12-month Clinical Psychology Internship. Students enrolled in clinical psychology programs at APA-approved universities are eligible to apply. Applications are accepted through November 1. The primary goals of the internship are to provide a year of intensive exposure to a wide variety of clinical and human services experiences and to maximize the personal growth of each professional. Students interested in this certificate program should contact David Crawford, C8-746 Semel Institute, (310) 206-8100, e-mail: dcrawford@mednet.ucla.edu.

Information on clinical practicums which are offered in conjunction with other educational institutions and UCLA departments may be obtained from the department office.

Psychiatry and Biobehavioral Sciences

Upper Division Courses

M180. Contemporary Problems in Developmental Disabilities. (4) (Formerly numbered M180A.) (Same as Psychology M180.) Seminar, three hours. Corequisite: course M181A. Limited to Developmental Disabilities Program students. Examination of broad spectrum of issues related to mental retardation, intelligence and IQ, genetics, neurobiology, and other developmental disabilities. P/NP or letter grading.
M181. Biological Bases of Psychiatric Disorders. (4) (Same as Molecular, Cell, and Developmental Biology M181, Neuroscience M130, Physiological Sciences M112, Psychological Sciences M112, or Psychology M112.) Lecture, three hours. Corequisite: Neuroscience M101A (or Molecular, Cell, and Developmental Biology M175A or Physiological Sciences M112A or Psychology M112A) or Physiological Sciences M111A or Psychology 115. Underlying brain systems involved in psychiatric symptoms and neurological disorders, including schizoprenia, mood disorders, and cognitive dysfunction. Provides basic understanding of brain functions that contribute to disorders and rationales for pharmacological treatments. P/NP or letter grading.

M181A. Research in Contemporary Problems in Developmental Disabilities. (4) (Same as Psychology M181A.) Lecture, one hour; laboratory, eight hours. Corequisite: course M180. Limited to Developmental Disabilities Program students. Research experience. In Progress grading (credit to be given only on completion of course M181B).

197. Individual Study in Psychology. (2-4) (Formerly numbered 199.) Tutorial, four hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be taken for letter grade only. May be repeated for credit. Individual contract required. Additional information and contract forms are available in Office of Education, C8-237/C8-238 Semel Institute. P/NP or letter grading.

199. Directed Research in Psychiatry and Biobehavioral Sciences. (2 to 8) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culuminating paper may be required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

207A-207B-207C. Hypnosis Seminars. (2-2-2) Examination of mental health professionals for adult and child clinical applications, involving didactics, demonstrations, trainee practice, and feedback. Following training in inductions and development of basic phenomena (e.g., regression, hypnoanalysis), focus on psychotherapeutic applications, including direct symptom removal, behavioral methods, and hypnotherapy.

M210. Editorial Board Apprenticeship. (2) (Same as Health Services M210G.) Seminar, two hours. Designed to prepare postdoctoral fellows and advanced Ph.D. students. Participation in peer review process for academic journal, Health Psychology, with consideration of interface between behavioral science, health, and medicine. Reading and discussion of submissions and advising of editor on suitability for full review. S/U or letter grading.

M222. Transcultural Psychiatry. (4) (Same as Anthropology M222.) Lecture, three hours. Consideration of transcultural topics in cross-cultural perspective, such as studies of drug use, deviance, suicide, homicide, behavioral disorders, “culture specific” syndromes, non-Western psychiatrists, and questions of “sick” societies. May be repeated for credit.

M230. Communication of Science. (2) (Same as Biomatics M262.) Lecture, two hours; discussion, one hour. Presentation of various types of scientific writing and their good practice. Discussion of writing specific articles: methods, results, discussion. Writing of review article. Grant submissions: aims, background, results, design. Role of appendices. Communication with lay public. Letter grading.

M231. Hispanic Mental Health Issues and Treatment. (2) (Same as Social Welfare M203E.) Mental health issues and needs of Hispanics through seminaries. Lecture, three hours. Emphasis on historical comparison of psychiatry in Mexico and the U.S., analysis of various theoretical perspectives regarding biopsychosocial behavior; distinguishing psychodynamic from cultural factors in treatment of Spanish-speaking patients; treatment of Hispanic families, couples, undocumented persons, and criminal justice system clientele.

M242. Affective Disorders. (2 or 4) (Same as Psychology M280B.) Seminar, two hours. General topics related to primary affective disorders (depression, manic depressive illness), including diagnosis, pharmacological treatment, psychological treatment, epidemiology, biology, and treatment. Students enrolled for 4 units are assigned a more intensive reading list and required to make a presentation or prepare a research paper.

237. Seminar: Behavioral Neuroimmunology. (1) Seminar, one hour per month; discussion, 30 minutes per month. Series of lectures presented the second Wednesday of each month throughout academic year by invited speakers. S/U grading.

M238. Survey Research Techniques in Psychocultural Studies. (4) (Same as Psychology M238.) Seminar, three hours. Designed for graduate students. Techniques for conceptualizing, conducting, and analyzing survey data; instruction in qualitative strategies for enhancing survey research on psychocultural problems.

M240. Assessment and Treatment of African American Families. (4) (Same as Afro-American Studies M240.) Seminar, two hours. Designed for graduate students. Course aids mental health professionals in trainees in evaluation and treatment of African American families in terms of their cultural milieu, historical background, and economic status. Didactic presentations by instructors and invited guests form basis for supervised evaluation and case management with African American children and families. Letter grading.

M246. Psychological Aspects of Mental Retardation. (4) (Same as Psychology M246.) Lecture, 90 minutes. Discussion of psychological aspects of mental retardation, including classification, description, etiology, theory, prevention, treatment, assessment, modern and future developments, and input from other disciplines (ethics, law, religion, welfare systems). S/U or letter grading.

M251. Mental Health Services. (4) (Same as Health Services M249J.) Lecture, three hours. Requisites: Health Services 200A, 200B. Designed for doctoral students. Survey of contemporary American delivery of health services to emotionally and mentally ill and retarded. Analysis of characteristics of such services, with historical background of their evolution and projected trends in their future planning. S/U grading.

253. Seminar: Child Development. (1) Theories of development, systems of child development, and chronological aspects of child development. Presentation of assigned readings by students plays major role in session. Letter grading.

259. Legal and Ethical Issues with Vulnerable Populations. (3) Lecture, 90 minutes; laboratory, three and one-half hours. Discussion of current laws dealing with vulnerable populations (e.g., children, developmentally disabled people, elderly people); philosophies, ethics, ethical codes, issues, and how to resolve them. Use of videotapes and discussion of cases.

M263. Clinical Pharmacology. (2) (Same as Biomathematics M263 and Medicine M263.) Lecture, two hours. Preparation: completion of professional health sciences degree (M.D., D.D.S., D.N.S. or Ph.D.). Overview of principles of clinical pharmacology, especially as they relate to clinical and translational medicine and to advances in contemporary medicine such as targeting, gene therapy, and genomics. Letter grading.

264. Health and Mental Health Disparities from Psychosocial and Cultural Perspectives. (3) Seminar, three hours. Designed for graduate and medical students. Resident, junior and/or senior (with consent of instructor) interested in learning about general, sexual, and mental health disparities. Survey course to introduce students to health disparities that exist for ethnic minorities and factors that may contribute to disproportionate prevalence rates. Review and discussion of research literature, with focus on specific diseases such as HIV/AIDS, substance abuse, depression, and mental and prostate cancer. Discussion of stereotypes and myths about healthcare of ethnic populations. Examination of psychosocial and cultural contexts as potential or contributing factors. S/U or letter grading.

Jenessa R. Shaprio, Ph.D.
Nim G. Tottenham, Ph.D.

Adjunct Professors
Dennis J. McGinty, Ph.D.
Jill M. Waterman, Ph.D.
Nancy J. Woolf, Ph.D.
Dahlia Zaidel, Ph.D.

Adjunct Associate Professors
Iris Firstenberg, Ph.D.
William J. McCarthy, Ph.D.

Adjunct Assistant Professor
Gian C. Gonzalez, Ph.D.

Scope and Objectives
Psychology is a subject of considerable interest to most people — we all tend to practice some form of intuitive psychology in an attempt to understand ourselves and the people and groups with whom we interact. The curriculum offered by the UCLA Department of Psychology presents psychology as a scientific discipline that employs systematic methods of inquiry to study and explain human and animal behavior — both normal and abnormal — in terms of a variety of underlying variables, including neural, physiological, and cognitive processes; developmental factors and individual differences; and social and interpersonal influences and contexts. According to recent surveys, the UCLA Psychology Department is ranked as one of the top departments in the country. The undergraduate curriculum has been designed to reflect the extensive breadth of psychology — both the range of behavioral phenomena studied and the variety of methods and
theoretical approaches employed — while allowing students to pursue in greater depth those areas in which they become most interested. Beyond basic core courses, students can take many specialized courses in areas such as behavioral neuroscience, animal behavior, learning and memory, motivation, perception, cognition, measurement, personality, and clinical, social, developmental, community, and health psychology. The curriculum also provides excellent opportunities for research experience — either in the form of laboratory courses or by participation with faculty and graduate students in a wide variety of research projects.

A choice of three undergraduate majors is offered: a B.A. degree in Psychology and B.S. degrees in Cognitive Science and in Psychobiology. While the majors overlap in certain fundamental and basic knowledge bases, they differ considerably in their focus (i.e., the extent to which certain areas of psychology and related disciplines are studied) and in terms of the different student interests and needs they satisfy. For nonmajors, the department offers many courses that provide new and valuable insights into the understanding of human behavior, including their own.

At the graduate level, the department offers training leading to the Ph.D. degree with emphases in the areas of behavioral neuroscience, clinical, cognitive, cognitive neuroscience, developmental, health, learning and behavior, social, and quantitative psychology. The graduate program is designed to prepare future psychologists for careers as scientific investigators, college and university teachers, and professional psychologists.

Undergraduate Study

Psychology B.A.

The Psychology major is the most general of the three majors and offers both broad and in-depth coverage of the fundamental and traditional areas of psychology. It provides students with a strong foundation for postgraduate education in psychology and can serve as an excellent background to prepare them for further training in such fields as law, education, government and public policy, business, and many of the health-related professions. Its basic liberal-arts orientation also provides excellent foundation for immediate postbaccalaureate careers in many areas, particularly ones in which an understanding of human behavior and its diversity of expression would be an asset.

The requirements described below represent the minimum requirements in satisfaction of the preparation and the major. Additional courses in psychology, statistics, and related sciences, as well as other types of research and fieldwork experiences, are highly recommended if students plan to pursue graduate work in psychology and related fields. Under special circumstances, graduate-level courses can be taken by undergraduate students, although such courses may not be applied toward degree requirements for the major. For additional information, contact the Undergraduate Advising Office, 1531 Franz Hall.

Prepsychology Major

Students need to file a petition in the Undergraduate Advising Office to declare the Prepsychology major. Prepsychology majors can petition to declare the Psychology major once they have (1) satisfied all the preparation for the major requirements and (2) are accepted into the major through a competitive application process (for students who entered UCLA as freshmen) or file a petition to declare the Psychology major (for students who entered UCLA as transfers).

Preparation for the Major

Each of the following required courses must be taken for a letter grade (C or better in Psychology 10, 100A, and 100B, C– or better in the remaining courses): Anthropology 7 or 12; Life Sciences 1 or 15 or Physiological Science 3; Chemistry and Biochemistry 2 or 14A or 20A (if students have completed one year of high school chemistry with a C or better, this requirement is waived); one course from Computer Science 2, Mathematics 2, Program in Computing 10A, Statistics 10, or one term of calculus; Physics 10 or 1A or 6A; one course from Philosophy 1, 2, 3, 4, 5, 6, 7, 8, 9, 21, 22, 22W, 31, 32; Psychology 10, 100A, 100B. Students cannot take Psychology 100B until they have passed course 100A with a grade of C or better. Psychology 100A and 100B are only open to students who have declared the Prepsychology major before the term in which they plan to enroll. It is recommended that students with no background in introductory statistics take Statistics 10 before enrolling in course 100A.

Students who repeat more than two preparation courses or any preparation course more than once are denied admission to the major.

Freshman Students

Students may declare the Prepsychology major once they have established a 2.5 grade-point average in at least one preparation for the major course.

Students must petition to declare the Psychology major and can do so once they complete all nine preparation for the major courses and submit an application to enter the major by the end of the Spring Quarter of their second year at UCLA. Admission into the major is based on student academic performance in the preparation courses. Students who have a grade-point average of 2.9 or higher in the preparation coursework and have met all other Prepsychology major requirements are guaranteed entry into the major after they submit the application by the above deadline. Students with a grade-point average between 2.5 and 2.89 in the preparation coursework enter a competitive application pool and are admitted only if there is space available in the major. Students with a grade-point average below 2.5 in the preparation coursework are not eligible to apply for admission to the major.

Transfer Students

Transfer applicants to the Psychology major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one human evolution course, one biology course equivalent to Life Sciences 1 or 15 or Physiological Science 3, one general chemistry course (or one year of high school chemistry with a C or better), one general physics course, one philosophy course, one introduction to psychology course, and one course from statistics (recommended), finite mathematics, calculus, computer science theory, or computer programming in C++.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

After satisfying the preparation for the major requirements, students need to petition to enter the major at the Undergraduate Advising Office.

The Major

Required: (1) Five core courses, with at least two from each category and a fifth course from either category: (a) Psychology 110, 115 (or M117A, M117B, and M117C), 120A, 120B, and (b) 127 or 128, 130 (or one course from 133A through 133I), 135, 150; (2) one laboratory/fieldwork course from 101, 111, 116, 121, 126, 131, 136A through 136C, 151, 186A through 186D; (3) four additional upper division elective courses (16 units) in psychology.

Students who complete Psychology M117A, M117B, M117C receive equivalent credit for course 115 and two upper division psychology electives. All of the three courses must be completed to receive psychology elective credit. Each upper division course must be taken for a letter grade. A C– or better is required in each core course and in at least one laboratory/fieldwork course. Students must have a 2.0 grade-point average in all upper division courses selected to satisfy major requirements.

Cognitive Science B.S.

The Cognitive Science major focuses on the study of intelligent systems, both real and artificial. While including a strong foundation in the traditional areas of psychology, the major is interdisciplinary in nature and emphasizes subject matter within cognitive psychology, computer science, mathematics, and related disciplines.

The requirements described below include sufficient preparation if students plan to pursue graduate work in cognitive science or related fields; however, they may want to include additional advanced courses in psychology and fields related to cognitive science (e.g., computer science, linguistics, mathematics, philosophy, and statistics) as well as other types of research and fieldwork experiences. Under
special circumstances, graduate-level courses can be taken by undergraduate students, although such courses may not be applied toward degree requirements for the major. For additional information, contact the Undergraduate Advising Office, 1531 Franz Hall.

**Precognitive Science Major**

Students need to file a petition in the Undergraduate Advising Office to declare the Precognitive Science major. They are then identified as Precognitive Science majors until they (1) satisfy the preparation for the major requirements and (2) file a petition to declare the Cognitive Science major. Questions about the major should be directed to the Undergraduate Advising Office, 1531 Franz Hall.

**Preparation for the Major**

Each of the following required courses must be taken for a letter grade (a C or better in each course and a 2.5 overall grade-point average in the preparation courses) before students reach 140 total units: Life Sciences 1 or 15 or Physiological Science 3; Chemistry and Biochemistry 2 or 14A or 20A (if students have completed one year of high school chemistry with a C or better, this requirement is waived); Mathematics 31A, 31B; Philosophy 7 or 8 or 9; Physics 10 or 1A or 6A; Program in Computing 10A, 10B, and one course from 15 or 20A or 40A; Psychology 10, 85, 100A, 100B. Students cannot take Psychology 100B until they have passed course 100A with a grade of C or better. Psychology 100A and 100B should be taken early in the career; these courses are open only to students who have declared the Precognitive Science major before the term in which they plan to enroll. Students with no background in introductory statistics should take Statistics 10 before enrolling in course 100A.

Students who repeat more than two preparation courses or any preparation course more than once are denied admission to the major.

**Transfer Students**

Transfer applicants to the Cognitive Science major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one biology course, one general chemistry course (or one year of high school chemistry with a C or better), two calculus/analytical geometry courses, one general physics course, one philosophy course, one introduction to psychology course, one introduction to cognitive science course, one psychological statistics course, one psychology research methods course, one computer programming course in C++, and one other computer programming course.

Refer to the UCLA Transfer Admission Guide at [http://www.admissions.ucla.edu/prospect/adm_tr.htm](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

**The Major**

After satisfying the preparation for the major requirements, students need to petition to enter the major at the Undergraduate Advising Office.

**Required:**

1. Psychology 115 (or M117A, M117B, and M117C), 120A or 120B, and one course from 124A through 124J; (2) one course from 186A through 186D and one course from 121, 186A through 186D, or Computer Science 161; (3) three upper division elective courses (12 units) from Psychology 110, 112A through 116, M117J through M119X, 124A through 124J (if taken for the major, may not be applied as an elective); 130, 133B, 135, 142H, 160, 187A, 191CH (if content is approved by the Undergraduate Advising Office and course has not been applied toward the Psychology 195B or 196B requirement).

2. Computer Science 111 through CM186B, Ethnomusicology 172A, Linguistics 103 through 185B, Mathematics 110A through 171, Neuroscience 102, Philosophy 124 through 136, Statistics 100A, 100B, 100C, 101B, 101C; (4) two terms of Psychology 195B or 196B (may be fulfilled by taking any two courses from 191CH, 195B, or 196B, provided content is approved by the Undergraduate Advising Office).

3. Students who complete Psychology M117A, M117B, M117C receive equivalent credit for course 115 and two upper division cognitive science electives. All of the three courses must be completed to receive cognitive science elective credit.

Students must have a 2.0 grade-point average in all upper division courses selected to satisfy major requirements. With the exception of Psychology 195B and 196B, each course must be taken for a letter grade.

**Psychobiology B.S.**

The Psychobiology major is designed for students who plan to go on to postgraduate work in physiological psychology, neuroscience, behavioral aspects of biology, or the health sciences. Psychobiology involves the study of brain-behavior relations and laboratory training in standard brain research techniques.

The requirements described below include sufficient preparation if students plan to pursue graduate work in any of the above fields; however, they may want to include additional advanced courses in psychology and related sciences as well as other types of research and fieldwork experiences. Under special circumstances, graduate-level courses can be taken by undergraduate students, although such courses may not be applied toward degree requirements for the major. For additional information, contact the Undergraduate Advising Office, 1531 Franz Hall.

**Prepsychobiology Major**

Students need to file a petition in the Undergraduate Advising Office to declare the Prepsychobiology major. They are then identified as Prepsychobiology majors until they (1) satisfy the preparation for the major requirements and (2) file a petition to declare the Psychobiology major.

**Preparation for the Major**

**Life Sciences Core Curriculum**

**Required:** Life Sciences 1, 2, 3, 4; Chemistry and Biochemistry 14A, 14B, 14BL, 14C, 14CL, and 14D, or 20A, 20B, 20L, 30A, 30AL, 30B, and 30BL; Mathematics 3A, 3B, and 3C, or 31A, 31B, and 32A; Physics 1A, 1B, 1C, 4AL, and 4BL, or 6A, 6B, and 6C.

Also required are Psychology 10, 100A, 100B. Students cannot take Psychology 100B until they have passed course 100A with a grade of C– or better. Psychology 100A and 100B should be taken early in the career; these courses are open only to students who have declared the Prepsychobiology major before the term in which they plan to enroll. Students with no background in introductory statistics should take Statistics 10 before enrolling in course 100A.

Each core curriculum course must be taken for a letter grade (a C– or better in each course and a 2.0 overall grade-point average in the core curriculum) before students reach 150 total units. Students who repeat more than two preparation courses or any preparation course more than once are denied admission to the major.

**Transfer Students**

Transfer applicants to the Psychobiology major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one year of general biology with laboratory for majors, preferably equivalent to Life Sciences 1 and 2, one year of calculus, one year of general chemistry with laboratory for majors, one semester of organic chemistry with laboratory, one introduction to psychology course, one psychological statistics course, and one psychology research methods course. A second semester of organic chemistry or one year of calculus-based physics is strongly recommended but not required for admission.

Refer to the UCLA Transfer Admission Guide at [http://www.admissions.ucla.edu/prospect/adm_tr.htm](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

**The Major**

After satisfying the preparation for the major requirements, students need to petition to enter the major at the Undergraduate Advising Office.

**Required:**

1. Ecology and Evolutionary Biology 100 or 129 or Psychology 118 or Anthropology 128A and 128B, and Psychology 110, 115 (or M117A, M117B, and M117C), 116 or Neuroscience 101L, 120A or 120B; (2) one course from Psychology 127 or 128, 130, 133A through 133I, 135, 150; (3) 16 units of graded elective courses from the following list: Ecology and Evolutionary Biology 112, 113A, 114A (no more than one from this group), Psychology 111, 112A, 112B, 112D, M117A, M117B, M117C, M117J, 119A through 119X, 160, 186D, 191CH (only if content is approved by the Undergraduate Advising Office), Chemistry and Biochemistry 153A, 153L, Computer and Systems Biology M186C, Ecology and
Evolutionary Biology 100, 102, 105, 106, 110, 111, 115, 117, C119, 120, 121, 122, 124 (only 4 units may be applied toward the major), 129, 135, 146, M158, 164, 170, Microbiology, Immunology, and Molecular Genetics 185A, Molecular Cell, and Developmental Biology 100, 104, 138, C139, M140, CM156, 171, Neuroscience 102, Physiological Science C144, 146, 147, M148, 166, 173.

Students who complete Psychology M117A, M117B, M117C receive equivalent credit for course 115 and 10 units of upper division psychobiology electives. All of the three courses must be completed to receive psychobiology elective credit.

Students must have a 2.0 grade-point average in all upper division courses selected to satisfy major requirements, and each must be taken for a letter grade.

Honors

Honors Courses

Each year the department offers a selection of honors courses, designated with an H suffix. The courses provide close contact with faculty members, emphasize readings in the original literature, student reports, and small group discussions, and may include field or research experience. Enrollment priority in honors courses is given to students in the departmental honors program. Consult the College of Letters and Science for information on requirements for College Honors.

Honors Program

Psychology, Cognitive Science, and Psychobiology majors intending to continue study at the graduate level are encouraged to apply for the departmental honors program. Students work for one year with a faculty sponsor on a research project that is the basis of formal honors thesis. During that year they also participate in a weekly seminar (Psychology 191AH, 191BH, 191CH) in which thesis projects are presented and discussed and other topics of interest are explored with invited faculty members and other guests. Other requirements may apply. Consult the Undergraduate Advising Office during Spring Quarter for further information and application forms. Satisfactory completion of the program and the other requirements for the major leads to awarding of the degree with honors or highest honors.

Computing Specialization

Majors in Psychology, Psychobiology, and Cognitive Science may select a specialization in Computing by (1) satisfying all the requirements for a bachelor's degree in the specified major, (2) completing Program in Computing 10A, 10B, and at least one course from 10C, 15, 20A, 30, 40A, or 60, and (3) completing at least three courses from Psychology 85, 121, 142H, 186A through 186D (one 199 course may be substituted for one of these courses provided project has been approved by vice chair). A grade of C or better is required in each course. Students graduate with a bachelor's degree in their major and a specialization in Computing. Students planning to enter this specialization should consult the Undergraduate Advising Office.

Applied Developmental Psychology Minor

The Applied Developmental Psychology minor is designed to (1) provide a coherent academic program with focus on issues central to improving the well-being of children and their families, (2) teach undergraduates how to apply theories, research methods, and research findings to practical concerns, and (3) prepare students to join or receive further training in various child-related professions.

The minor is open to all enrolled UCLA students (including Cognitive Science, Psychobiology, and Psychology majors) who have an overall grade-point average of 2.0 or better and have been accepted into an approved applied developmental psychology internship program. For further information about applying to the internship program, contact the director of the Infant Development Program, 1615 Franz Hall, (310) 825-2896. For questions about additional course requirements for the minor, contact a counselor in the Undergraduate Advising Office, 1531 Franz Hall, (310) 825-2730.

Required Lower Division Course (4 units): Psychology 10.

Required Upper Division Courses (24 units):
Psychology 134A (must be taken concurrently with course 134D), 134B (must be taken concurrently with course 134E), and four additional courses, of which at least three must be upper division, from Education 120, 121, 132, Psychology 129F, 130, 131, 132A, 132B, 133B through 133I, 134F, 134G, 134H, 199A or 199B (content must be approved by the Undergraduate Advising Office). Sociology M174. One of the four additional courses must include either Psychology 130 or one course from 133B through 133I.

Internship Requirement/Fieldwork Component (4 units): Psychology 134D (must be taken concurrently with course 134A), 134E (must be taken concurrently with course 134B). Students work as interns for two consecutive academic terms at an approved daycare center/school. The internship provides hands-on experience working with young children as teacher's aides and opportunities for observing children.

No more than two courses may be applied toward both this minor and a major in another department or program. Each minor course, except for the fieldwork component of the internship courses, must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Cognitive Science Minor

The Cognitive Science minor is designed to introduce students to cognitive science topics as addressed in a number of different disciplines, such as biology, computer science, engineering, linguistics, mathematics, philosophy, and psychology, while allowing them to pursue a more in-depth study of cognitive science topics within specific areas of their own choice.

The minor consists of two parts. In the first part students complete background courses and satisfy a computer programming experience requirement. In the second part they select a primary cluster from four clusters of upper division courses that have been organized to reflect different aspects of cognitive science. Students take three courses within their primary cluster and two additional courses from the remaining clusters (secondary clusters).

The minor is open to all enrolled UCLA students, other than Cognitive Science majors, who have an overall grade-point average of 2.0 or better. Students must make an appointment with a counselor in the Undergraduate Advising Office, 1531 Franz Hall, (310) 825-2730, to enter the minor and receive counseling on how to select a primary cluster.

Required Courses (28 units): Psychology 85 and one course from 15, 100B, Computer Science 2, Linguistics 1, 20.

The computer programming experience requirement is satisfied by petition based on coursework (e.g., completion of Program in Computing 10A) or other relevant programming experience.

Students must also select (with approval of the Undergraduate Advising Office) and complete one of the following four primary clusters: (1) biological basis of cognition cluster — three courses from Linguistics C135, Neuroscience 102, Psychology 115, 116, M117C (or Molecular Cell, and Developmental Biology M175C or Neuroscience M101C or Physiological Science M180C), 119B, 119F, M119L, M119N, 160; (2) computation and modeling cluster — three courses from Biomatics 108, Computer Science 161, Psychology 186A through 186D; (3) human cognition cluster — Psychology 121 and two courses from 120A or 120B, 124A through 124J, 133B, 133C, 133E; (4) mind and language cluster — three courses from Linguistics 120A, 120B, 125, 130, 132, C135, 185A, Philosophy 124, 125, 126, 127A, 127B, 129, 170, 172, Psychology 124A.

Students must also fulfill a secondary cluster requirement of two additional courses from one or more of the clusters not selected as the primary cluster.

No more than two courses may be applied toward both this minor and a major in another department or program. Each minor course must be taken for a letter grade, and students must have an overall grade-point average of
Fieldwork and Research Opportunities

Many research and fieldwork opportunities are open to students who wish to expand their knowledge and broaden their background in the field of psychology. These experiences can be enriching and help bring undergraduates closer to understanding the importance of research and internships, including their application in the everyday world. At least one of the following courses is recommended for students planning postgraduate study: Psychology 99, 195, 192, 193, 194A through 194D, 195A, 195B, 196A, 196B, 199A, or 199B. Only 12 units from any combination of courses 185, 192, 194, 195, and 196 may be applied toward the undergraduate degree. Information about these courses and programs is available from the Undergraduate Advising Office, 1531 Franz Hall.

Only one 4-unit 199 course may be taken per term, and only 16 units of course 199 may be applied toward the degree. Only one 199 course may be taken for a letter grade (additional 199 courses may be taken on a P/NP basis). If approved in advance by the Undergraduate Advising Office, 8 units of course 199 may be applied toward the Psychology 195B/196B requirement for the Cognitive Science major and 4 units of course 199B may be applied toward the elective course requirements for the Psychology major.

Psychology Research Opportunity Programs

The Psychology Research Opportunity Programs (PROPS) represent a vital effort to identify and mentor underrepresented minority and/or low-income students. The purpose of PROPS is to encourage such students to participate in research and pursue graduate studies leading to careers in academia. The recruitment and application process for PROPS takes place each Fall Quarter. Students selected to participate are awarded stipends for Winter and Spring Quarters, during which time they do research under the mentorship of a psychology faculty member. In addition, students are required to attend weekly seminars covering such topics as graduate school, careers in academia, and research opportunities in various fields of psychology. Prior research experience is not required. This is an excellent opportunity for students to begin their research careers and acquire the needed experience to pursue advanced studies.

Infant Development Program

The Megan E. Daily Infant Development Program (IDP), established in May 1983, is designed as a teaching and research facility for the department and is set up to accommodate both cross-sectional and longitudinal investigation of infants, toddlers, their families, and caregivers. In addition, the program provides an opportunity for undergraduate students in developmental psychology and other areas to acquire firsthand experience working with infants and toddlers on an individual basis or in a group setting. The program has two primary functions: (1) to offer quality group care for infants and toddlers of the students, staff, and faculty of the Psychology Department and other UCLA departments and (2) to serve as a teaching and research facility for the Psychology Department and the UCLA community. The program has two locations and accommodates children from three months to three years old.

UCLA Psychology Clinic

The UCLA Psychology Clinic in the Department of Psychology is a major training center for students in the clinical psychology Ph.D. program, one of the top-ranked programs in the country. It provides a broad range of psychological services to children and adults, including assessment and individual, couples, family, and group therapy. Clients cover the entire age range and represent diverse populations in the community.

Student therapists receive very close supervision and utilize research-based cutting-edge psychological interventions. Students and faculty members are also involved in a variety of research projects through the clinic.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnnet.ucla.edu/gasa/library/pgmreqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Psychology offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Psychology.

Psychology

Lower Division Courses

10. Introductory Psychology. (4) Lecture, four hours. General introduction including topics in cognitive, experimental, personality, developmental, social, and clinical psychology; six hours of psychological research and a grade of C or better required of all departmental premajors. P/NP or letter grading.

85. Introduction to Cognitive Science. (4) Lecture, three hours. Exploration of computer metaphor of mind as an information-processing system, focusing especially on perception, knowledge representation, and thought based on research in cognitive psychology, neuropsychology, and artificial intelligence. Many examples from visual information processing.

88A-BEZ. Lower Division Seminars. (4 each) Seminar, three hours. Enforced requisite: course 10. Limited to freshmen/sophomores. Intensive analysis in seminar situations of selected topics of current psychological interest. Consult Schedule of Classes for topics and instructors. May be repeated for credit.

97. Variable Topics in Psychology. (4) Seminar, three hours. Enforced requisite: course 10. Study of selected topics in psychology at introductory level; seminar format designed for freshmen/sophomores. P/NP or letter grading.

Upper Division Courses

100A. Psychological Statistics. (4) Lecture, four hours. Requisites: course 10 with a grade of C or better, and one course from Computer Science 2, Mathematics 2, Program in Computing 10A, Statistics 10, or one term of calculus. Designed for premajors. Basic statistical procedures and their application to research and practice in various areas of psychology. Letter grading.

100B. Research Methods in Psychology. (6) Lecture, two hours; laboratory, four hours. Enforced requisites: courses 10 and 100A, with grades of C or better. Introduction to research methods and critical analysis in psychology. Lecture and laboratory topics include experimental and nonexperimental research methods, statistical design and analysis as applied to a broad range of basic and applied research issues. P/NP or letter grading.

101. General Psychology Laboratory. (4) Lecture, one hour; laboratory, three hours. Requisites: courses 10, 100A, 100B. General laboratory course for psychology students to acquire key concepts in psychology through active participation in enriched environment. Use of current technologies (e.g., Web-based teaching, interactive computer demonstrations) in challenging atmosphere to learn how mind works. Letter grading.

110. Fundamentals of Learning. (4) Lecture, three hours; discussion, one hour. Requisites: courses 10, 100A. Designed for juniors/seniors. Experimental findings on animal and human conditioning; retention and transfer of training; relation of learning and motivation. Intended to provide empirical basis for theory and research in this area. P/NP or letter grading.

111. Learning Laboratory. (4) Lecture, two hours; laboratory, three hours. Requisites: courses 10, 100A, 100B. 110. Designed for departmental majors. Laboratory experience with techniques in study of learning, especially with animals. Letter grading.
112A. Basic Processes of Motivated Behavior. (4) Lecture, 90 minutes; discussion, 90 minutes. Requires: courses 10, 100A, 110. Designed for juniors/seniors. Examination of some basic processes underlying motivated behavior, stressing environmental determinants of behaviors such as feeding, drinking, and reproduction-related behavior. Discussion of physiological mechanisms that contribute to such behaviors. Consideration of topics such as reinforcement, acquired motivation, and drug addiction. Evaluation of evidence from laboratory studies conducted with animals. P/NP or letter grading.

112B. Psychology of Fear and Anxiety. (4) Lecture, three hours. Requires: courses 10, 100A, 110. Recommended: course 115. Designed for juniors/seniors. Presentation of biological and behavioral approaches to fear and anxiety, taken from laboratory and applied research. In addition to overview of major principles from each approach, emphasis on areas in which significant research advances have recently occurred. Examination of concordance and discordance between results from laboratory and applied research. P/NP or letter grading.

112D. Animal Cognition. (4) Lecture, 90 minutes; discussion, 90 minutes. Requires: courses 10, 100A, 110. Designed for seniors/juniors. Investigation of scientific study of cognition and behavior in animals. Topics include perception and attention, working and reference memory, spatial cognition, timing and counting, concept formation, and abstract reasoning. Most discussions focus on laboratory findings with animals, as viewed from evolutionary framework concerned with natural histories of animals. P/NP or letter grading.

115. Principles of Behavioral Neuroscience. (4) Lecture, three hours; discussion, one hour. Requires: course 100A, Life Sciences 2 or 15. Not open to students with credit for course M117A. Designed for juniors/seniors. Nervous system anatomy, physiology, pharmacology, and their relationship to behavior. P/NP or letter grading.

116. Behavioral Neuroscience Laboratory. (4) Lecture, one hour; laboratory, three hours. Requires: courses 10, 100A, 100B, 115. Designed for Psychobiology and Psychology majors. Laboratory experience with various topics in behavioral neuroscience. P/NP or letter grading.

M117A. Cellular and Systems Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requires: Chemistry 14C or 30A (14C may be taken concurrently), Life Sciences 2, Physics 1B or 1BH or 6B or 6BH. Not open for credit to students with credit for Physiology Science 111A. For Physiology Science majors only, a grade of C– or better is required to proceed to Physiology Science 111B. Cellular neurophysiology, membrane potential, action potentials, and synaptic transmission. Sensory systems and motor system; how assemblies of neurons process complex information and control movement. P/NP or letter grading.

M117B. Molecular and Developmental Neuroscience. (5) Lecture, four hours; discussion, 90 minutes. Requires: course 115 or M117A (or Molecular, Cell, and Developmental Biology M175A or Neuroscience M101A or Physiological Science M180A) or Physiological Science 111A. The ability to image and analyze the visual world is a truly remarkable feat. Coverage of anatomy and physiology of visual processing from the retina to visual cortex through lectures, extensive reading, and discussions.

M119A. Biological Bases of Psychiatric Disorders. (4) (Same as Molecular, Cell, and Developmental Biology M181, Neuroscience M130, Physiological Science M181, and Psychiatry M181.) Lecture, three hours. Requires: course 115 or Molecular, Cell, and Developmental Biology M175A or Neuroscience M101A or Physiological Science M180A or Physiological Science 111A. Underlying brain systems involved in psychiatric disorders and neurologic disorders, including schizophrenia, depression, bipolar disorder, obsessive-compulsive disorder. Provides basic understanding of brain functions that contribute to disorders and rationales for pharmacological treatments. P/NP or letter grading.

118. Comparative Psychobiology. (4) Requires: course 115. Designed for junior/senior majors. Survey of determinants of species-specific behavior, including genetic and cultural factors, with special focus on neuropehysiologically significant substances in brain.

119C. Cognitive Neuroscience. (4) Lecture, three hours. Requires: course 115 or M117C. Understanding complex mental functions depends on interplay of cognitive psychology and behavioral neuroscience. Designed to provide advanced undergraduate students with current perspectives on how complex processes of mind may be understood using neuroscience techniques. P/NP or letter grading.

119E. Stress and Bodily Disease. (4) Lecture, three hours. Requires: course 115 or seniors. Psychobiological processes as they pertain to stress-related topics, including behavioral and pharmacological variables in stress and stress management.

119F. Neural Basis of Behavior. (4) Lecture, three hours. Requires: course 115. Designed for juniors/seniors. Presentation of current data and theory concerning how neuron circuits produce behavior. Mechanisms of perception, response selection, motor pattern generation, learning, and motivation, with emphasis on operation of these processes in well-defined neural circuits in animals and humans. P/NP or letter grading.

119G. Human Neuropsychology. (4) (Same as Neuroscience M119L.) Lecture, three hours. Requires: course 115 or M117A (or Molecular, Cell, and Developmental Biology M175A or Neuroscience M101A or Physiological Science M180A or Physiological Science 111A, Life Sciences 3, 4. Molecular biology of channels and receptors; focus on voltage dependent neurons and neurotransmitter receptors. Molecular biology of supramolecular mechanisms: synaptic transmission, axonal transport, cytoskeleton, and mechanisms underlying modern molecular approaches in developmental neurobiology. P/NP or letter grading.

M119N. The Visual System. (4) (Same as Neuroscience M119N.) Lecture, three hours. Requires: course 115 or Molecular, Cell, and Developmental Biology 171 or Neuroscience M101A or Physiological Science 111A. The ability to image and analyze the visual world is a truly remarkable feat. Coverage of anatomy and physiology of visual processing from the retina to visual cortex through lectures, extensive reading, and discussions.

119O. Psychology of Aging. (4) (Same as Gerontology M119O.) Requires: course 115. Designed for juniors/seniors. Aging refers to developmental changes occurring at end stages of life. Some alterations that occur represent improvement, others are detrimental. Examination of impact of aging process on mental phenomena and exploration of ways in which positive changes can be maximally utilized and impact of detrimental alterations minimized. P/NP or letter grading.

119P. Mapping Mind through Molecules. (4) Lecture, four hours. Requires: course 115 or 115. Designed for juniors/seniors. Explanation of how neural molecules provide unique window into mind. Topics include neurotransmitters, receptors, ion channels, and signal transduction molecules. Roles these molecules play in information processing, consciousness, learning, memory, neural plasticity, degeneration, and psychiatric disorders. P/NP or letter grading.

119Q. Psychology of Sleep and Dreams. (4) Lecture, three hours. Requires: course 115. Designed for juniors/seniors. Review of measurement and comparison of sleep in mammals and submammalian species, circadian rhythms and circadian control of sleep, development of sleep, neural and neurochemical control of sleep, effects of sleep deprivation, sleep in psychiatric disorders, human sleep disorders, and function of dreams. P/NP or letter grading.

119R. Neurobiology of Visual Cognition. (4) Lecture, three hours. Requires: course 115. Designed for juniors/seniors. Review of some recent advances in understanding of neurobiology of visual cognition. Topics include how is visual information processed by brain to generate actions? How do we recognize objects? How do we perceive emotions displayed by other subjects? P/NP or letter grading.

119T. Psychology of Sex and Aging. (4) Lecture, three hours. Requires: course 115. Sexuality in aging from psychological and physiological perspectives. Topics include physical and cognitive changes in aging that affect sexual response, with emphasis on differences between females and males concerning aging-related changes, emotional well-being, and human sexual response. P/NP or letter grading.

M119X. Biology and Behavioral Neuroscience of Aging. (4) (Same as Gerontology M119X.) Lecture, three hours. Designed for juniors/seniors. Biologic mechanisms of aging process and its terminal phase, death, have been increasingly studied in recent years. Establishment of what is known experimentally about biology and behavioral neuroscience of aging and evaluation of theories developed to account for this knowledge. P/NP or letter grading.

120A. Cognitive Psychology. (4) Lecture, three hours; discussion, one hour. Requires: courses 10, 100A. Designed for juniors/seniors. Survey of cognitive psychology: how people acquire, represent, transform, and use verbal and nonverbal information. Perception, attention, imagery, memory, representation of knowledge, language, action, decision making, thinking. P/NP or letter grading.
120B. Sensation and Perception. (4) Lecture, three hours; discussion, one hour. Requisites: courses 10, 100A. Designed for juniors/seniors. Acquisition of information from the real world through sensory mechanisms and perceptual processes. Perception of objects, surfaces, space, motion, and events. Connections between information, computations, and biological mechanisms in vision, audition, and other systems. P/NP or letter grading.

121. Laboratory in Cognitive Psychology. (4) Laboratory, four hours. Requisites: courses 10, 100A, 100B, 120A or 120B. Designed for Psychology and Cognitive Science majors. Laboratory experience with methods and phenomena from research on human perception, memory, and cognition. P/NP or letter grading.

124A. Advanced Topics in Sensation and Perception. (4) Lecture, three hours. Requisites: courses 10, 100A, 120A or 120B. Designed for juniors/seniors. Contemporary research and theory about visual and auditory perception. Topics include physiological mechanisms, psychophysical studies and models, and computational approaches. P/NP or letter grading.

124B. Visual Information Processing. (4) Lecture, two hours; discussion, one hour. Requisites: courses 10, 100A, 120A or 120B. Exploration of issues in visual information, such as storage and representation of visual information in memory, pattern recognition, nature and role of attention in visual processing, working and picture recognition, object perception, and imagery. Possible consideration of developmental aspects. P/NP or letter grading.

124C. Human Memory. (4) Lecture, two hours; discussion, one hour. Requisite: course 120A or 120B. Designed for juniors/seniors. Analysis of recent research on basic processes and structural components that comprise the human memory system. Discussed topics include practical implications of such research for instruction, marketing, and witness testimony. P/NP or letter grading.

124D. Principles of Human Performance. (4) Designed for Psychology majors. Investigation into laboratory-based methods and principles of human performance. Major topics include research methods for human performance, central control of movements, anticipation and timing, automaticity, sensory involvement in action such as vision and kinesthesia, role of reflexes, speed-accuracy trade-offs, and individual differences and abilities. Principles discussed should have relevance for numerous real-world situations in which complex motor skills are required, such as in industrial or occupational settings, musical performances, vehicle control, and sport.

124E. Language and Cognition. (4) Lecture, three hours. Requisites: courses 10, and 120A or 120B. Designed for juniors/seniors. Recent theories of language and cognition; nature of categories, feedback, and error detection in language and cognition; modularity; ambiguity; knowledge acquisition; processes and representations underlying perception, production, attention, and awareness in language and cognition. P/NP or letter grading.

124F. Thinking. (4) Lecture, three hours. Requisite: course 120A or 120B. Analysis of experimental studies of human categorization, reasoning, decision making, problem solving, creativity, and related topics. P/NP or letter grading.

124G. Cognitive Aging. (4) Lecture, 90 minutes; discussion, 90 minutes. Requisites: courses 10, 100A, 120A or 120B. Designed for juniors/seniors. Recent facts and theories in relation to normal aging and cognition, including perception, language comprehension, learning, memory, thinking, and inhibition processes in attention, sequential processes in action, general slowing phenomena, and related neuropsychological issues. P/NP or letter grading.

124H. Cognitive Neurocience of Memory. (4) Lecture, three hours. Requisites: courses 85 or 120A, and course 124E. Focus on the functional and neural basis of learning and memory. Topics include cellular and molecular mechanisms of learning and memory, human amnesia and hippocampus, working memory and prefrontal cortex, procedural learning, emotional memory systems, and memory consolidation. P/NP or letter grading.

124I. Perception, Learning, and Learning Technology. (4) Seminar, three hours. Requisite: course 120A or 120B. Aspects of perception and cognition as they relate to learning and potential for learning technology. Basic knowledge about visual information processing, perceptual learning, knowledge representation, pattern recognition, attention, memory, and expertise as well as research on learning, technology, and applications of perceptual and cognitive concepts in specific domains, with special focus on teaching and learning in mathematics. P/NP or letter grading.

125A. Developmental Psychopathology. (4) Seminar, three hours; fieldwork, seven hours. Research approaches utilized by psychologists in Fernald Research Intern Program to conduct research in developmental psychopathology in context of direct experience. Interns provided with necessary background to undertake various research activities during Winter and Spring Quarters. P/NP grading.

125B. Research Methods in Developmental Psychopathology. (4) Laboratory, three hours; fieldwork, seven hours. Limited to departmental majors. Research approaches utilized by psychologists to conduct research in developmental psychopathology. Letter grading.

125C. Advanced Research Methods in Developmental Psychopathology. (4) Laboratory, three hours; fieldwork, seven hours. Limited to departmental majors. Advanced research approaches utilized by psychologists to conduct research in developmental psychopathology. Letter grading.

126. Clinical Psychology Laboratory. (4) Laboratory, four hours. Requisites: courses 10, 100A, 100B, 127. Designed for departmental majors. Methods, designs, and issues in conduct of clinical psychology research. Students develop and conduct research. Content varies by instructor, with concentration on one of following: schizophrenia, mood disorders, anxiety disorders, childhood disorders, psychophysiological methods, observational methods with couples and families. Letter grading.

127. Abnormal Psychology. (4) Lecture, three hours. Requisite: course 10. Study of dynamics and prevention of abnormal behavior, including neuroses, psychoses, character disorders, psychosomatic reactions, and other abnormal personality patterns.

128. Human Sexuality. (4) Lecture, three hours; discussion, one hour. Requisite: course 10. Open to students with credit for course 127. Overview of recent theories and research on different forms of psychopathology, such as depression, anxiety, schizophrenia, and childhood disorders. Discussion of assessment and treatment approaches. In-depth exploration of selected topics during discussion meetings. P/NP or letter grading.

128A. Personality Measurement. (4) Lecture, three hours. Requisites: courses 10, 100A. Rational methods, and content of studies dealing with problems of describing persons in terms of a limited set of dimensions. Development and construction of research literature dealing with a few representative personality dimensions. P/NP or letter grading.

128B. Introduction to Psychoanalysis. (4) Lecture, three hours. Requisites: courses 10, 100A. Development of Freud's ideas from 1895 to 1925, with emphasis on how his theory evolved from a drive-based reinforcement model to the structural theory in which unconscious fantasy plays a crucial role. Coverage of developments beyond Freud, especially work of the British school under leadership of Klein, Winnicott, and Bibr. P/NP or letter grading.
133C. Language Development. (4) Lecture, three hours. Requisites: courses 10, 100A. Application of principles of cognitive development, learning, and perception to the development of language. Topics include first and second language acquisition (sounds, meanings, grammatical structures), learning mechanisms, communication skills, and relation between language and thought in children. P/NP or letter grading.

133D. Social and Personality Development. (4) Lecture, three hours. Requisites: courses 10, 100A. Theory and research in social and personality development during childhood. Topics include parent/child attachment, temperament, self-control, aggression, sex-typing, self-concept, moral reasoning and behavior, social status and social skills, and peer group relations. P/NP or letter grading.

133E. Perceptual Development. (4) Lecture, three hours. Requisites: courses 10, 100A. Topics include origins and development of human perceptual abilities, origins of knowledge about functionally important aspects of the environment, ecological and computational issues in perception, research and theory about initial perceptual capacities, and some sensory foundations. P/NP or letter grading.

133F. Psychology and Education. (4) Lecture, three hours. Requisites: courses 10, 100A. Application of principles of cognitive development, learning, and perception to educational problems. Topics include general instructional issues, psychology of reading and mathematics, exceptional children, early childhood education, and education of the disadvantaged. P/NP or letter grading.

133G. Culture and Human Development. (4) Lecture, three hours; discussion, one hour. Requisites: courses 10, 100A. Role of culture in human development through psychology, anthropology, and autobiography. Students learn material from lectures and readings, through empirical research projects, to diverse cultural backgrounds in class, at UCLA, and in the broader community. P/NP or letter grading.

133I. Applied Developmental Psychology. (4) Lecture, three hours. Requisites: courses 10, 100A. Application of developmental psychology to issues pertaining to improving well-being of children and their families. Topics include quality of child care, patterns and ranges of normal child behaviors, developmental disabilities, safety, legal, and public policy issues, child-rearing practices. P/NP or letter grading.

134A. Applied Developmental Psychology: Infant Toddler Care and Education. (4) Lecture, three hours. Designed for Applied Developmental Psychology minors. Coverage of children zero to three years old. Topics include physical, cognitive, social, and emotional development of children, developmentally appropriate practices, child care quality, role of educator, caregiver, and other related issues. Letter grading.

134B. Applied Developmental Psychology: Preschool/ School-Age Care and Education. (4) Lecture, three hours. Designed for Applied Developmental Psychology minors. Coverage of children three to eight years old. Topics include physical, cognitive, social, and emotional development of children, developmentally appropriate practices, child care quality, role of educator, caregiver, and other related issues. Letter grading.

134D. Fieldwork in Applied Developmental Psychology. (2) Fieldwork, 86 hours per term. Enforced corequisite: course 134A. Designed for Applied Developmental Psychology minors. Fieldwork in applications of developmental psychology to support and illustrate, in applied setting, theories and research findings presented in lecture. P/NP grading.

134E. Advanced Fieldwork in Applied Developmental Psychology. (2) Fieldwork, 86 hours per term. Enforced corequisite: course 134B. Designed for Applied Developmental Psychology minors. Fieldwork in advanced applications of developmental psychology to support and illustrate, in applied setting, theories and research findings presented in lecture. P/NP grading.

134F. Infant Care and Development. (4) Lecture, three hours. Requisites: course 10, one course from 130 or 133B through 133I, one statistics course. In-depth study of current research findings, and theories used to understand infant development from conception through second year of life, including cross-cultural application of this knowledge to various populations. P/NP or letter grading.

134G. Early Childhood Curriculum. (4) Lecture, three hours. Requisites: course 10, one course from 130 or 133B through 133I, one statistics course. Examination of methods, materials, and philosophies that enhance development of children in context of childcare settings. Topics include issues of multiculturalism, antibias curriculum, and special needs adaptations. P/NP or letter grading.

134H. Child, Family, and Community. (4) Lecture, three hours. Requisites: course 10, one course from 130 or 133B through 133I, one statistics course. Exploration of role of early childhood educators within contexts of diverse ethnic, cultural, and social backgrounds and impact of these dynamics on children's development. P/NP or letter grading.

135. Social Psychology. (4) Lecture, three hours; discussion, one hour. Requisites: courses 10, 100A, 100B, 135. Designed for Psychology majors. Introductions to research design and methods used to test social psychological hypotheses, including experiments, observation, content analysis, and/or questionnaires. P/NP or letter grading.

135A. Social Psychology Laboratory. (4) Lecture, one hour; laboratory, four hours. Requisites: courses 10, 100A, 100B, 135. Designed for Psychology majors. Survey research in psychology, with particular emphasis on surveys of social and political attitudes. Actual experience in systematic survey research such as that done by media polling agencies, market research companies, and academic survey research centers. Topics include survey design, sampling, interviewing techniques, response rates, questionnaire design, data coding, and analysis. Training in telephone interviewing techniques in laboratories. P/NP or letter grading.

135C. Survey Methods in Psychology. (4) Lecture, two hours; laboratory, three hours. Requisites: courses 10, 100A, 100B, 135. Designed for Psychology majors. Survey research in psychology, with particular emphasis on surveys of social and political attitudes. Actual experience in systematic survey research such as that done by media polling agencies, market research companies, and academic survey research centers. Topics include survey design, sampling, interviewing techniques, response rates, questionnaire design, data coding, and analysis. Training in telephone interviewing techniques in laboratories. P/NP or letter grading.

137A. Sport Psychology. (4) Lecture, three hours. Designed for junior/senior Psychology majors. Introduction to field of sport psychology. Coverage of research and applied aspects of a range of topics, including youth sport participants as well as world-class performers.

137C. Close Relationships. (4) Lecture, three hours. Requisites: courses 10, 100A, 135. Examination of research and theory about friendship, dating, and marriage, with emphasis on how these relationships are affected by gender and changing sex roles. P/NP or letter grading.

137E. Work Behavior of Women and Men. (4) (Same as Women's Studies M137E.) Lecture, two and one-half hours. Requisites: course 10 or Women's Studies 130. Designed for seniors. Examination of work behavior of women and men. Topics include anecedents of career choice, job findings, leadership, performance evaluation, discrimination and evaluation bias, job satisfaction, interdependence of work and family roles. P/NP or letter grading.

137F. Introduction to Sport Psychology. (4) Lecture, three hours. Designed for juniors/seniors. Survey of issues in sport psychology, including applied sport psychology and team dynamics, moral development and aggression, personality, motivation, fan behavior, and performance enhancement. Consideration of youth sport through a world-class athlete lens.

137I. Interpersonal Influence and Social Power. (4) Lecture. Three hours. Requisite: course 135. Theoretical and research focusing on how people influence one another and resist such influence, and on the bases of social power. Motivations and effects of influence for the powerholder and target of influence. Applications to such problems and issues as power and leadership in organizations, interpersonal influence and health, power relations in the family, interpersonal influence in everyday life, social power of political figures.

138. Political Elections: Political Psychology. (4) (Same as Political Science M138.) Lecture, three hours; discussion, one hour (when scheduled). Requisite: course 10. Designed for juniors/seniors. Examination of political behavior, political socialization, personality and politics, racial conflict, and psychological analysis of political issues.

140. Introduction to Study of Aging. (4) (Same as Gerontology M140 and Social Welfare M140.) Lecture, three hours. Designed for juniors/seniors. Perspectives on major features of human aging — biological, social, psychological, and humanistic. Introduction to information on the range of influences on aging to prepare students for subsequent specialization. P/NP or letter grading.

142H. Advanced Statistical Methods in Psychology (Honors). (4) Lecture, three hours; laboratory, two hours. Requisites: courses 100A, 100B. Survey of statistical techniques commonly used in psychology, education, and behavioral and social sciences: correlational techniques, analysis variance, and multiple regression. P/NP or letter grading.

144. Measurement and Its Applications. (4) (Formerly numbered 144.) (Same as Statistics M144.) Lecture, three hours. Requisites: course 100A, Statistics 10, 11, 12, 13, 14. Selected topics for quantification of psychological, educational, social, and behavioral science data. Classical test, factor analysis, item analysis, test reliability, validity, test construction, ability measurement, computer-adaptive, and related theories. Construction of tests and measures and their reliability, validity, and bias. P/NP or letter grading.

147A. Psychology of Lesbian Experience. (4) (Same as Lesbian, Gay, Bisexual, and Transgender Studies M147A and Women's Studies M147A.) Lecture, two hours; discussion, one hour. Requisite: course 10 or Lesbian, Gay, Bisexual, and Transgender Studies M114 or Women's Studies 114. Designed for juniors/seniors. Review of research and theory in psychology and women's studies to examine various aspects of lesbian experience, impact of heterosexism/stigma, gender role socialization, minority status of women and lesbians, identity development within a multicultural society, changes in psychological theories about lesbians in sociocultural context. P/NP or letter grading.

150. Introduction to Health Psychology. (4) (Formerly numbered 137D.) Lecture, three hours. Requisite: course 10. Not open for credit to students with credit for former course 137D. Areas of health, illness, treatment, and delivery of treatment that can be elucidated by understanding of psychological concepts and research, psychological perspective on these problems, and how psychology might be enlarged and extended in medical area. P/NP or letter grading.
Advising Office, 1531 Franz Hall. P/NP grading.

Variable Topics Research Seminars: Psychol- ogy. (1) Seminar, one hour. Limited to juniors/seniors. Research seminar on selected topics in psychology. Reading, discussion, and development of culminating project. May be repeated for credit. P/NP grading.

19A. Community Internships in Psychology. (2) Tutorial, to be arranged. Limited to junior/senior Psychology honors program students. Development and completion of honors thesis or comprehensive research project under direct supervision of faculty member. May be repeated for credit. Individual contract required. Information and contracts may be obtained from Undergraduate Advising Office, 1531 Franz Hall. P/NP grading.

19B. Senior Project in Psychology. (4) (Formerly numbered 199.) Tutorial, to be arranged. Limited to junior/senior Psychology honors program students. Development and completion of honors thesis or comprehensive research project under direct supervision of faculty member. May be repeated for credit. Individual contract required. Information and contracts may be obtained from Undergraduate Advising Office, 1531 Franz Hall. Letter grading.

Graduate Courses

200A. Pavlovian Processes. (4) Lecture, three hours. Basic principles and characteristics of learned and behavior, including Pavlovian conditioning, instrumental learning, and species-specific behavior. S/U or letter grading.

200B. Instrumental Conditioning. (4) Lecture, three hours. Principles, applications, and conditioning and application of learning principles to goal-directed action, motivational processes, and goal selection in nonhuman animals. S/U or letter grading.

200C. Representational Processes. (4) Lecture, three hours. Principles, applications, and conditioning and application of learning principles to goal-directed action, motivational processes, and goal selection in nonhuman animals. S/U or letter grading.
204A. Basic Motivational Processes. (4) Lecture, three hours. Designed for graduate students. Analysis, using behavioral systems approach, of basic motivational processes and their role in learning, drinking, drug-taking, eating, sexual behavior, drinking, drugging, and reproduction. Same approach also applied to phenomena such as acquired motivation, reinforcement, and drug addiction. Historical survey of behavioral analyses of motivation and goal-directed behavior. S/U or letter grading.

204B. Theories of Learning. (4) Discussion, three hours. Requisite: course 204A. Critical discussion and in-depth analysis of current major theoretical approaches to associative learning, with emphasis on recent experimental analyses of conditioning phenomena.

204C. Evaluative Processes. (4) Lecture, three hours. Designed for graduate psychology students. Lectures and discussion on current research in application of learning principles to clinical and social problems such as alcohol and drug abuse, aggression, fear management, mental retardation, behavioral medicine, autism/schizophrenia, etc. S/U or letter grading.

204D. Fear and Anxiety. (4) Lecture, three hours. Preparation; graduate training. Presentation of theoretical and empirical advances, from biological and behavioral perspectives, in the area of fear and anxiety. Integration of animal and human research.

205A. Cortical Plasticity and Perceptual Learning. (2) Lecture, three hours. Designed for graduate students. Examination of neural basis of perceptual learning. Overview of literature on cortical plasticity and how it relates to different forms of perceptual learning in visual, auditory, and somatosensory modalities. Review of mechanisms of cortical plasticity, including basic features of long-term synaptic plasticity and computational models of cortical processing. Letter grading.

205B. Human Neurophysiology. (2) Lecture, three hours. Designed for graduate students. Examination of higher cognitive processes in terms of neural mechanisms that underlie them. Topics include cortical modularity and organization, coordinated sensory representation, language, regional functional specialization, attention, and regulation of cortical function by extracortical systems. Letter grading.

205C. Neurotransmitters in Human Disorders of Motor and Cognitive Function. (2) Lecture, three hours. Designed for graduate students. Detailed analysis of molecules involved in interneuronal communication processes (i.e., neurotransmitters, neuropeptides, neuromodulators, neurotrophic factors). Discussion of their roles in normal brain physiology, followed by detailed analyses of their perturbations in various disease states. Particular emphasis on current and past thinking about Alzheimer’s disease, Parkinson’s disease, Huntington’s disease, and Down’s syndrome dementia. Letter grading.

205D. Clinical Psychopharmacology. (2) Lecture, three hours. Designed for graduate students. General principles of brain neurotransmitters, including synthesis, cell bodies and pathways, and receptor subtypes. General principles of drug administration and pharmacokinetics. Major classes of psychoactive drugs, animal models, and “atypical” compounds. Letter grading.

205E. Psychobiology of Emotion and Stress. (2) Lecture, three hours. Designed for graduate students. Overview of literature on role of brain and autonomic and endocrine systems in emotion and stress-related responses. Some emphasis on involvement of neurotransmitters, neuropeptides, and hormones in emotional plasticity, visceral function, and bodily diseases. Letter grading.

205F. Physiology of Learning. (2) Lecture, three hours. Designed for graduate students. Search for anatomic loci of engrams. Cell biology of plasticity, including electrophysiological and molecular approaches. Therapy of the circuitry might be organized to make learning possible. Letter grading.

205G. Behavior Genetics. (2) Not same as course 205G prior to Winter Quarter 2008.) Lecture, three hours. Designed for graduate students. In-depth analysis of field of behavior genetics, including methods for determining genetic and environmental influences and for locating and characterizing genes impacting these traits, as well as current knowledge of genetic contributions to motivation and behavior disorders thereof. Letter grading.

205K. Vision Neurobiology. (2) Lecture, three hours. Designed for graduate students. Exploration of anatomy, physiology, and computation in visual system, focusing on retina, visual cortex, and overall performance. Letter grading.

205L. Cognitive Neuroscience. (2) Lecture, three hours. Designed for graduate students. Overview of neural basis of higher cognitive functions, integrating anatomical, physiological, and behavioral approaches and incorporating clinical and experimental data. Systems covered include attention, perception, memory, language, and hemispheric specialization. Letter grading.

205M. Neuropsychology of Perception. (2) Lecture, three hours (five weeks). Designed for graduate students. Examination of neural substrates of high-level visual processing, including functional characteristics of electrophysiological responses recorded in primate temporal lobe. Discussion of issues regarding neural representation of knowledge. Letter grading.

M208. Biology of Learning and Memory. (4) (Same as Molecular, Cellular, and Integrative Physiology M200G, Neuroscience M200G, and Neuroscience M226.) Lecture, four hours. Molecular, cellular, circuit, systems, neuroanatomy, theory, and models of learning and memory. Cross-disciplinary focus on learning and memory to provide integrative view of subject that emphasizes emerging findings that take advantage of novel groundbreaking models. Letter grading.

212. Evaluation of Research Literature in Physiological Psychology. (4-2-4) Lecture, three hours. Examiners of interest presented by members of seminar and their significance and methodology discussed and critiqued in depth. May be repeated for credit. S/U, S/U grading.

215A. Health Psychology. (4) (Formerly numbered 227.) Lecture, three hours. Preparation: undergraduate degree or training in psychology. Psychological and social factors involved in etiology of illness, treatment, and course of illness, long-term care and adjustment of chronically ill or disabled, and practice of institutional healthcare and self-care. Letter grading.

220A. Social Psychology. (4) Lecture, three hours. Designed for graduate psychology students. Intensive consideration of concepts, theories, and major problems in social psychology.

220D. Introduction to Social Psychology. (4) Lecture, three hours. Designed for graduate students. Introduction to theory and research in social psychology for students who are not psychology majors. Service course for graduate students in education, sociology, political science, management, public health, etc.

222A. Interpersonal Relations. (4) Discussion, three hours. Requisite: course 220A. Critical review of theory and research on interpersonal relationships, with emphasis on friendship, dating, and marriage.

222B. Interpersonal Influence and Social Power. (4) Seminar, three hours. Preparation: advanced social psychology course (psychological or sociological). Review of theory and research on interpersonal influence and social power, with applications to various powerful relationships such as supervisor/subordinate, healthcare professional/patient, doctor/nurse, parent/child, wife/husband, teacher/student, political figures, etc. S/U or letter grading.

222C. Psychology of Intergroup Relations. (4) Lecture, three hours. Designed for graduate students. In-depth and comprehensive exposure to major theoretical and methodological issues within domain of intergroup relations research. Approaches not simply restricted to work within psychology but across social sciences in general, including anthropology, political science, and sociology. S/U or letter grading.

226A-226B-226C. Current Literature in Social Psychology. (2-2-2) Discussion, 90 minutes. Course 226A is limited to first-year graduate psychology students. Courses 226B and 226C are open to nonsocial psychology students with consent of instructor. Recent and current research papers in social psychology presented by members of seminar and their significance and methodology discussed and critiqued in depth. S/U grading.

M228A. Proseminar: Political Psychology. (4) (Same as History M236A and Political Science M261A.) Seminar, three hours. Introduction to political psychology: psychobiography, personality and politics, mass attitudes, group conflict, political communication, and elite decision making.

M228B. Seminar: Political Psychology. (4) (Same as Political Science M261D.) Discussion, three hours. Requisite: course 220A or Political Science M261A. Examination of political behavior, political socialization, social conflict, mass political movements, and public opinion. S/U or letter grading.

M228C. Critical Problems in Political Psychology. (4) (Same as Political Science M281E.) Discussion, three hours. S/U or letter grading.

229. Social Cognition. (4) Lecture, one hour; discussion, two hours. Social cognition is concerned with how people organize and interpret social information in their environment. Seminar provides broad background in the field and also gives depth and focus on particular research topics in weekly papers, as well as a lengthy final paper, required.
M240A. Language and Cognitive Development. (4) Lecture, three hours. Preparation: one undergraduate developmental psychology course in cognitive or language development. Designed for graduate students. Consideration of major topics and concepts, key theories, latest methods, and research findings in development of language and cognition. S/U or letter grading.

M240B. Social and Emotional Development. (4) Lecture, three hours. Preparation: one undergraduate developmental psychology course in social development or related topic. Designed for graduate students. Consideration of major topics and concepts, key theories, latest methods, and research findings in social and emotional development. S/U or letter grading.

241. Current Developments in Developmental Psychology. (1) Discussion, 90 minutes. Designed for graduate developmental psychology students. Presentation of papers on current advances in developmental psychology and closely related areas by experts in the field. Emphasis on approaches to a problem, making it suitable to interweave presentations by graduate students. S/U grading.

242A-M242G. Seminars: Developmental Psychology. (4) Each. Course may be taken independently and may be repeated for credit. S/U grading.

242A. Perceptual Development. (3) Seminar, three hours. Requisites: courses 240A, 240B. May be taken independently and may be repeated for credit. S/U or letter grading.

242B. Cognitive Development. (4) Seminar, three hours. Requisites: courses 240A-240B. May be taken independently and may be repeated for credit. S/U or letter grading.

242C. Socialization. (4) Seminar, three hours. Requisites: courses 240A, 240B. May be taken independently and may be repeated for credit. S/U or letter grading.

242D. Social and Developmental Education. (4) (Same as Education M217A.) Seminar, four hours. Biological, social, psychological, and educational factors in development of the child: development in context of current research and theoretical models; consideration of theoretical and methodological research on family, peer group, and school; application of developmental theory and research to educational practice. S/U or letter grading.

242F. Development of Language and Communication. (4) Seminar, three hours. Requisites: courses 240A, 240B. May be taken independently and may be repeated for credit. S/U or letter grading.

242G. Adolescent Development. (4) (Same as Education M217F.) Seminar, four hours. Designed for graduate students. Review of recent research on physical, cognitive, social, and psychological development during second decade of life. Topics include peer group behavior, changes in parent/adolescent relationships, role of peers, identity development, high-risk behaviors, stress and coping, and school adjustment. Letter grading.

243A-243B. Seminars: Practical and Societal Issues in Developmental Psychology. (4-4) Seminar, three hours. Requisites: courses 240A, 240B. Socialization processes in human development and implication for social/political, educational, research, issues, values, and societal change. In Progress (243A) and S/U or letter (243B) grading.

244. Critical Problems in Developmental Psychology. (4) Lecture, three hours. Requisites: courses 240A, 240B. Current problems; content varies depending on availability of experts. May be taken independently and may be repeated for credit with consent of instructor. Letter grading.

245. Personality Development and Education. (4) (Same as Education M217C.) Review of research and theory of critical content areas in personality development that bear on school performance: achievement motivation, self-concept, aggression, sex differences, and issues related to the development of status of emotional behavior in personality theory and development.

M246. Psychological Aspects of Mental Retardation. (4) (Same as Psychiatry M246.) Lecture, 90 minutes. Discussion of common problems, medicine, treatment, and special aspects of mental retardation, including classification, description, etiology, theory, prevention, treatment, assessment, modern and future developments, and input from other disciplines (ethics, law, religion, welfare systems). S/U grading.

M247. Culture, Brain, and Development. (4) (Formerly numbered 247.) (Same as Anthropology M205S, Applied Linguistics and TESL M233, and Education M296.) Seminar, three hours. Designed for graduate students. Integration of knowledge across different disciplines to understand interrelations of culture, brain, and development, where development includes both human ontology and human phylogeny. S/U or letter grading.

M248. Culture, Brain, and Development Forum. (1) (Same as Anthropology M293, Applied Linguistics and TESL M292, Education M285, and Neuroscience M295.) Seminar, 90 minutes every other week. Interdisciplinary seminar series to provide students with exposure to current research in understanding complex relationship between culture, brain, and development. S grading.

249. Evaluation Research. (4) Requisites: courses 250A, 250B. Introduction to evaluation research in psychology, with emphasis on clinical, community, and social psychology applications. Survey includes policy and strategy issues, design of evaluative studies, data analysis, and utilization of findings.

250A. Advanced Psychological Statistics. (4) Review of fundamental concepts. Basic statistical techniques as applied to design and interpretation of experimental and observational research.

250B. Advanced Psychological Statistics. (4) Advanced experimental design and planning of investigations.

251A-251B-251C. Research Methods. (4-4-4) Tutorial, to be arranged. Designed for graduate psychology students. Students design and conduct original research projects under supervision of instructor in charge. It is anticipated that many students will complete their project in two terms (normally three terms allowed). S/U (251A, 251B) and S/U or letter (251C) grading.

252B. Discrete Multivariate Analysis. (4) Lecture, three hours. Requisites: courses 250A, 250B. Introduction to analysis of frequency table data. Topics include categorical univariate and multivariate distributions, independence and conditional independence, log-linear models, multivariate categorical designs, and ordered categorical variables. Applications from various areas of psychology.

254A. Computing Methods for Psychology. (4) Lecture, three hours. Requisites: courses 250A, 250B. Use of MATLAB, but only basic programming knowledge assumed; no prior knowledge of MATLAB required. Designed to teach basic computer methods relevant to work in experimental psychology and cognitive science. Topics include simulation/modeling, statistical data analysis, and stimulus presentation. S/U or letter grading.
283. Psychopathology. (4) Lecture, three hours. Survey of prominent psychological attributes of particular forms of psychopathology, including analysis of status of various theories concerned with etiology and mediating mechanisms of personality, neurotic, schizophrenic spectrum, and affective disturbances. S/U or letter grading.

289A-289B-289C. Current Issues in Clinical Psychology. (1-1-1) Discussion, two hours. Designed for first-year graduate clinical psychology students. Presentation of research and applied topics relevant to clinical psychology. In Progress (289A, 289B) and S/U (289C) grading.

M294. Seminar: Neural and Behavioral Endocrinology. (2) Same as Neurobiology M225 and Physiology M225. Seminar, one hour. Topics include recent developments in neuroendocrinology. S/U or letter grading.

295. Research Topics in Psychology. (1) Research group meeting, one hour. Limited to graduate students. Discussion of current literature, new ideas, methodological issues, and preliminary findings. Research presentations and opportunities for feedback on current and proposed research activity to encourage, support, and facilitate student research expertise. Assigned readings included. S/U grading.

298. Special Problems in Psychology. (4) Discussion, three hours. Content depends on interests of particular instructor. May be repeated for credit. S/U or letter grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel development as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

401. Fieldwork in Clinical Psychology. (1 to 12) Fieldwork, to be arranged. Requisites: courses 271A, 271B, 271C. Students on practicum assignments are required to register for this course each term (except by consent of clinical program committee). S/U or letter grading.

402. Clinical Research Practicum. (2) Fieldwork, two hours. Faculty supervision of graduate students who share interests discuss current literature, new ideas, methodological issues, and preliminary findings. Meetings include research presentations and opportunities for feedback on current research activity to encourage, support, and facilitate student research expertise. Assigned reading included. S/U grading.

403. Special Topics Study Course. (1 to 4) Discussion, one to four hours. Under faculty supervision, group of students meets each week for quarter in selected study group to pursue specific topic of their choice that is not covered in other department courses. S/U grading.

410A-410B-410C. Clinical Teaching and Supervision. (4-4-4) Clinic, four hours. Preparation: completion of Ph.D. comprehensive examinations, advancement to candidacy or preparation for dissertation research activity under way. Study and practice of knowledge and concepts, and techniques on teaching and supervision of applied clinical psychology. S/U or letter grading.

410D-410E-410F. Clinical Assessment Supervision. (4-4-4) Clinic, two hours. Designed for third-year graduate clinical psychology students. Study and practice of knowledge, concepts, and theories on teaching and supervision of psychological assessment. Letter grading.

