## UCLA Fee Reduction Request

## **INSTRUCTIONS**

Certain qualified undergraduate students, when properly approved by the dean of their College or school for enrollment in 10 units or less, may be eligible for a one-half reduction in tuition (and nonresident supplemental tuition, when applicable). Consult with the College or school for eligibility requirements. See current term fees and reduced fee program information on the Registrar website.

Complete this form and file it with the appropriate College or school office, with any required verification, by Friday of the second week of the term. The student must be enrolled in 10 or fewer units by Friday of the third week of classes or be billed for excess units. If the student enrolls in or receives credit for more units than approved, a bill will be issued for repayment of the amount by which fees were reduced. This deadline should not be confused with the fourth-week drop deadline for nonimpacted courses.
