UCLA School of Nursing Prelicensure
General Education Requirements

For B.S. (Prelicensure) Freshman and Transfer Students Who Entered Fall Quarter 2006 and Thereafter

Updated July 2015

Refer to the GE search in the Schedule of Classes for the most current GE listings. See the UCLA General Education Course List at http://www.registrar.ucla.edu/ge/.

Foundations of Knowledge

General education (GE) courses are grouped into three foundational areas: Foundations of the Arts and Humanities, Foundations of Society and Culture, and Foundations of Scientific Inquiry.

Ten courses (48 units minimum) are required. A course taken to meet the Writing II requirement may also be applied toward a GE requirement. Preparation for the major courses may overlap with the foundation courses.

Students must meet with the prelicensure student support coordinator in the Student Affairs Office to determine the applicability of GE Cluster courses toward Writing II or GE requirements.

Foundations of the Arts and Humanities

Three 5-unit courses, one from each subgroup:

- Literary and Cultural Analysis
- Philosophical and Linguistic Analysis
- Visual and Performance Arts Analysis and Practice

The aim of courses in this area is to provide perspectives and intellectual skills necessary to comprehend and think critically about our situation in the world as human beings. In particular, the courses provide the basic means to appreciate and evaluate the ongoing efforts of humans to explain, translate, and transform their diverse experiences of the world through such media as language, literature, philosophical systems, images, sounds, and performances. The courses introduce students to the historical development and fundamental intellectual and ethical issues associated with the arts and humanities and may also investigate the complex relations between artistic and humanistic expression and other facets of society and culture.

All Foundations of the Arts and Humanities courses carry a minimum of 5 units.

Foundations of Society and Culture

Three 5-unit courses, one from each subgroup and a third course from either subgroup:

- Historical Analysis
- Social Analysis
- Communication Studies 10

The aim of courses in this area is to introduce students to the ways in which humans organize, structure, rationalize, and govern their diverse societies and cultures over time. The courses focus on a particular historical question, societal problem, or topic of political and economic concern in an effort to demonstrate how issues are objectified for study, how data is collected and analyzed, and how new understandings of social phenomena are achieved and evaluated. Because communication skills are essential in the nursing profession, Communication Studies 10 is recommended for this foundation area.

All Foundations of Society and Culture courses carry a minimum of 5 units.

Foundations of Scientific Inquiry

Four courses, two from each subgroup:

- Life Sciences
- Physical Sciences

The aim of courses in this area is to ensure that students gain a fundamental understanding of how scientists formulate and answer questions about the operation of both the physical and biological world. The courses also deal with some of the most important issues, developments, and methodologies in contemporary science.

Freshman General Education Cluster Program

The Freshman General Education Cluster program is a curricular initiative designed to strengthen the intellectual skills of entering freshmen by introducing them to faculty research and exposing them to the best practices in teaching such as seminars and interdisciplinary study. Clusters are yearlong, collaboratively taught, interdisciplinary courses that focus on a topic of timely importance, such as the global environment or interracial dynamics. The courses are taught by some of UCLA's most distinguished faculty members and seasoned graduate students and are open only to entering freshmen. During Fall and Winter Quarters, students attend lecture courses and small discussion sections and/or laboratories. In Spring Quarter, the same students enroll in one of a number of satellite seminars dealing with topics related to the cluster theme. See http://www.uei.ucla.edu/clusters.htm.

Students must meet with the prelicensure student support coordinator in the Student Affairs Office to determine the applicability of GE Cluster courses toward Writing II or GE requirements. Completion of a GE Cluster series may satisfy no more than four requirements. The third term of a cluster may satisfy a GE requirement OR Writing II requirement. See http://www.registrar.ucla.edu/soc/writing.htm for details of the Writing I and II requirements.