420A-420B. Health Psychology Practicum. (2-2) Fieldwork, to be arranged. Designed for graduate students. Determination of what areas of health, illness, treatment, and delivery of treatment can be elucidated by understanding of psychological concepts and research; psychological perspective on these problems; how psychological perspective might be enlarged and extended in medical area. Through practical field placement, students apply knowledge acquired in class to research observation and/or clinical work in field. Letter grading.

421. Research in Social Psychology. (3) Discussion, two hours; reading and group work, four to six hours. Forum for faculty and graduate students pursuing research on a common topic to share research ideas, make research presentations, and obtain feedback on study designs, procedures, and results to foster collaborative investigations in common research areas. S/U grading.

423. Social Survey Research Practicum. (4) Practicum, two hours; additional hours to be arranged. Methods of survey sampling, conduct and management of computer-assisted telephone interview surveys. S/U or letter grading.

425. Health Psychology Lecture Series. (2) Lecture, one hour. Clinicians and researchers in health psychology from Los Angeles area present their research, programs, and/or clinical work as part of training program in health psychology. May be repeated for credit. S/U grading.

454. Internship in Industrial Psychology. (2 to 4) Fieldwork, to be arranged. S/U or letter grading.

495. Presentation of Psychological Materials. (4) Seminar, to be arranged. Supervised practicum in under-graduate teaching. Students serve as discussion section leaders in selected undergraduate courses. S/U grading.

501. Cooperative Program. (2 to 8) Tutorial, to be arranged. Preparation: consent of UCLA graduate adviser and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.

596. Directed Individual Research and Study in Psychology. (2 to 12) Tutorial, to be arranged. One 596 course is required during second year of graduate study, and one 598 or 599 course is required during each succeeding year of graduate study. (Terminal M.A. candidates are exempt from this requirement.) S/U grading.

597. Individual Studies. (2 to 12) Tutorial, to be arranged. Designed primarily as preparation for Ph.D. qualifying examinations. May be required by some area committees as requisite for taking examinations. S/U grading.

599. Research for Ph.D. Dissertation. (2 to 12) Tutorial, to be arranged. Preparation: successful completion of qualifying examinations. One 599 course is required during each year following completion of qualifying examinations. S/U grading.
PUBLIC HEALTH SCHOOLWIDE PROGRAMS

School of Public Health

UCLA
A1-269 Center for the Health Sciences
Box 951772
Los Angeles, CA 90095-1772
(310) 825-5524
e-mail: info@ph.ucla.edu
http://www.ph.ucla.edu

Scope and Objectives

The profession of public health is responsible for the protection, preservation, and promotion of the health of communities and populations. Although the health problems of today differ from those of the past and of the future, the professionals who make up the field need to be trained to respond to broad community problems utilizing the basic ideas of prevention of disease and promotion of well-being. This goal can be achieved only with an understanding of the health status of the population through data gathering and analysis, as well as knowledge of the complex relationships between disease process in the social and biological environment of the community.

The field of public health today needs practitioners from many disciplines. Candidates for graduate study may come from a wide variety of academic backgrounds, training, or experience, including both the natural and social sciences.

Undergraduate Study

Public Health Minor

The Public Health minor is designed for students who wish to learn more about core public health functions, including the assessment and monitoring of the health of communities and populations at risk to identify health problems and priorities, the formulation of public policies designed to solve identified local and national health problems and priorities, the assurance that all populations have access to appropriate and cost-effective care, and the evaluation of the effectiveness of that care.

To enter the minor, students must be in good academic standing with an overall grade-point average of 2.0 or better, have completed 90 or more units, and file a petition at the School of Public Health Student Services Office, A1-269 Center for the Health Sciences. Enrollment is competitive and based on grade-point average and an application essay.

Required Upper Division Courses (28 units): Seven courses, including Biostatistics 100B, Community Health Sciences 100, Environmental Health Sciences 100, Epidemiology 100, Health Services 110, Public Health 150 (must be taken during the first term of enrollment in the minor), and one elective course to be selected from Biostatistics 100B, Community Health Sciences 90, 91, 130, 132, M140, 181, Health Services M110, C121, Public Health 53, M106, or M151. Transfer credit for any of the above is subject to school approval.

Each minor course must be taken for a letter grade, with a minimum grade of C in each and an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The School of Public Health offers two school-wide degrees, Master of Public Health (M.P.H.) and Doctor of Public Health (Dr.P.H.), and M.S. and Ph.D. degrees in Biostatistics, Environmental Health Sciences, Epidemiology, Health Services, and Public Health (offered through the Department of Community Health Sciences). Two interdepartmental degree programs — the Doctor of Environmental Science and Engineering (D.Env), housed in the Department of Environmental Health Sciences, and the Ph.D. in Molecular Toxicology — are also available.

The M.S. program in Preventive Medicine and Public Health is not admitting new students at this time. For information on the Preventive Medicine Residency program, see http://www.ph.ucla.edu/pmr/.

Public Health

Lower Division Courses

10. Introduction to Public Health. (4) Seminar, three hours. Designed for lower division students. Introduction to range of topics, issues, and frameworks to help students understand current public health issues and public health systems, policies, and practices. P/NP or letter grading.

Upper Division Courses

M106. Health in Chican/o/Latino Population. (4) (Same as Chicana and Chicano Studies M106.) Lecture, four hours; discussion, one hour. Designed for juniors/seniors. Examination of Chicano/Latino health status through life expectancy, causes of death, reportable diseases, services utilization, provider supply, and risk behaviors within demographic/immigration changes. Binational review of health effects in U.S. and Mexico. Letter grading.

M151. Healthcare in Transitional Communities. (4) (Same as Sociology M142.) Lecture, three hours; discussion, one hour. Analysis of social, cultural, economic, and political processes affecting organization and accessibility of healthcare in transitional and disadvantaged communities. Fieldwork required. Letter grading.

M160A. Health Outreach and Education for At-Risk Populations. (4) (Same as Medicine M160A.) Lecture, four hours; possible field observations. First in series of courses to explore prevention of disease in at-risk populations, clinical services and referrals for disadvantaged, and effects of low socioeconomic status on academic achievement, career, and family. Lectures by faculty and practitioners, with field visits. P/NP or letter grading.

M160B. Health Outreach and Education for At-Risk Populations. (4) (Same as Medicine M160B.) Lecture, two hours; discussion, two hours. Requisite: course M160A. Second in series of courses to explore prevention of disease in at-risk populations, clinical services and referrals for disadvantaged, and effects of low socioeconomic status on academic achievement, career, and family. Lectures by faculty and practitioners, discussion groups, and field activities including health education. P/NP or letter grading.

180SA. Current Topics in California Health Policy. (4) Lecture, four hours. Corequisite for UCLA students: Civic Engagement 195SA; for non-UCLA students: one internship course. Limited to junior/senior UC Center Sacramento Program students. Development of systematic understanding of policy analysis to help students develop their own advanced policy analysis of current California-related health policy issues, and analysis of key policy challenges facing health and healthcare of California’s diverse population. Offered in summer only. Letter grading.

Fernando M. Torres-Gil, Ph.D.
Lynne G. Zucker, Ph.D.

Professors Emeriti

Robert Dailey, Ph.D.
Michael D. Intriligator, Ph.D.
Archie Kleingartner, Ph.D.
Daniel J.B. Mitchell, Ph.D. (Ho-Su Wu Professor Emeritus of Management)
Richard N. Rosecrance, Ph.D.
Charles E. Young, Ph.D.

Associate Professors

J.R. DeShazo, Ph.D.
Meredith Phillips, Ph.D.
Andrew Sabin, Ph.D.
Amy B. Zegart, Ph.D.

Assistant Professors

Aaron L. Panofsky, Ph.D.
Sarah J. Reber, Ph.D.

Lecturers

C. Mike Dennis, M.P.A., C.P.F.O.
Rick Tuttle, Ph.D.

Visiting Professors

Dean Baim, Ph.D.
Michael S. Dukakis, J.D.
Matthew P. Drennan, Ph.D.

Scope and Objectives

The Department of Public Policy is an interdisciplinary unit composed of faculty members from various disciplines, some of whom hold joint appointments in other UCLA departments. Its goal is to foster an understanding of the theory and practice of public policy in the many fields in which it applies. Examples include education, healthcare, unemployment and training, drug policy and crime, economic development, national security, and the environment. The department offers the Master of Public Policy (M.P.P.) degree and participates in the undergraduate minor in Public Affairs. The M.P.P. degree program is designed to train professionals in both public- and private-sector policy analysis and implementation and provides coursework in such areas as microeconomics, statistics, political processes, and public and nonprofit management.

Concurrent degree programs allow students to combine study for an M.P.P. with work toward a J.D. in the School of Law, an M.B.A. in the John E. Anderson Graduate School of Management, or an M.S.W. in the Department of Social Welfare.

The undergraduate minor in Public Affairs familiarizes students with key issues in public policy. Both programs have a heavy applied orientation. For further information on the minor, see Public Affairs Schoolwide Programs earlier in this section of the catalog.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degree

The Department of Public Policy offers the Master of Public Policy (M.P.P.) degree. Three concurrent degree programs (Public Policy M.P.P./Law J.D., Public Policy M.P.P./Management M.B.A., and Public Policy M.P.P./Social Welfare M.S.W.) are also offered.

Public Policy

Lower Division Courses

10A. Introduction to Public Policy. (4) Lecture, three hours; outside study, nine hours. Overview of principal topics of contemporary policy analysis, developing their applications with examples from instructor’s own research, visitors, small student projects, or field trips.

10B. California Policy Issues. (4) Lecture, three hours; outside study, nine hours. Enforced requisite: course 10A. Application of policy analysis to California issues. Guest lectures from practitioners and academics along with readings and videos. Student written reports and oral presentations required. Letter grading.

Upper Division Courses

C110. Drug Abuse Control Policy. (4) Lecture, three hours; outside study, nine hours. Introduction to drug abuse as social problem and to drug abuse control as policy issue, with examination of both necessity and difficulty of making and executing wise policies around psychoactive substances. Concurrently scheduled with course C235. Letter grading.
102. Imperfect Rationality. (4) Lecture, three hours; outside study, nine hours. Idea that individuals are capable of acting rationally, in their own interest, is central to economic theory. To custom, law, and common sense thinking. Economics offers thorough account of ways in which such people should deal with choice, risk, and time. Casual observation and experience agree that actual behavior deviates in systematic ways from prescriptive model of rationality. Groups of rationally seeking individuals might fail to act as rationalists predict. Examination of consideration of deviations between rational choices and actual behavior in public policies. Letter grading.

103. Ethics, Morality, and Public Life: Contempory Controversies. (4) Lecture, four hours; outside study, eight hours. Study of ethical and moral questions that arise in public life. Goal is not to imbue students with a given body of factual knowledge or to develop new quantitative or social science methodological approaches to analyze such questions, but to enhance their critical thinking skills. Letter grading.

104. Culture and Political Structure of Los Angeles. (4) Lecture, three hours; outside study, nine hours. Exploration of two pieces of the puzzle in modern urban life: the different communities that live here (and in most other major cities) and political structure that binds us all together. Who are the communities living here? How do they organize themselves and develop their own rules and identities? How can urban studies preferred but not required. Survey course to examine major debates and current controversies concerning public policy responses to social problems in urban America. Letter grading.

110. Leadership in Public Interest. (4) Lecture, three hours. Examination of prevailing models, theories, and practices of leadership in public settings and application of them through case studies, films, and situational articles. Participation in group projects and discussions designed to improve understanding of role of leadership in mobilizing people groups to do difficult work. Introduction to literature and theory on leadership and group dynamics, and challenge of leadership in times of stress and change. Letter grading.

112. Controversies in Education Policy. (4) Formerly numbered C112. Lecture, three hours; outside study, nine hours. Focus on several controversial topics in contemporary education. Topics vary each year and include multiculturalism, affirmative action, test score gap, bilingual education, and school choice. Introduction to theory and application of major and emerging importance education policies and to encourage students to critically evaluate logic and evidence behind important education policies and to encourage students to act ethically, contribute to public goods, and lead productive and fulfilled lives? P/NP or letter grading.

112. Rights and Wrongs of Affirmative Action. (4) Lecture, three hours; discussion, one hour. Exploration of race-based affirmative action from moral, political, and social perspectives. Includes definition and why studying of diversity; meritocracy and its critics; historical and future-based arguments; sociological and moral; possibilities for moral compromise. Letter grading.

125. Rights and Wrongs of Affirmative Action. (4) Lecture, three hours; discussion, one hour. Exploration of race-based affirmative action from moral, political, and social perspectives. Includes definition and why studying of diversity; meritocracy and its critics; historical and future-based arguments; sociological and moral; possibilities for moral compromise. Letter grading.

CM126. Political Ethics. (4) Formerly numbered M126. (Same as Political Science M112B.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Study of major issues in morality, and lack thereof, of political life. Coverage of both readings in moral and political theory and real-world examples such as war and terrorism, civil rights politics, and presidential campaigns. Topics include basic ethical theory, role-relating ethics, Machiavellianism, democratic responsibility and representation, ethics of compromise, “dirty hands” problems, international ethics. Concurrently scheduled with course C249. Letter grading.

M127. Understanding Public Issue Life Cycle. (4) (Same as Political Science M142D.) Lecture, three or four hours; discussion, one hour (when scheduled). Recommended preparation: Political Science 10, 40, and one course from Economics 1, 2, 5, 11, 100, or 101. Examination of how public issue life cycle is shaped by whether economic interests; various actors — business, news media, mass public, organized interests, Congress, the president, regulatory agencies, and courts; ideology, cognitive biases, and ethical reasoning. Letter grading.

141. Employment and Labor Policy: Survey. (4) Lecture, three hours; outside study, nine hours. Required: course 10A. Introduction to current public policy issues in employment, labor relations, and labor markets. Historical context for current employment and labor policies in the U.S. Pro and con philosophical analysis of reasons for government regulation. Analysis of current data on employment, labor relations, and labor market trends. Workforce diversity, education and training, social welfare policy, and global issues (immigration, trade, and global economy as it affects the workforce). Future trends and issues on policy horizon. Letter grading.

C142. Labor Markets and Public Policy. (4) Lecture, three hours; outside study, nine hours. Highly recommended preparation: prior microeconomics course. Survey of major microeconomic analysis of labor markets and public policies toward labor market. Topics include labor force trends and measurement, compensation determination, productivity, internal labor markets, human capital effects, unemployment, and minority and female labor-market experience. Concurrently scheduled with course CM230. Letter grading.

C144. Comparative Industrial Relations. (4) Lecture, three hours; outside study, nine hours. Required: course 10A. Introduction to current public policy issues in employment, labor relations, and labor markets. Historical context for current employment and labor policies in the U.S. Pro and con philosophical analysis of reasons for government regulation. Analysis of current data on employment, labor relations, and labor market trends. Workforce diversity, education and training, social welfare policy, and global issues (immigration, trade, and global economy as it affects the workforce). Future trends and issues on policy horizon. Letter grading.

145. Labor Policies in the U.S.: Historical Perspective. (4) Lecture, three hours; outside study, nine hours. Required: course 10A. Insight into evolution of labor policies in the U.S. from 19th century to the present. Exploration of important policy areas such as child labor, labor standards, protective legislation for women workers, industrial relations, civil rights, occupational safety and health, collective labor standards in (1) historical context (economic, political, and social factors that shaped the debate), (2) motivation and action of major players (business, labor, government), and (3) changing patterns of government involvement in public policy. Letter grading.
146. Democracy, Disobedience, and Dissent. (4) Lecture, three hours; outside study, nine hours. Requi- sites: Philosophy 6 or Political Science 10. Theories of political and legal obligation and their critics; justified disobedience in response to inequality, injustice, and social exclusion; moral and religious pluralism as argu- ment for both obedience and dissent. Letter grading.

147. Critical Management in Globalizing Worlds. (4) Lecture, three hours; outside study, nine hours. To enable students to (1) think of world in dynamic terms, (2) be able to map, divide, and assemble things in many different ways, and (3) be able to articulate patterns of flux, change, and movement in world space and history. Concurrently scheduled with course C245. Letter grading.

148. Business and Public Policy. (4) Lecture, three hours; outside study, nine hours. Requisite: course 10A. Introduction to key issues arising at inter- face between business and government policy. Discussion of why government focuses so intensively on regulating economic and legal behavior and their critics; justified disobedience in response to inequality, injustice, and social exclusion; moral and religious pluralism as argu- ment for both obedience and dissent. Letter grading.

191D. Variable Topics Research Seminars: Public Policy. (1) Seminar, one hour. Examination of partic- ular subfields of policy studies (e.g., international policy, crime policy, policy history) in depth, with specific topics to be identified by instructor. Reading, discus- sion, and development of culminating project. Must be taken for credit if applied toward Public Affairs minor. May be repeated for credit with topic change. P/NP or letter grading.

193A. Marshak Colloquium: Social Sciences. (2) Seminar, two hours. Limited to undergraduate stu- dents. Attendance at biweekly Marshak Colloquium presentations, highly regarded and long-standing in- terdisciplinary lecture series given by leading social science experts, required. Discussion of lecture topics and research models in behavioral sciences. Letter grading.

197. Individual Studies in Public Policy. (2 or 4) Formerly numbered 199T. Tutorial, four hours. Prepa- ration: 3.0 grade-point average. Limited to juniors/se- niors. Individual intensive study, with scheduled meet- ings to be arranged between faculty member and stu- dent. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

201. Principles of Microeconomic Theory I. (4) Lecture, three hours; outside study, nine hours. First course in two-term sequence (see course 202) to pre- pare students for economic analysis of public policy, with review of economic principles and basic microeco- nomic theory and policy applications. Consumer theory and demand, producer theory and supply, equi- librium of product and factor markets. Letter grading.

202. American Political Institutions and Process- es. (4) Lecture, three hours; outside study, nine hours. Designed to provide background necessary to develop strategies for dealing effectively with political environment of policy and administration. Discussion of U.S. constitutional arrangements, followed by in- stitutional and integrative examination of primary in- stitutions of politics and governance from organized interest groups to legislatures, bureaucracies, and courts. Letter grading.

M218. Research Design and Methods for Social Policy. (4) (Same as Urban Planning M204.) Lecture, three hours; outside study, nine hours. Limited to graduate students. How to become more sophisticated consumers and producers of qualitative and quantitative policy research. In first half of course, formal principles of research design; in second half, various data collection methods, including ethnography, interviewing, and survey design. Letter grading.

M220. Transportation, Land Use, and Urban Form. (4) (Same as Urban Planning M254.) Lecture, three hours. Historical evolution of urban form and transportation systems, intrametropolitan location theory, current trends in urban form, spatial mismatch hypothesis, jobs/housing balance, transportation in strong central city and polycentric city, neotraditional town planning debate, planning and form. Letter grading.

M221. Travel Behavior Analysis. (4) (Same as Urban Planning M256.) Lecture, three hours. Requisites: courses 201 and 203, or Urban Planning 207 and 2208. Descriptions of travel patterns in metropolitan areas, regional systems, and transportation planning process; overview of travel forecasting methods, trip generation, trip distribution, mode split transport assignment, critique of traditional travel forecasting methods and new approaches to travel behavior analysis. Letter grading.

M222. Transportation Economics, Finance, and Policy. (4) (Same as Urban Planning M257.) Lecture, three hours. Overview of transportation finance and economics: concepts of efficiency and equity in transport finance; historical evolution of highway and transit finance; current issues in highway finance; private participation in road finance, toll roads, road costs and cost allocation, truck charges, congestion pricing; current issues in transit finance; transit fare and subsidy policies, contracting and privatization of transit services. Letter grading.

M223. Transportation and Environmental Issues. (4) (Same as Urban Planning M258A.) Lecture, three hours. Regulatory structure linking transportation, air quality, and energy issues, chemistry of air pollution, overview of transportation-related approaches to air quality control, regulation of toxic emissions, air pollution vehicle inspection and maintenance issues; transportation demand management and transportation control measures; alternative fuels and electric vehicles; corporate average fuel economy and global warming issues; growth of automobile worldwide fleet; automobile in sustainability debate. Letter grading.

M224A. Introduction to Geographic Information Systems. (4) (Same as Urban Planning M258A.) Lecture, three hours; laboratory, one hour. Preparatory: one graduate-level statistics course, familiarity with one packaged statistics program. Principles of Geographic Information Systems (GIS) and applied techniques using spatial data for mapping and analysis. Topics include data quality, data manipulation, spatial analysis, and information systems. Use of mapping and spatial analysis to address planning problem. Letter grading.

M224B. Advanced Geographic Information Systems. (4) (Same as Urban Planning M206B.) Lecture, four hours; laboratory, four hours. Requisites: course M224A or Urban Planning M206A. Principles and skills of geographic analysis and modeling; managing, processing, and interpreting spatial data. Especially useful for students interested in environmental, demographic, and transportation-related research. Scripts (Avenue), modeling (Spatial Analyst), network analysis, and transportation modeling (TransCAD). Letter grading.

M225. Education Policy and Education Inequality. (4) (Formerly numbered C225.) Seminar, three hours; outside study, nine hours. Limited to graduate students. Examination of policies that may reduce socioeconomic and ethnic disparities in educational success. Topics include international and national comparisons of educational outcomes, private and public school funding, school choice policies and programs, desegregation, and the role of the courts in education. Letter grading.

M226. Management Challenges and Tools for Nonprofit Sector. (4) (Same as Social Welfare M290V and Urban Planning M286.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Nonprofit sector is growing rapidly, and successful management in nonprofit sector is critical. Students develop management skills in strategic thinking/problem solving, project management, team building, and negotiation. Use of case studies to test theoretical critical challenges, from finance to crisis management to marketing, that nonprofit managers typically face. Letter grading.

M227. Nonprofit Sector, State and Civil Society. (4) (Same as Social Welfare M250S and Urban Planning M287.) Lecture, three hours; outside study, nine hours. Use of political economy perspective to analyze forces that have shaped rise and characteristics of nonprofit sector. Use elements of examination of social history of nonprofit sector in U.S. Exploration of legal and policy environments and distinct organizational forms. Comparative perspective between U.S. and other countries. S/U or letter grading.

M228. Leadership, Development, and Governance of Nonprofit Organizations. (4) (Same as Social Welfare M241E and Urban Planning M288.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Various patterns of community action for attaining social welfare objectives; research and field experience toward study of social problems within nonprofit community planning; emerging patterns of physical, economic, and social planning within framework of social change theory. Letter grading.

CM230. Labor Markets and Public Policy. (4) (Same as Management M250G.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Survey of major topics in economic analysis of labor markets and public policies toward labor market. Topics include labor force trends and measurement, compensation determination, productivity, internal labor markets, human capital, unemployment, and minority and female labor-market experience. S/U or letter grading.

CM231. Comparative Industrial Relations. (4) (Same as Management M255.) Lecture, three hours; outside study, nine hours. Prequisite: Management 409 or elementary knowledge of labor economics. At national and international levels, historical and contemporary analytical comparison of political, social, and economic contexts influencing human resource systems of selected developed countries. In addition to discussing possible frameworks for analyzing human resource systems, examination of institutions and ideologies of labor, management, and government, and interaction of their power relationships: substance and manner of determination of “web of rules” governing rights and obligations of the parties; and resolution of conflicts. Concurrently scheduled with course C142. S/U or letter grading.

233. Employment Issues in California. (4) Lecture, three hours; outside study, nine hours. Designed for graduate students. Drawing on resources of UCLA Business Forecasting Project, introduction to general features of California labor market, analysis of employment fluctuations and forecasting techniques including linkages between employment fluctuations in California and elsewhere in the country, and social issues related to labor market. Letter grading.

M234. Labor Markets and Social Policy. (4) Lecture, three hours; outside study, nine hours. Examination of analysis skills and knowledge needed to understand policies directed toward people in lower tail of income distribution. Concepts include static and dynamic labor supply, labor demand, compensating differentials, human capital, and economic models of immigration and crime. Letter grading.

CM235. Drug Abuse Control Policy. (4) Lecture, three hours; outside study, nine hours. Introduction to drug abuse as social problem and to drug abuse control as policy issue, with emphasis on necessity and difficulty of making and executing wise policies around psychoactive substances. Concurrently scheduled with course C101. Letter grading.

237. Ethical Questions in Public Life. (4) Lecture, three hours; outside study, nine hours. Introduction to moral issues that commonly arise in public life. Ethics of political roles, compromise and moral integrity, lying and deception, place of rhetoric in defending stand points, issues, politics and violence. Letter grading.

238. Issues in Cultural Policy. (4) Seminar, three hours; outside study, nine hours. Designed for graduate students. Survey of role of policy in shaping forms and meanings of cultural artifacts in contemporary society. Overview of relevant theories of culture and their ramifications in such phenomena as consciousness, ideology, and identity. Empirical examination of how policymakers have said and done about promotion of culture in interests of various social goals. Contemporary trend of economic and cultural intersecting to be subject for trend analysis. Examination of globalization and national cultural interests in depth. General debate about logic and meaning of cultural politics in contemporary society and their consequences for trajectories of cultural policy at local, national, and international levels. Letter grading.

C239. Budget Politics, Social Policy, and Entitlement Reform. (4) Lecture, three hours; outside study, nine hours. Examination of politics of public budgeting in the U.S., with emphasis on financing of social safety net and reappropriation of public sector resources both for gaining substantive knowledge about how government really works and for developing political skills required to influence resource allocation decisions. Concurrently scheduled with course C124. Letter grading.

M240. Theories of Regional Economic Development. (4) (Same as Urban Planning M236A.) Lecture, three hours; discussion, one hour. Introduction to theories of location of economic activity, trade, and other forms of contact between regions, process of regional growth and decline, reasons for different levels of economic development, relations between more and less developed regions. Letter grading.

M241. Introduction to Regional Planning. (4) (Same as Urban Planning M230.) Lecture, three hours. Critical and historical survey of evolution of regional planning theory and practice, with particular emphasis on relations between regional planning and developments within Western social and political philosophy. Major concepts include regions and regionalism, territorial community, and social production of space. Letter grading.

242. Regional Development, Urbanization, and Industrial Policy. (4) Lecture, three hours; outside study, nine hours. Survey of regional development, with special emphasis on the “new introduction to geography” and its relevance for formulation of local economic development policies. Letter grading.
M243. Community Development and Housing Policies: Roles of State, Civil Society, and Nonprofits. (4) (Same as Social Welfare M239U and Urban Planning M257.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Examination of role of U.S. housing policy and role of government agencies and community organizations. Is problem housing or economic development? Should interventions be directed toward inner city housing markets or through neighborhood strategies? What lessons can be learned from experiences of other countries? Letter grading.

M244. Transportation Planning. (4) (Same as Urban Planning M255.) Lecture, three hours. Examination of how planners analyze, manage, and operate transportation systems. Measuring system performance, intelligent transportation systems, transportation system demand management, parking management, freight movement and facilities, public transit evaluation and management, paratransit, bicycle and pedestrian planning, transportation for elderly and disabled. Letter grading.

C245. Critical Policy Issues and Problems in Globalizing World. (4) Lecture, three hours; outside study, nine hours. Designed for graduate students. Questions to (1) think of world in dynamic terms, (2) be able to map, divide, and assemble world in many different ways, and (3) be able to articulate patterns of flux, change, and movement in world history. Concurrently scheduled with course C147. Letter grading.

M246. Electoral Democracy: Theory and Behavior. (4) (Same as Political Science M268B.) Seminar, three hours. Examination of both empirical and normative aspects of American elections. Technical processes of problem solving are the focus of the course. Letter grading.

M247. Strategic Planning for Public and Nonprofit Organizations. (4) (Same as Social Welfare M241F and Urban Planning M250.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Technical processes of problem solving regarding substantive social welfare problems at community level. This form of community practice fills niche between professional and knowledge and skill set possessed by agency and program administrators on one hand and by policy analysts and policymakers on other. Letter grading.

M248. Tolerance, Pluralism, and Diversity. (4) (Same as Political Science M216.) Seminar, three hours. Prior experience in political or legal theory helpful. Exploration of both abstract concepts of tolerance and contemporary disputes. S/U or letter grading.

C249. Political Ethics. (4) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for graduate students. Consideration of topics fundamental to both democratic theory and study of American politics — public opinion; nature and purpose of elections; representation; parties; and purpose of democracy as whole — through both classic political theory treatments and modern research in American political behavior. Letter grading.

251. Public Budgeting and Finance. (4) Lecture, three hours; outside study, nine hours. Limited to graduate students. Resources are allocated through budget processes at federal, state, and local levels of government in the U.S. and how each level of government finances its operations and capital investment programs, with particular attention to California. Students are organized into small groups to facilitate review of assigned readings and to report key information to class. Based on assigned readings, development of budget strategy must outline best practices budget strategies to use in various resource availability contexts. Letter grading.

M256. Advanced Topics in Health Economics. (4) (Same as Health Services M249E.) Seminar, four hours. Required: Health Services 200A, 200B, 236. Advanced treatment of number of topics in health economics, including mental health economics, pharmaceutical economics, and relationship between labor supply, welfare, and health. Letter grading.

M257. Medicare Reform. (4) (Same as Health Services M252.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Analytical and managerial skills learned earlier to be used to analyze problems of existing medicare program and to develop specific options for reforming features of program to accommodate coming pressures generated by retirement of baby-boom generation. Letter grading.

M258. Microeconomics of Health Sector. (4) (Same as Health Services M236.) Lecture, four hours; discussion, two hours. Preparation: intermediate microeconomics. Requisite: Biostatistics 100A. Microeconomic aspects of healthcare system, including health manpower substitution, choice of efficient modes of treatment, market efficiency, and competition. Letter grading.

M259. Healthcare Policy and Finance. (4) (Same as Health Services M268B.) Seminar, three hours; outside study, nine hours. Exploration of demand for health insurance, policies for public insurance (Medicaid and Medicare), uninsured, and health insurance reform. Examination of effects of managed care on health and costs, consumer protection movement, and rise of competitive healthcare markets. Letter grading.

271. Urban Poverty, Workforce Development, and Public Policy. (4) Lecture, three hours; outside study, nine hours. Limited to graduate students. Examination of how urban labor markets function, particularly low-skill labor markets, and exploration of how public and private interventions affect outcomes for disadvantaged populations. Course major theories of low-skill workers’ labor market problems in employment and wages; in second half, employment and training programs, policy initiatives and implementation, and new directions in workforce development. Letter grading.

C272. Crisis Decision Making in U.S. Foreign Policy. (4) Lecture, three or four hours; discussion, one hour (when scheduled). In-depth look at theory and practice of U.S. foreign policy-making. Assessment of competing theories of international relations and application to specific case studies. Weekly role plays of foreign policymakers and final crisis simulation exercise. Concurrently scheduled with course C101. Letter grading.

M273. Building Stronger Communities for Los Angeles. (4) (Same as Community Health Sciences M279.) Lecture, four hours. Designed for graduate students. Introductory survey course on family-centered community building (FCCB) to introduce graduate students as well as community practitioners to range of topics, issues, and frameworks to help build stronger, more cohesive, and family-centered communities. Letter grading.

C274. U.S. National Security Policy. (4) Lecture, three hours; outside study, nine hours. Limited to graduate students. Examination of contemporary U.S. national security challenges and how policymakers develop strategies to address them. Exploration of Cold War legacy, development of American national security strategic doctrine, and U.S. foreign policy-making processes from 1945 to present. In-depth look at major case studies of current challenges and hones student analytic skills to examine these challenges from strategic policy perspective. Concurrently scheduled with course CM123. Letter grading.

M280A. Research and Development Policy. (4) (Same as Management M289A.) Lecture, three hours. Examination of research and development as processes of building human and social capital. Factors affecting invention and innovation; transfer of technology; organizational and behavioral considerations; coupling of science, technology, and organizational goals; assessing of and forecasting technological futures. S/U or letter grading.

M280B. Growth, Science, and Technology. (4) (Same as Management M289B.) Lecture, three hours. Economic growth and change. Role of advances in science and technology, and actions of maximizing innovators and factors impinging on their behavior. How technological breakthroughs (or discontinuities) can form new industries or transform nature of and population of firms in existing industries. S/U or letter grading.

290. Special Topics in Public Policy. (4) Discussion, three hours. Advanced seminar on emerging issues in public policy. May be repeated for credit. Letter grading.

291. Methods of Policy Analysis. (4) Lecture, three hours; outside study, nine hours. Designed for graduate students. Techniques of policy analysis with applications: benefit and cost; optimization and constraint; risk, risk aversion, risk spreading; tax incidence, incentive effects, and deadweight loss; strategic interactions (games and negotiations). Emphasis on concepts rather than computation. Selection of cases as follow-up to requisite courses. Application of statistical tools in conduct of analysis and evaluations of public policy initiatives and policy-relevant issues. Letter grading.

M293. Privatization, Regulation, and Public Finance. (4) (Same as Urban Planning M243.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Courses provide set of tools that can be used to analyze pressing policy questions in field of education and some substantive background in public issues of the day. Letter grading.

Scope and Objectives

The Department of Radiation Oncology includes clinical divisions at the UCLA Medical Plaza and Reagan UCLA Medical Center, West Los Angeles VA Medical Center, and divisions of experimental radiation biology and medical radiation physics. Research and teaching facilities are available at the UCLA Medical Plaza, Reagan UCLA Medical Center, and West Los Angeles VA Medical Center.

The primary clinical mission of the department is the management of patients who have cancer. The purpose of using radiation therapy, rather than or in addition to surgery, is to preserve function and/or cosmesis while eliminating the cancer. Other activities include total body irradiation before bone marrow transplantation and stereotactic radiosurgery for A-V malformations, meningiomas, and malignant intracranial lesions. Research interests include clinical trials, radiation biology, radiation modifiers, molecular biology, immunology, and applied physics. Knowledge of the disease in question, the comparative efficacy of radiation therapy and other methods, radiation biology and pathophysiology, and the physical characteristics of various radiations is essential.

The educational programs serve medical, dental, basic science (biology and physics), nursing, and radiation therapy students, and community and postgraduate physicians; there also is a four-year program for residents who are qualifying for certification in radiation oncology by the American Board ofRadiology.

For further details on the Department of Radiation Oncology and a listing of the courses offered, see http://www.radonc.ucla.edu.

Scope and Objectives

The undergraduate major in the Study of Religion equips students to understand and compare creatively the worldwide varieties of core convictions, stories, texts, rituals, and practices known collectively as religion. Students complete courses in at least six departments in which religious phenomena are analyzed, including Anthropology, Asian Languages and Cultures, Classics, English, History, Near Eastern Languages and Cultures, Philosophy, Political Science, and World Arts and Cultures. Students can anticipate gaining versatile intellectual tools for approaching, analyzing, and racic, musculoskeletal, gastrointestinal, genitourinary, cardiac, neuroradiology, mammography, pediatrics, emergency radiology, computed tomography, magnetic resonance imaging, ultrasound, and interventional radiology are provided. Students acquire interpretative skills by didactic instruction and interactive teaching sessions and through the use of Web-based teaching materials. A longitudinal core clerkship is offered during the third year, with a comprehensive examination.

Religion, Study of / 547

Scope and Objectives

The undergraduate major in the Study of Religion equips students to understand and compare creatively the worldwide varieties of core convictions, stories, texts, rituals, and practices known collectively as religion. Students complete courses in at least six departments in which religious phenomena are analyzed, including Anthropology, Asian Languages and Cultures, Classics, English, History, Near Eastern Languages and Cultures, Philosophy, Political Science, and World Arts and Cultures. Students can anticipate gaining versatile intellectual tools for approaching, analyzing, and
appreciating the deep roots, human motivations, and history of the formation of religious traditions in their respective cultural contexts. Within this interdepartmental program, students may focus in depth on one or more specific religions. Many students select this major in combination with a second major field, a minor, or related language study.

Undergraduate Study

Study of Religion B.A.

Preparation for the Major

Required: History 4; Philosophy 2; two courses from Anthropology 9, Asian 60, History 1A, 1B, 1C, 9A, 9C, 9D, 10A, 10B, 11A, 11B.

Transfer Students

Transfer applicants to the Study of Religion major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one history of religions course, one philosophy of religion course, and two courses from sociocultural anthropology, Buddhism, history of Western civilization, Asian civilizations, civilizations of Africa, and history of China.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

Required: A minimum of 14 upper division courses from the list below, of which at least four (including Study of Religion 100 and Philosophy 175) must be from Group I, at least two must be from each of Groups II and IV, and at least three must be from Group III (at least one on each of the three religious traditions listed). No more than five of the 14 may be from any one group. A course may be taken twice, on different topics, for credit toward the major where repetition is allowed by the department offering the course. Variable topics courses not listed below (e.g., History 191) may be approved by the adviser as satisfying requirements for which their content is appropriate. A maximum of two upper division courses, not listed below, in an ancient language relevant to the course of study may be applied toward the major requirements (but not the group requirements) with consent of the adviser.

Special studies courses (197 and 199) may be applied toward the major but not toward a group requirement; a maximum of 12 units, approved by the adviser, may be applied. No course for the major or preparation for the major may be taken on a P/NP grading basis.

Approved courses (courses marked with an asterisk have readings in foreign languages; see departmental course listings for requisites):

Group I — Methods: Anthropology 130, 156, History 186C, Philosophy 175, Study of Religion 100, 110, 120, Theater 101A

Honors Program

The honors program provides exceptional students with an opportunity to do independent research under the tutorial guidance of a faculty member. Students admitted to honors should take three 199 courses under the guidance of the sponsoring professor. The first 199 course should be taken in Spring Quarter of the junior year, the second during the following Fall Quarter, and the third during Winter Quarter of the senior year. The three courses count as part of the regular requirement of 14 upper division courses. The program culminates in an honors thesis.

To qualify for admission students should have a minimum grade-point average of 3.4. The 199 courses designed for the program and the thesis topic should be approved by the committee in charge of the major.

For further information, contact Professor S. Scott Bartych at the program address.

Study of Religion

Upper Division Courses

100. Undergraduate Seminar: Study of Religion. (4) Limited to 20 students. Interdisciplinary approach to some major topics in study of religion, such as religion and politics, mysticism, ideas of revelation, myth and religious worship and ritual. May be repeated for credit with consent of instructor.

110. Religion and Violence. (4) Seminar, three hours; discussion, one hour. Exploration of capacity of religion to mobilize and legitimate violence. Materials include theoretical texts by Rene Girard, Walter Burkert, Jonathan Z. Smith, and David Rapoport and case studies dealing with religion and violence in India, Northern Ireland, Egypt, Lebanon, Israel, Palestine, Sri Lanka, and the U.S. Letter grading.

120. Abrahamic Religions: Traditions in Tension. (4) Seminar, three hours. Examination of Abrahamic tradition as received and developed by Jews, Christians, and Muslims according to rubrics of linkage and interaction, with view both to potential clashes in the 21st century and to resources inherent in these traditions for heading off such clashes and misunderstandings. Letter grading.

199. Directed Research in Study of Religion. (2 to 4) Tutorial, one hour. Limited to juniors/seniors. Supervised individual research under guidance of faculty mentor. Culminating paper or project required. Twelve units may be applied toward major. Individual contract required. Letter grading.

Edward F. Tuttle, Ph.D. (Italian)

Scope and Objectives

The Romance Linguistics and Literature Program emphasizes modern linguistic and literary theories in the study of Romance languages. Linguistic and literary theories can be pursued independently or jointly; however, the integration of linguistic and literary knowledge is taken to be one of the highest aims of this interdepartmental graduate program.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnmc.ucla.edu/gasaal/library/pgmgradintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Romance Linguistics and Literature Program offers Master of Arts (M.A.) and Doctor of
ROTC Program – Aerospace Studies

Undergraduate Study
Four-Year Program

The four-year program is available to first-term freshmen and those full-time students with at least three and one half years of undergraduate and/or graduate study remaining and consists of an initial two-year General Military Course, or GMC (Aerospace Studies 1A, 1B, 1C, 2A, 2B, and 2C), followed by a two-year Professional Officer Course (POC) described under Two-Year Program. GMC participation requires one hour of academic class and two hours of leadership laboratory each week during the academic year. Students incur no military obligation for GMC participation unless they qualify and accept an Air Force ROTC Scholarship during or after their sophomore year.

Students who complete GMC and wish to enter POC attend a four-week field training course the summer following GMC completion. At field training, students are provided meals, quarters, clothing, and travel and incidental expenses. Subjects covered at field training include junior officer training, aircraft and aircrew orientation, career orientation, survival training, base functions, Air Force environment, and physical training.

Two-Year Program

The two-year program is known as the Professional Officer Course (POC) and consists of Aerospace Studies 130A, 130B, 130C, 140A, 140B, and 140C. POC participation requires three hours of leadership laboratory and three hours of academic class each week during the academic year. Requisites for the two-year program are successful completion of the GMC and a four-week field training course (see Four-Year Program above), or successful completion of a six-week field training program on an Air Force base during the summer preceding enrollment in the program.

Students interested in the six-week field training program must apply to the department chair early during Fall Quarter of their sophomore year. U.S. citizenship is required. There is no obligation to apply. Students are selected on a competitive basis with consideration given to academic major, grade-point average, aptitude examination scores, performance during an officer board interview, and a physical fitness test.

Students selected for the six-week summer field training are provided meals, quarters, clothing, and travel and incidental expenses. Subjects are the same as those in the four-week course plus the academic portion of the GMC (see Four-Year Program above).

Students enrolled in the POC incur a military obligation and are paid from $450 to $500 per month during the academic year. Additionally, they may compete for a scholarship up to full tuition, fees, and $750 for textbooks. Gradua-
tion and successful completion of the POC leads to a commission as a second lieutenant. Cadets then report to one of the challenging assignments in the Air Force.

Aerospace Studies

Lower Division Courses

Freshmen-Year Courses

Z. Leadership Laboratory. (No credit) Laboratory, three hours. Mandatory and limited to Air Force ROTC cadets. Provides cadets with practical command and staff leadership experiences through performance of various tasks within framework of organized cadet corps. As integral part of aerospace studies curriculum, provides experiences designed to develop leadership potential and serves as orientation to active duty. No grading.

1A-1B-1C. Fundamentals of U.S. Air Force. (2-2-2) Lecture, one hour. Survey course designed to introduce students to U.S. Air Force and Air Force Reserve Officers' Training Corps. Topics include mission and organization of the Air Force, officer and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and introduction to communication skills. P/NP or letter grading.

Sophomore-Year Courses

20A-20B-20C. Evolution of U.S. Air Force Air and Space Power. (2-2-2) Lecture, one hour. Historical survey of air and space power designed to motivate students to transition from Air Force ROTC cadet to officer candidate. Featured topics include Air Force heritage and leaders; introduction to air and space power through examination of competencies, functions, and doctrines; and continued application of communication skills. P/NP or letter grading.

Upper Division Courses

130A-130B-130C. Air Force Leadership Studies. (4-4-4) Lecture, three hours. Requisites: courses 1A, 1B, 1C, 20A, 20B, 20C. Study of leadership and quality management in modern organizations, professional knowledge, Air Force doctrine, leadership ethics, and communication skills required of Air Force junior officers. Use of case studies to examine Air Force leadership and management competencies, as means of demonstrating and exercising practical application of concepts being studied. P/NP or letter grading.

140A-140B-140C. National Security Affairs/Preparation for Active Duty. (4-4-4) Lecture, three hours. Requisites: courses 1A, 1B, 1C, 20A, 20B, 20C. Study of national security processes, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics focus on military as profession, officer, military justice, civilian control of military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis on refining communication skills. P/NP or letter grading.

197. Individual Studies in Aerospace Studies. (2 or 4) Tutorial, three hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Adjunct Assistant Professors
Jason J. Choi, B.S., Captain
Eric C. Cortes, B.S., Major
Donald H. Hong, M.S., Captain
Brian M. McDermott, B.S., Captain
Casey J. Miner, M.A., Captain
George E. Zuniga, B.S., Captain

Scope and Objectives

In accordance with the National Defense Act of 1920 and with the concurrence of The Regents of the University, a unit of the Army Senior Division Reserve Officers’ Training Corps (ROTC) was established on the Los Angeles campus of the University in July 1920. Navy and Air Force units were established in 1936 and 1949, respectively.

This voluntary training allows students to qualify for an officer’s commission in the Army, Navy/Marine Corps, or Air Force while completing their college education. The ROTC curriculum is not considered academic majors, but ROTC courses may be taken as free electives and applied toward the total course requirements of a major. The ROTC program is also available through UCLA Extension.

All three ROTC departments offer voluntary four-year programs for incoming freshmen and two-year programs for current and transfer students. The Army also offers a three-year program for students who apply before the end of their freshman year. All have leadership laboratories that teach leadership and management skills.

All commissions are reserve commissions. Active duty obligation following commissioning varies depending on branch of service and designated career field or occupational specialty. The Army offers both active- and reserve-duty opportunities directly after commissioning.

Scholarships

ROTC Scholarships are awarded on a competitive basis to U.S. citizens regardless of parents’ income. Scholarships provide full tuition or housing (on or off campus) up to $10,000, a $900 allowance for books and fees, and a tax-free monetary allowance between $300 and $500 per month during the academic year. Applications for four-year scholarships may be obtained at http://www.army.ucla.edu, by calling (310) 825-7381, or by e-mail to armyrotc@milsci.ucla.edu. Completed four-year applications should be submitted by December 31 of the year preceding college matriculation. Two- and three-year scholarship applications may be obtained from the UCLA Military Science Department and are considered when received.

Army ROTC Program

Army ROTC is a program that enables students to become officers in the U.S. Army, Army Reserves, or Army National Guard while earning a college degree. The curriculum supplements students’ academic majors by offering elective courses ranging from leadership and management to military law. Courses are augmented with leadership laboratories that stress practical skills such as first aid, land navigation, survival techniques, rappelling, military tactics, and scenario-driven leadership reaction courses. Non-ROTC students may enroll in many of the military science courses without enrolling in the ROTC program.

Additionally, students who decide to become Army officers can receive summer training in military parachuting (Airborne School at Fort Benning, GA), helicopter operations that include rappelling from a hovering helicopter (Air Assault School in Hawaii), and mountaineering operations (Northern Warfare School in Alaska).

Scholarships are available for two, three, and four years of academic study and are awarded on a competitive basis. Army Scholarships pay for full tuition and mandatory fees or housing, up to $10,000, and provide a tiered stipend ranging from $3,000 to $5,000 per year and a $900 book allowance. Nonscholarship, contracted ROTC cadets also receive the tiered stipend of $3,000 to $5,000 per year. Students in the program also compete for over $35,000 in merit-based scholarships provided annually by various private organizations that support the Army ROTC program. Additionally, students may work part-time as officer trainees in local Army Reserves or National Guard units through the simultaneous membership program (SMP). Contracted students can fly free on military aircraft within the continental U.S. on a space-available basis.

Students may select a branch of the Army in which to be commissioned from 16 specialty fields, including military intelligence, aviation, signal communications, finance, logistics, nursing, and engineering. Prior to completion of the ROTC program, students may request to go on active duty or serve part-time in the Army Reserves or National Guard.

Undergraduate Study

Students aspiring to become Army officers follow prescribed course sequences with the Military Science Department and a physical fitness program. Generally, the courses consist of one 2- to 4-unit course per term and physical fitness sessions one to three times per
week, depending on the participation-level requirements.

The military science curriculum is divided into two parts: (1) the Basic Course, two years of lower division study during which students must complete six military science courses and (2) the Advanced Course, two years of upper division study consisting of six military science courses, one military history course, and a five-week summer camp.

Army ROTC students must satisfy the military history requirement by completing Military Science 110 or another history course approved by the chair. Transfer students and others who were unable to enroll in the Basic Course can receive equivalent credit in several different ways (see Two-Year Program below).

Admission to the Advanced Course is limited to selected students who meet all academic and physical requirements. Students in this course receive a subsistence allowance between $450 and $500 a month for 10 months during each of the two academic years, plus military science uniforms. After completion of the Advanced Course and graduation, students have the opportunity to be commissioned as second lieutenants in one of the Army’s 16 specialty areas in either the Army National Guard, Reserves, or Active Army. Students’ preferences are a major factor in determining which specialty is awarded.

Students selected for Advanced ROTC must attend a five-week leadership development and assessment course between their Military Science III and IV years. Cadets receive an allowance for travel expenses and are paid for attendance.

The active duty obligation for those students selected to enter the Reserves or National Guard is for initial training, and only for a period of several months. The active duty obligation for those students commissioned into the Active Army is three years. Students who accept ROTC scholarships and enter the Active Army serve one additional year. ROTC students wishing to obtain certain advanced degrees may be granted a delay in reporting to their initial assignment.

Four-Year Program

Students are enrolled in the Basic Course (freshman and sophomore years) on a voluntary basis. After completion of the Basic Course and before entrance into the Advanced Course (junior and senior years), students are required to execute a contract with the Department of the Army agreeing to complete the Advanced Course and accept a commission if offered.

Two-Year Program

The two-year program is designed for students who receive placement credit for two years of ROTC and directly enter the Advanced Course. Placement credit may be given for completing three years of high school Junior ROTC, attending a paid ROTC Leaders’ Training Course, membership in the Army Reserves or National Guard, completing two years of college-level Air Force or Navy ROTC, or previous active duty military service. The Army also allows enrollment in the two-year program while students attend graduate school.

Commissioning

Successful completion of the Advanced Course program and a bachelor’s degree may lead to a commission as a second lieutenant in the Army Reserves, National Guard, or Active Army.

Military Science

Lower Division Courses

2. Leadership Laboratory. (No credit) Laboratory, three hours (lower division cadets) or four hours (upper division cadets). All cadets must be concurrently enrolled in a military science course; upper division cadets must also be under a contractual obligation with department. Designed to allow cadets to apply leadership techniques and military skills taught in classroom and to develop their confidence as future military officers.

11. Foundations of Officership. (2) Lecture, one hour. Introduction to issues and competencies that are central to commissioned officer’s responsibilities. Framework established to understand officership, leadership, military customs, briefings, and life skills such as physical fitness, nutrition, and time management. P/NP or letter grading.

12. Basic Military Leadership. (2) Lecture, one hour. Introduction to fundamentals of leadership, Army leadership values, ethics, and counseling techniques. Foundation of basic leadership fundamentals central to commissioned officer’s responsibilities established. P/NP or letter grading.

14. Principles of Land Navigation Applicable in Maneuver. (2) Lecture, one hour; discussion, one hour. Introduction to topographic maps and aerial photographs and their relation to land navigation; conceptual linkage to basic military tactics. Topics include map coordinate systems, scale and distance relationships, intersection and resection, photo interpretation, squad and platoon operations, and resource planning techniques. Introduction to new technologies, including Global Positioning Systems (GPS).

18. Modern Guerrilla Warfare. (2) Lecture, one hour; discussion, one hour. Limited to undergraduate students. Introduction to low intensity conflict and guerrilla strategies, explanation/discussion of political, economic, religious, and social factors contributing to civil unrest and/or insurrections. Topics include non-military responses, military tactics, interrelationship of military and government, psychological warfare, and civic actions.

21. Individual Leadership Development. (3) Lecture, two hours. Introduction to various individual leadership personality types, in combined lecture, discussion, and experiential learning, to assist students in development of their own individual leadership style. Additional emphasis on military factors and principles of leadership, goal setting, basic communication, and consideration of others. P/NP or letter grading.

22. Leadership Development and Military Planning. (3) Lecture, two hours. Discussion of various methods of communication, planning, and decision making, through combined lecture, discussion, and experiential learning, with focus on written communication and group communication essential for leadership development. Introduction to and application of military planning process in developing operations orders. P/NP or letter grading.

23. Subordinate Development and Army Organization. (3) Lecture, two hours. Discussion/application of tactics for reasoning, analysis, and subordinate development, through combined lecture, discussion, and experiential learning, with additional focus on commissioned officer, branches, and Army organization. Application of counseling techniques, motivation, and consideration of ethics and values for modern leaders. P/NP or letter grading.

24. Theory of Warfare. (2) Inquiry into theory, nature, causes, and elements of warfare, with attention also to evolution of weapons and warfare.

Upper Division Courses

131. Tactical Planning and Analysis. (4) Lecture, three hours; laboratory, four hours. Introduction to leadership development process used to evaluate military leadership performance. Examination of how to conduct individual and small unit training as well as introduction to basic principles of tactics. Emphasis on study of reasoning skills, leadership development, and military orders process. P/NP or letter grading.

132. Army Officership and Communication. (4) Lecture, three hours; laboratory, four hours. Examination of officership that culminates in detailed case study. Interpersonal communication, with focus on general communication theory as well as written and spoken communication skills. Presentation of information briefing to receive feedback from both instructor and fellow students. P/NP or letter grading.

133. Leadership and Problem Solving. (4) Lecture, three hours; laboratory, four hours. Examination of role communications, values, and ethics play in effective leadership, including ethical decision making, consideration of others, transactional and transformational leadership, and survey of Army leadership doctrine. Emphasis on improving oral and written communication abilities and leadership development and assessment. P/NP or letter grading.

141. Leadership and Management. (4) Lecture, three hours; laboratory, four hours. Interactive course to develop student proficiency in planning and executing complex training operations. Counseling techniques and development of skills needed to lead various organizations. Exploration of training management, leadership skills, and developmental counseling techniques. P/NP or letter grading.

142. Leadership, Ethics, and Military Law. (4) Lecture, three hours; laboratory, four hours. Interactive course to enhance student understanding of organizational culture, leadership, and ethics. Understanding and enhancement of leader-member relations, assessment of organizational culture and ethical climate, and how to effect change in organizations. Exploration of foundations of military law and law of war. P/NP or letter grading.
143. Officership: Professional Military Leadership. (4) Lecture, three hours; laboratory, four hours. Capstone interactive leadership course to prepare students for challenges of being commissioned officers in U.S. Army by discussing various leadership challenges and case studies. Study of military units, with specific emphasis on joint operations involving Army, Navy, Air Force, and Marine Corps assets, military operations other than war, and global war on terror. Other topics include personnel administration, management, and financial planning. P/NP or letter grading.

197. Individual Studies in Military Science. (2 to 4) (Formerly numbered 199.) Tutorial, four hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assignment of reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

ROTC PROGRAM – NAVAL SCIENCE
College of Letters and Science

http://www.navyl.edu

Archibald Morrison, M.S., Colonel, Chair
Professor
Archibald Morrison, M.S., Colonel, U.S. Marine Corps

Adjunct Assistant Professors
Michael T. Brownlie, B.A., Lieutenant, U.S. Navy
Christian E. Esquivel, B.S., Lieutenant, U.S. Navy
Rommel M. Esteves, M.S., Commander, U.S. Navy
Michael C. Palmer, M.A., Major, U.S. Marine Corps

Scope and Objectives
In accordance with the National Defense Act of 1920 and with the concurrence of The Regents of the University, a unit of the Army Senior Division Reserve Officers’ Training Corps (ROTC) was established on the Los Angeles campus of the University in July 1920. Navy and Air Force units were established in 1938 and 1949 respectively.

This voluntary training allows students to qualify for an officer’s commission in the Army, Navy/Marine Corps, or Air Force while completing their college education. The ROTC curricula are not considered academic majors, but ROTC courses may be taken as free electives and applied toward the total course requirements of a major. The Naval Science Department offers a minor in Naval Science. The ROTC program is also available through UCLA Extension.

All three ROTC departments offer voluntary four-year programs for incoming freshmen and two-year programs for current and transfer students. All have leadership laboratories that teach leadership and management skills.

All commissions are reserve commissions. Active duty obligation following commissioning varies depending on branch of service and designated career field or occupational specialty.

Scholarships
ROTC Scholarships are awarded on a competitive basis to U.S. citizens regardless of parents’ income. Scholarships provide tuition, a book allowance, fees, and a tax-free monetary allowance between $250 and $400 per month during the academic year. Applications for scholarships may be obtained at https://www.nrotc.navy.mil or by calling (800) 628-7682. Completed applications should be submitted prior to August 15 for early consideration and no later than December 1 of the year preceding college matriculation. Two-year scholarship applications may be obtained from the UCLA Naval Science Department and are considered when received.

Navy/Marine Corps ROTC Program
The Department of Naval Science provides professional training for students leading to a reserve commission at graduation in the U.S. Navy or Marine Corps. Through the Naval Reserve Officers’ Training Corps (NROTC), scholarship students receive full tuition, fees, books, and subsistence pay of $250 to $400 per month. Non-scholarship students may apply to participate as members of the midshipman battalion under the NROTC College Program and, like NROTC Scholarship students, they also receive a reserve commission at graduation. Because of the rapid development of highly technical ship systems, aviation, and other military equipment, science and engineering majors are highly desirable; however, Navy/Marine Corps Scholarships are currently available to students pursuing any major offered by the University, as long as they agree to complete basic technical requirements. In addition to University requirements, Navy option midshipmen must complete 26 units and Marine Corps option midshipmen 18 units of naval science courses, physical fitness test, and summer training cruises, each about four to six weeks long. Both Navy and Marine Corps option students must also pass a swimming test. The department also conducts a sail training program for all Navy midshipmen. All naval science courses are open to students who are not in the program but have an interest in the Navy/Marine Corps and related fields, such as engineering, navigation and naval operations, history, and management.

Undergraduate Study Scholarship Program
The majority of naval science students attend the University on Navy/Marine Corps Scholarships which are awarded primarily on a four-year basis to high school seniors selected by a nationwide competition. A two-year upper division scholarship program is also available, with a similar selection process, to students who have not yet begun their junior year in college. Applications for both types of scholarships are due by December 1 and March 1, respectively, each year. In addition to tuition, fees, and uniforms, students receive subsistence pay of $250 to $400 per month and a book stipend. Scholarship students are obligated to serve on active duty for a minimum of four years following graduation and commissioning.

College Program (Nonscholarship)
Students attending the University who meet Navy/Marine Corps requirements but who do not have an NROTC Scholarship may enroll in the College Program during their freshman year. These students have the opportunity to compete for scholarships after the completion of one term of naval science courses. If they do not win a scholarship, or choose not to compete for one, they must compete for advanced standing prior to their junior year. A two-year College Program is also available to students who have not yet started their junior year. Students enter the two-year program with advanced standing after selection through national competition and completion of a six-week summer training period. Applications for the two-year program are due March 1 of the sophomore year. All College Program students receive uniforms, naval science textbooks and, once selected for advanced standing, monthly subsistence pay in their junior and senior years. College Program students serve on active duty for a minimum of three years following graduation and commissioning.

Marine Corps Option
Highly motivated NROTC students may request designation as Marine Corps option students and may also pursue any UCLA academic degree. The final summer cruise involves intensive Marine training. Marine Corps option students also participate, on a limited basis, in field training exercises during the academic year.

Naval Science Minor
The Naval Science minor is designed for students who wish to augment the major they are completing in another departmental program. Naval science courses are open to all students with an interest in history, national security, foreign policy, organizational leadership, management, ethics, and the military sciences.

To enter the minor, students must have an overall grade-point average of 2.0 or better. For further information, contact Donna Tenerelli at (310) 825-9075.

Required Lower Division Courses (10 units): Naval Science 1B, 20A, 20B.
Required Upper Division Courses (20 units): Naval Science 101A, 101B, 102B, 103, 104. Each minor course must be taken for a letter grade, with a grade-point average of 2.5 or better in each. Successful completion of the minor is indicated on the transcript and diploma.

Scope and Objectives
Scandinavia consists of five Northern European countries: Denmark, Finland, Iceland, Norway, and Sweden. These countries form a geographic bridge between the American and European continents and a political bridge between Western and Eastern Europe. For all students of literature, language, the arts, and the social and physical sciences, Scandinavia is of particular interest.

The modern Scandinavian program educates students about Scandinavia through the study of its languages and literatures. The Scandinavian Section offers both undergraduate and graduate degrees in the languages and literatures of Denmark, Norway, and Sweden. Danish, Norwegian, and Swedish are mutually understandable languages, giving the student of one access to the literatures and cultures of the other two. Both undergraduate and graduate majors are expected to concentrate on one Scandinavian language, though they study the literatures of the other language areas.

Undergraduate Study
Undergraduate Courses
No credit is allowed for completing a less advanced course after successful completion of a more advanced course in Danish, Norwegian, and Swedish grammar and/or composition. Students with demonstrated preparation may be permitted a more advanced program by the section or may be transferred to a more advanced course with consent of the instructor.

Native speakers of Norwegian, Swedish, and Danish may not enroll in any language course (including courses 105, 110, 115) in the Scandinavian Section except by petition in writing to the section. Non-Scandinavian students with knowledge of one of these Scandinavian languages may not take courses in the others except by petition in writing. Petitions must include a description of the student’s linguistic background and the reason for wanting to take the language course in question.

Scandinavian Languages
B.A.

Preparation for the Major
Required: Scandinavian 1, 2, 3, 4, and 5, or 11, 12, 13, 14, and 15, or 21, 22, 23, 24, and 25, or equivalent.

Transfer Students
Transfer applicants to the Scandinavian Languages major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of either Swedish, Norwegian, or Danish.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Twelve upper division Scandinavian courses, including 105 or 110 or 115, 141, 142, 143. As an option, three upper division courses in a related field may be taken if approved in advance by the undergraduate adviser. It is recommended that students who plan to do graduate work in Scandinavian take German 1 through 6.

Scandinavian Minor
To enter the Scandinavian minor, students must have an overall grade-point average of 2.0 or better.

Required Courses (28 units): Any seven Scandinavian courses, two of which may be lower division courses selected from Scandinavian 1 through 50.

Each minor course must be taken for a letter grade and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.
Graduate Study
Official, specific degree requirements are de-
tailed in Program Requirements for UCLA
Graduate Degrees, available at the Graduate
Division website, http://www.gdnet.ucla.edu/
gasasa/library/pgmintro.htm. In many cases,
more detailed guidelines may be outlined in an-
nouncements, other publications, and websites
of the schools, departments, and programs.

Graduate Degree
The Scandinavian Section offers the M.A. de-
gree in Scandinavian.

Old Norse Studies
Lower Division Course
40. Heroic Journey in Northern Myth, Legend, and
Epic. (4) Lecture, three hours. All readings in English.
Comparison of journeys of odysseys. Readings in my-
thology, legend, folklore, and epic, including Nibelun-
genlied, Volsunga saga, Eddas, and Beowulf. Cultural
and historic backgrounds to texts. P/NP or letter grad-
ing.

Upper Division Courses
135. Vikings. (5) Lecture, three hours; discussion,
one hour. Survey of history, anthropology, and ar-
cheology of Viking Age society. Readings draw on
medieval sagas as well as secondary material, focus
on impact of Vikings on northern Europe, and consid-
er ways in which European and Scandinavian societ-
ies evolved in response to Viking incursions. P/NP or
letter grading.

C139. Saga. (4) Seminar, three hours. Sagas are larg-
est extant medieval prose literature. Texts in English,
with selections from different types of Icelandic sagas.
Consideration of history and society that pro-
duced these narratives. Concurrently scheduled with
course C258. Letter grading.

C140. Viking Civilization and Literature. (4) Lect-
ture, three hours. History, society, and culture of early
Scandinavians. All texts in English, including readings
in Old Norse sagas and Eddas. Concurrently sched-
uled with course C241. Letter grading.

C145. Old Norse Literature and Society. (4) Semi-
nar, three hours. Critical issues in medieval Scandina-
vian studies. May be repeated for credit. Concurrently
scheduled with course C145. Graduate students do
additional readings and write more extensive research pa-
pers. Letter grading.

596. Directed Individual Study or Research. (4) Tu-
torial, to be arranged with faculty member who directs
study or research (course code must be identified by
two-letter code using initials of sponsoring instructor —
see department for I.D. number). May be repeated
once; only one course in 500 series may be applied to
ward M.A. graduate course requirement. S/U grading.

597. Preparation for Ph.D. Qualifying Examina-
tions. (4) Tutorial, to be arranged with faculty mem-
ber who directs study (see department for I.D. num-

Scandinavian
Lower Division Courses
1. Elementary Swedish. (4) Discussion, four hours.
P/NP or letter grading.

2. Elementary Swedish. (4) Discussion, four hours.
Enforced requisite: course 1. P/NP or letter grading.

3. Elementary Swedish. (4) Discussion, four hours.
Enforced requisite: course 2. P/NP or letter grading.

4. Intermediate Swedish. (4) Discussion, four hours.
Enforced requisite: course 3. P/NP or letter grading.

5. Intermediate Swedish. (4) Discussion, four hours.
Enforced requisite: course 4. P/NP or letter grading.

hours; laboratory, five hours. Intensive basic course
in Swedish equivalent to courses 1, 2, and 3. Offered
in summer only. P/NP or letter grading.

11. Elementary Norwegian. (4) Discussion, four
hours. P/NP or letter grading.

12. Elementary Norwegian. (4) Discussion, four
hours. Enforced requisite: course 11. P/NP or letter
grading.

13. Elementary Norwegian. (4) Discussion, four
hours. Enforced requisite: course 12. P/NP or letter
grading.

hours. Enforced requisite: course 13. P/NP or letter
grading.

15. Intermediate Norwegian. (4) Discussion, four
hours. Enforced requisite: course 14. P/NP or letter
grading.

21. Advanced Old Norse Prose. (4) Lecture, three
hours. Requisite: course 152. Readings of major saga
texts. Also, secondary sources that bear on specific
issues in Old Norse literature and medieval Scandina-
vian history. S/U or letter grading.

22. Advanced Old Norse Poetry. (4) Lecture, three
hours. Requisite: course 152. Readings of mythologi-
cal and heroic poems from Poetic Edda. Secondary
texts used where appropriate. S/U or letter grading.

241. Viking Civilization and Literature. (4) Lect-
ture, three hours. History, society, and culture of early
Scandinavians. All texts in English, including readings
in Old Norse sagas and Eddas. Concurrently sched-
uled with course C140. Graduate students do addi-
tional readings and write more extensive research pa-
pers. Letter grading.

245A. Germanic and Scandinavian Mythology. (4)
Seminar, three hours. Study of Northern myth and re-
ligion through close reading of Edic texts and sec-
ondary sources. Letter grading.

246A. Old Norse Studies. (5) Seminar, three hours.
Enforced requisite: course 151. Readings of mythologi-
cal and heroic poems from Poetic Edda. Secondary
texts used where appropriate. S/U or letter grading.

246B. Old Norse Studies. (5) Seminar, three hours.
Enforced requisite: course 151. Readings of mythologi-
cal and heroic poems from Poetic Edda. Secondary
texts used where appropriate. S/U or letter grading.

246C. Old Norse Studies. (5) Seminar, three hours.
Enforced requisite: course 151. Readings of mythologi-
cal and heroic poems from Poetic Edda. Secondary
texts used where appropriate. S/U or letter grading.

250. Introduction to Scandinavian Literatures and
Cultures. (5) Lecture, three hours; discussion, one
hour. Not open for credit to students with credit for
course 50W. Designed for students in general and for
those wishing to prepare for more advanced and spe-
cialized studies in Scandinavian literature and culture.
Selected works from literatures of Denmark, Norway,
Sweden, Iceland, and Finland, ranging from myth, na-
tional epic, saga, and folk-tale through modern novel,
poem, play, short story, and film, read in English and
critically discussed. P/NP or letter grading.

250W. Introduction to Scandinavian Literatures and
Cultures. (5) Lecture, three hours; discussion, one
hour. Not open for credit to students with credit for
course 50W. Designed for students in general and for
those wishing to prepare for more advanced and spe-
cialized studies in Scandinavian literature and culture.
Selected works from literatures of Denmark, Norway,
Sweden, Iceland, and Finland, ranging from myth, na-
tional epic, saga, and folk-tale through modern novel,
poem, play, short story, and film, read in English and
critically discussed. Satisfies Writing II requirement. Letter grading.

Upper Division Courses
105. Advanced Swedish. (4) Discussion, three
hours. Requisite: course 5. Readings, composition,
and conversation in Swedish. May be repeated once
for credit. P/NP or letter grading.

110. Advanced Norwegian. (4) Discussion, three
hours. Requisite: course 15. Readings, composition,
and conversation in Norwegian. May be repeated once
for credit. P/NP or letter grading.

115. Advanced Danish. (4) Discussion, three hours.
Requisite: course 25. Readings, composition, and
conversation in Danish. May be repeated once for
credit. P/NP or letter grading.

130. Elementary Finnish. (4) Discussion, three
hours. Introduction to standard language of Finland.
Practice in grammar, listening, speaking, reading, and
writing. P/NP or letter grading.

132. Advanced Finnish. (4) Discussion, three hours.
Requisite: course 131. Continuation of grammar, prac-
tice, conversation, reading, and analysis of simple texts. P/NP
or letter grading.

136. Introduction to Sami Language and Culture.
(4) Lecture, three hours. Use of thematically arranged,
structurally graduated readings, conversation topics,
individual and group assignments, and journal writing
to provide systematic overview of linguistic characteris-
tics of Estonian language. At course end students
should be able to communicate in Sami in variety of
common social situations and should be equipped with
necessary basic concepts to continue language acqui-
sition and cultural studies in their social and profes-
sional milieu, interacting with native speakers, or
taking formal courses at intermediate level. Concurrently
scheduled with course C236. P/NP or letter grading.

141. Backgrounds of Scandinavian Literature. (4)
Seminar, three hours. Readings and discussion of represen-
tative texts selected from literature of medi-
evial, Renaissance, baroque, and Enlightenment peri-
ods. P/NP or letter grading.

C241A. Theory of Scandinavian Novel. (4) For-
merly numbered C162.) Seminar, three hours. Analy-
sis of predominant structures of Scandinavian novel
from its 18th-century beginnings through its rise in
19th century and its 20th-century evolution. Discus-
sion of application of contemporary critical theories to
novels. May be concurrently scheduled with course
C241A. P/NP or letter grading.
141FL. Backgrounds in Scandinavian Literature. (2) Seminar, two hours. Requisite: course 5 or 15 or 25. Enforced corequisite: course 141. Additional work in Nordic languages to augment work assigned in course 141, including reading, writing, and other exercises in Danish, Icelandic, Norwegian, or Swedish. P/NP or letter grading.

143. Scandinavian Literature of the 20th Century. (4) Seminar, three hours. Readings and discussion of selected works of modern Scandinavian literature from beginning of century to the present. P/NP or letter grading.

143FL. 20th-Century Scandinavian Literature. (2) Seminar, two hours. Requisite: course 5 or 15 or 25. Enforced corequisite: course 143. Additional work in Nordic languages to augment work assigned in course 143, including reading, writing, and other exercises in Danish, Icelandic, Norwegian, or Swedish. P/NP or letter grading.

CM144A. Voices of Women in Nordic Literature. (4) (Formerly numbered C266.) (Same as Women’s Studies M186.) Seminar, three hours. Requisite: course 5 or 15 or 25. Knowledge of Scandinavian languages not required for nonmajors. Readings and discussion of writings by Scandinavian women writers analyzed in historical, theoretical, sociological, critical, and comparative contexts. May be concurrently scheduled with course C244A. P/NP or letter grading. 

C145A. Henrik Ibsen. (4) (Formerly numbered C144.) Seminar, three hours. Readings and discussion of selected plays by Henrik Ibsen. May be concurrently scheduled with course C245A. P/NP or letter grading.

C145B. Knut Hamsun. (4) (Formerly numbered C147.) Seminar, three hours. Readings and discussion of selected works by Knut Hamsun and other 19th- and 20th-century Scandinavian writers who explored theme of nature as modern idyll. May be concurrently scheduled with course C245B. P/NP or letter grading.

C146A. August Strindberg. (4) (Formerly numbered C145.) Seminar, three hours. August Strindberg’s portrayals of marital conflict reflected and shaped literary representation of so-called battle of sexes. His work, as well as its literary transformations, placed into Scandinavian, European, and feminist context. May be concurrently scheduled with course C246A. P/NP or letter grading.

C147A. Hans Christian Andersen. (4) (Formerly numbered 184.) Lecture, two hours; discussion, one hour. Study of works of Hans Christian Andersen, Danish novelist, dramatist, and writer of tales, including consideration of his literary background and of his times. Analysis of his works in terms of their structure, style, and meaning. P/NP or letter grading.

C147B. Soren Kierkegaard. (4) (Formerly numbered C146.) Lecture, two hours; discussion, one hour. Study of Søren Kierkegaard, Danish existentialist writer, and other existentialist writers. May be concurrently scheduled with course C247B. P/NP or letter grading.

161. Introduction to Nordic Cinema. (4) (Formerly numbered 187.) Seminar, three hours. Designed for students in general and for those preparing for more advanced studies in Scandinavian literature and culture. Viewing and discussion of films by Ingmar Bergman and other Scandinavian filmmakers. P/NP or letter grading.

C171. Introduction to Scandinavian Folklore. (4) (Formerly numbered C178.) Seminar, three hours. Introduction to fairy tales and legends of Scandinavian tradition as well as to interpretive methodologies that strive to answer question “why do people tell stories that they tell?” Concurrently scheduled with course C271. Letter grading.

177. Queer Scandinavia. (4) Seminar, three hours. Queer themes in Scandinavian literature, mainly from 19th and 20th centuries. Scandinavian countries have had more progressive views on homosexuality than most other countries, and Scandinavian writers portrayed homosexuality in explicit and radical ways as early as turn of 19th century. Introduction to key theoretical works within field of gay and lesbian studies and queer studies, as well as presentation of historical view of how homosexuality has been perceived in Western world. S/U or letter grading.

C180. Literature and Scandinavian Society. (4) Seminar, three hours. Discussion of selected aspects of Scandinavian society based on readings of contemporary literature as well as historical and/or sociological material. May be repeated for credit (as determined by undergraduate adviser) with topic change. May be concurrently scheduled with course C283. P/NP or letter grading.

181. Contemporary Swedish Literature. (4) Seminar, three hours. Reading and analysis of selected texts by 20th-century Swedish authors. P/NP or letter grading.

C185. Seminar: Scandinavian Literature. (4) Seminar, three hours. Preparation: advanced knowledge of one Scandinavian language. Readings and discussion of selected works by Knut Hamsun and other 19th- and 20th-century Scandinavian writers who explored theme of nature as modern idyll. May be concurrently scheduled with course C145B. Graduate students may meet as group one additional hour each week and write research papers of greater length and depth. S/U or letter grading.

C245A. Henrik Ibsen. (4) (Formerly numbered C251.) Seminar, three hours. Preparation: advanced knowledge of one modern Scandinavian language. Readings and discussion of selected plays by Henrik Ibsen. May be concurrently scheduled with course C145A. Graduate students may meet as group one additional hour each week and write research papers of greater length and depth. S/U or letter grading.

C245B. Knut Hamsun. (4) (Formerly numbered C254.) Seminar, three hours. Preparation: advanced knowledge of one Scandinavian language. Readings and discussion of selected works by Knut Hamsun and other 19th- and 20th-century Scandinavian writers who explored theme of nature as modern idyll. May be concurrently scheduled with course C145B. Graduate students may meet as group one additional hour each week and write research papers of greater length and depth. S/U or letter grading.

C246A. August Strindberg. (4) (Formerly numbered C252.) Seminar, three hours. Preparation: advanced knowledge of one modern Scandinavian language. Readings and discussion of selected works by August Strindberg’s portrayals of marital conflict reflected and shaped literary representation of so-called battle of sexes. His work, as well as its literary transformations, placed into Scandinavian, European, and feminist context. May be concurrently scheduled with course C146A. Graduate students may meet as group one additional hour each week and write research papers of greater length and depth. S/U or letter grading.

C247B. Soren Kierkegaard. (4) (Formerly numbered C253.) Seminar, three hours. Preparation: advanced knowledge of one modern Scandinavian language. Readings and discussion of selected works by Søren Kierkegaard and other existentialist writers. May be concurrently scheduled with course C147B. S/U or letter grading.

C253. Literature and Scandinavian Society. (4) Seminar, three hours. Designed for graduate students. Discussion of selected aspects of Scandinavian society based on readings of contemporary literature as well as historical and/or sociological material. May be repeated for credit (as determined by graduate adviser) with topic change. May be concurrently scheduled with course C180. Graduate students may meet for extra seminar hour each week and write research papers of greater length and depth. S/U or letter grading.

C255. Seminar: Scandinavian Literature. (4) Seminar, three hours. Preparation: reading knowledge of a Scandinavian language. Selected topics in Scandinavian literature, poetry, and popular media. May be repeated for credit with consent of instructor and graduate adviser. May be concurrently scheduled with course C185. S/U or letter grading.

M270. Seminar: Literary Theory. (5) (Same as Comparative Literature M294, East Asian Languages M251, English M270, French M270, German M270, Italian M270, and Spanish M294.) Seminar, three hours. Advanced interdisciplinary seminar to explore philosophical, historical, and critical foundations of literary theory as well as current issues in literary and cultural studies. S/U or letter grading.

C271. Introduction to Scandinavian Folklore. (4) (Formerly numbered C267.) Seminar, three hours. Preparation: advanced knowledge of one modern Scandinavian language. Introduction to fairy tales and legends of Scandinavian tradition as well as to interpretive methodologies that strive to answer question “why do people tell stories that they tell?” Concurrently scheduled with course C171. Letter grading.

C271. Study of Oral Tradition: History and Methods. (4) (Same as English M205A.) Seminar, three hours. Exploration of scholarly and literary attempts to study, define, analyze, promote, and/or appropriate oral traditions, from Homer and ancient Greece to origins of vernacular literatures, European romantic (rediscovery of oral traditions, Debussy’s use of Celtic poetic models of oral composition, and modern-day electronic media and popular verbal genres, such as joking and rapping. S/U or letter grading.)

Scope and Objectives

The Department of Slavic Languages and Literatures offers a wide array of courses in the languages and cultures of Russia and of Central and Eastern Europe. Instruction is offered in Czech, Hungarian, Polish, Romanian, Russian, Serbian/Croatian, and Ukrainian to provide the necessary linguistic skills to pursue advanced work in the literature, culture, history, politics, and social structures of these areas. Students have the choice of several majors and minors and the opportunity to enhance their knowledge and skills through programs of study abroad.

The department offers two majors in Russian. The Russian Language and Literature major is designed to provide students with basic mastery of the Russian language and familiarity with the classics of Russian literature. Students typically begin to study Russian in their first year, but those contemplating a Russian major later in their academic program can fulfill the Russian language requirement by combining regular coursework with summer programs or with the University of California Education Abroad Program (EAP) in Moscow, which is open to students who have completed the equivalent of one or more years of study (level 1 on the American Council on Teaching of Foreign Languages scale). Students interested in this program should consult the undergraduate adviser as early as possible.

The major in Russian Studies is designed for students who wish to complement mastery of the language with an array of courses on Russian history, politics, literature, and culture.

The major in Central and East European Languages and Cultures is designed to provide students with a mastery of two languages of central or eastern Europe and familiarity with the literature, as well as general background in the cultural, political, and social history of the Slavic peoples.

The graduate program provides advanced training in Slavic literatures and linguistics leading to the M.A. and Ph.D. degrees. The primary task of the department faculty is to develop and refine the critical and analytic skills of its students in preparation for productive careers in college teaching and research in the Slavic field. Alternative careers include language teaching, business, translation, interpreting, librarianship, and government service.

Undergraduate Study

The department offers three majors: (1) Central and East European Languages and Cultures, (2) Russian Language and Literature, and (3) Russian Studies. The equivalent of a major in Central and East European Languages and Cultures or Russian Language and Literature is normally required for admission to the department's graduate program and is used to determine the number of courses in Russian literature and/or linguistics that students majoring in Russian Studies are expected to make up in order to receive graduate degrees in the department. Students not majoring in Central and East European Languages and Cultures or Russian Language and Literature who intend to pursue graduate study in the department are strongly encouraged to take courses in Russian literature and linguistics during their undergraduate years to reduce the number of makeup courses required. Qualified seniors may also take graduate courses numbered beyond 220 with consent of the instructor and the graduate and undergraduate advisers.

Central and East European Languages and Cultures B.A.

Preparation for the Major

Required: Central and East European Studies 91 or Slavic 90.

Transfer Students

Transfer applicants to the Central and East European Languages and Cultures major with 90 or more units must complete the following introductory course prior to admission to UCLA: one culture, history, or civilization course on one or more European nations.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major

The Major
adm_tr.htm for up-to-date information regarding transfer selection for admission.

Preparation for the Major
Required: Russian 1, 2, 3, 4, 5, 6, or equivalent proficiency, 90A or 90B or 90BW.

Transfer Students
Transfer applicants to the Russian Language and Literature major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of Russian and one Russian civilization course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Thirteen courses (52 units), including Russian 100A and 100B, or 101A, 101B, and 101C, and M118, 119, 120, 123, 130A, 140A. Four or five additional courses must be selected from Russian 102A, 102B, 102C, 103A, 103B, 103C, 124C, 124D, 124G, C124N, 124T, 125, 126, M127, 128, 130B, 130C, 140B, 140C, 140D, 150, C170, 191.

Russian Studies B.A.
Preparation for the Major
Required: Russian 1, 2, 3, 4, 5, 6, or equivalent proficiency as determined through departmental testing (equivalent to ACTFL level 1), 90A.

Transfer Students
Transfer applicants to the Russian Studies major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of Russian and one Russian civilization course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: Russian 100A, 100B, 100C, or 101A, 101B, 101C, or equivalent proficiency as determined through departmental testing (equivalent to ACTFL level 1+), three courses in Russian literature, two courses from History M127A through 127D, two courses from Political Science 128A, 128B, 156A, Russian C170, and four additional courses selected from those listed above, from Russian language, literature, or linguistics courses, or from special courses (approved by the undergraduate adviser) offered by the Departments of Art, Art History, Design I Media Arts, Film, Television, and Digital Media, History, Music, Political Science, Slavic Languages and Literatures, and Theater.

Honors Program
The honors program is designed for exceptional departmental majors who wish to complete a research project that culminates in an honors thesis. Juniors and seniors who have completed all university-level coursework, including all preparation courses and requirements for the major, with an overall grade-point average of 3.0 and a 3.5 GPA or better in the major courses, are eligible to apply. Students must have the sponsorship of an approved faculty adviser.

All honors students must enroll in Slavic 198A and 198B in two consecutive terms to conduct independent research and write the honors thesis. The results of the research should be presented as a conference paper at the annual Slavic Undergraduate Research Conference.

Central and East European Studies Minor
The Central and East European Studies minor is designed for students who wish to augment their major program of study in the College of Letters and Sciences with exposure to a variety of disciplines pertinent to the study of central and eastern Europe, including language, literature, history, political science, folklore, ethnomusicology, and women's studies.

To enter the minor students must be in good academic standing (2.0 minimum grade-point average) and file a petition with the department counselor in 322B Humanities Building, (310) 825-3856.

Required Lower Division Course (5 units): Central and East European Studies 91 or Slavic 90.

Required Upper Division Courses (28 to 31 units): (1) One three-quarter introductory central and east European language sequence to be selected from Czech 101A, 101B, 101C, Hungarian 101A, 101B, 101C, Polish 101A, 101B, 101C, Romanian 101A, 101B, 101C, Serbian/Croatian 101A, 101B, 101C, or Ukrainian 101A, 101B, 101C (students who demonstrate sufficient fluency in one of these languages through departmental testing are exempt from this three-course sequence and can replace it with a minimum of 12 units of language courses from item 3); (2) one course dealing directly with the target culture to be selected from Czech 155, Ethnomusicology 161C, History 120A through 120D, 130A, 130B, Hungarian 121, Polish 152A, 152B, 152C, Political Science 156B, 156D, Romanian 152, Russian 124G, Serbian/Croatian 154, Slavic 125, 126, 179, Sociology M166, Ukrainian 152, Women's Studies M166, 185.

With approval of the undergraduate adviser, other related upper division courses may be applied toward the minor. No more than two courses (9 to 10 units) may be applied toward both this minor and a major or minor in another department or program.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of C or better. Successful completion of the minor is indicated on the transcript and diploma.

Russian Language Minor
To enter the Russian Language minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Courses (13 units): Russian 6 and two courses from 25, 90A, 90B.

Required Upper Division Courses (23 units): Three courses from Russian 101A through 103C and two additional upper division Russian language and literature courses.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Russian Literature Minor
To enter the Russian Literature minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Courses (10 to 15 units): Russian 3 or 13B or 15B and two courses from 25, 90A, 90B.

Required Upper Division Courses (20 units): Five Russian language or literature courses, including at least two from Russian M118, 119, 120, 130A, 130B, 130C, 140A through 140D.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Russian Studies Minor
To enter the Russian Studies minor, students must have an overall grade-point average of 2.0 or better.

Required Lower Division Courses (10 to 15 units): Russian 3 or 13B or 15B and two courses from 25, 90A, 90B.
Graduate Course

580. Seminar: Polish Literature. (4) Seminar, three hours. Selected topics in Polish prose, poetry, and drama. May be repeated for credit with consent of instructor and graduate adviser.

Required Upper Division Courses (20 units):
Five courses dealing directly with Russian language and literature courses, History M127A through M127D, Political Science 128A, 128B, 156A, Russian C170. With approval of the undergraduate adviser, other related courses may be applied toward the minor.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Slavic Languages and Literatures offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Slavic Languages and Literatures.

Bulgarian

Upper Division Courses

101A-101B-101C. Elementary Bulgarian. (5-5-5) (Formerly numbered 103A-103B-103C.) Lecture, five hours. Course 101A is requisite to 101B, which is requisite to 101C. Basic courses in Bulgarian language. P/NP or letter grading.

154. Survey of Bulgarian Literature. (4) Lecture, three hours. Designed for juniors/seniors. Lectures and readings in English. Survey of Bulgarian literature from Middle Ages to present. P/NP or letter grading.

Central and East European Studies

Lower Division Course

91. Culture and Society in Central and Eastern Europe. (3) (Formerly numbered Slavic 91.) Lecture, three hours; discussion, one hour. Interdisciplinary course to introduce students to main themes and concepts of Central and East European studies, including historical background, nation states and ethnic groups, languages spoken in area, and culture and politics in communist and post-communist periods: religion, literature, mass media, music, art, and cinema. P/NP or letter grading.

Czech

Upper Division Courses

102A-102B-102C. Advanced Czech. (4-4-4) (Formerly numbered 102D-102E-102F) Lecture, three hours. Requisite: course 101C. P/NP or letter grading.

155. Survey of Czech Literature from Middle Ages to Present. (4) Lecture, three hours. Lectures and readings in English. P/NP or letter grading.

187B. Advanced Tutorial Instruction in Czech. (2) Tutorial, one hour; laboratory, one hour. Requisite or corequisite: course 187A. Tutorial and guided independent study of advanced Czech: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

187C-187M. Advanced Tutorial Instruction in Czech. (2 each) Tutorial, one hour; laboratory, one hour. Preparation: prior course in sequence or Czech placement test. Tutorial and guided independent study of advanced Czech: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

Hungarian

Upper Division Courses

101A-101B-101C. Elementary Hungarian. (4-4-4) Discussion, three to four hours. Course 101A is requisite to 101B, which is requisite to 101C. Introduction to grammar; instruction in speaking, listening, reading, and writing. P/NP or letter grading.

102A-102B-102C. Advanced Hungarian. (4-4-4) Lecture, three hours. Requisite: course 101C. Course 102A is requisite to 102B, which is requisite to 102C. P/NP or letter grading.

121. Survey of Hungarian Literature in Translation. (4) Lecture, three hours. Designed for students in general and comparative literature, as well as students interested in Finno-Ugric studies. Survey of main trends and contacts with other literatures. P/NP or letter grading.

187A. Advanced Tutorial Instruction in Hungarian. (2) Tutorial, one hour; laboratory, one hour. Preparation: two years of Hungarian and/or Hungarian placement test. Recommended corequisite: course 187B. Tutorial and guided independent study of advanced Hungarian: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

187B. Advanced Tutorial Instruction in Hungarian. (2) Tutorial, one hour; laboratory, one hour. Requisite or corequisite: course 187A. Tutorial and guided independent study of advanced Hungarian: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

187C-187M. Advanced Tutorial Instruction in Hungarian. (2 each) Tutorial, one hour; laboratory, one hour. Preparation: prior course in sequence or Hungarian placement test. Tutorial and guided independent study of advanced Hungarian: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

197. Individual Studies in Hungarian. (2 to 4) (Formerly numbered 199.) Tutorial, four hours. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Lithuanian

Upper Division Courses

101A-101B-101C. Elementary Lithuanian. (4-4-4) Recitation, five hours. Course 101A is requisite to 101B, which is requisite to 101C. Basic courses in Lithuanian language. P/NP or letter grading.

102A-102B-102C. Advanced Lithuanian. (4-4-4) Lecture, three hours. Requisite: course 101C. Course 102A is requisite to 102B, which is requisite to 102C. Review and reinforcement of grammar introduced in first year of study, expansion of vocabulary, further training in written and oral expression. P/NP or letter grading.

103. Intensive Elementary Lithuanian. (12) Lecture, 19 hours. Intensive basic course in Lithuanian equivalent to one year of language study. Use of series of thematically arranged, structurally graduated readings, conversation exercises, and individual and group assignments, as well as journal writing, to provide systematic overview of linguistic characteristics of Lithuanian language. P/NP or letter grading.

Polish

Upper Division Courses

101A-101B-101C. Elementary Polish. (5-5-5) (Formerly numbered 102A-102B-102C.) Lecture, five hours. Course 101A is requisite to 101B, which is requisite to 101C. Basic courses in Polish language. P/NP or letter grading.

102A-102B-102C. Advanced Polish. (4-4-4) (Formerly numbered 102D-102E-102F) Lecture, three hours. Requisite: course 101C. Course 102A is requisite to 102B, which is requisite to 102C. P/NP or letter grading.

152A-152B-152C. Survey of Polish Literature. (4-4-4) Lecture, three hours. Lectures and readings in English. Letter grading. 152A. From the Middle Ages to Neoclassicism; 152B. Reimagining a Nation. Readings in 19th-century Polish literature and culture. 152C. Dreaming, Mocking, and Writing “as if.” Readings in modern Polish literature and culture.

187A. Advanced Tutorial Instruction in Polish. (2) Tutorial, one hour; laboratory, one hour. Preparation: two years of Polish and/or Polish placement test. Recommended corequisite: course 187B. Tutorial and guided independent study of advanced Polish: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

187B. Advanced Tutorial Instruction in Polish. (2) Tutorial, one hour; laboratory, one hour. Requisite or corequisite: course 187A. Tutorial and guided independent study of advanced Polish: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

187C-187M. Advanced Tutorial Instruction in Polish. (2 each) Tutorial, one hour; laboratory, one hour. Preparation: prior course in sequence or Polish placement test. Tutorial and guided independent study of advanced Polish: advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

Graduate Course

280. Seminar: Polish Literature. (4) Seminar, three hours. Selected topics in Polish prose, poetry, and drama. May be repeated for credit with consent of instructor and graduate adviser.
Romanian

Lower Division Course

90. Introduction to Romanian Civilization. (4) Lecture, three hours. Introductory survey of social and cultural institutions of Romanian people and their historical background. P/NP or letter grading.

Upper Division Courses

102A-102B-102C. Advanced Romanian. (5-5-5) (Formerly numbered 101D-101E-101F.) Lecture, five hours. Requisite: course 101C. Course 102A is requisite to 102B, which is requisite to 102C. Differences between oral and written discourse, expansion of students’ general and academic vocabulary, and increase of range of grammatical structures for use in speaking and writing. Cultural information to be included in readings. Letter grading.

103. Intensive Elementary Romanian. (12) (Formerly numbered 104.) Lecture, 19 hours. Intensive basic course in Romanian equivalent to courses 101A, 101B, and 101C. P/NP or letter grading.

152. Survey of Romanian Literature. (4) Lecture, three hours. Lectures and readings in English. Survey of Romanian literature from Middle Ages to present. P/NP or letter grading.

187A. Advanced Tutorial Instruction in Romanian. (2) Tutorial, one hour; laboratory, one hour. Requisite: course 102C or Romanian placement test. Recommended corequisite: course 187B. Tutorial and guided independent study of advanced Romanian; advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

187B. Advanced Tutorial Instruction in Romanian. (2) Tutorial, one hour; laboratory, one hour. Requisite or corequisite: course 187A. Tutorial and guided independent study of advanced Romanian; advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

187C-187M. Advanced Tutorial Instruction in Romanian. (2 each) Tutorial, one hour; laboratory, one hour. Preparation: prior course in sequence or Romanian placement test. Tutorial and guided independent study of advanced Romanian; advanced conversation, composition, vocabulary development, and review of selected grammar topics. P/NP or letter grading.

Graduate Course

201. Romanian as a Romance Language. (4) Lecture, three hours. Survey of structure and development of the Romanian language, with special emphasis on relationship of Romanian to other members of the Romance group.

Russian

Lower Division Courses

1. Elementary Russian. (5) Recitation, five hours; laboratory, one hour. P/NP or letter grading.

2. Elementary Russian. (5) Lecture, five hours; laboratory, one hour. Requisite: course 1. P/NP or letter grading.

90A. Introduction to Russian Civilization. (5) Lecture, three hours; computer laboratory, one hour. Introduction to Russian culture and society from earliest times to 1917. P/NP or letter grading.

90B. Russian Civilization in the 20th Century. (4) Lecture, three hours. Not open for credit to students with credit for course 90BW. Survey of literature, theater, cinema, television, press, music, and arts. Emphasis on contemporary Russian society, with constant reference to Russian and early Soviet antecedents. P/NP or letter grading.

90BW. Russian Civilization in the 20th Century. (5) Lecture, three hours; discussion, one hour. Enforced requisite: English 103 or 3H or English as a Second Language 36. Not open for credit to students with credit for course 90B. Survey of literature, theater, cinema, television, press, music, and arts. Emphasis on contemporary Russian society, with constant reference to Russian and early Soviet antecedents. Weekly discussions focus on varied approaches to writing addressing class topics. Five short papers required. Satisfies Writing II requirement. Letter grading.

Upper Division Courses

100A-100B-100C. Literacy in Russian. (4-4-4) Lecture, three hours. Course 100A is requisite to 100B, which is requisite to 100C. For students who speak Russian but have difficulty reading and writing. Focus on improving reading and writing skills, increasing vocabulary, and developing speaking skills required for academic discourse. P/NP or letter grading.

101A. Russia and the West; 101B. Soviet Russia; 101C. Contemporary Russia.

102A-102B-102C. Topics in Advanced/Superior Russian. (4-4-4) (Formerly numbered 102A-102D.) Lecture, three hours. Requisite: course 101B. Tutorial and guided independent study and composition, with emphasis on vocabulary development and review of selected grammar topics. Readings in fiction and nonfiction, films, and videos, and use of Internet. Each course may be taken independently and may be repeated for credit. P/NP or letter grading.

103A-103B-103C. Russian for Native and Near-Native Speakers. (4-4-4) Lecture, three hours. Course 103A is not requisite to 103B, which is not requisite to 103C. Improvement of oral and written language skills, emphasizing correct and diversified use of language and addressing individual grammatical difficulties. May be repeated for credit with topic and instructor change. P/NP or letter grading. 103A. Russian National Identity. Readings in literature, philosophy, criticism, film. 103B. Literature and Film. Film adaptations of Russian literature. Readings and screenings. 103C. Special Topics.

107A-107B-107C. Russian for Social and Cultural Studies. (4-4-4) (Formerly numbered 107.) Lecture, three hours. Requisite: 101A. Exploration of texts and media in social sciences and culture, with emphasis on press, television, and Internet. Each course may be taken independently and may be repeated for credit. P/NP or letter grading.

M118. History of Russia from Origins to Rise of Muscovy. (4) (Formerly numbered 118.) (Same as History M127A.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Kievan Rus and social structure, Khanate principalities and towns; Mongol invasion; unification of Russian state by Muscovy, Autocracy and its Servitors; P/NP or letter grading.

119. Golden Age and Great Realists. (4) Lecture, three hours. Designed for juniors/seniors. Russian majors are advised to take this course in their sophomore year. Lectures and readings in English. Survey of 19th-century Russian literature (Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov) in its cultural, political, and social contexts. P/NP or letter grading.

120. Literature and Revolution. (4) Lecture, three hours. Designed for juniors/seniors. Russian majors are advised to take this course in their sophomore year. Lectures and readings in English. Survey of 19th-century Russian literature (Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov) in its cultural, political, and social contexts. P/NP or letter grading.
121. Russian Literature Now. (5) Lecture, three hours. Designed for juniors/seniors. Lectures and readings in English. Overview of Russian literature today, with emphasis on the status of Russia’s “Golden Age” and Soviet traditions for writers working in modern Russia. Death of one tradition and attempts at creation of another lead away from written word into neighboring forms of communication. Consideration of battles of modern storytelling with cinema, television, and Internet. Is literature changing in way in which it creates popular, profitable, and important narratives or is it slowly dying in the hands of capital and visual culture? Letter grading.

122. Siberia. (5) Lecture, three hours. Introductory survey in which current cultural and ecological issues are situated in their geographical and historical background, including analysis of Siberian human geography before first contact with European colonizers and development of modes of interaction among different cultural groups. Reading in English of selection of literary works by well-known 20th-century Siberian writers whose texts serve as locus for closer examination of Siberian regional literary culture and ecological network within which it exists. Letter grading.

123. Historical Commentary on Modern Russian. (4) Lecture, three hours. Requisite: course 101C. Historical explanation of phonological and morphological anomalies of modern Russian.

124D. Studies in Russian Literature: Dostoevsky. (4) Lecture, three hours. Lectures and readings in English. Selections from early short fiction and philosophical writings followed by in-depth readings of one or two major novels such as Crime and Punishment or The Brothers Karamazov. P/NP or letter grading.

124P. Studies in Russian Literature: Pushkin. (4) Lecture, three hours. Lectures and readings in English. Major works in all genres, including lyric poetry, narrative poems, plays, prose fiction, and selected letters. P/NP or letter grading.

124T. Studies in Russian Literature: Tolstoy. (4) Lecture, three hours. Lectures and readings in English. Early and late stories and novels, excerpts from the diaries and one major novel such as War and Peace or Anna Karenina. P/NP or letter grading.

126. Survey of Russian Drama. (4) Lecture, three hours. Lectures and readings in English. Introduction to representative selection of most important dramatic works in Russian literary tradition, including works from neoclassical, Romantic, realist, and futurist traditions. P/NP or letter grading.

127. Women in Russian Literature. (4) Same as Women’s Studies M127.) Lecture, three hours. Designed for juniors/seniors. Lectures and readings in English. Introduction to “alternative tradition” of women’s writings in Russia and the Soviet Union. Emphasis on images of women expressed in this tradition as compared with those found in works of contemporary male writers. P/NP or letter grading.

130A. Introduction to Analysis of Russian Poetry. Requisite: course 130B. Poetic analysis from a cross-disciplinary perspective. P/NP or letter grading.

130B. Russian Poetry in the Age of Realism. Lecture, three hours. Preparation: third-year Russian. S/U or letter grading.

130C. Russian Poetry in the Modernist Period. Lecture, three hours. Requisite: course 130B. P/NP or letter grading.

131. History of Russian Cinema. (4) Lecture, three hours. Overview of most popular art form in world’s largest nation to show how cinema struggled under inceptive capitalism in Russia, how it moved away from its early days to become a major creative art form. P/NP or letter grading.

131A. History of Russian Cinema. Lecture, three hours. Introduction to Russian cinema, including survey of Russian literature before and after the October Revolution. P/NP or letter grading.

132A. 20th-Century Russian Literature from 1890 to 1929. (4) Formerly numbered 213.) Lecture, three hours. Required for M.A. (literature). Lectures and readings in major literary trends of modernist period, such as decadence, symbolism, futurism, acmeism, and ornamental school. Analysis of representative works by Blok, Belyi, Khlebnikov, Pasternak, Platonov, and others. S/U or letter grading.

134. Movements and Genres in Russian Literature. (4) Lecture, three hours. Designed for juniors/seniors. Lectures and readings in English. Introduction to most important theoretical issues of Russian literature viewed in diachronic perspective. Letter grading.

221. Linguistic Approaches to Russian Poetry. (4) Lecture, three hours. Introduction to use of linguistic methods in study of Russian poetic texts. May be repeated for credit with instructor's consent.

224O. Russian Folklore. (3 to 5) Lecture, three hours. Lectures and readings in English. General introduction to Russian folklore, including survey of genres and related folktomic phenomena. Concurrently scheduled with course C240. P/NP or letter grading.

191. Variable Topics Research Seminars: Russian Literature. (4) Seminar, three hours. Requisite: course 190C. Conducted in Russian. Reading and analysis of texts with focus on vocabulary, pronunciation, and style, respectively, in three consecutive terms. S/U or letter grading.

201A-201B-201C. Russian: Vocabulary, Pronunciation, Style. (4-4-4) Lecture, three hours. Requisite: course 102C. Conducted in Russian. Reading and analysis of texts with focus on vocabulary, pronunciation, and style, respectively, in three consecutive terms. S/U or letter grading.

203. Practicum in Russian. (2) Requisite: course 201C. Two terms per year required of Ph.D. students. Reading of advanced texts; advanced composition, conversation, and stylistics. May be repeated for credit. S/U or letter grading.

251. Topics in Literature of Medieval Rus’. (4) Lecture, three hours. Requisite: course 211A. Detailed discussion of particular writers, periods, or genres. May be repeated for credit with consent of instructor and graduate adviser.

251. Discourse Grammar of Russian. (2 or 4) Lecture, three hours. Analysis of phenomena of Contemp- orary Standard Russian controlled by discourse/ pragmatic factors at all levels of linguistic structure from phonology to intersentential syntax. S/U or letter grading.

255. Topics in Russian Syntax. (4) Lecture, three hours. Requisite: course 220B. Traditional and gener- ative approaches to Russian syntax. May be repeated for credit with consent of instructor.

270. Russian Poetics. (4) Lecture, three hours. Introduc- tion to technical study of Russian poetics and versification, with attention to metrics, stanza forms, rhyme, and development of various verse types from the 18th to the 20th century.

277. Studies in Russian Literature: Nabokov. (4) Lecture, three hours. Lectures and readings in Eng- lish. Russian novelist (The Gift, American novelist (Lolita), autobiographer (Speak Memory), and critic. Concurrently scheduled with course C124N. S/U or letter grading.

290. Seminar: Russian Poetry. (4) Seminar, three hours. Recommended preparation: course 270. Deta- iled study of a single author, period, or work. May be repeated for credit with consent of instructor and graduate adviser.

291A. Seminar: Literature of Medieval Rus’. (4) Seminar, three hours. Requisite: course 211A. Select- ed topics from the 11th through the 17th century. May be repeated for credit with consent of instructor and graduate adviser.

291B. Seminar: 18th-Century Russian Literature. (4) Seminar, three hours. Requisite: course 211B. Se- lected authors and works from 18th-century poetry, prose, and drama. May be repeated for credit with consent of instructor and graduate adviser.

292. Seminar: 19th-Century Russian Literature. (4) Seminar, three hours. Requisites: courses 212A, 212B. Selected authors and works from 19th-century poetry, prose, and drama. May be repeated for credit with consent of instructor and graduate adviser.

293. Seminar: 20th-Century Russian Literature. (4) Seminar, three hours. Requisite: course 213A. Se- lected authors and works from 20th-century poetry, prose, and drama. May be repeated for credit with consent of instructor and graduate adviser. S/U or letter grading.

294. Seminar: Russian Literary Criticism. (4) Seminar, three hours. Requisites: courses 211B, 212A, 212B, 213A. Detailed study of specific school of litera- ry criticism, single literary critic, or period in Russian literary history as reflected in literary criticism. Simul- taneous or similar phenomena in literary criticism in West. May be repeated for credit with consent of in- structor and graduate adviser. S/U or letter grading.

296. Seminar: History of Russian Culture. (4) Dis- cussion, three hours. Reading and discussion on se- lected topics in history of Russian culture.

Slavic

Lower Division Courses

40. Christiansities East and West. (5) Lecture, three hours; discussion, one hour. Survey of three major historical branches of Christianity — Eastern and Ori- ental Orthodoxy, Roman Catholicism, and Protestant- ism, contrasting how history, dogma, culture, and community structures develop in the three traditions. P/NP or letter grading.

88. Sophomore Seminars: Literature and Culture. (4) Seminar, three hours. Via topics course de- signed to explore themes and issues pertinent to Slavic literature and culture. Culfminating project may be required. Consult Schedule of Classes or depart- ment for topics to be offered in specific term. Letter grading.

99. Introduction to Slavic Civilization. (5) Lecture, three hours; discussion, one hour. Introductory survey of social and cultural traditions of Slavic peoples and their historical background. P/NP or letter grading.

Upper Division Courses

103E. Intensive Elementary Estonian. (2) Lecture, 19 hours. Intensive basic course in Estonian equivalent to one year of language study. Use of se- ries of thematically arranged, structurally graduated readings, conversation exercises, and individual and group assignments, as well as journal writing, to pro- vide systematic overview of linguistic characteristics of Estonian language. P/NP or letter grading.

103L. Intensive Elementary Latvian. (2) Lecture, 19 hours. Intensive basic course in Latvian equivalent to one year of language study. Use of series of thematically arranged, structurally graduated readings, conversation exercises, and individual and group ass- signments, as well as journal writing, to provide sys- tematic overview of linguistic characteristics of Latvian language. P/NP or letter grading.

152. Interwar Central European Prose. (4) Lecture, three hours. Analysis of selected novels, stories, plays, and essays of representative authors of the 1920s and 1930s in translation. Special attention to relation between literature and historical and ethnic concerns. P/NP or letter grading.

179. Baltic and Slavic Folklore and Mythology. (4) Lecture, four hours. General course for students inter- ested in folklore and mythology and for those interest- ed in Indo-European mythic antiquities. P/NP or letter grading.

197. Individual Studies in Slavic Languages and Literatures. (2 to 4) Tutorial, to be arranged. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. P/NP or letter grading.

198A-198B. Honors Research in Slavic Languag- es and Literatures. (4) Tutorial, three hours. Course 198A is requisite to 198B. Limited to junior/se- nior departmental honors program students. Develop- ment and completion of honors thesis under direct su- pervision of faculty member. May be repeated for credit. Individual contract required. Letter grading.

Graduate Courses

200A. Literary Proseminar. (4) Seminar, three hours. Required for M.A. (literature). Designed to pre- pare incoming graduate students for scholarly work by introducing them to resources (departmental, intra- mural, and extramural), methodologies, and tech- niques for analysis of literary materials and cultural studies. S/U grading.

211. Slavic Gender Linguistics. (2 or 4) Lecture, three hours. Examination of linguistic differences between male and female speech and of language used to refer to females and males. Course contributes to understanding of language, literature, sociolinguistics, gender issues, and Slavic culture in general. S/U or letter grading.

Matthew Norton Wise, Ph.D. (History)

**Scope and Objectives**

The Social Thought minor provides an opportunity for students to take a series of courses that focus on modern social and intellectual thought from the 17th through the 20th century. The minor builds on lower division introductory exposure to the history of modern ideas as embodied in a number of key texts by significant thinkers such as Descartes, Hobbes, Locke, Smith, Rousseau, Mill, Marx, Weber, Darwin, Nietzsche, Freud, DuBois, de Beauvoir, and others and promotes more intense and broad exposure to the great ideas and modern thinkers of the contemporary world. It culminates with enrollment in a two-term senior thesis tutorial related to a theme from previous coursework and closely supervised by a faculty mentor. The senior thesis occurs in conjunction with a weekly research colloquium where students meet with faculty members to discuss their senior thesis work or related work in the minor.

The minor is intended to supplement the liberal arts education of undergraduates who, through their major, are interested in finding an area of specialization related to career objectives and who seek broad and systematic training in the major ideas of the modern world.

**Undergraduate Study Social Thought Minor**

The Social Thought minor is limited to students who formally apply and are admitted. To apply, students must submit an application, a personal statement supporting their interest in pursuing the minor, a letter of recommendation from a faculty mentor, and a transcript to the College Academic Counseling Office, A316 Murphy Hall.

To enter the minor, students must have an overall grade-point average of 2.0 or better and apply for admission only after successfully completing the following lower division requirements: General Education Clusters 21A and 21B, OR two courses from Philosophy 6, Political Science 10, Sociology 10.

**Required Upper Division Courses (16 to 20 units):** Four courses spanning at least two different departments selected from Economics 107, Geography 134, History 122D, M122E, 142A, 142B, Philosophy 151A, C151B, 153A, 153B, 154, C155, Political Science M111A through 114B, 116A, Sociology 101, 102, and with approval of the chair, 191 seminars in social thought.

**Required Research Colloquia and Senior Thesis (12 units):** Students must also complete Social Thought 190A and 199A in one term and courses 190B and 199B in the following term.
No more than two courses (8 to 10 units) may be applied toward both this minor and a major or minor in another department or program. Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Social Thought
Upper Division Courses

190A-190B. Research Colloquia in Social Thought I, II, (2-2) Seminar, two hours. Corequisite for course 190A; course 199A; for course 190B: course 199B. Limited to juniors/seniors. Required of students in Social Thought minor. Designed to bring together students undertaking supervised senior thesis work in seminar setting with one or more faculty members to discuss their work or related work in Social Thought minor. Led by one supervising faculty member. Course 190A may be repeated for credit. P/NP grading. 199A-199B. Directed Research or Senior Thesis in Social Thought I, II, (4-4) Tutorial, to be arranged. Corequisite for course 199A: course 190A; for course 199B: course 190B. Limited to juniors/seniors. Required of students in Social Thought minor. Supervised individual research under guidance of faculty mentor. Culminating paper or project required. May be repeated for credit. Individual contract required. Letter grading.

Mary Kay Oliveri, L.C.S.W.
Winifred E. Smith, M.S.W., Emerita
Michelle Tally, L.C.S.W.

Scope and Objectives

The primary objectives of the Department of Social Welfare graduate program are to prepare leaders for the profession of social work and to develop the empirical base for all facets of practice. In response to changing demographic trends and the emergence of new social problems, the department provides leadership in the areas of policy, practice, and research and in the development of an innovative curriculum for training students and professionals to meet the service needs of a multicultural clientele.

The educational program is based on the premise that all students need to acquire a common body of knowledge and basic skills, and a common understanding of the philosophy and values of the profession. These then form a sound foundation for the development of more specialized knowledge and skills along the lines of each student’s interests and the needs of the field.

Students are encouraged to take advantage of the resources within the University by selecting elective courses in related disciplines. In addition, as a department within the School of Public Affairs, the program affords students instructional opportunities in the other affiliated departments — Public Policy and Urban Planning.

Beyond national opportunities in the profession of social work, there is increasing demand for qualified and experienced social workers to serve in the international field, where many social service programs are conducted under the auspices of the United Nations, the U.S. government, and national sectarian organizations. Graduates of the doctoral program generally secure appointments at major universities or research centers.

The challenge to the department, the profession, and those who join us as students is to prepare to forge the paths, build the bridges, and shape the future to ensure that all individuals, families, and communities enjoy better education, better healthcare, better job training, and better economic futures.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnut.edu/gasas/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

Social Welfare

Upper Division Courses

100A. Introduction to Social Welfare: Policies and Programs. (4) Lecture, four hours. Origin and development of major U.S. social welfare programs and policies guiding them, with emphasis on analysis of policy developments/issues related to provision of social welfare services. Study of historical and current responses of profession to major social problems. P/NP or letter grading.

100B. Social Welfare Policy: Overview. (4) Lecture, four hours. Requisite: course 100A. Review of existing policy regarding major social issues in field of social welfare. Examination of discrepancy between need and capacity of social agencies to address need. Exploration of differential impact of policy on various populations. P/NP or letter grading.

101. Social Welfare in Multicultural Society. (4) Lecture, four hours. Social policy viewed from perspective of various cultural groups. Students to become aware of their own cultural perspective and learn to recognize similarities and differences in values, perspectives, and beliefs across cultural groups. P/NP or letter grading.

103. Introduction to Direct Practice with Individuals, Families, and Groups. (4) Lecture, four hours. Requisites: courses 100A, 100B, 101. Description and demonstration of basic skills employed in direct social work practice via casework process. Students practice these skills in written, role-play, small group, and video or audio exercises. P/NP or letter grading.
104A. Filipino American Community and Family, (4) Lecture, four hours. Examination of interaction of Filipino American families and communities within larger social and political environment to understand importance of social, cultural, and political influences of Filipino American families and communities. P/NP or letter grading.

104B. Japanese American Redress, (4) Lecture, four hours. Examination of process through which Civil Liberties Act of 1988 was created, pursued, and passed. This act was official apology from the U.S. government to over 150,000 Japanese Americans incarcerated in concentration camps during World War II. P/NP or letter grading.

M104C. Diversity in Aging: Roles of Gender and Ethnicity. (4) Same as Gerontology M104C and Women's Studies M104C. Lecture, four hours. Exploration of complexity of variables related to diversity of aging population and variability in aging process. Examination of gender and ethnicity within context of both physical and social aging, in multidisciplinary perspective utilizing faculty from variety of fields to address issues of diversity. Letter grading.

M104D. Public Policy and Aging. (4) Same as Gerontology M104D. Lecture, four hours. Examination of theoretical approaches to interpretation of policy process, with application to aging policy. Analysis of decision-making processes that affect aging policy. Description of history of contemporary aging policy. Exploration of current policy issues affecting elderly. P/NP or letter grading.

M104E. Social Aspects of Aging. (4) Same as Gerontology M104E. Lecture, four hours. Topics include theories of aging, economic factors, changing roles, social relationships, and special populations. Weekly seminars organized around key aspect of social gerontology. P/NP or letter grading.

104F. Japanese American Community and Family, (4) Lecture, four hours; outside study, nine hours. Historical overview of Japanese American families and communities within larger social and political environment to understand importance of social, cultural, and political influences of Japanese American families and communities. P/NP or letter grading.

105. Social Welfare Policy in Modern America: Historical Perspectives. (4) Lecture, three hours; outside study, nine hours. Historical overview of American social policy dealing with three core social problems: poverty, sickness, and joblessness. Programs developed by governments to ameliorate these problems: public or private insurance, cash transfers, or social service agencies. Knowledge of community infrastructure necessary for ascertaining its strengths and resources that can be mobilized for addressing and responding to community needs, issues, and concerns. Social service agencies and communities can work together in partnership to enhance quality of community life. P/NP or letter grading.

106. Research Seminar and Field Observation: Social Welfare, (4) Seminar, three hours; discussion, one hour; outside study, eight hours. Didactic component with focus on development of basic skills in the areas of research. Students select one field of observation experience (module) from a number of field settings. P/NP or letter grading.

107. Field Practicum: Social Welfare, (4) Lecture, three hours; discussion, one hour; outside study, eight hours. Requisite: course 106. In field practicum students are placed in a specific agency where they combine observation of agency functions with participation in specific agency tasks and roles under institutional supervision of an agency mentor and a UCLA faculty member. P/NP or letter grading.

M108S. Violence against Women, (4) Same as Women's Studies M108S. Lecture, three hours. Requisite: Women's Studies 10. Factual information and theoretical analyses regarding various forms of violence against women and girls in their homes, workplace, and communities through critical examination of social structures and social science research. Letter grading.

103A-103B. Community Research and Services Seminars. (4-4) Formerly numbered 190A-190B. Seminar, three hours; service learning, four hours; outside study, five hours. Course 190A is required to 103B. Limited to juniors/seniors. History and roles of social welfare policy within government, organizations, and communities. Reflections on service-learning site experiences, with application of issues related to lecture and seminar readings. Students to be assigned to two-semester tutoring/mentoring site where they apply tutoring techniques as they assist middle school children living in impoverished areas of Los Angeles County. In Progress (190A) and P/NP or letter (190B) grading.

131. Poverty, Poor, and Welfare Policy. (4) Seminar, three hours. Current research and policy issues concerning poverty in the U.S., with specific emphasis on single-parent households. Overview of measurements and characteristics of poor people; alternative theoretical explanations of poverty; historical overview of major social welfare policies to combat poverty, particularly Aid to Families with Dependent Children (AFDC) and Personal Responsibility and Work Opportunity Reconciliation Act (PROWA); and critical appraisal of recently enacted state welfare reform policies. Relationship between research knowledge about poverty and current policies, and effects of gender, ethnicity, and class on patterns of poverty and policy responses. P/NP or letter grading.

M140. Introduction to Study of Aging. (4) Same as Gerontology M140 and Psychology M140.) Lecture, three hours. Designed for juniors/seniors. Perspectives on major features of human aging — biological, psychological, and social dimensions. Introduction to information on the range of influences on aging to prepare students for subsequent specialization. P/NP or letter grading.

163. Prevention of Risky Substance Use and Related Problems. (4) Lecture, four hours. Limited to juniors/seniors. Prevention of substance use and related harms from illegal and illegal substances is major concern to parents, communities, and nations. Examination of research related to patterns of drug use and related harm (such as crime and mental health disorders) and effectiveness of interventions to reduce these problems. Through review of science-based programs and policies, evaluation of effectiveness of evidence-based interventions to increase student knowledge, skills, and expertise in determining effective interventions to reduce drug-related harm, using most up-to-date information. P/NP or letter grading.

164. HIV Prevention in the U.S. and in Developing World. (4) Lecture, three hours. Limited to juniors/seniors. Examination of various approaches to HIV prevention, drawing on infectious disease paradigms from public health and theories of behavior change from fields of psychology, sociology, and communications. Sexual behavior and injection drug use, existing and promising technologies to reduce HIV transmission, and fiscal, cultural, ethical, and moral dilemmas in allocation of prevention resources. P/NP or letter grading.

181. Nonprofit Sector, State and Civil Society. (4) (Formerly numbered C181.) Lecture, three hours; outside study, nine hours. Use of political economy perspective to analyze forces that have shaped rise and characteristics of nonprofit sector and its constituent elements. Examination of social history of nonprofit sector in U.S. Exploration of legal and policy environments and distinct organizational forms. Comparative perspective between U.S. and other countries. P/NP or letter grading.

191. Variable Topics Research Seminars: Social Welfare. (4) Seminar, three hours; outside study, nine hours. Examination in depth of particular subfield of social welfare (e.g., children and youth, nonprofit, health, mental health). Limits of investigation set by individual instructor. May be repeated for credit with topic change. Letter grading.

194. Internship Seminars: Social Welfare. (1) Seminar, one hour; outside study, three hours. Corequisite: course 195. Not open to freshmen. Introduction to topics relevant to psychosocial determinants of children's health and community resources for children and families, with opportunity to gain breadth and depth of knowledge in seminar setting. May be repeated for credit. P/NP grading.

195. Community Internships in Social Welfare. (2) Tutorial, four hours. Corequisite: course 194. Not open to freshmen. Introductory course in community-based child health and advocacy. Students learn about community resources for children and families through service learning experience and work with pediatric patients and families in UCLA pediatric unit. Students meet on regular basis with instructor and provide periodic reports of their experience. May be repeated for credit. Individual contract with supervising faculty member required. Letter grading.

199. Directed Research in Social Welfare. (2 or 4) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Four hours minimum required. May be repeated for credit. Individual contract required. P/NP or letter grading.
Graduate Courses

201A-201B. Dynamics of Human Behavior. (3-3) Lecture, two hours discussion, one hour. Biopsychosocial factors associated with individual and group behavior and development as applicable in social functioning of individuals and groups. Emphasis on theoretical issues and issues which contribute to unified theory of human development. Letter grading.

202A-202B. Dynamics of Human Behavior. (2-2) Discussion, two hours. Requires: courses 201A, 201B. Deviations and pathologies of stress in physical, emotional, and cognitive areas of human functioning as those problems relate to role and function of social workers. S/U or letter grading.

203A-203B-203C. Integrative Seminars. (2-2-2) Seminar, two hours. Integrates knowledge to bring together theory and practice of social work in variety of topic areas relevant to profession. Includes identification of problem areas and populations-at-risk requiring further examination. S/U or letter grading.

M203E. Hispanic Mental Health Issues and Treat- ment. (2) (Same as Psychiatry M231.) Seminar, two hours. Mental health issues and needs of Hispanics through seminars and videotapes, dealing with historical components of culture and the United States. Analysis of various theoretical perspectives regarding biopsychosocial behavior; distinguishing psychodynam- ics from cultural factors in treatment of Spanish-speaking patients. Focus on Hispanic families, homeless, undocumented persons, and criminal justice system clientele. Letter grading.

M203F-M203G-M203H. Child Abuse and Neglect. (2-2-1) (Same as Community Health Sciences M245A-M245B-M245C.) Lecture, three hours; discussion, one hour. Course required is M202G, which is requi- site to M203H. Intensive interdisciplinary study of child physical and sexual abuse and neglect, with lec- tures by faculty members of Schools of Dentistry, Law, Medicine, Nursing, and Public Health and De- partments of Education and Psychology, as well as by relevant public agencies. Letter grading.

205. Cross-Cultural Awareness. (4) Lecture, two hours; discussion, two hours. Designed to aid students in development of professional perspectives that will allow them to work effectively with members of myriad cultural groups, to discuss with clarity alternative con- cepts of the behavior and interaction of individuals and groups, and to identify their own personal cultural values and assumptions. S/U or letter grading.

M206A. Homelessness: Housing and Social Ser- vice Issues. (4) (Same as Urban Planning M270.) Lecture, three hours; discussion, two hours. Homelessness is a social problem affecting thousands of people, one field trip. Review of current status of homelessness: who homeless are, what social services and housing are available, existing and proposed programs — appro- priate architecture, management, and sources of funding. Outside speakers include providers of serv- ices to homeless. Letter grading.

220. History and Philosophy of Social Welfare. (2) Discussion, two hours. History of social work: body of knowledge, methodology, and process, and point of view analyzed within context of economic, political, social, philosophical, and scientific climate of period. S/U or letter grading.

221B. Social Welfare Policy and Services II. (4) Lecture, three hours; outside study, nine hours. Un- derstanding theoretical concepts and relevant empirical evidence dealing with how organi- zations develop and maintain their internal functions. Development of beginning skill in organizational anal- ysis. Special emphasis: organizational analysis of social welfare services. S/U or letter grading.

223. Seminar: Social Work Profession. (2) Semi- nars, two hours. Nature and role of social work in con- temporary social services; social work in other professions; probable future trends in profession; social work ethics, professional organizations, certification li- censing; professional responsibility for continued self- criticism and improvement of profession. S/U grading.

225A. Formulation and Analysis. (4) Discussion, three hours. Designed for Ph.D. students. Examina- tion of principal issues in development, formulation, and adoption of U.S. social welfare policies, with par- ticular focus on income distribution and redistribution. Emphasis on analysis of social policy issues and con- ceptual frameworks for analysis. S/U or letter grading.

225B. Implementation and Evaluation. (4) Discuss- sion, three hours. Designed for Ph.D. students. Exam- ination of issues in implementation and evaluation of social welfare policies, particularly those pertaining to provision, organization, and delivery of social services, including auspices funding, distribution, criteria for effectiveness, and use of quantitative methods in poli- cy analysis. S/U or letter grading.

231A-231B-231C. Advanced Theory of Social Wel- fare Practice with Individuals, Families, and Groups IV, V, VI. (4-4-4) Lecture, three hours; out- side study, nine hours. Corequisite: required social work practicum. Advanced-level, critical analysis of theories, concepts, and principles underlying social casework practice. Theoretical models related directly to practice with di- verse population of older adults. Presentation of compre- hensive tools for multidimensional geriatric assess- ment. How to engage in collaborative treatment plan- ning across range of late-life problems and address impediments to intervention process. Theoretical un- derpinnings and most effective practice models to en- able students to serve needs of older clients and their families as they adjust to late-life transitions, as well as to health and mental health problems most prevalent for older adults. Client populations range from well el- derly to physically frail and/or demented from diverse backgrounds. S/U or letter grading.

231D. Advanced Theory of Social Welfare Practice with Individuals, Families, and Groups — Gerono- tology. (4) Lecture, three hours; outside study, nine hours. Corequisite: required social work practicum. Advanced-level, critical analysis of theories, concepts, and principles underlying social casework practice. Theoretical models related directly to practice with di- verse population of older adults. Presentation of compre- hensive tools for multidimensional geriatric assess- ment. How to engage in collaborative treatment plan- ning across range of late-life problems and address impediments to intervention process. Theoretical un- derpinnings and most effective practice models to en- able students to serve needs of older clients and their families as they adjust to late-life transitions, as well as to health and mental health problems most prevalent for older adults. Client populations range from well el- derly to physically frail and/or demented from diverse backgrounds. S/U or letter grading.

231E. Advanced Theory of Social Welfare Practice with Individuals, Families, and Groups — School Social Work. (4) Lecture, three hours; outside study, nine hours. Integration of theory and practice as they pertain to role of social workers in school settings. Bi- opsycho-sociological assessment of students (in- cluding, but not limited to, differences due to ethnic and/or cultural diversity and to students who are learn- ing handicapped), ecological intervention strategies, collaboration with and social groups, and role of liaison between pupils, family, school, and community. Use of discussion, videos, current literature, and case presentation to explore impact of school social workers as change agents. S/U or letter grading.

240A-240B. Theory of Social Welfare Practice in Organizations, Communities, and Policy Settings I, II. (3-3) Lecture, three hours. Corequisite: required social work practicum. Emphasis on theoretical de- velopments in administration, planning, and commu- nity organization; understanding the community as a social system; administration of organizations; role of the practitioner in identifying, analyzing, and evaluating needs, existing programs, policies, structures, and strategies of intervention. Letter grading.

241A-241B-241C. Advanced Theory of Social Wel- fare Practice in Organizations, Communities, and Policy Settings IV, V, VI. (4-4-4) Lecture, three hours; outside study, nine hours. Corequisite: re- quired social work practicum. Emphasis on various patterns of community action for attaining social wel- fare objectives; research and field experience direct- ed toward study of social problems within context of community planning; emerging patterns of physical, economic, and social planning within framework of social change theory. S/U or letter grading.

241D. Social Advocacy and Domestic Violence. (4) (Same as Law M339.) Lecture, three hours; field- work. Use of domestic violence as case study to give students skills needed to work with individuals and families in different settings. S/U or letter grading.

241E. Leadership, Development, and Govern- ment of Nonprofit Organizations. (4) (Same as Public Policy M228 and Urban Planning M288.) Lecture, three hours; outside study, nine hours. Corequisite grading. Letter grading.

241F. Strategic Planning for Public and Nonprof- it Organizations. (4) (Same as Public Policy M247 and Urban Planning M290.) Lecture, three hours; out- side study, nine hours. Corequisite grading. Letter grading. S/U or letter grading.

245A-245B. Development of Social Work Practice. (4-4) Discussion, three hours. Designed for Ph.D. students. S/U or letter grading.

245A. Epistemology of Practice. (4) Discussion, three hours. Designed for Ph.D. students. Guiding scientific methods in practice theory, techniques, and development, and change of practice theories; intellec- tual foundations of practice theories; how professionals learn, apply, accumulate, and modify the practice knowledge; science and practice interplay. S/U or letter grading.

245B. Models of Social Work Practice Research. (4) Discussion, three hours. Designed for Ph.D. students. Research for practice, with major emphasis on meth- ods of intervention research which seek to design, test, evaluate, and disseminate innovative interven- tion technologies. S/U or letter grading.

260. Social Welfare Research. (3) Lecture, three hours; outside study, six hours. Sources, nature, and uses of social work research and research-based knowl- edge and broader social context of social wel- fare activities. Critical analysis of major methods of developing scientific knowledge. S/U or letter grading.

Social Welfare / 565
281A-281B-281C. Advanced Social Welfare Research. (2-2-2) Discussion, two hours. Individual or group research projects requiring intensive examination and analysis of a problem area, directed toward development of research knowledge and techniques for social work practice. In Progress (281A, 281B) and S/U or letter (281C) grading.

285A-285B-285C. Research in Social Welfare. (4-4-4) Discussion, three hours. Review of areas of research of concern to social workers, with special attention to design, instrument construction, data collection, data reduction, analysis, and interpretation. Designs studied include survey, panel, experimental observation, and theory development research. S/U or letter grading.

285E. Research in Gerontology. (4) Lecture, three hours. Overview of research in aging. Development of research on aging and associated theoretical frameworks, conducting literature reviews, selecting appropriate research design, identifying sampling methods. Special considerations in aging research, appropriate research design, identifying sampling frameworks, conducting literature reviews, selecting research questions, selecting appropriate theoretical and statistical approaches to research problem formulation; design, analysis of social research data. S/U or letter grading.

286C. Research Internship. (4) Fieldwork, four hours. Supervised study and training through participation in research conducted by students and carried out under faculty supervision, enabling students to apply research skills developed in prior courses. May be repeated for credit. S/U grading.

290A-290B-290C. Seminars: Social Work. (4-4-4) Seminars of special interest, nine hours. Series of seminars dealing with trends in social work and social welfare, with focus on current social problems affecting individuals, groups, and communities and new patterns of intervention based on research demonstrations and statistics. S/U or letter grading.

M290D. Women, Health, and Aging: Policy Issues. (4) (Same as Health Services CM241.) Lecture, three hours; discussion, one hour. Preparation: two upper division biological sciences courses, Social and economic context of older women's aging, major physical and psychological changes older women experience, delivery of health services to this population, and policies that respond to their health needs. Letter grading.

M290L. Children with Special Healthcare Needs: Systems Perspective. (4) (Same as Community Health Sciences M420 and Health Services M420.) Lecture, three hours. Examination and evaluation of principles, policies, programs, and practices that have evolved to identify, assess, and meet special healthcare needs of children and adolescents with developmental disabilities or chronic illness and their families. Letter grading.

M290J. Child Welfare Policy. (4) (Same as Public Policy M212.) Lecture, three hours. Development of social policy as it affects families and children from different cultural backgrounds and as it is given form in public child welfare system. Examination of development of an infrastructure to support needs of children and families. S/U or letter grading.

M290K. Mental Health Policy. (4) (Same as Public Policy M213.) Lecture, three hours. Examination of evolution of social policy and services for mentally ill, with emphasis on political, economic, ideological, and sociological factors that affect views of mentally ill and services they are provided. S/U or letter grading.

M290L. Poverty, Poor, and Welfare Reform. (4) (Same as Public Policy M214 and Urban Planning M246.) Lecture, three hours. Major policy and research issues concerning poverty and social welfare policy directed toward poor in U.S. S/U or letter grading.

M290M. Health Policy. (4) (Same as Public Policy M215.) Lecture, three hours. Introduction to contemporary issues in health delivery, providing historical perspective on emergence of these issues. Examination of major public programs and their relationship to issues of access and cost. S/U or letter grading.

M290N. Public Policy for Children and Youth. (4) (Same as Public Policy M216.) Lecture, three hours. Policy issues that affect children and adolescents in relation to their interaction with schools and community, federal, state, and local levels. S/U or letter grading.

M290P. Aging Policy, Elderly and Families. (4) (Same as Public Policy M211.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Examination of theoretical models and concepts of policy process and application to aging policy analysis of decision-making processes that affect social policy. Description of historical development of contemporary policy. Examination of distributional proposals and issues. Letter grading.

290T. Social Work and Juvenile Justice System. (4) Lecture, three hours; outside study, nine hours. Designed for graduate students. Exploration of evolution of juvenile justice system in the U.S. and issues that have shaped current-day practice. Role of social workers in system to be theme throughout course. Letter grading.

M290U. Community Development and Housing Policies: Roles of State, Civil Society, and Non-profits. (4) (Same as Public Policy M227 and Urban Planning M275.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Examination of role of U.S. housing policy and role of government agencies and community organizations. Is problem housing or economic development? Should interventions be directed toward inner city housing markets or through neighborhood strategies? What lessons can be learned from experiences of other countries? Letter grading.

M290V. Management Challenges and Tools for Nonprofit Sector. (4) (Same as Public Policy M226 and Urban Planning M286.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Fundamental building blocks for successful management in nonprofit sector. Students develop management skills in strategic thinking/problem solving, project management, team building, and negotiation. Use of case studies to troubleshoot critical challenges, from finance to crisis management to marketing, that nonprofit managers typically face. Letter grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar to be arranged. Credit by arrangement. Service personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

401A-401B-401C. Practicum: Social Work. (3-3-3) Laboratory, 20 hours. Educationally directed practicum conducted in selected health, welfare, and educational facilities. Provides opportunities for students to test their theoretical knowledge and to acquire disciplined practice foundation in profession. In Progress (401A, 401B, 401C). Practicum in social work, arranged for students in keeping with their major field of study. In Progress (402A, 402B) and S/U or (402C) grading.

402A-402B-402C. Advanced Practicum: Social Work. (4-4-4) Laboratory, 24 hours. Requires: courses 401A, 401B, 401C. Practicum in social work, arranged for students in keeping with their major field of study. In Progress (402A, 402B) and S/U or (402C) grading.

490. Professional Communication for Social Welfare. (2) Lecture, two hours. Writing workshop on students’ papers in progress, with eye toward scholarly publication. Analytic and discursive style, use and adaptation of rhetorical and stylistic principles. May be repeated once. S/U grading.

501. Cooperative Program. (2 to 8) Tutorial, to be arranged. Preparation: consent of UCLA graduate advisor. Open to graduate students whose area of specialization is in social welfare. For advanced graduate students in social welfare. Designed for graduate students. Study of major income-maintenance programs in U.S., with emphasis on interaction of moral attitudes toward poor and structure and implementation of law, policy, and administration. Current reform consensus and major reforms. Letter grading.

Scope and Objectives
The minor in Society and Genetics provides undergraduate students with the opportunity to understand and probe the complex problems and possibilities presented by genetics, with special attention to their social context and content. Given the dynamic interaction between genetics and the social world in which it is embedded, the minor is robustly multidisciplinary.

The emphasis on multidisciplinary scholarship is reflected in the collaborative cross-disciplinary approach to instruction in the core courses of the minor, as well as in the wide range of elective courses available in such areas as anthropology, biology, history, philosophy, public policy, and sociology.

Undergraduate Study
Society and Genetics Minor
To enter the Society and Genetics minor, students must have (1) an overall grade-point average of 2.5 or better and (2) file a petition in 1323 Rolfe Hall no later than three terms before graduation. They are encouraged to declare the minor as early as possible and to discuss their proposed course of study with the undergraduate adviser.

Required Upper Division Courses (30 to 34 units): (1) Society and Genetics 101 or, for life sciences majors, a 4- or 5-unit upper division elective course from the approved list of courses issued each term by the program, (2) course M102W, (3) course 191, and (4) at least four upper division elective courses (minimum 16 units) from the approved list. One individual research tutorial and corequisite research seminar (courses 190 and 199) may be applied; enrollment in additional 190/199 courses may be considered by petition.

Students may petition to have a course not on the approved list applied toward the four-course elective requirement.

No more than one upper division course may be applied toward both this minor and a major or minor in another department or program. Each minor course must be taken for a letter grade. Successful completion of the minor is indicated on the transcript and diploma.

Society and Genetics
Upper Division Courses

102W. DNA: Promise and Peril. (5) Same as Human Genetics M102W. Lecture, three hours; discussion, two hours. Enforced requisite: English Composition 3 or 3H or English as a Second Language 36. Satisfies Writing II requirement.

190. Research Colloquia in Society and Genetics. (2) Seminar, two hours. Enforced corequisite: course 199. Designed to bring together advanced undergraduate students undertaking supervised research in seminar setting with one or more faculty members to discuss their own work or related work in discipline. Led by one supervising faculty member. May be repeated once for credit with topic change.

191. Variable Topics Research Seminars: Perspectives in Society and Genetics. (5) Seminar, three hours. Strongly recommended requisites: courses 101, M102W. Research seminar on selected topics in society and genetics. Reading, discussion, and development of culminating paper that explores problem that emerges where life and human sciences cross paths. May be repeated once for credit with topic change.

199. Directed Research in Society and Genetics. (4 to 5) Tutorial, two hours. Enforced corequisite: course 190. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper required. May be repeated once for credit with topic change. Individual contract required.

Society / 567
zations and health agencies, government service, and human resources.

The Sociology Department faculty includes internationally renown scholars who address topics ranging in scope from the organization of face-to-face interaction to the consequences of globalization. The department boasts outstanding teachers — five of whom have won Distinguished Teaching Awards — and excellently trained teaching assistants, many of whom have also won awards. The select honors program has a record for training students in the fundamentals of research and generating honors theses of substantial accomplishment.

The Ph.D. in Sociology usually leads to a career in research and/or teaching. Although most sociologists are employed by universities, there are increasing career opportunities in government and other nonuniversity research centers.

Undergraduate Study
Sociology B.A.

Presociology Major
While students are completing the lower division preparation courses for the major, they may be classified as Presociology majors.

Preparation for the Major
Required: Sociology 1, 20; one course from Mathematics 2, 3A, or 31A; one course from Statistics 10, 11, 13, or Psychology 100A.

Each course required for the major in Sociology, including lower division and allied field courses, must be taken for a letter grade with a grade-point average of 2.0. A minimum grade of C is required in each Preparation for the Major course.

Transfer Students
Transfer applicants to the Presociology major are expected to have completed Program in Computing 10A, 10B, and (3) completing Sociology 112, 113. Majors in Sociology may select a specialization in Computing.

Computing Specialization
Majors in Sociology may select a specialization in Computing by (1) satisfying all the requirements for a bachelor's degree in the major, (2) completing Program in Computing 10A, 10B, 10C, and (3) completing Sociology 112, 113. Each course must be taken for a letter grade. Students graduate with a bachelor's degree in sociology and a specialization in Computing.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmqrintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of Sociology offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Sociology.
Sociology

Lower Division Courses

1. Introductory Sociology. (5) Lecture, four hours; discussion, one hour. Survey of characteristics of sociocultural processes, social interaction, and tools of sociological investigation. P/NP or letter grading.

2. Social Organization of Black Communities. (5) (Same as Afro-American Studies M5.) Lecture, four hours; discussion, one hour; field trips. Analysis and interpretation of social organization of black communities, with focus on origins and development of black communities, competing theories and research findings, defining characteristics of group interaction. P/NP or letter grading.

3. Social Thought and Origins of Sociology. (5) Lecture, three hours; discussion, two hours. Introduction to history of sociological thought, with special emphasis on sociological perspectives to development of discipline of sociology. Exposition and analysis of selected sociological theories and concepts, especially from the 18th to 19th centuries. Letter grading.

4. Contemporary Sociological Research Methods. (5) Lecture, three hours; discussion, one hour. Introduction to methods used in sociological research, with focus on issues of research design, data collection, and analysis of data. Fieldwork may be required. Letter grading.

5. Conversation and Society. (4) Lecture, three hours. Examination of social norms that organize conversational interaction in everyday life. Consideration of relationship between conversation and other institutions in society. P/NP or letter grading.

88A-882. Lower Division Seminars. (1 each) Seminar, one hour. Limited to 15 freshmen/sophomores. Variable topics of current sociological interest. Consult Schedule of Classes or Department Announcements for topics and instructors. P/NP grading.

Upper Division Courses

102. Contemporary Sociological Theory. (5) Lecture, three hours; discussion, one hour. Requisite: course 101. Critical examination of significant theoretical formulations from 1920 to the present. P/NP or letter grading.

105A. Field Research Methods I. (6) Lecture, two hours; discussion, two hours; fieldwork, eight to 10 hours. Research practice in which students write field notes on their experiences, and observations of internships field placement. Readings focus on fieldwork roles and relations, observing and describing, writing field notes, field interviewing, ethical issues, and preliminary data analysis. Fieldwork and extensive field notes required. Letter grading.

106B. Field Research Methods II. (6) Lecture, two hours; discussion, two hours; fieldwork, 10 hours. Requisite: course 105A. Collection and analysis of both field notes and unstructured interview data from student field placement. Use of techniques of qualitative data analysis, including qualitative coding, analytical memoing, and grounded theory methods, to analyze these materials and to write ethnographic paper. Letter grading.

110. Sociohistorical Methods. (4) Lecture, three hours; discussion, one hour. Designed for juniors/seniors. Generalization of characteristics of abstract science, generalization, inference, and verification and particular problems of historical specification, comparison, and counterfactual reasoning in constructing and testing replicable explanation of historical event. P/NP or letter grading.

111. Social Networks. (4) Lecture, three hours; laboratory, one hour. Analysis of how social networks create social structure, how social actors utilize them, and their unexpected effects. Topics include research, firm efficiency, and social movements. Visualization programs, computer simulations, and research project. P/NP or letter grading.

112. Introduction to Mathematical Sociology. (4) (Formerly numbered C112.) Lecture, three hours; laboratory, one hour. Requisite: Mathematics 2, 3A (course whose content includes introductions to probability theory, matrix algebra, and differential and integral calculus), Statistics 10. Mathematical treatment of several sociological phenomena, such as population mobility, population growth, organizational structure, and friendship patterns, each covered in some detail, including initial development and subsequent evaluation and modification (emphasizing both deductive and computational aspects of mathematical). Letter grading.

113. Statistical and Computer Methods for Social Research. (4) Lecture, three hours; laboratory, one hour. Requisite: Statistics 10. Continuation of Statistics 10, covering more advanced statistical techniques and mathematical learning, such as variance, or factor analysis. Content varies. Students learn how to use computer and write papers analyzing prepared data sets. P/NP or letter grading.

114A-114B. Introduction to Scientific Sociology. (4-L) Lecture, three hours. How to make testable arguments about social reality and how to test those arguments in context of study of social stratification, and ethnicity and gender inequality. Introduction to elementary, robust analytic tools. P/NP or letter grading.

M115. Environmental Sociology. (4) (Same as Environment M133.) Lecture, three hours; discussion, one hour. Relationship between society and environment. Analysis in detail of interrelations between social factors (such as class, race, gender, and religion) and environmental factors (such as pollution, waste disposal, sustainability, and global warming). P/NP or letter grading.

117. Family Demography. (4) Lecture, three hours; discussion, one hour. Examination of demographic behaviors, such as marriage, divorce, and childbearing, associated with family and household organization. Sociological approach to understanding causes and consequences of trends and differences in family formation and dissolution. P/NP or letter grading.

M118. Simulating Society: Exploring Artificial Communities. (5) (Same as Honors Collegium M148.) Seminar, three hours; computer laboratory, one hour. Examination of social behavior through computer simulations of behavior in artificial communities. P/NP or letter grading.

119. Primate Societies. (4) (Formerly numbered 191K.) Lecture, three hours; discussion, one hour. Limited to 12 juniors/seniors. Topics on diverse behaviors and cultural forms of primate cousins, with special focus on baboons, chimpanzees, and gorillas. Examination of primate socioecology, sexual competition, demography and kinship, politics, communication, and interactions within and between groups. Implications for our lives as human primates. P/NP or letter grading.

M124A-M124B. Conversational Structures I, II. (4-4) (Formerly numbered CM124A-CM124B.) (Same as Communication Studies M114A-M114B.) Lecture, three hours; discussion, one hour. P/NP or letter grading. M124A. Introduction to some structures that are employed in organization of conversational interaction, such as turn-taking, organization, of regularities of some basic conversational units with limited expansions. M124B. Requisite: course M124A. Consideration of some more expanded sequence structures, including conversational sequences, and overall structural organization of single conversations. P/NP. Requisite: course M124A. P/NP or letter grading.

125. Talk and Social Institutions. (4) (Same as Communication Studies M125.) Lecture, four hours; discussion, one hour. Designed for juniors/seniors. Practices of communicative interaction in a number of major institutional sites in contemporary society. Setting varies but may include emergency services, police and courts, medicine, news interviews, and political oratory. Concurrently scheduled with course C258. P/NP or letter grading.

126. Study of Norms. (4) Lecture, three hours; discussion, one hour. Properties of norms, of normative systems of law and professional methods for describing, producing, and altering social norms in contrasting settings of socially organized activities; relevance of these properties for programmatic problems of analytic sociology. Fieldwork required. P/NP or letter grading.

127. Mind and Society. (4) Lecture, two and one-half hours; discussion, one hour. Requisite: course 1. Study of social production of modes of thought and forms of knowledge. Study of ways in which bodies of knowledge and cognitive systems are used, transformed, and understood in everyday, organizational, and extraordinary contexts. P/NP or letter grading.

128. Sociology of Emotions. (4) Lecture, three hours; discussion, one hour. Requisite: course 1. Designed for juniors/seniors. Sociological theories and explanations of social conditions shaping and producing emotional experiences; effects of individual expression of emotions on social conditions; relations between thought, sensations, and emotions; self and emotions; social construction of emotions. P/NP or letter grading.

129. Sociology of Time. (4) Lecture, three hours; discussion, one hour. Conceptualization of time seen from scientific, philosophical, and sociological perspectives; “cyclical” and “linear” time in primitive, ancient, and medieval societies; ritual, the sacred, and experience; time and space in everyday life and social organization; construction of urban, modern, and postmodern societies by clock, calendar, and schedule; future value orientation and notion of progress; time, labor, and social domination. P/NP or letter grading.

130. Self and Society. (4) Lecture, three hours; discussion, one hour. Examination of social processes shaping experience, definition, and enactment of self and personal identity. P/NP or letter grading.

132. Social Psychology: Sociological Approaches. (4) Lecture, three hours; discussion, one hour. Survey of contribution of sociologists to theory and research in social psychology, including theories of social control; conformity and deviation; reference groups; and interaction process. P/NP or letter grading.

133. Collective Behavior. (4) Lecture, three hours; discussion, one hour. Requisite: course 1. Designed for juniors/seniors. Characteristics of crowds, mobs, publics, social movements, and revolutions; their relation to social unrest and their role in developing and changing social organization. P/NP or letter grading.

134. Culture and Personality. (4) Lecture, three hours; discussion, one hour. Requisite: course 1. Designed for juniors/seniors. Theories of relation of variations in personality to culture and group life, in primitive and modern societies, and influence of social role on behavior. P/NP or letter grading.

135. Group Processes. (4) Lecture, three hours; discussion, one hour. Systematic study of formation, structure, and functioning of groups; analysis of group processes and group products from variety of theoretical viewpoints; implications of research findings. P/NP or letter grading.
151. Comparative Immigration. (4) Lecture, three hours; discussion, one hour. Survey of immigration of European, Asian, and Hispanic groups to the U.S. since the mid-19th century. Examination of immigration experience on ethno-racial groups that migrated voluntarily to this country, with emphasis on immediate postimmigration settlement. P/NP or letter grading.

M152. Comparative Acculturation and Assimilation. (4) Lecture, three hours; discussion, one hour. Requi- site: course 151. Comparison of acculturation and assimilation of Europeans, Africans, Mexicans, and Asians in the U.S., with emphasis on cultural consequences of immigration. P/NP or letter grading.

M153. Chinese Immigration. (4) (Same as Asian American Studies M130C.) Lecture, three hours; dis- cussion, one hour. Survey of sociological studies of Chinese immigration, with focus on international con- text, organization, and institutions of Chinese America and its interactions with social environment. P/NP or letter grading.

154. Race and Ethnicity: International Perspectives. (4) Lecture, three hours; discussion, one hour. Open to freshmen. Role of race and ethnicity in political, economic, and social lives of nations other than the U.S. P/NP or letter grading.

M155. Latinos in America. (4) (Same as Chicana and Chicano Studies M155.) Lecture, three hours; discus- sion, one hour. Designed for juniors/seniors. Explora- tion of history and social conditions of Latinos in Los Angeles as well as particular emphasis on their location in larger social structure and on comparisons with other minority groups. Topics in- clude migration, family, education, and work issues. P/NP or letter grading.

156. Race and Ethnicity in American Life. (4) (Same as PSY 140, Psychology M163.) Lecture, three hours; discussion, one hour. Role of race and ethnicity in the U.S., including interplay between racial and ethnic structures and meanings. Special at- tention to comparison of African American and Euro- pean American experiences and to transformation of Asian American and Latino communities and the na- tion generally, brought by renewal of mass migration in second half of the 20th century. P/NP or letter grading.

157. Social Stratification. (4) Lecture, three hours; discussion, one hour. Analysis of American social structure in terms of evaluational differentiation. Topics include criteria for differentiation, bases for evaluation, types of stratification, composition of strata and status systems, mobility, consequences of stratification, and problems of methodology. P/NP or letter grading.

158. Urban Sociology. (4) Lecture, three hours; dis- cussion, one hour. Analysis of urbanization and urbanism in the U.S. and world. P/NP or letter grading.

159. Comparative Studies of Jewish Communities in the U.S. and Abroad. (4) Lecture, three hours; dis- cussion, one hour. History, distribution, structure, and functioning of major Jewish communities, with particular emphasis on North America and Israel. In- terracialities and sources of conflict between Jews and Gentiles in Western countries. More generally, economic and social integration of Diaspora Jewish communities. Fieldwork may be required. P/NP or letter grading.

160. Comparative Studies of Jewish Communities in the U.S. and Abroad. (4) Lecture, three hours; dis- cussion, one hour. History, distribution, structure, and functioning of major Jewish communities, with particular emphasis on North America and Israel. In- terracialities and sources of conflict between Jews and Gentiles in Western countries. More generally, economic and social integration of Diaspora Jewish communities. Fieldwork may be required. P/NP or letter grading.

M162. Sociology of Gender. (4) (Same as Women's Studies M162.) Lecture, three hours; discussion, one hour. Requisite: course 1. Historical overview of the sociology of gender and analysis of processes by which gender is socially constructed. Topics include gender and population, reproductive issues, political attitudes of mothers, motherhood, and membership, and new reproductive technologies. Letter grading.

M164. Politics of Reproduction. (4) (Same as Women's Studies M164.) Lecture, three hours; discussion, one hour. Title refers to intersection between politics and life cycle. Topics include social construction of gender and population, reproductive issues, political atti- tudes of mothers, motherhood, and membership, and new reproductive technologies. Letter grading.

M165. Sociology of Race and Labor. (4) (Same as African American Studies M165.) Lecture, three hours; discussion, one hour. Limited to juniors/seniors. Exploration of relationship between race in the U.S. and the labor movement in the U.S. and other countries, as well as comparative analysis of labor movements in which workers and unions have organized people of color into unions in efforts to improve their wages and working conditions. Impacts of globalization on these dynamics. P/NP or letter grading.

M166. Women in Socialist and Post-Socialist States. (4) (Same as Women's Studies M166.) Lecture, three hours; discussion, one hour. Requisite: course 1. Exploration of diverse aspects of women's lives in socialist and post- socialist states. Although transition from socialism occurs differently, gender differences are everywhere central to democratization and marketization. Discussion of ways in which state policies affect women. Let- ter grading.

168. Organizations and Society. (4) Lecture, three hours; discussion, one hour. Sociological analysis of organizations and their social environment. Introduction to classic theories, current methods, and re- search on behavior of organizations in society. P/NP or letter grading.

169. Law and Society. (4) Lecture, three hours; dis- cussion, one hour. Specific topics may include law in preindustrial and industrial societies, and legal recognition of contemporary social relations; participants' experienc- es of legal processes, legal perceptions of justice, social movements toward equal justice, roles of lawyers and judges, social impact of court decisions. P/NP or letter grading.

170. Medical Sociology. (4) Lecture, three hours; discussion, one hour. Requisite: course 1. Provides majors in Sociology and other social sciences, as well as students preparing for health sciences careers, with understanding of health-seeking behavior and inter- personal and organizational relations that are in- volved in receipt and delivery of health services. P/NP or letter grading.

171. Occupations and Professions. (4) Lecture, three hours; discussion, one hour. Description and analysis of representative occupations and profes- sions, with emphasis on contemporary U.S. P/NP or letter grading.

172. Entrepreneurship. (4) Lecture, three hours; dis- cussion, one hour. Requisite: course 1. Description and analysis of entrepreneurship, with special refer- ence to historical origins, ideology, international com- parisons, women and ethnic minority participation, le- gal and illegal forms, public and private auspices. P/NP or letter grading.
173. Economy and Society. (4) Lecture. three hours; discussion, one hour. Sociology of economic life, with emphasis on principal economic institutions of the U.S. P/NP or letter grading.

174. Sociology of the Family. (4) (Same as Women’s Studies M174.) Lecture, three hours; discussion, one hour. Theory and research dealing with modern family, its institutions, including historical changes, variant family patterns, family as an institution, and influence of contemporary society on the family. P/NP or letter grading.

175. Sociology of Education. (5) (Same as Education M175.) Lecture, four hours. Study of social processes and interaction patterns in educational organizations; relationship of such organizations to aspects of society, social class, and power; social relations within school, college, and university; formal and informal groups, subcultures in educational systems; roles of teachers, students, and administrators. Letter grading.

176. Sociology of Mass Communication. (4) (Same as Communication Studies M147.) Lecture, four hours; discussion, one hour (when scheduled). Studies in relationship between mass communication and social organization. Topics include history and organization of major media institutions, social forces that shape media, media news and entertainment, selected studies in media content, and effects of media on society. P/NP or letter grading.

178. Sociology of Caribbean. (4) (Same as Afro-American Studies M178.) Lecture, three hours; discussion, one hour. Limited to juniors/seniors. Historical and social development of the Caribbean, with emphasis on colonization and decolonization, development and underdevelopment, race-making institutions and evolution of race relations, nationalization, and migration. P/NP or letter grading.

179. Comparative East Asian Societies. (4) Lecture, three hours; discussion, one hour. Designed for juniors/seniors. Conduct and content of survey of traditional societies of East Asia, including China, Japan, Korea, and Vietnam, with focus on dynamic interactions between culture, state, and society in process of change. P/NP or letter grading.

180A-180Z. Special Topics in Sociology. (4 each) Lecture, three hours; discussion, one hour, Limited to juniors/seniors. Study of selected topics of sociological interest. Consult Schedule of Classes for topics and instructors. May be repeated for credit and may be applied as elective units toward Sociology major. P/NP or letter grading.

181. State and Society in China. (4) Lecture, three hours; discussion, one hour. Designed for juniors/seniors. Thematic overview of post-1949 society and politics in China, with emphasis on long-term evolution of China’s state and society from 1949 to present. P/NP or letter grading.

182. Political Sociology. (4) Lecture, three hours; discussion, one hour. Contributions of sociology to study of politics, including analysis of political aspects of social systems, social context of action, and social bases of power. P/NP or letter grading.

184. Social Change. (4) Lecture, three hours; discussion, one hour. Study of patterns of social change, resistance to change, and change-producing agencies and processes. P/NP or letter grading.

185. American Society. (4) Lecture, three hours; discussion, one hour. Analysis of major institutions in the U.S. in historical and international perspective, with emphasis on topics such as industrialization, work, state, politics, community, family, religion, and American culture. Theories of social change, conflict, and order applied to case of the U.S. P/NP or letter grading.

186. Latin American Societies. (4) Lecture, three hours; discussion, one hour. Social structure and social and political conflict in Latin America, with special attention to factors of race and class structures and dilemmas of economic and political development. Country and specific focus varies each term. P/NP or letter grading.

187. Population and Society in Middle East. (4) Lecture, three hours; discussion, one hour. Designed for juniors/seniors. Survey of Middle Eastern societies; their historic and environmental bases; contemporary demographic and cultural situation. P/NP or letter grading.

191DC. CAPPP Washington, DC, Research Sem- inar. (5) (Same as History M191DC and Political Science M191DC.) Seminar, three hours; laboratory, 24 hours. Limited to CAPPP Program students. Semi- nars for undergraduate students in Center for Ameri- can Politics and Public Policy’s program in Washing- ton, DC. Focus on development and execution of original empirical research based on experiences from Washington, DC-based field placements. Study of vari- ety of qualitative methods (observation, interviewing, etc.), with comparison to quantitative analysis. Exam- ination of features of solid and significant research; in- tensive writing. Letter grading.

191F. Undergraduate Seminar: Sociology of Glo- balization. (5) Seminar, three hours. Limited to ju- nior/seniors. Great expansion of social relations across globe has occurred over last 50 years. What are causes and mechanisms of this process, how far has it transformed human societies, and how far will it go in future? Economic, political, cultural, and military aspects of globalization, with focus on extent to which global expansion of capitalism, nation-state system, and American imperialism reinforce or undercut each other, producing new lines of division and conflict across world. Reading, discussion, and development of culminating project. Letter grading.

191H. Undergraduate Seminar: Justice and Sustainability. (5) Seminar, three hours. In-depth introduction to process of producing scholarly sociological research for students who intend to write undergraduate thesis for depart- ment honors. Letter grading.

191I. Undergraduate Seminar: Health and Inequality. (5) Seminar, three hours. Limited to juniors/se- niors. The growing paradox between social inequalities in health and survival were widening in the U.S. as in other de- veloped societies. Broad overview of these trends and their causes. Reading, discussion, and development of culminating project. Letter grading.

191J. Undergraduate Seminar: Mexican Society. (5) Seminar, three hours. Selected topics on contem- porary Mexican society and vital transformations it has undergone in recent years. Reading, discussion, and development of culminating project. Letter grading.

191M. Undergraduate Seminar: Social Ecology. (5) Seminar, three hours. Limited to juniors/seniors. Fundamentals of sociological approach to social ecol- ogy, also known as human ecology. Study of adapta- tion and interaction to its physical environment, including density, maintaining personal space, space and terri- toriality, and effects of environment on humans. Read- ing, discussion, and development of culminating proj- ect. Letter grading.

191Q. Undergraduate Seminar: Communication in Medical Care. (5) Seminar, three hours. Limited to ju- nior/seniors. Sociology dimensions of patient care in primary care context. Use of microsociological meth- ods to examine main facets of American primary care medical visits, including detailed analysis of interac- tional conduct of those visits and development of mi- croanalytical constructs into quantitative measures. Emphasis on direct contact with empirical materials and development of observational and analytic skills. Reading, discussion, and development of culminating project. Letter grading.
191R. Undergraduate Seminar: Cultural Sociology. (5) Seminar, three hours. Limited to juniors/seniors. Introduction to classic theoretical approaches and contemporary debates in study of social worlds dedicated to creating and handling cultural institutions such as literature, journalism, film/television, art, architecture, music, dance, and museums. Discussion of such issues as coauthorship, legitimacy, power, and prestige in cultural field. "Seminar" in this context is not synonymous with "lecture." May be repeated for credit. Individual contract required. Letter grading.

191S. Undergraduate Seminar: Sociology of Gender and Sexuality. (5) Seminar, three hours. Limited to juniors/seniors. Sexuality is important site for enactment of gender and gender identity. Sexuality, race, and social class shape our sexual practices and choices. Reading and writing about various cultural, historical, and anthropological texts and development of culminating project. Letter grading.

191T. Undergraduate Seminar: War and Society. (5) Seminar, three hours. Limited to juniors/seniors. Study of relationship between society's military and its social organization in general, with particular attention to shock-biased civic militarism characteristic of the West. Topics include honor, discipline, bureaucracy, conscription, logistics, total war, guerrilla war, terrorism, and counterinsurgency. Reading, discussion, and development of culminating project. Letter grading.

194. Research Group Seminars: Sociology. (2) Seminar, two hours. Designed for undergraduate students who are part of research group. Discussion of research methods and current literature in field. May be repeated for credit. P/NP grading.

M194DC. CAPPP Program Washington, DC, Research Seminars. (4) (Same as History M194DC and Political Science M194DC.) Seminar, three hours. Limited to CAPPP Program students in Winter Quarter. Seminars for undergraduate students in Center for American Politics and Public Policy's program in Washington, DC. Focus on development and execution of original empirical research based on experiences from Washington, DC-based field placements. Study of variety of qualitative methods (observation, interviewing, etc.), with comparison to quantitative analysis. Examination of features of solid and significant research; intensive writing. Letter grading. P/NP grading.

195. Community or Corporate Internships in Sociology. (4) Tutorial, three hours. Limited to juniors/seniors. Internship in community agency or business to serve as student's honors thesis. Research proposal, methods, and data collection; analysis of data and write-up; presentation of results. Letter grading.

198A-198B-198C. Honors Research in Sociology. (4-4-4) Tutorial, one hour. Requisites: course 191H. Design of research project to serve as student's honors thesis. Research proposal, methods, and data collection; analysis of data and write-up; presentation of results. Letter grading.

198B. Cooperative Research in Sociology. (2 to 4) Seminar, one hour. Limited to junior/senior Sociology majors. Independent intensive study designed for students who want to do research under guidance of faculty mentor. Scheduled meetings to be arranged between faculty member and student. Culpminating paper or project required. May be repeated for a maximum of 4 units, with no more than 4 in any one term. Individual contract required. Instructor, research advisor or P/NP or letter grading.

199. Directed Research in Sociology. (2 to 4) (Formerly numbered 197.) Tutorial, one hour. Preparation: 3.0 or permission of instructor. Research directed by department faculty member required. Letter grading.

Graduate Courses

201A-201B-201C. Professional Seminars: Sociology. (2-2-2) Seminar, two hours every other week. Required of first-year graduate sociology students. Introduction to range of theoretical perspectives represented by department faculty members. S/U grading.

202A-202B-202C. Theory and Research in Sociology. (4-4-4) Lecture, two hours; discussion, two hours. Required of first-year graduate sociology students. Examination of literature and methodology. May be repeated for credit. Individual contract required. P/NP or letter grading.

203. Research Seminar in Theorizing. (4) Seminar, four hours. Examination of selected issues and problems in classical or contemporary sociological theory. S/U or letter grading.

205. Family and Social Change. (4) Lecture, three hours. Examination of sources of change in family and household organization, with major focus on relationships among economic institutions, family structure, and family life. Consideration of concepts, theories, and data about kinship. S/U or letter grading.

206. Understanding Fertility: Theories and Methods. (4) (Same as Community Health Sciences M222.) Lecture, three hours. Preparation: one formal or social demography course. Requisites: Biostatistics 100A. Application of demographic theories and methods to describe fertility trends and differentials and social, economic, and cultural changes. Discussion of sex differences in fertility. For advanced students interested in population, demography, and social demography. Letter grading.

210C. Intermediate Statistical Methods III. (4) Lecture, four hours. Requisite: course 210B. Survey of advanced statistical methods used in social research, with focus on problems for which classical linear regression model is inappropriate, including categorical data, structural equation models, longitudinal data, incomplete and erroneous data, and complex samples. S/U or letter grading.

211A-211B. Comparative and Historical Methods. (4-4) Lecture, three hours. In Progress (211A) and S/U or letter (211B) grading. 211A. Strategies of Research and Conceptualization. Theory and method in relationship to theory and fact to social sciences, logic of comparative and historical analysis, and substantive paradigms of comparative and historical analysis. Reading involves theoretical and methodological texts representing substantive problem areas. 211B. Research Techniques. Requisites: course 211A. Topics include problem of evidence, quantitative and qualitative data. Techniques of data analysis, including use of manuscript census, content analysis, collective biography, and secondary analysis.

212A-212B. Survey Data Analysis. (4-4) Lecture, three hours. Requisites: courses 210A, 210B. Course 212A is enforced requisite to 212B. Analysis and interpretation of primarily nonequivalent quantitative data, with focus on sample survey and census data. Extensive practice at utilizing statistical methods encountered in previous courses in term paper in style of American Sociological Review or similar journal article. Topics include simple tabular analysis, log-linear analysis, ordinary least squares regression, robust regression, nonparametric and multivariate logistic regression, and scale construction. Logic of analysis and problems of statistical inference, including diagnostic procedures and methods for handling complex sample surveys. In Progress (212A) and letter (212B) grading.

212C. Study Design and Other Issues in Quantitative Data Analysis. (4) Lecture, three hours. Design of graduate research. Students who have had some exposure to statistics and quantitative methods. Introduction to study design, including experimental, longitudinal, cohort, time-series designs, contextual, and other designs. Discussion of suitability of various design classes for specific analytic goals, as well as their comparative strengths and weaknesses. S/U or letter grading.

M213A. Introduction to Demographic Methods. (4) (Same as Biostatistics MS208.) Lecture, three hours. Preparation: one introductory statistics course. Introduction to methods of demographic analysis. Topics include demographic rates, standardization, decomposition of differences, life tables, survival analysis, cohort analysis, birth interval analysis, models of population growth, stable populations, population projection, and demographic data sources. Letter grading.

M213B. Applied Event History Analysis. (4) (Same as Statistics M213B.) Lecture, three hours. Preparation: exposure to binary response models. Requisites: courses 210A, 210B. Introduction to regression-like analyses in which outcome is time to event. Topics include logit models for discrete-time event history models; piecewise exponential hazards models; proportional hazards; nonproportional hazards; parametric survival models; heterogeneity; multilevel survival models. S/U or letter grading.

216A-216B. Survey Research Design. (4-4) Lecture, nine hours; discussion, nine hours. Requisite: course 210A. History of survey method; focus on design, probability sampling, stratification and clustering. Students participate in survey research project. Letter grading.

223. Phenomenological and Interactionist Per- or letter grading.
speaking and discourse, constitutive practices, and lated varieties of inquiry. Central themes such as nature, three hours. Designed for graduate students. Ba- nomenological, and Analytic Sociologies. (4)
222. Foundations of Ethnomethodological, Phe- and transformation of self during life course, and con- definition and experience of the self, embodied inter- work, and ethnical problems involved in such re- search. In Progress (217B) and letter (217C) grading.
220. Self, Society, (4) Lecture, three hours. Ex- amination of social and cultural processes shaping definition and experience of the self, embodied inter- actional practices through which the self is construct- ed and reified, context formation and transformation of self during life course, and con- struction of collective identity. Letter grading.
221. Foundations of Ethnomethodological, Phe- nomenological, and Analytic Sociologies, (4) Lec- ture, three hours. Designed for graduate students. Ba- sic issues, methods, and topics of ethnomethodologi- cal, phenomenological, conversation-analytic, and re- lated varieties of inquiry. Central themes such as world of everyday life, problem of rationality, rules/ norms and tacit knowledge, problem of social order, speaking and discourse, constitutive practices, and production of ordinary interaction in first person; guest presentations by affiliated faculty in second person. S/U or letter grading.
223. Phenomenological and Interactionist Perspec- tives on Selected Topics. (4) Lecture, three hours. Comparison of phenomenological, symbolic, and perspectivist approaches to examining particular body of live or currently unresolved substantive issues. Topics vary; attention on development of phenomenological and in- teractionist thought on topic of concern, with special concern for ambiguities and divergences both within and between two approaches. When relevant, atten- tion to logistical and historical relations of phenomenolo- gy and interactionism. Three hours. S/U grading.
231. Critical Issues in Macrosociology. (4) For- merly numbered 228A.) Lecture, three hours. Con- ceptual introduction to area of macrosociology in which exemplary works are read, studied for sub- stance and methods, and criticized in seminar and in written papers. S/U or letter grading.
C22A. Sociology of Interpersonal Conflict. (4) Lecture, three hours; discussion, two hours. Origins, development, and outcomes of interpersonal conflicts and troubles that arise in close relationships, house- holds, workplaces, and public places in contemporary societies. Concurrently scheduled with course C146. Letter grading.
229B. People-Processing Institutions. (4) (Former- ly numbered C229B.) Lecture, three hours; discus- sion, two hours. Course C229A is not requisite to 229B. Theory and research analyzing operation and decision-making processes of a variety of people-pro- cessing institutions, including police, courts, schools, psychiatry, human service agencies, and medicine. Letter grading.
230A-230B. Comparative Ethnicity, Race, and Na- tionalism. (4-4) (Formerly numbered 230.) Seminar, three hours. Preparation for independent research in area of comparative ethnicity, race, and nationalism through close reading of key theoretical and empirical works. S/U or letter grading.
230C. Comparative Ethnicity, Race, and National- ism. (4) Seminar, three hours. Introduction to compari- son of historical and contemporary race and national- ism to demonstrate merits of different comparative ap- proach to race, one that strives to be as comparative at level of theory (attending to relationship between race and other forms of social classification, including ethnicity and nationality) as it does at level of re- search. Exploration of cases from wide variety of countries, including Australia, Brazil, Colombia, Do- minican Republic, Haiti, Mexico, modern China, mod- ern Japan, Nazi Germany, Nicaragua, Rwanda, South Africa, Sudan, and U.S. S/U or letter grading.
232. Class, Politics, and Society. (4) Lecture, four hours. Nature of class structure and how it affects rel- ation of class structure to politics and political power. Issue of salience of class versus other identities such as gender, age, race, and nationalism. Examination of contemporary “globalization” tendencies of capital- ism. Letter grading.
233. Foundations of Political Sociology. (4) Lec- ture, three hours. Designed for graduate students. Survey of field of political sociology, oriented around critical themes in major theoretical traditions and con- temporary examination of competing perspectives on power, theory of state, and relation- ship of class structure to politics. S/U or letter grading.
234. Sociology of Development, (4) Seminar, three hours. Historic and contemporary discussion of the theoretical, historical, and specific issues in socio- logy of development (e.g., world system theory, develop- mental state, import substitution industrialization, ex- port promotion industrialization, neoliberalism in Latin America, new approaches). S/U or letter grading.
235. Theories of Ethnicity. (4) Lecture, one hour; discussion, two hours. Designed for graduate stu- dents. Examination of variety of theoretical approach- es in understanding race and ethnicity in contempo- rary societies, with emphasis on recent debates among class analysis, pluralist, primordialist, and na- tional choice perspectives. Letter grading.
236-236B-236C. International Migration. (4-4-4) Lecture, three hours. S/U or letter grading.
236A. (4) Lecture, three hours. Comprehensive over- view of key current theoretical debates in study of in- ternational migration, with focus on exploration of possibilities of comparative (historical and cross-na- tional) research program in field, linking North Amer- ican, European, and other global experiences of immi- gration. S/U or letter grading.
236B. (4) Lecture, three hours. Further exploration of key current theoretical debates in internation- al migration, with emphasis on exploring both theoret- ical debates of the field and empirical data and case studies on which those debates hinge, to encourage students to undertake research in the field. S/U or let- ter grading.
236C. (4) Lecture, three hours. Designed for students beginning or undertaking original research in field of international migration. Outside lectures, oral presen- tations of student projects, circulation of completed or draft student papers. S/U or letter grading.
237. Seminar: Theory and Research in Compara- tive Social Analysis. (Seminar, two hours. De- signed for graduate students. Emphasis on one issue of particular importance for comparative analysis of capitalism and socialism, North America and Western Europe, developed capitalist and socialist countries and Third World, and implications for theory construc- tion and social research. S/U grading.
M238. Feminist Theory. (4) (Same as Women's Studies M238.) Seminar, three hours. Designed for graduate students. Analysis of current American fem- inist theory relevant to sociologists. Exploration of cri- tiques of second wave feminism by working class feminists and/or feminists of color, feminist scholars from other countries, and recent “antifeminist” fem- inists. Discussion of directions for future feminist soci- ology. Letter grading.
239A-239B. Quantitative Research on Social Stratification and Social Mobility. (4) Lecture, three hours. Required: courses 210A, 210B. Intro- duction to English language research literature on quanative social stratification and social mobility in the U.S. and abroad. In Progress (239A) and letter (239B) grading.
241. Theory of Gender in Society. (4) Lecture, one hour; discussion. Gender stratification in society and sociology; extent of gender diversity in human societies past and present; why gender is ab- sent from classical macro-sociology; can masculinist par- adigms make space for gender or does feminism-in- formed sociology necessitate fresh approach? S/U or letter grading.
M242. Analysis of Data with Qualitative and Limited Dependent Variables. (4) (Same as Statistics M211.) Lecture, three hours. Required: courses 210A and 210B, or Statistics 100A, 100B, and 100C. Models for binary, polytomous, and ordered out- comes; censored and truncated continuous outcomes; sample selection bias and qualitative response mod- els; count outcomes; multilevel models. S/U or letter grading.
244A. Sociological Analysis I, II, III. (5-5-5) (Formerly numbered C244A-C244B.) Lecture, four hours; discussion, two hours. S/U or letter grading. 244A. Introduction to some structures basic to organization of conversational interaction: type-talk- ing, occupation and status, strongly anonymous. 244B. Lecture, four hours; discussion, two hours. S/U or letter grading. 244B. Continuation of introduction to some structures basic to organization of conversational interaction: practices of action formation, storytelling organiza- tion, and overall structural organization of single con- versations.
247. Sociology of Emotions. (4) Lecture, two hours. Exploration of emotional world of social interaction. In Progress (239A) and letter (239B) grading.
248. Selected Topics in Culture and Society. (4) Seminar, three hours. Designed for graduate students. Seminar on selected topics in culture and society. Consult Schedule of Classes for topics and instructors. May be repeated for credit. S/U or letter grading.
M249A. Health Professions. (4) (Same as Commu- nity Health Sciences M249A.) Lecture, three hours. Required: Community Health Sciences 210. Soci- ological examination of concepts “health” and “illness” and role of various health professionals, especially physicians. Attention to meaning of professionalism, organiza- tion and professional/client relationships within range of organizational settings. S/U or letter grading.
M249B. Health and Illness Behavior. (4) (Same as Community Health Sciences M249B.) Seminar, three hours. Designed for graduate students. Seminar dia- logue based on student responses to readings on medicalization, health promotion as moral enterprise and consumerism, and preoccupation with body, S/U or letter grading.
250. Sociology of Health. (4) Seminar, three hours. Exploration of literature of human health as product of society. Macro focus and micro focus used to examine relevance of macro and micro features of national society (culture, economy, politics) while maintaining awareness of micro pathways that link these wider influences to personal experience (mind, body, emotion). Main focus of major outcome is in industrial societies and organized around many leading issues in sociology of health. S/U or letter grading.

M252. Selected Topics in Sociology of Gender. (4) (Same as Women's Studies M252.) Lecture, three hours. Discussion, two hours. Designed for graduate students. Seminar on selected topics in sociology of gender. May be repeated for credit. Letter grading.

254. Human Capital, Social Capital, and Cultural Capital. (4) Lecture, three hours. Designed for graduate students. Students. Intellectual history of these concepts, points of difference and similarity among these concepts, current exemplars of research that utilize these concepts, and critical reflection on research traditions. Letter grading.

M255. Cross-Cultural Perspectives on Gender. (4) (Same as Women's Studies M255.) Seminar, three hours. How does gender manifest itself in lives of different groups of women in U.S. and abroad? Are universal analytical categories or united feminist movements possible or is gender too different cross-culturally? S/U or letter grading.

257. Demography of Marriage Formation and Dissolution. (4) Discussion, three hours. Requisite: course 210A. Extensive and intensive critical examination of women in U.S. and abroad? Are universal analytical categories or united feminist movements possible or is gender too different cross-culturally? S/U or letter grading.

C258. Talk and Social Institutions. (4) Lecture, four hours; discussion, one hour. Practices of communication and social interaction in number of major institutional sites in contemporary society. Setting varies but may include emergency services, police and courts, medicine, news interviews, and political oratory. Concurrently scheduled with course CM125. S/U or letter grading.

259. Social Structure and Economic Change: Historical and Comparative Perspectives. (4) Lecture, four hours. S/U or letter grading.

260. Economy and Society, Discussion, two hours. (4) Discussion, two hours. Designed for graduate students. Review and critique of major analytical traditions in economy and society. S/U or letter grading.

M262. Selected Problems in Urban Sociology. (4) (Same as Afro-American Studies M200C.) Seminar, three hours. S/U or letter grading.

M263. Social Demography of Los Angeles. (4) (Same as Community Health Sciences M263.) Lecture, three hours. Designed for graduate students. Use of city of Los Angeles to examine major social and demographic factors that characterize cities in the U.S. Examination of role of these factors in affecting health outcomes. Letter grading.

266. Selected Problems in Analysis of Conversational Data. (4) Lecture, four hours. Requisites: courses C244A, C244B. Variable topical formats course. Consultant instructor for topics and formats to be offered in specific term. May be repeated for credit with topic change. S/U or letter grading.

268. Selected Problems in Psychoanalytic Sociology. (4) Discussion, three hours. Recommended preparation: at least one year of methods courses. Selected problems in interpretation of sociology and psychoanalysis, which may be substantive (group development, socialization, culture, deviance, collective behavior) or methodological; latter focuses on clinical fieldwork and experimental use of psychoanalytic and sociological techniques. S/U or letter grading.

272. Topics in Political Sociology. (4) Lecture, four hours. S/U or letter grading.

276. Selected Topics in Sociology of East Asia. (4) Lecture, three hours. Designed for graduate students. Selected problems in China, or in China and Japan comparatively. Possible topics include (1) China's Great Proletarian Cultural Revolution, (2) internal contradictions in Chinese society; male/female relations, city and countryside, minority nationalities, class struggle under socialism, etc., (3) China and Japan: two models of development. S/U or letter grading.

278. Sociology of Latin America. (4) Lecture, one hour; discussion, two hours. Designed for graduate students. Selected topics in sociological study of Latin America. Possible topics include social movements, race and ethnicity, stratification, and social development. Letter grading.

281. Selected Problems in Mathematical Sociology. (4) Lecture, three hours. Exploration of some mathematical social processes of social reality. Possible topics include models of small groups, social mobility, kinship relations, organizations, social interaction. S/U or letter grading.

282. Sociology of Medicine. (4) Seminar, three hours. Review of major concepts and issues in sociology of medicine. Topics include medicine, culture, and capitalism, professions and power, challenge of managed care, sick role and social control, interactionism and negotiation of sickness, sickness and self, debates over medicalization and demedicalization. Designed as preparation for field examination in sociology of health and medicine and specifically for themes traditionally included under medical sociology/sociology of medicine. S/U or letter grading.

283. Communication in Medical Care. (4) Seminar, three hours. Review and development of empirical knowledge about doctor-patient relationship. Analysis of nature and dynamics of routine office visits, with focus on nature and role of norms in regulating doctor-patient conduct, role of expertise and power in doctor-patient relationship, and methodological questions concerning how doctor-patient relationship can be analyzed. S/U or letter grading.

285A-285Z. Special Topics in Sociology. (4 each) Seminar, three hours. Designed for graduate students. Topics may be selected. S/U grading.

289A-289B. Practicum in Conversation Analysis. (2-4) Requisites: courses C244A, C244B. S/U grading.

295. Working Group in Sociology. (1 to 4) Discussion, two hours. Variable topics, including sociology of gender; ethnography; social networks; race, ethnicity, immigration; and social demography and stratification. Advanced study and analysis of current topics in specialized areas of sociology. Discussion of current research and literature in research specialty of faculty member teaching course. May be repeated for credit. S/U grading.

M296A-M296B. Social Theory and Comparative History. (4) (Same as History M203A-M203B and Political Science M294A-M294B.) Lecture, three hours and one-half hours every other week. Introduction to historically rooted social theory and theoretically sensitive history, following program of Center for Social Theory and Comparative History. Each course will be taken independently for credit. S/U or letter grading.

M296C. Theories in Cultural History. (4) (Same as History M203C.) Discussion, three hours. Introduction to social, linguistic, semiotic, or other new interpretive theories and practices developed in other fields and applied to historical material. Letter grading.

297B. Urban and Suburban Sociology. (4) Seminar, three hours. History and present condition of cities and suburbs in America. Today's urban and suburban neighborhoods contrasted with premodern cities. Examination of process of urbanization as it began in the early 19th century and as it still continues; house and architectural styles and changing patterns of family and social life associated with them; patterns of racial, ethnic, income, and social class distribution in city and suburb; origin and nature of today's urban ghettos; politics of cities and suburbs. Focus on urban/suburban megalopolises associated with New York City, Los Angeles, Chicago, and Boston. GIS mapping. Letter grading.

298. Workshop in Culture and Society. (4) Seminar, two hours every other week. Interdisciplinary workshop for graduate students in culture and society related to interplay of culture and society; cultural lifeworld; social, literary, or philosophical in nature. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

M402. Practices of Evaluation in Health Services: Theory and Methodology. (4) (Same as Health Services M422.) Lecture, four hours. Requisites: Health Services 200A, 200B. Introduction to evaluation of health services programs and policies. Exposure to basic theoretical concepts and specific evaluation methodologies and designs. Letter grading.

495. Supervised Teaching of Sociology. (2) (Formerly numbered 495A.) Seminar, two hours. Preparation: appointment as teaching assistant in Sociology Department. Special course designed to deal with problems and techniques of teaching introductory sociology. S/U grading.

501. Cooperative Program. (2 to 8) Tutorial, to be arranged. Preparation: consent of UCLA graduate advisor and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.
Undergraduate Study

South Asian Studies Minor

The South Asian Studies minor is designed for students who wish to augment their major with a concentrated study of the history, culture, society, and languages of South Asia. The minor includes the introductory study of one South Asian language, one lower division course on South Asian history, and five upper division courses that focus on some aspect of the history, culture, politics, religions, and artistic heritage of South Asia.

To enter the minor, students must (1) be in good academic standing with a 2.0 grade-point average or better, (2) have completed 45 units and at least one lower division course (other than a language course) in South Asian studies, and (3) consult with the academic counselor in 10357 Bunche Hall.

Required Lower Division Courses (10 units maximum):
- History 9A and completion of the third term of either Hindi (Hindi-Urdu 3 or 3R) or Sanskrit (South Asian 110C) or by demonstrated proficiency as determined by a placement examination. Proficiency in other South Asian languages, such as Gujarati, Bengali, Marathi, Tamil, Telugu, Pashto, or Urdu, may be accepted by petition, pending completion of a placement examination to be administered at UCLA or approval of an alternative and recognized course of language study.

Required Upper Division Courses (20 units minimum):
- Five courses, with no more than two from any single discipline or department, to be selected from Anthropology 116, Art History 114A, 114D, C115A, C180C, Asian 151, 162, 163, 164, Asian American Studies M172, Ethnomusicology 146, 147, History 174A through 174E, 175A, M175B, 175C, 185B, 185C, Islamiics 110, 130, 151, South Asian 115, 150, 175, 185.

Variable or selected topics courses (e.g., Comparative Literature 191) fulfill minor requirements only when the content focuses substantially on South Asia. Other courses with substantial South Asian content of at least 50 percent (as determined by the course instructor) may be applied only with prior approval of a petition filed with the academic counselor. Up to 12 units taken through a study abroad program may be applied toward the minor, though no more than 8 of the units may be applied toward the 20 units of upper division coursework.

Independent studies courses (197 or 199) may not be applied toward the minor. No more than one upper division course may be applied toward both this minor and a major or minor in another department or program.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Kie Ross Zuraw, Ph.D. (Linguistics)

Scope and Objectives

The Southeast Asian Studies major and minor approach Southeast Asia as a region of deep local particularities and transregional engagements. This includes the study of present-day countries of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, the Philippines, Singapore, Brunei, and East Timor. This is a massively heterogeneous grouping of societies, ethnicities, languages, cultures, histories, and environments.

In addition to the prominence of the region in many recent international issues (democratization, the Cold War, decolonization, global capital flows, natural resource and environmental regulation, ethnic tensions, etc.), Southeast Asia is also a prominent site for reflection on enduring questions about culture and human diversity. Southeast Asia is taught as a region, with emphasis on the particular languages, cultures, politics, and topographies of individual nations, ethnic groups, subnational regions, and associations. Yet, it is nearly impossible to teach about any part of Southeast Asia without at least occasionally engaging a range of transregional connections that date back to ancient times. Historically, the peoples of Southeast Asia have been engaged with each other as well as with India and China, the Middle East, Europe, and the Americas and with global contexts of economics, politics, migra-
tions, and communications. When approached from the point of view that holds Southeast Asia to be a locus of shifting transactions and human connections (rather than a reified and timeless region of common culture), the study of the region speaks powerfully to critical issues across many disciplines. Thus construed, Southeast Asian studies addresses major contemporary concerns in the humanities, social sciences, arts, business, the professions, government policy, and international affairs.

Undergraduate Study
Southeast Asian Studies
B.A.

The major is designed for students who are deeply interested in the study of Southeast Asian languages, cultures, and societies. It requires the intermediate-level study of one Southeast Asian language, three lower division core courses on Southeast Asia as a region, and at least 14 upper division courses, including a capstone senior seminar. Majors are expected, whenever possible, to study for at least one term at a university in Southeast Asia.

Admission
To enter the major, students must (1) be in good academic standing (minimum 2.0 grade-point average), (2) have completed 45 units and at least one lower division core course in Southeast Asian studies, and (3) file a petition with the academic counselor in 10357 Bunche Hall. All interested students should meet with the counselor to discuss the program requirements.

Preparation for the Major
Required: History 9E, Southeast Asian Studies 1, 88; completion of six terms of either Vietnamese, Thai, Filipino/Tagalog, or Indonesian language courses (Southeast Asian 50A through 51C, or 60A through 61C, or 70A through 71C, or 80A through 81C) or demonstrated proficiency as determined by a placement examination. Proficiency in other Southeast Asian languages may be accepted by petition, pending completion of a placement examination or approval of an alternative course of language study.

Transfer Students
Transfer applicants to the Southeast Asian Studies major with 90 or more units must complete the following introductory courses prior to admission to UCLA: either one course on Southeast Asia or one year of study of a Southeast Asian language (or demonstrated equivalent ability).

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: At least 14 upper division courses (56 units) must be completed, including 10 courses that must have substantial Southeast Asian content, as follows:

Three humanities and arts courses must be selected from Art History 114F, Ethnomusicology C159, 161B, 161H, 161M, Southeast Asian 130, 135, 152A, 152B, 152C, M155, 156A, 156B, 162A, 162B, 162C, 170A, 170B, 170C, 182A, 182B, 182C, Theater 102B, World Arts and Cultures 112B. For Ethnomusicology 161B, 161H, and 161M to count as one 4-unit upper division course to be applied toward the major, any two of the courses may be taken once or any one course may be taken twice.

Variable or selected topics courses (e.g., Asian American Studies 191) fulfill major requirements only when the content focuses substantially on Southeast Asia or a subregion of it.

All majors must also successfully complete Southeast Asian Studies 191.

Three elective courses must be selected from the courses listed above and from those offered by the program. Other courses with substantial Southeast Asian content may be applied toward the major pending approval of a petition filed with the academic counselor.

Breadth and Methods Requirement
Four additional upper division courses on topics outside Southeast Asia must be taken to satisfy the breadth and methods requirement. The courses must be selected in consultation with and approved by the academic counselor. The requirement can be fulfilled by one of the following options:

(1) Completing at least 16 units that focus on a single geographical region other than Southeast Asia (e.g., East Asia, South Asia, Europe, Middle East). All four courses must focus on the same country or region. This track provides students with an opportunity to analyze Southeast Asia from a comparative geographic perspective

(2) Completing at least 16 units with a single topic of study relevant to Southeast Asia (e.g., religion, economic development, gender studies, human rights, diasporic studies, popular culture). All four courses must concentrate on the same topic. This track provides students with an opportunity to view Southeast Asia from a comparative thematic approach

(3) Completing at least 16 units on subjects outside Southeast Asia from any one department (e.g., Anthropology, Art History, Asian American Studies, Comparative Literature, History, Political Science, Sociology) whose methodology or discipline can be applied to the study of Southeast Asia.

One of the courses should be a theoretical or methodological core course in the discipline. This track provides students with solid background in a particular field that can then be applied to the study of Southeast Asia.

At least one half the units required for the major must be in departments that offer undergraduate majors in the College of Letters and Science. Each course for the major must be taken for a letter grade and be successfully completed with a grade of C (2.0) or better. No more than two independent studies courses (197 or 199) may be applied toward the degree.

Study in Southeast Asia
Students are expected, whenever possible, to study in Southeast Asia for at least one term during their junior or senior year. The program considers study in Southeast Asia an important cultural experience and an opportunity to advance language proficiency, as well as a way to expand the range of formal classroom education.

The University of California operates Education Abroad Programs (EAPs) in several Southeast Asian countries. See http://www.international.ucla.edu/eap/ for the current list. Majors may enroll in any of the UC-sponsored EAPs in Southeast Asia or they may petition to attend a university in Southeast Asia by making arrangements directly or by enrolling through another University’s study abroad program. Majors may be eligible to apply for financial assistance, awarded on a competitive basis, to help support at least one term of study abroad.

Students majoring or minoring in Southeast Asian Studies who attend an EAP are eligible to earn course credit (4 units) toward the upper division requirements by successfully completing Southeast Asian Studies 180 for a letter grade after they return to UCLA. The principal assignment in course 180 is to write a paper based on field experience or research collected while in Southeast Asia or to produce a creative work (fiction, memoir, art, performance) of equivalent note.

Honors Program
The honors program is designed to offer highly motivated Southeast Asian Studies majors the opportunity to design and conduct their own independent research under the guidance of a faculty adviser and consists of a three-term directed-study series of courses — Southeast Asian Studies 198A, 198B, 198C — culminating in an honors thesis.

Admission
To enter the honors program, students must (1) have completed Southeast Asian Studies 1 and 88, (2) have a 3.5 grade-point average in the major and a 3.5 overall GPA, and (3) obtain agreement from a faculty member to supervise their honors thesis. Application should normally be made during the junior year; after stu-
Southeast Asian Studies

Minor

The Southeast Asian Studies minor is designed for students who wish to augment their major with concerted study of language, culture, and society in Southeast Asia. The minor includes the introductory study of one Southeast Asian language, two lower division core courses on Southeast Asia as a region, and five upper division courses that may focus on one or more Southeast Asian cultures or societies. To enter the minor, students must (1) be in good academic standing (minimum 2.0 grade-point average), (2) have completed 45 units and at least one lower division nonlanguage preparatory course in Southeast Asian studies, and (3) file a petition with the academic counselor in 10357 Bunche Hall.

Requirements

After a faculty adviser has been selected and has agreed to advise them during the year-long project, students must complete the Southeast Asian Studies Honors Program Application and a two-page preliminary outline of the proposed research project, have the faculty adviser sign the application, and submit both to the academic counselor who verifies that the necessary signatures have been obtained and the requisites have been met. The counselor assists the students in formally enrolling in Southeast Asian Studies 198A. Enrollment in subsequent terms (courses 198B and 198C) is contingent on students having demonstrated satisfactory progress toward writing of the honors thesis.

Throughout the three terms of the honors program, students work closely with their faculty adviser who guides them through the various phases of research. At the end of the third term, students submit the thesis to their faculty adviser for final review.

To graduate with departmental honors, students must (1) complete all requirements for the major with a cumulative grade-point average of 3.5 or better in upper division courses required for the major and an overall GPA of 3.5 or better, (2) complete courses 198A, 198B, and 198C, and (3) produce an honors thesis (approximately 40 to 60 pages) determined to be of honors quality by a committee of three faculty members. The thesis must then be submitted to the academic counselor in 10357 Bunche Hall.

To graduate with departmental highest honors, students must (1) complete all requirements for the major with a cumulative grade-point average of 3.75 or better in upper division courses required for the major and an overall GPA of 3.5 or better, (2) complete courses 198A, 198B, and 198C, and (3) produce an honors thesis (approximately 40 to 60 pages) determined to be of highest honors quality by a committee of three faculty members. The thesis must then be submitted to the academic counselor in 10357 Bunche Hall.

Departmental honors and highest honors are recorded on the final transcript and diploma after students successfully complete the program.

Southeast Asian Studies

Lower Division Courses

1. Introduction to Southeast Asian Studies. (5) Lecture, three hours discussion. Open to students who have not been scheduled. Introductory survey of diverse and dynamic societies of contemporary Southeast Asia, with strong focus on interdisciplinary themes in humanities and cultural studies. P/NP or letter grading.

88. Sophomore Seminars: Introduction to Interdisciplinary Study of Southeast Asia. (5) Seminar, three hours. Limited to majors. Introduction to methods of interdisciplinary and comparative study, providing students with opportunity to develop competence in using those approaches through investigation of critical issues in Southeast Asian studies. Culminating paper or project may be required. Letter grading.

Upper Division Courses

180. Research Seminar: Southeast Asian Studies. (4) Seminar, three hours. Limited to Southeast Asian Studies majors and minors. Designed for students to analyze their experiences after they return from study abroad in Southeast Asia. Culminating paper or project required. Letter grading.

188. Special Courses in Southeast Asian Studies. (4) Lecture, three hours; discussion, one hour. Interdepartmentally sponsored experimental or temporary courses on selected contemporary topics in Southeast Asian studies taught by visiting instructors or affiliated faculty members. May be repeated for credit with topic change. P/NP or letter grading.

191. Senior Seminar: Variable Topics in Southeast Asian Studies. (4) Seminar, with topic change. P/NP or letter grading. Seminar in selected contemporary topics in Southeast Asian studies taught by visiting instructors or affiliated faculty members. May be repeated for credit. Letter grading.

Scope and Objectives
The Department of Spanish and Portuguese is dedicated to the study and teaching of the languages, literatures, and cultures of the Hispanic heritage in all areas of the world, particularly on the continents of Europe and America. It maintains a strong commitment to the value of original research and professional instruction at all levels of its activities.

Whether studying for the B.A., M.A., or Ph.D. degree, students are given careful guidance in the choice of courses and in the preparation of a study program. The richness of Hispanic culture is amply represented in the extensive range of courses in language, linguistics, and literature. Although the literatures of Spain, Portugal, Brazil, and Spanish America predominate, courses are also offered in Chicano literature. The breadth of courses offered by the department allows undergraduate students to pursue many possible interests and enables graduate students to concentrate in depth in several areas of specialization.

The department's courses are primarily designed to serve the five B.A. programs: B.A. in Spanish, B.A. in Spanish and Community Culture, B.A. in Spanish and Linguistics, B.A. in Spanish and Portuguese, and B.A. in Portuguese, as well as to prepare students for its three graduate programs: M.A. in Spanish, M.A. in Portuguese, and Ph.D. in Hispanic Languages and Literatures. The courses are also functionally supportive of such interdepartmental programs as the B.A. program in Chicana and Chicano Studies, B.A. and M.A. programs in Latin American Studies, and M.A. and Ph.D. programs in Comparative Literature and Romance Linguistics and Literature.

Undergraduate Study
Undergraduate Courses
Spanish 1 through 3 use Castells' Mosaicos. The method is inductive. Selected examples are given to enable students to inductively grasp the rules and develop their own grammar. This enables students to use language effectively and creatively. The courses are taught entirely in Spanish — students simultaneously learn to understand, speak, read, and write Spanish.

Students with one or more years of high school Spanish who plan to enroll in Spanish 1 through 25 must take the departmental placement examination. Consult the Schedule of Classes or the department office for test dates and location.

No credit is allowed for completing a less advanced course after successful completion of a more advanced course in Spanish and Portuguese grammar and/or composition.

Spanish B.A.
Preparation for the Major
Required: Spanish 25 or 27 or equivalent, and M42 and M44 or equivalent as determined by the undergraduate adviser. The courses must be passed with an average grade of C or better prior to beginning upper division work in the major.

Transfer Students
Transfer applicants to the Spanish and Community Culture major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of Spanish, one Spanish civilization course, and one Spanish American civilization course.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

The Major
Required: (1) Two language and linguistics courses from Spanish 100A or 100B, and 105 or 107; (2) two community-based and experiential learning courses (8 to 10 units) selected from Chicana and Chicano Studies 100SL, Spanish M164SL, M165SL, M172SL, 195; (3) two Hispanic literature courses — Spanish 120A and 120B; (4) three Hispanic literature, language, and culture courses selected from Chicana and Chicano Studies 100SL, M106, 119, 120, M121, M122, 131, M144, 149, 181, Sociology M155; (7) one upper division elective course (4 units) in Spanish or an additional course selected from item 6.

A minimum of 46 units applied toward the major requirements must be in addition to units applied toward major or minor requirements in another department or program.

Spanish and Linguistics B.A.
Preparation for the Major
Required: Spanish 25 or 27 or equivalent as determined by the placement test; course M35 or Linguistics 20; course M42 or M44 or equivalent as determined by the undergraduate adviser; and three terms of study in one language other than Spanish and English, which may be taken concurrently with the major. The courses must be passed with an average grade of C or better.

Transfer Students
Transfer applicants to the Spanish and Linguistics major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of Spanish, one introduction to linguistics course, one Spanish civilization course or one Spanish American civilization course, and one year of a language other than Spanish or English.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

Transfer Students
The Major

**Required:** (1) Spanish 100A, 100B, 105, Linguistics 103, 120A, 120B, (2) one course from Linguistics 160 or 165A or 165B, and (3) three upper division Spanish electives, two of which must be in Spanish linguistics.

**Spanish and Portuguese B.A.**

**Preparation for the Major**

**Required:** Spanish 25, Portuguese 3 or 102B, M42 or M44 or equivalent, 46 or equivalent.

**Transfer Students**

Transfer applicants to the Spanish and Portuguese major with 90 or more units must complete the following introductory courses prior to admission to UCLA: two years of Spanish, one year of Portuguese, one Spanish civilization course or one Spanish American civilization course, and one Brazilian culture course.

Refer to the UCLA Transfer Admission Guide at [http://www.admissions.ucla.edu/prospect/adm_tr.htm](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

The Major

**Required:** (1) Four upper division language and linguistics courses: Portuguese 100A, 100B, 105, Spanish 105; (2) four upper division literature courses selected as follows: two courses from Spanish 119A, 119B or from 120A, 120B, 120C and two courses from Portuguese 120A, 120B or from 130A, 130B; (3) six upper division electives, three of which must be in Spanish and three in Portuguese (numbered C124 and above). Only upper division courses taught in the target language may be applied toward the major.

**Portuguese B.A.**

**Preparation for the Major**

**Required:** Portuguese 3, M35, M42 or M44, 46, or equivalent.

**Transfer Students**

Transfer applicants to the Portuguese major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one year of Portuguese, one nature of language course, one Portuguese civilization course or one Brazilian civilization course, and one Brazilian culture course.

Refer to the UCLA Transfer Admission Guide at [http://www.admissions.ucla.edu/prospect/adm_tr.htm](http://www.admissions.ucla.edu/prospect/adm_tr.htm) for up-to-date information regarding transfer selection for admission.

The Major

**Portuguese Language and Literature Concentration**

**Required:** Thirteen upper division courses, including Portuguese 100A, 100B, 105, either 120A and 120B, or 130A and 130B, and eight elective courses in Portuguese, or six electives in Portuguese plus two courses from areas that complement the program approved by the undergraduate adviser in Portuguese.

**Portuguese and Linguistics Concentration**

**Required:** Completion of six terms of study in one other foreign language or three terms in each of two other foreign languages, in addition to the preparation for the major courses. Spanish is recommended.

The concentration consists of 13 upper division courses, including Portuguese 100A, 100B, 105, M118A, M118B, Linguistics 100, 103, 110, 120A, 120B, and three electives, two of which must be in Luso-Brazilian literature.

**Double Majors**

Through judicious use of electives, students may find it possible to secure the B.A. degree with two complete majors (e.g., Portuguese/ Spanish, Portuguese/History, Portuguese/Sociology, etc.). Interested students should consult the undergraduate adviser in Portuguese as early as possible in their B.A. program.

**Study in a Portuguese-Speaking Country**

Students are encouraged to spend up to one year in a Portuguese-speaking country to study in a university or conduct research. Appropriate credit may be granted in accordance with the undergraduate faculty adviser in Portuguese. Proposals must be submitted in advance and must be approved by the department.

**Honors Program**

The honors program is open to all departmental majors who have completed the required nine upper division core courses with a 3.5 grade-point average. Eligibility is verified by the departmental counselor.

Two honors projects and an honors thesis are required. To graduate with departmental honors, students must first complete an honors project in each of two of their upper division Spanish elective courses. The honors project is a 12- to 15-page term paper on a special topic, selected in consultation with the instructor, to be completed in addition to the normal course requirements. On the basis of the course work and special interests, students then consult a faculty member in that field and formulate a research project that they pursue under the faculty member's guidance through Spanish 198. Students research and write an honors thesis (not to be confused with an honors project) of approximately 25 pages on the selected topic. Approval of the honors thesis is the final requirement for departmental honors.

**Mexican Studies Minor**

The Mexican Studies minor allows students with an interest in Mexico to augment their major programs with courses that expose them to the history, literature, and culture of Mexico. Given Southern California’s proximity to Mexico, the demographics of Los Angeles, and the shared history of Mexico and the Southwest, the minor is a natural complement to many majors.

To enter the minor, students must have an overall grade-point average of 2.0 or better and must complete or show proficiency equivalent to two years of college-level Spanish. A petition to declare the minor should be filed with the undergraduate counselor in 5314 Rolfe Hall.

**Required Lower Division Courses (8 units):** Spanish 25 or 27, and one course from History 8A, 8B, 8C, or Spanish M44.

No more than two upper division courses may be applied toward both this minor and a major or minor in another department or program. By petition and after consultation with the undergraduate adviser, one 4-unit 197 or 199 course may be applied toward the minor.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

**Portuguese Minor**

To enter the Portuguese minor, students must have an overall grade-point average of 2.0 or better and must complete Portuguese 3 or 102B.

**Required Lower Division Course (4 units):** Portuguese 46.

**Required Upper Division Courses (24 units):** Portuguese 105 and five Portuguese courses selected from 100A through 199 (except 102A, 102B). Only one 4-unit Portuguese 197 or 199 course may be selected.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

**Spanish Minor**

To enter the Spanish minor, students must have an overall grade-point average of 2.0 or better and must complete or show proficiency equivalent to two years of college-level Spanish.

**Required Lower Division Courses (8 units):** Spanish 25 or 27, and M42 or M44.

**Required Upper Division Courses (24 to 25 units):** Six courses in literature, of which four (22 units) must be selected from Spanish 119A through 191B (one of the four must be from either 119A or 119B or from 120A, 120B, or 120C).
Spanish Linguistics Minor

To enter the Spanish Linguistics minor, students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdept.ucla.edu/gasas/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Spanish and Portuguese offers the Master of Arts (M.A.) degree in Spanish, Master of Arts (M.A.) degree in Portuguese, and Doctor of Philosophy (Ph.D.) degree in Hispanic Languages and Literatures.

Portuguese

Lower Division Courses

1. Elementary Portuguese. (4) Discussion, five hours; laboratory, one hour. P/NP or letter grading.

2. Elementary Portuguese. (4) Discussion, five hours; laboratory, one hour. Enforced requisite: course 1. P/NP or letter grading.

8A-8B. Portuguese Conversation. (2-2) Discussion, three hours. Enforced requisite: course 3 with grade of B or better. P/NP or letter grading.

Upper Division Courses

102A-102B. Intensive Portuguese. (4-4) Preparation: foreign language experience (other than Portuguese). Development of speaking and reading skills equivalent to those covered in three terms of the traditional pattern and to meet special needs of advanced undergraduate and graduate students.

103. Language and Popular Culture. (4) Lecture, three hours. Requisite: course 3 or 102B. Development of speaking, reading, and writing skills. Structured in thematic units, with songs, videos, and specific vocabulary emphasizing questions of Brazilian cultural identity. Letter grading.

105. Advanced Composition and Style. (4) Lecture, three hours. Requisite: course 3 or 102B. Practice in writing Portuguese with appropriate vocabulary, syntactical structures, and stylistic patterns. P/NP or letter grading.

M118A-M118B. History of Portuguese and Spanish. (4-4) (Same as Spanish M118A-M118B.) Lecture, three hours. Requisites: courses M35, 100A. Course M118A is requisite to M118B. Major features of development of Portuguese and Spanish languages from their origins in Vulgar Latin to modern times. P/NP or letter grading.

M118A. Phonology; M118B. Morphology and Syntax.

120A-120B. Introduction to Portuguese Literature. (4-4) Lecture, three hours. Requisite: course 105. Introduction to principal periods, currents, and authors of Portuguese literature. P/NP or letter grading.

C129. 20th-Century Portuguese Literature. (4) Lecture, three hours. Requisite: course 105. Study of representative trends and authors. May be repeated for credit with topic change. Concurrently scheduled with course C229. P/NP or letter grading.

130A-130B. Brazilian Literature and Identity: Introduction. (4-4) Lecture, three hours. Requisite: course 105. Introduction to principal periods, currents, and authors of Brazilian literature. P/NP or letter grading.

C131. Colonial Brazilian Literature and Culture. (4) Lecture, three hours. Requisite: course 105. Study of most important authors to 1830. May be repeated for credit with topic change. Concurrently scheduled with course C231. P/NP or letter grading.

C132. 19th-Century Brazilian Literature and Culture. (4) Lecture, three hours. Requisite: course 105. Study of representative trends and authors. May be repeated for credit with topic change. Concurrently scheduled with course C232. P/NP or letter grading.

C135. 20th-Century Brazilian Literature. (4) Lecture, three hours. Requisite: course 105. Study of representative trends and authors. May be repeated for credit with topic change. Concurrently scheduled with course C235. P/NP or letter grading.

141. Brazilian Film and Literature. (4) Lecture, three hours. Conducted in English. Topical analysis of main literary and historical themes of Brazilian culture, through films and literary texts. P/NP or letter grading.

191. Undergraduate Variable Topics Seminars: Portuguese. (4) Seminar, three hours. Requisite: course 105. Research seminar on selected topics in Portuguese. Reading, discussion, and development of culminating project. Consult Schedule of Classes or department counselor for topic to be offered in specific term. P/NP or letter grading.

197. Individual Studies in Portuguese. (2-4) Tutorial to be arranged. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. Eight units of courses 197 and/or 199 may be applied toward major requirements. May be repeated for maximum of 8 units. Individual contract required. P/NP or letter grading.
Graduate Courses

M200. Research Resources. (4) Same as Spanish M200. Lecture, three hours. Identification and use of research resources for graduate students.

M201A-M201B. Literary Theory and Criticism. (4-4) (Same as Spanish M201A-M201B.) Discussion, three hours. Definition, discussion, and application of main currents of contemporary literary theory and criticism. Letter grading.

202. Synchronic Morphology and Phonology. (4) Lecture, three hours. Study of theoretical synchronic linguistics as applied to Portuguese.

204A-204B. Generative Grammar. (4-4) Lecture, three hours. Course 204A is requisite to 204B. Generative approach to the Portuguese language, with some consideration of bearing of syntax, semantics, and phonology on style, metaphor, and meter.

M205A-M205B. Development of Portuguese and Spanish Languages. (4-4) Same as Spanish M205A-M205B.) Lecture, three hours. Intensive study of historical development of Portuguese and Spanish languages from their origin in spoken Latin.

C229. 20th-Century Portuguese Literature. (4) Lecture, three hours. Requisite: course 105. Study of representative trends and authors. May be repeated for credit with topic change. Concurrently scheduled with course C129. S/U or letter grading.

C231. Colonial Brazilian Literature and Culture. (4) Lecture, three hours. Requisite: course 105. Study of most important authors to 1830. May be repeated for credit with topic change. Concurrently scheduled with course C131. S/U or letter grading.

C235. 20th-Century Brazilian Literature. (4) Lecture, three hours. Requisite: course 105. Study of representative trends and authors. May be repeated for credit with topic change. Concurrently scheduled with course C135. S/U or letter grading.

C249. Folk Literature of Spanish and Portuguese Worlds. (4) Same as Spanish M249.) Lecture, three hours. Intensive study of folk literature of Spanish and Portuguese cultures as represented in (1) ballad and poetry. (2) narrative and drama, (3) speech. S/U or letter grading.

C251A-M251B. Studies in Galician-Portuguese and Old Spanish. (4-4) (Same as Spanish M251A-M251B.) Lecture, two hours. Study of problems related to historical development of Galician-Portuguese and Old Spanish. Each course may be repeated once with topic change and consent of appropriate guidance committee.

255. Studies in Modern Brazilian Literature. (4) Discussion, two hours. S/U or letter grading.

290. Special Topics. (4) Discussion, two hours. Designed for graduate students. Consult Schedule of Classes or departmental faculty member for topics to be offered in a specific term. S/U or letter grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprentice-cship under active guidance of an active faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grade.

596. Directed Individual Study or Research. (4 to 8) Tutorial, to be arranged. Study or research in areas of subjects not offered as regular courses. No more than 8 units may be applied toward M.A. course requirements. S/U or letter grading.

597. Preparation for Graduate Examinations. (4 to 12) Tutorial, to be arranged. Preparation: official acceptance of candidacy by department. Individual preparation for M.A. comprehensive examination or Ph.D. qualifying examinations. May be taken only once for each degree examination and only in term that comprehensive or qualifying examinations are to be taken. S/U grading.

Spanish

Lower Division Courses

1. Elementary Spanish. (4) Discussion, five hours; laboratory, one hour. P/NP or letter grading.

1G. Reading Course for Graduate Students. (4) Lecture, three hours. Knowledge of Spanish not required. May not be applied toward degree requirements. S/U grading.

2. Elementary Spanish. (4) Discussion, five hours; laboratory, one hour. Enforced requisite: course 1. P/ NP or letter grading.

2A. Intensive Spanish. (4) Lecture, 20 hours; laboratory, five hours. Enforced requisite: course 1 or one year of high school Spanish. Intensive basic course in Spanish, with cultural activities, field trips, luncheons. Offered in summer only. P/NP or letter grading.

2G. Reading Course for Graduate Students. (4) Lecture, three hours. Enforced requisite: course 1G. May not be applied toward degree requirements. S/U grading.

3. Elementary Spanish. (4) Discussion, five hours; laboratory, one hour. Enforced requisite: course 2. P/ NP or letter grading.

3A. Intensive Spanish. (4) Lecture, 20 hours; laboratory, five hours. Enforced requisite: course 1 or one year of high school Spanish. Intensive basic course in Spanish, with cultural activities, field trips, luncheons. Offered in summer only. P/NP or letter grading.

5. Intermediate Spanish. (4) Discussion, five hours; laboratory, one hour. Enforced requisite: course 4. P/ NP or letter grading.

6. Intermediate Spanish. (4) Discussion, five hours. Enforced requisite: course 5. Review and analysis of more sophisticated and complex syntactic structures of Spanish, verb morphology, and lexical discrimination. Students who have completed course 5 with grade of A− or better may enroll directly in course 25. P/NP or letter grading.

8A-8B. Spanish Conversation. (2-2) Discussion, three hours. Course 8A is open to students with credit for course 4. Students who have completed course 3 with grade of B or better may be admitted. P/NP or letter grading.

9A-9B. Advanced Conversation. (2-2) Discussion, three hours. Enforced requisite: course 8B. P/NP or letter grading.

10. Intensive Elementary Spanish. (12) Lecture, 20 hours. Intensive elementary instruction in speaking, listening, and reading, and writing equivalent to courses 1, 2, and 3, with emphasis on grammar and Hispanic culture. Offered in summer only. P/NP or letter grading.

28A. Spanish for Special Purposes: Medical. (4) Lecture, three hours. Enforced requisite: course 6. Practice in speaking, reading, and writing Spanish using appropriate vocabulary and cultural situations for study of special interest in fields such as medicine, business, law, etc. P/NP or letter grading.

M35. Spanish, Portuguese, and Nature of Language. (5) (Same as Portuguese M35.) Lecture, three hours; discussion, one hour. Introduction to language study within context of Romance languages, focusing on Spanish and Portuguese. Nature of language: structure, diversity, evolution, social and cultural settings, literacy uses. Study of language and its relation to other areas of human knowledge. P/NP or letter grading.
109. Spanish of Southern California. (4) Lecture, three hours. Requisites: courses M35, 100A, 100B. Analysis of pronunciation, word formation, syntax, and grammar of Spanish from California with attention to regional features, social and age levels of speech, and interference from English. P/NP or letter grading.

119A. Introduction to Study of Literature: Prose. (4) Lecture, three hours. Requisite: course 25. Introduction to study of literary devices, figures of speech, and distinctive stylistic features in prose literature of Spain and Spanish America, particularly in the novel and essay.

119C. Introduction to Study of Literature: Drama. (4) Lecture, three hours. Requisite: course 25. Introduction to basic features and components of drama through detailed study of texts from different periods. Letter grading.

120A-120D. Literature in the Hispanic World. (5 each) Lecture, four hours; discussion, one hour. Required of Spanish majors; must be taken in sequence. Letter grading.

121A. Topics in Medieval Iberian Literature. (4) Lecture, three hours. Requisite: course 25 or 27. Varying topics on multilingual and multicultural medieval Iberia, including Hispanic-Arabic and Hispanic-Jewish traditions, Ladino, Ajamiñato texts, Hispano-Latin, Occitan, Galician-Portuguese, Catalan, and Castilian. Oral versions of written traditions, Convivencia, Europe versus Orient. Sephardic romancero, end of medieval Iberian civilization, and New World. May be repeated for credit with topic change. P/NP or letter grading.

122. Medieval Literature: El Camino de Santiago. (4) Lecture, three hours. Three courses in medieval Spanish literature following route of imaginary pilgrimage through northern Spain in the year 1300, from French border near Roncesvalles to shrine of St. James in Santiago de Compostela. Reading works of literature (and viewing slides, listening to music, etc.) associated with each stop along the way. Letter grading.

123. Three Masterpieces of Spanish Medieval Literature. (4) Lecture, three hours. Enforced requisite: course 25 or 27. Recommended: course 120A. Reading and understanding of three masterpieces of medieval Spanish literature: Conde Lucanor by Don Juan Manuel (collection of folk tales and fables from both European and Oriental sources), Libro de buen amor by Juan Ruiz (disastrous love adventures of rural archpriest, in verse), and Celestina by Fernando de Rojas (dark drama of lust, sorcery, and murder set against new urban backdrop and introduction of Spain's nascent empire). P/NP or letter grading.

128. The Enlightenment and Romanticism in Spain. (4) Lecture, three hours. Recommended preparation: course 120B. Study, through representative works, of main manifestations of thought and literature from 1700 to 1850.

130. Post-Romanticism, Realism, and Naturalism in Spain. (4) Lecture, three hours. Recommended preparation: course 120B. Development of main trends of Spanish literature from 1850 to 1900.

132. 20th-Century Spanish Prose. (4) Lecture, three hours. Recommended preparation: course 120C. Study of several representative works of Spanish prose literature since 1898.

133. 20th-Century Spanish Poetry and Drama. (4) Lecture, three hours. Recommended preparation: course 120C. Study of several representative works of Spanish poetry and drama since 1898.

137. Literature of Colonial Spanish America. (4) Lecture, three hours. Recommended preparation: course 120A. Study of most important genres and authors from the Conquest to 1810.

139. Romanticism and Realism in Spanish-American Literature. (4) Lecture, three hours. Recommended preparation: course 120B. Study, through representative literary works, of most important currents of thought and literary trends from 1810 to 1880.

140. Modernismo. (4) Lecture, three hours. Recommended preparation: course 120B. Study, through representative literary works, of most important currents of thought and literary trends from 1810 to 1880.

Spanish and Portuguese / 583

144A. Mexican Literature. (4) Lecture, three hours. Requisite: course 25 or 27. Study of major movements and authors of Mexican literature. P/NP or letter grading.

144B. Mexican Culture. (4) Lecture, three hours. Requisite: course 25 or 27. Study and analysis of Mexican culture and society through variety of cultural expressions such as film, music, literature, and other popular genres. Letter grading.

144C. Special Topics in Mexican Studies. (4) Lecture, three hours. Requisite: course 25 or 27. Variable topics course with readings, discussions, and papers; consult Schedule of Classes or department counselor for topic to be offered in a specific term. P/NP or letter grading.

M145A-M145B. Introduction to Chicano Literature. (4-4) (Same as Chicana and Chicano Studies M145A-M145B.) Lecture, three hours. Requisite: course 25 or 27. Introduction to texts representative of the Chicano literary heritage. Sampling of genres, as well as historical and geographical settings and points of view characteristic of work written by Chicanos during the 20th century. Most required reading is in Spanish. Bilingual and English works are included and discussed. Reading and analysis of a number of important scholarly and critical statements pertaining to characteristics and development of the Chicano literary corpus. Letter grading. M145A. Literature to 1960; M145B. Literature after 1960.

M146. Chicano Narrative. (4) (Same as Chicana and Chicano Studies M146.) Lecture, three hours. Introduction to major narrative genres in Chicana/Chicano literary tradition—Corrido, Semblanza, chronicle, autobiography, novel, romance, and satire. Emphasis on way in which narrative forms are formed by and address specific social/historical problems. P/NP or letter grading.

147. Central American Literature. (4) Lecture, four hours. Study of representative novels, short stories, poems, testimonio, and essays by contemporary Central American authors and authors of Central American heritage. P/NP or letter grading.

148. Folk Literature of Hispanic World. (4) Lecture, three hours. Study of history and present dissemination of principal forms of folk literature throughout Hispanic countries. P/NP or letter grading.

151A-151B. Women in Hispanic Literature. (4-4) Discussion, three hours. Recommended preparation: courses 120A, 120B, 120C. Study of works by and about women, with emphasis on portrayal of women, women’s roles, and myths of womanhood within the Hispanic socio-ideological context. 151A. Spain. 151B. Spanish America.

161. Film and Literature of Spanish-Speaking World. (5) (Formerly numbered M161.) Lecture, three hours; discussion, one hour. May be taught in either English or Spanish. Exploration of perceptions of reality offered by different authors and filmmakers from Spain, Latin America, and Chicano community. P/NP or letter grading.

164SL. Spanish/English Exchange. (5) (Same as Chicana and Chicano Studies M164SL.) Seminar, three hours; fieldwork at Venice High School, four hours. Preparation: two years of college or university Spanish. Students are paired with one or more English as a Second Language (ESL) Venice High students and converse for two hours in Spanish and two hours in English. Topics for Spanish portion provided in APS manual; topics for English exchange selected by ESL teacher. Encounters form basis for student compositions and oral reports and supply part of raw data for learner’s journal. Review of key areas of Spanish grammar to allow UCLA students to improve language skills, increase knowledge of Latino community and new immigrant Latino youth, and help Venice students improve their English. These discussions concern U.S. culture, importance of higher education, student adaptation to life in the U.S., and utilization of their interest in higher education. P/NP or letter grading.

M165SL. Taking It to Street: Spanish in Communities. (5) (Formerly numbered M165SL.) (Same as Applied Linguistics and TESL M165SL.) Seminar, three hours; fieldwork, 10 hours. Requisite: course 25 or 27. Service learning course to give students opportunity to use cultural and linguistic knowledge acquired in Spanish classes in real-world settings. Students required to spend minimum of eight to 10 hours a week at agreed on site in Latino community. P/NP or letter grading.

M172SL. Latinos, Literacy, and Linguistics. (5) (Formerly numbered M172.) (Same as Chicana and Chicano Studies M172SL.) Seminar, four hours; field project, four to six hours. Recommended requisite: course 100A. In-depth study of various topics related to literacy, including different definitions of literacy, adult preliteracy, and gender and approaches to literacy (whole language, phonics, Freire’s liberation pedagogy). History of writing systems, phoneme and basis for writing systems, literature and cultural development of literacy campaigns. Required field project involving Spanish-speaking adults in adult literacy programs. P/NP or letter grading.

187A-187B. Advanced Tutorial in Community and Culture I, II. (1-2) Tutorial, one hour. Requisite: course 25 or 27. Designed as adjunct to upper division course in Hispanic language, literature, and culture. Exploration of topics in greater depth through supplemental readings, papers, community service, or other activities. Course 187A may be repeated once for credit. P/NP or letter grading.

191A. Variable Topics in Spanish: Studies in Hispanic Literature and Linguistics. (4) Seminar, three hours. Limited to 15 juniors/senior Spanish majors. Variable topics course with readings, discussions, and development of culminating paper. Consult Schedule of Classes or department counselor for topic to be offered in specific term. P/NP or letter grading.

195. Community Internships in Spanish. (4) Tutorial, one hour; fieldwork, 10 hours. Requisite: course 25 or 27. Limited to juniors/seniors. Internship in supervised setting in community agency or business. Students meet on regular basis with instructor and provide journal of their experience. Final research paper required. May be repeated for credit. Individual contract with supervising faculty member required. P/NP or letter grading.

197. Individual Studies in Spanish. (2 to 4) Tutorial, to be arranged. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Assigned reading and tangible evidence of mastery of subject matter required. Eight units of courses 197 and/or 199 may be applied toward major requirements. May be repeated for credit. Individual contract required. Letter grading.

198. Senior Honors Research in Spanish. (4) Tutorial, to be arranged. Preparation: completion of required nine upper division major courses with 3.5 grade-point average. Limited to juniors/seniors. Development and completion of honors thesis under direct supervision of faculty member. May be repeated for credit. Individual contract required. Letter grading.

199. Directed Research in Spanish. (2 to 4) Tutorial, to be arranged. Requisite: course 25. Limited to juniors/seniors. Supervised individual research under guidance of faculty mentor. Culminating paper required. Eight units of courses 197 and/or 199 may be applied toward major requirements. May be repeated for credit. Individual contract required. Letter grading.

Graduate Courses

M200. Research Resources. (4) (Same as Portuguese M200.) Lecture, three hours. Identification and use of research resources for graduate students.

M201A-M201B. Literary Theory and Criticism. (4-4) (Same as Portuguese M201A-M201B.) Lecture, three hours. Definition, discussion, and application of main currents of contemporary literary theory and criticism. Letter grading.

202A. Phonology. (4) Lecture, three hours. Study of the sound structure of Spanish and main phonological processes that make up underlying representations into surface representations. Bearing of phonological theory on study of meter.

202B. Morphology. (4) Lecture, three hours. Study of derivational and inflectional word formation processes and their interaction with syntactic structure.

204A-204B. Generative Syntax and Semantics. (4-4) Lecture, three hours. Study of syntactic structure of Spanish and relation between underlying representations and logical form within a principles and parameters framework. Bearing of syntactic and semantic structure on study of literature.

M205A-M205B. Development of Portuguese and Spanish Languages. (4-4) (Same as Portuguese M205A-M205B.) Lecture, three hours. Intensive study of historical development of Portuguese and Spanish languages from their origin in spoken Latin.

209. Dialectology. (4) Lecture, three hours. Major dialect areas of peninsular and American Spanish, with distinguishing features of each. Influence and contribution of cultural and historical features, including indigenous languages, to their formation.

211. Medieval Lyric Poetry. (4) Lecture, three hours. Readings of and lectures on Spanish lyric poetry from the beginning to 1500.

212. Medieval Epic and Narrative Poetry. (4) Lecture, three hours. Readings of and lectures on Spanish epic and narrative poetry from the beginning to 1500.

213. Medieval Prose. (4) Lecture, three hours. Readings of and lectures on Spanish prose from the beginning to 1500.

214. Poetry of the Golden Age. (4) Lecture, three hours. Readings of and lectures on Spanish lyric poetry from the beginning to 1500.

216. Prose of the Golden Age. (4) Lecture, three hours. Readings of and lectures on Spanish epic and narrative poetry from the beginning to 1500.

217. Cervantes. (4) Lecture, three hours. Readings of and lectures on works of Cervantes.
228. The Enlightenment. (4) Lecture, three hours. Readings of and lectures on representative works of the period.
229. Romanticism. (4) Lecture, three hours. Readings of and lectures on contemporary works, principally novels, from 1850 to 1898.
230. Realism and Naturalism. (4) Lecture, three hours. Readings of and lectures on literary works, especially short stories of the period.
231. Major Currents in Modern Spanish Literature. (4) Lecture, three hours. Introduction to major literary currents, including symbolism, Parnassianism, and the Generation of 1898.
232. Spanish Prose Literature from 1898 to the Civil War. (4) Lecture, three hours. Readings of and lectures on representative essays, novels, and short stories of the period.
233. Spanish Prose Literature after the Civil War. (4) Lecture, three hours. Readings of and lectures on representative essays, novels, and short stories of the period.
234. Spanish Drama and Poetry from 1898 to the Civil War. (4) Lecture, three hours. Readings of and lectures on representative plays and poems.
235. Spanish Drama and Poetry after the Civil War. (4) Lecture, three hours. Readings of and lectures on representative plays and poems of the period.
237. Literature of the Spanish Conquest. (4) Lecture, three hours. Poetry, readings of and lectures on chronicles, poems, and indigenous accounts of the Spanish Conquest.
241A-241B. Contemporary Spanish-American Short Story. (4-4) Lecture, three hours. Study of important short story writers from modernism to the present.
243A-243B. Contemporary Spanish-American Poetry. (4-4) Lecture, three hours. Intensive study of important poets of Spanish America from modernism to the present.
244A-244B. Contemporary Spanish-American Novel. (4-4) Lecture, three hours. Study of important novelists from modernism to the present.
247. Chicano Literature. (4) Lecture, three hours. Study of major movements and authors of Mexican American literature.
M249. Folk Literature of Spanish and Portuguese Worlds. (4) (Same as Portuguese M249.) Lecture, three hours. Intensive study of folk literature of Spanish and Portuguese cultures as represented in (1) ballad and poetry, (2) narrative and drama, and (3) speech. S/U or letter grading.
M251A-M251B. Studies in Galician-Portuguese and Old Spanish. (4-4) (Same as Portuguese M251A-M251B.) Lecture, two hours. Study of problems related to historical development of Galician-Portuguese and Old Spanish. Each course may be repeated once with topic change and consent of appropriate guidance committee.
M256A-256B. Studies in Spanish Linguistics. (4-4) Lecture, two hours. Study of problems in analysis and description of the Spanish language. Each course may be repeated once with topic change and consent of appropriate guidance committee.
257. Studies in Dialectology. (4) Discussion, two hours. May be repeated once with topic change and consent of appropriate guidance committee.
262A-262B. Studies in Medieval Spanish Literature. (4-4) Discussion, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee.
264A-264B. Studies in Golden Age Spanish Literature. (4-4) Discussion, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee.
265. Cervantes. (4) Discussion, two hours. May be repeated once with topic change and consent of appropriate guidance committee.
270A-270B. Studies in 18th-Century Spanish Literature. (4-4) Discussion, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee.
271A-271B. Studies in 19th-Century Spanish Literature. (4-4) Discussion, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee.
272A-272B. Studies in 20th-Century Spanish Literature. (4-4) Discussion, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee.
277A-277B. Studies in Colonial Spanish-American Literature. (4-4) Each course may be repeated once with topic change and consent of appropriate guidance committee.
278A-278B. Studies in 19th-Century Spanish-American Literature. (4-4) Discussion, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee.
280A-280B. Studies in Contemporary Spanish-American Literature. (4-4) Discussion, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee.
281. Studies in Chicano Literature. (4) Discussion, two hours. May be repeated once with topic change and consent of appropriate guidance committee.
286A-286B. Studies in Hispanic Folk Literature. (4-4) Lecture, two hours. Each course may be repeated once with topic change and consent of appropriate guidance committee. S/U or letter grading.
290. Special Topics. (4) Lecture, two hours. Variable topics: consult Schedule of Classes or department counselor for topics to be offered in a specific term. May be repeated once with topic change and consent of appropriate guidance committee.
291A-291B. Colonial Studies Research Group. (2-2) Research group meeting, two hours. Limited to graduate students. Discussion and analysis of colonial manuscripts. Specific topics vary from year to year. Production of student papers for publication and presentation at conferences or symposia. S/U grading; 291B. Prerequisite: course 291A. May be repeated for credit. S/U or letter grading.
M294. Seminar: Literary Theory. (5) (Same as Comparative Literature M294.) Lecture, three hours. Advanced interdisciplinary seminar to explore philosophical, historical, and critical foundations of literary theory as well as current issues in literary and cultural studies. S/U or letter grading.
296. Graduate Research Group. (2) Research group meeting, two hours. Limited to graduate students. Designed to bring together graduate students in seminars setting with one or more faculty members to discuss and critique individual research projects, especially dissertation research. S/U grading.
M299. Research Resources for European Studies. (2) (Same as French M299, German M299, Italian M299, and Slavic M299.) Lecture, two hours. Essentials of library research strategy and effective searching in key print and online resources for European and Russian studies. Through combination of lecture, online demonstration, and hands-on activities in and outside class, students understand how to efficiently use library and databases. S/U grading.
310. Teaching Spanish in Elementary School. (4) Lecture, three hours.
373. Teaching Composition. (2) Designed for graduate students. Seminar on teaching writing in Spanish language courses. Introduction to composition theory, instruction and practice in integrating writing into curriculum, setting goals and standards, designing and sequencing course materials, evaluating and commenting on papers. May not be repeated for credit. S/U grading.
375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.
480. Using Technology in Foreign Language Classrooms. (4) Discussion, two hours. Designed for graduate students. Theory and practice of using technology in foreign language classroom. Computer applications that facilitate instruction of grammar, discourse, culture, and composition, as well as evaluation and communication between students and instructor. S/U grading.
596. Directed Individual Study or Research. (4 to 8) Tutorial, to be arranged. Study or research in areas or subjects not offered as regular courses. No more than 4 units may be applied toward M.A. course requirements. S/U or letter grading.
597. Preparation for Graduate Examinations. (4 to 12) Tutorial, to be arranged. Preparation: official acceptance of candidacy by department. Individual preparation for M.A. comprehensive examination or Ph.D. qualifying examinations. May be taken only once for each degree examination and only in term that comprehensive or qualifying examinations are to be taken. S/U grading.

Scope and Objectives
With the advent of fast computing and the subsequent flood of data detailing almost every aspect of our daily lives comes an urgent need for scientists trained in modern statistical methodologies.

Both the undergraduate and graduate programs are structured around three core course sequences that introduce students to the science of data: theoretical statistics, data analysis, and statistical computing. This balance reflects the scale and complexity of problems that statisticians are now routinely called to address. Additional course offerings reflect the work of faculty members in bioinformatics, sensor networks, environmental studies, finance, and computer vision.

Courses and workshops for secondary school teachers of statistics are also offered in order to promote sound statistics pedagogy throughout the curriculum.

Reflecting diverse research interests, the Statistics Department is organized around several centers that collectively provide undergraduate and graduate students rich opportunities for specialized study. These include the Center for Environmental Statistics, Center for Image and Vision Sciences, Center for Statistical Computing, Center for Statistical Research in Computational Biology, and Center for the Teaching of Statistics.

Undergraduate Study
Undergraduate Courses
Students planning to pursue advanced degrees in statistics should enroll in the Statistics 100 sequence. Most courses are offered once or twice each year; students interested in either the major or minor in Statistics should meet with the student affairs officer early in their careers.

Statistics B.S.
The Statistics major is designed to provide a general introduction to the practice of statistics for students who intend to pursue study at the graduate level or seek employment in industry or government. Courses are selected to provide students with necessary background for future graduate-level research work, exposure to modern techniques and practices, and experience in fields of application.

To enter the major, students should have successfully completed one lower or upper division Statistics Department course with a letter grade, have an overall grade-point average of 2.0 or better, and declare the Statistics major with the undergraduate adviser in 8117A Math Sciences, (310) 206-3742.

Only 8 units of course 199 may be applied toward the major. Courses 110A, 110B, 189, and 189HC not may be applied toward any of the major requirements.

Statistics Minor
The Statistics minor is designed to provide a solid background in statistics for students majoring in other disciplines.

To enter the minor, students should have successfully completed one course from Statistics 10 through 14 with a letter grade, an overall grade-point average of 2.0 or better, and file a petition with the undergraduate adviser in 8117A Math Sciences, (310) 206-3742.

Required Lower Division Courses (8 units): Statistics 35A or 35B or 35C, and Mathematics 38 or 31B.

Required Upper Division Courses (28 units): Seven upper division courses selected from one of the following options: (1) any two sequences from Statistics 100A, 100B, 100C, and 101A, 101B, 101C, and 102A, 102B, 102C, 140SL, and four upper division elective courses (at least two from statistics and at least one from mathematics) selected from 130A, 130C, 150 through 199, Mathematics 131A, 131B, 151A, 151B, 170B, 171, 172A, 172B. Elective courses from outside the department are selected in consultation with the undergraduate faculty adviser.

Statistics / 585
10. Introduction to Statistical Reasoning. (Formerly numbered 10A.) Lecture, three hours; discussion, one hour; computer laboratory, two hours. Preparation: three years of high school mathematics. Not open for credit to students with credit for course 10H, 11, 12, 13, or 14. Descriptive statistics, elementary probability, random variables, binomial and normal distributions. Large and small sample inference concerning means. Introduction to statistical software. Letter grading.

11. Introduction to Statistical Methods for Business and Economics. (5) Lecture, three hours; discussion, one hour; computer laboratory, one hour. Not open for credit to students with credit for course 10H, 12, 13, 14, 100A, 100B, 100C, Mathematics 170A, or 170B. Elements of statistical analysis. Presentation and interpretation of data; descriptive statistics; theory of probability and basic sampling distributions; statistical inference, including principles of estimation and tests of hypotheses; introduction to regression and correlation. Letter or P/N grading.

12. Introduction to Statistical Methods for Geography and Environmental Studies. (5) (Formerly numbered M12.) Lecture, four hours; discussion, one hour; laboratory, one hour. Not open for credit to students with credit for course 10, 10H, 12, 13, 14, 100A, 100B, 100C, Mathematics 170A, or 170B. Elements of statistical analysis. Introduction to statistical thinking and understanding, with emphasis on techniques used in geography and environmental science. Underlying logic behind statistical procedures, role of variation in statistical thinking, strengths and limitations of statistical summaries, and fundamental inferential tools. Emphasis on applications in geography and environmental science in laboratory work using professional statistical analysis package, including spatial statistics. P/N or letter grading.

13. Introduction to Statistical Methods for Life and Health Sciences. (5) Lecture, three hours; discussion, one hour; laboratory, one hour. Not open for credit to students with credit for course 10, 10H, 11, 12, or 14. Preparation and interpretation of data, descriptive statistics, introduction to correlation and regression and to basic statistical inference (estimation and testing of means and proportions, ANOVA) using both bootstrap methods and parametric models. P/N or letter grading.

14. Introduction to Statistical Methods in Physical Sciences, Engineering, and Economics. (8) Lecture, three hours; discussion, one hour; laboratory, one hour. Not open for credit to students with credit for course 10, 10H, 11, 12, or 13. Introduction to conceptual and operational aspects of statistics with attention to applications of physical sciences and engineering. Topics include data collection and experimental design, quantifying uncertainty in measurement and descriptive statistics, introduction to time series and regression. Laboratory component to learn data analysis on real data and fundamental techniques of computer statistical analysis, including bootstrap methods. P/N or letter grading.

35A. Interactive and Computational Probability. (4) (Formerly numbered 35.) Lecture, three hours; discussion, one hour. Not open for credit to students with credit for course 35B. Basic introductory probability topics in interactive, problem-driven manner. Various applets, interfaces, and demonstrations used to illustrate fundamental properties of random variables, random numbers, computer simulations, and the law of large numbers. P/N or letter grading.

35B. Introduction to Probability with Applications to Poker. (4) Lecture, three hours; discussion, one hour. Not open for credit to students with credit for course 35B. Elements of probability and counting, conditional probability, independence, Bayes theorem, binomial, Poisson, and normal distributions. Application to gambling and decision making. P/N or letter grading.

35C. Applied Sampling. (4) (Formerly numbered 34.) Lecture, three hours; discussion, one hour. Designed for lower division students in social or life sciences and for those who plan to major in Statistics. Topics include methods of sampling from finite populations, sources of sampling and estimation bias, and methods of generating efficient and precise estimates of population characteristics. Practical applications of sampling methods via lectures and hands-on laboratory exercises. P/N or letter grading.

88. Sophomore Seminars: Statistics. (2) Seminar, two hours. Requisite: one course from 10, 10H, 11, 12, 13, or 14. Limited to 20 lower division students. Topics change each semester and are designed to introduce students to current statistical consulting research and fieldwork disciplines. Culminating project may be required. P/N or letter grading.

Upper Division Courses

100A. Introduction to Probability. (4) Lecture, three hours; discussion, one hour. Recommended preparation: course 35A or 35B or 35C. Requisites: Mathematics 32B, 33A. Not open to students with credit for Electrical Engineering 131A or Mathematics 170A. Topics include: probability models, random variables, distribution and expectation, multivariate normal distributions, central limit theorem, sampling distributions, confidence intervals, and hypothesis testing. P/N or letter grading.

100B. Introduction to Mathematical Statistics. (4) Lecture, three hours; discussion, one hour. Requisite: course 100A or Mathematics 170A. Survey sampling, estimation, testing, data analysis, one- and two-sample problems. P/N or letter grading.

100C. Linear Models. (4) Lecture, three hours; discussion, one hour. Requisite: course 100B. Theory of linear models, with emphasis on the matrix approach to linear regression. Topics include model fitting, extra sums of squares principle, testing general linear hypothesis in regression, inference procedures, Gauss/Markov theorem, examination of residuals, principle component regression, stepwise procedures. P/N or letter grading.

101A. Introduction to Design and Analysis of Experiment. (4) Lecture, three hours; discussion, one hour. Requisites: course 10, 11, 12, 13, or 14, and Mathematics 32B. Fundamentals of collecting data, including components of experiments, randomization and blocking, completely randomized design and ANOVA, multiple comparisons, power and sample size, and block designs. P/N or letter grading.

101B. Introduction to Data Analysis and Regression. (4) (Formerly numbered 120A.) Lecture, three hours; discussion, one hour. Enforced requisite: course 101B. Designed for juniors/seniors. Applied regression analysis, with emphasis on general linear model (e.g., multiple regression) and linear model (e.g., logistic regression). Special attention to modern extensions of regression, including regression diagnostics, graphical procedures, and bootstrapping for statistical inference. P/N or letter grading.

101C. Introduction to Regression and Data Mining. (4) (Formerly numbered 120B.) Lecture, three hours; discussion, one hour. Enforced requisite: course 101B. Designed for juniors/seniors. Applied regression analysis, with emphasis on general linear model (e.g., multiple regression) and linear model (e.g., logistic regression). Special attention to modern extensions of regression, including regression diagnostics, graphical procedures, and bootstrapping for statistical inference. P/N or letter grading.

102A. Introduction to Computational Statistics with R. (4) (Formerly numbered 135.) Lecture, three hours. Requisites: courses 35A or 35B or 35C and Mathematics 3B or 31B, or Mathematics 32B and 33A. Introduction to programming and data analysis in R. P/N or letter grading.

102B. Matrix Computation and Optimization for Statistics. (4) (Formerly numbered 175.) Lecture, three hours. Requisite: one course from 10, 11, 12, 13, 14, 100A, or 110A. Introduction to those parts of matrix algebra and matrix computation that are most useful for statisticians. Use of computer exercises and R programming language. P/N or letter grading.

105. Statistics for Engineers. (4) Lecture, three hours; discussion, one hour. Requisite: course 100A or Electrical Engineering 131A or Mathematics 170A. Foundation of basic concepts and methods of statistics. Topics include sampling distributions, statistical estimation (including maximum likelihood estimation), statistical intervals, and hypothesis testing, with emphasis on applications. Uses R (open-source) in many concepts. Discussion of methods for checking whether assumptions required for mathematical foundations are appropriate for given set of data. P/N or letter grading.
110A-110B. Applied Statistics. (4-4) Lecture, three hours; discussion, one hour. P/NP or letter grading.
110A. Requisites: course 35A or 35B or 35C and of Mathematics 31B or 31BL, or Mathematics 32B and 33A. Not open to students with credit for Electrical Engineering 131A. Students may receive credit for only one of the following: courses 10A, 110A, 110B, Biostatistics 100A. Probability, distributions, expectation, estimation, central limit theorem, confidence intervals, testing. 110B. Requisite: course 110A. One- and two-sample problems, goodness of fit and contingency tables, correlation and regression, analysis of variance, nonparametrics.

130A. Statistical Analysis with STA1A. (4) Lecture, three hours; discussion, one hour. Requisite: one course from 10, 10H, 11, 12, 13, 14, 100A, or 110A. How to manage and analyze quantitative data using STATA statistical software. Graphical analysis and programming and extensions to basic package. P/NP or letter grading.

130B. Statistical Analysis with SAS. (4) Lecture, three hours. Requisite: one course from 10, 10H, 11, 12, 13, 14, 100A, or 110A. How to manage and analyze quantitative data using STATA statistical software. Classical test, factor analysis, generalizability, and social sciences. Resampling methods — bootstrap and permutation test — are table-free and distribution-free, require common sense (not calculus), yet have broader range of applications than classical parametric statistical procedures. Concurrently scheduled with course C225. P/NP or letter grading.

152. Bootstrap, Jackknife, and Resampling Methods. (4) Lecture, three hours; discussion, one hour. Requisite: one course from 10, 10H, 11, 12, 13, 14, 100A, or 110A. Simple intuitive introduction to practical application of statistics for experiments and surveys in business and biological, medical, physical, and social sciences. Resampling methods — bootstrap and permutation test — are table-free and distribution-free, require common sense (not calculus), yet have broader range of applications than classical parametric statistical procedures. Concurrently scheduled with course C225. P/NP or letter grading.

153. Statistical Analysis with Missing Data. (4) Lecture, three hours. Requisite: course 102A. Study of methods dealing with nonresponse and missing data, including introduction to terminology, limitations of simple methods, and modern methods for dealing with missing data, such as EM algorithm and multiple imputation. P/NP or letter grading.

155. Introduction to Statistical Analysis of Environmental Data. (4) Lecture, three hours. Requisite: course 10. Routine intermediate applied statistics course, with emphasis on applications to environmental data and statistical computing with the language R. Statistical analysis and scientific report from real data required. Concurrently scheduled with course CM255. P/NP or letter grading.

158. Statistical Analysis of Internet and World Wide Web Data. (4) (Formerly numbered C158.) Lecture, three hours. Requisite: course 100B or 100C or 101B. Demography and statistical models of the browsing behavior of World Wide Web users, models of Internet traffic data, and statistics methods for creating better Web search engines and spam filters. Use of large data sets to test issues of statistical process and statistical solutions. Software, some programming, handling of large data sets, and text mining, with emphasis on acquiring hands-on experience and on becoming active participants in current research debates. P/NP or letter grading.

C160. Site-Specifics Topics. (4) Seminar, three hours. Tracking of invisible flows of data through greater Los Angeles metropolitan area. Students will be assigned small number of specific sites situated prominently in both physical and virtual (data) spaces. Documentation of kinds of data that originate, terminate, or simply route through each location. Consideration of analyses (visual, computational, or simply informal), decisions that are made, and actions that are taken on basis of these data, whether they be human or automated responses. Documentation of how patterns of data acquisition and analysis dictate behaviors, enable or restrict movements, and shape local community. Alterations or additions to data flows that could improve quality of life for inhabitants of or visitors to these sites. May be repeated for credit; however, only one C160 may be applied toward major or minor requirements. Concurrently scheduled with course C260. P/NP or letter grading.

C161. Introduction to Pattern Recognition and Machine Learning. (Formerly numbered 161.) Lecture, three hours. Requisite: course 100B, Mathematics 33A. Introduction to pattern analysis and machine intelligence designed for advanced undergraduate and graduate students. May not be applied toward M.S. or Ph.D. requirements. Concurrently scheduled with course C261. P/NP or letter grading.

165. Statistical Methods and Data Mining. (4) Lecture, three hours. Requisite: course 10. Use of visualization and visualization and overview of up-to-date statistical methods in microarray analysis designed for students in biostatistics, statistics, and human genetics who are interested in technology and statistical analysis of microarray experiments. Useful for biology students with basic statistical training who are interested in understanding logic underlying many statistical methods. P/NP or letter grading.

170. Introduction to Time-Series Analysis. (4) Lecture, three hours; discussion, one hour. Requisite: course 100C or 110B or 120A. Exploration of standard methods in temporal and frequency analysis used in analysis of numerical time-series data. Examples provided throughout, and students implement techniques discussed. P/NP or letter grading.

M171 Introduction to Spatial Statistics. (4) (Same as Geography M171.) Lecture, three hours; laboratory, one hour. Requisite: one course from 10, 11, 12, 13, or 14. Introduction to methods of measurement and interpretation of geographic distributions and associations. P/NP or letter grading.

C173. Applied Geostatistics. (4) Lecture, three hours; discussion, one hour. Requisite: course 100C (may be taken concurrently) or 101B or 110B. Geostatistics can be applied to many problems in other disciplines such as hydrology, traffic, air and water pollution, epidemiology, economics, geography, waste management, forestry, oceanography, meteorology, and agriculture and, in general, to every problem where data are observed at geographic locations. Acquisition of knowledge from different areas that can be used to analyze real spatial data problems and to connect geostatistics with geographic information systems (GIS). Concurrently scheduled with course C273. P/NP or letter grading.
C180. Introduction to Bayesian Statistics. (4) Lecture, three hours; discussion, one hour. Requisites: Mathematics 23B, 33B. Designed for juniors/seniors. Introduction to Bayes theorem based on use of Bayes' theorem, covering foundational aspects, current applications, and computational issues. Topics include Stein paradox, nonparametric Bayes, and statistical learning: Examples of applications vary according to interests of students. May not be applied toward Ph.D. in Statistics. Concurrently scheduled with course C208A. P/NP or letter grading.

C182. Fundamentals of Scientific Writing. (2) Seminar, one hour. Development and perfection of student written communication skills through variety of scientific writing and reading assignments. Objectives and techniques of scientific writing and practice with different forms of professional writing. Analysis of quality of writing, including control, clarity, grammar, and mechanics. Concurrently scheduled with course C296. P/NP or letter grading.

CM185. Statistical Methods for Physical Sciences. (4) (Same as Atmospheric and Oceanic Sciences CM185.) Lecture, three hours. Designed for juniors/seniors. Statistical framework for data analysis in fields of atmospheric sciences, astronomy, geology, and chemistry, depending on class composition. Presentation of popular techniques in all fields, with emphasis on applications and data, not theory; although some understanding of theory is needed. Concurrently scheduled with course CM252. P/NP or letter grading.

186. Careers in Statistics. (1) Seminar, one hour. Discussion of applications of statistics by weekly guest speakers. How statistics is applied to legal questions, economics, arts, environment, and other fields, with some emphasis on career paths in statistics. P/NP or letter grading.

195. Community or Corporate Internships in Statistics. (4) (Formerly numbered 199.) Internship in supervised setting in community agency or business. Students meet on regular basis with instructor and provide periodic reports of their experience. May be repeated for credit. Individual contract with supervising faculty member required. P/NP or letter grading.

199. Directed Research in Statistics. (1 to 4) Tutorial, one hour. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Course paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

200C. Large Sample Theory, Including Resampling. (4) (Formerly numbered 200B.) Lecture, three hours. Enforced requisite: course 200B. Asymptotic properties of tests and estimates, consistency and efficiency, likelihood ratio tests, chi-squared tests. S/U or letter grading.

201A. Research Design, Sampling, and Analysis. (4) Lecture, three hours. Designed for graduate students. Design and analysis of surveys and experiments, sampling with different forms of professional writing. Analysis of quality of writing, including control, clarity, grammar, and mechanics. Concurrently scheduled with course C296. P/NP or letter grading.

201B. Regression Analysis: Model Building, Fitting, and Criticism. (4) (Formerly numbered 217A.) Lecture, three hours. Enforced requisite: course 201A. Designed for graduate students. Applied regression analysis with emphasis on general linear model (e.g., multiple regression) and generalized linear model (e.g., logistic regression). Special attention to modern extensions of regression, including regression diagnostics, graphical procedures, and bootstrapping for statistical inference. S/U or letter grading.

201C. Advanced Modeling and Inference. (4) (Formerly numbered 217B.) Lecture, three hours. Designed for graduate students. Introduction to advanced topics in statistical modeling and inference, including Bayesian hierarchical models, missing data problems, mixture modeling, additive modeling, hidden Markov models, and Bayesian networks. Coverage of computational methods used and developed for these models and problems, such as EM algorithm, data augmentation, dynamic programming, and belief propagation. S/U or letter grading.

202A. Statistical Programming. (4) Lecture, three hours. Topics include programming environments/languages such as UNIX, UNIX shell, Python, R, and Processing and data technologies/frameworks such as relational databases/SQL and XML, with emphasis on complex data types, including large collections of textual data, GPS traces, network logs, and various online sources. S/U or letter grading.

202B. Matrix Algebra and Optimization. (4) Lecture, three hours. Recommended requisite: course 202A. Survey of computational methods that are especially useful for statistical analysis, with implementations in statistical package R. Topics include matrix analysis, multivariate regression, principal component analysis, multivariate analysis, and deterministic optimization methods. S/U or letter grading.

204. Nonparametric Function Estimation and Modeling. (4) Lecture, three hours. Requisite: course 200A. Introduction to many useful nonparametric techniques such as nonparametric density estimation, nonparametric regression, and high-dimensional statistical modeling. Some semiparametric techniques and functional data analysis. Letter grading.

207. Time Series Analysis. (4) Lecture, three hours. Designed for graduate students. Time series analysis methods and applications. Topics include ARIMA models, spectral analysis, and state-space models. S/U or letter grading.

211. Analysis of Data with Qualitative and Limited Dependent Variables. (4) (Same as Sociology M211.) Lecture, three hours. Designed for graduate students. Introduction to current methods of analyzing binary data, including logistic regression and probit models. S/U or letter grading.

212. Program Evaluation and Policy Analysis. (4) Lecture, three hours. Requisite: course 101C. Primarily focuses on the methods of program evaluation. Randomized experiments, observational studies, and topics such as matching, stratification, covariance adjustments, and sensitivity analyses. Letter grading.

213. Applied Event History Analysis. (4) (Same as Sociology M231B.) Lecture, three hours. Preparation: exposure to binary response models. Requisites: Sociological 120A, 210B, Introduction to regression-like analyses in which outcome is “time to event.” Topics include logit models for discrete-time event history models; piecewise exponential hazards models; proportional hazards; nonproportional hazards; parametric survival models; multilevel survival models. S/U or letter grading.

216. High-Dimensional Data Analysis. (4) Lecture, three hours. Requisites: courses 100A, 100B, 100C. Designed for graduate students. Discussion of several statistical methodologies used in analyzing voluminous data, including principal component analysis, clustering and classification, tree-structured analysis, neural network, hidden Markov models, sliced inverse regression (SIR), and principal Hessian direction (PHD). S/U or letter grading.

221. Time-Series Analysis. (4) (Same as Earth and Space Sciences M221.) Lecture, three hours. Designed for graduate students. Exploration of methods for analyzing numerical time-series data. Basic topics in temporal and frequency analysis, followed by more recent topics. Examples in various fields including economics, signal processing, and atmospheric sciences. S/U or letter grading.

222. Spatial Statistics. (4) (Same as Geography NE72 and Urban Planning M215.) Lecture, three hours. Designed for graduate students. Survey of modern methods used in analysis of spatial data. Implementation of various techniques using real data sets from diverse fields, including neuroimaging, geography, seismology, demography, and environmental sciences. S/U or letter grading.

225. Experimental Design. (4) Lecture, three hours. Requisite: course 100C or 101B or 110B. Basic principles, analysis of variance, randomized block designs, Latin squares, balanced incomplete block designs, factorial designs, fractional factorial designs, minimum aberration designs, robust parameter designs. Concurrently scheduled with course C151. S/U or letter grading.

226. Bootstrap, Jackknife, and Resampling Methods. (4) Lecture, three hours: discussion, one hour. Designed for graduate students. Simple intuitive introduction to practical application of statistics for experiments and surveys in business and biological, medical, physical, and social sciences. Resampling methods — bootstrap and permutation test — are table-free and distribution-free, yet require common sense (not calculus), yet have a broader range of applications than classical parametric statistical procedures. Concurrently scheduled with course C152. S/U or letter grading.

M231. Pattern Recognition and Machine Learning. (4) (Same as Computer Science M276A.) Lecture, three hours. Designed for graduate students. Fundamentals of pattern recognition and machine learning that are used in computer vision, image processing, speech recognition, data mining, statistics, and computational biology. Topics include Bayesian decision theory, parametric and nonparametric learning, clustering, complexity (VC-dimension, MDL, AIC), PCA/ICA/TCA, MDS, SVM, boosting. S/U or letter grading.

232B. Statistical Computing and Inference in Vision and Image Science. (4) Lecture, three hours. Preparation: basic statistics, linear algebra (matrix analysis), computer vision. Introduction to broad range of algorithms for statistical inference and learning that could be used in vision, pattern recognition, speech, and computational biology. Topics include Markov chain Monte Carlo computing, sequential Monte Carlo methods, belief propagation, partial differential equations. S/U or letter grading.

234. Statistics and Information Theory. (4) Lecture, three hours. Preparation: introductory probability theory course. While data compression and transmission are fundamental problems in information theory, field provides insights into fundamentally statistical problems of estimation, prediction, and model selection. Even new concepts of randomness emerge from this line of research. S/U or letter grading.

C235. Data Management. (4) (Formerly numbered 235S.) Lecture, three hours. Requires: one course from 10, 11, 12, 13, or 14. Proper methods by which researchers should create, document, maintain, and utilize statistical databases. Basics of raw data formats to complete management of data archive. Concurrently scheduled with course C156. S/U or letter grading.

C236. Introduction to Bayesian Statistics. (4) Lecture, three hours; discussion, one hour. Designed for graduate students. Introduction to statistical inference based on use of Bayes theorem, covering foundational aspects, current applications, and computational issues. Topics include Stein paradox, nonparametric Bayes, and statistical learning. Examples of applications vary according to interests of students. May not be applied toward Ph.D. in Statistics. Concurrently scheduled with course C180. S/U or letter grading.

M237. Data and Media Arts. (4) (Same as Design I Media Arts M239.) Studio, six hours. Through expanding visual and critical contexts, and by utilizing technological advancement of data collection technologies, almost every aspect of our lives can be "rendered" in data. Contemplation of use of data in creation of media art and examination of each step in process of data collection; analysis; interpretation. Topics include databases and data warehousing, exploratory analysis and visualization, clustering and pattern finding, sampling, and other mining algorithms. Exploration, through discussions, of fundamental concepts like complexity and randomness. Techniques that organize data, search for patterns, and create meaningful and/or expressive representations. Letter grading.

M238. Vision as Inference. (4) Lecture, three hours. Requires: course 100A or 200A. Formulation of vision as Bayesian inference using models developed for designing artificial vision systems. Applied to statistics, they define ideal observer models that can be used to model human performance and serve a benchmark. S/U or letter grading.

M239. Probabilistic Models of Cognition. (4) Seminar, three hours; discussion, one hour. Requires: course 100A. Topics include causal Markov fields, discriminative (hidden Markov), and discriminative. Comparison of principles and algorithms for these models; presentation of unifying picture. Introduction of minimax entropy and EM-type and stochastic algorithms for learning, S/U or letter grading.

M242. Multivariate Analysis with Latent Variables. (4) (Same as Political Science M206B and Psychology M257.) Lecture, three hours. Introduction to models and methods for analysis of data hypothesized to be generated by unmeasured latent variables, including latent class and second-order factor models for multivariate analysis. Causal modeling: theory testing via analysis of moment structures. Measurement models such as confirmatory, higher-order, and structural-equation modeling. Statistical approaches to construct equations models, including path and simultaneous equation models. Parameter estimation, hypothesis testing, and other statistical issues. Computer implementation. Applications. S/U or letter grading.

M245. History of Statistics. (4) (Same as History M236.) Seminar, three hours. History of statistics ranges over vast and diverse territory. Development of mathematical methods; philosophical, political, and social issues related to their emergence and use. S/U or letter grading.

M250. Statistical Methods for Epidemiology. (4) (Same as Biostatistics M211 and Epidemiology M211.) Lecture, four hours, four hours. Preparation: four terms of statistical inference as well as knowledge of epidemiologic data, with emphasis on tabular and graphical techniques. Emphasis on topics introduced in Epidemiology 238 and 200C and introduction of new topics, including principles of epidemiologic analysis, trend analysis, smoothing and regression analysis. S/U or letter grading.

M251. Statistical Methods for Life Sciences. (4) (Same as Ecology and Evolutionary Biology M216.) Lecture, three hours. Requires: course 13. Fundamentals of statistics as applied in life sciences, including statistical inferences for continuous and categorical data (estimation, testing of means and proportions, ANOVA) study design, linear regression, and introduction to principle components analysis. Methods to be implemented on computer with SAS. S/U or letter grading.

CM252. Statistical Methods for Physical Sciences. (4) (Same as Atmospheric and Oceanic Sciences CM213.) Lecture, three hours. Designed for graduate students. Simplifies statistical analysis in fields of atmospheric sciences, astronomy, geology, and chemistry, depending on class composition. Presentation of popular techniques in all fields, with emphasis on applications and data not covered in some previous methods. S/U or letter grading.

253. Statistical Methods for Ecology and Population Biology. (4) Lecture, three hours. Designed for graduate students. Requisites include one of the following: 233 or modern applied statistical analysis to prepare students to think critically about data and statistical models used in biological sciences. S/U or letter grading.

CM255. Introduction to Statistical Analysis of Environmental Data. (4) (Same as Environmental Science and Engineering M255.) Lecture, three hours. Designed for graduate students. Routine intermediate applied statistics course, with emphasis on applications to environmental data and statistical computing with software R. Students are required to upload scientific report from real data required. Concurrently scheduled with course C155. S/U or letter grading.

257. Design, Analysis, and Modeling for Embodied Design. (4) Lecture, three hours; discussion, one hour. Recommended preparation: knowledge of probability and regression analysis limited to graduate students. Analysis of data produced by embedded sensing, which is product of several technological advancements, which are sometimes used to improve quality of life for inhabitants of or visitors to sites. May be repeated for credit; however, only one C260 may be applied toward any advanced degree. Concurrently scheduled with course C160. S/U or letter grading.

C260. Site-Specifics Topics. (4) Seminar, three hours. Tracking of invisible flows of data through greater Los Angeles metropolitan area, with focus on small number of specific sites situated prominently in both physical and virtual (data) spaces. Documentation of kinds of data that originate, terminate, or are communicated between sites with the aid of computer programs that can be run on a variety of computer platforms, and robot devices. S/U or letter grading.

Scope and Objectives

UCLA’s theater program offers comprehensive training for the profession, as well as serious study of theater’s long history and rich literature. Drawing on this vibrant heritage, the curriculum promotes an awareness of theater as a global phenomenon embodying the contributions of diverse cultures and explores theater as a forum for revealing the human experience as revealed through the dynamics of theater production. With this in mind, students engage in the presentation of dramatic work in a community where creativity and critical thought combine in the exploration of the artistic and intellectual challenges inherent in the making of theater.

Manifesting talent and promise as well as representing a wide range of backgrounds and interests, prospective students are selected by the faculty through auditions and interviews in cities throughout the U.S.

At the undergraduate level, students receive education in acting, directing, history and criticism, musical theater, and playwriting, all within the rigorous liberal arts framework of the B.A. degree. The department also offers a Theater minor.

At the graduate level, the M.A. in Theater offers a flexible curriculum of graduate courses that provides a focus in theater scholarship or theater practice. For exceptional students who wish to pursue graduate education, the M.A. offers a foundation in theater history, criticism, or performance studies, or an area of theater practice such as dramatic writing, directing, design, or theater education outreach. Students in the M.F.A. program develop as artists and are given preprofessional training in the skills of theater, while Ph.D. students engage in critical investigations of the art form. In conjunction with their theater studies, students also have the opportunity to pursue elective courses in the area of film and television.

For current or specific information about the programs and faculty members, see http://www.tft.ucla.edu/dot.cfm.

Undergraduate Study

Theater B.A.

The Theater B.A. provides a liberal education by combining critical study of theater with experiential practice in one or more of its component parts. Students explore acting, design, directing, playwriting, and production to build a foundation for future creative work. Specialized and advanced training is available to prepare students for a variety of careers, further training, or graduate study. At the upper division level, students choose from an array of advanced elective courses in acting, design and production, directing, musical theater, playwriting, theater history, criticism, dramatic literature, and performance.

Admission

All applicants must meet the admission standards of UCLA and the departmental screening process. Applications are accepted only in November for admission to the following Fall Quarter. There are no mid-year admissions. Students must submit required supplemental materials directly to the Theater Department. All applicants must also sign up for an audition and/or interview at http://www.tft.ucla.edu/dot.cfm. There is a $50 fee for all auditions/interviews. Applicants may submit materials for consideration in one or more of the following areas: acting, design and production, directing, history and criticism, musical theater, and playwriting.

Preparation for the Major

Required: Theater 11, 12, 13, 14A, 14B, 14C, 50 (must be taken for 4 units total).

The Major

Required: A total of 61 upper division units, including Theater 101A, 101B, 101C, 150 (must be taken for 4 units total), and 38 upper division elective units selected from courses 101A through 199 within the elective sequences listed below.

Through some of these required courses, students are responsible for completing specific production assignments related to production activity of the theater curriculum.

The acting electives include fundamental and advanced courses in all aspects of performance training that prepare students for careers in performance. There is some performance in projects, but emphasis is on class
592 / Theater

and studio work. Upper division advanced courses explore verse, scene study, comedy, cabaret, movement, and combat.

The design and production electives introduce design principles and investigate the design of scenery, lighting, costumes, and sound for theater, film, and television in lower division courses. Four design and production areas of study are available at the upper division level—scenic design, costume design, lighting design, and sound design. Students select from an array of design skills courses to develop proficiency in essential areas of rendering, drafting, painting, computer-aided design, and technology. Courses in art, history, and philosophy build an understanding of the social history of visual ideas. A sequence of courses in each area of study examines design principles and practice specific to each field.

The directing electives explore the basic theories of play direction, as well as text analysis and craft fundamentals. Advanced courses emphasize psychological aspects of director-actor communication and development of specific directorial and production styles.

The history and criticism of theater and drama electives include the study of fundamental cultural, social, ethical, and political issues in the context of artistic expression enriched by historical perspective. The curriculum promotes an awareness of the theater as a global phenomenon embodying the contributions of diverse cultures and explores the verbal and visual elements of its language as revealed through the dynamics of theater production.

The Ray Bolger Musical Theater Program electives train selected students in acting, singing, and dance for the musical theater and provide knowledge of musical theater history. Additional courses provide hands-on training with professional artists and a range of performing experiences from workshops to full productions.

The playwriting electives include specialized and advanced courses that prepare students to write one-act and full-length plays, books and lyrics for music theater, and scripts for the one-person show.

Due to curriculum changes, students in the Theater major are no longer allowed to change their major to Film and Television at the end of their sophomore year.

Theater Minor

The Theater minor is designed for students who wish to augment their major program of study with a series of courses that promote the study of theater as a global phenomenon for reflecting the human experience. The minor consists of a selection of lower division courses that expose students to the fundamentals of theatrical production, as well as acting, writing, and directing. Upper division courses offer more focused study of those areas, as well as theater design, history, education, and theater of non-Western cultures.

To enter the minor students must be in good academic standing (minimum 2.0 grade-point average), have completed at least one theater course with a grade of C or better, and file a petition at the Student Services Office, 103 East Melnitz Building, (310) 206-8441. All degree requirements, including the specific requirements for this minor, must be fulfilled within the unit maximum set forth by each student’s school or college.

Required Lower Division Courses (6 to 10 units): Theater 10 and one course from 15, 20, 28A, 28B, 28C, 30.

Required Upper Division Courses (22 to 27 units): Theater 150, one course from 102A through 102E, M103A through M103G, 105, 106, 107, 108, M109, 110, 111A, 111B, 111C, or 113, and four courses from 118A, 118D, 121, 123, 130A, 13B, 139, C146A, C146B, C146C, 149, 195. A minimum of 20 units applied toward the minor requirements must be in addition to units applied toward major or minor requirements in another department or program, and at least 16 units applied toward the minor must be taken in residence at UCLA. Transfer credit for any of the above is subject to department approval.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Department of Theater offers Master of Arts (M.A.) and Master of Fine Arts (M.F.A.) degrees in Theater and the Doctor of Philosophy (Ph.D.) degree in Theater and Performance Studies.

Theater

Lower Division Courses

1A-1B-1C. Introduction to Dance for Music Theater. (1-1-1) Studio, four hours. Designed for Theater majors. Introduction to basic music theater dance technique. Each course may be repeated once for credit. Letter grading.

2. Theater in Performance: International Theater Festival. (5) Lecture, three hours; discussion, two hours. Exploration of theater in performance as revealed in productions and guest artists of UCLA International Theater Festival, with emphasis on collaborative role of theater artists and active role of audience. Students view selected productions, go back stage to discover how they are realized, and meet creative team. Letter grading.

20. Approaches to Interpretation of Theater and Performance. (5) Lecture, four hours. Introduction to basic methods of interpretation in theater and performance throughout world. Topics illustrated by faculty members and guest speakers, visits to off-campus theaters, and reading from contemporary plays. Letter grading.

21. Acting for Camera. (2 to 4) Lecture, two hours; studio, four hours. Requisite: course 11. Investigation of role of the director in theatrical production and theories of play direction, with emphasis on analysis and interpretation of dramatic work and its realization in production. Letter grading.

23. Musical Literacy for Singing Actors I. (2) Studio, three to four hours. Introduction to reading and understanding musical notation, musical terminology, and basic to complex rhythm-reading and sight-singing in C major. Letter grading.

26. Alexander Techniques. (2) Studio, three hours. Study and practice in Alexander techniques as method of developing balance, poise, and coordination of body and mind. Exploration of use of rhythm to expand movement potential of actors and relevant use of visual arts and animal studies to character development and to expansion of movement potential. P/NP or letter grading.
27. Vaudeville and Physical Comedy. (2) Studio, three hours. Exploration of many aspects of comedy using American vaudeville traditions, acts, and performers to gain experience in the use of rhythm, timing, delivery, speech, and body language in all styles of comedy, to find value of improvisation/imitation as well as innovative writing skills in all comic forms, to discover how comedy draws from so many art forms, including music/songs, dance, storytelling, clowning, magic, design, and tumbling/stunts, and how overall confidence grows in comic performance skills. P/NP or letter grading.

28A-28B-28C. Acting, Voice, and Movement Workshops I, (2-2-2) Studio, three to six hours. Study of beginning acting technique, scene study, and development of voice and movement skills. May be repeated for a maximum of 12 units. Letter grading.

28D-28E-28F. Acting, Voice, and Movement Workshops I, (2-2-2) Studio, six hours. Study of beginning acting technique, scene study, and development of voice and movement skills. May be repeated for a maximum of 12 units. Letter grading.

30. Dramatic Writing. (1 to 4) Studio, three hours. Exploration and development of creative writing skills for one or more of various forms of entertainment media. May be taken for maximum of 8 units. Letter grading.

35A-35B-35C. Singing for Musical Theater I. (1-1-1) Studio, four to five hours. Exploration of musical literacy and development of singing techniques for musical theater. Basic voice training to explore how voice works, learn to maintain appropriate and consistent voice, and learn to preserve voice health. How to build stamina and range. Letter grading.

50. Theater Production. (1 to 2) Studio, three hours. Exploration of various aspects of theater production, including stage management or member of production crew. May be repeated for a maximum of 8 units. Letter grading.

72. Production Practice in Theater, Film, Video, and Digital Media. (1 to 8) Studio, three hours. Exploration and laboratory experience in one or more of various aspects of production and postproduction practice for entertainment media, including theater, film, video, and digital media. May be taken for a maximum of 8 units. Letter grading.

Upper Division Courses

101A. Making Tradition. (5) Lecture, four hours; discussion, one hour. Examination of traditional performance traditions in terms of how they were produced, including an archival approach to traditional forms of history. Examples may include classical Greek tragedy, Noh and Kyogen, Zazuju and Chuangzi, Quem Quem/English medieval plays, Sanskrit drama, Yoruba/Egungun, Van Doa dance, depending on faculty and resources available. Letter grading.

101B. Reconstructing Theatrical Past. (5) Lecture, three hours; discussion, one hour. Reconstructing the theater is understood in several ways: reconstruction of performance spaces such as New Globe and of specific productions and traditions such as neodocism that seek to reinstate classical traditions. Letter grading.

101C. Deconstructing Theater. (5) Lecture, three hours; discussion, one hour. Exploration of decolonial practice such as fragmentation, abstraction, and absurdism, with focus on theatrical movements, directorial adaptations, cultural translations, and new forms. Letter grading.

102A. Theater of Japan. (5) Lecture, three hours. Exploration of major theater traditions of Japan from emergence of earliest theatrical activity to the present, including investigation of Noh, Bunraku, and Kabuki performance traditions. Letter grading.

102B. Theater of Southeast Asia. (5) Lecture, three hours. Examination of representative theatrical genre from various geographical areas in Southeast Asia to illustrate importance and contribution that theater plays in society. Letter grading.

102C. Cross-Cultural Currents in Theater. (5) Lecture, three hours. Exploration of interculturalism in theatrical practice in various forms of entertainment media. Analysis of historical materials and dramatic texts to investigate cultural, aesthetic, ethical, and social implications of borrowing from other cultures. Letter grading.

102E. Theater of Non-European World. (5) Lecture, three hours; discussion, one hour. Survey of theater forms of non-European world in which primary attention is concentrated on examination and analysis of traditional dance-drama and puppet theaters of East Asia, Southeast Asia, South Asia, Middle East, and Africa. Analogous forms from European theater included for comparative purposes. P/NP or letter grading.

103A. African American Theater History: Slavery to Mid-1900s. (4) (Same as Afro-American Studies M103A) Lecture, three hours. Designed for juniors/seniors. Exploration of extant materials on history and literature of theater as developed and performed by African American artists in America from slavery to mid-1900s. Letter grading.

103B. African American Theater History: Minstrel Stage to Rise of American Musical. (4) (Same as Afro-American Studies M103B) Lecture, three hours. Designed for juniors/seniors. Exploration of extant materials on history and literature of theater as developed and performed by African American artists in America from minstrel stage to rise of American musical. Letter grading.

103C. Origins and Evolution of Chichano Theater. (5) (Same as Chicana and Chicano Studies M103C) Lecture, three hours. Designed for juniors/seniors. Exploration of development of Chichano theater from its beginning in legends and rituals of ancient Mexico to work of Luis Valdez (late 1960s). P/NP or letter grading.

103D. Contemporary Chichano Theater: Beginning of Chichano Theater Movement. (5) (Same as Chicana and Chicano Studies M103D) Lecture, three hours. Analysis and discussion of historical and political events from 1965 to 1980, as well as theatrical traditions that led to emergence of Chichano theater. Letter grading.

103E. African American Theater History: Depression to Present. (4) (Same as Afro-American Studies M103E) Lecture, three hours. Designed for juniors/seniors. Exploration of extant materials on history and literature of theater as developed and performed by African American artists in America from Depression to present. Letter grading.

104A-104B-104C. History of American Theater. (5-5-5) Lecture, three hours. Study of history of influence of United States and U.S. culture on the arts and technologies on development of theater as social institution in America. Letter grading. 104A. Revolutionary War to Civil War; 104B. Civil War to WWI; 104C. WWI to Present.

108. Undergraduate Seminar: History and Criticism. (5) Seminar, four hours. Limited to 15 students. Selected topics in history and criticism of theater and performance. Study of how experimental theaters originate, how they imagine their form of performance, their audience, and their goals. Concentration on theaters that regarded themselves, in some way, as experimental. Examples primarily from theaters within the U.S. from the 1960s to the present, although examples from other countries, specifically Poland, also considered. Letter grading.

M109. Art and Performance: Interdisciplinary Approach to Collections of Getty Center. (4) (Same as Honors Collegium M120.) Lecture, four hours; discussion, one hour. Drawing from objects in five major collections at Getty Museum, focus on five parallel historical periods in which political, social, and aesthetic philosophy of the age is examined in musical and dramatic performance. Letter grading.

111A-111B-111C. Selected Topics in European Theater. (5-5-5) Lecture, three hours. Investigation in depth of selected areas of study in traditions of European performance to be arranged by historical period, nation of tradition, genre, or other categories. May be repeated twice for credit. P/NP or letter grading.

M112. Interpreting Performance: Examination of Social, Historical, and Cultural Models for Performing Arts. (5) (Same as Honors Collegium M154.) Lecture, two hours; discussion, two hours. Examination of nature of performance in theory and practice and of social, historical, and cultural contexts in which performance traditions have evolved. Attention at approximately five designated performances/events required. P/NP or letter grading.

113. Special Topics in Critical Studies. (5) Lecture, three or four hours. Consult Schedule of Classes for author, period, genre, or subject to be studied in specific term. May be repeated for credit. P/NP or letter grading.

116A-116B-116C. Acting II. (4-4-4) Studio, six hours. Development of acting skills through scene study, use of self, and personalization. Examination of characterization exercises and their application to contemporary American scenes. Letter grading.

118A. Creative Dramatics. (4) Lecture/laboratory. Studies of principles and procedures of improvisational approach to drama as done with children from nursery school to junior high school levels. Letter grading.

118B. Advanced Creative Dramatics. (2 to 4) Lecture, four hours; other, to be arranged. Practical application of creative drama process. Exploration of interrelationships of the arts to traditional disciplines of learning. May be repeated once for credit.
123A. Interactive Theater. (4) Laboratory. Active, problem-solving process of theater exercises and games designed to examine racial stereotypes, sexual harassment, gender roles, and other issues. Students will divide members of the class into small groups to investigate topics. Letter grading.

118C. Interactive Theater. (4) Laboratory. Active, problem-solving process of theater exercises and games designed to examine racial stereotypes, sexual harassment, gender roles, and other issues. Students will divide members of the class into small groups to investigate topics. Letter grading.

121. Acting Workshop. (2) Laboratory. To be arranged. Requisite: course 20. Students will investigate acting techniques through ensemble work, monologue, and acting exercises. Letter grading.

123. Intermediate Acting for the Stage. (4) Laboratory. Active, problem-solving process of theater exercises and games designed to examine racial stereotypes, sexual harassment, gender roles, and other issues. Students will divide members of the class into small groups to investigate topics. Letter grading.

C146A-C146B-C146C. Art and Process of Enter-
ainment Design. (4-4 to 6) Lecture. Conceptual-
ization, design, and prototyping of interactive theatri-
cal events. Each course may be repeated once for
credit. Concurrently scheduled with courses C446A-
C446B-C446C. Letter grading.

C146A. (4) Lecture, three hours. Exploration of origi-
nal forms of media-rich entertainment experience
through lectures, presentations, and seminar partici-
pation. Students form collaborative teams to conceiv-
and propose interactive entertainment events. May be
repeated once for credit.

C146B. (4) Lecture, three hours. Prototype develop-
ment: two to five proposals to be more completely de-
dined and developed. Students form collaborative
teams for further conceptual development of their
project proposals. May be repeated once for credit.
Letter grading.

C146C. (4 to 8) Lecture, three to six hours. Prototype
development: conceptual refinement and technologi-
cal realization of prototypes, which may entail cre-
atiation of elaborate proposals containing storyboards,
budgets, and models or may involve production of
short “performances” demonstrating entertainment
potential of concepts or prototypes. May be repeated
once for credit. Letter grading.

147A. Drafting. (4) Development of visual communi-
sion skills through drafting. Exploration of drafting
for scenic and lighting designs. May be repeated one
for credit. Letter grading.

147B. Rendering. (4) Introductory course in basic
skills necessary for rendering and rendering for scenic,
lighting, costumes, and sound. May be repeated one
for credit. Letter grading.

148. Special Courses in Design and Technical
Theater. (4) Lecture, three hours. Group study of se-
lected subjects in design and technical theater. May
be repeated twice for credit.

149. Introduction to Design. (5) Lecture, three
hours. Exploration of dramaturgy through design,
including study of styles and techniques of design,
collaborative role of designer, principles of de-
sign for scenery, lighting, costumes, and sound. Both
technical and aesthetic groundwork for further study.
Investigation of techniques for realization of designs
in production. Letter grading.

150. Theater Production and Performance. (1 to
2) Laboratory, three to six hours. Laboratory experi-
ence in the all aspects of theater production includ-
ing performance in project or production, stage man-
agement, member of crew, or assignment as designer
or assistant on production. May be repeated for
maximum of six credits.

C151A. Scenic Design. (4) (Formerly numbered
151A.) Lecture/studio, four hours. Requisites: courses
14A, 14B, 14C. Introduction to design: studio, per-
formance, undergarments, and arena configurations,
multi-
tise productions, and music theater. May be repeated
once for credit. Concurrently scheduled with course
C451B. Letter grading.

C151C. Production Design for Film, Television,
and Video. (4) Lecture/studio, four hours. Study of
role of design in the production of single-camera and
multicamera production, and set decoration. May be
repeated once for credit. Concurrently scheduled with
course C451C. Letter grading.

C152B. Lighting Design for Theater. (4) (Formerly
numbered 152B.) Lecture/studio, four hours. Requi-
tes: courses 14A, 14B, 14C. Study of lighting, with
emphasis on imagination, text analysis, metaphor, and
conceptualiza-
tion. Investigation of composition and control of light
and color to actor. May be repeated once for credit.
Concurrentely scheduled with course C452A. Letter grading.

C152C. Lighting Design for Television. (4) Lecture/
studio. Study of current professional lighting design
practices in television for single- and multiple-camera
production. Concurrently scheduled with course
C452C. Letter grading.

C153A. Costume Design. (4) (Formerly numbered
153A.) Lecture/studio, four hours. Requisites: courses
14A, 14B, 14C. Imagination as impetus for design,
text analysis, metaphor, and conceptualization. Inves-
tigation of design research process, composition, and
style leading to visual presentation of design. May be
repeated once for credit. Concurrently scheduled with
course C453A. Letter grading.

C153B. Costume Design for Theater. (4) (Formerly
numbered 153B.) Lecture/studio, four hours. Requi-
tes: courses 14A, 14B, 14C. Study of costume de-
sign for proscenium, thrust, and arena configurations, mu-
ticamera productions, and music theater. May be re-
peated once for credit. Concurrently scheduled with
course C453B. Letter grading.

C153C. Costume Design for Film and Televis-
on. (4) Lecture/studio, four hours. Requisites: courses
14A, 14B, 14C. Study of the professional costume
design and wardrobe practices in film and television,
including effect of differing media on design choices.
May be repeated once for credit. Concurrently sched-
uled with course C453C. Letter grading.

C154A. Sound Design. (4) (Formerly numbered
154A.) Lecture/studio, four hours. Requisites: courses
14A, 14B, 14C. Introduction to sound and audio in
acoustic, audio, and digital domain. Study and practice
of techniques for sound rendering, editing, and creating
soundscapes. May be repeated once for credit. Con-
currentely scheduled with course C454A. Letter grading.

C154B. Sound Design for Theater. (4) (Formerly
numbered 154B.) Lecture/studio, four hours. Requi-
tes: courses 14A, 14B, 14C. Exploration of sound
design for theater and techniques for mixing, re-
forcement, and signal processing. Topics include use
of delay, equalization, and microphone placement for
theater sound reinforcement. Study of creative ele-
ments, control of MIDI data, and design tech-
niques for musical theater. May be repeated once for
credit. Concurrently scheduled with course C454B.
Letter grading.

C154C. Sound for Film and Television. (4) Lecture/
studio. Study of current professional sound recording,
ererecording, mixing, and synchronization practices for
film and television. Concurrently scheduled with
course C454C. Letter grading.

C155A-C155H. Graphic Representation of Design.
(2 each) Studio. Concurrently scheduled with courses
C455A-C455H. Letter grading.

C155A. Perspective Drawing. (2) Studio, four hours.
Requisite: course 147A or 147B. Introduction to use of
pencil and pen to communicate scenic designs, in-
cluding one- and two-point perspective, form light,
shade, and textures. Letter grading.

C155B. Watercolor Rendering. (2) Studio, four hours.
Requisite: course 147A or 147B. Study of watercolor
techniques as they relate to interpretation of scenic
designs, including painting of brick, wood, stone, fab-
rics, and other surfaces. Letter grading.

C155C. Marker Rendering. (2) Studio, four hours.
Requisite: course 147A or 147B. Study and practice
of marker rendering techniques as a means of com-
munication for scenic and costume designers. Letter
grading.

C155D. Model Making. (2) Studio, four hours. Requi-
tes: course 147A or 147B. Study of the model for rep-
 resentation of scenic designs from initial working pro-
 totypes to finished color models. Use of wide variety
of materials and techniques for execution of the mod-
el. Letter grading.

C155E. Life Drawing. (2) Studio, four hours. Requi-
tes: course 147A or 147B. Study and practice in de-
termining the human form. Letter grading.

C155F. Costume Rendering. (2) Studio, four hours.
Requisite: course 147A or 147B. Study of techniques
for rendering theatrical costumes, with emphasis on
figure, clothing, and fabrics. Letter grading.

C155G. Stage Painting Techniques. (2) Studio, four
hours. Requisite: course 147B. Study of stage pae-
cnic painting techniques and materials and their real-
ization of color design and elevations. May be re-
peated once for credit. Letter grading.

C155H. Selected Topics in Graphic Representation of
Design. (2) Studio, six hours. Study of selected sub-
jects in techniques for interpretation of design for
theater. May be repeated once for credit. Letter grading.

C156A. Introduction to Computer-Assisted Draft-
ing. (4) Studio, four hours. Investigation of drawing
and editing techniques, drawing floor plan sections,
and elevation drawings using AutoCAD. Concurrently
scheduled with course C456A. Letter grading.

C156B. Advanced Computer-Assisted Drafting.
(4) Studio, four hours. Investigation of three-dimensional lighting and scenic design previ-
ualization: wire-frame perspective drawing and photo-realistic computer render-
ng techniques using three-dimensional studio. Concurr-
etly scheduled with course C456B. Letter grading.

C156C. Computer-Assisted Rendering. (4) Studio,
four hours. Investigation of three-dimensional lighting and scenic design using Auto-
cad. Concurrently scheduled with course C456B. Letter grading.

C156E. Advanced Computer-Assisted Drafting.
(4) Studio, four hours. Investigation of drafting tech-
niques for scenic and lighting designs using Vector-
corws. Concurrently scheduled with course C456E.
Letter grading.

C156F. Introduction to Computer-Assisted Ren-
dering. (4) Studio, four hours. Investigation of three-
dimensional lighting and scenic design previ-
ualization: wire-frame perspective drawing and photo-real-
tic computer rendering techniques using Vectorcorws. Concurr-
etly scheduled with course C456F. Letter grading.

C157A-C157B-C157C. Costume Construction
Techniques. (2-2-2) Studio, four hours. Study of the-
ory and application of drafting, pattern making, fitting,
and construction techniques for period costumes and
undergarments to achieve authentic-looking cos-
tume using contemporary methods. May be repeated
once for credit. Concurrently scheduled with courses
C457A-C457B-C457C. P/NP or letter grading.

C157A. Requisites: courses 14A, 14B, 14C. Introduc-
tion to draping, pattern grading fitting, and slash
and spread adaptation. C157B. Requisite: course C157A.
Introduction to costume drafting, construction of peri-
undergarments. C157C. Requisite: courses C157A,
C157B. Draping, patterning, and fitting tech-
niques for period garments.

C158A. Scenic Design Technology. (4) Lecture/stu-
dio. Requisites: courses 14A, 14B, 14C. Investigation
of materials, systems, and techniques for realization
of scenic designs for theater, film, and television. Study
of advanced techniques and materials for con-
struction and finishing of scenic properties. Concur-
rently scheduled with course C458A. Letter grading.

C158B. Lighting Design Technology. (4) Lecture/
studio. Requisites: courses 14A, 14B, 14C. Investiga-
tion of materials, systems, and techniques for realiza-
tion of lighting designs for theater, film, and television.
Study of design, operation, and performance of light-
ing instruments, dimming equipment, and control sys-
tems, including automation equipment, and comput-
er systems for lighting. Concurrently
scheduled with course C458B. Letter grading.
160. Fundamentals of Play Direction. (5) Lecture, two hours; laboratory, four hours. Required of Theater majors. Course 121 may be taken concurrently. Basic theories of play direction and their application through preparation of scenes under rehearsal conditions.

163A-163B-163C. Directing for the Stage. (4-4-4) Lecture/studio. Requisite: course 15. Letter grading:
- 163A. (4) Lecture/studio. Requisite: course 15. Intensive development of professional directing skills and processes, including text analysis and exploration of craft fundamentals as a basis for director/actor communication and effective staging. Students direct scenes from plays by Shakespeare and contemporary playwrights, working closely with supervising faculty.

163D. Directing Project for the Stage. (5) Seminar, three hours; laboratory, four to eight hours. Requisites: courses 163A, 163B, 163C. Application of stage directing techniques in production of short play or project. Students direct one-act play or project. May be repeated once for credit. Concurrently scheduled with course C263D. Letter grading.

170. Design and Production Project. (4) Laboratory, eight hours. Requisites: courses 14A, 14B, 14C. Experience as stage manager or designer, including participation in preparation and realization of scenic, lighting, costume, and sound designs, or stage management in production. May be repeated once for credit. Letter grading.

171A. Advanced Theater Laboratory. (1 to 4) Hours to be arranged. Creative participation as stage manager or designer in the public presentation of departmental productions. May be taken for a maximum of 4 units.

171B. Advanced Theater Laboratory. (1 to 4) Hours to be arranged. Creative participation in realization of production elements related to public presentation of departmental productions. May be taken for a maximum of 4 units.

172. Production Practice in Theater, Film, Video, and Digital Media. (1 to 8) (Formerly numbered C172.) Studio, three to eight hours. Exploration and laboratory experience in one or more various aspects of production and postproduction practice for entertainment media, including theater, film, video, and digital media. May be repeated for maximum of 24 units. Letter grading.

173A. Design Assignment: Assistant Designer. (2) Studio, six hours. Requisites: courses 14A, 14B, 14C. Laboratory experience as an assistant designer, including participation in the preparation and realization of scenic, lighting, costume, or sound designs. May be repeated twice. Letter grading.

173B. Production Design Assignment: Designer. (2) Studio, six hours. Requisites: courses 14A, 14B, 14C. Laboratory experience as a designer, including preparation and realization of scenic, lighting, costume, or sound designs. May be repeated twice. Letter grading.

174B. Project in Stage Management. (3) Studio, nine to 12 hours. Participation in various aspects of theater production and performance. Problems of unions, auditions, organization, scheduling, and responsibilities of lengthy run. May be repeated three times for credit. Letter grading.

174C. Project in Stage Management. (4) Studio, 12 hours. Requisite: course 174A. Laboratory experience in professional duties of stage manager, including participation as an assistant stage manager in preproduction, rehearsal, and performance phases of production. May be repeated once for credit. Letter grading.

175A-175C-175D. Summer Theater Workshops. (4 or 8 each) Laboratory, 12 to 24 hours. Participation in various aspects of theater production and performance. Offered in summer only. Letter grading.

175B. Summer Theater Workshop. (1 to 4) Laboratory, three hours. Participation in various aspects of theater production and performance. Offered in summer only. Letter grading.

177. Computer-Assisted Design Techniques. (4) Lecture, three hours. Requisites: courses 14A, 14B, 14C. Investigation of design techniques for set and costume designs, scenic and lighting design, and community theater. Concurrently scheduled with course C190B. (Formerly numbered M193.) (Same as Honors College C190B.) Lecture, three hours. Study of artistic, social, and economic criteria in administration of educational and community theater. Concurrently scheduled with course C263D. Letter grading.

178. Senior Project. (4) Lecture or studio, three hours. Requisites: courses 101A, 101B, 101C. Preparation of conceptual or creative project to provide culminating experience in production of creative or research work. May be repeated twice for credit. Letter grading.

180. Career Development for Actors. (2) Lecture, three hours; fieldwork, three hours. Limited to seniors. Study of business practices, career entry, and development for actors. Letter grading.

181A. Role of Producer in Professional Theater. (2) Formerly numbered C190A.) Lecture, three hours. Study of structure governing economic and artistic decision-making processes in professional theater. May be repeated twice for credit. P/NP or letter grading.

181B. Role of Management in Educational and Community Theater. (2) Formerly numbered C202A.) Lecture, three hours. Study of management and administration of educational and community theater. Concurrently scheduled with course C285A, P/NP or letter grading.

181C. Seminar in West African Theater. (3) Seminar, three hours. Study of economic and cultural criteria in administration of educational and community theater. Concurrently scheduled with course C285A, P/NP or letter grading.

181D. Seminar in South Asian Theater. (3) Seminar, three hours. Study of the economic and cultural criteria in administration of educational and community theater. Concurrently scheduled with course C285A, P/NP or letter grading.

195. Community or Corporate Internships in Theater, Film, and Television. (2, 4, or 8) Tutorial, eight, 16, or 24 hours. Limited to juniors/seniors. Internship at various theaters, studios, or entertainment organizations. May be taken for maximum of 8 units. Individual contract with supervising faculty member required. Letter grading.

198. Directed Research or Senior Project in The-ater. (2 to 8) Tutorial, three hours. Limited to juniors/ seniors. Supervised individual research or investigation under guidance of faculty mentor. Fulfilling paper or project required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

202A. Seminar: Western Classical Theater. (4) Discussion, three hours. Designed for graduate students. Examination of theatrical production and dramatic form in the Greek and Roman periods. May be repeated twice for credit.

202B. Seminar: Medieval Theater. (4) Discussion, three hours. Designed for graduate students. Select- ed studies of theatrical production and dramatic form in the Middle Ages. May be repeated twice for credit.

202C. Seminar: Renaissance and Baroque Thea-ter. (4) Discussion, three hours. Designed for grad-uate students. Selected studies in theater architec- ture, theatrical production, and dramatic form in English and Continental theater from 1485 to the early 18th century. May be repeated twice for credit.

202D. Seminar: Bourgeois and Romantic Theater. (4) Discussion, three hours. Designed for graduate students. Selected studies in theater architecture, theatrical production, and dramatic form in English and Continental theater from 1700 to 1870. May be repeated twice for credit.

202E. Seminar: Modern Consciousness in The-ater. (4) Discussion, three hours. Designed for grad-uate students. Study of prototypes of modern experi- ence as encountered in work of Ibson and Strindberg. May be repeated twice for credit.

202F. Seminar: Modern Realism. (4) Discussion, three hours. Designed for graduate students. Select- ed studies of theater’s response to science and tech-nology, politics, and revolution. May be repeated twice for credit.

202G. Seminar: Modern Theatricalism. (4) Discus-sion, three hours. Designed for graduate students. Selected studies in symbolism and avant-garde the-a-ter. Exploration of dream experience and private psyche, religious experimentation, and realization of myth and ritual. May be repeated twice for credit.

202M. Seminar: American Theater. (4) Discussion, three hours. Designed for graduate students. Select- ed studies in development of theatrical production and dramatic writing in American theater. May be repeated twice for credit.

202P. Seminar: Traditions of African Theater. (4) Discussion, three hours. Designed for graduate stu-dents. Selected studies of traditional theater forms such as those indigenous to Ghana, Nigeria, and oth-er African nations and their diaspora (Haiti, Jamaica, and other areas of the Caribbean) through examina-tion of character, structure, performance modes, and archetypes. May be repeated twice for credit.

202R. Seminar: East Asian Theater. (4) Discus-sion, three hours. Designed for graduate students. Selected topics in theater forms of East Asia, includ-ing dramatic literature, costume, stage settings, masks, and critical writings. May be repeated twice for credit.

202S. Seminar: South Asian Theater. (4) Discus-sion, three hours. Designed for graduate students. Selected topics in theater forms of South Asia, includ-ing dramatic literature, costume, stage settings, masks, and critical writings. May be repeated twice for credit.
202T. Seminar: Southeast Asian Theater. (4) Discussion, three hours. Designed for graduate students. Selected topics in theater forms of Southeast Asia, including dramatic literature, costume, theater spaces, and critical writings. May be repeated twice for credit.

203. Theater Ethics and Issues. (5) Seminar, four hours. Designed for graduate students. Investigation of a selected area of theater and drama study that explores significant issues and ethical considerations of the modern world. May be repeated four times for credit.

204. Theater Genres. (5) Seminar, four hours. Designed for graduate students. Investigation of history and literature of the theater as manifested in one or more of its major forms or genres. May be repeated four times for credit.

206. Themes in World Theater and Drama. (5) Seminar, four hours. Designed for graduate students. Selected topics in world theater history, drama, production, and/or architecture organized on a thematic basis. May be repeated four times for credit.

207A-207B. Theater Aesthetics. (4-4) Designed for graduate students. Discussion of essential issues in aesthetics of theater and drama based on philosophy of art and theories of the theater. 207A. Classical and Medieval Theories of Art and Theater; 207B. Renaissance Theories of Art and Theater to the Present.

208A-208B. Dramaturgy I, II. (4-4) Lecture, three hours; laboratory, one hour. Designed for graduate students. Letter grading. 208A. Theoretical and practical aspects of the dramaturge’s work in contemporary theater; 208B. Requisite: course 208A. Continuation of study of theory and practice of dramaturgy.

208C. Practicum in Dramaturgy. (2 to 12) Laboratory, to be arranged. Requisites: courses 208A, 208B. Demonstration of competence in practice of dramaturgy through completion of approved dramaturgical assignment. May be taken for maximum of 12 units. Letter grading.

209. Theater Authors. (5) Designed for graduate students. Investigation of work of a theater artist from history of world theater, drama, special emphasis on relation to time in which the work was generated. May be repeated four times for credit.

210. Topics in World Theater and Drama. (5) Designed for graduate students. Investigation of selected topics in world theater, drama, production, and architecture. May be repeated four times for credit.

216A. Approaches to Representation. (5) Lecture, three hours; laboratory, one hour. Overview of strategies of representation from classical aesthetic theories to postmodern deconstructions of them. May be repeated once for credit. Letter grading.

216B. Approaches to History. (5) Lecture, three hours; laboratory, one hour. Overview of key methodologies, theories, and debates in historiography of theater and performance linked to plays and performances appropriate to approach. Letter grading.

216C. Approaches to Identification. (5) Lecture, three hours; laboratory, one hour. Overview of key theories, history, and practices of deconstructive and performance texts of identificatory structure between audience member or scholar and theatrical or performance object. Letter grading.

220. Graduate Forum. (1 to 2) Seminar, one to two hours. Limited to graduate theater students. Presentation and discussion of issues informing and affecting contemporary theater. May be repeated four times for credit. S/U grading.

221. Introduction to Performance Studies. (5) Seminar, three hours. Investigation of performance as sustained practice in traditional disciplines such as theater, music, and dance and as lens to focus thinking about human experience in fields such as philosophy, literature, cultural anthropology, linguistics, education, and law. Emphasis on establishing interdisciplinary dialogue across many fields. Letter grading.

230A-230B-230C. Writing for the Contemporary Theater. (4 to 8 each) Lecture, three hours; studio, two hours. Designed for graduate students. Letter grading. 230A. One-Act Play. Analysis of strategy and dramatic structure of selected contemporary short plays leading to the guided completion and critique of student-written one-act plays. 230B. Full-Length Play. Analysis of strategy and dramatic structure of selected contemporary full-length plays leading to the guided completion and critique of a student-written full-length play. 230C. Performance and Text. Exploration of structural strategies, political implications, and technical demands of selected contemporary American plays leading to the guided completion and critique of student work.

231. Special Topics in Playwriting. (4) Lecture, three hours. Analysis and practice of various aspects of playwriting. Variable content selected from topics such as comedy writing, docudrama, experimental theater, writing for alternative audiences, or children’s theater. May be repeated twice for credit. Letter grading.

242. Introduction to Design in Production. (4) Lecture, four hours; studio, four hours. Study of history of costume as manifestation of drama, film, and television. Historic survey and in-depth exploration of a selected period, with study of influences of diverse cultures. Letter grading.

246D. History of Costume Design. (4) Lecture, four hours. Study of history of costume as manifestation of cultural, social, economic, and political influences to provide a historical framework for design of costumes for theater, film, and television. Historic survey and in-depth exploration of selected period, with study of influences of diverse cultures. Letter grading.

251. Collaborative Project in Design and Production. (3 to 4) Studio, four hours. Designed for graduate students. Collaborative project in design, including analysis, conceptual development, and preparation of scenic, lighting, costume, or sound designs. May be repeated once for credit. Letter grading.

256. Directing I. (4) Lecture, four hours; studio, 24 hours. Designed for graduate students. Development of directorial skills of analysis, planning, staging, and criticism through medium of written preparations and directing of scenes. Letter grading.

257. Directing Post-Realist Drama. (4) Lecture, four hours; studio, 30 hours. Designed for graduate students. Problems in direction of post-realist plays through interpretation and laboratory scene work. Letter grading.

258. Production Project in Direction for the Stage. (2 to 8) Discussion, one hour; studio, 12 to 30 hours. Designed for graduate students. Direction of a dramatic work, with discussion and critique of work in progress. May be repeated for a maximum of 20 units. Letter grading.

263D. Directing Project for the Stage. (5) Discussion, three hours; laboratory, four to eight hours. Requisites: courses 163A, 163B, 163C. Application of stage directing techniques in production of short play or project. Students direct one-act play or project. May be repeated once for credit. Concurrently scheduled with course C163D. Letter grading.

264. Directing Classical and Historical Drama. (4) Lecture, four hours; studio, 30 hours. Designed for graduate students. Problems in interpretation and direction of historical or classical drama through medium of laboratory scene work. Letter grading.

265. Modern Theories of Production. (4) Examination of modern theories of production from emergence of the director in the 19th century to the present. Investigation of different responses to problems of creation of a viable theatrical production and the ongoing evolution of theater as an art form. Examination of contribution of significant directors and movements; relation between theater and other forms of representation. Letter grading.

244A-244B-244C. Advanced Voice and Speech I. (2 or 4 each) Studio/laboratory, three to six hours. Development of voice and speech techniques for the stage, including those of relaxation, breathing, resonance, and development of speaking voice. Speech training uses International Phonetic Alphabet to train students in standard American speech. Text work in poetry and prose. Letter grading.

244D-244E-244F. Advanced Voice and Speech II. (2 or 4 each) Studio/laboratory, three to six hours. Advanced voice problems. Extension of first-year work, with increased demands on voice. Range, resonance, and breathing capacity extension. Articulation and phonetic alphabet. Text work in classical verse. Letter grading.

244G-244H-244I. Advanced Voice and Speech III. (2 or 4 each) Studio, three to six hours. Extension of second-year work, with increased demands on voice/speech, range, resonance, and breathing capacity expansion. Application of ear training and International Phonetic Alphabet to creative use of mechanical apparatus, as well as systematic approach to creating dialect charts. Letter grading.

245A-245B-245C. Advanced Movement I. (2 or 4 each) Studio/laboratory, three to six hours. Discovery of body’s unique language through exercises designed to explore and free the total instrument. Development of a flexible actor with range, expression, and confidence physically. Awakening of the imagination while exploring the worlds of ritual, animal, conceptual, and modern dance movements. Letter grading.

245D-245E-245F. Advanced Movement II. (2 or 4 each) Studio/laboratory, three to six hours. Presentation of a more complete picture of stage movement and its relationship to theater, music, and dance. Advancement of physical training of individual actors to their maximum potential. Experience in techniques and discovery of origins of a variety of acrobatic and dance disciplines, including ballet, ballroom, period dance, and circus techniques. Letter grading.

245G-245H-245I. Advanced Movement III. (2 or 4 each) Studio, three to six hours. Advanced physical training of actors in stage movement, dance, or combat discipline: capoeira, martial arts, ballet, ballroom, period dance, circus techniques. Letter grading.

246A-246B-246C. Alexander Techniques. (2 or 4 each) Studio, three to six hours. Study and practice in Alexander techniques as method of developing balance, poise, and coordination of body and mind. Exploration of use of rhythm to expand movement potential of actors and relevant use of visual arts and animal studies to character development and to expansion of movement potential. Letter grading.

249. Performance Workshop. (2) Studio, four hours. Limited to graduate students not enrolled in M.F.A. acting program. Exercises in performance techniques, including autodrama and scene study. Development of performance skills through scene study, use of self, and personalization. Examination of characterization exercises and their application to scenes. Letter grading.

420A-420B-420C. Advanced Acting I. (4 to 8-4-4) Studio, six to 18 hours. Letter grading.

420A. (4 to 8) Studio, six to 18 hours. Development of an internal technique, beginning with an autodrama which is a dramatization of one’s personal history. Scene work follows, with emphasis on off-stage preparation, improvisations capturing the circumstances, life of the character, and intentions of the scene. Letter grading.

420B. (4) Studio, six to 18 hours. Scene work, usually from 20 to 30 minutes in length. Continuation of work on off-stage preparation, with further development of how the actor goes about doing research and fieldwork on the character being played. Letter grading.

420C. (4) Studio, six to 18 hours. Development of an external technique through comedy and of skits, improvisation, physical humor, delivery of a line, rhythm, timing, and public cabinet. Fusion of the internal use of action and objective with the external. Letter grading.

421A-421B-421C. Advanced Acting II. (4 or 8 each) Studio/laboratory, six to 18 hours. Letter grading.

421B. Continued character behavior study through language and other work on body, actions, objectives, and researching the role. 421C. Comedy workshop. Exploration of craft of comedy and development of cabaret pieces.

422. Advanced Acting for Theater, Film, and Tele- vision. (8) Lecture, three hours. Introduction to performance experience. May be repeated for a maximum of 24 units. Letter grading.
C444A. (4) Lecture, four hours; laboratory, four hours. Study of sound and acoustics as they relate to performance environments, techniques associated with recording, mixing, automatic, and reproduction of dialogue, effects, and music tracks for theater. Sound design may be repeated once for credit. Letter grading.

C444B. (4) Lecture, four hours; laboratory, four hours. Study and practice in preparation and recording of theater sound designs, with emphasis on analysis of script and score, conceptual development of the design, and multidisciplinary techniques to realize the design. May be repeated once for credit. Letter grading.

C444C. (4) Lecture, four hours; laboratory, four hours. Study and practice in processing and mixing of live and recorded sound; mix-down of multitrack recordings; preparation of sound tracks and sound reinforcement in theater. Study of creation of sound effects, control of MIDI data, and design techniques for music theater. May be repeated once for credit. Letter grading.

C445A-C445H. Graphic Representation of Design. (2 each) Lecture/studio, four hours. Introduction to use of marker rendering techniques as a means of communication for scenic and costume designers. Letter grading.

C446A. (4) Lecture, three hours. Exploration of original forms of media-rich entertainment experience through lectures, presentations, and seminar participation. Students form collaborative teams to conceive and propose interactive entertainment events. May be repeated once for credit. Letter grading.

C446B. (4) Lecture, three hours. Prototype development; two to five proposals to be more completely defined and developed. Students form collaborative teams for further conceptual development of their project proposals. May be repeated once for credit. Letter grading.

C446C. (4 to 8) Lecture, three to six hours. Prototype development; conceptual refinement and technological realization of prototypes, which may entail creation of elaborate proposals containing storyboards, budgets, design, and marketing. May involve production of short “performances” demonstrating entertainment potential of concepts or prototypes. May be repeated once for credit. Letter grading.

C448A-448B. Costume Design for Film, Television, and Entertainment Media. (4-4) Lecture/studio, four hours. Study and practice in design of costumes for live and virtual characters in film, television, and entertainment media, including effect of differing media on design choices. Each course may be repeated once for credit. Letter grading.

C451A. (4) Lecture/studio, four hours. Study of scenic design for proscenium, thrust, and arena configurations, music theater, and concert lighting. May be repeated once for credit. Concurrently scheduled with course C151A. Letter grading.

C451B. Scenic Design for Theater. (4) Lecture/studio, four hours. Study of scenic design for proscenium, thrust, and arena configurations, multiset productions, and music theater. May be repeated once for credit. Concurrently scheduled with course C151B. Letter grading.

C451C. Production Design for Film, Television, and Video. (4) Lecture/studio, four hours. Study of role of art director, scenic design for single-camera and multicamera production, and set decoration. May be repeated once for credit. Concurrently scheduled with course C151C. Letter grading.

C452A. Lighting Design. (4) Lecture/studio, four hours. Study of lighting design for proscenium, thrust, and arena configurations, music theater, and concert lighting. May be repeated once for credit. Concurrently scheduled with course C152A. Letter grading.

C452B. Lighting Design for Theater. (4) Lecture/studio, four hours. Study of lighting design for proscenium, thrust, and arena configurations, music theater, and concert lighting. May be repeated once for credit. Concurrently scheduled with course C152B. Letter grading.

C453A. Costume Design. (4) Lecture/studio, four hours. Study of professional costume design and wardrobe practices in film and television, including effect of differing media on design choices. May be repeated once for credit. Concurrently scheduled with course C153A. Letter grading.

C453B. Costume Design for Theater. (4) Lecture/studio, four hours. Study of costume design for proscenium, thrust, and arena configurations, multiset productions, and music theater. May be repeated once for credit. Concurrently scheduled with course C153B. Letter grading.

C453C. Costume Design for Film and Television. (4) Lecture/studio, four hours. Study of current professional costume design and wardrobe practices in film and television, including effect of differing media on design choices. May be repeated once for credit. Concurrently scheduled with course C153C. Letter grading.

C454A. Sound Design. (4) Lecture/studio, four hours. Introduction to sound and audio in acoustic, audio, and digital domain. Study and practice of techniques for recording, editing, and creating soundscapes. May be repeated once for credit. Concurrently scheduled with course C154A. Letter grading.

C454B. Sound Design for Theater. (4) Lecture/studio, four hours. Exploration of sound design for theater and techniques for mixing, reinforcement, and signal processing. Topics include use of delay, equalization, and microphone placement for theater sound reinforcement. Study of creation of sound effects, control of MIDI data, and design techniques for musical theater. May be repeated once for credit. Concurrently scheduled with course C154B. Letter grading.

C454C. Sound for Film and Television. (4) Lecture/studio. Study of current professional sound recording, re-recording, mixing, and synchronization techniques for film and television. Concurrently scheduled with course C154C. Graduate students expected to produce designs demonstrating a higher level of proficiency and skill. Letter grading.

C455A. Perspective Drawing. (2, Studio, four hours. Requisite: course 147A or 147B. Introduction to use of pencil and pen to communicate scenic designs, including one- and two-point perspective, form light, shade, and textures. Graduate students expected to produce drawings demonstrating a higher level of proficiency and skill. Letter grading.

C455B. Watercolor Rendering. (2, Studio, four hours. Requisite: course 147A or 147B. Study of watercolor rendering as a theatrical tool to interpret concepts of scenic designs, including painting of brick, wood, stone, fabric, and other surfaces. Graduate students expected to produce drawings demonstrating a higher level of proficiency and skill. Letter grading.

C455C. Marker Rendering. (2, Studio, four hours. Requisite: course 147A or 147B. Study and practice of marker rendering techniques as a means of communication for scenic and costume designers. Letter grading.

C455D. Model Making. (2, Studio, four hours. Requisite: course 147A or 147B. Study of the model for representation of scenic designs from initial working prototypes to finished color models. Use of wide variety of materials and techniques for execution of the model. Graduate students expected to produce models demonstrating a higher level of proficiency and skill. Letter grading.

C455E. Life Drawing. (2, Studio, four hours. Requisite: course 147A or 147B. Study and practice in drawing of human form. Letter grading.

C455F. Costume Rendering. (2, Studio, four hours. Requisite: course 147A or 147B. Study of techniques for rendering theatrical costumes with emphasis on figure, clothing, and fabrics. Letter grading.

C455G. Scene Painting Techniques. (2, Studio, four hours. Requisite: course 147A or 147B. Study of scenic painting techniques and materials and their realization of color design and elevations. May be repeated once for credit. Letter grading.

C455H. Selected Topics in Graphic Representation of Design. (2) Studio, six hours. Group study of selected subjects in techniques for interpretation of design for theater. May be repeated once for credit. Letter grading.

C456A. Introduction to Computer-Assisted Drafting. (4) Studio, four hours. Investigation of drafting techniques for scenic and lighting designs using AutoCAD. Concurrently scheduled with course C156A. Letter grading.

474. Advanced Projects in Design and Production. (4) Lecture/studio, four hours. Study and practice in preparation and execution of designs for theater, film, video, and related entertainment forms. As contributing artistic member of design team, creative responsibilities include designer, technical supervisor, or production manager. May be repeated for a maximum of 12 units. S/U grading.

49SA-49SB-49SC. Practicum and Practice in Teaching Theater. (2-2-2) Seminar, to be arranged; discussion, two hours. Limited to Ph.D. students. Study and practice of teaching theater at university level. Orientation and preparation of graduate (Ph.D.) students who have responsibility to assist in teaching undergraduate courses in department. Discussion of problems common to the teaching experience. Letter grading.

49B. Professional Internship in Theater, Film, and Television. (4, 8, or 12) Full- or part-time at a studio or on a professional project. Designed for advanced M.F.A. students. Internship at various film, television, or theater facilities accentuating creative contribution, organization, and work of professionals in their various specialties. Given only when projects can be scheduled.

501. Cooperative Program. (2 to 8) Preparation: consent of UCLA graduate adviser and graduate dean, and host campus instructor, department chair, and graduate dean. Used to record enrollment of UCLA students in courses taken under cooperative arrangements with USC. S/U grading.

596A. Directed Individual Studies: Research. (2 to 12) Tutorial, to be arranged. Designed for graduate students. May be repeated with consent of instructor. S/U or letter grading.

596B. Directed Individual Studies: Writing. (2 to 12) Tutorial, to be arranged. Designed for graduate students. May be repeated with consent of instructor. S/U or letter grading.

596C. Directed Individual Studies: Directing. (2 to 12) Tutorial, to be arranged. Designed for graduate students. May be repeated with consent of instructor. S/U or letter grading.

596D. Directed Individual Studies: Design. (2 to 12) Tutorial, to be arranged. Designed for graduate students. May be repeated with consent of instructor. S/U or letter grading.

596E. Directed Individual Studies: Acting. (2 to 12) Tutorial, to be arranged. Designed for graduate students. May be repeated with consent of instructor. S/U or letter grading.

596F. Directed Individual Studies: Production. (2 to 12) Tutorial, to be arranged. Designed for graduate students. May be repeated with consent of instructor. S/U or letter grading.

597. Preparation for Ph.D. Qualifying Examinations in Theatre Arts. (2 to 8) Tutorial, to be arranged. May be repeated for a maximum of 12 units. S/U grading.

Scope and Objectives

The professional urban planner works on the creation and management of the urban environment, including its physical, economic, and social elements. Housing, transportation, air and water quality, the preservation of historic communities, and the development of community-level economic and employment programs are some of the tasks undertaken by recent graduates of the UCLA Department of Urban Planning. Graduates have taken positions in local, state, and national governments, and increasingly with nonprofit and private companies whose products and services affect the urban environment. While most UCLA graduates find positions in the U.S., the program offers the opportunity to specialize in development planning abroad, including rural development, and many graduates have found positions in Latin America, Africa, and Asia.

The program offers an undergraduate minor in Urban and Regional Studies, a two-year Master of Arts degree, and a Ph.D. degree. Concurrent degree programs allow students to combine study for an M.A. in Urban Planning with work toward an M.B.A. in the John E. Anderson Graduate School of Management, a J.D. in the School of Law, an M.Arch. I in the Department of Architecture and Urban Design, or an M.A. in Latin American Studies.
The department takes pride in its collegial atmosphere. It features a lively mix of students from diverse academic backgrounds, drawn from many foreign countries and from every avenue of American life. It includes many members of racial and ethnic minority groups, and more than half the students are women. Student organizations provide an interesting program of extracurricular activities.

**Undergraduate Study**

**Urban and Regional Studies Minor**

The scale, diversity, balkanized governance, and natural environment of Southern California all contribute to making it an extraordinary natural laboratory for learning about urban and regional issues, whether the focus is on immigration, employment, the built environment, transportation, poverty, natural resources, or a host of other challenges. The Urban and Regional Studies minor offers undergraduate students a means of addressing some of these issues from an interdisciplinary perspective, giving a balanced mixture of theory, practice, and service-learning courses.

To enter the minor, students must be in good academic standing with an overall grade-point average of 2.0 or better, have completed 90 or more units, and complete either Urban Planning 120 or 121 with a grade of C or better. An introductory course in geography, political science, or sociology is recommended. For further information, contact the program director or counselor at (310) 206-4613.

**Required Courses (28 units):**

1. Urban Planning 120 or 121 with a grade of C or better; (2) five elective courses from at least two departments, selected as follows: (a) at least three courses from Public Policy 10A, 104, C115, M120, C147, Urban Planning 120 (unless taken under item 1), 121 (unless taken under item 1), 130, C133, 141, M150, CM160, CM165, M175, C184 and (b) two courses from Anthropology 167, Chicana and Chicano Studies 181, Geography 150, History 145A, 145B, Management 175, Political Science 143B, Sociology 158 (students may petition to include a School of Public Affairs course not listed above to fulfill an elective requirement); (3) capstone project that may be satisfied by one of the following: (a) Urban Planning 185SL — service learning project or (b) Urban Planning 199 or a 199 in the College of Letters and Science with a faculty mentor affiliated with this minor — individual research project.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Successful completion of the minor is indicated on the transcript and diploma.

**Graduate Study**

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasala/library/pgmintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

**Graduate Degrees**

**Urban Planning Upper Division Courses**

120. Introduction to Cities and Planning. (4) Lecture, three hours. Survey of urban history and evolution in U.S., urban social theory, current growth trends, system of cities, urban economy and economic restructuring, traditional and alternative location theories, urban transportation, and residential location and segregation. P/NP or letter grading.

121. Urban Policy and Planning. (4) Lecture, three hours. Examination of current urban planning and policy issues and debates, such as normative theories of good urban form, metropolitan organization and governance, economic development and growth management, edge cities, spatial mismatch hypothesis, urban poverty, racial/ethnic inequality, gender and urban structure, sustainability, and future of cities. P/NP or letter grading.

M122. Policy, Planning, and Community. (4) (Same as Asian American Studies M108.) Lecture, three hours; field laboratory. Project-oriented methods course on conducting needs assessment in Asian American communities. Geographic information systems to be used to define problems and needs. Letter grading.

129. Special Topics in Urban Policy and Research. (4) Lecture, three hours. Examination of particular planning and policy issues (e.g., economic development, environmental planning, housing and community development, international planning and development, land use, or urban design) in some depth. Specific topic area rotates depending on instructor. May be repeated for credit with topic change. P/NP or letter grading.

130. Fundamentals of Urban and Regional Economics. (4) Lecture, three hours. Preparation: one introduction to microeconomics course. Most U.S. population lives and works in urbanized areas, and world’s population is becoming more urbanized with each passing decade. National, state, and local governments are engaged in managing, planning, policymaking, and governance in urban context. Ultimate efficacy of those public activities can be enhanced by understanding of economic forces acting on urban areas. Basic concepts related to location choice, agglomeration effects, economies of scale, and specialization by cities and transportation. P/NP or letter grading.

C133. Political Economy of Urbanization. (4) Lecture, three hours. Introduction to new approaches to urban studies, basic concepts and analytical approaches of urban political economy, with major emphasis on American urban problems and restructuring of metropolitan and regional historical geography of urbanization, development and transformation of urban spatial structure, suburbanization and metropolitan political fragmentation, urban fiscal crisis, and role of urban social movements. Concurrently scheduled with course C233. P/NP or letter grading.

CM137. Southern California Regional Economy. (4) (Same as Labor and Workplace Studies M180.) Lecture, three hours. Introduction to regional economy, with emphasis on Los Angeles. Key economic sectors, labor market composition, and review of conflicting portrayals depicting dynamics of region. Two all-day bus tours of key economic regions and guest lectures by regional experts included. Concurrently scheduled with course C237C. Letter grading.

M140. Issues in Latina/Latino Poverty. (4) (Same as Chicana and Chicano Studies M121.) Lecture, three hours. Examination of nature and extent of urban and rural poverty confronting Latina/Latino population in U.S. Special emphasis on antipoverty policies of government and nonprofit organizations and social planning and economic development strategies. Attention also to literature on underclass. Letter grading.

141. Planning for Minority Communities. (4) Lecture, three hours. Introduction to inner-city policy issues on three separate levels: (1) each student develops comprehensive inner-city urban program using materials from Alternatives Inner-City Future Exercise, (2) each student is expected to identify value assumptions and theories of social justice implicit or explicit in alternative intervention programs, and (3) each student is expected to participate in class discussions that emphasize minority issues that affect implementation. P/NP or letter grading.

M150. Transportation Planning. (4) (Same as Geography M149.) Lecture, three hours. Designed for juniors/seniors. Study of geographical aspects of transportation, with focus on characteristics and functions of various modes and on complexities of intra-urban transport. P/NP or letter grading.

151. Urban Transportation Economics. (4) Lecture, three hours. Big cities offer many attractions, but high density also produces traffic congestion and air pollution. Can we have dense urban areas without congested traffic and polluted air? Analysis of economic explanations for transportation problems and examination of possible solutions. Because university campuses resemble small cities, they are used as examples to explore various policies (such as BruinsGO at UCLA) that universities have adopted to improve transportation. Letter grading.

CM160. Environmental Politics and Governance. (4) (Same as Environment M164.) Lecture, three hours. Environmental planning is more than simply finding problems and fixing them. Each policy must be negotiated and implemented within multiple, complex systems of governance. Institutions and politics matter deeply. Overview of how environmental governance works in practice and how it might be improved. Concurrently scheduled with course C260. Letter grading.

M162. Land Use and Development. (4) (Same as Environment M162.) Lecture, four hours. Examination of institutional and historical evolution of land use in U.S. Comparison and contrasting of how cities have evolved in different parts of U.S. and some recent trends in urbanization. Relationship of state-level land-use policies and politics and ways in which localities plan. Environmental, social, and equity aspects of different patterns of urbanization and likely trends into future. Letter grading.

M163. California Sustainable Development: Economic Perspective. (4) (Same as Environment M135 and Public Policy M149.) Lecture, three hours. Examination of specific environmental challenges that California faces. Microeconomic perspective used, with special emphasis on incentives of pollutants to reduce their pollution and increase of local, federal, and state government to address these issues. Focus on measurement and empirical hypothesis testing. P/NP or letter grading.

Urban Planning / 601
Consultation with instructor. P/NP grading.

Scheduling organizations. Readings to be determined in agency through Center for Community Learning and may complement to service learning requirement and may be repeated for credit. Individual contract required. P/NP or letter grading.

Graduate Courses

M201. Theories of Architecture. (4) (Same as Architecture and Urban Design M201.) Lecture, three hours. Exploration of conceptual and historical structures that shape current issues in architectural theory. Readings in primary texts serve as framework for understanding nature of speculative inquiry in architectural context. Letter grading.

M202A. Public Control of Land Development. (3 to 6) (Same as Law M286.) Lecture, three hours. Analysis of legal and constitutional constraints on land-use planning and development; administrative and environmental regulations; including relationship between law and planning, formulating land-use legislation, zoning, subdivision controls, eminent domain, taxation, urban development, environmental law, and negotiation. Theory and doctrine applied to case studies; research project/paper and/or examination required. S/U or letter grading.

M202C. Seminar: Urban Affairs. (3 to 6) (Same as Law M526.) Seminar, two field trips. Consideration of selected aspects of housing law and policy, including current federal and state housing subsidies; remedies of housing consumers; impacts of market discrimination on children, racial minorities, and women; and local governmental laws influencing cost and supply, such as antispeculation and rent control legislation. Catalytic role of economic and community development in evaluation of housing supply also considered. S/U or letter grading.

M204. Research Design and Methods for Social Policy. (4) (Same as Public Policy M218.) Lecture, three hours; outside study, nine hours. Limited to graduate students. Preparation: passing score on two field trips. Consideration of selected aspects of housing law and policy, including current federal and state housing subsidies; remedies of housing consumers; impacts of market discrimination on children, racial minorities, and women; and local governmental laws influencing cost and supply, such as antispeculation and rent control legislation. Catalytic role of economic and community development in evaluation of housing supply also considered. S/U or letter grading.

M205A. Introduction to Geographic Information Systems. (4) (Same as Public Policy M224A.) Lecture, three hours; laboratory, one hour. Preparation: one graduate-level statistics course, familiarity with one packaged statistics program. Principles of Geographic Information Systems (GIS) and applied techniques of using spatial data for mapping and analysis. Topics include data quality, data manipulation, spatial analysis, and information systems. Use of mapping and spatial analysis to address planning problems. Letter grading.

M206B. Advanced Geographic Information Systems. (4) (Same as Public Policy M224B.) Lecture, four hours; laboratory, four hours. Requirement: course M206A or Public Policy M224A. Principles and skills of geographic analysis and modeling; managing, processing, and interpreting spatial data. Especially useful for students interested in environmental, demographic, suitability, and transportation-related research. Scripts (Avenue), modeling (Spatial Analyst), network analysis, and transportation modeling (TransCAD). Letter grading.

M207. Applied Microeconomics for Urban Planning. (4) Lecture, three hours. Preparation: passing score on microeconomics examination given first day of class. Practical use of economics in analyzing public resource allocation problems. Topics include review of marginal analysis, difference between equity and efficiency, public goods and free rider problem, environmental pricing, public service pricing, and conflicts between individual and collective rationality. Letter grading.

M210A. Advanced Planning Theory. (4) Lecture, three hours. Required of first-year Ph.D. students. Major ideas and theories of planning that have influenced its development from early-19th century to present. Letter grading.

M210B. Comparative Histories of Planning. (4) Lecture, three hours. Limited to Ph.D. and advanced M.A. students. Examination of history and historical method in planning through group discussion, oral presentations, and written assignments. Organization of course into three parts to develop critical historical skills: historiography and historical methods, critique of planning histories of Los Angeles, and writing of urban histories. S/U or letter grading.

M210C. Colloquium in Planning Theory. (4) Lecture, one hour; discussion, two hours. Required of Ph.D. students. Introduction to some central theoretical issues of contemporary planning. S/U or letter grading.

M211. Law and Quality of Urban Life. (4) Lecture, three hours. Introduction to law as urban system, directed primarily toward those interested in intersection of law and policy; broad array of urban issues examined, as is law’s role as partial cause and cure of urban problems. Examination of law as changing process rather than collection of principles, so that students develop facility to interact with law and lawyers in positive and constructive manner. S/U or letter grading.

M212. International/Comparative Planning Workshop. (4) Discussion; three hours; field trips, five to 10 days. Topics of planning and policy in various international or domestic sites. Topics may include urban design, urban development, urban governance, land use, environmental issues, transportation, infrastructure planning, housing development, community development, and/or physical planning. May be repeated for credit. Letter grading.

218. Graphics and Urban Information. (4) Lecture, two hours; studio, one hour. Presentation of basic graphic methods and tools for conceptualization, analysis, and documentation of built environment. Development of fundamental skills of graphic ideation and communication. Letter grading.

219. Special Topics in Built Environment. (4) Lecture, three hours. Topics in built environment selected by faculty members. May be repeated for credit. S/U or letter grading.

220A. Quantitative Analysis in Urban Planning I. (4) Lecture, three hours; laboratory, 90 minutes. Preparation: passing performance on basic mathematics proficiency examination given first day of class. Introduction to mathematical and statistical concepts and methods with applications in urban planning. Review of basic mathematical concepts fundamental to planning methods; linear and nonlinear functions focusing on growth curves and mathematics of finance; data measurement and display; descriptive statistics and probability. Introduction to use of computer as tool in analysis of planning-related data. Letter grading.

220B. Quantitative Analysis in Urban Planning II. (4) Lecture, three hours; laboratory, 90 minutes. Requirement: course 220A or equivalent as demonstrated by passing performance on basic mathematics proficiency examination given first day of course 220A. Introduction to concepts of statistical inference and modeling, with emphasis on urban planning applications. Topics include sampling, estimation, analysis of variance, correlation, and simple and multiple regression. Use of computer as tool in statistical analysis and modeling. Letter grading.

222. Introduction to Histories and Theories of Urban Planning. (4) Lecture, 90 minutes; discussion, 90 minutes. Exploration of planning thought and practice over time, leading authors and key issues in field of planning, traditional and insurgent histories of planning, and alternative approaches to planning for multiple and pluralistic publics. Generally taken Fall Quarter of first year of M.A. program. Letter grading.

223. Professional Development Seminar. (4) Seminar, 90 minutes; discussion, 90 minutes. Recommended preparation: course 222. Problems of professional practice. Development of methods that integrate theory and practice through readings and individual and collective analyses of each student’s fieldwork experience. Students must be working in field setting to enroll. Job fair is held at end of Fall Quarter to place students in field settings. Students complete a major project or a term course (M246) to meet fieldwork requirement. Letter grading.

M226A. Introduction to Computer-Aided Architectural Design, Two-Dimensional. (4) (Same as Architecture and Urban Design M226A.) Lecture, three hours; laboratory, one hour. Concepts of hardware, software, and networks; paint, draft, multimedia, DTP, and presentation programs; CAD in office environment. Letter grading.

C233. Political Economy of Urbanization. (4) Lecture, three hours. Introduction to new approaches to urban studies, historical and analytical approaches of urban political economy, with more emphasis on American urban problems and restructuration of modern metropolis. Topics include historical geography of urbanization, development and transformation of urban spatial structure, suburbanization, and metropolitan political fragmentation, urban fiscal crisis, and role of urban social movements. Concurrently scheduled with course CM137. Letter grading.

234A. Development Theory. (4) Lecture, three hours. Review of basic literature and schools of thought on development theory through analysis of impact of mercantilism, colonialism, capitalism, and socialism on the urban and rural social and economic structures in Third World. Presentation, through evaluation of theoretical writings and case studies, of complexity and diversity of developing countries. Emphasis on linkages between policy and rural and urban impacts. Gives students important background for courses 234B, M234C, and many other planning courses addressing Third World issues. Letter grading.

234B. Conservation in Inhabited Landscapes. (4) Lecture, three hours. Recommended preparation: course 234A. Development more thoroughly of themes raised in earlier courses. Topics may include pollution, land use, development, women, agricultural ecology, comparative land reform, agrarian reformation, and special problems of tropical development. May be repeated for credit with consent of instructor. Letter grading.

M234C. Resource-Based Development. (4) (Same as Geography M229.) Discussion, three hours. Recommended preparation: course 234A. Some major issues associated with development of specific natural resources. Topics include nature of particular resource (or region associated with it), its previous management, involvement of state, corporations, and local groups, and complexities and social and political impact of its development. Letter grading.

235A-235B. Urbanization in Developing World I, II. (4-4) Lecture, 90 minutes; discussion, 90 minutes. Course 235A is requisite to 235B. Questions of urbanization and planning in first term; rural development in second term. Case studies from Latin America, Africa, and Asia. Lectures, student presentations, and policy debates. Letter grading.

M236A. Theories of Regional Economic Development. (4) (Same as Public Policy M236A.) Lecture, three hours; discussion, one hour. Introduction to theories of location of economic activity, trade, and other forms of contact between regions, processes of regional growth and decline, relationships between different levels of economic development, relations between more and less developed regions. Letter grading.

236C. Advanced Workshop on Regions in World Economy. (4) Lecture, three hours. Requirement: course 236B. Advanced workshop on regional development examining changes in organization of production systems, their geographies, and processes that affect regional performance in globalized environment. Letter grading.

237A. Sectoral Analysis. (4) Lecture, three hours; laboratory, one hour. Introduction to methods and procedures of sectoral investigation as applied to regions, industries, companies, and their labor forces. Current theories and conceptions of industrial structure and industrial performance, with emphasis on patterns of distribution of industrial activity in different regions and the economic, social, and urban implications of these trends. Letter grading.

237B. Urban and Regional Economic Development Applications. (4) Lecture, three hours. Survey and analysis of economic development strategies in U.S. cities and regions. Strategies seek to modify or shape existing conditions, focus on how policies attempt to harness dynamics associated with new forms of industrialization, intensified global competition, and interregional linkages among capital, labor, and state. Letter grading.

C237C. Southern California Regional Economy. (4) Lecture, three hours. Introduction to regional economic development, with emphasis on Los Angeles. Key economic sectors, labor market composition, and review of conflicting portrayals depicting dynamics of region. Two all-day bus tours of key economic regions and guest lectures by regional experts included. Concurrently scheduled with course CM137. Letter grading.

239. Special Topics in Regional and International Development. (4) Seminar, three hours. Topics in urban and regional development selected by faculty members. May be repeated for credit. S/U or letter grading.

M240. Local Government. (2 to 6) (Same as Law M285.) Lecture, three hours. Analysis of structure and function of local, regional, and state government in historical and institutional context: organization, finance, intergovernmental relations, role of judiciary, public services, lawmaking, citizen participation through initiatives and referenda, and government tort liability. Letter grading.

M243. Privatization, Regulation, and Public Finance. (4) (Same as Public Policy M233.) Lecture, three hours; outside study, two to four hours. Requirement: Public Policy 201. Evaluation of economic and political determinants of trend toward privatizing public service industries. Analysis of this current trend as expressed through new pricing, financing, and service-level policies. Exploration of new regulatory role this trend implies for state and local government. Letter grading.

244. Urban Poverty and Planning. (4) Lecture, three hours. Examination of determinants of urban poverty, with emphasis on poverty in U.S. and on geographical dimensions of poverty and planning interventions that contribute to poverty reduction. Topics include relationship between poverty and human and social capital, demographic change, low-wage labor market, spatial concentration of poor, residential segregation, and social policy. Letter grading.

245. Urban Public Finance. (4) Lecture, three hours. Requirement: courses 207, 220A. Theory and practice of urban public finance, with emphasis on methods used to fund public infrastructure. Topics include fiscal impact analysis of real estate development, effects of taxes on land-use decisions, benefit assessments to finance neighborhood public investment, private and intergovernmental contracting as method of supplying urban public services, trends for urban redevelopment, and municipal bond market. S/U or letter grading.

M246. Poverty, Poor, and Welfare Reform. (4) (Same as Public Policy M246.) Lecture, three hours. Major policy and research issues concerning poverty and social welfare policy directed toward poor in U.S. S/U or letter grading.
247. Race, Gender, Culture, and Cities. (4) Discussion, three hours. Exploration of multicultural context of contemporary U.S. cities, with focus on changing social and economic realities of these communities and their policy implications. Topics relate new diversity and gender with global restructuring, new urban economy, and policies for workplace, housing, schools, and governance. S/U or letter grading.

249. Special Topics in Social Policy and Analysis. (4) Lecture, three hours. Topics in social policy and analysis selected by faculty members. May be repeated for credit. S/U or letter grading.

250. Introduction to Social Policy. (4) Lecture, three hours. Analysis of demographic changes, history, needs, and ideological debates that affect development of social policy in U.S., compared with Western Europe. S/U or letter grading.

253. Sprawl. (4) Lecture, three hours. Suburbs are not new, but metropolitan areas in U.S. and elsewhere continue to grow rapidly at their edges in ways that many consider poorly planned. Discussion of causes and impacts of sprawl and what, if anything, should be done about it. Letter grading.

M254. Transportation, Land Use, and Urban Form. (4) (Same as Public Policy M220.) Lecture, three hours. Historical evolution of urban form and transportation systems, intrametropolitan location theory, recent trends in urban form, spatial mismatch hypothesis, jobs/housing balance, transportation in strong central city and polycentric city, neotraditional town planning debate, rail transit and urban form. Letter grading.

M255. Transportation Planning. (4) Same as Public Policy M244.) Lecture, three hours. Examination of how planners analyze, manage, and operate transportation systems. System performance, intelligent transportation systems, transportation system demand management, parking management, freight movement and facilities, public transit evaluation and management, paratransit, bicycle and pedestrian planning, transportation for elderly and disabled. Letter grading.

M256. Travel Behavior Analysis. (4) Same as Public Policy M221.) Lecture, three hours. Requisites: courses 207 and 220B, or Public Policy 201 and 203. Descriptions of travel patterns in metropolitan areas, recent trends and projections into future, overview of travel forecasting methods, trip generation, trip distribution, mode split, and trip assignment; content of traditional travel forecasting methods and new approaches to travel behavior analysis. Letter grading.

M257. Transportation Economics, Finance, and Policy. (4) (Same as Public Policy M222.) Lecture, three hours. Overview of transportation finance and economics; concepts of efficiency and equity in transportation finance; historical evolution of highway and transit finance; current issues in highway finance; private participation in road finance; toll roads, road costs and cost allocation, truck charges, congestion pricing; current issues in transit finance; transit fare and subsidy policies, contracting and privatization of transit services. Letter grading.

M258. Transportation and Environmental Issues. (4) (Same as Public Policy M223.) Lecture, three hours. Regulatory role of transportation, air quality and energy issues, chemistry of air pollution, overview of transportation-related approaches to air quality enhancement; new car tailpipe standards; vehicle inspection and maintenance issues; transportation and climate change; transportation control measures; alternative fuels and electric vehicles; corporate average fuel economy and global warming issues; growth of auto fleet; automo- bile in sustainability debate. Letter grading.

259. Transportation and Economic Development. (4) Lecture, three hours. Examination of equity issues related to urban transportation, with focus on complex relationships among urban spatial structure, transportation (travel patterns and transportation investments), and economic outcomes. Role of transportation in improving economic outcomes for low-income and minority households and communities. Letter grading.

C260. Environmental Politics and Governance. (4) Lecture, three hours. Environmental planning is more than simply finding problems and fixing them. Each policy must be negotiated and implemented with multiple, competing, stakeholders. Institutions and politics matter deeply. Overview of how environmental governance works in practice and how it might be improved. Concurrently scheduled with course CM160. Letter grading.

261. Land-Use Planning: Processes, Critiques, and Innovations. (4) Lecture, three hours. Under-standing of techniques, processes, strategies, and dilemmas of land-use planning. Despite strong criti-cisms and demonstrated shortcomings, land-use con-trol remains integral part of planning practice. How does land-use control work? Has it evolved? What are problems with traditional land-use control mechanisms? How well do innovations in land-use planning address criticisms? What is role of land-use planning in good society? S/U or letter grading.

262. Urban Environmental Problems: Water Resources. (4) Formerly numbered 262B.) Lecture, three hours. Water is life and wealth in California, which has world’s most extensive long-distance, inter-basin water transfer system. To date, water resources planning has been devoted almost exclusively to add- ing facilities for water delivery. But conflicts over addi-tional developments have basically precluded further extension of this system, despite growing pressures to increase supplies. Examine how environmental impact, geography, use of water, and consideration of resource planning. S/U or letter grading.

264. Environmental Law. (3 to 6) Same as Law M290.) Lecture, three to three and one-half hours. Ex-amination of field of environmental law through analy-sis of various legal issues and public policy: legal con-sequences of public decision-making strategies and allocation of primary responsibility for various environ-mental decisions. Focus on air pollution and Clean Air Act as means of illustrating policy issues underlying field. S/U or letter grading.

C265. Environmentalism: Past, Present, and Future. (4) Lecture, three hours. Exploration of history and origin of major environmental ideas, movements or countermovements they spawned, and new and changing nature of modern environmentalism. Intro-duction to early ideas of environmentalism, how rise of mod-ern sciences reshaped environmental thought, and how this was later transformed by 19th-century ideas and rise of American conservation movements. Re-view current American environmental thought and current contemporary environmental questions as they relate to broader set of questions about nature of development, sustainability, and equity in environmental de-bate. Especially, how climate change, including global climate change, rise of pandemics, deforestation, and environmental justice impacts of war. Concur-rently scheduled with course CM165. Letter grading.

M267. Environmental and Resource Economics and Policy. (4) (Same as Public Policy CM250.) Lecture, three hours. Requisites: courses 207 and 220B, or Public Policy 204 and 208. Survey of ways of eco-nomics is used to define, analyze, and resolve prob-lems of environmental management. Overview of anal-ytical questions addressed by environmental econo-mists that bear on public policies. Letter grading.

269. Special Topics in Environmental Analysis and Policy. (4) Lecture, three hours. Topics in envi-ronmental analysis and policy selected by faculty members. May be repeated for credit. S/U or letter grading.

M270. Homelessness: Housing and Social Service Issues. (4) Same as Social Welfare M208A.) Lecture, 90 minutes; discussion, 90 minutes; one field trip. Requisites: current status of homelessness: who are homeless, what social services and housing are available, existing and proposed programs — appropriate architecture, management, and sources of funding. Outside speakers include providers of serv-ices to homeless. Letter grading.

M272. Real Estate Development and Finance. (4) (Same as Architecture and Urban Design M272.) Lecture, two hours; workshop, two hours; outside study, eight hours. Requisites: courses 220A, 220B. Recommended for first-year students in community development and built environment area of concentration. In-troduction to real estate development process specific-ally geared to students in planning, architecture, and urban design. Financial decision model, market stud-ies, designs, loan packages, development plan, and feasibility studies. Lectures and projects integrate de-velopment process with proposed design solutions that are interactively modified to meet economic feasi-bility tests. S/U or letter grading.

273. Site Planning. (4) Lecture, 90 minutes; labora-tory, 90 minutes. Requisite: course 274. Introduction to principles of site planning for urban areas. S/U or letter grading.

274. Introduction to Physical Planning. (4) Lecture/ workshop, 90 minutes; discussion, 90 minutes. De-signed for students with no prior physical planning background and for first-year M.A. students in commu-nity development and built environment, design and de-velopment, and transportation policy and planning con-centrations. Introductory overview of physical planning, land use, site analysis, and surveys; regulatory struc-tures and social/community impacts. Letter grading.

M275. Community Development and Housing Pol-icies: Roles of State, Civil Society, and Nonprofits. (4) (Same as Public Policy M243 and Social Welfare M260U.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Examination of role of U.S. housing policy and role of government agencies and community organizations. Is problem housing or economic development? Should interven-tions be directed toward inner city housing markets or through neighborhood strategies? What lessons can be learned from experiences of other countries? Let-ter grading.

604 / Urban Planning
M276. Urban Housing and Community Development. (3 to 4) (Same as Law M287.) Lecture, three hours; discussion, one hour. Examination of past 40 years of federal and state programs to stem urban decline and improve housing in U.S.; comparison and contrast of legal and policy initiatives in areas of public housing, housing segregation, mortgage subsidies, landowner/tenant law, urban renewal, and community organizing. Research paper required. Letter grading.

279. Seminar: Public Space. (4) Seminar, three hours. Investigation of changes in production, consumption, design, and meaning of public space and analysis of socioeconomic, political, and cultural factors that lie behind them. Letter grading.

280. Affordable Housing Development. (4) Lecture, three hours. Overview of basic concepts and skills utilized in nonprofit development initiatives, especially by community-based organizations. Focus on nonprofit and subsidized housing, emphasizing way professionals “broker” debt and equity funding from private, governmental, and philanthropic sources. Analysis of key projects and negotiation exercises. S/U or letter grading.

281. Introduction to History of Built Environment in U.S. (4) Lecture, two hours; discussion, one hour. Open to advanced undergraduates with consent of instructor. Introduction to history of physical forms of urbanization in America; survey of economic, political, social, and aesthetic forces behind creation of built environments. S/U or letter grading.

282. Urban Design: Theories, Paradigms, Applications. (4) Lecture, three hours. Discussion and evaluation of philosophical bases, ideologies, and paradigms of urban design in last century; examination of how these are reflected on built environment of cities. Letter grading.

C284. Looking at Los Angeles. (4) Lecture, three hours. Introduction to history and physical form of Los Angeles, with emphasis on understanding social, economic, and political issues in development of Los Angeles. Concurrently scheduled with course C184. Letter grading.

285. Women and Community Development: Great Gender Debates. (4) Lecture, 90 minutes; discussion, 90 minutes. Relationship of built environment to natural environment through whole systems approach, with focus on sustainable design of buildings and planning of communities. Emphasis on energy efficiency, renewable energy, and appropriate uses of resources, including materials, water, and land. Letter grading.

292. Elements of Urban Design. (4) (Same as Architecture and Urban Design M271.) Lecture, three hours. Exploration of cultural and political context of architecture and planning work. Examination of theory and practice from variety of perspectives applied to set of varied physical environments and to set of current spatialized concepts. Consideration of theoretical propositions that are shaping present urban and architectural debate and concrete case studies where politics and ideology shape design process. Letter grading.

294. Housing in Developing Countries: Policy Objectives and Options. (4) Lecture, three hours. Examination of housing policies and their intended and unintended effects on housing demand and supply in developing countries. How definition of housing problems, and scope of solutions, has changed over time. Critical assessment of some key solutions that have been tried in past, their advantages, shortcomings, and resultant trade-offs, and likely directions for future housing policy. Letter grading.

298. Special Topics in Emerging Planning Issues. (2 to 4) Discussion, two to three hours. Topics in new emerging planning issues such as role of cutting edge technology, innovative policies, and experimental programs. May be repeated for credit. S/U grading.

M291. Introduction to Sustainable Architecture and Community Planning. (4) (Same as Architecture and Urban Design M293.) Lecture, three hours. Examination of cultural and political context of architecture and planning work. Examination of theory and practice from variety of perspectives applied to set of varied physical environments and to set of current spatialized concepts. Consideration of theoretical propositions that are shaping present urban and architectural debate and concrete case studies where politics and ideology shape design process. Letter grading.

M292. Strategic Planning for Public and Nonprofit Organizations. (4) (Same as Public Policy M247 and Social Welfare M241F.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Various patterns of community action for attaining social welfare objectives; research and field experience directed toward study of social problems and context of community planning; emerging patterns of physical, economic, and social planning within framework of social change theory. Letter grading.

M290. Strategic Planning for Public and Nonprofit Organizations. (4) (Same as Public Policy M247 and Social Welfare M241F.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Technical processes of problem solving regarding substantive social welfare problems at community level. This form of community practice fills niche between professional and knowledge and skill set possessed by agency and program administrators on one hand and by policy analysts and policymakers on other. Letter grading.

M291. Introduction to Sustainable Architecture and Community Planning. (4) (Same as Architecture and Urban Design M293.) Lecture, three hours. Exploration of cultural and political context of architecture and planning work. Examination of theory and practice from variety of perspectives applied to set of varied physical environments and to set of current spatialized concepts. Consideration of theoretical propositions that are shaping present urban and architectural debate and concrete case studies where politics and ideology shape design process. Letter grading.

M292. Strategic Planning for Public and Nonprofit Organizations. (4) (Same as Public Policy M247 and Social Welfare M241F.) Lecture, three hours; outside study, nine hours. Designed for graduate students. Technical processes of problem solving regarding substantive social welfare problems at community level. This form of community practice fills niche between professional and knowledge and skill set possessed by agency and program administrators on one hand and by policy analysts and policymakers on other. Letter grading.

M293. Politics, Ideology, and Design. (4) (Same as Architecture and Urban Design M293.) Lecture, three hours. Exploration of cultural and political context of architecture and planning work. Examination of theory and practice from variety of perspectives applied to set of varied physical environments and to set of current spatialized concepts. Consideration of theoretical propositions that are shaping present urban and architectural debate and concrete case studies where politics and ideology shape design process. Letter grading.

UROLOGY
David Geffen School of Medicine
UCLA
65-143 Center for the Health Sciences
Box 95178
Los Angeles, CA 90095-1738

Chairs
Jean B. deKernion, M.D. (Fran and Ray Stark Foundation Professor of Urology), Chair
Bernard M. Churchill, M.D. (Judith and Robert Winston Professor of Pediatric Urology), Vice Chair
Director
Mark S. Litwin, M.D., M.P.H., Director of Medical Student Education

Scope and Objectives
The fundamental goal of the Department of Urology is to teach medical students the general principles of diagnosis and management in diseases of the genitourinary tract. Urology encompasses a wide scope of human illness, including conditions that are congenital and acquired, pediatric and adult, male and female, malignant and benign. The department functions to acquaint students with the skills necessary to manage these conditions in the initial stages and over the long term.

Instruction spans all four years of the undergraduate medical school curriculum but is concentrated during the clinical rotations. Students spend one week on the urology service during the third year and may return for an additional four-week elective rotation during the fourth year. The clinical experience includes time spent in the faculty and resident clinics, on ward rounds, and in didactic conferences that
cover general urology, urological subspecialties, uropathology, and uroradiology. Urology teaching settings include the Reagan UCLA, Harbor-UCLA, Olive View-UCLA, UCLA-Santa Monica Hospital, and West Los Angeles VA Medical Centers.

For further details on the Department of Urology and a listing of the courses offered, see http://www.uclurology.com.

**Upper Division Course**

199. Directed Research in Urology. (2 to 8) Tutorial, two hours. Limited to juniors/seniors. Supervised individual research or investigation under guidance of faculty mentor. Culminating paper required. May be repeated for credit. Individual contract required. P/NP or letter grading.

Christine A. Littleton, J.D., Chair

**Professors**
Sondra Hale, Ph.D.
Christine A. Littleton, J.D.

**Associate Professors**
Grace Kyungwon Hong, Ph.D.
Purnima Mankekar, Ph.D.
Elizabeth A. Maschrant, Ph.D.
Juliet A. Williams, Ph.D.

**Scope and Objectives**

The Department of Women's Studies provides interdisciplinary academic programs that span departments, disciplines, and ideologies. The undergraduate program offers a Bachelor of Arts degree and a minor; the graduate program offers Master of Arts and Ph.D. degrees.

The programs provide students the opportunity to study the full range of human experience and arrangements of social organization from the perspectives of those whose participation has been traditionally distorted, omitted, neglected, or denied — women in their racial, class, sexual, national, and cultural diversity. Students develop critical reasoning and analytical skills, research and communication skills, a deep appreciation for complexities of power and asymmetries in gender relations across time, class, and cultures, and conceptual tools for social change. Emphasis on multidisciplinary, multietnic, and transnational approaches assures a broader exposure to the humanities and social sciences than is commonly available within disciplinary confines. A background in women's studies offers unique contextual validation for today's gender contro-

versies and prepares students for a wide range of career and life choices.

The faculty members who teach women's studies courses come from various College of Letters and Science departments, area studies centers, and professional schools. Many professionals within and outside the University contribute their time, expertise, and enthusiasm. A governance committee composed of the chair, faculty members, and graduate and undergraduate student representatives sets program policies and curricula.

The department works closely with undergraduate and graduate student associations to promote student activism and community service among its majors, minors, and graduate students. It also assists other student groups with extracurricular programming on feminist issues. Research in women's studies is promoted in cooperation with the Center for the Study of Women.

**Undergraduate Study**

**Women's Studies B.A.**

The major in Women's Studies may be taken alone or in conjunction with another Letters and Science major. In the case of a double major, no more than five courses may be applied toward both majors.

**Admission**

To be admitted to the major, students must have completed Women's Studies 10, be in good standing, and formally register with the program. They are encouraged to declare their major as early as possible and to discuss their proposed course of study with the chair or undergraduate adviser.

Students are encouraged to draw on the University's diverse resources in creating their program of study. They may pursue traditional and/or innovative subjects in fields ranging from the humanities and fine arts to the social and life sciences. In addition to courses on the women's studies approved list, students may petition to have diverse courses accepted, including courses outside the College of Letters and Science, independent studies, or field study courses.

Each course applied toward the major must be taken for a letter grade, and students must have a grade-point average of 2.0 or better in women's studies courses to receive credit for completing the program. Courses in which they receive grades of C– or lower may not be applied toward the core requirements in the major.

**Preparation for the Major**

**Required:** Women's Studies 10. Students must also complete departmental lower division requisites, as applicable, for upper division women's studies courses in the disciplines.

**Transfer Students**

Transfer applicants to the Women's Studies major with 90 or more units must complete the following introductory courses prior to admission to UCLA: one multidisciplinary feminist perspectives on women and society course and departmental lower division requisite courses.

Refer to the UCLA Transfer Admission Guide at http://www.admissions.ucla.edu/prospect/adm_tr.htm for up-to-date information regarding transfer selection for admission.

**The Major**

The major is designed to (1) impart core concepts in theory and critical analysis, research design, and methods, (2) provide exposure to a range of feminist scholarship across disciplines, and (3) enable students to acquire a depth of knowledge within one or two disciplinary or topical fields of inquiry. To achieve this goal, the major is divided into three categories.

**Required:** At least 13 upper division courses (minimum of 4 units each) as follows:

1. Three core courses, including (a) one feminist theory course from Women's Studies 110A or 110B or M110C, (b) course 130 or one course on the study of American ethnic minority women from the approved list of women's studies credit courses issued each term by the department, and (c) course 187

2. A distribution of at least four courses, each from a different department or discipline, selected from the approved list of women's studies courses

3. Six additional concentration courses from one or two of the disciplines in which the core and distribution courses have been taken. Students may petition for interdisciplinary or topical concentrations such as feminist theory, women of color, women's health, or lesbian studies. If two fields are selected, the ratio of the six courses may be divided 3:3 or 4:2

One upper division tutorial (minimum of 4 units) selected from course 195, 197, or 199 may be applied toward the concentration requirement for the major. This limit does not apply to Women's Studies 198A or 198B.

**Honors Program**

The honors program is open to advanced junior and senior Women's Studies majors with a 3.6 grade-point average in women's studies courses and a minimum 3.4 overall GPA who have no outstanding Incomplete grades, and to majors who demonstrate ability to do honors work by submitting a paper to the department chair for approval. Students wishing to undertake honors in the major are encouraged to complete Women's Studies 187 by Spring Quarter of the junior year or Fall Quarter of the senior year.

To qualify for honors at graduation, students must successfully complete course 187 and two successive terms of honors research (courses 198A, 198B) with their faculty sponsor and receive a grade of B+ or better on their
Women’s Studies Minor

The Women’s Studies minor augments and enriches study in a traditional field. Students participating in this program are required to complete both a departmental major and the Women’s Studies minor.

To enter the minor, students must have an overall grade-point average of 2.0 or better and file a petition in 2225 Rolfe Hall. They are encouraged to declare the minor as early as possible and to discuss their proposed course of study with the chair or undergraduate advisor.

Required Lower Division Course (4 units): Women’s Studies 10.

Required Upper Division Courses (28 units): (1) One feminist theory course from Women’s Studies 110A or 110B or M110C, (2) 120 or 187 or an equivalent senior research seminar approved in advance, and (3) five upper division elective courses (minimum of 4 units each) from the approved list of women’s studies courses issued each term by the department. At least three elective courses must be taken in departments other than the major department. No more than 4 units of courses 195 through 199 may be applied.

Each minor course must be taken for a letter grade, and students must have an overall grade-point average of 2.0 or better. Courses in which students receive grades of C– or lower may not be applied toward the core requirements in the minor. Successful completion of the minor is indicated on the transcript and diploma.

Graduate Study

Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasaa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees

The Women’s Studies Department offers Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Women’s Studies.

Women’s Studies Lower Division Course

10. Introduction to Women’s Studies: Feminist Perspectives on Women and Society. (5) Lecture, three hours; discussion, two hours. Introduction to study of women and men in society, covering comparative issues of social, political, and economic position in the workplace, family, cultural institutions; historical basis of women’s subordination; the female experience; the male experience; relations between women and men; intersections of ethnicity, class, and gender; violence against Women; culture and roles of women and men; social roles of women and men and movements for social change. P/NP or letter grading.

Upper Division Courses

M101C. Special Topics in Lesbian and Gay Literature. (5) Same as English M101C and Lesbian, Gay, Bisexual, and Transgender Studies M101C. Lecture, four hours. Enforced requisite: English Composition 3 or 3H. Variable specialized studies course in lesbian and gay literature. Topics focus on particular problem or issue in terms of its relationship to lesbian and gay culture and writing. May be repeated for credit. P/NP or letter grading.

M104C. Diversity in Aging: Roles of Gender and Ethnicity. (4) Same as Gerontology M104C and Social Welfare M104C. Lecture, four hours. Exploration of complexity of variables related to diversity of the aging population and variability in aging process. Examination of gender and ethnicity within context of both physical and social aging, in a multidisciplinary perspective utilizing faculty from a variety of fields to address issues of diversity. Letter grading.

105. Topics in Women and Medicine. (4) Lecture/discussion, three hours. Examination of medical conditions of women in context of issues that impact women’s health, healthcare, and healthcare providers. Discussion of basic health concepts and self-care; consideration of a women’s health speciality in study of literature and the arts. Analytical and critical study of works by such authors as Walt Whitman, Oscar Wilde, Radclyffe Hall, E.M. Forster, Willa Cather, Virginia Woolf, James Baldwin, Christopher Isherwood, William S. Burroughs, John Rechy, Audrey Lorde, and Edward Albee. P/NP or letter grading.

M107A. American Women Writers. (5) Same as English M107A. Lecture, four hours; discussion, one hour (when scheduled). Enforced requisite: English Composition 3 or 3H. Survey of literary works by American women writers, with emphasis on roles of women, portrayal of nature and society, and evolution of forms and techniques in writing by American women. P/NP or letter grading.

M107B. British Women Writers. (5) Same as English M107B. Lecture, four hours. Enforced requisite: English Composition 3 or 3H. Survey of literary works by British women writers, with emphasis on roles of women, portrayal of nature and society, and evolution of forms and techniques in writing by British women. P/NP or letter grading.

M107C. Special Topics in Women and Literature. (5) Same as English M107C. Lecture, four hours. Enforced requisite: English Composition 3 or 3H. Variable specialized studies course in women and literature, with emphasis on a period, genre, particular theme, or nonnational literary grouping. P/NP or letter grading.

M108. Love and Sex in German Literary Tradition. (4) Same as German M108. Lecture, three hours. Study of major literary works that address issues of idealized desire, emotional/sexual boundaries, and development of sexual identity. Letter grading.

110A. Feminist Theories in Social Sciences. (4) Lecture/discussion, three hours. Requisite: course 10. Multidisciplinary explorations of theorists’ attempts to describe, explain, and critique social institutions, considering impact of race, ethnicity, class, etc. Emphasis on relation of theories to change in law, work, politics, education, economics, family, religion, sexuality, etc. Applications of theories to research questions and methodologies. P/NP or letter grading.

110B. Feminist Theories in the Humanities. (4) Lecture/discussion, three hours. Requisite: course 10. Examination of theoretical positions on gender and women in study of literature and the arts. Analysis of ways in which women and sexuality have been represented in cultural production, considering impact of race, ethnicity, class, etc. Applications of theories to research questions and methodologies. P/NP or letter grading.

M110C. Philosophical Analysis of Issues in Feminist Theory. (4) Formerly numbered M192. Same as Philosophy M187. Lecture, three hours. Requisite for Women’s Studies majors: course 10; for other students: one philosophy course. Examination in depth of different theoretical positions on gender and women as they have been applied to study of philosophy. Emphasis on influential contributions made by new scholarship on women in philosophy. Critical study of concepts and principles that arise in discussion of women’s rights and liberation. Philosophical approach to feminist theories. May be repeated for credit with consent of instructor. Letter grading.

M111. Women and Film. (6) Same as Film and Television M111. Lecture, eight hours; discussion, one hour. Historical issues and critical approaches to women and cinema that may include authorship, stardom, female genres, and images of women in Hollywood cinema, alternative cinema, and independent cinema from silent era to the present. Letter grading.
112. Special Topics in Women and the Arts. (4) Lecture, three hours. Requisite: course 10. Selected topics relating feminist theories to creation of art by women, with consideration of cultural contexts in which they work. Approach to be comparative, cross-cultural, and interdisciplinary. Consideration of artistic practice by women in relation to issues of power, representation, and resistance. May be repeated twice, except for credit toward Women's Studies major. P/NP or letter grading.

M114. Introduction to Lesbian, Gay, Bisexual, and Transgender Studies. (8) (Same as Lesbian, Gay, Bisexual, and Transgender Studies M114.) Lecture, three hours; discussion, one hour. Introduction to history, politics, culture, and scientific study of lesbians, gay men, bisexuals, and transgendered people; examination of sexuality and gender as categories for investigation; interdisciplinary theories and research on minority sexualities and genders. P/NP or letter grading.

M115. Topics in Study of Sexual and Gender Orientation. (4) (Same as Lesbian, Gay, Bisexual, and Transgender Studies M115.) Lecture/discussion, three hours. Requisite: course 10 or M114. Studies in arts, humanities, social sciences, and/or life sciences on aspects of sexual orientation, gender identity, and lesbian, gay, and/or bisexual issues; variable topics may include cultural representations, historical and political change, life and health experiences, and queer or transgender eclectic and cross-cultural emphases. May be repeated for credit. Letter grading.

M117. Women and Politics. (4) (Same as Political Science M107.) Lecture, three or four hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Introduction to rapidly growing body of empirical and theoretical scholarship on women and politics in both national and international contexts. Topics may include women’s movement in the U.S. and globally; women’s electoral participation; representation of women in Congress and in legislatures worldwide; women as heads of government and state; feminist critiques of political science; women and human rights; ERA; struggle for suffrage; mothers as political actors; women and the military; women, development, and globalization. P/NP or letter grading.

M118. Queering American History. (4) (Same as Lesbian, Gay, Bisexual, and Transgender Studies M118.) Lecture, four hours. History of sexual and gender minorities in the U.S. Topics include changing norms, romantic friendships, medical discourse, liberation politics, post-Stonewall culture, AIDS, transgender movement, queer theory and politics. P/NP or letter grading.

M119. Tristan, Isolde, and History of Heterosexuality. (4) (Same as German M104.) Lecture, three hours. German, French, and English versions of Tristan and Isolde story from Middle Ages to 20th century. Particular attention to relation between representation of “heterosexual” love in each text and convergence of other categories in each century. Particular attention to relation between representations of Tristan and Isolde story from Middle Ages to 20th century. Emphasis on memory, identity, gender, and sexuality. Central theme of bilingualism as politics and cultural roles of women in Western Europe from 600 to 1715; women as recipients of healthcare. P/NP or letter grading.

M121. Topics in Gender and Disabilities. (4) (Same as Disability Studies M121.) Lecture, three and one-half hours. Examination of how issues of disability are affected by gender, with particular attention to various roles, positions, and concerns of women with disabilities. Approach is intersectional, exploring how social categories of class, race, ethnicity, and sexual orientation intersect with gender and disability. Topics may include law (civil rights, nondiscrimination), representations in education, public policy, health. May be repeated for credit with topic and instructor change. P/NP or letter grading.

M124. Psychology of Language and Gender. (4) (Formerly numbered M137.) (Same as Communication Studies M124.) Examination of current topics at intersection of gender and language. Topics include sex differentiation in language cross-culturally; sex bias in lexicon and usage; sex differences in lexicon, syntax, phonology, and nonverbal behavior; development of sex-differentiated language in children; “men’s” and “women’s” language in various racial/ethnic/class/sexual preference groups; and cross-cultural variations. P/NP or letter grading.

125. Women and Healthcare in the U.S. (4) Lecture/discussion, three hours. Requisite: course 10. Examination in depth of various ways women provide healthcare in both paid and unpaid capacities and of political and cultural effects of women’s own experiences. Topics include sex differentiation in language cross-culturally; sex bias in lexicon and usage; sex differences in lexicon, syntax, phonology, and nonverbal behavior; development of sex-differentiated language in children; “men’s” and “women’s” language in various racial/ethnic/class/sexual preference groups; and cross-cultural variations. P/NP or letter grading.

M127. Women in Russian Literature. (4) (Same as Russian M127.) Lecture, three hours. Designed for juniors/seniors. Lectures and readings in English. Introduction to topics and problems of women’s writings in Russia and the Soviet Union. Emphasis on images of women expressed in this tradition as compared with those found in a variety of contemporary male writers. P/NP or letter grading.

130. Women of Color in the U.S. (4) Lecture/discussion, three hours. Requisite: course 10. Exploration of experiences of African American, Asian American, Chicana/a, and Native American women in order to assess intersections of race, ethnicity, class, and gender. Contemporary and/or historical and/or theoretical perspectives on racism and its relation to feminism as defined by women of color. Topics include discrimination and evaluation bias, job satisfaction, and interdependence of work and family evaluation. P/NP or letter grading.

M131SL. Gender and Sustainability: Local-Global Connections. (5) (Same as Environment M131SL) Lecture, three hours; service learning, two hours. Introduction to gender and development (GAD) theories, analytical approaches, and applied case studies in context of local-global sustainability and environmental issues, with focus on knowledge, roles, relations, needs, practices, and strategies of women vis-a-vis men. Examination of gender and sustainability dimensions of food system, including agri-business, community-supported agriculture, farmers’ markets and cooperatives, certification, genetically engineered foods, food supplements, food safety, and nutrition, medicine, and related student-advocated issues. Integration of variety of student-centered learning experiences with community/community service organization required. P/NP or letter grading.

M132A. Chicana Feminism. (4) (Same as Chicana and Chicano Studies M110.) Lecture, three hours. Requisite: course 10 or Chicana and Chicano Studies 10A. Examination of theories and practices of women who identify as “Chicana feminist.” Analysis of writings of Chicanas who do not identify as feminist but whose practices tend to gender inequalities faced by Chicanas both within Chicana/Chicano community and dominant society. Attention to Anglo-European and Third World women. P/NP or letter grading.

M132B. Contemporary Issues among Chicanas. (4) (Same as Chicana and Chicano Studies M154.) Lecture, two and one-half hours. Requisite: course 10. Overview of conditions facing Chicanas in U.S., including issues on family, immigration, reproduction, employment conditions. Comparative analysis with other Latinas. P/NP or letter grading.

M133A-M133B. History of Women in Europe. (4-4) (Same as History M133A-M133B.) Lecture, three hours; discussion, one hour (when scheduled). Historical andContemporary Roles of Women in Western Europe from early Middle Ages to the present. P/NP or letter grading.

M133A. 800 to 1715; M133B. 1715 to Present.

M133C. History of Prostitution. (4) (Same as History M133C.) Lecture, three hours; discussion, one hour (when scheduled). History of prostitution from ancient times to the present. Topics include tolerance in medieval Europe, impact of pacts of syphilis, birth of courtesan, regulation in 18th century Europe, white slavery scare, and contemporary global sex trade. Readings include novels, primary sources, and testimony by sex workers. P/NP or letter grading.

M135C. Bilingual Writing Workshop. (4) (Same as Chicana and Chicano Studies M135.) Seminar, four hours. Writing sample required on first day of class; access to course Web page mandatory; need not be bilingual to enroll. Technical instruction, analysis, and theoretical discussion of bilingual creative expression, with focus on specific genre (i.e., autobiography, poetry, fiction). Emphasis on memory, identity, gender, and sexuality. Central theme of bilingualism as politics and aesthetics. Peer critique of weekly writing assignments. Letter grading.

M136. Music and Gender. (5) (Same as Music History M136.) Lecture, four hours; discussion, one hour. Analysis of gender ideologies in several musical cultures; representations of gender, the body, and sexuality by both male and female musicians; contributions of women to Western art and popular music; methods in feminist and gay/lesbian theory and criticism. Letter grading.

M137E. Work Behavior of Women and Men. (4) (Same as Psychology M137E.) Lecture, two and one-half hours. Requisite: course 10 or Psychology 10. Designed for seniors. Examination of work behavior of women and men. Topics include antecedents of career choice, job findings, leadership, performance evaluation, discrimination and evaluation bias, job satisfaction, and interdependence of work and family roles. P/NP or letter grading.
M164. Politics of Reproduction. (4) (Same as Sociology M164.) Lecture, three hours; discussion, one hour. Title refers to intersection between politics and life cycle. Topics include social construction of gender and population, reproductive issues, politicization of mothers, motherhood, and mothering, surrogacy, and new reproductive technologies. Letter grading.

M164A. Women, Violence, Globalization: India, Philippines, Singapore, Vietnam. (4) (Same as Asian American Studies M164.) Lecture, four hours. Study of various forms of violence done on women not only in and of themselves but in light of larger systems of oppression, with focus on Filipino, Vietnamese, Sin- gaporean, and South Asian cultures. Letter grading.

M165. Psychology of Gender. (4) (Same as Psychology M165.) Lecture, three hours. Consideration of psychological literature relevant to understanding contemporary sex differences. Topics include sex-role development and role conflict, physiological and person- ality differences between men and women, sex differ- ences in intellectual abilities and achievement, and impact of gender on social interaction. P/NP or letter grading.

M166. Women in Socialist and Post-Socialist States. (4) (Same as Sociology M166.) Lecture, three hours; discussion of historical evolution of diverse aspects of women's lives in socialist and post-socialist states. Although transition from socialism occurs differently, gender differences are everywhere central to de- mocratization and marketization. Discussion of ways in which state policies affect women. Letter grading.

M167. Contested Sexualities. (4) (Same as Lesbi- an, Gay, Bisexual, and Transgender Studies M167.) Lecture, three hours; discussion, one hour. Sociologi- cal perspectives on formation, control, and resistance of lesbian, gay, bisexual, and transgendered people. Variable topics include identity and community; age, class, gender, and racial diversity; and analysis of contemporary issues affecting contested sexualities. Letter grading.

M168. Feminist Economics in Globalizing World. (4) Lecture, four hours. Preparation: satisfaction of Letters and Science Writing II requirement. Requisite: course 10. Designed for juniors/seniors. Overview of field of feminist economics, with emphasis on develop- ment experiences in globalizing world economy. Overview of gender inequalities such as gender divi- sion of labor in paid and unpaid work, patterns of em- ployment and unemployment, and wage gaps be- tween men and women in different world economy re- gions; feminist theories of economic and political debates within gender and development field on topics such as structural adjustment, femini- zation of labor force, and poverty; examination of ef- forts and proposals by governments, international pol- icy-making institutions, and civil society organizations to make economic policies and structures gender-eq- uitable. P/NP or letter grading.

M170C. History of Women in China, A.D. 1000 to the Present. (4) (Same as History M170C.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Topics include women and family, women in Confucian ideology, women in literati culture, feminist movement, and women and communist revolution. P/NP or letter grading.

M171A. Women, Gender, and Law: Jurisprudence of Sexual Equality. (4) Lecture, four hours. Requisite: course 74 or Political Science 10 or Philosophy 6 or 9. Recommended: course 110A or 110B or M110C. Ex- ploration of models of equality described and/or advo- cated by legal theorists primarily in the U.S. — equal- ity of opportunity, equality of outcome, equality of re- spect, and compensation — gender differences between men and women (e.g., sexual harassment, pregnancy leave policy, access to safe and effective reproductive control technologies) for purposes of critique. Specific focus may vary by instructor (e.g., consideration of sexual equality theories to issues of gender equality, legal status of women in countries outside the U.S. or from perspectives of international human rights). May be repeated for credit with topic or instructor change. P/ NP or letter grading.

M172. Afro-American Woman in U.S. (4) (Same as Afro-American Studies M172 and Psychology M172.) Lecture, two and one-half hours; discussion, one hour. Designed for juniors/ seniors. Impact of social, psychological, political, and eco- nomic forces which impact on interpersonal rela- tionships of Afro-American women as members of two societies as well as weight of their biological and ethnic group. P/NP or letter grading.

M173B. Women in 20th-Century Japan. (4) (Same as History M173B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Analysis of Japanese women and world histo- ry through state documents, autobiographical voices, contemporary television, and other varying historical sources, including topics such as women and pol- itical order (1900 to 1930), women, war, and empire (1930 to 1945), and women in consumer society (1980s to 1990s). P/NP or letter grading.

M174. Sociology of the Family. (4) (Same as Sociology M174.) Lecture, three hours; discussion, one hour. Theory and research dealing with modern fami- ly, its structure, and functions, including historical changes, variant family patterns, family as an institu- tion, and influence of contemporary society on the family. P/NP or letter grading.

M175. Women and Cities. (4) (Same as Urban Plan- ning M175.) Lecture, three hours. Limited to juniors/ seniors. Examination of relationship between women and cities: (1) how cities have affected women's oppor- tunities for economic and social equality, (2) women's contributions to development of U.S. cities, and (3) contemporary strategies and efforts to create urban environments to meet needs of women's needs and in- terests. P/NP or letter grading.

M180B. Historical Perspectives on Gender and Science. (4) (Same as History M180B.) Lecture, three hours; discussion, one hour (when scheduled). Designed for juniors/seniors. Historical cases illustrat- ing how gender enters practices and concepts of sci- ence. Topics include gendered conceptions of nature, persona of “man of science,” role of women in scientif- ic revolution, scientific investigations of women and femininity. P/NP or letter grading.

M186. Voices of Women in Nordic Literature. (4) (Same as Scandinavian CM144A.) Seminar, three hours. Study of literature of women's achievements and knowl- edge of Scandinavian languages not required for nonmajors. Readings and discussion of writings by Scandinavian women writers analyzed in historical, theoretical, sociological, critical, and comparative contexts. P/NP or letter grading.

M186A. Global Feminism, 1850 to the Present. (4) (Same as History M187A.) Lecture, three hours; dis- cussion, one hour (when scheduled). Designed for ju- niors/seniors. Introduction to movements for women's rights (educational, political, economic, sexual, and reproductive) around world and over one and one-half centuries. P/NP or letter grading.

187. Senior Research Seminar: Women's Studies. (4) (Formerly numbered 197.) Seminar, three hours. Requisites: courses 10, and 110A or 110B or M110C. Designed for advanced junior/senior Women's Stud- ies majors or minors. In-depth study of major theme in feminist research. Themes vary by instructor and term. Students pursue independent research related to course theme, with guidance from instructor, then share and critique other student works in progress. Letter grading.

195. Community or Corporate Internships in Women's Studies. (2 or 4) Tutorial, eight hours. Requisites: course 110A or 110B or M110C, or two upper division women's studies courses not in 189 to 199 series. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Content may include themes in feminist discourse, application of feminist theoretical perspectives to dis- ciplinary field, or emerging field. Assignment of reading and tangible evidence of mastery of subject matter required. May be repeated for credit. Individual contract required. Letter grading.

198A-B. Honors Research in Women’s Stud- ies. (4) Tutorial, four hours. Preparation: at least two upper di- vision women's studies courses. Requisite: course 110A or 110B or M110C. Limited to juniors/seniors. Individual intensive study, with scheduled meetings to be arranged between faculty member and student. Content may include themes in feminist discourse, approach to theoretical and critical media litera- cy that necessarily involves understanding of new technologies and media forms. Study of both theory and production techniques to inform analysis of media and critical media literacy projects. Concurrently scheduled with course CM278. Letter grading.

CM198B. Directed Research in Women's Studies. (2 or 4) Tutorial, to be arranged. Preparation: at least two upper division women's studies courses, minimum 3.0 grade-point average. Requisite: course 110A or 110B or M110C. Limited to junior/senior Women's Studies majors or minors. Superintended research under guidance of faculty mentor on specific topic within women's studies. Culminating paper or project required. May be repeated for credit. Indi- vidual contract required. Letter grading.

Graduate Courses

203. Research Methods in Studies of Women and Gender. (4) Lecture/discussion, three hours. Preparatory or concurrent enrollment in graduate research methods course in discipline or focus area, one or more undergraduate or graduate courses in women's studies. Requisites: courses 201, 202. Topics in advanced critique of sexism, research methods, models of inclusion of women in research and theory, nonsexist research methods from conception through interpretation, what constitutes "feminist" research, inclusiveness and attention to diversity issues, appropriate frameworks in comparative research, supplementary disciplinaryst off erings on research methods. Letter grading.

204. Current Research in Women's Studies. (1) Seminar to be arranged. Designed for graduate students in any discipline conducting research on women/gender-related issues. Attendance and participation in Feminist Research Seminar sponsored by Center for the Study of Women; presentations in interdisciplinary women's studies research and theory, with their significance and methodology discussed and critiqued in depth. May be repeated for credit. S/U grading.

205. Gender and Politics of Information. (4) Seminar, three hours. Designed for graduate students. Examination of gendered dimensions embedded in information technologies. Critical feminist assessment of information networks and community; impact of Internet and information technologies on women and men and gendered distinctions between who builds and who "owns" information technology resources; race, class, gender, cyberspace, and electronic communications. Letter grading.

210. Topics in Women and Public Policy. (4) Lecture, four hours. Designed for graduate women's studies students. Introduction to background, decision-making processes, and current debates on public policy directly affecting women in one or more major spheres of public life (e.g., work, family, political system, healthcare, legal regulation). Topics may focus on public policy issues in science, medicine, work-related policies, and social welfare. May be repeated for credit with topic or instructor change. Letter grading.

215. Topics in Study of Sexuality and Gender. (4) Seminar, three to four hours. Designed for graduate students. Multidisciplinary studies on aspects of sexual orientation, gender identity, queer and transgender theory, interdisciplinary research on minority sexualities, and social construction/deconstruction of gender. May be repeated for credit with topic or instructor change. Letter grading.

220. Cultural Studies in Gender, Race, and Sexuality. (4) Seminar, three hours. Designed for graduate students. In-depth study of representations of gender and sexuality in literature and performance culture, with special attention to race. Topics include flow of culture across national borders, theorizing feminism as diasporic or multicultural formation. Letter grading.

M238. Feminist Theory. (4) (Same as Sociology M238.) Seminar, three hours. Designed for graduate students. Analysis of current American feminist theory relevant to sociologists. Exploration of critiques of second-wave feminism by working class feminists and/or feminists of color, feminist scholars from other countries, and recent "antifeminist" feminists. Discussion of directions for future feminist sociology. Letter grading.

CM243. Women Healers, Ritual, and Transformation. (4) (Same as World Arts and Cultures CM240.) Lecture/discussion, four hours. Designed for graduate students. Examination of role of women healers, historically and within contemporary culture-specific contexts. Exploration of psychological functions served by rites of passage and healing rituals and of role of arts in healing processes, student's research projects, to be arranged with course CM143. S/U or letter grading.

M252. Selected Topics in Sociology of Gender. (4) (Same as Sociology M252.) Lecture, two hours; discussion, one hour. Designed for graduate students. Seminar on selected topics in sociology of gender. May be repeated for credit. Letter grading.

M253A. Seminar: Current Problems in Comparative Education. (4) (Same as Education M253A.) Seminar, four hours. Examination of some of most influential critical theorists, including Marx, Nietzsche, Freud, Marcuse, Foucault, Fanon, and de Beauvoir and their contributions to critique of contemporary education, society, and politics. S/U or letter grading.

M255. Cross-Cultural Perspectives on Gender. (4) (Same as Sociology M255.) Seminar, three hours. How does gender manifest itself in lives of different groups of women in U.S. and abroad? Are universal and essentialist categories of gender possible or is gender too different cross-culturally? S/U or letter grading.

M259A-M259B. History of Women. (4-5) (Same as History M259A-M259B.) Seminar, three hours. Course M259A is required to M259B. History of women's social and political issues seen in U.S. and comparative context. In Progress (M259A) and letter (M259B) grading.

M261. Gender and Music in Cross-Cultural Perspective. (4) (Same as Ethnomusicology M261.) Seminar, three hours. Designed to foster in-depth understanding of gender in study of music as culture. Topics might range from etymology of gender and sexuality, (de)codification of messages of resistance, and gender representation to gendered politics via musical production. S/U or letter grading.

M263P. Gender Systems. (4) (Same as Anthropology M263P.) Seminar, three hours. Current theoretical developments in understanding gender systems cross-culturally, with emphasis on relationship between systems of gender, economy, idealized systems, and social inequality. Selection of ethnographic cases from recent literature. S/U or letter grading.

M266. Feminist Theory and Social Sciences Research. (4) (Same as Education M266.) Lecture, four hours. Examination of how diverse feminist social theories of last quarter century have both challenged and strengthened conventional social sciences theories and their methodologies. Introduction especially to feminist standpoint theory, distinctive critical theoretical methodology now widely used in social sciences. Letter grading.

CM270. Alternate Traditions: In Search of Female Voices in Contemporary Literature. (5) (Same as Comparative Literature M270L.) Seminar, three hours. Preparation: reading knowledge of one appropriate foreign language. Investigation of narrative texts by contemporary French, German, English, American, Spanish American, African, and Asian women writers from cross-cultural perspective. Common themes, problems, and techniques. May be concurrently scheduled with course CM170. Graduate students required to prepare papers based on texts read in original languages whenever possible. S/U or letter grading.

CM278. Critical Media Literacy and Politics of Gender: Theory and Production. (4) (Same as Education CM278L.) Lecture, four hours. Requisites: course CM278L. Use of range of pedagogical approaches to theory and practice of critical media literacy that necessarily involves understanding of new technologies and social formations. Study of both theory and production techniques to inform student analysis of media and critical media literacy projects. Concurrently scheduled with course CM178L. Letter grading.

CM278L. Critical Media Literacy and Politics of Gender: Laboratory. (2) (Same as Education CM278L.) Lecture, two hours. Requisites: course CM278L. Hands-on production experience as integral component of course CM278L. Concurrently scheduled with course CM178L. Letter grading.

265. Special Topics in Women's Studies. (4) Lecture, four hours. Designed for graduate students. Selected topics or special problems. In-depth study of aspects of feminist theory or research methods and gender analysis within disciplinary studies in social sciences, humanities, health sciences, arts, or professional programs. May be repeated for credit with topic or instructor change. Letter grading.

296. Doctoral Roundtable. (2) Research group meeting, two hours. Preparation: satisfactory completion of Ph.D. program first year. Requisites: at least two courses from 201, 202, 203, 210. Limited to program Ph.D. students. Interactive seminar with focus on disciplinary and interdisciplinary issues, feminist scholarship, research presentation, and professional development. May be repeated for credit. S/U grading.

375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice personnel employment as teaching assistant, associate, or fellow. Requisite: one course besides course 495. Teaching apprenticeship under active guidance and supervision of regular faculty member responsible for curriculum and instruction at UCLA. May be repeated for credit. S/U grading.

495. Feminist Pedagogy. (2) Seminar, two hours. Preparation: appointment as teaching assistant in department. Introduction to feminist methods of teaching, with emphasis on reciprocity and dialogue and de-emphasis on hierarchy. Required of students while serving as teaching assistants (first time only) in undergraduate women's studies courses. May be repeated for credit. S/U grading.

596. Directed Individual Study or Research. (2 to 12) Tutorial, to be arranged. Requisites: courses 201, 202, 203. Directed individual research and study in area related to women's studies/gender studies, arranged individually by student with instructor. May be repeated for credit. S/U or letter grading.

597. Preparation for M.A. Comprehensive Examination or Ph.D. Qualifying Examinations. (2 to 12) Tutorial, eight hours. Limited to graduate women's studies students. Reading and preparation for written M.A. comprehensive examination or Ph.D. qualifying field examinations. May be repeated for a maximum of 12 units. S/U grading.

and artistic communities of Los Angeles.

The undergraduate program offers concentrations in dance and in world arts and cultures. The graduate program offers Master of Arts and Ph.D. degrees in Culture and Performance and a Master of Fine Arts in Dance. One set of degrees encompasses research on communities, cultures, and transnational movements, including arts traditions and innovations, arts activism, and interdisciplinary art-making. Another set of degrees provides dance education with a difference, offering opportunities to engage multiple dance practices, intercultural dance studies, civic engagement, and choreographic research. While operating with considerable independence, these degree streams are unified by a common concern for cultural identity and differences, the meanings of tradition in contemporary societies, the forging of connections between critical theory and artistic practices, and the changing social roles and responsibilities of artists and scholars of the arts in the U.S. and worldwide.

Students in the World Arts and Cultures Department at UCLA study with faculty members of international standing engaged in both creative artistic work and research. Potential careers for graduates include work with community nonprofits and activist groups, government arts agencies, museums, and teaching/educational institutions. Many students pursue dance as choreographers or dancers, while others work in performance art, videography, and theatrical production. Urban planning, law, environmental activism, public health, and medicine are among the many fields in which graduates have excelled.

**Undergraduate Study**

**World Arts and Cultures B.A.**

The World Arts and Cultures major leads to the Bachelor of Arts degree and is designed to offer choice and flexibility while maintaining balance and rigor. At the outset, students select one of two concentrations: dance or world arts and cultures. All students take a set of core courses designed to explore a wide range of artistic practices in cultural context. In addition, it is recommended that students selecting the dance concentration study movement techniques of their choice for five to six days a week for the first two years of the program, while those concentrating in world arts and cultures must select 8 units of arts practice electives in movement, music, theater, film, design, or visual art — either within or outside the department.

In the junior year, students enroll in World Arts and Cultures 185 where they propose the final path of study for the senior year. World arts and cultures concentration students propose a senior honors project, while dance concentration students have the option of (1) 12 units in senior focus from clusters or (2) a senior honors project. Students are guided in their proposals by the instructor and in consultation with their faculty mentors.

The dance concentration is grounded in contemporary choreography and offers courses in a wide range of idioms from throughout the world, including special emphasis on modern/postmodern dance. Opportunities for performance, production, videography, and movement studies are augmented by courses in the study of the body and of bodily identity from historical and cultural perspectives, dance theory, and dance in the public sphere, including arts pedagogy and civic engagement. Multimedia forms of expression integrating music, theater, visual arts, film, and other technologies along with hybrid forms of cultural expression utilizing both emerging and classically based vocabularies are encouraged.

The world arts and cultures concentration provides students with an introduction to key issues, problems, and debates in the study of art activism and creativity in cultural context. Beyond the required set of core courses, students select from a range of courses offered in the World Arts and Cultures Department and in other departments. Students may also consider courses from ethnic and area studies programs and may organize their course of study in relation to particular interests or professional goals (e.g., international comparative studies, intercultural studies, area specializations such as Africa, Asia, or Latin America, minority discourse, gender or women’s studies).

Students who wish to confer with the departmental student affairs officer regarding program planning and major requirements should contact Wendy Temple at (310) 825-8537.

**Admission**

New students are admitted to the major for Fall Quarter only. All applicants are reviewed individually, based on submission of a written research paper, transcripts, two letters of recommendation, and two personal essays. These supplementary materials are requested from students in mid-December, after the general UC application is received and processed, and are due back in the department in January. For freshman applicants, college placement test scores are also considered. Students interested in the dance concentration must participate in an early February audition. Specifics about the audition are included in the e-mail requesting the above-mentioned supplementary materials.

Current UCLA students who petition to change their major are required to meet with the student affairs officer prior to application. They are advised to take world arts and cultures courses before and during the term in which they apply to the program. They must have a minimum 2.0 overall grade-point average and no more than 120 quarter units. Students interested in the world arts and cultures concentration may apply at the beginning of Fall, Winter, and Spring Quarters. Those interested in the dance concentration may apply at the beginning of Fall and Spring Quarters and are expected to participate in an audition.

**Dance Concentration**

The concentration consists of 111 units of coursework.
Preparation for the Major
Required: World Arts and Cultures 1, 2A, 2B or 47, 16, 45, 67A, 67B, 70, 85, and 12 units in movement practice electives selected from courses 5 through 15 or 55 through 65.

The Major
Required: (1) World Arts and Cultures 185; (2) 16 units in performance/production practices, including 12 units from courses C106A through C115 (two different styles required) and 4 units from 169, 171, 172, 174A, 174B, or other department courses with faculty approval; and (3) 38 units combined from the following three clusters: (a) topics in dance studies — course 101 and 8 units from C145 through C168 or 199 or from outside the department with faculty approval; (b) creative inquiry/research — courses 117A, 117B, and 4 units from 116, 117C, 174A, 174B, or C180, or from outside the department with faculty approval, and (c) civic engagement — course 100A or 100B or 103 and 8 units from 100A, 100B, 103, 144, 166, 167, 177SL, or from outside the department with faculty approval. Students then select 12 additional focus units from one of the three clusters. They also have the option to complete a capstone senior project (courses 186A and 186B).

World Arts and Cultures Concentration
The concentration consists of 107 units of coursework.

Preparation for the Major
Required: World Arts and Cultures 1, 2A, 2B, 20, 21, 22 or 24, 70, 85, and 8 units in world arts practices electives selected from courses 5 through 16 or 55 through 67B (4 units must be taken within the department; 4 units may be from outside the department).

The Major
Required: (1) World Arts and Cultures 100A or 100B, 101, 103, 185, 186A, 186B; (2) 8 units in locating cultures in which students select a geographical/cultural focus from either inside or outside the department with faculty approval; (3) 4 units in arts/activism/community engagement selected from course M125A, 144, 166, 167, C168, 174A, 174B, C175, or 177SL; and (4) 28 units from one of three commitment areas — studies in culture and performance, interdisciplinary/intercultural creative work, or integrated studies — selected from approved course lists (see department counselor), in which 16 units must be taken within the department and 12 units may be inside or outside the department.

Senior Honors Project
World Arts and Cultures 186A and 186B lead to a senior honors project that has three possible areas of focus — performance, applied research, or studies in culture and performance: (1) the performance project is a creative project leading to the production and public performance of original or traditional work; (2) the applied research focus implies an application of knowledge in a hands-on situation and includes projects in and with the community or campus; and (3) the culture and performance focus involves students in independent ethnographic research in some aspect of the arts.

Graduate Study
Official, specific degree requirements are detailed in Program Requirements for UCLA Graduate Degrees, available at the Graduate Division website, http://www.gdnet.ucla.edu/gasa/library/pgmrqintro.htm. In many cases, more detailed guidelines may be outlined in announcements, other publications, and websites of the schools, departments, and programs.

Graduate Degrees
The Department of World Arts and Cultures offers Masters of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in Culture and Performance and a Master of Fine Arts (M.F.A.) degree in Dance.

World Arts and Cultures
Lower Division Courses
1. Introduction to World Arts and Cultures. (5) Lecture, three hours; discussion, one hour. Survey of concepts and theories involved in intercultural, interdisciplinary study of art, aesthetics, and performance. Examination of interactions among various modes of creative expression, role of style in daily life, performative representation of cultural identity and difference, and interaction of diverse artistic traditions. Letter grading.

2A. Lower Division Seminar: Practice-Based Research. (5) Formerly numbered 2.) Seminar, two hours; studio, two hours; outside study, 11 hours. Variable topics seminar with focus on practice-based research in arts. Skills may include development of dance/theatrical performance, video/filmmic creation, interdisciplinary art-making, text-based creation of work, and more. Incubative, investigative experience to understand practice-based research process from conception to presentation. Research inquiry methods may include readings and assignments written analysis, supervised fieldwork, and composition of work. Practice-oriented process. Substantive practice-based culminating project required. May be repeated for credit without limitation. Letter grading.

2B. Lower Division Seminar: Writing-Based Research. (5) Seminar, four hours; outside study, 11 hours. Variable topics seminar with focus on scholarly research in arts. Study of culture and performance, including individual and cultural identity through arts, arts criticism, theoretical and analytical approaches to arts practice, and arts activism. Substantive culminating research paper required. May be repeated for credit. Letter grading.

5. Beginning Global and Transcultural Forms. (2) Studio, three hours. Beginning-level study of world arts practices crossing national and cultural boundaries. Variable topics, such as body music, crosscultural textile creation, or mural painting, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

6. Beginning World Arts Practices in Sub-Saharan Africa and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from Sub-Saharan Africa and extending to cultures of African diaspora, including Brazil and the Afro-Caribbean. Variable topics, such as dance of Guinea, Mali, and Senegal or Afro-Caribbean masking traditions, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

7. Beginning World Arts Practices in Middle East/ North Africa and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from the Middle East and North Africa. Variable topics, such as belly dancing or Israeli folk dance, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

8. Beginning World Arts Practices in Latin America and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from Latin America, including cultures of South and Central America. Variable topics, such as Argentine tango and Mexican folkloric dances, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

9. Beginning World Arts Practices in North America and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from North America, including the U.S., Canada, and Native America. Variable topics, such as Native American dance, jazz, and jazz-tap, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

10. Beginning World Arts Practices in East Asia and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from East Asia, including China, Korea, and Japan. Variable topics, such as movement and music techniques of Beijing opera, Korean traditional performance practices, and Kabuki theater, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

11. Beginning World Arts Practices in South Asia and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from South Asia and extending to cultures of South Asian diasporas, including communities in England and West Africa. Variable topics, such as Bharata Natyam (classical dance of India), bhangra (diasporic social dance), and hatha yoga, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

12. Beginning World Arts Practices in Southeast Asia and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from Southeast Asia. Variable topics, such as Cambodian court dance, Indonesian kechak, or Balinese legong, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

13. Beginning World Arts Practices in Europe and Diaspora. (2) Studio, three hours. Beginning-level study of world arts practices originating from Europe and extending to cultures of European diaspora, including the U.S. Variable topics, such as flamenco, Balkan folk dancing, and classical ballet, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

15. Beginning Modern/Postmodern Dance. (2) Studio, four hours. Study of dance technique. Critical viewing, reading, and discussion of modern/postmodern dance artists’ works. May be repeated twice for credit. P/NP or letter grading.

16. Beginning Improvisation in Dance. (2) Lecture, one hour; laboratory, three hours. Introduction to creative exploration in movement through improvisational and compositional exercises that access and develop imagination, find relationship between imagination and dance making, and enrich movement vocabulary. May be repeated once for credit. P/NP or letter grading.

20. Culture: Introduction. (5) Lecture, four hours. Introduction to key concepts and major theoretical and methodological debates that characterize field of cultural studies, including discussion of notions of culture, popular culture, subculture, youth culture, hegemony, gender, race, class, and national identity. Letter grading.
21. Introduction to Field-Based Research. (5) Lecture, three hours. Introduction to methods, techniques, and issues in conducting field-based research, including nature, use, and limitations of major data-gathering procedures, ethical concerns, sampling, checks and controls, teamwork, interventions, and results as not only tangible and imperceptual outcomes of inquiry but also personal and tangible. Through readings, discussion, and hands-on exercises, students learn how to plan fieldwork projects and write proper reports and deal with ethical issues, observe behavior, construct questionnaires, interview, use audiovisual documentation, and manage and present data. P/NP or letter grading.

22. Introduction to American Folklore Studies. (5) Lecture, four hours; outside study, one hour. Introduction to independent art forms, made outside of study, ten hours. Cultural/historical survey of role of folklore in development of American civilization and of influence of American experience in shaping folklore in American society; attention also to representative areas of inquiry and analytical procedures. P/NP or letter grading.

M23. Introduction to American Indian Studies. (5) (Same as American Indian Studies M10.) Lecture, three hours; discussion, one hour; activity, one hour; outside study, three hours. Survey of Native American cultures from pre-Western contact to contemporary period, with particular emphasis on early cultural diversity and divergent patterns of political, linguistic, social, legal, and cultural change in postcontact period. P/NP or letter grading.

24. World Arts, Local Lives. (5) Lecture, three hours; discussion, one hour. Use of Fowler Museum’s long-term exhibition “Intersections: World Arts/Local Lives” as object of study to examine many insights that art can offer into social, political, and religious experience. Drawing heavily on cultures of Africa, Asia, Pacific, and indigenous Americas, both ancient and contemporary, consideration of degree to which notions of aesthetics and efficacy are intertwined and define people’s lives in active, instrumental ways. Use of specific case studies to illustrate and interrogate theoretical paradigms. P/NP or letter grading.

45. Introduction to Dance Studies. (4) Lecture, four hours; discussion, two hours. Introduction to discipline of dance studies, with focus on study of corporeality as key contemporary perspective on the body. Multidisciplinary approach to looking at dance bodies conceptualized as social constructs, including gender, race, class, and national identity. P/NP or letter grading.

46. Survey of Dancing in Selected Cultures. (2) Studio, three hours. Introduction to dances and their movement characteristics in global context. P/NP or letter grading.

47. World Dance Histories. (5) Lecture, three hours; discussion, two hours. Comparative framework for looking at dance practices through time as they have developed around world, questioning relation of dance to culture and politics and providing students with tools for investigating histories of any given dance form. P/NP or letter grading.

55. Intermediate World Arts Practices in Global and Transcultural Forms. (2) Studio, three hours; outside study, three hours. Intermediate-level study of world arts practices originating from Middle East and North Africa. Variable topics, such as belly dancing or Israeli folk dance, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

57. Intermediate World Arts Practices in Middle East/North Africa and Diaspora. (2) Studio, three hours. Intermediate-level study of world arts practices originating from Middle East and North Africa. Variable topics, such as belly dancing or Israeli folk dance, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

58. Intermediate World Arts Practices in Latin America and Diaspora. (2) Studio, three hours; outside study, three hours. Intermediate-level study of world arts practices originating from Latin America, including cultures of South America. Variable topics, such as Argentine tango and Mexican folkloric dances, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

61. Intermediate World Arts Practices in South Asia and Diaspora. (2) Studio, three hours. Intermediate-level study of world arts practices originating from South Asia or from cultures of South Asian diasporas, including communities in England and West Africa. Variable topics, such as Bharata Natyam (classical dance of India), bhangra (diasporic social dance), and hatha yoga, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

62. Intermediate World Arts Practices in South-east Asia and Diaspora. (2) Studio, three hours. Intermediate-level study of world arts practices originating from South Asia or from cultures of South Asian diasporas, including communities in England and West Africa. Variable topics, such as Cambodian court dance, Indonesian kechak, or Balinese legong, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

63. Intermediate World Arts Practices in Europe and Diaspora. (2) Studio, three hours. Intermediate-level study of world arts practices originating from Europe and extending to cultures of European diasporas, including the U.S. Variable topics, such as flamenco, Balkan folk dances, and classical ballet, in cultural and historical context. May be repeated for credit without limitation. P/NP or letter grading.

65. Intermediate Modern/Postmodern Dance. (2) Studio, four hours. Technical training with emphasis on increasing skill. May be repeated twice for credit. P/NP or letter grading.

67A. Theories and Methods in Dance Composition I: Languages. (4) (Formerly numbered 57.) Seminar, two hours; studio, two hours; outside study, eight hours. Enforced requisite: course 16. Examination of diverse movement sources from which dances are made. How do different choreographers envision vocabularies of movement they use? How do they select or create movement out of which they create dance? Answers to these questions in relation to broader social and cultural contexts. Examination of how one sees that dance-making occurs distinctively in different cultural contexts and different historical moments. Readings about and viewing of videos of selected artists’ work and their different strategies for creating languages of their dances for comparison. Use of these analyses to assist in creative process for making new dances. P/NP or letter grading.

67B. Theories and Methods in Dance Composition II: Processes. (4) (Formerly numbered 69.) Seminar, two hours; studio, two hours; outside study, eight hours. Enforced requisite: course 67A. Examination of diverse processes through which creation of dance can take place. How do different choreographers conceptualize creative process of dance-making? What kinds of strategies do they use for sequencing their materials? Answers to these questions in relation to broad range of artistic approaches, acknowledging that dance-making occurs distinctively in different cultural contexts and different historical moments. Readings about and viewing of videos of selected artists’ work and their different strategies for their processes of creating dances for comparison. Use of these analyses to assist in creative process for making new dances. P/NP or letter grading.

70. Production Practicum. (2) Lecture, 90 minutes; activity, three and one half hours. Introduction to practical perspectives on producing events in world arts and cultures, including but not limited to theatrical support and planning and executing lecture series. Introduction to professional stage production principles and hands-on experience in technical theater. May be repeated once for credit. P/NP or letter grading.

78. Private Instruction in World Arts and Cultures. (2 to 4) Studio, three to six hours. Designed for freshmen/sophomores to provide private or semiprivate instruction in one world arts practice with distinguished community-based artist to be arranged by students and approved by instructor. May be repeated for maximum of 24 units. P/NP grading.

85. Sophomore-Year Proposal. (1) Lecture, 90 minutes. Planning and execution of proposal for junior year of study, with attention to exploring resources of department and University as a whole. P/NP grading.

Upper Division Courses

100A. Art as Social Action. (5) Lecture, four hours; discussion, one hour. Discussion of what constitutes artist’s social responsibility and in what ways art is qualified to engage in direct political action. Study of tension between powers of the powerful and powers of art. P/NP or letter grading.

100B. Art as Moral Action. (5) Lecture, four hours; discussion, one hour. Designed for juniors/seniors. One’s ability to distinguish between right and wrong action is culturally intuited, nurtured, and developed. Study of cultural strategies of moral engagement, persuasion, and inquiry in personal and public life, including acts of conscience and civil disobedience. P/NP or letter grading.

101. Theories of Performance. (5) Lecture, four hours; studio, two hours. Enforced requisite: course 85. Performance commonly refers to activities on proscenium stage. Explosion of that narrow notion of performance by delving into scholarship from young field of performance studies, which draws on disciplines of anthropology, cultural studies, gender studies, linguistics, postcolonial theory, and sociology. Exploration in studio of concept of performing theory by creating interdisciplinary performance works that engage with and amplify theories studied. P/NP or letter grading.

102. Seminar: Intercultural and Interdisciplinary Performance. (4) Seminar, four hours. Enforced requisite: course 101. Recent discussions of multiculturalism have demanded broader base of cultural literacy for society in general and from artists in particular. Moving beyond stereotyping and formalism, focus on areas of overlap and exchange. Question of the extent to which collaborative, collective creation, hybridization, and evolving possibilities of video and extended media. P/NP or letter grading.
103. Arts in Community. (5) Lecture, four hours. Requisite: course 85. Introduction to theoretical and practical understanding of field of community arts by and for multiple publics. Review of relevant issues in field and exploration of roles of artists and arts organizations in struggles for social change, representation, and community building. Through national and international examples, exploration of art works that emphasize participation of citizens in community-based and culturally relevant performance, art, and exhibition. Examination of processes of creative thinking, community involvement, collaborative enterprise, research, and education in community arts. Letter grading.

C106A. Advanced World Arts Practices in Sub-Saharan Africa and Diaspora. (2) Studio, three hours; outside study, three hours. Advanced-level study of world arts practices originating from sub-Saharan Africa and African diaspora. Variable topics and genres, such as West Africa (Burkina Faso, Mali, Guinea, Senegal) and diaspora (Haiti, Brazil, Caribbean, Cuba), including cultural and historical context. May be repeated for credit without limitation. Concurrently scheduled with course C406A. P/NP or letter grading.

C109A. Advanced World Arts Practices in North America and Diaspora. (2) Studio, six hours. Requisite: course 65. Studies in outside study, three hours. Advanced-level study of world arts practices originating from North America, including the U.S., Canada, and Native America. Variable topics, such as Native American dance, jazz, and jazz-tap, in cultural and historical context. May be repeated for credit without limitation. Concurrently scheduled with course C409A. P/NP or letter grading.

110B. Dance in East Asia. (4) Lecture, four hours. Survey of dance forms in Japan, China, and Korea and factors that have influenced their development and social function. Consideration of relationship of dance to other art forms. Lectures illustrated with demonstrations, films, and slides. P/NP or letter grading.

113A. Supervised Work in Arts Practices in Europe and Diaspora. (2) Studio, three hours; outside study, three hours. Advanced-level study of world arts practices originating from Europe and extending to cultures in evolving popular culture, P/NP or letter grading.

114. Performance Practicum. (1 to 4) Studio, three to 12 hours. Rehearsal and performance in selected community-based or theatrical work. May be repeated for credit without limitation. P/NP grading.

C115. Advanced Modern/Postmodern Dance. (2) Studio, six hours. Requisite: course 65. Studies in advanced modern/postmodern dance technique, with emphasis on performing skills. May be repeated for credit without limitation. Concurrently scheduled with course C415. P/NP or letter grading.

116. Advanced Improvisation in Dance. (2) Studio, four hours. Development of aesthetic perspective through use of imagery, sound, and other art. Concentration and projection. May be repeated twice. P/NP or letter grading.

117A. Theories and Methods in Dance Composition III: Locations. (4) Seminar, two hours; studio, two to four hours; outside study, eight hours. Enforced requisites: courses 16, 67A, 67B. Examination of how location of dancing impacts its meaning. How does occasion of dance, concert, festival, ritual, or celebration influence experience of it? What are factors that need to be considered when locating dance in one particular place? Answers to these questions in relation to broad range of artistic approaches, acknowledging that dance-making occurs distinctively in different cultural contexts and different historical moments. Examination of range of locations for dances, including proscenium stages, theaters in round, parks, sidewalks, temples, amphitheaters, village squares, and other site-specific locations that endow dance with specific significance and how various artists have worked with place in construction of new dances. Use of these analyses to assist in creative process for making new dances. P/NP or letter grading.

117B. Theories and Methods in Dance Composition IV: Impacts. (4) Seminar, two hours; studio, two hours; outside study, eight hours. Enforced requisites: course 117A. Examination of relation of dance to its audience. Synthesis of analyses undertaken in previous courses to determine how dances move their viewers. How do dances appeal to or address their audience? How do aesthetic, social, and cultural context and location combine to create particular effects? Answers to these questions in relation to broad range of artistic approaches, acknowledging that dance-making occurs distinctively in different cultural contexts and different historical moments. Different approaches to dance result in highly distinctive kinds of responses from audiences. Focus on creation of three or more in-depth studies, each of which endeavors to construct distinctive kind of response from viewers. P/NP or letter grading.

117C. Advanced Topics in Choreography. (4) Formerly numbered 117T.) Lecture, four hours; studio, two hours; outside study, eight hours. Directed exploration in composition, with focus on developing theme-based choreographic works that are informed by theoretical engagement with selected topics through lectures, readings, and discussion. Thematic topics include contemporary issues and concerns such as image, essence, and abstraction; home, history, and memory; interculturalism; constructing identity. May be repeated for credit without limitation. P/NP or letter grading.

118. Advanced Interdisciplinary Composition. (4) Lecture, four hours; studio, two hours. Requisites: courses 107 and 113A. Examination of composition, with focus on developing works that engage two or more disciplines, such as dance, music, visual art, performance art. Theoretical engagement with selected topics through lectures, readings, and discussion. May be repeated for credit without limitation. P/NP or letter grading.

119. Advanced Intercultural Composition. (4) Lecture, four hours; studio, two hours. Requisites: courses 14 and 113A. Examination of composition, with focus on works that engage techniques and practices of two or more cultures. Engagement with postcolonial theory through lectures, readings, and discussions. May be repeated for credit without limitation. P/NP or letter grading.

120. Selected Topics in Cultural Studies. (4) Lecture, three hours. Designed for juniors/seniors. Selected topics in interdisciplinary study of arts and performance in cultural and historical context. Consult Schedule of Classes for topics to be offered in specific term. May be repeated for credit without limitation. P/NP or letter grading.

121. Ethnography of Performance. (4) Lecture, two hours; discussion, two hours; outside study, eight hours. Development of observation and recording skills for study of performance events, including both analytic and participatory ethnographies and training in and application of field research methodologies. P/NP or letter grading.

122. Introduction to Folklore. (4) Lecture, four hours. Survey of various forms of folklore and approaches to their identification, description, and analysis, including their historical and social significance. Introduction to expressive behavior of folk groups from throughout world and comparison through readings, lectures, fieldwork, with attention to artistic, social, and historical context in relation to evolving popular culture. P/NP or letter grading.

C123. Arts of Identity: Survey of Expressive Cultures. (4) Lecture, four hours; outside study, eight hours. Survey of selected topics through lectures, readings, and discussions. May be repeated for credit without limitation. Concurrently scheduled with course C223. P/NP or letter grading.

M125A. Beyond Mexican Mural: Beginning Muralism and Community Development. (4) (Same as Art M126A and Chicana and Chicano Studies M116A.) Studio/lecture, four hours. Corequisite: course M125AL. Investigation of muralism as method of community education, development, and empowerment. Exploration of issues through development of large-scale collaborative digitally created image and/or painting for placement in community. Students research, design, and work with community participants. P/NP or letter grading.

M125B. Beyond Mexican Mural: Advanced Muralism and Community Laboratory. (4-2-2) (Same as Art M126B-M126BL-M126CL and Chicana and Chicano Studies M116B-M116BL-M116CL.) Course M125AL is requisite to M125BL, which is requisite to M125CL. Mural and Digital Laboratory is art studio housed at Social and Public Art Resource Center in Venice, CA, where students work in community-based collaborative teams through states of production to full scale and community approval. P/NP or letter grading. M125AL. Beginning. Laboratory, four hours. Corequisite: course M125A; M125BL. Intermediate. Laboratory, four hours. Requisites: courses M125A, M125AL. Corequisite: course M125B, M125CL. Advanced. Laboratory, two hours. Corequisite: course M125C.

M125B. Beyond Mexican Mural: Intermediate Murals and Community Development. (4) (Same as Art M126B and Chicana and Chicano Studies M116B.) Studio/lecture, four hours. Requisites: courses M125A, M125AL. Corequisite: course M125BL. Continuation of investigation of muralism as method of community education, development, and empowerment. Exploration of issues through development of large-scale collaborative digitally created image and/or painting for placement in community. Students research, design, and work with community participants. P/NP or letter grading.

M125C. Beyond Mexican Mural: Advanced Muralism and Community Development. (4) (Same as Art M126C and Chicana and Chicano Studies M116C.) Studio/lecture, six hours. Requisites: courses M125B, M125BL. Corequisite: course M125CL. Continuation of investigation of muralism as method of community education, development, and empowerment. Exploration of issues through development of large-scale collaborative digitally created image and/or painting for placement in community. Students research, design, and work with community participants. Continuation of project through states of production to full scale and community approval. P/NP or letter grading.
131. Folk Art and Aesthetics. (4) Lecture, four hours. Designed for juniors/seniors. Introduction to folkways, with particular attention to customs and symbolism in America. Topics include sensory realm, child rearing practices, foodsharing, folk and identity, food and its emotional significance, aversions and taboos, and dietary habits of African, American, and American diet. Concurrently scheduled with course C229. P/NP or letter grading.

C132. Narrative and Oral Performance. (4) Lecture, four hours. Survey of concepts of story as text versus narrating as oral performance, studies of individual narrators, how stories are composed in performance, interaction of narrator and audience, how place and experience become embodied in narratives, modes of representing oral narrating, and politics of stories and oral performance. P/NP or letter grading.

133. Textiles of the World. (4) Lecture, four hours; discussion, one hour; laboratory, one hour. How cloth and clothing was and continues to be hand-woven in indigenous societies. Use of textiles from Fowler Museum collections with staff members and museum directors to produce paper on contemporary issues in museums. For example, one student researched artists who produce “shape-shifting” ceremonial devices including parable and irony, and arguably magical experience of humans “shapeshifting” to become animals. Concurrently scheduled with course C242. P/NP or letter grading.

C134. Introduction to Museology: Museum Exhibitions and Administration. (5) Lecture, six hours. Introduction to history and functions of museums, tracing development to present. Collection, organization, management, and conservation of objects and legal and ethical issues surrounding these practices. P/NP or letter grading.

143C. Introduction to Museology: Selected Topics. (4) Discussion, six hours; individual study, six hours. Requisites: courses 133B. Students pursue projects in area of museum operations, working with staff members and museum directors to produce papers on contemporary issues in museums. For example, one student researched hands-on experiences with cultural history. May be repeated twice for credit. P/NP or letter grading.

144. Make Art/Stop AIDS. (5) Lecture; four hours; studio, two hours. Can art save lives? That is central question posed here in relation to global AIDS epidemic. Working in close connection with public health and epidemiology, exploration of arts as powerfully effective tool in AIDS prevention and treatment efforts. Review of literature of AIDS cultural analysis that emerged in late 1980s in the U.S. and application of that literature to international hot spots such as India, China, South Africa, and Brazil. Collaborative theory-into-action projects. P/NP or letter grading.

C145. Selected Topics in Dance Studies. (2 to 4) Lecture, four hours; outside study, eight hours. Design for juniors/seniors. Selected topics in study of dance and corporeality. Consult Schedule of Classes for topics to be offered in specific term. May be repeated for credit without limitation. Concurrently scheduled with course C245. P/NP or letter grading.

C146. Politics of Performance. (4) Seminar, four hours; outside study, eight hours. Designed for juniors/seniors. Opportunities for intellectuals as cultural workers operating in domains of ideology, aesthetics, and theory. Analysis of such key words as ideology, aesthetics, theory, art, politics, intervention, intellectuals, and artists. Concurrently scheduled with course C246. P/NP or letter grading.

C147. Arts and Healing. (4) Lecture, four hours. Interdisciplinary, contemporary arts-based model of healing applicable to persons leading Western modernist lifestyles and coping with two kinds of crises during their lifetimes: (1) developmental transitions that are disruptive life-cycle changes that have potential to promote self-regeneration or self-fragmentation and (2) external transitions that are situational catastrophic events that evoke great terror and trigger fears of annihilation and chaos, but if successfully negotiated, have potential to promote revitalized sense of self, greater compassion for others, and restored sense of trust and hope in humanity. Concurrently scheduled with course C247. P/NP or letter grading.

148. Dance as Healing and Therapy. (4) Lecture, two hours; laboratory, two hours; outside study/seminar, eight hours. Designed for juniors/seniors. Introduction to historical, theoretical, methodological, and ethical considerations involved in practice of dance as healing and therapy. Concurrently scheduled with course C248. Letter grading.

149. Dance in the Multicultural U.S. (4) Lecture, two hours; discussion, one hour; laboratory, one hour. Designed for juniors/seniors. Study of dance performance in the U.S., with emphasis on genres that can be viewed in multicultural Los Angeles, from concert modern/postmodern dance, Mexican folklórico, and Japanese butoh to popular idioms and video dance. Attention to genres from Native American, African, Oceania, Asia, Africa, and Europe. Student projects involve creation of in-class performances. P/NP or letter grading.

150. History of Dance in Culture and Performance. (4) Lecture, two hours; discussion, one hour; laboratory, one hour. Study of dance in historical and cultural context, its function in society and its relationship to contemporary artistic expression. Focus on topics from traditional and recent research in world dance. P/NP or letter grading.

C152. History and Theory of Modern/Postmodern Dance. (4) Lecture, four hours; studio, two hours; outside study, six hours. Introduction to key figures in creation of modern dance, with special attention to their theories and philosophies and tracing of radical shift to postmodern dance that occurred in the mid-20th century. Contemporary developments, both historical and theoretical. Student projects involve choreography and writing. Concurrently scheduled with course C252. P/NP or letter grading.

C154. Dance and Folklórico. (4) Lecture, four hours. Consideration of vernacular tradition as site for cultural configuration, social construction, representation, and display of national, ethnic, and other affinity identities. Emphasis on various European and European-American dance idioms. Concurrently scheduled with course C254. P/NP or letter grading.

C155. Self and Culture. (4) Lecture, two hours; laboratory, two hours; outside study, eight hours. Designed for juniors/seniors. Examination of critical developments and situational factors contributing to construction of sense of self and emergence of creativity and subjective relatedness in different cultural contexts. Concurrently scheduled with course C255. P/NP or letter grading.
C156. Frida Kahlo: Creation of Cultural Icon. (5) (Formerly numbered 262.) Lecture, four hours. Examination of life of renowned Mexican artist Frida Kahlo in light of (1) Mexico’s political, religious, and social history that gave rise to mestizaje and machismo, two social conditions that strongly influenced construction of her mestiza and gender identity, as well as her revolutionary political ideals, (2) obstacles that 20th-century female artists living in patriarchal societies had to confront, (3) way her significant attachments influenced her art, (4) self-portraits as a reflective sense of self and kinds of artwork she produced, (4) transcendental and self-regulatory functions her self-portraits served in maintaining her emotional equilibrium, (5) conversion of Kahlo’s image after her death into cultural icon by maintaining her emotional equilibrium, (2) obstacles that 20th-century female artists living in patriarchal societies had to confront, (3) way her significant attachments influenced her art, (4) self-portraits as a reflective sense of self and kinds of artwork she produced, (4) transcendental and self-regulatory functions her self-portraits served in maintaining her emotional equilibrium, (5) conversion of Kahlo’s image after her death into cultural icon by maintaining her emotional equilibrium, (2) obstacles that 20th-century female artists living in patriarchal societies had to confront, (3) way her significant attachments influenced her art, (4) self-portraits as a reflective sense of self and kinds of artwork she produced, (4) transcendental and self-regulatory functions her self-portraits served in maintaining her emotional equilibrium, (5) conversion of Kahlo’s image after her death into cultural icon by maintaining her emotional equilibrium, (2) obstacles that 20th-century female artists living in patriarchal societies had to confront, (3) way her significant attachments influenced her art, (4) self-portraits as a reflective sense of self and kinds of artwork she produced, (4) transcendental and self-regulatory functions her self-portraits served in maintaining her emotional equilibrium, (5) conversion of Kahlo’s image after her death into cultural icon by maintaining her emotional equilibrium, (2) obstacles that 20th-century female artists living in patriarchal societies had to confront, (3) way her significant attachments influenced her art, (4) self-portraits as a reflective sense of self and kinds of artwork she produced, (4) transcendental and self-regulatory functions her self-portraits served in maintaining her emotional equilibrium, (5) conversion of Kahlo’s image after her death into cultural icon by maintaining her emotional equilibrium, (2) obst...
202. Ethnography of Performance. (4) Seminar, three hours; outside study, nine hours. Survey of methods and methodological issues in ethnographic study of performance contexts. Field documentation, participant observation, oral history and interview techniques, performative dimensions of ethnographic research, ethics and politics of ethnographic representation. S/U or letter grading.

203. Proseminar: Dance Studies. (4) Seminar, three hours; outside study, nine hours. Survey of theoretical issues and problems in study of dance and body movement in cultural, social, and historical context. S/U or letter grading.

204. The Body. (4) Seminar, three hours; outside study, nine hours. Cross-cultural and interdisciplinary perspectives on the human body. Topics include representations of the body, body symbolism, embodiment of identity (including gender, race, ethnicity, and class identities), and analysis of dance and otheromatic modes of performance. S/U or letter grading.

205. Folklore Theories and Methods. (4) Lecture, three hours; outside study, nine hours. Introductory course in history, analytical perspectives, and current trends, including research techniques in contemporary folkloristics. S/U or letter grading.

206. Folklore. (4) Lecture, four hours; laboratory, three hours; outside study, nine hours. Variable topics. Detailed consideration of particular folk genre, culture area, historical period, and/or theoretical issue in field of folklore. May be repeated for credit. S/U or letter grading.

211A-211F. Advanced Choreography, (4 each) Lecture, two hours; laboratory, two hours. Theoretical aspects of advanced choreography for students who have reached the level of self-initiation of substantial creative work. Refinement and realistic self-evaluation; critical counsel by acknowledged choreographers. S/U or letter grading.

216. Analyzing Narrative and Oral Performance. (5) Lecture, four hours. Designed for graduate students. Exploration of documenting individual narrators and interpreting their stories and repertoires; how narrators conceptualize and perform narrative discourse, impact of audience and "situated event" on both narration and "the story," how experiences and values are communicated through narrating, modes of representing oral narrating, and politics of narrative and oral performance. S/U or letter grading.

220. Seminar: Culture and Performance. (4) Seminar, three hours; outside study, nine hours. Designed for graduate students. Variable topics in interdisciplinary study of expressive culture, arts, and performance in social and cultural contexts. May be repeated for credit without limitation. S/U or letter grading.

223. Arts of Identity: Survey of Expressive Cultures. (4) Lecture, four hours; outside study, eight hours. Introduction to study of performance, arts, and creativity in cultural context. Special attention to relationship between arts and identity and to role of artists in cultural survival. Concurrently scheduled with course C129. S/U or letter grading.

225A-225B. Theories of Movement: Labananaly- sis. (4-6) Lecture, two hours; laboratory, two hours. Theories of Laban movement analysis as means for analyzing and describing human movement. Use of Laban movement analysis to increase movement observation skills and theoretical understanding of role of movement in dance, nonverbal behavior, and cross-cultural dance studies. Focus on complex movement patterns and timing. S/U or letter grading.

229. Food Customs and Symbolism. (4) Lecture, three hours; outside study, eight hours. Designed for graduate students. Introduction to foodways, with particular attention to customs and symbolism in America. Topics include sensorial realm, child rearing practices, foodsharing, food and identity, food symbolism, avant-garde and American diet. Concurrently scheduled with course C129. S/U or letter grading.

241. Carnival and Festivity. (4) Lecture, three hours; fieldwork, one hour. Study of traditional calendrical, religious, and local festivals and related events in their historical and cultural contexts. Emphasis on American festival occasions and their Old World antecedents. Topics include carnival and carnaval and politics of celebration. Concurrently scheduled with course C141. S/U or letter grading.

242. Myth, Magic, and Mind. (4) Lecture, four hours; outside study, eight hours. Designed for graduate students. Consideration of metaphor and symbol, reflexive anthropology, and notion of culture as text applied to such examples as trickster figures, rhetorical devices including parable and irony, and arguably magical experience of humans "shape-shifting" to become animals. Concurrently scheduled with course C142. S/U or letter grading.

243. Production Arts Seminar. (4) Seminar, four hours. Theory and practice of production administration, including hands-on case studies for producing public art or dance and similar performance. Topics include, but are not limited to, history and theories of producing, mission statements, budgeting, marketing, public relations, fund-raising, legalities, and archiving. Concurrently scheduled with course C184. S/U or letter grading.

244. Folk Medicine. (4) Seminar, three hours; outside study, nine hours. Exploration of fundamental concepts, analytical approaches, and recurrent questions in research on folk or traditional medicine, including categories and motivations of healers, varieties of illness, and treatment modalities such as use of faith- and plant-based remedies, along with issues about persistence, efficacy, and development of culturally sensitive healthcare. S/U or letter grading.

245. Selected Topics in Dance Studies. (2 to 4) Lecture, four hours; outside study, eight hours. Designed for graduate students. Selected topics in study of dance and corporeal movement. Consult Schedule of Classes for topics to be offered in specific term. May be repeated for credit without limitation. Concurrently scheduled with course C145. S/U or letter grading.

246. Politics of Performance. (4) Seminar, four hours; outside study, eight hours. Designed for graduate students. Opportunity to reflect on artists and intellectuals as cultural workers operating in domains of ideology, aesthetics, and theory. Analysis of such key political theories, art, politics, intervention, intellectuals, and artists. Concurrently scheduled with course C146. S/U or letter grading.

247. Arts and Healing. (4) Lecture, four hours. Interdisciplinary, contemporary arts-based model of healing, considering the potential for mediating modernist lifestyles and coping with two kinds of social crises during their lifetimes: (1) developmental transitions that are disruptive life-cycle changes that have potential to promote self-regeneration or self-fragmentation, and (2) external transitions that are catastrophic events that evoke great terror and trigger fears of annihilation and chaos, but if successfully negotiated have potential to promote revitalized sense of self, greater compassion for others, and restored sense of trust and hope in humanity. Concurrently scheduled with course C147. S/U or letter grading.

248. Dance as Healing and Therapy. (4) Lecture, two hours; laboratory, two hours; outside study/research, eight hours. Designed for graduate students. Introduction to historical, theoretical, methodological, and ethical considerations involved in practice of dance as healing and therapy. Concurrently scheduled with course C148. Letter grading.

252. History and Theory of Modern/Postmodern Dance. (4) Lecture, four hours; studio, two hours; outside study, six hours. Introduction to key figures in creation of modern dance, with special attention to their theories and philosophies and tracing of radical shift to postmodern dance that occurred in the mid-20th century. Contemporary developments, both historical and theoretical. Study of choreography and writing. Concurrently scheduled with course C152. S/U or letter grading.

255. Self and Culture. (4) Lecture, two hours; laboratory, two hours; outside study, eight hours. Designed for graduate students. Examination of critical developmental processes and situational factors contributing to construction of sense of self and emergence of creativity and subjective relatedness in different cultural contexts. Concurrently scheduled with course C155. S/U or letter grading.

256. Frida Kahlo: Creation of Cultural Icon. (5) Lecture, four hours. Examination of life of renowned Mexican artist Frida Kahlo in light of (1) Mexico's political, religious, and social history that gave rise to mesti- zaje and machismo, (2) the cultural conditions that strongly influenced construction of her mestiza and gender identity, as well as her revolutionary political ideals, (3) obstacles that 20th-century female artists living in patriarchal societies faced, (4) the way her significant attachments influenced her construction of subjective sense of self and kinds of artwork she produced, (5) the role of her complex and her work integrated into the emotional equilibrium, (6) the consequences of her health, and (7) the process tend to promote creation of cultural icons. Concurrently scheduled with course C156. S/U or letter grading.

258. Critical Writing in the Arts. (4) Lecture, four hours; outside study, four hours. Consideration of various critical tactics, including Marxist, radical feminist, and postmodernist approaches to writing about the arts, with eye toward shaping critique of public writing practices and putting that critique into practice. Exploration of new methods and venues for broadening the public debate and for promoting oral performance by artists and curators. Concurrently scheduled with course C164. S/U or letter grading.

268. Beyond Academia: Making Art in the Real World. (4) Lecture, four hours; outside study, eight hours. Designed for graduate students. Focus on understanding bureaucratic structures and regional histories conditioning creation of art in the real world, including such practical issues as publicity and grant-writing. Concurrently scheduled with course C168. S/U or letter grading.
C273. Sound Resources for Performance. (4) Lecture, three hours; studio, one hour; outside study, eight hours. Designed for graduate students. Exploration of music in search of the interesting, new, and unusual. Investigation of musical possibilities via record store, Internet, and music library; environmental sounds and patterns; body (clapping, stepping, and singing); and hardware store (found sound). Participants collaborate with fellow students in creative efforts and in presentations of research results. Concurrently scheduled with course C173. S/U or letter grading.

C275. Applied Folklore. (4) Lecture, four hours. Designed for graduate students. Introduction to methods and issues in application of folklore studies to such areas as education, health, museums, organization development, tourism, environmental planning, economic and community development, aging, art therapy, and public sector folklore. Concurrently scheduled with course C175. S/U or letter grading.

C280. Video Production in Arts. (4) Lecture, one hour; laboratory, three hours. Fundamentals of video production: conceptualization, field recording (camera, lighting, sound, coverage), and editing (organizing raw footage, constructing a program, mastering finished tape). Emphasis alternates quarterly between ethnographic documentary and dance/choreography. May be repeated once for credit. Concurrently scheduled with course C180. Letter grading.

C375. Teaching Apprentice Practicum. (1 to 4) Seminar, to be arranged. Preparation: apprentice or fellow. Teaching apprenticeship under active guidance of professionals in their specialties. S/U or letter grading.

400. Directed Professional Activities. (2 to 8) Lecture, to be arranged. Directed projects in professional editing, bibliography, filmingography, videography, conference and festival direction, and other professional activities. May not be applied toward M.A. degree requirements. May be repeated. S/U grading.

C406A. Advanced World Arts Practices in Sub-Saharan Africa and Diaspora. (2) Studio, three hours; outside study, three hours. Advanced-level study of world arts practices originating from sub-Saharan Africa and African diaspora. Variable topics and genres, such as West Africa (Burkina Faso, Mali, Guinea, Senegal) and diaspora (Haiti, Brazil, Caribbean, Cuba), including cultural and historical context. May be repeated for credit without limitation. Concurrently scheduled with course C106A. S/U or letter grading.

C409A. Advanced World Arts Practices in North America and Diaspora. (2) Studio, three hours; outside study, three hours. Advanced-level study of world arts practices originating from North America, including the U.S., Canada, and Native America. Variable topics, such as Native American dance, jazz, and jazz-tap, in cultural and historical context. May be repeated for credit without limitation. Concurrently scheduled with course C109A. S/U or letter grading.

C413A. Advanced World Arts Practices in Europe and Diaspora. (2) Studio, three hours; outside study, three hours. Advanced-level study of world arts practices originating from Europe and extending to cultures of European diaspora, including the U.S. Variable topics, such as flamenco, Balkan folk dances, and classical ballet, in cultural and historical context. May be repeated for credit without limitation. Concurrently scheduled with course C113A. S/U or letter grading.

C415. Advanced Modern/Postmodern Dance. (2) Studio, six hours. Requisite: course 65. Studies in advanced modern/postmodern dance technique, with emphasis on performing skills. May be repeated for credit without limitation. Concurrently scheduled with course C115. S/U or letter grading.

441. Dance Production Practice. (2 to 4) Laboratory, four to eight hours (one or two hours may be individualized consultation). Skills and understanding of production components in roles of stage manager, production assistants, and producer. May be repeated for a maximum of 8 units. S/U grading.

451. Teaching Assistant Seminar. (2) Seminar, one hour; laboratory, three hours. Required of all World Arts and Cultures Department teaching assistants. Lectures, discussion, readings, and practice teaching. May be repeated once for credit. S/U grading.

452. Directed Field Study in Dance Education. (2 to 8) Seminar, one hour; field study, two hours minimum. Directed field study to provide teaching experience in the community school or other approved site. No more than 4 units may be applied toward M.A. degree requirements. S/U grading.

478. Advanced Private Instruction in World Arts and Cultures. (2 to 8) Studio, three to 12 hours; outside study, three to 15 hours. Private or semiprivate instruction with distinguished community-based artist to be arranged by students and approved by instructor. May be repeated for maximum of 24 units. S/U grading.

480. Seminar: Research Topics. (2) Seminar, two hours. Forum in which faculty, students, and visitors make presentations and obtain feedback on research being planned, in progress, or recently completed. Students required to make a presentation each term they are enrolled for credit. May be repeated for a maximum of 8 units. S/U grading.

490. Projects in Choreography and Performance. (2 to 8) Tutorial, one three-hour rehearsal per unit per week minimum. Creation, casting, and rehearsing of culminating concert; reflecting professional achievement in choreography or performance, in first term. In second term, direction of on-stage rehearsals for culminating concert by each student leading to fully staged performance. May be repeated for a maximum of 16 units. S/U or letter grading.

495. Teacher Preparation in World Arts and Cultures. (2) Seminar, two hours. Directed work in preparation of course syllabi and discussion of topics relevant to developing teaching skills. Fundamental principles and methods with which to design course syllabi and gather resources for courses. Topics include development of teaching philosophy, evaluating/selecting course content, teaching methodologies, assessment/evaluation/grading practices, and consideration of practical, administrative, and ethical issues. Students meet with instructor to review their specific needs as they progress in development and elaboration of course plans. Microteaching sessions provide context for applying concepts and principles discussed. S/U grading.

498. Professional Internship in Dance. (4, 8, or 12) Seminar, to be arranged. Full- or part-time supervised fieldwork. Limited to M.F.A. students. Internship in dance, theater, film, or television organization. Participation in creative, administrative, or technical work of professionals in their specialties. S/U or letter grading.

596A. Directed Individual Study or Research. (2 to 8) Tutorial, to be arranged. S/U or letter grading.

596R. Directed Study or Research in a Hospital or Clinic. (2 to 8) Tutorial, to be arranged. S/U grading.

597. Preparation for Master's Comprehensive Examination or Ph.D. Qualifying Examination. (2 to 8) Tutorial, to be arranged. Preparation for M.A. or M.F.A. comprehensive examination or Ph.D. qualifying examination. S/U grading.

Appendices

APPENDIX A: REGULATIONS AND POLICIES

Nondiscrimination
The University of California, in accordance with applicable Federal and State Laws and University Policies, does not discriminate on the basis of race, color, national origin, religion, sex, gender identity, pregnancy (including pregnancy, childbirth, and medical conditions related to pregnancy and childbirth), disability, age, medical condition (cancer-related), ancestry, marital status, citizenship, sexual orientation, or status as a Vietnam-era veteran or special disabled veteran. The University also prohibits sexual harassment. This nondiscrimination policy covers admission, access, and treatment in University programs and activities.

Inquiries regarding the University’s student-related nondiscrimination policies may be directed to the UCLA Campus Counsel, 3149 Murphy Hall, Box 951405, Los Angeles, CA 90095-1405, (310) 825-4042. Speech- and hearing-impaired persons may call TTY (310) 206-6083.

Inquiries regarding nondiscrimination on the basis of disability covered by the Americans with Disabilities Act (ADA) of 1990 or Section 504 of the Rehabilitation Act of 1973 may be directed to Monroe Gorden, ADA and 504 Compliance, A239 Murphy Hall, UCLA, Box 951405, Los Angeles, CA 90095-1405, voice (310) 825-7906, TTY (310) 206-3349; http://www.saonet.ucla.edu/ada&504/default.html.

Students may complain of any action which they believe discriminates against them on the ground of race, color, national origin, marital status, sex, sexual orientation, disability, or age and may contact the Office of the Dean of Students, 1206 Murphy Hall, and/or the Office of the Vice President for Student Affairs, 1206 Murphy Hall, Box 951405, Los Angeles, CA 90095-1405, voice (310) 825-4042, TTY (310) 206-3349; http://www.saonet.ucla.edu/ada&504/default.html.

Inquiries regarding discrimination at any time that causes, or is likely to cause, physical injury or personal degradation or disgrace resulting in psychological harm to any student or other person.

In determining whether or not to exercise off-campus jurisdiction in cases under alternative A.1 above, the University will consider the seriousness of the alleged misconduct; whether the alleged victim is a member of the campus community; the ability of the University to gather information, including the testimony of witnesses; or whether the off-campus conduct is part of a series of actions that occurred both on and off campus.

This section is intended only to provide guidance for the exercise of discretion by the University in invoking its jurisdiction over conduct that occurs off campus. It may not be relied upon by any student charged under this section to create any rights, substantive or procedural, or as a basis for a challenge to the exercise of the University’s jurisdiction.

B. Types of Misconduct
Students may be disciplined for violations or attempted violations (including aiding, abetting, or participating in the planning of an act that would be in violation of the UCLA Code, whether or not the individual who carries out that act is a student). Violations include the following types of misconduct:

102.01: Academic Dishonesty. All forms of academic misconduct, including but not limited to cheating, fabrication, plagiarism, multipurpose submissions, or facilitating academic misconduct. For the purposes of the UCLA Code, the following definitions apply:

102.01a: Cheating. Cheating includes, but is not limited to, the use of unauthorized materials, information, or study aids in any academic exercise or the failure to observe the expressed procedures or instructions of an academic exercise (e.g., examination instructions regarding alternate seating or conversation during an examination).

102.01b: Fabrication. Fabrication includes, but is not limited to, falsification or invention of any information or citation in an academic exercise.

102.01c: Plagiarism. Plagiarism includes, but is not limited to, the use of another’s words or ideas as if they were one’s own, including but not limited to representing, either with the intent to deceive or by the omission of the true source, part of an entire work produced by someone other than the student, obtained by purchase or otherwise, as the student’s original work or representing the identifiable but altered ideas, data, or writing of another person as if those ideas, data, or writing were the student’s original work.

Student Conduct Policies
Students are members of both society and the academic community with attendant rights and responsibilities. Students are expected to make themselves aware of and comply with the law, and with University and campus policies and regulations. While many of UCLA’s policies and regulations parallel federal, state, and local laws, UCLA’s standards may be set higher. The University of California Policies Applying to Campus Activities, Organizations, and Students (UC Policies) have been incorporated into the UCLA Student Conduct Code either by adapting or inserting verbatim the language of the policies. The complete University of California Policies Applying to Campus Activities, Organizations, and Students is available at http://www.ucop.edu/ucophome/coordrev/ucpolicies/aos/toc.html. Students may contact the Office of the Dean of Students, Office of Ombuds Services, or Student Legal Services for advice concerning these policies.

A. Jurisdiction
The University has jurisdiction over student conduct that occurs on University property, or in connection with official University functions whether on or off University property. Although the University will not routinely invoke its disciplinary processes over student conduct that occurs off campus except in connection with an official University function, the University has discretion to exercise jurisdiction over conduct that occurs off campus and that would violate student conduct and discipline policies or regulations if the conduct had occurred on campus when (1) the alleged misconduct indicates the student poses a threat to the safety or security of any member(s) of the University community or (2) the alleged misconduct involves academic work or the forgery, alteration, or misuse of any University document, record, key, electronic device, or identification.

Specifically, the University may choose to exercise jurisdiction over off-campus incidents under alternative A.1 above where the alleged misconduct involves

a. Physical abuse, including but not limited to sexual assault, sexual misconduct, sex offenses, and other physical assault; threats of violence; or conduct that threatens the health or safety of any person;

b. Stalking (as defined in Section 102.10 of the University of California Policies Applying to Campus Activities, Organizations, and Students);

c. Sexual harassment (as defined in Section 102.01 of the University of California Policies Applying to Campus Activities, Organizations, and Students);

d. Participation in hazing or any method of initiation or preinitiation into a campus organization or other activity engaged in by the organization or members of the organization at any time that causes, or is likely to cause, physical injury or personal degradation or disgrace resulting in psychological harm to any student or other person.

In determining whether or not to exercise off-campus jurisdiction in cases under alternative A.1 above, the University will consider the seriousness of the alleged misconduct; whether the alleged victim is a member of the campus community; the ability of the University to gather information, including the testimony of witnesses; or whether the off-campus conduct is part of a series of actions that occurred both on and off campus.

This section is intended only to provide guidance for the exercise of discretion by the University in invoking its jurisdiction over conduct that occurs off campus. It may not be relied upon by any student charged under this section to create any rights, substantive or procedural, or as a basis for a challenge to the exercise of the University’s jurisdiction.

University of California Policies Applying to Campus Activities, Organizations, and Students (UC Policies) have been incorporated into the UCLA Student Conduct Code either by adapting or inserting verbatim the language of the policies. The complete University of California Policies Applying to Campus Activities, Organizations, and Students is available at http://www.ucop.edu/ucophome/coordrev/ucpolicies/aos/toc.html. Students may contact the Office of the Dean of Students, 1206 Murphy Hall, and/or the Office of the Vice President for Student Affairs, 1206 Murphy Hall, Box 951405, Los Angeles, CA 90095-1405, voice (310) 825-4042, TTY (310) 206-3349; http://www.saonet.ucla.edu/ada&504/default.html.

Students may complain of any action which they believe discriminates against them on the ground of race, color, national origin, marital status, sex, sexual orientation, disability, or age and may contact the Office of the Dean of Students, 1206 Murphy Hall, and/or the Office of the Vice President for Student Affairs, 1206 Murphy Hall, Box 951405, Los Angeles, CA 90095-1405, voice (310) 825-4042, TTY (310) 206-3349; http://www.saonet.ucla.edu/ada&504/default.html.

Inquiries regarding discrimination at any time that causes, or is likely to cause, physical injury or personal degradation or disgrace resulting in psychological harm to any student or other person.

In determining whether or not to exercise off-campus jurisdiction in cases under alternative A.1 above, the University will consider the seriousness of the alleged misconduct; whether the alleged victim is a member of the campus community; the ability of the University to gather information, including the testimony of witnesses; or whether the off-campus conduct is part of a series of actions that occurred both on and off campus.

This section is intended only to provide guidance for the exercise of discretion by the University in invoking its jurisdiction over conduct that occurs off campus. It may not be relied upon by any student charged under this section to create any rights, substantive or procedural, or as a basis for a challenge to the exercise of the University’s jurisdiction.

B. Types of Misconduct
Students may be disciplined for violations or attempted violations (including aiding, abetting, or participating in the planning of an act that would be in violation of the UCLA Code, whether or not the individual who carries out that act is a student). Violations include the following types of misconduct:

102.01: Academic Dishonesty. All forms of academic misconduct, including but not limited to cheating, fabrication, plagiarism, multipurpose submissions, or facilitating academic misconduct. For the purposes of the UCLA Code, the following definitions apply:

102.01a: Cheating. Cheating includes, but is not limited to, the use of unauthorized materials, information, or study aids in any academic exercise or the failure to observe the expressed procedures or instructions of an academic exercise (e.g., examination instructions regarding alternate seating or conversation during an examination).

102.01b: Fabrication. Fabrication includes, but is not limited to, falsification or invention of any information or citation in an academic exercise.

102.01c: Plagiarism. Plagiarism includes, but is not limited to, the use of another’s words or ideas as if they were one’s own, including but not limited to representing, either with the intent to deceive or by the omission of the true source, part of an entire work produced by someone other than the student, obtained by purchase or otherwise, as the student’s original work or representing the identifiable but altered ideas, data, or writing of another person as if those ideas, data, or writing were the student’s original work.
102.01d: Multiple Submissions. Multiple submissions includes, but is not limited to, the resubmission by a student of any work which has been previously submitted for credit in identical or similar form in one course to fulfill the requirements of a second course, without the informed permission/consent of the instructor of the second course; or the submission by a student of any work submitted for credit in identical or similar form in one course to fulfill the requirements of a concurrent course, without the permission/consent of the instructors of both courses.

102.01e: Facilitating Academic Dishonesty. Facilitating academic dishonesty includes, but is not limited to, knowingly helping another student commit an act of academic misconduct (e.g., cheating, fabrication, plagiarism, multiple submissions).

102.01f: Coercion Regarding Grading or Evaluation of Coursework. Threatening personal or professional repercussions or discipline against an instructor to coerce the instructor to change a grade or otherwise evaluate the student’s work by criteria not directly reflective of coursework.

102.02: Other Forms of Dishonesty. Other forms of dishonesty, including but not limited to fabricating information or knowingly furnishing false information or reporting a false emergency to the University.

102.03: Forgery. Forgery, alteration, or misuse of any University document, record, key, electronic device, or identification.

102.04: Theft. Theft of, conversion of, misappropriation of, or damage to or destruction of any property of the University or property of others while on University premises or at official University functions; or possession of any property when the student had knowledge or reasonably should have had knowledge that it was stolen.

102.05: Computers. Theft or abuse of University computers and other University electronic resources such as computer and electronic communications facilities, systems, and services. Abuses include, but are not limited to, unauthorized entry, use, transfer, or tampering with the communications of others; interference with the work of others and with the operation of computer and electronic communications facilities, systems, and services; and violations of copyright laws, whether by theft, unauthorized sharing, or other misuse of copyrighted materials such as songs, movies, software, photos, or text. Violation of the UCLA E-Mail Policy and Guidelines (available at http://www.admin.ucla.edu/appm/public/455.html), of the University of California Electronic Communications Policy (available at http://www.ucop.edu/ucophome/policies/ec/), or of any other University acceptable or allowable use policy is also considered a violation of Section 102.05.

102.06: Unauthorized Use of University Resources or Name. Unauthorized entry to, possession of, receipt of, or use of any University services, equipment, resources, or properties, including the University’s name, insignia, or seal.

102.07: University Housing and Parking.

102.07a: University Housing. Violation of policies, regulations, or rules governing University-owned, -operated, or -leased housing facilities or other housing facilities located on University property.

102.07b: Parking. Violation of policies, regulations, or rules governing University parking services or University-owned or -operated parking facilities.

102.08: Physical Abuse. Physical abuse includes physical assault, sexual assault, sexual misconduct, sex offenses; threats of violence; or other conduct that threatens the health or safety of any person.

Sexual Assault occurs when a person knowingly causes another person to engage in a sexual act by (a) physical force, violence, threat, intimidation, and/or coercion; (b) ignoring the objections of the other person; (c) causing the other’s intoxication or impairment through the use of drugs or alcohol; or (d) taking advantage of the other person’s incapacitation, state of intoxication, helplessness, or other inability to consent. Situations involving physical force, violence, threat, intimidation, and/or coercion fall under the definition of Sexual Assault.

Sexual Misconduct occurs when a person, having failed to take appropriate steps to gain effective consent, engages in a sexual act with another under the unreasonable belief that effective consent had been obtained. Sex offenses include, but are not limited to, sexual assault upon a child, incest, and consensual sex with an individual under the age of consent (18 years of age in California). NOTE: For the purpose of this regulation, the following apply:

1. “Effective consent” referenced in the terms above means words or actions that show a y agreed-upon sexual activity

2. “Sexual act” referenced in the terms above includes, but is not limited to, sexual intercourse, sodomy, oral-genital contact, or sexual penetration with a foreign object (including a finger), the touching of a person’s intimate parts (defined as genitalia, groin, breast, or buttocks, or clothing covering them), or compelling a person to touch his or her own or another person’s intimate parts without effective consent

3. Intoxication of the accused will not diminish his or her responsibility for any violations of this section

102.09: Sexual Harassment. Sexual harassment, as defined in the University of California Policies Applying to Campus Activities, Organizations, and Students (Section 160.00), reads in part: Sexual harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, when submission to or rejection of this conduct explicitly or implicitly affects a person’s employment or education, unreasonably interferes with a person’s work or educational performance, or creates an intimidating, hostile, or offensive working or learning environment. In the interest of preventing sexual harassment, the University will respond to reports of any such conduct.

Refer to the Policy on Sexual Harassment and Complaint Resolution Procedures (section 160.00) for the entire definition. The Policy on Sexual Harassment and Complaint Resolution Procedures is incorporated into the Policy on Student Conduct and Discipline.

102.10: Stalking. Stalking behavior in which a student repeatedly engages in a course of conduct directed at another person and makes a credible threat with the intent to place that person in reasonable fear for his or her safety, or the safety of his or her family; where the threat is reasonably determined by the University to seriously alarm, torment, or terrorize the person; and where the threat is additionally determined by the University to serve no legitimate purpose.

102.11: Harassment. Harassment by a student of any person. For the purposes of this section, harassment

a. Is the use, display, or other demonstration of words, gestures, imagery, or physical materials, or any form of bodily conduct, on the basis of race, color, national or ethnic origin, alienage, sex, religion, age, sexual orientation, or physical or mental disability that has the effect of creating a hostile and intimidating environment sufficiently severe or pervasive to substantially impair a reasonable person’s participation in University programs or activities, or use of University facilities;

b. Must target a specific person or persons; and

c. Must be addressed directly to that person or persons

NOTE: The Office of the President has issued the following guidelines on interpretation and application of this section (102.11: Harassment): “Prior to applying this provision of policy to any student conduct, the Office of General Counsel will be consulted regarding its proper interpretation and application in light of the specific circumstances.”

102.12: Hazing. Participation in hazing or any method of initiation or preinitiation into a campus organization or other activity engaged in by the organization or members of the organization at any time that causes, or is likely to cause, physical injury or personal degradation or disgrace resulting in psychological harm to any student or other person.

102.13: Obstruction or Disruption. Obstruction or disruption of teaching, research, admin-
102.14: Disorderly Conduct. Disorderly or lewd conduct.

102.15: Disturbing the Peace. Participation in a disturbance of the peace or unlawful assembly.

102.16: Failure to Comply. Failure to identify oneself to, or comply with directives of, a University official or other public official acting in the performance of his or her duties while on University property or at official University functions, or resisting or obstructing such University or other public officials in the performance of or the attempt to perform their duties.

102.17: Controlled Substances. Unlawful manufacture, distribution, dispensing, possession, use, or sale of, or the attempted manufacture, distribution, dispensing, or sale of controlled substances, identified in Federal and State laws or regulations.

102.18: Alcohol. Manufacture, distribution, dispensing, possession, use, or sale of, or the attempted manufacture, distribution, dispensing, or sale of alcohol which is unlawful or otherwise prohibited by, or not in compliance with, University policy or campus regulations.

102.19: Destructive Devices. Possession, use, storage, or manufacture of explosives, firebombs, or other destructive devices.

102.20: Weapons. Except as expressly permitted by law, possession, use, storage, or manufacture of a firearm or other weapon capable of causing bodily injury. Except as expressly permitted by University policy, possession, use, storage, or manufacture of replicas of firearms or other weapons.

102.21: Violation of Disciplinary Conditions. Violation of the conditions contained in the terms of a disciplinary action imposed under the UCLA Code.

102.22: Violation of Interim or Emergency Suspension Conditions. Violation of the conditions contained in a written Notice of Interim or Emergency Suspension issued pursuant to Section IV of the UCLA Code.

102.23: Unauthorized Use or Sale of University Materials. Except as provided herein, no student shall give, sell, or otherwise distribute to others or publish any recording made during any course presentation without the written consent of the University and the instructor/presenter. This policy is applicable to any recording in any medium, including handwritten or typed notes.

Any distribution of a recording of a course presentation at UCLA that captures the actual sounds and/or images of that course presentation, in any medium, must consider not only the rights of the instructor and the University, but also those of other parties. Examples include the privacy rights of students enrolled in the course, the rights of guest lecturers, and the copyright interests in materials authored by others that are displayed or presented during the course presentation. In addition to the consent of the University and the instructor/presenter, it may be necessary to secure permission from these other parties before any recording, distribution, publication, or communication is legally permitted.

102.23a: Selling Course Notes. Selling, preparing, or distributing for any commercial purpose course lecture notes or video or audio recordings of any course unless authorized by the University in advance and explicitly permitted by the course instructor in writing. The unauthorized sale or commercial distribution of course notes or recordings by a student is a violation of the UCLA Code whether or not it was the student or someone else who prepared the notes or recordings. This policy is applicable to any recording in any medium, including handwritten or typed notes.

102.23b: Copying Course Notes. Copying for any commercial purpose handouts, readers, or other course materials provided by an instructor as part of a University of California course unless authorized by the University in advance and explicitly permitted by the course instructor or the copyright holder in writing (if the instructor is not the copyright holder). Students currently enrolled in a course may provide a copy of their own notes or recordings to other currently enrolled students for noncommercial purposes reasonably arising from participation in the course, including individual or group study.

102.23c: Commencement Tickets. Selling commencement tickets.

102.24: University Properties. Using University properties for the purpose of organizing or carrying out unlawful activity.

102.25: Violations of Law. Violation of Federal, State, or local laws.

Sexual Assault and Sexual Misconduct

UCLA does not tolerate sexual assault or sexual misconduct. Where there is probable cause to believe a student has committed a sexual assault or has engaged in sexual misconduct, disciplinary action will be pursued. Sanctions may include dismissal from the University.

If a Person Has Been Sexually Assaulted

Those who believe that they are the victims of sexual assault should

1. Immediately call the police department. If possible, call the UCLA Police Department at (310) 825-1491 or 911

2. Get medical attention. Campus police will provide transportation to the Santa Monica-UCLA Medical Center Emergency Room for emergency medical treatment and evidence collection. A counselor from the Rape Treatment Center will be available at that time, free of charge

Utilize campus and community support services:

1. Contact a Rape Services Consultant (RSC) at the Center for Women and Men. RSCs have expertise in working with people who have been sexually assaulted. They can discuss options and alternatives, help identify the most appropriate support services, and provide information about medical care, psychological counseling, academic assistance, legal options, how to file a police report, and how to file a complaint through the Office of the Dean of Students. RSCs are available to assist any UCLA student regardless of where or when the assault occurred. For assistance, contact the Center for Women and Men at (310) 825-3945 or (310) 206-8240 or go to B44 Student Activities Center and ask to speak to an RSC.

2. Contact the Rape Treatment Center at Santa Monica-UCLA Medical Center (310-319-4000) for free emergency medical treatment and counseling services. See http://www.911rape.org.

Caring assistance is available for persons who have been subjected to sexual assault or sexual misconduct. They are encouraged in the strongest terms to make a report.

Harassment

Sexual Harassment

The University of California is committed to creating and maintaining a community where all persons who participate in University programs and activities can work and learn together in an atmosphere free from all forms of harassment, exploitation, or intimidation. Every member of the University community should be aware that the University is strongly opposed to sexual harassment and that such behavior is prohibited both by law and by University policy. The University will respond promptly and effectively to reports of sexual harassment and will take appropriate action to prevent, correct and, if necessary, discipline behavior that violates this policy. See http://www.sexualharassment.ucla.edu.

Definitions

For detailed definitions of sexual harassment, refer to Section 102.09 of the UCLA Student Conduct Code listed above.

Complaint Resolution

Experience has demonstrated that many complaints of sexual harassment can be effectively resolved through informal intervention. Individuals who experience what they consider to be sexual harassment are advised to confront the alleged offender immediately and firmly.

Additionally, an individual who believes that she or he has been sexually harassed may contact the Sexual Harassment Coordinator in 2241 Murphy Hall or a Sexual Harassment Information Center counselor for help and information regarding sexual harassment complaint.
resolution or grievance procedures at one of the locations listed below as determined by the complainant’s status at the University at the time of the alleged incident:

1. Campus Human Resources/Employee and Labor Relations, Manager, 200 UCLA Wilshire Center, (310) 794-0860

2. Campus Human Resources/Staff and Faculty Counseling Center, Coordinator, 380 UCLA Wilshire Center, (310) 794-0248

3. Center for Student Programming, Senior Associate Director, 105 Kerckhoff Hall, (310) 206-2623

4. Center for Women and Men, Director, B44 Student Activities Center, (310) 825-3945

5. Chancellor’s Office, Sexual Harassment Coordinator, 2241 Murphy Hall, (310) 206-3417

6. David Geffen School of Medicine, Dean’s Office, Special Projects Director, 12-138 Center for the Health Sciences, (310) 794-1958

7. Graduate Division, Office Manager, 1237 Murphy Hall, (310) 206-3269

8. Healthcare Human Resources, Employee Relations Manager, 400 UCLA Wilshire Center, (310) 794-0500

9. Lesbian Gay Bisexual Transgender Campus Resource Center, Director, B36 Student Activities Center, (310) 206-3626

10. Neuropsychiatric Hospital, Administration/ Human Resources Associate Director, B7-370 Semel Institute, (310) 206-5258

11. Office of the Dean of Students, Assistant Dean of Students, 1206 Murphy Hall, (310) 825-3871

12. Office of Ombuds Services, 105 Strathmore Building, (310) 825-7627; Student Services Director, (310) 825-2427

13. Office of Residential Life, Judicial Affairs Coordinator, Residential Life Building, 370 De Neve Drive, (310) 825-3401

14. School of Dentistry, Assistant Dean, Student Affairs, AO-111 Dentistry, (310) 825-2615

15. Student Legal Services, Director, 70 Dodd Hall, (310) 825-9894

16. Student Psychological Services, Director, Wooden Center West, (310) 825-0768

17. UCLA Extension, Human Resources Director, 629 UNEX Building, (310) 825-4287; Student Services Director, 214 UNEX Building, (310) 825-2565

**Other Forms of Harassment**

The University strives to create an environment that fosters the values of mutual respect and tolerance and is free from discrimination based on race, ethnicity, sex, religion, sexual orientation, disability, age, and other personal characteristics. Certainly harassment, in its many forms, works against those values and often corrodes a person’s sense of worth and interferes with one’s ability to participate in University programs or activities. While the University is committed to the free exchange of ideas and the full protection of free expression, the University also recognizes that words can be used in such a way that they no longer express an idea, but rather injure and intimidate, thus undermining the ability of individuals to participate in the University community. The University of California Policies Applying to Campus Activities, Organizations, and Students (hereafter referred to as Policies; http://www.ucop.edu/ucophome/coordrev/ucpolicies/aos/toc.html) presently prohibit a variety of conduct by students which, in certain contexts, may be regarded as harassment or intimidation.

For example, harassing expression which is accompanied by physical abuse, threats of violence, or conduct that threatens the health or safety of any person on University property or in connection with official University functions may subject an offending student to University discipline under the provisions of Section 102.08 of the Policies.

Similarly, harassing conduct, including symbolic expression, which also involves conduct resulting in damage to or destruction of any property of the University or property of others while on University premises may subject a student violator to University discipline under the provisions of Section 102.04 of the Policies.

Further, under specific circumstances described in the Universitywide Student Conduct Harassment Policy (http://www.deanofstudents.ucla.edu), students may be subject to University discipline for misconduct which may consist solely of expression. Copies of this Policy are available in the Office of the Dean of Students, 1206 Murphy Hall, or in any of the Harassment Information Centers listed below:

1. Center for Women and Men, B44 Student Activities Center, (310) 825-3945, http://www.thecenter.ucla.edu

2. Dashew Center for International Students and Scholars, 106 Bradley Hall, (310) 825-1681, http://www.internationalcenter.ucla.edu

**Complaint Resolution**

One of the necessary measures in our efforts to assure an atmosphere of civility and mutual respect is the establishment of procedures which provide effective informal and formal mechanisms for those who believe that they have been victims of any of the above misconduct.

Many incidents of harassment and intimidation can be effectively resolved through informal means. For example, an individual may wish to confront the alleged offender immediately and firmly. An individual who chooses not to confront the alleged offender and who wishes help, advice, or information is urged to contact any of the Harassment Information Centers listed immediately above.

In addition to providing support for those who believe they have been victims of harassment, Harassment Information Centers offer persons the opportunity to learn about the phenomena of harassment and intimidation; to understand the formal and informal mechanisms by which misunderstandings may be corrected and, when appropriate, student perpetrators may be disciplined; and to consider which of the available options is the most useful for the particular circumstances.

With regard to the Universitywide Student Conduct Harassment Policy, complainants should be aware that not all conduct which is offensive may be regarded as a violation of this Policy and may, in fact, be protected expression. Thus, the application of formal institutional discipline to such protected expression may not be legally permissible. Nevertheless, the University is committed to reviewing any complaint of harassing or intimidating conduct by a student and intervening on behalf of the complainant to the extent possible.

**Faculty Code of Conduct**

The entire Faculty Code of Conduct can be found in the UCLA Faculty Handbook (copies are available in the Academic Personnel Office, 3109 Murphy Hall, and at http://www.apo.ucla.edu/facultyhandbook/9.htm). Part IIa of the Faculty Code of Conduct outlines faculty obligations to students and reads as follows:

**Teaching and Students**

Ethical Principles: "As teachers, the professors encourage the free pursuit of learning of their students. They hold before them the best scholarly standards of their discipline. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Professors make every reasonable effort to foster honest academic conduct and to assure that their evaluations of students reflect each student's true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic and schol-
arly assistance from them. They protect their academic freedom." (from 1966 AAUP statement, revised 1987)

**Types of Unacceptable Conduct**

Failure to meet the responsibilities of instruction, including (1) arbitrary denial of access to instruction, (2) significant intrusion of material unrelated to the course, (3) significant failure to adhere, without legitimate reason, to the rules of the faculty in the conduct of courses, to meet class, to keep office hours, or to hold examinations as scheduled, (4) evaluation of student work by criteria not directly reflective of course performance, (5) undue and unexcused delay in evaluating student work.

Discrimination, including harassment, against a student on political grounds or for reasons of race, religion, sex, sexual orientation, ethnic origin, national origin, ancestry, marital status, medical condition, status as a covered veteran or, within the limits imposed by law or University regulations, because of age or citizenship or for other arbitrary or personal reasons.

Violation of University policy, including the pertinent guidelines, applying to nondiscrimination against students on the basis of disability.

Use of the position or powers of a faculty member to coerce the judgment or conscience of a student or to cause harm to a student for arbitrary or personal reasons.

Participating in or deliberately abetting disruption, interference, or intimidation in the classroom.

Entering into a romantic or sexual relationship with any student for whom a faculty member has, or should reasonably expect to have in the future, academic responsibility (instructional, evaluative, or supervisory).

Exercising academic responsibility (instructional, evaluative, or supervisory) for any student with whom a faculty member has a romantic or sexual relationship.

**Charges of Violation**

If a student has reason to believe that a faculty member has violated the Faculty Code of Conduct and that formal discipline may be warranted, the alleged violator should be reported to the chair of the department and to the dean of the division or school with a request that a charge be filed with the Academic Senate Charges Committee. If the dean, in consultation with the vice chancellor of Academic Personnel, determines that there are not sufficient grounds for the administration to file a charge, the student may, after discussing the matter with the Office of Ombuds Services and a member of the Academic Senate Grievance and Disciplinary Procedures Committee, file such a charge in person if the student continues to feel it is warranted.

**Residence for Tuition Purposes**

Students who have not been living in California with intent to make it their permanent home for more than one year immediately before the residence determination date for each term in which they propose to attend the University must pay a nonresident tuition fee in addition to all other fees. The residence determination date is the day instruction begins at the last of the University of California campuses to open for the quarter, and for schools on the semester system, the day instruction begins for the semester.

**Laws Governing Residence**

The rules regarding residence for tuition purposes at the University of California are governed by the California Education Code and implemented by Standing Order 110.2 of The Regents of the University of California (http://www.universityofcalifornia.edu/regs/so1102.html). Under these rules adult citizens and certain classes of aliens can establish residence for tuition purposes. There are particular rules that apply to the residence classification of minors (see below).

**Who Is a Resident?**

Persons who are adult students (at least 18 years of age) may establish residence for tuition purposes in California if (1) they are U.S. citizens, (2) they are permanent residents or other immigrants, or (3) they are nonimmigrants who are not precluded from establishing a domicile in the U.S.

Nonimmigrants who are not precluded from establishing domicile in the U.S. include those who hold valid visas of the following types: A, E, G, H-1, H-4, I, K, L, O-1, O-3, R, or V. To establish residence students must be physically present in California for more than one year, and they must have come here with the intent to make California their home as opposed to coming to this state to go to school. Physical presence within the state solely for educational purposes does not constitute the establishment of California residence, regardless of the length of stay. Students must demonstrate their intention to make California their home by severing their residential ties with their former state of residence and establishing those ties with California. If these steps are delayed, the one-year duration period is extended until students have demonstrated both presence and intent for one full year. If their parents are not California residents, students are required to be financially independent in order to be a resident for tuition purposes. Their residence cannot be derived from their spouse, registered domestic partner, or their parents.

**Requirements for Financial Independence**

Students are considered financially independent if one or more of the following apply: (1) they are at least 24 years of age by December 31 of the calendar year for which they are requesting residence classification; (2) they are a veteran of the U.S. Armed Forces; (3) they are a ward of the court or both parents are deceased; (4) they have legal dependents other than a spouse; (5) they are married, have a registered domestic partner, or are a graduate student or a professional student, and they were not claimed as an income tax deduction by their parents or any other individual for the tax year immediately preceding the term for which they are requesting resident classification; or (6) they are a single undergraduate student and they were not claimed as an income tax deduction by their parents or any other individual for the two tax years immediately preceding the term for which they are requesting resident classification, and they can demonstrate self-sufficiency for those years and the current year.

Note: Financial dependence is not a factor in determining residence status for graduate student instructors, graduate student teaching assistants, research assistants, junior specialists, postgraduate researchers, graduate student researchers, and teaching associates who are employed 49 percent or more of full time or awarded the equivalent in University-administered funds (e.g., grants, stipends, fellowships) in the term for which classification is sought.

**Establishing Intent to Become a California Resident**

Indications of students' intent to make California their permanent residence can include the following: (1) registering to vote and voting in California elections, (2) designating California as their permanent address on all school and employment records, including military records if they are in the military service, (3) obtaining a California driver's license or, if they do not drive, a California Identification Card, (4) obtaining California vehicle registration, (5) paying California income taxes as a resident, including California income taxes on income earned outside California from the date they establish residence, (6) establishing a California residence in which they keep their personal belongings, and (7) licensing for professional practice in California.

The absence of these indicia in other states during any period for which students claim residence can also serve as an indication of their intent. Documentary evidence is required, and all relevant indications are considered in determining the classification. Intent is questioned if students return to their prior state of residence when the University is not in session.

**General Rules Applying to Minors**

If students are unmarried minors (under age 18), the residence of the parent with whom they live is considered to be their residence. If they have a parent living, they cannot change their residence by their own act, by the appointment of a legal guardian, or by the relinquishment of their parent’s right of control. If students live with neither parent, their residence is that of the parent with whom they last lived. Unless they are minor aliens present in the U.S. under the terms of a nonimmigrant
visa that precludes them from establishing a domicile in the U.S., students may establish their own residence when both their parents are deceased and a legal guardian has not been appointed. If they derive California residence from a parent, that parent must satisfy the one-year durational residence requirement.

**Specific Rules Applying to Minors**

**Divorced or Separated Parents**

Minor U.S. citizens or eligible aliens may be able to derive California resident status in a California resident parent if they move to California to live with that parent on or before their 18th birthday. If they begin residing with their California parent after their 18th birthday, they are treated like any other adult student coming to California to establish residence.

**Parent of Minor Moves from California**

Students may be entitled to resident status if they are minor U.S. citizens or eligible aliens whose parent(s) was a resident of California who left the state within one year of the residence determination date if (1) they remained in California after their parent(s) departed, (2) they enroll in a California public postsecondary institution within one year of their parent(s) departure, and (3) once enrolled, they maintain continuous attendance in that institution. Financial independence is not required in this case.

**Two-Year Care and Control**

Minor students may be entitled to resident classification if, immediately prior to enrolling in a postsecondary institution, they have been living with and been under the continuous direct care and control of an adult or adults other than a parent for a period of no less than two years. The adult or adults having control must have been residents of California during the one year immediately prior to the residence determination date. The classification continues until students have attained the age of majority and have lived in the state the minimum time necessary to become a resident, so long as continuous full-time attendance is maintained at a postsecondary institution.

**Self-Support**

If students are U.S. citizens or eligible aliens and are minors who can prove that they lived in California for the entire year immediately before the residence determination date, that they have been self-supporting for that year, and that they intend to make California their permanent home, they may be eligible for resident status.

**Exemptions from Nonresident Tuition**

**Member of the Military**

Members of the U.S. military may be exempt from the nonresident tuition fee unless their assignment to California is for the purpose of attending a state-supported institution of higher education. Graduate and professional students are eligible for this exemption until they have resided in California the minimum time necessary to become a resident (366 days). They must provide the residence deputy on campus with a statement from their commanding officer or personnel officer stating that their assignment to active duty in California is not for educational purposes. The letter must include the dates of their assignment to the state.

**Spouse, Registered Domestic Partner, or Other Dependents of Military Personnel**

Students are exempt from payment of the nonresident tuition fee if they are a spouse, registered domestic partner, or natural or adopted child or stepchild who is a dependent of a member of the U.S. military stationed in California on active duty. Graduate and professional students are eligible for the exemption only until they have resided in the state the minimum time necessary to become a resident (366 days). Students must petition for a waiver of the nonresident tuition fee for each term they are eligible. If they are enrolled in an educational institution and the member of the military is transferred on military orders to a place outside California where he or she continues to serve in the Armed Forces, or the member of the military retires from active duty immediately after having served in California on active duty, they may retain this exemption under conditions listed above.

**Child, Spouse, or Registered Domestic Partner of Faculty Member**

To the extent funds are available, if students are an unmarried dependent child under age 21, spouse, or registered domestic partner of a member of the University faculty who is a member of the Academic Senate, they may be eligible for a waiver of the nonresident tuition fee. Confirmation of the faculty member’s membership on the Academic Senate must be secured each term this waiver is granted.

**Child, Spouse, or Registered Domestic Partner of University Employee**

Students may be entitled to resident classification if they are an unmarried dependent child, spouse, or registered domestic partner of a full-time University employee whose assignment is outside California (e.g., Los Alamos Scientific Laboratory). Their parent’s, spouse’s, or registered domestic partner’s employment status with the University must be ascertained each term.

**Child, Spouse, or Registered Domestic Partner of Deceased Public Law Enforcement or Fire Suppression Employee**

Students may be entitled to a waiver of the nonresident tuition fee if they are the child, spouse, or registered domestic partner of a deceased public law enforcement or fire suppression employee who was a California resident at the time of his or her death and who was killed in the course of fire suppression or law enforcement duties.

**Dependent Child of a California Resident**

If students have not been an adult resident of California for more than one year and are the natural or adopted dependent child of a California resident who has been a resident for more than one year immediately prior to the residence determination date, they may be entitled to a waiver of the nonresident tuition fee until they have resided in California the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.

**Native American Graduate of a Bureau of Indian Affairs High School**

Students who are graduates of a California high school operated by the federal Bureau of Indian Affairs may be exempt from the nonresident tuition fee.

**Employee of a California Public School District**

Students holding a valid credential authorizing service in the public schools of the State of California who are employed by a school district in a full-time certificate position may be exempt from the nonresident tuition fee.

**Student Athlete in Training at the U.S. Olympic Training Center, Chula Vista**

Any amateur student athletes in training at the U.S. Olympic Training Center in Chula Vista may be exempt from the nonresident tuition fee until they have resided in California the minimum time necessary to become a resident.

**Graduate of a California High School**

Students who attended high school in California for three or more years (9th grade included) and graduated from a California high school (or attained the equivalent) may be exempt from the nonresident tuition fee. They are not eligible for the exception if they are a nonimmigrant alien.

**Surviving Dependents of California Residents Killed in the September 11, 2001, Terrorist Attacks**

Students who are surviving dependents of California residents killed in the September 11, 2001, terrorist attacks may be exempt from the nonresident tuition fee.

**Recipients of the Congressional Medal of Honor and Their Children under Age 28**

Undergraduate students who are recipients of the Congressional Medal of Honor or who are the children of a recipient may be exempt from the nonresident tuition fee. Recipients must be California residents, and students must be under age 28. Students’ annual income must not exceed the national poverty level. If the recipient was a parent who died, the parent must have been a California resident at the time of death.

**Temporary Absences**

If persons are nonresident students who are in the process of establishing a residence for tuition purposes and they return to their former home during noninstructional periods, their presence in the state is presumed to be solely for educational purposes and only convincing evidence to the contrary rebuts this presumption. Students who are in the state solely for
education purposes are NOT classified as residents for tuition purposes regardless of the length of their stay.

If persons are students who have been classified as residents for tuition purposes and they leave the state temporarily, their absence could result in the loss of their California residence. The burden is on students (or their parents if they are minors) to verify that they did nothing inconsistent with their claim of a continuing California residence during their absence. Steps that students (or their parents) should take to retain a California residence include the following:

1. Continue to use a California permanent address in all records — educational, employment, military, etc.
2. Continue to satisfy California tax obligations. If students are claiming California residence, they are liable for payment of income taxes on their total income from the date they establish their residence in the state, including income earned in another state or country.
3. Retain a California voter's registration and vote by absentee ballot.
4. Maintain a California driver's license and vehicle registration. If it is necessary to change the driver's license or vehicle registration, students must change them back within the time prescribed by law.

Petition for Resident Classification

Students may obtain a petition at 1113 Murphy Hall or at http://www.registrar.ucla.edu/forms/residenceclass.pdf for a change of classification from nonresident to resident status. All changes of status must be initiated at least three weeks in advance of the fee payment deadline for the applicable term.

Time Limitation on Providing Documentation

If additional documentation is required for residence classification but is not readily accessible, students are allowed until the end of the applicable term to provide it.

Incorrect Classification

Students who were incorrectly classified as residents are subject to nonresident classification and to payment of all nonresident tuition fees not paid. If they concealed information or furnished false information and were classified incorrectly as a result, they are also subject to University discipline. Resident students who become nonresidents must immediately notify the residence deputy.

Inquiries and Appeals

Inquiries regarding residence requirements, determination, and/or recognized exceptions should be directed to the Residence Deputy, UCLA Office of the Registrar, 1113 Murphy Hall, Box 951423, Los Angeles, CA 90095-1429 (310-825-3447; http://www.registrar.ucla.edu/faq/residencefaq.htm) or to the Se-
Students not meeting the requirements shown on the schedule may receive a warning letter or have their financial aid suspended. Once deficiencies are satisfied, financial aid may be reinstated.

Financial aid eligibility is reinstated for the term following the term in which students reestablish compliance with the units-per-term schedule. For example, if they successfully complete 16 units in Fall Quarter and therefore make up the deficiency, they become eligible for financial aid in Winter Quarter. Financial aid is then awarded on the basis of their need and the availability of funds.

Appeal Process
Students who fail to meet the satisfactory academic progress standards because of debilitating illness, prolonged hospitalization, death in the immediate family, or other such mitigating circumstances may appeal their disqualification.

To appeal, students should submit a letter and supporting documentation to the Financial Aid Office explaining the circumstances and how they affected their ability to meet the requirements. The satisfactory academic progress appeal coordinator evaluates the request based on the rationale and evidence provided.

Graduate Students

Qualitative Standard
The qualitative standard is enforced by the dean of the Graduate Division in consultation with the department.

Quantitative Standard
Students must successfully complete at least 8 units per term of enrollment to be eligible for financial aid as full-time students. Approved study loads of less than 8 units result in proportionally reduced aid for that term and are charged against the maximum period of eligibility at the appropriate proportional rate.

Disqualification and Appeal Process
If students fail to meet the qualitative and quantitative requirements, their financial aid is discontinued until the deficiencies are made up. Appeals are reviewed by the academic department, the dean of the Graduate Division, and/or the Financial Aid satisfactory academic progress appeal coordinator.

Period of Eligibility
The degree program to which students are admitted determines the maximum number of terms for which they can receive need-based financial aid. Terms for which no need-based aid is received are considered when determining the remaining number of terms of financial aid eligibility.

Students who are in a Master of Fine Arts program or a professional master’s program (other than Master of Fine Arts) are eligible for a maximum of nine terms of need-based financial aid.

Students who are in a Master of Fine Arts program are eligible to apply for aid for the first 12 terms of enrollment. If students are in an M.A. or M.S. program, a doctoral program, or a combination master’s/doctoral program, their eligibility expires after 27 terms of enrollment. Students who change their program may be accommodated through an extension of terms of eligibility. The extension should be secured at the time the program change is made.

Professional Schools
Students attending the Schools of Dentistry, Law, and Medicine are covered by criteria established by the respective school.

Grading Regulations

Assigning a Grade
The instructor in charge of a course is responsible for determining the grade of each student in the course. The standards for evaluating student performance are based on the course description as approved by the appropriate course committee.

The final grade in the course is based on the instructor’s evaluation of the student’s achievement in the course. When on an examination or other work submitted by a student, the student is suspected of having engaged in plagiarism or otherwise having cheated, the suspected infraction is to be reported to the appropriate administrative officer of the University for consideration of disciplinary proceedings against the student. Until such proceedings, if any, have been completed, the grade DR (Deferred Report) is assigned for that course. If in such disciplinary proceedings it is determined that the student did engage in plagiarism or otherwise cheat, the administrative officer, in addition to imposing discipline, reports back to the instructor of the course involved, the nature of the plagiarism or cheating. In light of that report, the instructor may replace the grade DR with a final grade that reflects an evaluation of that which may fairly be designated as the student’s own achievement in the course as distinguished from any achievement that resulted from plagiarism or cheating.

Grade Complaints
A grade may be appealed, on any reasonable grounds, to the instructor, the chair of the department, and the dean of the division or school.

If the student believes that the instructor has violated the Faculty Code of Conduct by assigning the grade on any basis other than academic grounds, the matter should first be taken up with the instructor. If the matter is not resolved, the student may go for counsel to the Office of Ombuds Services or may follow the procedures for the formal filing of charges (see Faculty Code of Conduct earlier in the Appendix). If a charge is sustained by the Academic Senate Committees on Charges and on Privilege and Tenure, an ad hoc committee is appointed within two weeks to review the disputed grade, and any warranted change is made within four weeks.

Correction of Grades
All grades, except DR, I, and IP, are final when filed by the instructor in the end-of-term course report. However, the Registrar’s Office is authorized to change a final grade (1) on written request of an instructor, provided that a clerical or procedural error is the reason for the change or (2) on written request of the chair of the UCLA Academic Senate in cases where it has been determined by the Committee on Privilege and Tenure that an instructor has assigned a grade on any basis other than academic grounds. No change of grade may be made on the basis of reexamination or, with the exception of the I and IP grades, the completion of additional work. Any grade change request made more than one year after the original filing must be validated for authenticity of the instructor’s signature by the department chair. Any grade change request made by an instructor who has left the University must be countersigned by the department chair. No grade change may be made once a student has graduated. All grade changes are recorded on the transcript.

Policy on Alternate Examination Dates
In compliance with Section 92640(a) of the California Education Code, the University must accommodate requests for alternate examination dates for any test or examination at a time when that activity would not violate a student’s religious creed. This requirement does not apply in the event that administering the test or examination at an alternate time would impose an undue hardship which could not reasonably be avoided. Accommodation for alternate examination dates are worked out directly and on an individual basis between the student and the faculty member involved.

In general, students should make such requests of the instructor during the first two weeks of any given academic term, or as soon as possible after a particular examination date is announced by the instructor.

Students unable to reach a satisfactory arrangement with their instructor should contact the Office of Ombuds Services, 105 Strathmore Building, or the Office of the Dean of Students, 1206 Murphy Hall, for assistance.

Instructors who have questions or who wish to verify the nature of the religious event or practice involved should contact the Office of Ombuds Services or the Office of the Dean of Students for assistance.

Undergraduate Final Examinations
No student shall be excused from assigned final examinations, except as provided above in the policy on alternate examination dates and as provided in the following three paragraphs.

The instructor in charge of an undergraduate course is responsible for assigning the final
grade in the course. The final grade shall reflect the student's achievement in the course and shall be based on adequate evaluation of that achievement. The instructor's method of evaluation must be announced at the beginning of the course. The methods may include a final written examination, a term paper, a final oral examination, a take-home examination, or other evaluation device. Evaluation methods must be of reasonable duration and difficulty and must be in accord with applicable departmental policies. Final written examinations may not exceed three hours' duration and are given only at the times and places established and published by the department chair and the Registrar's Office.

At the end of the term in which a student is expected to be graduated, a student's major department may examine him or her in the field of the major, may excuse the student from final examinations in courses offered by the department during that term and, with the approval of the Undergraduate Council, assign a credit value to such general examination. An instructor shall, if he or she wishes, release to individual students their original final examinations (or copies). This may be done by any method that insures the students' right to privacy. Otherwise, the instructor shall retain final examination materials, or a copy thereof, until the end of the next succeeding regular term of instruction, during which period students shall have access to their examinations.

**Disclosure of Student Records**

Pursuant to the Federal Family Educational Rights and Privacy Act (FERPA), the California Information Practices Act, and the University of California Policies Applying to the Disclosure of Information from Student Records, students at UCLA have the right to (1) inspect and review records pertaining to themselves in their capacity as students, except as the right may be waived or qualified under Federal and State Laws and University Policies, (2) have withheld from disclosure, absent their prior consent for release, personally identifiable information from their student records, except as provided by Federal and State Laws and University Policies, (3) inspect records maintained by UCLA of disclosures of personally identifiable information from their student records, (4) seek correction of their student records through a request to amend the records or, if such request is denied, through a hearing, and (5) file complaints with the U.S. Department of Education regarding alleged violations of the rights accorded them by FERPA.

UCLA, in accordance with Federal and State Laws and University Policies, has designated the following categories of personally identifiable information as "directory information" which UCLA may release and publish without the student's prior consent: name, address (local/mailing, permanent, and/or e-mail), telephone numbers, major field of study, dates of attendance, enrollment status, grade level, number of course units in which enrolled, degrees and honors received, the most recent previous educational institution attended, participation in officially recognized activities (including intercollegiate athletics), and the name, weight, and height of participants on intercollegiate athletic teams. Students who do not wish certain items (i.e., name, local/mailing, permanent, and/or e-mail address, telephone numbers, major field of study, dates of attendance, number of course units in which enrolled, and degrees and honors received) of this "directory information" released and published may so indicate through URSA (http://www.ursa.ucla.edu). To restrict the release and publication of the additional items in the category of "directory information," complete the UCLA FERPA Restriction Request form available from Enrollment and Degree Services, 1113 Murphy Hall.

Student records which are the subject of Federal and State Laws and University Policies may be maintained in a variety of offices, including the Registrar's Office, Office of the Dean of Students, UCLA Career Center, Graduate Division, UCLA External Affairs Department, and the offices of a student's College or school and major department. Students are referred to the UCLA Telephone Directory (http://www.directory.ucla.edu) which lists all the offices that may maintain student records, together with their campus address and telephone number. Students have the right to inspect their student records in any such office subject to the terms of Federal and State Laws and University Policies. Inspection of student records maintained by the Registrar's Office is by appointment only and must be arranged three working days in advance. Call (310) 825-3801 or inquire at Academic Record Services, 1134 Murphy Hall.

A copy of the Federal and State Laws, University Policies, and the UCLA Telephone Directory may be inspected in the office of the Information Practices Coordinator, 600 UCLA Wilshire Center. Information concerning students' hearing rights may be obtained from that office and from the Office of the Dean of Students, 1206 Murphy Hall.

**Undergraduate Retention, Graduation, and Time to Degree**

Retention and graduation rates are higher than ever before at UCLA and among the highest for public universities anywhere in the country. Over the past three years, 97 percent of all students entering from high school and 95 percent of all students entering as transfers were still enrolled at UCLA one year later.

Over the past three years, the four-year, five-year, and six-year graduation rates for students entering from high school averaged 65, 67, and 89 percent respectively. Final graduation rates above 90 percent have been observed and projected for all freshmen cohorts entering UCLA since Fall Quarter 2000.

Over the past three years, the two-year, three-year, and four-year graduation rates for entering transfer students have averaged 57, 85, and 89 percent respectively. Final graduation rates above 90 percent have been observed and projected for all transfer cohorts entering UCLA since Fall Quarter 2000.

Time to degree for UCLA undergraduates has declined significantly over the past decade. In 2006-07 approximately 4,025 baccalaureate degrees were awarded to students who entered directly from high school. The average number of quarters registered at UCLA was 12.2, down from an average of 13.3 quarters for similar graduates in 1996-97. Among recent graduates, 74 percent were registered for 12 quarters or less (i.e., four years or less), 84 percent for 13 quarters or less, 90 percent for 14 quarters or less, and 98 percent for 15 quarters or less (i.e., five years or less).

In 2006-07 approximately 2,875 baccalaureate degrees were awarded to students who entered as transfers. The average number of quarters registered at UCLA was 6.7, down from an average of 7.8 quarters for similar graduates in 1996-97. Among recent graduates, 65 percent were registered for six quarters or less (i.e., two years or less), 76 percent for seven quarters or less, 83 percent for eight quarters or less, and 95 percent for nine quarters or less (i.e., three years or less).

Additional information is available at http://www.aim.ucla.edu/Statistics/graduation/graduation.asp.

**Campus Security Information**

**UCLA Police Department**

The UCLA Police Department (UCPD), (310) 825-1491, http://www.ucpd.ucla.edu, is temporarily located in the Kinross Building (between Lot 36 and Gayley Avenue). The sworn State of California Police Officers are empowered by the State of California with the authority to enforce all state and local laws. UCLA police officers patrol the campus 24 hours a day, 365 days a year. They enforce all applicable local, state, and federal laws, arrest violators, investigate and suppress crime, and provide a full range of police services and community safety programs.

The department is linked by computer to city, state, and federal criminal justice agencies that provide access to information concerning criminal records, wanted persons, stolen property, and vehicle identification. The Detective Bureau handles criminal investigations, and detectives conduct interviews, arrest violators, execute search warrants, and file cases with the Los Angeles District and City Attorney Offices.
Incident Reporting
UCLA police officers have primary jurisdiction over the UCLA campus, Reagan UCLA Medical Center, Center for the Health Sciences, Santa Monica-UCLA Medical Center and Orthopaedic Hospital, and University Apartments South. The City of Los Angeles Police Department does not handle calls for service on campus or on most UCLA properties. All requests for police service should be made to UCPD. All crime occurring on campus, the Center for the Health Sciences, and other UCLA properties should be reported immediately to the department to ensure appropriate action is taken. Crimes occurring off campus should be reported immediately to the local law enforcement agency. UCPD does take reports from students, faculty, and staff for incidents occurring in the Westwood area.

Police, fire, or medical EMERGENCIES can be reported by dialing 911 from any telephone on campus. All telephones (University, private, public) located on University grounds are tied into the 911 emergency system. Emergencies can also be reported by using the blue-hooded or yellow Emergency Reporting Telephones located throughout the campus.

Campus community members are encouraged to program the department number (310-825-1491) into their cell phones. When on campus this number should be used in the event of an emergency to avoid the delay that may occur by the time it takes for the emergency cellular operators to transfer calls to the appropriate jurisdiction.

NONEMERGENCY calls for service can be made by contacting the department at (310) 825-1491.

Crime Statistics and Reports
As required by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, UCLA prepares an annual report describing campus security policy and information concerning alcohol and drug use, crime prevention, crime reporting, and related matters. It also includes three years of crime statistics. Printed copies are available by calling (310) 825-1491. The report can be accessed at http://map.ais.ucla.edu/go/1000958.

Community Service Officers
UCPD employs approximately 80 student community service officers (CSOs; http://map.ais.ucla.edu/go/1000806) who are the additional “eyes and ears” (trained observers) of the department and act as nonintervention visual deterrents to crime. CSOs wear high-visibility uniforms and carry two-way police radios. They are dispatched by the department’s Communications Center and provide a direct link to police, fire, and medical aid. CSOs provide security service to a number of campus buildings, including residence halls and libraries. They are most well-known for the Campus Escort Service and the Evening Van Service. The Campus Escort Service operates every day of the year from dusk to 1 a.m. Individuals requesting the service call the Communications Center at (310) 794-9255; a CSO is then dispatched to walk them safely to their destination. The service is available to UCLA students, staff, faculty, and visitors and operates on campus and in the nearby residential areas. The Evening Van Service provides a safe and convenient mode of transportation around campus at night and is accessible to people with disabilities.

Crime Prevention
An involved community is one of the best defenses against crime. Therefore, the department is committed to a community policing philosophy and supports a proactive Crime Prevention Unit (http://map.ais.ucla.edu/go/1001449) that works closely with community members to make UCLA a safer place to work, live, and learn. The unit gives presentations on vehicle and residential security, personal safety, office and equipment security, and rape prevention. Other programs are developed to meet the special needs of the campus community. Brochures and literature on crime prevention and personal safety are available. The Center for Women and Men and the Crime Prevention Unit provide presentations on sexual assault issues. Topics include acquaintance rape education and prevention, personal safety and prevention techniques, recovery from sexual assault, clear communications, pornography, and the continuum of violence and rape in society. The educational programs, tailored to meet the needs of individual audiences, include films, discussion groups, lectures, role-plays, and communication exercises. The Center for Women and Men reaches students through the residence halls, sororities, fraternities, athletic teams, student clubs, and various student functions. Services include crisis intervention and advocacy for victims of sexual assault; short-term counseling and referrals for survivors, their families, and friends; support groups for rape survivors; and self-defense classes and a lending library. The center works closely with the student housing offices and the police department to increase campus safety.

Several programs have been designed to increase the level of crime awareness and campus safety at UCLA. All incidents of criminal activity that pose a potential threat to the campus are brought immediately to the attention of the community through Campus Alert Bulletins (http://map.ais.ucla.edu/go/1001893). Additionally, those interested in receiving public safety bulletins and news briefs can sign up for the public safety list server at http://lists.ucla.edu/cgi-bin/mailman/listinfo/campussafety-l.

Emergency Medical Services
UCPD provides emergency medical assistance for the campus community through the Emergency Medical Service program, which is staffed by students certified as emergency medical technicians (EMTs). As in all emergencies, call 911 for this service.

Alcohol and Substance Abuse Education
Students with alcohol or substance abuse problems create safety and health risks for themselves and others. Such abuses also can result in a wide range of emotional and behavioral problems. Therefore, UCLA makes available to every student a variety of alcohol and substance abuse awareness programs that are designed to discourage the use of illicit substances and to educate students on the merits of legal and responsible alcohol consumption. Student Psychological Services (310-825-0788; http://www.sps.ucla.edu) provides counseling and referral assistance to students who are troubled by alcohol or substance abuse problems. The service is completely confidential and free to regularly enrolled students. All information and counseling is treated in accordance with University Policies and State and Federal Laws. Any decision to seek assistance is not used in connection with any academic determination or as a basis for disciplinary proceedings.

Policies
UCLA is designated as a drug-free environment, and only under certain conditions is alcohol consumption permitted (none is permitted at athletic events). In keeping with its educational mission, the University assumes the responsibility to better inform the UCLA community about alcohol and substance abuse.

The sale, manufacture, distribution, or possession of any controlled substance without a prescription is illegal under both State and Federal Laws. Such laws are strictly enforced by UCLA police officers. Student violators are subject to University disciplinary action, criminal prosecution, fine, and imprisonment. Refer to the UCLA policies on substance abuse for further information.

The sale, consumption, and distribution of alcohol on the UCLA campus is restricted by the UCLA alcohol policy and California State Law. Organizations or groups violating alcohol or substance policies or laws may be subject to sanctions by the University.

Residential Housing
UCLA is the size of a small city and provides residential housing to approximately 11,000 students. Housing facilities range from apartments designed for students with children to multistudent apartment complexes to high-rise student residence halls. UCPD and student housing staff work hand in hand to create a safe and comfortable living and learning environment.

Campuswide security and safety programs for residents are held throughout the year to increase crime potential awareness and improve campus safety. To keep residents immediately informed of major crime or threats to the campus, Crime Alert Bulletins are posted in residential areas by the housing staff. However, residents must take an active role to ensure their own safety by exercising simple common-
senses crime prevention techniques. Because the campus is open 24 hours a day, visitation to residence halls and apartments is not restricted. All residence halls have 24-hour access control on entrance doors, and during the evening hours access control monitors are stationed at each entrance. Police officers and CSOs are also assigned to the residence halls.

UCLA-affiliated organizations that maintain off-campus facilities are under the shared jurisdiction of their local police department and the UCLA Police Department, which provides assistance to students, faculty, and staff and/or referrals to neighboring police departments.

**Safety Tips**
The nature of the studies and research done at UCLA requires many of the campus buildings to be open 24 hours. Because the campus is so large and adjacent to the greater Los Angeles community, individuals with criminal intent are able to access the University grounds. Regardless of the time of day or night and no matter where persons are on campus, they should be alert and aware of their surroundings and exercise good commonsense safety precautions. Anyone parking on campus should remember to lock their vehicles and consider investing in a steering wheel locking device and/or an alarm. Take advantage of all of the safety services provided by the University and UCPD. Use the Campus Escort Service when walking at night. Keep room and apartment doors locked at all times. Most important, anyone needing assistance should not hesitate to contact the department.

**APPENDIX B: UNIVERSITY ADMINISTRATIVE OFFICERS**

Terms of Regents (http://www.universityofcalifornia.edu/regents/) appointed by the Governor expire March 1 of the year in parentheses. The Student Regent (D’Artagnan Scorza) and Alumni Regents serve a one-year term beginning July 1 and ending June 30 of the year listed.

**Regents Ex Officio**

**Governor of California**
Arnold Schwarzenegger

**Lieutenant Governor of California**
John Garamendi

**Speaker of the Assembly**
Karen Bass

**State Superintendent of Public Instruction**
Jack T. O’Connell

**President of the Alumni Associations of the University of California**
David Shewmake

**Vice President of the Alumni Associations of the University of California**
Debbie Cole

**President of the University**
Mark G. Yudof

**Appointed Regents**
Richard C. Blum (2014)
William De La Peña (2018)
Russell S. Gould (2017)
Judith L. Hopkins (2009)
John Hotchkis (2009)
Eddie Island (2017)
Odessa P. Johnson (2012)
Joanne C. Kozberg (2010)
Sherry L. Lansing (2010)
Monica C. Lozano (2013)
George M. Marcus (2012)
Norman J. Pattiz (2015)
Bonnie Reiss (2020)
Frederick R. Ruiz (2016)
Leslie Tang Schilling (2013)
Bruce D. Varner (2018)
Paul D. Wachter (2016)
D’Artagnan Scorza, Student Regent (2009)

**Faculty Representatives to the Board of Regents**
Mary Croughan
Henry C. Powell

**Officers of The Regents**

**Chair of The Regents**
Richard C. Blum

**Vice Chair of The Regents**
Russell S. Gould

**Chief Investment Officer and Acting Treasurer**
Marie N. Berggren

**General Counsel**
Charles F. Robinson

**Secretary and Chief of Staff**
Diane M. Griffiths

**Senior Vice President—Chief Compliance and Audit Officer**
Sheryl Vacca

**Office of the President**

**President of the University**
Mark G. Yudof

**Provost and Executive Vice President—Academic and Health Affairs**
Wyatt R. Humm

**Executive Vice President—Business Operations**
Katherine N. Lapp

**Executive Vice President—Chief Financial Officer**

To be announced

**Executive Vice President—University Affairs**
Bruce B. Darling

**Vice President—Agriculture and Natural Resources**
Daniel M. Dooley

**Vice President—Budget**
Patrick J. Lenz

**Vice President—Finance**
Anne C. Broome

**Vice President—Health Sciences and Services**
To be announced

**Vice President—Investments**
Marie N. Berggren

**Vice President—Laboratory Management**
S. Robert Foley

**Vice President—Legal Affairs**
Charles F. Robinson

**Vice President—Research and Graduate Studies**
Steven V.W. Beckwith

**Vice President—Student Affairs**
Judy K. Sakaki

**Chancellors of the Campuses**

**Chancellor at Berkeley**
Robert J. Birgeneau

**Chancellor at Davis**
Larry N. Vanderhoef

**Chancellor at Irvine**
Michael V. Drake

**Chancellor at Los Angeles**
Gene D. Block

**Chancellor at Merced**
Sung-Mo Steve Kang

**Chancellor at Riverside**
Timothy P. White

**Chancellor at San Diego**
Marye Anne Fox

**Chancellor at San Francisco**
J. Michael Bishop

**Chancellor at Santa Barbara**
Henry T. Yang

**Chancellor at Santa Cruz**
George W. Blumenthal

**University Professors, UCLA**

Robert B. Edgerton, University Professor, Los Angeles, Anthropology, Psychiatry and Biobehavioral Sciences

M. Frederick Hawthorne, University Professor, Los Angeles, Chemistry and Biochemistry

**UCLA Administrative Officers**

**Chancellor**
Gene D. Block, Ph.D.

**Executive Vice Chancellor and Provost**
Scott L. Waugh, Ph.D., Acting

**Administrative Vice Chancellor**
Sam J. Morabito, M.B.A.

**Vice Chancellor—Academic Personnel**
Thomas H. Rice, Ph.D.

**Vice Chancellor—External Affairs**
Rhea Turceltaub, B.A.

**Vice Chancellor—Finance, Budget, and Capital Programs**
Steven A. Olsen, M.P.P.

**Vice Chancellor—Graduate Studies and Dean of Graduate Division**
Claudia Mitchell-Kernan, Ph.D.

**Vice Chancellor—Legal Affairs**
Kevin S. Reed, J.D.

**Vice Chancellor—Medical Sciences**
Gerald S. Levey, M.D.

**Vice Chancellor—Research**
Roberto Peccei, Ph.D.

**Vice Chancellor—Student Affairs**
Janina Montero, Ph.D.

**Vice Provost—Faculty Diversity and Development**
Sung-Mo Steve Kang, Ph.D.

**Vice Provost—Intelectual Property and Industry Relations**
Kathryn Ann Atchison, D.D.S., M.P.H.

**Vice Provost and Dean—UCLA International Institute**
J. Nicholas Enright, Ph.D., Acting

**Vice Provost—Undergraduate Education**
Judith L. Smith, Ph.D.

**University Librarian**
Gary Strong, M.L.S.
University Registrar
Anita L. Cotter, M.S.
Dean of Continuing Education and University Extension
Cathy A. Sandeen, Ph.D.

Deans of UCLA College and Schools
School of the Arts and Architecture
Christopher Waterman, Ph.D.
School of Dentistry
No-Hee Park, D.M.D., Ph.D.
Graduate School of Education and Information Studies
Aimée Dorr, Ph.D.
Henry Samueli School of Engineering and Applied Science
Vijay K. Dhir, Ph.D.
School of Law
Michael H. Schill, J.D.
College of Letters and Science
Division of Humanities
Timothy A. Stowell, Ph.D.
Division of Life Sciences
Emil Reisler, Ph.D.
Division of Physical Sciences
Joseph A. Rudnick, Ph.D., Acting
Division of Social Sciences
Reynaldo F. Macias, Ph.D., Acting
Division of Undergraduate Education
Judith L. Smith, Ph.D.
John E. Anderson Graduate School of Management
Judy D. Olian, Ph.D.
David Geffen School of Medicine
Gerald S. Levey, M.D.
School of Nursing
Courtney H. Lyder, N.D.
School of Public Affairs
Franklin D. Gilliam, Jr., Ph.D.
School of Public Health
Linda Rosenstock, M.D.
School of Theater, Film, and Television
Robert Rosen, M.A.

APPENDIX D:
DISTINGUISHED TEACHING AWARDS
Academic Senate Recipients
Each year the UCLA Alumni Association presents Distinguished Teaching Awards to six Academic Senate faculty members. The highly prized awards are presented at the annual UCLA Alumni Association Awards Ceremony, and selection of recipients is based on recommendations of the Academic Senate Committee on Teaching. Nominations are solicited from academic departments during Fall Quarter.
The Luckman Distinguished Teaching Awards Program was established in late 1991 after receipt of a generous gift from Harriet and Charles Luckman. Awards given for 1992 through 1997 were named the Luckman Distinguished Teaching Awards.
1961
John F. Barron (Economics)
Hector E. Hall (Psychology)
Kenneth N. Trueblood (Chemistry and Biochemistry)
1962
Charles W. Hoffman (Germanic Languages)
Thomas P. Jenkin (Political Science)
Ken Nobe (Chemical Engineering)
1963
Carl W. Hagge (Germanic Languages)
Wendell P. Jones (Economics)
Robert H. Sorgenfrey (Mathematics)
Saul Weinstein (Chemistry and Biochemistry)
1964
Mostafa A. El-Sayed (Chemistry and Biochemistry)
Leon Howard (English)
Moshe F. Rubenstein (Civil and Environmental Engineering)
1965
E.A. Carlson (Biology)
W.R. Hitchcock (History)
Allen Parducci (Psychology)
William R. Romig (Microbiology and Molecular Genetics)
1966
George A. Bartholomew (Biology)
William P. Gerberding (Political Science)
Hans Meyerhoff (Philosophy)
Joseph E. Spencer (Geography)
1967
Basil Gordon (Mathematics)
J.A.C. Grant (Political Science)
William Matthews (English)
David S. Saxon (Physics and Astronomy)
E.K.L. Upton (Physics and Astronomy)
1968
Edward W. Graham (Chemistry and Biochemistry)
W. James Popham (Education)
Sydney C. Rittenberg (Microbiology and Molecular Genetics)
Robert P. Stockwell (Linguistics)
Fred N. White (Physiology)
1969
Robert J. Finkelstein (Physics and Astronomy)
Douglas S. Hobbs (Political Science)
J.E. Phillips (English)
Raymond M. Redheffer (Mathematics)
Margret I. Sellers (Microbiology and Immunology)
1970
Ehrhard Bahr (Germanic Languages)
Joseph Cascarrano (Biology)
B. Lamar Johnson (Education)
Daniel Kivelson (Chemistry and Biochemistry)
Richard D. Lefan (English)
1971
Vernon E. Denny (Chemical Engineering)
Peter N. Ladefoged (Linguistics)
Arthur D. Schwabe (Medicine)
Duane E. Smith (Political Science)
Andreas Tietze (Near Eastern Languages and Cultures)
1972
Barbara K. Keogh (Education)
James N. Miller (Microbiology and Immunology)
David S. Rodes (English)
Ned A. Shearer (Speech)
Charles A. West (Chemistry and Biochemistry)
1973
Kirby A. Baker (Mathematics)
David Evans (Chemistry and Biochemistry)
Albert Hoxie (History)
Nhan Levan (Electrical Engineering)
Judith L. Smith (Physiological Science)
1974
Robert B. Edgerton (Anthropology, Psychiatry and Biobehavioral Sciences)
David S. Eisenberg (Chemistry and Biochemistry)
Victoria A. Fromkin (Linguistics)
Robert C. Neerhout (Pediatrics)
Andrea L. Rich (Speech)
1975
Alma M. Hawkins (World Arts and Cultures)
Morris Holland (Psychology)
Paul M. Schachter (Linguistics)
Stanley A. Wolpert (History)
Richard W. Young (Neurobiology)
1976
Marianne Celce-Murcia (Teaching English as a Second Language and Applied Linguistics)
Jesse J. Dukeminier (Law)
George R. Guffey (English)
Marlyn L. Kourilsky (Education)
Chand R. Viswanathan (Electrical Engineering)
1977
Michael J.B. Allen (English)
Henry M. Cherrick (Dentistry)
Richard C. Maxwell (Law)
J. William Schopf (Earth and Space Sciences)
Verne N. Sellers (Chemistry and Biochemistry)
1978
William R. Allen (Economics)
Michael E. Jung (Chemistry and Biochemistry)
J. Fred Weston (Management)
Thomas D. Wickens (Psychology)
Johannes Wilbert (Anthropology)

APPENDIX C:
ENDOWED CHAIRS
Although UCLA is a public institution, private gifts are increasingly important in maintaining the quality of the University’s three missions of teaching, research, and community service. Among the principal forms of private support are endowed professorships or “chairs,” which support the educational and research activities of distinguished members of the faculty.
As this catalog goes to press, UCLA has 290 endowed chairs which have been approved by the Office of the President of the University of California.
See the complete list of endowed chairs at http://www.registrar.ucla.edu/catalog/.
1979
Steven Krantz (Mathematics)
Paul I. Rosenthal (Communication Studies)
Christopher Salter (Geography)
James H. White (Mathematics)
Stephen C. Yeazell (Law)

1980
A.R. Braunmuller (English)
Fredi Chiappelli (Italian)
Kenneth L. Karst (Law)
Richard F. Logan (Geography)
Ronald F. Zernicke (Psychological Science)

1981
Arnold J. Band (Near Eastern Languages and Cultures)
Charles L. Batten, Jr. (English)
Lucien B. Guze (Medicine)
Gerald Lopez (Law)
Andy Wong (Dentistry)

1982
Dean Bok (Neurobiology)
Robin S. Liggott (Architecture and Urban Design, Urban Planning)
William Melnitz (Theater)
Joseph K. Perlolf (Medicine)
Karen E. Rowe (English)

1983
Claude Bernard (Physics and Astronomy)
Bryan C. Ellickson (Economics)
Robert S. Elliott (Electrical Engineering)
Albert D. Hutter (English)
Charles M. Knobler (Chemistry and Biochemistry)

1984
Robert Dallek (History)
Hooshang Kangerloo (Radiological Sciences)
Jeffrey Prager (Sociology)
Stanley Siegel (Law)
Sandra A. Thompson (Linguistics)

1985
Patricia M. Greenfield (Psychology)
David F. Martin (Computer Science)
Mark W. Plant (Economics)
Ross P. Shideler (Scandinavian Section, Comparative Literature)
William D. Warren (Law)

1986
Roger A. Gorski (Neurobiology)
Patricia A. Keating (Linguistics)
Leonard Kleinrock (Computer Science)
Martin Wachs (Urban Planning)
Scott L. Waugh (History)

1987
Lawrence W. Bassett (Radiological Sciences)
E. Bradford Burns (History)
Kenneth W. Graham, Jr. (Law)
Howard Suber (Film and Television)
Richard A. Yarborough (English)

1988
Alison G. Anderson (Law)
Ann L.T. Bergen (Classics)
Charles A. Berst (English)
Michael J. Goldstein (Psychology)
Richard L. Sklar (Political Science)

1989
John B. Barnett (Mathematics)
Kathleen L. Komar (Comparative Literature, Germanic Languages)
William G. Roy (Sociology)
Stephen Yenzer (English)
Eric M. Zolt (Law)

1990
Peter M. Narins (Physiological Science)
Gary B. Nash (History)
John S. Wiley (Law)
Merlin C. Wittrock (Education)
Ruth Yeazell (English)

1991
Michael R. Asimow (Law)
Edward G. Berenson (History)
Robert A. Bjork (Psychology)
Margaret ReSimmons (Urban Planning)
Kenneth R. Lincoln (English)

1992
Bruce L. Baker (Psychology)
Paul B. Bergman (Law)
Robert B. Goldberg (Molecular, Cell, and Developmental Biology)
Peter E. Kollock (Sociology)
Eugen Weber (History)

1993
Calvin B. Bedient (English)
Richard B. Kaner (Chemistry and Biochemistry)
Katherine C. King (Classics)
William G. Ouchi (Management)
Bruce Schuman (History)

1994
David A. Binder (Law)
Jon P. Davidson (Earth and Space Sciences)
Melvin Oliver (Sociology)
Barbara L. Packer (English)
E. Victor Wolfenstein (Political Science)

1995
Noniko Akatsu (East Asian Languages and Cultures)
Douglas Hallan (Anthropology)
V.A. Kolve (English)
Jerome Rabow (Sociology)
Paul V. Reale (Music)

1996
Walter Allen (Sociology)
Judith A. Carney (Geography)
William M. Gelbart (Chemistry and Biochemistry)
Phyllis A. Guzé (Medicine)
Peter B. Hammond (Anthropology)

1997
Uptal Banerjee (Molecular, Cell, and Developmental Biology)
Christine D. Guitierrez (Education)
Susan McClary (Musicology)
Arnold B. Scheibel (Neurobiology, Psychiatry and Biobehavioral Sciences)
Ivan Szelényi (Sociology)

1998
George W. Bernard (Dentistry)
Verónica Cortinez (Spanish and Portuguese)
Wayne A. Dollase (Earth and Space Sciences)
Jayne E. Lewis (English)
Joshua S.S. Muldavin (Geography)

1999
Grace Ganz Blumberg (Law)
Alessandro Duranti (Anthropology)
Richard H. Gold (Radiological Sciences)
N. Katherine Hayles (English)
Bernard Weiner (Psychology)

2000
Scott H. Chandler (Physiological Science)

Hector F. Myers (Psychology)
David Sklansky (Law)
Robert N. Watson (English)

2001
Michael J. Colacurcio (English)
Glen M. MacDonald (Geography)
Kevin Terraciano (History)
James W. Trent (Education)
Brian Walker (Political Science)

2002
Christopher R. Anderson (Mathematics)
Steven G. Clarke (Chemistry and Biochemistry)
Anne K. Mellor (English)
Lee Todd Miller (Pediatrics)
Grant S. Nelson (Law)

2003
Joseph J. DiStefano III (Computer Science, Medicine)
Robin L. Garrell (Chemistry and Biochemistry)
A.P. Gonzalez (Film, Television, and Digital Media)
Mitchell B. Morris (Musicology)
Kirk J. Stark (Law)

2004
David B. Kaplan (Philosophy)
Kathryn A. Morgan (Classics)
Mark R. Morris (Physics and Astronomy)
Jesus Torrecilla (Spanish and Portuguese)
Joan Waugh (History)

2005
Roger Bourland (Music)
Robert G. Fovell (Atmospheric and Oceanic Sciences)
Elma Gonzalez (Ecology and Evolutionary Biology)
Elizabeth A. Marchant (Spanish and Portuguese)
Mike Rose (Education)
Keith D. Stolzenbach (Civil and Environmental Engineering)

2006
Robert A. Gurval (Classics)
Patricia M. McDonough (Education)
Albert J. Moore (Law)
Kenneth A. Nagy (Ecology and Evolutionary Biology)
David L. Rigby (Geography)
Geoffrey W. Symcox (History)

2007
John A. Agnew (Geography)
Devon Carbado (Law)
Valerie J. Matsumoto (Asian American Studies, History)
Behzad Razavi (Electrical Engineering)
Daniel G. Solórzano (Education)
Blaire Van Valkenburgh (Ecology and Evolutionary Biology)

2008
Elizabeth L. Bjork (Psychology)
Peggy M. Fong (Ecology and Evolutionary Biology)
Non-Academic Senate Recipients

In spring of 1985, the Office of Instructional Development began sponsorship of awards to three instructors who are not members of the Academic Senate. This category includes lecturers and adjunct and clinical faculty members. All non-Academic Senate faculty members who are nominated by their departments are eligible. Recipients are selected by the Academic Senate Committee on Teaching, utilizing the same criteria as that used for Academic Senate members.

The Luckman Distinguished Teaching Awards Program was established in late 1991 after receipt of a generous gift from Harriet and Charles Luckman. Awards given for 1992 through 1997 were named the Luckman Distin-
guished Teaching Awards.

1985
L. Geoffrey Cowan (Communication Studies)
Mary Elizabeth Perry (History)
Linda Diane Venis (English)

1986
David Cohen (Mathematics)
Johanna Harris-Heggie (Music)
Paul Von Blum (Interdisciplinary)

1987
Carol D. Berkowitz (Pediatrics)
Jeffrey I. Cole (Communication Studies)
Cheryl Giuliano (Writing Programs)

1988
Jeanne Gunner (Writing Programs)
Art Huffman (Physics and Astronomy)
David G. Kay (Computer Science)

1989
S. Scott Bartz (History)
Bonnie Lisle (Writing Programs)
Kenneth R. Pfeiffer (Civil Engineering, Psychology)

1990
Lisa Gerrard (Writing Programs)
Andres Durstenfeld (Biology)
Dorothy Phillips (Physiological Science)

1991
Marde S. Gregory (Speech)
Betty A. Luceigh (Chemistry and Biochemistry)
Cheryl Pfiff (Writing Programs)

1992
Janet Goodwin (Teaching English as a Second Language and Applied Linguistics)
Janette Lewis (Writing Programs)
Yihua Wang (East Asian Languages and Cultures)

1993
Stephen Dickey (English)
Sondra Hale (Anthropology)
Jutta Landa (Germanic Languages)

1994
Steven K. Derian (Law)
Linda Jensen (Teaching English as a Second Language and Applied Linguistics)
Shelby Popham (Writing Programs)

1995

Kristine S. Knaplund (Law)
Christopher Mott (English)

1996
Scott Bowman (Political Science)
Timothy Tangherlini (Scandinavian Section)
G. Jennifer Wilson (Honors and Undergraduate Programs)

1997
William McDonald (Film and Television)
Stuart Slavin (Pediatrics)
Sung-Ock Sohn (East Asian Languages and Cultures)

1998
Paul Frymer (Political Science)
George Gadda (Writing Programs)
Julie Giese (English)

1999
Patricia Gilmore-Jaffe (Writing Programs)
Emily Schiller (English)
Scott Voley (UCLA Emergency Medicine Center)

2000
Nicole Dufose (French)
Thomas Holm (Law)
Richard P. Usatine (Family Medicine)

2001
George Leddy (Geography/International Development Studies)
Sandra Mano (Writing Programs)
L. Jean Perry (Molecular, Cell, and Developmental Biology)

2002
Steven Hardinger (Chemistry and Biochemistry)
Colleen K. Keenan (Nursing)
Cynthia Merrill (Writing Programs)

2003
Marjorie A. Bates (Chemistry and Biochemistry)
Anita McCormick (Writing Programs)
Richard Stevenson III (Dentistry)

2004
Andrew Hsu (Philosophy)
Kimberly Jansma (French and Francophone Studies)
Jennifer Westbay (Writing Programs)

2005
Susan Griffin (Writing Programs)
William Grisham (Psychology)
Anahid Keshishian (Near Eastern Languages and Cultures)

2006
Roger E. Bohman (Molecular, Cell, and Developmental Biology)
Jo Ann Damron-Rodriguez (Social Welfare)
Gerald Wilson (Ethnomusicology)

2007
Nancy Ezer (Near Eastern Languages and Cultures)
Fred A. Hagigi (Health Services)
Eric Martin (Film, Television, and Digital Media)

2008
Leigh C. Harris (Writing Programs)
Chi Li (Ethnomusicology)
Robert B. Trelease (Pathology and Laboratory Medicine)

Gold Shield Faculty Prize

The $30,000 Gold Shield Faculty Prize, an award for academic excellence, was created by the Gold Shield Alumnae of UCLA in celebration of their fiftieth anniversary in 1986. The prize is funded by an endowment of $250,000 raised by Gold Shield for this purpose, which has grown to over $450,000. Guidelines provide that the prize “recognize and reward UCLA faculty members who have demonstrated extraordinary accomplishment in teaching and in research or creative activity...and who have made a significant contribution to undergraduate education.” Preference for recipients is given to faculty members in mid-career who do not often receive the extra professional incentives available to distinguished senior faculty.

The Gold Shield Faculty Prize is awarded to each recipient for scholarly use. The awardee is selected every year by a committee of peers appointed by the Academic Senate. Student and Gold Shield representatives are included. Recipients must come from fields that have undergraduate programs at UCLA.

1986-88
Michael E. Jung (Chemistry and Biochemistry)

1988-90
Patricia M. Greenfield (Psychology)

1990-92
Jeffrey C. Alexander (Sociology)

1992-94
J. William Schopf (Earth and Space Sciences)

1994-96
Albert R. Braunmuller (English)

1996-98
Peter M. Narins (Physiological Science)

1998-00
Robert B. Goldberg (Molecular, Cell, and Developmental Biology)

2000-02
Upali Banerjee (Molecular, Cell, and Developmental Biology)

2002-04
Richard B. Kaner (Chemistry and Biochemistry)

2004-06
Andrea M. Ghez (Physics and Astronomy)

2006
Robert N. Watson (English)

2007
William J. Kaiser (Electrical Engineering)

2008
Alicia Gaspar de Alba (Chicana and Chicano Studies)
